

# PANTECH

## User Guide for ADR910L

Thank you for choosing the Pantech ADR910L, our latest smartphone.

The Pantech ADR910L has many features designed to enhance your mobile experience. With its unique, stylish design, you will enjoy the entire ADR910L experience.

This User Guide contains important and useful information that will maximize your familiarity with all that the Pantech ADR910L has to offer.

# IMPORTANT SAFETY INFORMATION

## ABOUT BATTERY USAGE

Your phone is powered by a Lithium Ion (Li-Ion) battery. Therefore, you can recharge the battery while some charge remains without reducing your phone's autonomy. For safe use of the battery:

- Do not use a damaged battery or charger.
- Do not disassemble, open, crush, bend, deform, puncture, or shred the battery.
- Do not modify or remanufacture, insert foreign objects into the battery, immerse or expose to water or other liquids, expose to fire, explosion or other hazard.
- Do not put your battery in contact with conductive objects.
- Dispose of and recycle used batteries in accordance with local regulations. Do not dispose of batteries by burning; they may explode.
- Do not use an unauthorized charger or battery.
- Use the battery only for the device for which it is specified.
- Use the battery with a charging device that has been qualified for the device per this standard. Use of an unqualified battery or charger may present a risk of fire, explosion, leakage, or other hazard.
- Do not short circuit a battery or allow metallic conductive objects to contact battery terminals.
- Replace the battery only with another battery that has been qualified with the device per this standard, IEEESTd-1725-2006.
- Children should be supervised when they use the battery.

- Avoid dropping the phone or the battery. If the phone or the battery is dropped, especially on a hard surface, and the user suspects damage, take it to a service center for inspection.
- Use your battery for the specified purpose only.
- The closer you move to your network's base station, the longer you can use your phone because less battery power is required for connection.
- The battery recharging time varies depending on the remaining battery capacity and the battery and charger type.
- Battery life inevitably shortens over time.
- Since overcharging may shorten battery life, remove the phone from its charger once it is fully charged. Unplug the charger once charging is complete. Leaving the battery in hot or cold places, especially inside a car in summer or winter, may reduce its capacity and life.
- To prevent injury or burns, ensure that no metal objects come into contact with the + and – terminals of the battery.

## BASIC INSTRUCTIONS

### USEFUL TIPS TO UNDERSTAND USER GUIDE

To understand information contained in this user guide and activities that you can do with the ADR910L, keep in mind the following tips:

- It is assumed that you start operating applications of the ADR910L from the Applications screen.
- 1** Touch **Menu** from the Home screen to access the Applications screen.

## BASIC INSTRUCTIONS

- 2 Swipe the screen left or right and run the application you want to use. Applications are arranged by category. You can rearrange them.

Accessing applications

Navigating Applications

- Words in bold type refer to the relevant action on the screen. For example, “Touch **Gmail**” means that you have to touch Gmail below the Gmail icon . Words might be placed below or next to an icon or included in the text.
- The symbol “>” refers to the next action. For example, “Touch **Settings** > **Language & input**” means that you should touch **Settings** first and then **Language & input** next.
- Applications screen refers to the screen where all applications of the ADR910L appear.
- Home Screen refers to the screen that appears first when you unlock the screen.
- Idle mode refers to the status where you stay on the Home screen ready to run an application.

- Launcher bar refers to the bar on the bottom of the Home Screen where you can place favorite applications.
- Channels through which you can share items, e.g. contacts and pictures, increase as you subscribe to services. For example, if you sign up for Facebook or Twitter, you can also share information through Facebook or Twitter.
- Captured images in this user guide might change according to the relevant software upgrade.

## COMMON ICONS

Icon	Selected to
	Adjust value
	Rearrange the selected item
	The battery is charging
	SD card prepared
	There is an error
	Delete the selected item
	Strength of battery: The greener, the more battery is charged

## BASIC INSTRUCTIONS

Icon	Selected to
	There is no SIM/USIM card
	The memory disk is full
	The phone will not ring when there is an incoming call

## GETTING STARTED

This chapter provides important information to know before using the ADR910L, including:

- CHECKING PACKAGE
- REMOVING THE BATTERY COVER
- REPLACING THE BATTERY COVER
- INSTALLING THE 4G SIM CARD
- REMOVING THE 4G SIM CARD
- INSTALLING THE microSD™ CARD
- REMOVING THE microSD™ CARD
- INSTALLING THE BATTERY
- REMOVING THE BATTERY
- CHARGING THE BATTERY
- POWERING YOUR PHONE ON/OFF
- MANAGING SCREEN
- OVERVIEWING PRODUCT
- GRIPPING ADR910L
- ACTIVATING ADR910L
- BACKING-UP DATA
- UNDERSTANDING HOME SCREEN
- CUSTOMIZING HOME SCREEN
- MANAGING APPLICATIONS SCREEN

# GETTING STARTED

## CHECKING PACKAGE

Check if the package contains the following items:

- Handset
- Standard Lithium-Ion Battery
- Wall/USB Charger
- Quick Start Guide
- User Guide
- Product Safety & Warranty Brochure

 **Note** You can purchase the Wireless Charging Inductive Battery Cover from the Verizon stores. It must be used with the Wireless Charging Pad certified by Wireless Power Consortium (WPC).

It is recommended that you purchase the following accessories to use the ADR910L in a safe and convenient manner.

- LCD protective film
- External memory card adaptor

## REMOVING THE BATTERY COVER

- 1 Turn off your phone and hold it securely with both hands with the front facing out.
- 2 Place your finger nail in the groove at the bottom of the unit, and then lift it up.

## REPLACING THE BATTERY COVER

Place the battery cover over the battery compartment and press it downward until it clicks into place.

## INSTALLING THE 4G SIM CARD

- 1 Turn off your phone and remove the battery cover and battery.
- 2 Insert the 4G SIM card into the slot. Make sure that the gold contacts of the card go against the metal contacts of your phone.

## REMOVING THE 4G SIM CARD

- 1 Turn off your phone and remove the battery cover and battery.
- 2 Hold the 4G SIM card carefully and slide it out from the slot.

### ABOUT 4G SIM CARD

When you subscribe to your network operator, you receive the Subscriber Identity Module (SIM) card or RUIM (Re-Usable Identification Module) card that houses your registration information, PIN code, etc. Keep it secure and handle carefully like a credit card. Do not bend, scratch or expose it to moisture. Avoid static electricity.

## INSTALLING THE microSD™ CARD

- 1 Turn off your phone and remove the battery cover and battery.
- 2 Insert the microSD™ card into the slot. Ensure that the gold contacts of the card go against the metal contacts of the phone.
- 3 Replace the battery cover by sliding it up until you hear “CLICK.”

## REMOVING THE microSD™ CARD

- 1 Turn off your phone and remove the battery cover and battery.
- 2 Hold the microSD™ card carefully and slide it out from the slot.

### ABOUT microSD™ CARD

A microSD™ card is a removable flash memory card where you can save data. Save pictures and contacts, and download applications to the card. You can expand the external memory up to 32GB. It is recommended that you format the microSD™ card before using with the ADR910L. For more information on erasing microSD™ card, refer to page 197.

## INSTALLING THE BATTERY

- 1 Hold your phone tightly after removing the battery cover.
- 2 Align the battery contacts (1) with the terminals in the battery compartment.
- 3 Press the battery down (2) until it clicks into place.
- 4 Replace the battery cover over the battery compartment, slide it upward until it clicks into place.

## REMOVING THE BATTERY

- 1 Hold your phone tightly after removing the battery cover.
- 2 Remove the battery from the battery compartment by lifting the top of the battery using the fingertip cutout.

### ABOUT BATTERY

The ADR910L uses a Lithium Ion (Li-Ion) battery. Make sure to use the authorized battery and charger only. Maximum hours to use the battery might vary depending on service types offered by the service provider and temperatures. For more details, contact your nearest dealer.

## CHARGING THE BATTERY

- 1 Connect the USB cable into the Wall/USB Charger.

**Note** Make sure to align the connector as indicated in the image. Otherwise, the charging connector will be damaged and the battery will not be charged.

- 2 Plug the USB cable into the phone's charging port. Plug the Wall/USB Charger into an electrical outlet. The battery starts charging.
- 3 Disconnect the charger when the battery is fully charged.

## POWERING YOUR PHONE ON/OFF

It's important to fully charge the battery before turning on your phone.

- 1 Ensure that the 4G SIM card and the battery are safely installed in your phone.

- 2 Press and hold the Power/Lock key  at the top left of the phone for a few seconds until the screen lights up.
- 3 To turn off the phone, press and hold the Power/Lock Key  until the pop-up menu appears.
- 4 Touch **Power off** in the pop-up menu.
- 5 Touch **OK** to confirm that you want to turn off the phone.

## MANAGING SCREEN

### UNLOCKING THE SCREEN

The screen is locked by default when you turn on power for the first time. To unlock the screen:

- 1 Press the Power/Lock Key .
- 2 Drag the lock to the right. Draw a pattern if the screen is protected by a pattern lock. Enter a PIN or a password if the screen is locked by a PIN or a password. You can also unlock the screen with your face recognized.

 **Note** You can check missed calls, messages or emails quickly when the screen is locked: Drag the icon for call, message or email to the clock located in the middle of the screen.

## UNLOCKING THE SCREEN WITH FACE

- 1 Press the Power/Lock Key .
- 2 Move your face and adjust it to the circle in the screen. If you fail to unlock the screen with face, draw a pattern or enter the PIN. Refer to page xx for more information.

## LOCKING THE SCREEN

To lock the screen, press the Power/Lock Key . If you want to get the ADR910L locked automatically in a predetermined time, refer to page 189 for screen timeout.

It is recommended to lock the screen to protect information contained in the ADR910L and to conserve battery power.

## USING THE TOUCHSCREEN

Your touchscreen provides an excellent way to interact with and use your Android phone. With the touch of your finger, you can download and use available applications, make menu selections, and access data saved to your phone.

The following terms are used for describing the different available actions using the touchscreen:

- **Touch:** A single finger touch selects items. For example, touch an icon (e.g., Application screen item), touch words (e.g., menu selection or to answer an on-screen question), or touch letters and numbers to type on the virtual QWERTY keypad.

- **Touch and hold:** Touch and hold an item on the screen by touching it and not lifting your finger until an action occurs. For example, to open a pop-up menu for customizing the Home screen, touch and empty area on the Home screen until the pop-up menu appears.
- **Drag:** Touch and hold an item for a moment and then, without lifting your finger, move your finger on the screen until you reach the target position. You can drag items on the Home screen to reposition them.
- **Pinch:** Place two fingers on the screen and move them apart to zoom in on a picture, a document or a web page, or move them together to zoom out.
- **Swipe or slide:** Quickly move your finger across the surface of the screen, without pausing when you first touch it (so you don't drag an item instead). For example, you can slide (move) the screen up or down to scroll through a list, or browse through the different Home screens by swiping from left to right (and vice versa).

 **Note** Use one finger at a time except when you deal with a picture or a document. The ADR910L will not recognize when you use more than two fingers.

 **CAUTION**

- Do not use sharp tools that can scratch the touch screen.
- Do not allow the touch screen to come in contact with water or chemicals. The touch screen may malfunction in humid conditions or in chemicals.
- Do not sit on the ADR910L. The touch screen can be damaged.

## OVERVIEWING PRODUCT

### FRONT VIEW

Key	Function
MENU 	Displays options available; rearranges the Home screen
HOME 	Moves to the Home screen; runs the task manager when you press and hold this key
BACK 	Ends an application; returns to the previous menu
MULTI-TASKING 	Displays recent applications that you used

 **Note** Make sure not to cover the proximity sensor with the LCD protection film. If the sensor is covered, you might experience difficulties using the touch screen.

## REAR VIEW

Name	Description
SPEAKER	Sends sound
CAMERA LENS	Takes pictures and records video through this lens

## QWERTY KEYPAD

Key	Function
	Enters the secondary character on the right of each key
	Provides options available
	Moves to the Home screen
	Enters a space

For more information on using the QWERTY keypad, refer to page xx.

## USING THE HEADSET JACK

You can control your device's accessories by inserting the connector into the 3.5mm Headset Jack on your phone.

**Note** Stereo earphones that support common call management features including making and answering calls may not have been standardized. Therefore, the phone may not be compatible with some stereo earphones.

## GRIPPING ADR910L

It is strongly recommended that you hold the ADR910L in the right position for a call as indicated below:

- Make sure not to block the antenna embedded in the ADR910L. Check the location of the antenna on the illustration on page 24.

- Do not wear metal accessories on your hand: it can affect the quality of calls.

## ACTIVATING ADR910L

You will go through a few processes when you turn on the ADR910L for the first time after inserting the battery.

### INITIAL SET-UP

- 1 Press and hold the Power/Lock Key  to turn on the ADR910L.
- 2 Select and touch the language for the ADR910L and touch **Next**.
- 3 In the Backup Assistant screen, touch **Next** if you want to register your account with the Backup Assistant Plus. Touch **Skip** if you want to register accounts later.
- 4 In the Setup email screen, select and touch an account that you want to set up. Refer to page 77. Touch **Skip** if you want to set up the email account later.
- 5 In the Setup Google account screen, touch **Next** and follow the instructions or **Sign In** if you already have an account. Touch **Skip** if you want to set up the a Google account later. For creating a Google account, refer to page 28.
- 6 In the Privacy Caution screen, touch **Next**.
- 7 In the Location Consent screen,
  - Touch **VZW Location Services > Agree**.
  - Touch **Standalone GPS Services > Agree**.
  - Touch **Google Location Services > Agree**.

Touch **Next** when you finish selecting the location consent option.

- 8 Touch **Basic Setup and Usage Videos** and watch Guided Tours. If you finish checking it, touch **Done**. Or you can touch **My Verizon Mobile** and see the related video.
- 9 Touch **Finish** and the first process to set up the ADR910L is done.

⚠ **Note** You can do all of these steps later by touching **Setup Wizard** from the Applications screen.

## CREATING A Google ACCOUNT

It is recommended that you have a Google account to use a few applications of the ADR910L.

- 1 From the Applications screen, touch **Settings > Accounts & sync > ADD ACCOUNT**.
- 2 Touch **Google > New**.
- 3 Enter your first name and last name for the account, and touch **Next**.

- 4 Enter the user name for Gmail, and touch **Next**. The user name should be 6–30 characters long. You can select an alternative.

Touch **Try again** if you have entered another user name.

- 5** Enter a password and enter it again to confirm. You should enter at least 8 characters.
- 6** Touch **Next**.
- 7** Enter an email address that you can use for recovery.
- 8** Select and touch a security question and enter an answer.
- 9** Touch **Next**.
- 10** Touch **I agree, Next** for the Google Terms of Service.
- 11** Touch **Try again** if your password is too weak for a password or contains invalid characters.
- 12** Repeat the steps 5 to 9.
- 13** Type the characters that appear on screen and touch **Next**.
- 14** Touch **Sync Contacts** if you want to synchronize your contacts.  
Touch **Sync Gmail** if you want to synchronize Gmail.

