# Safety Precautions

To reduce the risk of injury, loss of life, electric shock, fire, malfunction, and damage to equipment or property, always observe the following safety precautions.

## Explanation of symbol word panels

The following symbol word panels are used to classify and describe the level of hazard, injury, and property damage caused when the denotation is disregarded and improper use is performed.

### **WARNING**

Denotes a potential hazard that could result in serious injury or death.

### **CAUTION**

Denotes a hazard that could result in minor injury.

The following symbols are used to classify and describe the type of instructions to be observed.

These symbols are used to alert users to a specific operating procedure that must not be performed.

This symbol is used to alert users to a specific operating procedure that must be followed in order to operate the unit safely.

## **WARNING**

**If a Malfunction or Trouble Occurs, Immediately Stop Use**

**If a Malfunction Occurs, Immediately Unplug the AC Plug and Remove the Unit From This Product**

- This product is damaged
- A foreign object is inside this product
- Smoke is emitted
- An unusual smell is emitted
- Unusually hot

Continuing to use this product while any of the above conditions are present may result in fire or electric shock.

- If a malfunction or trouble occurs, immediately unplug the AC plug and remove the unit from this product. Then, contact your technical support office for repair.

**Do Not Touch This Product In a Thunderstorm If Connected with the AC Cable or Any Other Cables**

Electric shock may result.

**Do Not Place Containers of Liquid or Metal Objects on Top of This Product**

If water or other liquid spills, or if paper clips, coins, or foreign matter get inside this product, fire or electric shock may result.

- If foreign matter has found its way inside, immediately unplug the AC plug and remove this product from the unit. Then contact your technical support office.

**Do Not Connect the AC Adaptor to a Power Source Other Than a Standard Household AC Outlet**

Otherwise, a fire due to overheating may result. Connecting to a DC/AC converter (inverter) may damage the AC adaptor. On an airplane, only connect the AC adaptor/charger to an AC outlet specifically approved for such use.

 <b>CAUTION</b>	
	<b>Do Not Place This Product on Unstable Surfaces</b> If balance is lost, this product may fall over or drop, resulting in an injury.
	<b>Do Not Keep This Product Wherever There is a Lot of Water, Moisture, Steam, Dust, Oily Vapors, etc.</b> Otherwise, possibly resulting in fire or electric shock.
	<b>Do Not Leave This Product in High Temperature Environment for a Long Period of Time</b> Leaving this product where it will be exposed to extremely high temperatures such as near fire or in direct sunlight may deform the cabinet and/or cause trouble in the internal parts. Continued use in such a resulting condition may lead to short-circuiting or insulation defects, etc. which may in turn lead to a fire or electric shocks.
	<b>Use Only the Specified AC Adaptor With This Product</b> Using an AC adaptor other than the one supplied (supplied with the unit or one sold separately as an accessory) may result in a fire.

	<b>Do Not Connect a Telephone Line, or a Network Cable Other Than the One Specified, Into the LAN Port</b> If the LAN port is connected to a network such as the ones listed below, a fire or electric shock may result. <ul style="list-style-type: none"> <li>• Networks other than 1000BASE-T, 100BASETX or 10BASE-T</li> <li>• Phone lines (IP phone (Internet Protocol Telephone), Telephone lines, internal phone lines (on-premise switches), digital public phones, etc.)</li> </ul>

# Regulatory Information

## Information on Disposal for Users of Waste Electrical & Electronic Equipment (private households)

This symbol on the products and/or accompanying documents means that used electrical and electronic products should not be mixed with general household waste. Please dispose of this item only in designated national waste electronic collection schemes, and not in the ordinary dust bin.

### For business users in the European Union

If you wish to discard electrical and electronic equipment, please contact your dealer or supplier for further information.

### Information on Disposal in other Countries outside the European Union

This symbol is only valid in the European Union.  
 If you wish to discard this product, please contact your local authorities or dealer and ask for the correct method of disposal.

36-E-1

Do not use other than the specified AC Adaptor (Model No. CF-AA6413C).

# Regulatory Information

## For U.S.A.

### Federal Communications Commission Radio Frequency Interference Statement

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the Panasonic Service Center or an experienced radio/TV technician for help.

### Warning

To assure continued compliance, use only shielded interface cables when connecting to a computer or peripheral. Also, any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

This device is Class B verified to comply with Part 15 of FCC Rules when used with Panasonic Notebook Computer.

# Introduction

Thank you for purchasing the port replicator for the Panasonic UT-MB5000 personal computer series\*1. In combination of the computer and this product, you can connect variety of devices.  
\*1 This port replicator cannot be used for other models.

## ■ Accessories

Operating Instructions (This book).....	1
---	---

### NOTE

- This manual explains the procedure for default settings. The procedure may differ according to the settings.
- **Windows 8** indicates Windows® 8 Operating System.
- **Windows 7** indicates Windows® 7 Professional Operating System.
- ➡ : Page in these Operating Instructions.
-  : Reference to the on-screen manuals of the computer.
- Some illustrations are simplified to help your understanding and may look different from the actual unit.

Microsoft® and Windows® are registered trademarks of Microsoft Corporation in the United States and/or other countries.  
Roxio Creator is a trademark or registered trademark of Corel Corporation in the United States and/or other countries.  
HDMI, the HDMI Logo and High-Definition Multimedia Interface are trademarks or registered trademarks of HDMI Licensing LLC in the United States and other countries.  
Names of products, brands, etc., appearing in this manual are trademarks or registered trademarks of their respective own companies.

# Names and Functions of Parts

The port replicator allows your peripheral devices to function exactly as if they were connected directly to the computer. (Refer to “Description of Parts” in the “Operating Instructions” accompanying the computer.)

## CAUTION

- Do not touch the cradle connector, pins or terminals of the cradle.

## Rear

## Back Side

A Kensington cable can be connected. For more information, read the manual that comes with the cable.

# Connecting / Disconnecting

## CAUTION

- Do not connect or disconnect the cradle while the computer is powered on or in the sleep or hibernation mode.

## ■ Connecting

- ① Power off the computer, and disconnect all cables from the computer.
- ② Connect the AC adaptor that came with the computer to the cradle and plug the other end into an AC outlet.

## CAUTION

- Refer to the “Operating Instructions” accompanying computer for information on proper handling of the AC adaptor and AC cord.

- ① Gently place the computer on the cradle.  
Insert the computer to the frame of the left and right sides of the cradle.

## CAUTION

- Do not connect the computer to a cradle while the AC adaptor or other cables is connected to the computer.
- Do not attempt to make connections if there is any object between the computer and the cradle. Doing so could damage the computer and the cradle.

# Connecting / Disconnecting

## ■ Changing Angles

Rotate the stand, please install the cradle.  
You can change the optimum angle for writing.

## ■ Disconnecting

- ① Power off the computer.
- ② Lift up the computer to remove it from the cradle.

## お願い

- If the cradle is connected to the computer, connect the LAN cable and VGA cable to the jack and port on the cradle. Do not use the LAN port and VGA port on the computer.
- Do not connect/disconnect peripheral devices in sleep or hibernation.
- If devices connected to USB 3.0 ports do not operate, confirm the AC adaptor is connected to DC-IN of the cradle.
- For more information about the settings and preparations of the peripheral devices, refer to the peripheral devices' own operating instructions.
- When connecting the external display to either of the ports, lines or letters may blur. In that case, lower the resolution.