## BACKING-UP DATA

Back-up important data saved in the ADR910L using Backup Assistant.

### REGISTERING ACCOUNTS

- 1 Touch **People** from the Home screen.
- 2 Touch  and touch **Backup Plus**. Or from the Applications screen you can touch **Settings > Accounts & sync > Backup Plus**.
- 3 Touch **Next**. Backup Assistant starts to connect to the server.
- 4 Type a 4-8 digit PIN, and touch **Re-enter PIN**.
- 5 Type the PIN again for confirmation and touch **Next**. It takes some time before registration is completed.

### BACKING-UP ACCOUNTS

- 1 Touch **People** from the Home screen.
- 2 Touch  and touch **Backup Plus**.
- 3 Touch **Backup Now**. If you want to stop backing-up, touch **Stop Backup**.

### RESTORING DATA

- 1 Touch **People** from the Home screen.
- 2 Touch  and touch **Backup Plus**. Or from the Applications screen you can touch **Settings > Accounts & sync > Backup Assistant Plus**.
- 3 Touch **Restore**.

## RECURRING SYNC

- 1 Touch **People** from the Home screen.
- 2 Touch  and touch **Backup Plus**. Or from the Applications screen you can touch **Settings > Accounts & sync > Backup Assistant Plus**.
- 3 Touch **Recurring Sync**.
- 4 Select and touch the time for sync and touch **OK**.

## CHANGING PIN NUMBER

- 1 Touch **People** from the Home Screen.
- 2 Touch  and touch **Backup Plus**. Or from the Applications screen you can touch **Settings > Accounts & sync > Backup Assistant Plus**.
- 3 Touch **PIN**.
- 4 Type the current PIN.
- 5 Type a new PIN and type it again.
- 6 Touch **Next**.

## CHECKING AT THE WEBSITE

- 1 Touch **People** from the Home Screen.
- 2 Touch  and touch **Backup Plus**. Or from the Applications screen you can touch **Settings > Accounts & sync > Backup Assistant Plus**.
- 3 Touch [www.verizonwireless.com/assistant](http://www.verizonwireless.com/assistant) on the bottom of the screen and check your data online.

## UNDERSTANDING HOME SCREEN

Home screen is the starting point to use applications on the ADR910L. Navigate the Home screen and use the basic functions of the ADR910L. Touch  if you want to move to the Home Screen any time.

Sample Home screens

## LAUNCHER BAR ICONS

The following icons represent applications that are placed in the three launcher bars. Except **Menu**, **Widget**, **Wallpaper**, **Home Theme**, and **Settings**, you can rearrange them or add applications that you want.

Icon	Description
	Makes calls
	Send messages

Icon	Description
	Manages contact information
	Opens the applications screen
	Shows widgets available
	Shows wallpaper available
	Shows Home themes available
	Shows Settings option

## NAVIGATING HOME SCREEN

The ADR910L provides seven different screens where you can arrange items for your preferences. Change the number of the Home screens if you want. Refer to page 37 for more information.

- 1 Swipe the screen from the left to the right or vice versa.
- 2 Touch a desired application or widget to run.

## CHECKING APPLICATIONS WITH TASK MANAGER

Manage applications with Task Manager and enhance efficiency.

- 1 Touch **Task Manager** from the applications screen. You can see applications that are running. Up to six applications appear on the screen.
- 2 Touch **End** next to the application that you want to stop running. Touch the bottom of the screen if you want to stop all applications that are running at once.
- 3 Touch an application. You can see the CPU and the RAM that the application is using currently.
- 4 Touch **Running** on the top of the screen and touch **Systems**. You can see information on CPU, internal/external memory, and Network.
- 5 Touch  and select a view type if you want to change the default view type.

Running Task Manger

Checking system information

**!** **Note** Make sure to press the  and move to the Home Screen if you want to finish using an application. Otherwise, the application continues to run and will use memory and battery.

## SETTING STATUS BAR AND EASY-SETTING

The status bar offers quick access to Easy Setting and ongoing events.

- 1 Touch on the top of the Home screen and drag the status bar down.
- 2 Touch an icon in Easy Setting that you want to run. The icon turns to orange when the function is on. Flick the screen to the right for more functions.
- 3 Touch **Open** on the top right of the screen if you want to check settings in detail. Flick the screen to the right for more settings.

Opening Notifications

Checking the status bar

## EASY-SETTING ICONS

Icon	Description
	Mutes the sound
	Activates <b>Wi-Fi</b>
	Activates data network
	Activates <b>GPS</b>
	Turns Airplane Mode on/off
	Activates <b>Bluetooth</b>
	Activates <b>Auto Rotate</b>
	Activates <b>Auto Answer</b>
	Activates <b>Auto Sync</b>
	Adjusts Sound settings
	Adjusts Wi-Fi settings
	Adjusts Tethering settings

Icon	Description
	Adjusts Display settings
	Adjusts Power Saver settings
	Adjusts Bluetooth settings
	Adjusts Lock settings
	Adjusts Sync settings
	Adjusts App Manage settings

## CUSTOMIZING HOME SCREEN

Place shortcuts, widgets or folders, and create wallpaper for your preferences. Make sure to secure enough space on the Home screen before adding a shortcut or widget.

### ADDING A SHORTCUT

- 1 Touch and hold an application from the applications screen.
- 2 Place the shortcut on the empty space of the Home screen. You can also place the shortcut in the launcher bar.

## ADDING A WIDGET

- 1 Press and hold on the empty space of the screen. Widgets available on the bottom of the screen.
- 2 Flick the Home screen to the left or right where you can place widgets.
- 3 Touch a widget. Default widget types may vary depending on the application. Widget types may increase as you install applications on the ADR910L. Refer to the relevant chapter for more information about widgets.

## SHORTCUTS LIST

Icon	Description
	Bookmark
	Contact
	Direct dial
	Direct message
	Direction & Navigation
	Multi Wallpaper
	Music playlist

Icon	Description
	Settings shortcut

## WIDGETS LIST

Icon	Description
	Album
	Calendar
	Clock
	Friends
	Mini Camera
	Music
	Social Gallery
	Social On
	Task Manager
	Weather
	Bookmarks

Icon	Description

	Google+
	Maps
	Photo Gallery
	Power control

## CREATING A FOLDER IN THE LAUNCHER BAR

Press and hold a shortcut in the Home screen and place it to another shortcut in the launcher bar. If you add a shortcut to the existing folder, touch the folder in the launcher bar, touch Add shortcut and follow the necessary steps.

## MANAGING A FOLDER IN THE LAUNCHER BAR

- 1 Touch a folder in the launcher bar that you want to manage.
- 2 Touch  and enter the name of the folder. You can also change the color of the folder.
- 3 Touch **OK**.

## CREATING WALLPAPER FOR HOME SCREEN

- 1 Touch **Wallpaper** in the launcher bar.
- 2 Touch **Gallery, Wallpapers, Live Wallpapers, or Download Wallpapers**.
  - If you have touched **Gallery**, select and touch a picture from Gallery, adjust the size and touch **Crop**.
  - If you have touched **Wallpapers**, select and touch wallpaper and touch **Set wallpaper**.
  - If you have touched **Live Wallpapers**, select and touch live wallpaper and touch **Set wallpaper**.
  - If you have touched **Download Wallpapers**, select and touch wallpaper and touch **Set wallpaper**.

⚠ **Note** Remember that Maps among Live Wallpapers consumes battery relatively quickly. If you want to save the battery consumption, it is recommended to end the live wallpaper by force (**Settings > Apps > RUNNING**).

## DELETING ITEMS FROM HOME SCREEN

- 1 Press and hold a shortcut, widget or folder you want to delete.
- 2 Drag it to  on the top of the Home screen.

## CHANGING HOME SCREEN THEME

- 1 Touch **Home Theme** in the launcher bar
- 2 Select and touch a theme for the Home screen.
  - If you want to delete a theme, touch **X** on the top right side of the theme and touch **OK**.
  - If you want to change the theme name, touch , enter the new name, and touch **OK**.
  - If you want to add a new theme, touch **+**, select and touch a theme in the list.
- 3 Touch **Apply**

## CHANGING HOME SCREEN MODE

- 1 Touch **Settings** from the applications screen.
- 2 Touch **Mode Change**.
- 3 Touch **Simple Mode** or **Normal Mode**. Remember that the Home screen in the Simple Mode is quite different from Normal Mode. Refer to page xx for more information on Simple Mode.

## CLEARING HOME SCREEN

Touch on the Home screen and pinch out the screen. All items, except the wallpaper disappear in a second. Touch any key if you want to items on the Home screen again.

## MANAGING APPLICATIONS SCREEN

The Applications screen is the screen where all applications of the ADR910L are displayed. Search applications and personalize it with a different background.

### SEARCHING APPLICATIONS

- 1 Touch  and touch **Search** in the applications screen.
- 2 Enter the name of the application and touch **Done**. Applications that match your search appear in the screen.
- 3 Touch the application and run it.

### SHARING APPLICATIONS

- 1 Touch  in the applications screen.
- 2 Touch **Share**.
- 3 Touch the checkbox next to the application(s) that you want to share.
- 4 Touch  and touch **Bluetooth, Google+, Social ON, Gmail, or Messaging**.

### HIDING APPLICATION SHORTCUT

- 1 Touch  and touch **Edit**.
- 2 Press and hold the shortcut and drop it to **Storage** on the bottom of the screen. The number next to Storage indicates the number of applications that are hidden from the screen.

## MANAGING GROUPS

- 1 Touch  in the applications screen.
- 2 Touch **Manage groups**.
- 3 Change the order of groups or change the group name.
- 4 Touch **New Group** if you want to add a new group.

## REARRANGING APPLICATIONS BY NAME

- 1 Touch **Groups** in the applications screen.
- 2 Touch **Alphabetical**. You can see applications by name.

## CHANGING APPLICATION ICONS

- 1 Touch  in the applications screen.
- 2 Touch **Change Icons**.
- 3 Touch **Classical theme** or **Style theme**.
- 4 Touch **Save**. The Home screen restarts in a second with a new set of icons.

# 2

## CONNECTIVITY

This chapter provides important information about getting connected to network to use the ADR910L including:

USING Wi-Fi NETWORK

USING Wi-Fi Direct

CONNECTING TO A 3G/4G NETWORK

USING Bluetooth

CONNECTING TO A PC

# CONNECTIVITY

## USING Wi-Fi NETWORK

Connect the ADR910L to a Wi-Fi network and enjoy the wireless Internet connection. Depending on your data plan or the area where you stay, you should pay for connection to the Wi-Fi network.

### CONNECTING TO A Wi-Fi NETWORK

- 1 Touch **Menu** from the Home Screen and touch **Settings**.
- 2 Touch **ON** next to Wi-Fi to activate the technology.
- 3 Touch **Wi-Fi**.
- 4 Touch a network that you want to connect to.  indicates a secured network
- 5 Enter the password if the network is secured. Touch **Show password** if you want the password to be displayed.
- 6 Touch **Connect**. Once the network is remembered, the ADR910L will automatically connect to it when in range.

Activating Wi-Fi

Connecting to a Wi-Fi network

 **Note** The icon next to each network indicates the strength of the signal. For example,  indicates the signal is poor while  indicates the signal is strong.

## ABOUT NETWORK NOTIFICATIONS

You are informed by default when a Wi-Fi network is available around you. The icon  in the status bar indicates a network is available. Deselect **Network notification** in the Wi-Fi advanced setting if you do not want to be informed the availability of network.

## USING THE EASY SETTING

- 1 Touch on the top of the Home Screen and drag it down.
- 2 Touch **Wi-Fi** in Easy Setting. The icon turns orange when the function is on.

## SEARCHING FOR Wi-Fi NETWORKS

- 1 Touch **Menu** from the Home Screen and touch **Settings**.
- 2 Touch **ON** next to Wi-Fi to activate the technology.
- 3 Touch **Wi-Fi**.
- 4 Touch **SCAN**. The ADR910L scans networks automatically every six second. The newly found networks appear on the bottom of the list.

## ADDING A Wi-Fi NETWORK

- 1 Touch **Menu** from the Home Screen and touch **Settings**.
- 2 Touch **ON** next to Wi-Fi to activate the technology.
- 3 Touch **Wi-Fi**.

- 4 Touch **ADD NETWORK**.
- 5 Enter Network SSID and select the security type among **None**, **WEP**, **WPA/WPA2 PSK** and **802.1x EAP**. Aside from **None**, you must enter a password for the network.
- 6 Touch **Save**.

## DISCONNECTING TO A Wi-Fi NETWORK

- 1 Touch the network that is connected to the ADR910L.
- 2 Touch **Forget** to disconnect with the network.

 **Note** You can also disconnect to the Wi-Fi network by pressing and holding the network and touching **Forget network**.

## SETTING ADVANCED FEATURES

- 1 Touch **Menu** from the Home Screen and touch **Settings**.
- 2 Touch **ON** next to Wi-Fi to activate the technology.
- 3 Touch **Wi-Fi**.
- 4 Touch  and touch **Advanced**.
  - Touch **Network notification** if you want to be notified when an open network is available.
  - Touch **Regulatory domain**, and select and touch channel for the domain.
  - Touch **Keep Wi-Fi on during sleep** and specify when the ADR910L should switch from the Wi-Fi network to mobile network.

## SETTING WPS CONNECTION

- 1 Touch **Menu** from the Home Screen and touch **Settings**.
- 2 Touch **ON** next to Wi-Fi to activate the technology.
- 3 Touch **Wi-Fi**.
- 4 Touch  and touch **WPS connection**.
  - Touch **Button connection** or **PIN connection**, and take the necessary steps.

## ICONS FOR Wi-Fi AND 3G/4G

Icon	Description
	Connected to a Wi-Fi network
	The GPS is active.
	Data is being transferred through the 4G network.
	Data is being transferred through the 3G network.
	Data is being transferred through the 1xRTT network.

## USING Wi-Fi Direct

Wi-Fi Direct function lets you connect directly to nearby peer devices over Wi-Fi, for more reliable, higher-speed communication. Through third-party apps, you can connect to compatible devices to take advantage of new features such as instant sharing of files, photos.

### CONNECTING TO OTHER DEVICES DIRECTLY

- 1 Touch **Menu** from the Home Screen and touch **Settings**.
- 2 Touch **More**.
- 3 Touch **Wi-Fi direct** to activate the technology, and touch **OK**.
- 4 Touch **Wi-Fi direct settings**.
- 5 Touch **SEARCH** on the bottom of the screen.
- 6 Touch a device and connect to it.

## CONNECTING TO A 3G/4G NETWORK

Make sure to turn off the Wi-Fi network connection: Wi-Fi network and the mobile hotspot cannot run at the same time.

### CONNECTING TO MOBILE HOTSPOT FOR 3G NETWORK

- 1 Touch **Menu** from the Home Screen and touch **Settings**.
- 2 Touch **More > Tethering & portable hotspot**.
- 3 Touch **Mobile Hotspot** to activate the technology.

## CONNECTING TO MOBILE HOTSPOT FOR 4G NETWORK

- 1 Touch **Menu** from the Home Screen and touch **Settings**.
- 2 Touch **More > Tethering & portable hotspot**.
- 3 Touch **Mobile Hotspot** to activate the technology.

## CONFIGURING AUTOMATIC CONNECTION

- 1 Touch **Menu** from the Home Screen and touch **Settings**.
- 2 Touch **More > Tethering & portable hotspot**.
- 3 Touch **Mobile Hotspot** to activate the technology.

## CONFIGURING MANUAL CONNECTION

- 1 Touch **Menu** from the Home Screen and touch **Settings**.
- 2 Touch **More > Tethering & portable hotspot**.
- 3 Touch **Mobile Hotspot** to activate the technology.
- 4 Touch **Mobile Hotspot settings**.
- 5 Touch **Configure Mobile Hotspot**:
  - Touch **Network SSID** and type the network name and touch **Done**.
  - Touch **Security**, select and touch a security type and take necessary steps.
- 6 Touch **Save**:

Mobile Hotspot for Open

Mobile Hotspot for WPA2(AES)

⚠ **Note** Security type for Mobile Hotspot is WPA2 PSK and the password is “MDN (Phone number)” by default.

## MOBILE BROADBAND AND HOTSPOT ICONS

Icon	Description
	Mobile Hotspot is active
	Mobile Broadband is active

## MANAGING DEVICES

- 1 Touch **Menu** from the Home Screen and touch **Settings**.
- 2 Touch **More > Tethering & portable hotspot**.
- 3 Touch **Mobile Hotspot** to activate the technology.
- 4 Touch **Manage devices**.
- 5 For each option:
  - Touch **CONNECTED DEVICES**. You can see devices that are connected to the ADR910L.
  - Touch **BLOCKED DEVICES** if you want to see devices that are blocked to connect to your phone.

## MANAGING BATTERY

- 1 Touch **Menu** from the Home Screen and touch **Settings**.
- 2 Touch **More > Tethering & portable hotspot**.
- 3 Touch **Mobile Hotspot** to activate the technology.
- 4 Touch **Battery Management** and select the time when the function is off.

## USING Bluetooth

Bluetooth technology enables wireless connections between electronic devices. Using this technology, you can send images, text, and business cards.

With Bluetooth technology, the ADR910L provides:

- Connection to hands-free devices
- Connection to electronic devices

## PAIRING WITH DEVICES

- 1 Touch **Menu** from the Home Screen and touch **Settings**.
- 2 Touch **Bluetooth**
- 3 Touch **On** on the top of the screen to activate the technology
- 4 Touch **SEARCH FOR DEVICES** on the bottom of the screen.
- 5 Select and touch a device from the list.
- 6 Touch **Pair** to pair with and connect to the device.  next to the device indicates that it is connected via Bluetooth.

## DEVICE ICONS

Phone	Laptop	PC	Headset
-------	--------	----	---------

## Bluetooth STATUS ICONS

Icon	Description
	Bluetooth is connected
	A file is ready to be delivered from other device
	A file is ready to be delivered to other device
	Bluetooth is active but not connected to other device

## USING BLUETOOTH WITH THE EASY SETTING

- 1 Touch on the top of the Home screen and drag it down.
- 2 Touch **Bluetooth**. The icon turns orange when the function is on.

### Bluetooth SETTINGS

- 1 Touch **Menu** from the Home Screen and touch **Settings**.
- 2 Touch **Bluetooth**.
- 3 Touch **On** on the top of the screen to activate the technology.
- 4 Touch your device name on the top of the screen if you want to let other people pair their devices with the ADR910L.

### SETTING VISIBILITY TIMEOUT

- 1 Touch  and touch **Visibility timeout**, while in the Bluetooth setting screen.
- 2 Select and touch the time for timeout. Your device will not be discovered by other device after the time.

### SHARING A PICTURE USING Bluetooth

- 1 Touch **Menu** from the Home Screen and touch **Gallery**.
- 2 Select and touch a picture to share.
- 3 Touch  > **Bluetooth**.
- 4 Select and touch a device among those paired with the ADR910L. The other party will receive a message to accept the file.

 **Note** If you want to check received files through Bluetooth, touch  and touch **Show received files**, while in the Bluetooth setting screen.

## RENAMING THE DEVICE

- 1 Touch **Menu** from the Home Screen and touch **Settings**.
- 2 Touch **Bluetooth**.
- 3 Touch **On** on the top of the screen to activate the technology.
- 4 Touch  and touch **Rename Phone**.
- 5 Enter a new name and touch **Rename**.

## USING BLUETOOTH HDP

Bluetooth HDP is an Android OS's built-in support for connecting to Bluetooth Health Device Profile (HDP) devices. With support from third-party apps, you can connect to wireless medical devices and sensors in hospitals, fitness centers, homes, and elsewhere.

## CONNECTING TO A PC

Synchronize files and exchange data with a computer using the PC data cable.

### SELECTING THE USB MODE

- 1 Connect the USB cable to the ADR910L.
- 2 Connect the other end of the cable to your computer.
- 3 Touch **Menu** from the Home Screen and touch **USB Connection Settings**.
- 4 In order to select the USB mode:

- Touch **Media device (MTP)** if you want to transfer media files to your PC.
- Touch **Camera (PTP)** if you want to transfer photos using camera software.
- Touch **PC data mode** if you want to transfer files via PC tools.

### CHANGING THE USB MODE IN THE STATUS BAR

- 1 Connect the ADR910L to your computer using the USB cable.
- 2 Touch on the top of the screen and drag down the status bar.
- 3 Touch **Connected as a media device, Connected as a camera, or Connected as a PC data mode**, and change the USB connection mode.

# 3

## CALLS AND MESSAGES

This chapter provides important information about using key functions of the ADR910L including:

CALLING  
MESSAGING  
CONTACTS  
Google TALK

# CALLS AND MESSAGES

## CALLING

### MAKING A CALL

- 1 Touch **Phone** from the Home Screen.
- 2 Enter the area code and the phone number. Touch  to delete the previous number. Touch and hold  to delete the whole number.
- 3 Touch  to dial the number.

### ANSWERING AND ENDING A CALL

- 1 Drag **Accept** to the center to answer the call.
- 2 Drag **Ignore** to the center if you do not want to answer the call.
- 3 Touch **Send MSG** and touch a message if you want to send a message to the caller.
- 4 Touch **End** to end the call during the conversation. After ending a call, a call summary appears.

 **Note** If you happen to move to the Home Screen, you can end the call by dragging the status bar down and touch **End call**.

## ADJUSTING VOLUME

- 1 During a call, press the volume key up to increase the speaker volume. Press the volume key down to decrease the volume.
- 2 From idle mode, press the volume key up to increase the ringer volume. Press the volume key down to decrease the volume. If you want the ADR910L to make vibrations when there is an incoming call or message, press the volume key all the way down until the mode changes.

## SENDING MY LOCATION TO THE CALLER

- 1 Touch **Send Location** after a call ended.
- 2 Touch **Yes > OK**. Your current location information on the Google Maps will be sent to the caller .

## MAKING A CALL USING SPEED DIALING

- 1 Touch **Phone** from the Home screen.
- 2 Touch and hold a number to which you have assigned a telephone number as a speed dial entry. Note that 1 is pre-assigned as VoiceMail.

## MAKING AN INTERNATIONAL CALL

- 1 Touch **Phone** from the Home screen.
- 2 Touch  and touch **Assisted dialing**.
- 3 Touch the check box next to **Assisted dialing status**.
- 4 Touch **Reference country** and touch the country you want to call.
- 5 Touch  and touch **Done**.

- 6 Enter the area code and the phone number.
- 7 Touch  to dial the number.

## ICONS FOR CALLING

Icon	Description
	The speakerphone is active
	Strength of signal: The bar becomes bigger when the signal is stronger.
	There is no signal.
	A call is under way.
	There is a call on hold.
	There is a missed call.
	TTY is active.
	A privacy call is under way.
	A call is under way through Bluetooth.
	There is a privacy call on hold.
	Strength of received signal: The bar becomes bigger when the signal is stronger.

Icon	Description
	Phone is in roaming mode.
	New voicemail

## SWAPPING A CALL FOR A MULTIPARTY CALL

- 1 Touch **Accept** when there is an incoming call while on call. The first party will hear a waiting sound.
- 2 Touch **Swap** to change the calling party.
- 3 Touch **End** to finish the call.

## MAKING A CONFERENCE CALL

- 1 Touch **Phone** from the Home Screen.
- 2 Enter the area code and the phone number.
- 3 Touch **Add call** to invite a third party to the call.
- 4 Touch **Merge** if you want to allow all the parties to participate in the conversation.

## ADDING A CALL

- 1 Touch **Add call** to make a call to another party during a call with a party.
- 2 Enter the telephone number and touch .

 **Note** The current call is held when you make a call with another party.

## MAKING A CALL FROM THE ADDRESS BOOK

- 1 Touch **Phone** from the Home Screen.
- 2 Touch **People**, select and touch a contact to call.
- 3 Touch  next to the phone number.

## MAKING AN EMERGENCY CALL

- 1 Touch **Phone** from the Home Screen.
- 2 Enter **911** and touch .

## CHECKING CALL HISTORY

- 1 Touch **Phone** from the Home Screen.
- 2 Touch **Call log**.
- 3 Touch the search box, and touch **All Calls**, **Missed Calls**, **Received Calls**, or **Dialed Calls**.
  - Touch **All Calls** if you want to see the whole calling history.
  - Touch **Missed Calls** if you want to see the list of calls that you have missed.
  - Touch **Received Calls** if you want to see the list of calls that you have received.
  - Touch **Dialed Calls** if you want to see the list of contacts that you have called.

 **Note** You can also check if there is a missed call by dragging the status bar down. Touch the contact if you want to make a call back to the number.

## MAKING A CALL TO FAVORITE CONTACT

- 1 Touch **Phone** from the Home Screen.
- 2 Touch **Favorites**.
- 3 Select and touch a contact that you want to make a call.
- 4 Select and touch a phone number if there are many phone numbers. You can touch **Remember this choice** first if you want to make the number as main number for the contact.

## RECEIVING VISUAL VOICEMAIL

- 1 Touch **Voicemail** from the Home Screen.
- 2 Touch the received visual voicemail in the inbox, then it plays automatically.
  - Touch **\*86** in the keypad if you have not subscribed to the monthly Visual Voicemail service.
- 3 Touch **Call Back** if you want to make a call back to the contact.
- 4 Touch and hold a contact if you want to see details of the contact and touch **View Contact**.

## SENDING VISUAL VOICEMAIL

- 1 Touch **Voicemail** from the Home Screen.
- 2 Touch **Menu > New Voicemail**.
- 3 Enter the contact number.
- 4 Touch . The voicemail starts to be recorded. You can record a voicemail for up to three minutes.
- 5 Touch **Urgent** or **Private**, and touch **Send**.

 **Note** If you have not subscribed to the voicemail service, touch **Call Voicemail** and follow the next steps.

## SAVING A NEW CONTACT

- 1 Touch **Phone** from the Home Screen.
- 2 Enter a telephone number and touch **Save** in the middle of the screen. If there is contact for the number, it appears below.
- 3 Touch **CREATE NEW CONTACT**.
- 4 Enter additional information as needed for the contact.
- 5 Touch **Done**.

## ADDING NEW INFORMATION TO EXISTING CONTACT

- 1 Touch **Phone** from the Home screen.
- 2 Enter a telephone number and touch **Save** in the middle of the screen.
- 3 Select and touch a contact to add information.
- 4 Enter additional information as needed for the contact:
- 5 Touch **Add another field** if you want to add the number that you have entered, in an additional field.
- 6 Touch **Done**.

## TALKING THROUGH THE SPEAKER

- 1 Touch **Speaker** during a call. A red bar appears under Speaker when the function is on.
- 2 Touch **Speaker** again if you want to stop using the function.

 **Note** If the proximity sensor is working, speakerphone would run automatically when you take your face off from the ADR910L for a few seconds.

## TALKING WITH Bluetooth TECHNOLOGY

- 1 Touch **Bluetooth** during a call. A red bar appears under Bluetooth when the function is on.
- 2 Touch **Bluetooth** if you want to stop using the function.

 **Note** Refer to the relevant manual of the Bluetooth headset for more information.

## MUTING THE PHONE

- 1 Touch **Mute** during a call. A red bar appears under Mute when the function is on.
- 2 Touch **Mute** again if you want to turn off the function.

## ADDING SHORTCUTS TO FAVORITE CONTACTS

- 1 Touch and hold on the empty space on the Home screen.
- 2 Touch **Shortcuts** > **Contact**.

- 3 Select and touch your favorite shortcut that you want to add to the Home screen.

## MESSAGING

### SENDING A NEW MESSAGE

- 1 Touch **Messaging** from the Home screen.
- 2 Touch **+** at the right top side of the screen.
- 3 Enter a mobile phone number or email address in the **To** field. As you type, matching contacts appear. You can touch a suggested contact or continue typing. Or touch  and touch **Contacts**, **Call log**, or **Group**.
- 4 Enter a message in the **Tap to compose** field.
- 5 Touch **Send**.

 **Note** A failed message remains in the list. If you want to delete it, touch and hold the message and tap **Delete**.

### ENTERING A MESSAGE USING VOICE

- 1 Touch **Messaging** from the Home Screen.
- 2 Touch  and touch **Voice mail**.
- 3 Enter a mobile phone number or email address in the **To** field. As you type, matching contacts appear. You can touch a suggested contact or continue typing. Or touch , and touch a contact.
- 4 Touch the **Tap to compose** field. Touch the Voice Commands Key  in the virtual keyboard and speak your message.

## 5 Touch **Send**.

### ENTERING TEXT USING THE KEYBOARD

Use different keyboard settings for different characters. Swype is the method for entering text by default.

- 1 Touch **Messaging** from the Home screen.
- 2 Touch **+** at the right top side of the screen.
- 3 Enter a mobile phone number or email address in the **To** field. As you type, matching contacts appear. You can touch a suggested contact or continue typing. Or touch **+**, and touch a contact.
- 4 Touch the **Tap to compose** field. Touch **⬆** to select and enter letters for the message.
  - When **⬆** is selected, the next letter entered is capitalized.
  - When **⬆** is selected, all letters entered are capitalized.
- 5 Touch **?123** to enter numbers, and touch **=\<** to enter symbols.
- 6 Touch **Send**.

Capital letters

Numbers and  
common symbols

Complicated  
symbols

- Note** If you want to enter a number or/and common symbol between common letters for a message:
- Touch and hold a key for one second and you can enter the secondary character on the right of each key. For example, touch and hold **y** for one second and you can enter the number "6."
  - Touch and hold a key for two seconds and you can enter additional characters assigned for each key.

## ICONS FOR MESSAGES

Icon	Description
	There is a message that is not sent
	There is an incoming message
	A new message with a recorded voice has arrived
	Messages have been successfully sent
	There is an urgent message
	There is an incoming message from the email server
	There is a CMAS message
	There is a missed message

## DELETING MESSAGES

- 1 Touch **Messaging** from the Home Screen.
- 2 Touch  and touch **Delete**.
- 3 Touch  next to the message(s) to delete. If you want to delete all messages, touch  and touch **Select all**.
- 4 Touch **OK**.

## ADDING SHORTCUTS FOR DIRECT MESSAGES

- 1 Press and hold on the empty space of the Home screen, or touch  from idle mode, and touch **Add**.
- 2 Touch **Shortcuts** > **Direct message**.
- 3 Select and touch a contact in the list that you want to create a shortcut on the Home Screen for a direct message.

## USING A QUICK TEXT

- 1 Touch **Messaging** from the Home screen.
- 2 Touch  and touch **Quick text**.
- 3 Select and touch a text.
- 4 Touch  and touch **Send message**.
- 5 Enter the contact of the recipient.
- 6 Touch **Send**.

## ADDING A QUICK TEXT

- 1 Touch **Messaging** from the Home screen.
- 2 Touch  and touch **Quick text**.
- 3 Touch  and touch **Add new**.
- 4 Enter a quick text.
- 5 Touch .

## ATTACHING PICTURES

- 1 Touch **Messaging** from the Home screen.
- 2 Touch  at the right top side of the screen.
- 3 Enter a mobile phone number or email address in the **To** field. As you type, matching contacts appear. You can touch a suggested contact or continue typing.
- 4 Touch the **Tap to compose** field to start entering your message.
- 5 Touch  > **Pictures**.
- 6 Touch **Take a picture** or **Gallery**.
- 7 Take a picture to attach if you have selected **Take a Picture**. Or select and touch a picture to attach from Gallery.
- 8 Touch **Send**.

## SETTING STORAGE LIMITS

- 1 Touch **Messaging** from the Home Screen.
- 2 Touch  and touch **Settings**.
  - Touch **Delete old messages** if you want old messages to be deleted when the storage limit is reached.

- Touch **Text message limit**, set the maximum number of messages and touch **Set**.
- Touch **Multimedia message limit**, set the maximum number of messages and touch **Set**. Make sure to delete old messages before setting the maximum number of messages.

 **Note** Make sure to secure enough internal memory space: you might experience difficulties receiving or sending messages when the memory space is low.

## SETTING SIGNATURE

- 1 Touch **Messaging** from the Home Screen.
- 2 Touch  and touch **Settings**.
- 3 Touch **Signature auto-append** if you want to add signature automatically.
- 4 Type your signature and touch .

## CHECKING USED SPACE

- 1 Touch **Messaging** from the Home Screen.
- 2 Touch  and touch **Settings**.
- 3 Touch **Used space**. You can see the number of text messages and multimedia messages.

## SEARCHING FOR MESSAGES

- 1 Touch **Messaging** from the Home Screen.
- 2 Touch .
- 3 Enter a word to search messages and touch .

## TEXT MESSAGE SETTINGS

- 1 Touch **Messaging** from the Home Screen.
- 2 Touch  and touch **Settings**.
- 3 Touch **ON** next to **Delivery reports** if you want to receive a report from the recipient that your message has been delivered.

## MULTIMEDIA MESSAGE SETTINGS

- 1 Touch **Messaging** from the Home screen.
- 2 Touch  and touch **Settings**.
- 3 Touch **Auto-retrieve** if you want to take back messages automatically.
- 4 Touch **Roaming auto-retrieve** if you want to take back messages automatically while roaming. The function will not run if the **Auto-retrieve** function is not operating.

## SETTING THE NOTIFICATIONS

- 1 Touch **Messaging** from the Home Screen.
- 2 Touch  and touch **Settings**.
- 3 Touch **Notifications** if you want to see in the status bar when a message is delivered.
- 4 Touch **Select ringtone** and select and touch a ringtone for the message that you receive, and touch **OK**.
- 5 Touch **Vibrate** and select **Always**, **Only when silent** or **Never**, and touch **OK**.

## CONTACTS

### VIEWING CONTACTS INFORMATION

- 1 Touch **People** from the Home Screen.
- 2 Select and touch a contact for more information.

### CREATING CONTACTS

- 1 Touch **People** from the Home Screen.
- 2 Touch .
- 3 Enter related information, such as name, phone number, email address, postal address, organization, etc.
  - Touch , touch **Take photo** or **Choose photo from Gallery** and take the necessary steps if you want to assign a photo for the contact.
  - Touch **Add organization** and type the organization name.
- 4 Touch **Done** when you finish entering information for the contact.

 **Note** You can create a contact by entering the telephone number first. Touch **Phone**, enter a telephone number, and touch **Save** in the middle of the screen. Refer to page 65 for more information.

### CREATING GROUPS FOR CONTACTS

- 1 Touch **People** from the Home screen.
- 2 Touch **Groups** on the top of the screen and touch  on the bottom of the screen.

- 3 Enter the group name and touch **Save**. The contacts will also be saved through Backup Assistant. If you have not subscribed to the Backup Assistant service, touch **OK** in the registration screen and take necessary steps. Refer to page xx for more information.

## ADDING MEMBERS FOR CONTACTS GROUP

- 1 Touch **People** from the Home screen.
- 2 Touch **Groups** on the top of the screen.
- 3 Press and hold the group that you want to add members.
- 4 Touch **Edit Group**:
- 5 Type the member's name in the **Type person's name** field.
- 6 Touch **Save**.

## SETTING SPEED DIALS

- 1 Touch **People** from the Home Screen.
- 2 Touch  on the bottom of the screen.
- 3 Touch a number from 2 to 100 and touch **Add**
- 4 Select and touch contacts and their desired number for the speed dial. The following speed dial entries are already assigned to your Verizon Wireless Account Information:
  - 1 - Voice mail
  - 97 - Account Balance
  - 98 - Calling minutes
  - 99 - Payment
  - 100 - Data usage

 **Note** You cannot assign two speed dialing numbers for one telephone number. In case you select the mobile phone number of the contact, you can choose Voice call or Message for the speed dialing number.

## RESERVING CONTACTS WITH BACKUP PLUS

- 1 Touch **People** from the Home Screen.
- 2 Touch  and touch **Backup Assistant Plus**. You can check the current status of saved contacts.

## EDITING CONTACTS

- 1 Touch **People** from the Home Screen.
- 2 Touch and hold a contact to edit, and touch **Edit contact**.
- 3 Edit information and touch **Done**.

## DELETING CONTACTS

- 1 Touch **People** from the Home Screen.
- 2 Touch and hold a contact to delete and touch **Delete contact**.
- 3 Touch **OK** to confirm deletion.

## IMPORTING/EXPORTING CONTACTS INFORMATION

- 1 Touch **People** from the Home Screen.
- 2 Touch  and touch **Import/export**.
  - Touch **Import from storage**, then select and touch the account to create your contact under.

- Touch **Export to storage** and touch **OK** if you want to export contacts to SD card.
- Touch **Share visible contacts** and touch **Bluetooth, Gmail, or Messaging** if you want to share visible contacts.

## SEARCHING FOR CONTACTS INFORMATION

- 1 Touch **People** from the Home Screen.
- 2 Touch  and touch .
- 3 Enter the name of the desired contact and touch . The search result appears instantly.

## SETTING DISPLAY OPTIONS

- 1 Touch **People** from the Home Screen.
- 2 Touch  and touch **Settings**.
- 3 Touch **Sort list by** and touch **First name** or **Last name**.
- 4 Touch **View contact names as** and touch **First name first** or **Last name first**.

## SENDING CONTACT DETAILS

- 1 Touch **People** from the Home Screen.
- 2 Touch and hold a contact to share and touch **Share contact**.
- 3 Touch **Bluetooth, Gmail, or Messaging**.

## ADDING CONTACT TO SPEED DIAL

- 1 Touch **People** from the Home Screen.
- 2 Touch and hold a contact to add to speed dial and touch Add to Speed dial.
- 3 Touch the phone number and designate the speed dial number for the contact.

## SETTING CONTACT OPTIONS

- 1 Touch **People** from the Home screen.
- 2 Touch a contact that you want to adjust settings.
  - Touch  and touch **Set ringtone**, touch the ringtone for the contact and touch **OK**.
  - Touch **All calls to voicemail** if you want to send incoming calls from the contact to voicemail directly.

## MANAGING ACCOUNTS AND SYNC

- 1 Touch **People** from the Home screen.
- 2 Touch  and touch **Accounts**.
- 3 Touch your account. Touch **ADD ACCOUNT** if you want to add an account and follow the steps for creating accounts
- 4 Check the sync settings and deselect the checkbox if you do not want to sync for the selected item.
  - Touch  and touch **Remove account** if you want to remove the account.
  - Touch  and touch **Sync now** if you want to sync contacts information right now.

## ADDING FRIENDS WIDGET

- 1 Touch and hold on the empty space of the screen.
- 2 Touch the Friends widget.
- 3 Select a style.
- 4 Touch the widget and assign a contact for the widget.

 **Note** You cannot add two Friends widgets on the same Home screen at the same time.

## Google TALK

### SETTING YOUR STATUS

- 1 Touch **Menu** from the Home Screen and touch **Talk**.
- 2 Touch your Gmail address.
- 3 Touch the status bar on the top of the screen.
- 4 Touch **Available**, **Busy** or **Invisible**.

 **Note** The status message will not be displayed if your status is Invisible.

- 5 Enter the status message.
- 6 Touch  if you want to insert a photo and touch **Select from Gallery** or **Take with Camera**, and take the necessary steps.

## INVITING A FRIEND TO CHAT

- 1 Touch **Menu** from the Home Screen and touch **Talk**.
- 2 Touch 
- 3 Enter the user name of the friend you want to add.
- 4 Touch **Done**.

## CHATTING WITH FRIENDS

- 1 Touch **Menu** from the Home Screen and touch **Talk**.
- 2 Select and touch one of the friends that appear on the screen.
- 3 Enter a message and touch .
- 4 In order to manage chatting:
  - Touch  and touch **Add to chat** if you want another friend to join the conversation
  - Touch  and touch **End chat** if you want to stop chatting with your friend.
  - Touch  and touch **Go off the record** if you do not want to record chatting with your friend.

- WEB SURFING
- ANDROID MARKET
- USING Google MAPS
- Google SEARCH
- VOICE SEARCH
- USING PLACES
- USING LATITUDE
- NAVIGATION
- NEWS & WEATHER

# ENTERTAINMENT

## LISTENING TO MUSIC

You can enjoy music on your ADR910L. Make sure to insert a microSD™ card to transfer music files to the ADR910L and listen to them.

### PLAYING MUSIC

- 1 Touch **Menu** from the Home Screen and touch **Music**.
- 2 Select and touch a file from the list sorted by the alphabetic order. Touch **Play All** if you want to listen to all files.

⚠ **Note** Music would run in the background if you do not end the application. ▶ indicates that music is being played. Touch ▶ if you want to stop it or listen to another music file.

## NAVIGATING THE PLAYING SONG

- 1 Touch **Menu** from the Home Screen and touch **Music**.
- 2 Select a song or album to play. Drag  to the right or left in the bar. Numbers in  indicates the current playing time.
  - Touch and hold  if you want to fast-forward the file.
  - Touch and hold  if you want to rewind the file.
- 3 Touch  if you want to move to the next file. Touch  if you want to move to the previous file. Or swipe the album cover to the right or left to change the playing music.

## ADJUSTING VOLUME

- 1 Touch **Menu** from the Home Screen and touch **Music**.
- 2 Press the Volume Keys up if you want to increase volume. Press the Volume Keys down if you want to decrease volume. As you adjust volume, the Media Volume on the screen changes its color.

## CHECKING SONGS' INFORMATION

- 1 Touch **Menu** from the Home Screen and touch **Music**.
- 2 Touch and hold the song that you want to see the related information.  in front of a file indicates that it is being played.
- 3 Touch **Properties** and scroll up or down to view its information.

 **Note** If you want to search for related information while a song is playing, press and hold the artist name, album title or song, and touch, **Brower**, **YouTube** or **Music**, and take necessary actions.

## SETTING MUSIC FILE AS RINGTONE

- 1 Touch **Menu** from the Home Screen and touch **Music**.
- 2 Touch and hold the song that you want to set as ringtone of the ADR910L.
- 3 Touch **Set as ringtone**.

## ADDING A SONG TO A PLAYLIST

- 1 Touch **Menu** from the Home Screen and touch **Music**.
- 2 Touch and hold the song that you want to add to a playlist.
- 3 Touch **Add to playlist**.

## CREATING A PLAYLIST

- 1 Touch **Menu** from the Home Screen and touch **Music**.
- 2 Touch **Song** in the top of the screen and touch **Playlist**.
- 3 Touch  and touch **New Playlist**.
- 4 Enter the name of the playlist and touch **OK**.
- 5 Touch the check box next to the song(s) that you want to add to the playlist and touch **Add**.

## MANAGING PLAYLISTS

- 1 Touch **Menu** from the Home Screen and touch **Music**.
- 2 Touch **Song** in the top of the screen and touch **Playlist**.
- 3 Touch and hold a playlist that you want to manage.
  - If you want to listen to all songs of the playlist, touch **Play all**.
  - If you want to delete the playlist, touch **Delete**.

- If you want to add tracks to the list, touch **Add tracks**, select songs and touch **Add**.
- If you want to remove tracks from the list, touch **Remove tracks**, touch  next to the song to remove and touch **Done**.
- If you want to create a new name for the playlist, touch **Rename**, enter the new name and touch **OK**.

## MUSIC PLAYER ICONS

- 4 Edit the server name and touch **OK**.

## SELECTING DEVICES TO SHARE MEDIA FILES

- 1 Touch **Menu** from the Home Screen and touch **Net Media**.
- 2 Touch  and touch **Settings**.
- 3 Touch **Accept Share Request**.
- 4 Select **From all devices** or **From trusted devices only**.
  - If you want to share media files from all devices, touch **From all devices**.
  - If you want to share media files only from devices you trusted, touch **From trusted devices only**.
- 5 Touch the checkbox before **Enable notification** if you want to be notified when there is any access request.

## PERMITTING UPLOAD TO MY PHONE

- 1 Touch **Menu** from the Home Screen and touch **Net Media**.
- 2 Touch  and touch **Settings**.
- 3 Touch **Upload to my phone** to allow other device to upload media files to your phone.

## ENABLING UPLOAD REQUEST

- 1 Touch **Menu** from the Home Screen and touch **Net Media**.
- 2 Touch  and touch **Settings**.
- 3 Touch **Enable upload notification** to get notification when there is any access request.

## MANAGING DEVICE LIST

- 1 Touch **Menu** from the Home Screen and touch **Net Media**.
- 2 Touch  and touch **Settings**.
- 3 Touch **Device list management**.
- 4 Touch the device to move from the **Unclassified devices**, and touch **Move to Trusted** or **Move to Banned**. The device moves to the changed category.

## CHECKING Wi-Fi NETWORK STATUS

- 1 Touch **Menu** from the Home Screen and touch **Net Media**.
- 2 Touch  and touch **Settings**.
- 3 Touch **Wi-Fi network status** to check the Wi-Fi network status and available Wi-Fi network. For Wi-Fi connection, refer to page 57.

## DESIGNATING MEDIA FILE TYPES THAT CAN BE SHARED

- 1 Touch **Menu** from the Home Screen and touch **Net Media**.
- 2 Touch  and touch **Settings**.
- 3 Touch **Share media files**.
- 4 Select **Share photo**, **Share music** or **Share video**, and touch **OK**.

## SERVER SETTINGS

- 1 Touch **Menu** from the Home Screen and touch **Net Media**.
- 2 Touch  and touch **Settings**.
- 3 Touch **Server settings**.
- 4 Touch **Preferred server**, touch  next to the server to set as preferred media server and touch **OK**.
- 5 Touch **Hidden server**, touch the checkbox next to the server to hide it when there is a device search and touch **OK**.
- 6 Touch **Preferred player**, select the player from the list to set as preferred media player and touch **OK**.

## READING E-BOOKS (TBD)

### SEARCHING BOOKS IN THE INTERNET

### BUYING FAVORITE BOOKS

### SHARING BOOKS

## WEB SURFING

### SEARCHING FOR INFORMATION IN THE INTERNET

- 1 Touch **Menu** from the Home Screen and touch **Browser**.
- 2 Touch on the search box and type the keyword.
- 3 Touch .
- 4 Pinch two fingers apart on the screen if you want to zoom in the web page.

### FINDING WORDS IN THE CURRENT PAGE

- 1 Touch  and touch **Find on page** while a web page is open.
- 2 Enter a word that you want to see in the current page. The screen moves to the place that includes the word as you type it.
- 3 Touch  or  to move to the next sentence that contains the word. Touch  to move to the previous sentence.

### COPYING TEXT IN THE CURRENT PAGE

- 1 Touch and hold on the text that you want to copy.
- 2 Drag text on the screen, and touch the dragged text to copy to clipboard. You can paste the copied text.

### TAKING SCREENSHOTS

- 1 Touch **Menu** from the Home Screen and touch **Browser**.
- 2 Press the volume down key and the Power/Lock key at the same time. The screen will be captured and saved in the memory.  indicates that the screen is captured.

## VISITING A NEW PAGE

- 1 Touch **Menu** from the Home Screen and touch **Browser**.
- 2 Touch the address bar and enter a new URL.
- 3 Touch  next to the address bar or touch  in the virtual keyboard.

## REFRESHING A PAGE

- 1 Touch **Menu** from the Home Screen and touch **Browser**.
- 2 Touch  and touch  to refresh the page when a page is open. Or touch  to stop refreshing the page.

## CHANGING HOME PAGE

- 1 Touch **Menu** from the Home Screen and touch **Browser**.
- 2 Touch  and touch **More**.
- 3 Touch **Settings** > **Set home page**.
- 4 Enter a new URL if you want to change the home page, and touch **OK**.
- 5 Touch **Use current page** if you want to use the current page as the home page.

## VIEWING BROWSER HISTORY

- 1 Touch **Menu** from the Home Screen and touch **Browser**.
- 2 Touch  and touch **Bookmarks**.
- 3 Touch **Most visited** if you want to see web pages that you visit the most. Touch  next to the website if you want to add it to bookmarks.

- 4 Touch **History** if you want to see past browsing activity. Touch  and touch **Clear history** if you want to delete the browsing history.

## OPENING A NEW WINDOW

- 1 Touch **Menu** from the Home Screen and touch **Browser**.
- 2 Touch  and touch **New window**. Another window appears.

## MANAGING MANY WINDOWS

- 1 Touch **Menu** from the Home Screen and touch **Browser**.
- 2 Touch  and touch **Windows**.
- 3 Select and touch a window that you want to see. Or touch  next to the window that you want to delete.

## ADDING BOOKMARKS

- 1 Touch **Menu** from the Home Screen and touch **Browser**.
- 2 Touch  and touch **Bookmarks** while you are visiting a web page.
- 3 Touch **+Add**.
- 4 Enter the name and location of the website and touch **OK**.

## OPENING BOOKMARKED PAGES

- 1 Touch **Menu** from the Home Screen and touch **Browser**.
- 2 Touch  and touch **Bookmarks**.
- 3 Touch and hold a bookmark of a web page:

- Touch **Open** if you want to open the web page in the current window.
- Touch **Open in new window** if you want to open the web page in a new window.

## MANAGING BOOKMARKS

- 1 Touch **Menu** from the Home Screen and touch **Browser**.
- 2 Touch  and touch **Bookmarks**.
- 3 Touch and hold a bookmark:
  - If you want to edit the bookmark, touch **Edit bookmark**, change the name or location, and touch **OK**.
  - If you want to make its shortcut in the Home screen, touch **Add shortcut to Home**.
  - If you want to share the bookmark as a link, touch **Share link**, touch **Bluetooth**, **Email**, **Gmail**, **Messaging** or **Verizon Media Manager** and take necessary steps.
  - If you want to copy the URL, touch **Copy link URL** and paste it to a message.

## REARRANGING BOOKMARKS

- 1 Touch **Menu** from the Home Screen and touch **Browser**.
- 2 Touch  and touch **Bookmarks**.
- 3 Touch  and touch **Rearrange bookmarks**.
- 4 Touch and hold a bookmark to move and drag it to other place.

## DELETING BOOKMARKS

- 1 Touch **Menu** from the Home Screen and touch **Browser**.
- 2 Touch  and touch **Bookmarks**.
- 3 Touch and hold a bookmark and touch **Delete bookmark**.
- 4 Touch **OK**.

## SETTING DISPLAY OPTIONS

- 1 Touch **Menu** from the Home Screen and touch **Browser**.
- 2 Touch  and touch **More > Settings**.
- 3 Touch **Text size**, select and touch your preferred text size.
- 4 Touch **Default zoom**, select and touch your preferred zoom mode.
- 5 Touch **Block pop-up windows** if you want to prevent pop-up windows from appearing. The check box is selected by default.

## SETTING PRIVACY OPTIONS

- 1 Touch **Menu** from the Home Screen and touch **Browser**.
- 2 Touch  and touch **More**.
- 3 Touch **Settings**.
- 4 Touch **Clear all cookie data > OK** if you want to delete all cookie data.
- 5 Touch **Clear form data > OK** if you want to delete all form data.

## ANDROID MARKET

Download useful applications from the Android Market and use them for your purposes.

### DOWNLOADING APPLICATIONS

- 1 Touch **Menu** from the Home Screen and touch **Market**.
- 2 Touch **Next** and follow the necessary steps for adding a Google account if you do not have a Google account.
- 3 Touch **Accept** on the Android Market Terms of Service if you are accessing the Android Market for the first time.
- 4 Touch a category on the screen. You can also touch one of the images that are rotating in the top of the screen. Or touch  and touch **My Apps**.
  - Touch **Apps** if you want to download applications that provide useful functions for your purposes.
  - Touch **Games** if you want to download and enjoy games.
  - Touch **My apps** if you want to check applications that you have downloaded and manage them.
- 5 Select and touch a category.
- 6 Touch **Top paid**, **Top free** or **Just in**.
  - For Top paid applications, touch the price, touch **OK** and take the necessary steps.
  - For Top free applications, touch **FREE** > **OK**. The selected applications will be downloaded instantly.
  - For Just in applications, touch an application and follow the necessary steps depending on whether it is a paid or free application.

## SEARCHING FOR APPLICATIONS

- 1 Touch **Menu** from the Home Screen and touch **Market**.
- 2 Touch  and enter the name or the keyword of the application that you want to install and touch **Go** or .
- 3 Select and touch the application and install it.

## RUNNING DOWNLOADED APPLICATIONS

- 1 Touch on the top of the Home screen, drag the notifications down.
- 2 Touch the application that you have downloaded from the Android Market.  indicates that an application is completely downloaded. You can also run the application in the Applications menu.

## ADDING ANDROID MARKET WIDGET

- 1 Touch and hold on the empty space on the Home screen.
- 2 Touch **Market** in the list. Applications that Market suggests are displayed through the widget.

## DELETING APPLICATIONS FROM THE ANDROID MARKET

- 1 Touch **Menu** from the Home Screen and touch **Market**.
- 2 Touch  and touch **My apps**.
- 3 Touch and hold the application to delete and touch **Uninstall** > **OK**.

 **Note** You cannot uninstall applications that are installed by the manufacturer.

## DELETING APPLICATIONS FROM SETTINGS

- 1 Touch **Menu** from the Home Screen and touch **Settings**.
- 2 Touch **Applications > Manage applications**.
- 3 Select and touch an application to delete.
- 4 Touch **Uninstall > OK**.
- 5 Touch **OK**.

## USING Google MAPS

Google Maps offers useful information based on your region. Make sure to connect the ADR910L to a Wi-Fi, 3G or 4G network. If you turn on the GPS function, you can obtain more accurate information.

### FINDING PLACES

- 1 Touch **Menu** from the Home Screen and touch **Maps**. You can see your current location on the map.

 **Note** Make sure to connect to wireless networks or GPS satellites by touching **Settings > Location services** and touching **VZW Location Services, Standalone GPS Services** or/and **Google Locations Services > Agree**.

- 2 Touch  on the bottom of the screen and type the keyword using the virtual keyboard, and touch .
- 3 Touch **RESULTS LIST** on the bottom of the screen if you want to see the result list. The list appears when there are many results that match your search.

- 4 Select and touch the location that you want to see, and check the related information. Touch **MAP VIEW** on the bottom of the screen if you want to see the results on the map at a glance.

## FINDING CURRENT LOCATION ON THE MAP

- 1 Touch **Menu** from the Home Screen and touch **Maps**.
- 2 Touch . Your location is indicated as .

## ZOOMING IN AND OUT OF THE MAP

- 1 Place your fingers on the screen and pinch them apart to zoom in the map. You can double-touch the screen to zoom in the map.
- 2 Place your fingers on the screen and pinch them together to zoom out of the map.

## FINDING DIRECTIONS

- 1 Touch **Menu** from the Home Screen and touch **Maps**.
- 2 Touch  and enter the name of the place you want to visit.
- 3 Decide whether you want to go to the end point by car, public transportation or foot.
- 4 Touch **GET DIRECTIONS**.

## Google SEARCH

### SEARCHING FOR INFORMATION WITH Google

- 1 Touch **Menu** from the Home Screen and touch **Google Search**, or touch the Search Key **Q** in idle mode.
- 2 Enter a keyword in the search box and touch  or .

### SETTING SEARCH OPTIONS

- 1 Touch **Menu** from the Home Screen and touch **Google Search**.
- 2 Touch  and touch **Search settings**.
- 3 Touch **Google search**.
- 4 Touch **Show web suggestions** if you want to see suggestions from Google as you search through Google. The check box is selected by default.
- 5 Touch **Use My Location** if you allow your location to be used for Google search results.

### SELECTING ITEMS THAT CAN BE SEARCHED

- 1 Touch **Menu** from the Home Screen and touch **Google Search**.
- 2 Touch  and touch **Search settings**.
- 3 Touch **Searchable items**.
- 4 Select and touch items you want to include for the search result. Touch **Clear shortcuts** if you want to clear shortcuts to recently chosen search items.

## MANAGING SEARCH HISTORY

- 1 Touch **Menu** from the Home Screen and touch **Google Search**.
- 2 Touch  and touch **Manage search history**.

 **Note** Make sure to touch **Search history** first if you want to use **Manage search history**.

- 3 Enter the email address and password for your Google account.
- 4 Select and touch search history in the list and touch **Remove** if you want to remove the search history.

## ADDING Google SEARCH WIDGET

- 1 Touch and hold on the empty space on the Home screen.
- 2 Touch **Google Search** in the list.
- 3 Select the item that should be included for search. You can edit the items later.

## VOICE SEARCH

Search the Internet by speaking on the phone.

- 1 Touch **Menu** from the Home Screen and touch **Voice Search**, or touch and hold the Search Key .
- 2 Say a keyword on the mic.
- 3 Select and touch the result. Speak again when no matches are found for the keyword.

Voice search

Search results

## USING PLACES

### FINDING PLACES

- 1 Touch **Menu** from the Home Screen and touch **Places**.
- 2 Touch  and enter a keyword in the search box. Or touch **Restaurants, Cafes, Bars, or Attractions**. You can also touch one of the categories on the screen.
- 3 Select and touch a place in the search results.

 **Note** If you want to sort the result by distance or ratings by customers, touch **Distance** or **Rating** in the search results.

### VIEWING PLACES AT A GLANCE

- 1 Touch **Menu** from the Home Screen and touch **Places**.
- 2 Select and touch a category.
- 3 Touch **MAP VIEW** on the bottom of the screen. You can see related places on the map.

### ADDING A CATEGORY FOR PLACES

- 1 Touch **Menu** from the Home Screen and touch **Places**.
- 2 Touch  and touch **Add a search**.
- 3 Enter a category to add and touch **Add**. The category appears on the screen.

### ADDING STARRED PLACES

- 1 Touch **Menu** from the Home Screen and touch **Places**.

- 2 Select and touch a category.
- 3 Select and touch a place that you want to see.
- 4 Touch the star icon for each place. When selected, the icon turns yellow.

⚠ **Note** You can view starred places by touching the map icon on the top right side of the screen in the first screen of **Places**.

## USING LATITUDE

Share your location with your friends or check those of your friends. Make sure to have a Google account to use Latitude.

### JOINING LATITUDE

- 1 Touch **Menu** from the Home Screen and touch **Latitude**.
- 2 Touch **MAP VIEW** if you want to see your friends on the map.

## ADDING FRIENDS FROM CONTACTS

- 1 Touch **Menu** from the Home Screen and touch **Latitude**.
- 2 Touch .
- 3 Touch **Select from Contacts**.
- 4 Select and touch the contact you want to add as your friend.

**!** **Note** All contacts are displayed by default. If you want to classify contacts, touch **All Contacts** on the top of the screen, and select and touch a category of contacts.

- 5 Touch **Yes** if you want to send sharing requests.

## ADDING FRIENDS FROM EMAIL ADDRESSES

- 1 Touch **Menu** from the Home Screen and touch **Latitude**.
- 2 Touch .
- 3 Touch **Add via email address**.
- 4 Enter the email address of your friend and touch **Add friends**.
- 5 Touch **Yes** if you want to send sharing requests.

## ACCEPTING INVITATION FROM FRIENDS

- 1 Touch **Menu** from the Home Screen and touch **Latitude**.
- 2 Touch **1 new sharing request** on the top of the screen.
- 3 Touch **Accept and share back**. You can see the location of your friend shortly. You can also touch **Accept, but hide my location** or **Don't accept**.

## MANAGING FRIENDS

- 1 Touch **Menu** from the Home Screen and touch **Latitude**.
- 2 Touch one of the friends on the screen.
- 3 Touch **Real-time updating**, and select and touch the time interval for refreshing locations.
- 4 Touch **Sharing options**, and select and touch an option.
- 5 Touch **Remove this friend** and touch **OK** if you want to remove the friend from Latitude.

## CHECKING PERSONAL SETTINGS

- 1 Touch **Menu** from the Home Screen and touch **Latitude**.
- 2 Touch your name on the top of the screen. You can see your name, Gmail account and your current location.
- 3 Touch **View your location history** if you want to save your past Latitude history, and follow the instructions.
- 4 Touch **Edit privacy settings** if you want to adjust settings for privacy.
- 5 Touch **Change your photo** if you want to change the photo for Latitude, and touch **Take a photo** or **Pick from gallery** and follow the instructions.

## ADJUSTING PRIVACY SETTINGS

- 1 Touch **Menu** from the Home Screen and touch **Latitude**.
- 2 Touch  and touch **Location reporting**.
- 3 Touch **Location reporting** and touch **Detect your location, Set your location** or **Do not update your location** for a location reporting. Detect your location is selected by default.
- 4 Touch **Enable location history** if you want to store your locations in the past and view them on the Latitude website.
- 5 Touch **Sign out of Latitude** if you do not want to use Latitude. If you want to join Latitude again, touch  and touch **Join Latitude**.

 **Note** For more information on the map, refer to Using Google Maps on page 115.

## NAVIGATION

### SEARCHING FOR THE DESTINATION BY VOICE

- 1 Touch **Menu** from the Home Screen and touch **Navigation**.
- 2 Touch **Speak Destination** and speak your destination into the ADR910L.
- 3 Select and touch a destination in the list when there are many destinations.

⚠ **Note** You can also search the destination by typing it or selecting it in the contacts.

## FINDING DIRECTIONS USING Google MAPS

- 1 Touch **Menu** from the Home Screen and touch **Maps**.
- 2 Touch  and enter the name of the place you want to visit.
- 3 Decide whether you want to go to the end point by car, public transportation or foot.
- 4 Touch **GET DIRECTIONS**.

⚠ **Note** For more information on Google Maps, refer to Using Google Maps on page 115.

## CHECKING THE TRAFFIC CONDITIONS

- 1 Touch  and touch **Route Info** while Navigation is running.
- 2 Swipe the screen along the suggested route to the destination. Depending on the traffic conditions, the road appears in green (good), yellow (congested) or red (jammed).
- 3 Touch  and touch the route if you want to set an alternative route.

## NEWS & WEATHER

News and Weather offers news in various fields and weather information in your region.

Viewing weather information

- 1 Touch **Menu** from the Home Screen and touch **News & Weather**. Information on your current region for the moment is provided by default.
- 2 Touch on the weather information in the middle of the screen if you want to check the weather forecast throughout the day.
- 3 Touch on the chart and drag the vertical bar on the screen to the left or right if you want to see weather information for a certain time of the day.

## ADJUSTING WEATHER SETTINGS

- 1 Touch **Menu** from the Home Screen and touch **News & Weather**.
- 2 Touch  and touch **Settings**.
- 3 Touch **Weather settings**.
- 4 Touch **Use my location** if you want to see information of your region automatically.
- 5 Touch **Use metric** if you want to change the unit for weather information.

## CHANGING MY LOCATION

- 1 Touch **Menu** from the Home Screen and touch **News & Weather**.
- 2 Touch  and touch **Settings**.
- 3 Touch **Weather settings**.
- 4 Deselect **Use my location**.
- 5 Touch **Set location** and enter the name or postal code of a city you want.

## READING NEWS ARTICLES

- 1 Touch **Menu** from the Home Screen and touch **News & Weather**.
- 2 Touch **Top Stories** on the top of the screen.
- 3 Select and touch an article if you want to see the full story.
- 4 Swipe the screen to the left or right if you want to see articles by category.

## CUSTOMIZING NEWS TOPICS

- 1 Touch **Menu** from the Home Screen and touch **News & Weather**.
- 2 Touch  and touch **Settings**.
- 3 Touch **News settings** > **Select news topics**.
- 4 Select and touch the topic you want to see. Touch it again if you want to delete the topic.

## ADDING NEWS TOPICS

- 1 Touch **Menu** from the Home Screen and touch **News & Weather**.
- 2 Touch  and touch **Settings**.
- 3 Touch **News settings** > **Select news topics**.
- 4 Touch **Custom topic**, enter the title and touch **OK**. You can see articles related to the title.

## SELECTING NEWS SETTINGS

- 1 Touch **Menu** from the Home Screen and touch **News & Weather**.
- 2 Touch  and touch **Settings**.
- 3 Touch **News Settings**.
- 4 Touch **Prefetch articles** if you want to shorten time to access articles. Remember this increases data usage and consumes more battery. Touch **Prefetch images** if you also want to make it short to access images.
- 5 Touch **News terms of service** if you want to check Terms of Use for news.
- 6 Touch **Mobile privacy policy** if you want to see the latest mobile privacy policy.

## SETTING REFRESH OPTIONS

- 1 Touch **Menu** from the Home Screen and touch **News & Weather**.
- 2 Touch  and touch **Settings**.
- 3 Touch **Refresh settings**.
- 4 Touch **Auto-refresh** if you want to update weather and news automatically. The check box is selected by default.
- 5 Touch **Refresh interval**, select and touch an interval to refresh. **Refresh status** shows the last refresh date and time.

# 6

## TOOLS

This chapter provides important information about using the ADR910L including:

- CALENDAR
- CALCULATOR
- ALARM/CLOCK
- CLOCK TOOLS
- DOC VIEWER
- SMARTNOTE
- VOICE RECORDER
- DOWNLOADS
- CONTENT TRANSFER
- WEATHER

# TOOLS

## CALENDAR

### ADDING AN ACCOUNT

You should have an account to use the calendar. For details on Google account, refer to the page 25.

### CREATING AN EVENT

- 1 Touch **Menu** from the Home Screen and touch **Calendar**.
- 2 Touch a day in the calendar.
- 3 Double-touch an hour that you want to add an event.
- 4 Enter necessary information.
- 5 Touch **Done**.

## CHECKING EVENTS

- 1 Touch **Menu** from the Home Screen and touch **Calendar**.
- 2 Touch a day that you want to view events for the day. A blue dot indicates an event for a day.
- 3 Touch  and touch **Day**, **Week** or **Month** if you want to see events for a daily or weekly basis. Month view is displayed by default.
- 4 Touch **Today** if you want to see events for today.
- 5 Touch **Agenda** if you want to see events in text mode.

Week view

Agenda

## EDITING EVENTS

- 1 Touch **Menu** from the Home Screen and touch **Calendar**.
- 2 Touch the day that you want to edit events.
- 3 Touch the event that you want to edit.
- 4 Touch  and touch **Edit event**.
- 5 Edit the event and touch **Done**.

 **Note** If the event is synced to your phone, you cannot edit the event.

## SETTING THE REMINDER

- 1 Touch **Menu** from the Home Screen and touch **Calendar**.
- 2 Touch  and touch **Settings > General settings**.
- 3 Touch **Choose ringtone** if you want to select a specific ringtone for the calendar.

## ADDING CALENDAR WIDGET

- 1 Touch and hold on the empty space on the Home screen.
- 2 Touch and hold **Calendar** on the bottom of the screen and place it on the Home screen.
- 3 Select a style for the day, week or month. You can also add the calendar widget provided by Google.

## CALCULATOR

Perform basic mathematical calculations with the calculator in the ADR910L.

### DOING CALCULATIONS

- 1 Touch **Menu** from the Home Screen and touch **Calculator**.
- 2 Enter a number and touch a mathematical sign you want to use.
- 3 Touch **C** to delete a number. Touch and hold **C** to delete the whole number.

### SAVING CALCULATIONS

- 1 Touch **Menu** from the Home Screen and touch **Calculator**.
- 2 Touch  during a calculation and touch **Save**.
- 3 Enter a name and touch **Save**. The final value appears under the name by default.

### EDITING SAVED CALCULATIONS

- 1 Touch **Menu** from the Home Screen and touch **Calculator**.
- 2 Touch  and touch **List**.
- 3 Touch and hold the calculation to edit and touch **Edit**.
- 4 Touch the calculation and edit it.

- 5 Touch  and touch **Save**.

## DELETING CALCULATIONS

- 1 Touch **Menu** from the Home Screen and touch **Calculator**.
- 2 Touch  and touch **List**.
- 3 In order to delete calculations:
  - If you want to delete a calculation, touch and hold the calculation to delete, and touch **Delete**.
  - If you want to delete several calculations, touch , touch **Delete**, touch the check box next to calculations to delete and touch **Done** in the top of the screen.
- 4 Touch **OK**.

## ALARM/CLOCK

Alarm/Clock helps set the alarm and see basic information on your region including time and weather.

### ADDING NEW ALARMS

- 1 Touch **Menu** from the Home Screen and touch **Alarm/Clock**.
- 2 Touch **+ Add alarm**. You can also touch  and touch **Add alarm**.
- 3 Drag the hour, minute or AM/PM, and touch **Set**.
- 4 In order to adjust settings:
  - Touch **Repeat**, touch the check box next to each day for a week and touch **OK**.

- Touch **Ringtone** and touch a ringtone for the alarm. You can listen to each ringtone when you touch it.
  - Touch **ON** next to **Vibrate** if you do not want the ADR910L to make vibrations for alarm. It is selected by default. You can touch **OFF** if you do not want.
  - Touch **Label** and enter a name for the alarm.
- 5** Touch **OK**. An orange bar appears under the new alarm.

## EDITING ALARMS

- 1** Touch **Menu** from the Home Screen and touch **Alarm/Clock**.
- 2** Touch the alarm to edit.
- 3** Touch each option and change the setting.
- 4** Touch **OK**.

## DEACTIVATING ALARMS

- 1** Touch **Menu** from the Home Screen and touch **Alarm/Clock**.
- 2** Touch the orange bar under  to deactivate. An orange bar indicates that the alarm is on. The color disappears when the alarm is turned off.

## DELETING ALARMS

- 1** Touch **Menu** from the Home Screen and touch **Alarm/Clock**.
- 2** In order to delete alarms:
  - If you want to delete an alarm, touch and hold the alarm to delete, and touch **Delete alarm**.
  - If you want to delete several alarms at once, touch , touch **Delete alarm**, touch the alarms to delete and touch .

## ALARM SETTINGS

- 1 Touch **Menu** from the Home Screen and touch **Alarm/Clock**.
- 2 Touch  and touch **Settings**.
- 3 In order to set alarms:
  - Touch **ON** next to **Alarm in silent mode** if you want to play the alarm even when the ADR910L is in silent mode.
  - Touch **Alarm volume** if you want to adjust the volume, set the volume and touch **OK**.
  - Touch **Snooze duration** if you want to adjust the snooze duration, select and touch the duration.
  - Touch **Auto silence** if you want to set the time when the alarm is silenced, and touch the time.
  - Touch **Button setting** if you want to assign a button action for the volume key during an alarm, select and touch an option.
  - Touch **Set default ringtone** if you want to set the default ringtone for alarm, and touch the ringtone.

## CLOCK TOOLS

Clock Tools offers the current time in major cities and time zones around the world. World time is displayed first by default. You can also use the timer and the stopwatch.

### VIEWING THE WORLD TIME

- 1 Touch **Menu** from the Home Screen and touch **Clock Tools**.
- 2 Touch **Add new city** and enter the name of a city. Type the first letter and you can find the city easily.
- 3 Select and touch the city. The time for the newly added city appears below the current time.

### REARRANGING THE ORDER OF CITIES

- 1 Touch **Menu** from the Home Screen and touch **Clock Tools**.
- 2 Touch  and touch **Rearrange**.
- 3 Select a city to relocate and drag  up or down to rearrange the order. You cannot move the location of the current city.
- 4 Touch **Done**.

### DELETING A CITY

- 1 Touch **Menu** from the Home Screen and touch **Clock Tools**.
- 2 In order to delete cities:

- If you want to delete one or more than one cities, touch  and touch **Delete**, and touch the check box next to the city.
- If you want to delete all cities at once, touch  and touch **Delete**, touch  and touch **Select All**.

**3** Touch **Done** > **Yes**.

## ADDING CLOCK WIDGET

**1** Touch and hold on the empty space on the Home Screen.

**2** Touch **Clock**.

**3** Select a style and drag the clock on the empty space of the screen.

## USING TIMER

**1** Touch **Menu** from the Home Screen and touch **Clock Tools**.

**2** Touch **Timer**.

**3** Touch  and touch **Set** for setting the time.

**4** Set the hour, minute and second and touch **Save**.

**5** Touch **Start**. Timer begins to run and makes sound when time is up even when the vibration mode is set for the ADR910L.

 **Note** You can reset the time by touching **Reset** while timer is running.

## USING STOPWATCH

- 1 Touch **Menu** from the Home Screen and touch **Clock Tools**.
- 2 Touch **Stopwatch**.
- 3 Touch **Start** and record the time:
  - Touch **Record** while the stopwatch is running. This function is used when you want to measure time that takes to run for a certain distance.
  - Touch **Continue**. This function is used when you want to measure the accumulated time. You can split it up to 100 times.
- 4 Touch **Reset** to restart the stopwatch.

## DOC VIEWER

Read documents that are stored in a variety of formats in the ADR910L.

### READING DOCUMENTS

- 1 Touch **Menu** from the Home Screen and touch **Doc Viewer**.
- 2 Select and touch a document to read.
- 3 Touch anywhere on the screen while a document is open.
- 4 In order to read a document:
  - Touch  and touch  to zoom in or touch  to zoom out in landscape mode. In the portrait mode, drag  downwards or upwards to zoom in or out. You can also zoom in by pinching your fingers apart, and zoom out by pinching your fingers together.

- Touch  if you want to fit the document to width. Or touch  if you want to fit the document to height.

Full view

Selecting options

## SEARCHING FOR WORDS IN A DOCUMENT

- 1 Touch **Menu** from the Home Screen and touch **Doc Viewer**.
- 2 Open a document.
- 3 Touch  and touch **Word search**.
- 4 Enter a word to search for and touch **Done** in the virtual keyboard.
- 5 Touch  to see the word that you have searched for in the next sentence or page.
- 6 Touch **Done** if you want to stop searching for the word.

## MOVING TO A PAGE IN A DOCUMENT

- 1 Touch **Menu** from the Home Screen and touch **Doc Viewer**.
- 2 Open a document.
- 3 Touch  to move to the previous page.  
Touch  to move to the next page.
- 4 Touch  and touch **Go to page**.
- 5 Enter the page to go to and touch **Done**.

## SMARTNOTE

Draw a memo with your finger. Make sure to insert a microSD™ card to use SmartNote.

### DRAWING A MEMO

- 1 Touch **Menu** from the Home Screen and touch **SmartNote**.
- 2 Draw a memo with your finger. If you have saved another memos, touch **Create New**.
- 3 Adjust the thickness and color of the pencil if necessary.
- 4 Touch **Save**.

## WRITING A MEMO

- 1 Touch **Menu** from the Home Screen and touch **SmartNote**.
- 2 Touch  > .
- 3 Enter the memo and touch **Done**.
- 4 Touch **Save**.

## EDITING A MEMO

- 1 Touch **Menu** from the Home Screen and touch **SmartNote**.
- 2 Touch the memo to edit.
- 3 Touch  on the top of the screen.
- 4 Edit the memo and touch **Save**.

## SHARING MEMOS

- 1 Touch **Menu** from the Home Screen and touch **SmartNote**.
- 2 Touch the memo to share.
- 3 Touch  on the top of the screen.
- 4 Touch **Bluetooth**, **Gmail**, **Google+**, **Messaging**, **Net Media**, **Picasa**, **Social On**, or **To online album**.
- 5 Follow necessary steps for each service.

## SAVING A MEMO TO ALBUM

- 1 Touch **Menu** from the Home Screen and touch **SmartNote**.
- 2 Touch the memo to save.
- 3 Touch  on the top of the screen. The memo is saved to photo album automatically.

## DELETING MEMOS

- 1 Touch **Menu** from the Home Screen and touch **SmartNote**.
- 2 Touch the memo to delete:
- 3 Touch  on the top of the screen.
- 4 Touch **Done**.

## VOICE RECORDER

### RECORDING YOUR VOICE

- 1 Touch **Menu** from the Home Screen and touch **Voice Recorder**.
- 2 Touch  to start recording your voice.
- 3 Touch  to stop recording your voice.

 **Note** Once you have recorded a voice memo, the screen to play it appears. Touch  to replay the recorded voice memo. Touch  you want to record a new voice memo.

### DESIGNATING LOCATION TO SAVE

- 1 Touch **Menu** from the Home Screen and touch **Voice Recorder**.
- 2 Touch  and touch **Internal media storage** or **SD card**.
- 3 Touch **OK**. The new voice memo will be saved in the location.

## LISTENING TO RECORDED VOICES

- 1 Touch **Menu** from the Home Screen and touch **Voice Recorder**.
- 2 Touch .
- 3 Touch a memo to listen and touch . If you want to go back to the list, touch  or touch .

## SHARING VOICE MEMOS

- 1 Touch **Menu** from the Home Screen and touch **Voice Recorder**.
- 2 Touch .
- 3 Touch and hold a memo to share, and touch **Send**.
- 4 Touch **Bluetooth, Gmail, Messaging, Net Media, or Verizon Media Manager**, and take necessary steps.

## RENAMING MEMO

- 1 Touch **Menu** from the Home Screen and touch **Voice Recorder**.
- 2 Touch .
- 3 Touch and hold a memo to rename and touch **Rename**.
- 4 Change the name of the memo and touch **Done**.

## SETTING A MEMO AS RINGTONE

- 1 Touch **Menu** from the Home Screen and touch **Voice Recorder**.
- 2 Touch .
- 3 Touch and hold a memo to use as a ringtone, and touch **Set as Ringtone**.

## DELETING VOICE MEMOS

- 1 Touch **Menu** from the Home Screen and touch **Voice Recorder**.
- 2 Touch .
- 3 Before deleting voice memos:
  - If you want to delete a memo, touch and hold a memo to delete, and touch **Delete** > **OK**.
  - If you want to delete several memos, touch , touch **Delete**, touch memos to delete and touch  .

## DOWNLOADS

### SORTING FILES

- 1 Touch **Menu** from the Home Screen and touch **Downloads**. You can see files that you have downloaded onto your device.
- 2 Touch **Sort by size** if you want to see files by the size of downloaded files.
- 3 Touch **Sort by time** if you want to see files by the time of downloading files.

### RUNNING DOWNLOADED FILES

- 1 Touch **Menu** from the Home Screen and touch **Downloads**.
- 2 Touch a file that you want to see or run. Depending on the file type, the relevant media player will run.

 **Note** If the file is not found, a pop-up window appears. Touch **Retry** if you want to find the file again. Or touch **Delete** if you want to remove the file name in the list).

## DELETING FILES

- 1 Touch **Menu** from the Home Screen and touch **Downloads**.
- 2 Touch the file(s) to delete.
- 3 Touch  on the top of the screen.

## CONTENT TRANSFER

### TRANSFERRING MEDIA FILES AND DOCUMENTS

- 1 Touch **Menu** from the Home Screen and touch **ContentTransfer**.
- 2 Touch **Photo, Video, Audio, or Documents**.
- 3 Touch the checkbox next to the file that you want to transfer. The color of the selected checkbox changes. If you want to transfer all files, touch  and touch **Select all**.
- 4 Touch **Done**.
- 5 Touch the device that you will send the selected file(s). If the Bluetooth is not turned on, make sure to touch **Turn on** in the screen and take the necessary steps.

### TRANSFERRING CONTACTS

- 1 Touch **Menu** from the Home Screen and touch **ContentTransfer**.
- 2 Touch **Contact**.
  - Touch **Transfer all contacts** if you want to send all contacts.
  - Touch **Transfer contracts by group** if you want to send contacts by group.
  - Touch **Transfer contacts by name** if you want to send contacts by name.

- 3 Touch the checkbox next to the contact that you want to transfer. The color of the selected checkbox changes. If you want to transfer all contacts, touch  and touch **Select all**.

## TRANSFERRING SMART NOTE MEMOS

- 1 Touch **Menu** from the Home Screen and touch **ContentTransfer**.
- 2 Touch **Smart Note**.
- 3 Touch the memo to send and touch .
- 4 Take the necessary steps.

## WEATHER

### CREATING LIST OF CITIES

- 1 Touch **Menu** from the Home Screen and touch **Weather**.
- 2 Touch **Add new city**.
- 3 Type the name of the city you want, or swipe the screen upwards while you type and touch a city. Weather information of the city appears in the list. You can add up to 15 cities in the list.

## VIEWING WEATHER INFORMATION

- 1 Touch **Menu** from the Home Screen and touch **Weather**.
- 2 Select and touch a city in the list you want to see. You can see weather forecast for the next five days including today.
- 3 Touch  if you want to see the current weather information.

Current weather

## CHANGING THE TEMPERATURE UNIT

- 1 Touch **Menu** from the Home Screen and touch **Weather**.
- 2 Touch  and touch **Settings**.
- 3 Touch  or . The temperature changes from **Fahrenheit** to **Celsius**.

## DELETING A CITY

- 1 Touch **Menu** from the Home Screen and touch **Weather**.
- 2 Touch  and touch **Delete**.
- 3 Touch the city to delete and touch .

## ADDING WEATHER WIDGET

- 1 Touch and hold on the empty space on the Home screen.
- 2 Touch **Weather**.
- 3 Touch **Daily(4x2)** or **Weekly(4x2)** and drag it on the empty space of the Home Screen.

# 7

## SETTINGS

This chapter provides important information about setting options to use the ADR910L including:

- MODE CHANGE
- USER THEME
- WIRELESS & NETWORKS
- DEVICE
- LOCATION SERVICES
- APPLICATIONS
- ACCOUNTS & SYNC
- PRIVACY
- STORAGE
- LANGUAGE & KEYBOARD
- VOICE INPUT & OUTPUT
- ACCESSIBILITY
- DATE & TIME
- ABOUT PHONE

# SETTINGS

## MODE CHANGE

### CHANGING HOME SCREEN MODE

- 1 Touch **Menu** > **Settings** > **Mode Change**.
- 2 Touch **Simple mode** or **Normal mode**. Normal mode is selected by default.

## USER THEME

### CHANGING LOCK SCREEN

- 1 Touch **Menu** > **Settings** > **User Theme** > **Lock Screen**.
- 2 Change screen lock type, wallpaper and shortcuts.

### CHANGING DIAL DESIGN

- 1 Touch **Menu** > **Settings** > **User Theme** > **Dial**.
- 2 Touch  or , and touch your preferred dial design.

### CHANGING DEFAULT PROGRAMS

- 1 Touch **Menu** > **Settings** > **User Theme** > **Default Programs**.
- 2 Check the default programs and change them if necessary.

## WIRELESS & NETWORKS

### SETTING Wi-Fi NETWORKS

- 1 Touch **Menu** > **Settings** > **Wi-Fi**.
- 2 Touch the Wi-Fi network that you want to connect.

### SETTING BLUETOOTH

- 1 Touch **Menu** > **Settings** > **Bluetooth**.
- 2 Touch **Bluetooth settings** to manage the wireless technology option.

### SETTING DATA USAGE

- 1 Touch **Menu** > **Settings** > **Data usage**.
- 2 Touch **Mobile data** > **Set mobile data limit** if you want to set limit to data usage.

### ADJUSTING CALL SETTINGS

- 1 Touch **Menu** > **Settings** > **Call settings**.
- 2 Adjust settings for voicemail, developer options and others.

### SETTING VOICEMAIL SETTINGS

- 1 Touch **Menu** > **Settings** > **Call settings** > **Voicemail settings**.
- 2 Touch **Voicemail number**.
- 3 Enter the voicemail number and touch **OK**.

## DEVICE

### SETTING VOLUME

- 1 Touch **Menu** > **Settings** > **Sound** > **Volumes**. Make sure to deselect Silent mode.
- 2 Adjust the volume.
- 3 Touch **OK**.

### SETTING TO VIBRATION

- 1 Touch **Menu** > **Settings** > **Sound**
- 2 Touch **On** next to **Vibrate**.

### SETTING SILENT MODE

- 1 Touch **Menu** > **Settings** > **Sound** > **Silent mode**. All other functions except the media volume and alarms are silenced if you select this option.
- 2 Touch **Silent mode** again to activate all functions

### SETTING PHONE RINGTONE

- 1 Touch **Menu** > **Settings** > **Sound** > **Phone ringtone**.
- 2 Select and touch a ringtone in the list.
- 3 Touch **OK**.

## SETTING DEFAULT NOTIFICATION RINGTONE

- 1 Touch **Menu > Settings > Sound > Default Notification**.
- 2 Select and touch a ringtone for notifications.
- 3 Touch **OK**.

## SETTING SYSTEM SOUND

- 1 Touch **Menu > Settings > Sound**.
- 2 Touch **Dial pad touch tones** if you want to play tones when using the dial pad. It is selected by default.
- 3 Touch **Touch sounds** if you want to play sound when making a selection on the screen. It is selected by default.
- 4 Touch **Screen lock sounds** if you want to play sound when locking and unlocking the screen.
- 5 Touch **Vibrate on touch** if you want the ADR910L to vibrate when you touch buttons. It is selected by default.

## SETTING EMERGENCY TONE

- 1 Touch **Menu > Settings > Sound > Emergency tone**.
- 2 Touch **Off, Alert** or **Vibrate**.

## SETTING ROAMING SOUND

Touch **Menu > Settings > Sound > Roaming Sound** if you want to be indicated by sound when you are roaming.

## SETTING BRIGHTNESS

- 1 Touch **Menu** > **Settings** > **Display** > **Brightness**.
- 2 Drag the vertical bar to the right to increase brightness. Drag it to the left to decrease brightness.
- 3 Touch **Automatic brightness** if you let brightness to be adjusted automatically.
- 4 Touch **OK**.

## SETTING WALLPAPER

- 1 Touch **Menu** > **Settings** > **Display** > **Wallpaper**.
- 2 Touch **Gallery**, **Live Wallpapers**, or **Wallpapers**, where you will choose wallpaper.

## SETTING AUTO-ROTATE SCREEN

Touch **Menu** > **Settings** > **Display** > **Auto-rotate screen** if you want to make the screen rotate automatically when you move the ADR910L horizontally or vertically.

## SETTING SCREEN TIMEOUT

- 1 Touch **Menu** > **Settings** > **Display** > **Sleep**.
- 2 Select and touch the time interval to turn off the screen.

## SETTING FONT SIZE

- 1 Touch **Menu** > **Settings** > **Display** > **Font size**.
- 2 Select and touch the font size that you want for the font.

## SETTING ROAMING BANNER

- 1 Touch **Menu** > **Settings** > **Display** > **Roaming Banner** if you want to be visually notified when your phone is roaming.

## LOCATION SERVICES

### SETTING VERIZON LOCATION SERVICES

- 1 Touch **Menu** > **Settings** > **Location Services** > **VZW Location Services**.
- 2 Touch **Agree**.

### SETTING STANDALONE GPS SERVICES

- 1 Touch **Menu** > **Settings** > **Location Services** > **Standalone GPS Services**.
- 2 Touch **Agree**.

### SETTING Google LOCATION SERVICES

- 1 Touch **Menu** > **Settings** > **Location Services** > **Google's location service**.
- 2 Touch **Agree**.

### SETTING SCREEN LOCK WITH A PATTERN KEY

- 1 Touch **Menu** > **Settings** > **Location Services** > **Set up screen lock** > **Pattern**.
- 2 Read "Securing your phone" page and touch **Next**.
- 3 Watch how to set up the pattern and touch **Next**.

**Note** Steps 2–3 appear only when you set up the pattern lock for the first time.

- 4 Drag your pattern on the screen and touch **Continue**. Make sure to connect the pattern with at least four dots. Touch **Retry** and draw another pattern if you want to set up one.
- 5 Touch **Continue**.
- 6 Drag the pattern again and touch **Confirm**. If you want to see your pattern as you draw, touch **Use visible pattern**.

Setting the pattern lock

Unlocking the pattern lock

 **Note** If you fail to drag the correct pattern to unlock the screen for five consecutive times, you have to wait for 30 seconds before you can try it again. If you forget your pattern lock, touch **Forgot pattern**, enter your account name and password for Google and create a new pattern lock. However, **Forgot pattern** will not appear if you have no Google account for the ADR910L.

## **FORGOT YOUR PASSWORD FOR Google ACCOUNT?**

If you have forgotten your password for Google account, reset it at the Google website.

- 1** Open your web browser on your computer and go to <https://www.google.com/accounts/recovery>.
- 2** Enter the email address or username that you use to sign in to your Google account and click **Submit**.
- 3** Enter the characters that you see on the screen and click **Continue**.
- 4** Select an option about recovering your account and click **Continue**.
- 5** Take necessary steps for each option:
  - Enter the answer for security questions if you have selected **Answer your security question**. This option will not be available if you have signed in to your Google account within last five days.
  - Check your email account you provided when you created your Google Account and follow the instructions if you have selected **Email to ●●●●●●@\*\*\*\***.

- Fill in the form for Google Accounts Help if you have selected **I no longer have access to these**, and click **Submit** on the bottom of the window.

 **Note** Do not select **Text message to ●●●●●●●●●●30**: You cannot receive a code to reset your password on your mobile phone.

## SETTING SCREEN LOCK WITH A PASSWORD

- 1 Touch **Menu > Settings > Location & security > Set up screen lock > Password**.
- 2 Enter your password and touch **Continue**. The password should be at least 4 characters.
- 3 Enter the password again to confirm.
- 4 Touch **OK**. If you want to set vibration as you touch your password, touch **Use tactile feedback**.

 **Note** Touch **Menu > Settings > Location & security > Visible passwords** if you want to see passwords as you type.

## SETTING SCREEN LOCK WITH A PIN

- 1 Touch **Menu > Settings > Location & security > Set up screen lock > PIN**.
- 2 Enter numbers as PIN and touch **Continue**. The PIN should be at least 4 characters.
- 3 Enter the numbers again to confirm.

- 4 Touch **OK**. If you want to set vibration as you touch your PIN, touch **Use tactile feedback**.

 **Note** Touch **Menu > Settings > Location & security > Set up screen Lock > None** if you do not want to set up an additional process to unlock the screen.

## SETTING THE TIME INTERVAL TO LOCK

- 1 Touch **Menu > Settings > Location & security > Lock phone after**.
- 2 Select and touch the time interval you want.

## SETTING SIM CARD LOCK

- 1 Touch **Menu > Settings > Location & security > Set up SIM card lock**.
- 2 Touch **Lock SIM card** and enter the SIM PIN if you want to require a PIN to use the phone.
- 3 Touch **Change SIM PIN** and enter the old SIM PIN and a new SIM PIN if you want to change the SIM PIN.

## SETTING THE CREDENTIAL STORAGE PASSWORD

- 1 Touch **Menu > Settings > Location & security > Set password**.
- 2 Enter a new password and enter it again to confirm.
- 3 Touch **OK**.

## APPLICATIONS

### INSTALLING UNKNOWN APPLICATIONS

- 1 Touch **Menu** > **Settings** > **Applications**.
- 2 Touch **Unknown sources** if you want to allow non-Android Market applications to be installed on the ADR910L.

### MANAGING APPLICATIONS

- 1 Touch **Menu** > **Settings** > **Applications** > **Manage applications** > **Downloaded**.
- 2 Touch an application and touch **Force stop** if you want to stop its operation by force. Touch **Uninstall** if you want to uninstall the application.
- 3 Touch **Running** on the top of the screen and touch an application to manage its operation.

### VIEWING RUNNING SERVICES AND APPLICATIONS

- 1 Touch **Menu** > **Settings** > **Applications** > **Running services**.
- 2 Touch a service or an application to stop its operation or to edit its options.
- 3 Touch **Stop** if you want to stop its operation.

### CHECKING HOW STORAGE IS USED

- 1 Touch **Menu** > **Settings** > **Applications**.
- 2 Touch **Storage use**.
- 3 Touch **All** in the top of the screen if you want to see all applications.

## DEBUGGING USB

- 1 Touch **Menu > Settings > Applications > Development**.
- 2 Touch **USB debugging** to allow the debug mode when the USB cable is connected.
- 3 Read and touch **OK** on the USB debugging information page.

## MAINTAINING THE STAYING CONDITION

- 1 Touch **Menu > Settings > Applications > Development**.
- 2 Touch **Stay awake** to keep the ADR910L awake while it is being charged.

## ALLOWING MOCK LOCATIONS

- 1 Touch **Menu > Settings > Applications > Development**.
- 2 Touch **Allow mock locations** if you want to pretend to be in another location for development purposes.

## ACCOUNTS & SYNC

### MANAGING BACKGROUND DATA

- 1 Touch **Menu > Settings > Accounts & sync**.
- 2 Touch **Background data** if you want to sync, send and receive data any time.

## ALLOWING BACKGROUND DATA TO SYNC AUTOMATICALLY

- 1 Touch **Menu** > **Settings** > **Accounts & sync**.
- 2 Touch **Auto-sync** if you want to sync data automatically.

## RUNNING BACKUP ASSISTANT

- 1 Touch **Menu** > **Settings** > **Accounts & sync**.
- 2 Touch **Backup Assistant**.

## PRIVACY

### BACKING UP DATA

- 1 Touch **Menu** > **Settings** > **Privacy**.
- 2 Touch **Back up my data** if you want to back up your data.
- 3 Touch **Automatic restore** if you want to restore backed-up data for an application.

### RESETTING ADR910L

- 1 Touch **Menu** > **Settings** > **Privacy**.
- 2 Touch **Factory data reset** if you want to erase all data from the phone.
- 3 Touch **Reset phone**.
- 4 Touch **Erase everything**.

## STORAGE

### VIEWING THE STATUS OF SPACE

- 1 Touch **Menu** > **Settings** > **Storage**. The status of space available for the ADR910L is displayed.

### ERASING THE microSD™ CARD

- 1 Touch **Menu** from the Home Screen and touch **Settings**.
- 2 Touch **Storage** > **Unmount SD card** > **OK**.
- 3 Touch **Erase SD card** > **Erase SD card** > **Erase everything** All data stored in the card will be deleted.

## LANGUAGE & KEYBOARD

### SELECTING THE LANGUAGE

- 1 Touch **Menu** > **Settings** > **Language & keyboard** > **Select language**.
- 2 Select and touch a language to use for the ADR910L.

### SETTING ANDROID KEYBOARD

- 1 Touch **Menu** > **Settings** > **Language & keyboard** > **Android keyboard**.
- 2 Touch **Vibrate on keypress** if you want the ADR910L to vibrate when you touch keys on the virtual keyboard.

## VOICE INPUT & OUTPUT

### SETTING INPUT OPTIONS

- 1 Touch **Menu** > **Settings** > **Voice input & output** > **Voice recognizer settings**.
- 2 Touch **Language**, select and touch a language that will be used for the input language.
- 3 Touch **SafeSearch**, and touch **Off**, **Moderate** or **Strict** for filtering input language.
- 4 Touch **Block offensive words** if you want to hide recognized offensive voice results. It is selected by default.

### SETTING OUTPUT OPTIONS

- 1 Touch **Menu** > **Settings** > **Voice input & output** > **Text-to-speech settings**.
- 2 Touch **Install voice data** that is required for speech synthesis.
- 3 Select and touch a related application from the Android Market and install it. Once you have downloaded voice data from the Android Market, Install voice data is not available.
- 4 Touch **Listen to an example** if you want to check an example.
- 5 Touch **Always use my settings** if you want to make your settings the default settings for the ADR910L.
- 6 Touch **Speech rate**, and select and touch an option.
- 7 Touch **Language**, select and touch a language.

## ACCESSIBILITY

### SETTING THE ACCESSIBILITY OPTION

- 1 Touch **Menu** > **Settings** > **Accessibility**.
- 2 Touch **Cancel** when a popup asks to install the screen reader.
- 3 Touch **Power button ends call** if you want to end a call by pressing the Power/Lock Key 

## DATE & TIME

### ALLOWING DATE AND TIME TO BE SET AUTOMATICALLY

- 1 Touch **Menu** > **Settings** > **Date & time**.
- 2 Touch **Automatic**.

 **Note** Set date, Select time zone and Set time will not work if you touch **Automatic**.

### SETTING DATE

- 1 Touch **Menu** > **Settings** > **Date & time** > **Set date**.
- 2 Deselect **Automatic** and enter month, day and year for the ADR910L.
- 3 Touch **Set**.

### SETTING TIME ZONE

- 1 Touch **Menu** > **Settings** > **Date & time** > **Select time zone**.
- 2 Select and touch a time zone in the list.

## SETTING TIME

- 1 Touch **Menu** > **Settings** > **Date & time** > **Set time**.
- 2 Enter the minute and the hour.
- 3 Touch **Set**.

## SELECTING TIME FORMAT

- 1 Touch **Menu** > **Settings** > **Date & time** > **Use 24-hour format** if you want to see time in a 24-hour format.
- 2 Touch **Use 24-hour format** again if you prefer the 12-hour format.

## SELECTING DATE FORMAT

- 1 Touch **Menu** > **Settings** > **Date & time** > **Select date format**.
- 2 Select a preferred date format.

## ABOUT PHONE

### UPDATING SOFTWARE

- 1 Touch **Menu** > **Settings** > **About phone**.
- 2 Touch **Software Update**.
- 3 Touch **Status** if you want to see the current status of the software and touch **OK**.
- 4 Touch **Check New** if you want to check the latest software and download it on your phone.

## CHECKING THE STATUS OF THE PHONE

- 1 Touch **Menu > Settings > About phone**.
- 2 Touch **Status** if you want to check the current status of the phone, including battery status, battery level and your phone number.

## CHECKING BATTERY USE

- 1 Touch **Menu > Settings > About phone**.
- 2 Touch **Battery use** if you want to check how the battery is being used.

## SEEING LEGAL INFORMATION

- 1 Touch **Menu > Settings > About phone**.
- 2 Touch **Legal information** if you want to see the open source licenses and Google's legal information.

## RESETTING ADR910L

Solve repeated problems by resetting the ADR910L. Make sure to turn off the ADR910L first to protect information and software in the ADR910L.

- 1 Remove the back cover and battery without turning off the ADR910L.
- 2 Insert the battery to the ADR910L right away.
- 3 Turn on the ADR910L.

## SAFETY AND WARRANTY

### SAFETY INFORMATION FOR WIRELESS HANDHELD PHONES

#### EXPOSURE TO RADIO FREQUENCY SIGNALS

Your wireless handheld portable telephone is a low power radio transmitter and receiver. When it is ON, it receives and also sends out radio frequency (RF) signals. In August 1996, the Federal Communications Commission (FCC) adopted RF exposure guidelines with safety levels for handheld wireless phones. Those guidelines are consistent with the safety standards previously set by both U.S. and international standards bodies:

ANSI C951 (1992) \*

NCRP Report 86 (1986) \*\*

ICNIRP (1996) \*\*\*

Those standards were based on comprehensive and periodic evaluations of the relevant scientific literature. For example, over 120 scientists, engineers, and physicians from universities, government health agencies, and industry reviewed the available body of research to develop the ANSI Standard (C951).

The design of your phone complies with the FCC guidelines (and those standards).

\* American National Standards Institute.

\*\* National Council on Radiation Protection and Measurements.

\*\*\* International Commission on Non-Ionizing Radiation Protection.

## ANTENNA SAFETY

Use only the supplied or an approved replacement antenna. Unauthorized antennas, modifications, or attachments could impair call quality, damage the phone, or result in violation of FCC regulations. Please contact your local dealer for replacement antenna.

Do not use the phone with a damaged antenna. If a damaged antenna comes into contact with the skin, a minor burn may result. Please contact your local dealer for replacement antenna.

## DRIVING SAFETY

Talking on the phone while driving is extremely dangerous and is illegal in some states. Remember, safety comes first. Check the laws and regulations on the use of phones in the areas where you drive. Always obey them. Also, if using your phone while driving, please:

- Give full attention to driving. Driving safely is your first responsibility.
- Use hands-free operation, if available.
- Pull off the road and park before making or answering a call, if driving conditions so require.

If you must use the phone while driving, please use one-touch, speed dialing, and auto answer modes.

An airbag inflates with great force. DO NOT place objects, including both installed or portable wireless equipment, in the area over the airbag or in the air bag deployment area. If in-vehicle wireless equipment is improperly installed and the air bag inflates, serious injury could result.

 **WARNING** Failure to follow these instructions may lead to serious personal injury and possible property damage.

## ELECTRONIC DEVICES

Your wireless handheld portable telephone is a low power radio transmitter and receiver. When it is ON, it receives and also sends out radio frequency (RF) signals. Most modern electronic equipment is shielded from RF energy. However, certain electronic equipment may not be shielded against the RF signals from your wireless phone. Therefore, use of your phone must be restricted in certain situations.

## PACEMAKERS

The Health Industry Manufacturers Association recommends that a minimum separation of six (6") inches be maintained between a handheld wireless phone and a pacemaker to avoid potential interference with the pacemaker. These recommendations are consistent with the independent research by and recommendations of Wireless Technology Research. Persons with pacemakers:

- ALWAYS keep the phone more than six inches from your pacemaker when the phone is turned on.
- Do not carry the phone in a breast pocket.
- Use the ear opposite the pacemaker to minimize the potential for interference.
- If you have any reason to suspect that interference is taking place, turn your phone OFF immediately.

## HEARING AIDS

Some digital wireless phones may interfere with some hearing aids. In the event of such interference, you may want to consult your service provider (or call the customer service line to discuss alternatives).

## OTHER MEDICAL DEVICES

If you use any other personal medical device, consult the manufacturer of your device to determine if they are adequately shielded from external RF energy. Your physician may be able to assist you in obtaining this information. Turn your phone OFF in healthcare facilities when any regulations posted in these areas instruct you to do so. Hospitals or healthcare facilities may be using equipment that could be sensitive to external RF energy.

## VEHICLES

RF signals may affect improperly installed or inadequately shielded electronic systems in motor vehicles. Check with the manufacturer or its representative regarding your vehicle. You should also consult the manufacturer of any equipment that has been added to your vehicle.

## POSTED FACILITIES

Turn your phone OFF where posted notices so require.

## OTHER SAFETY GUIDELINES

### AIRCRAFT

FCC regulations prohibit using your phone while in the air. Turn your phone OFF before boarding an aircraft. Always request and obtain prior consent and approval of an authorized airline representative before using your phone aboard an aircraft. Always follow the instructions of the airline representative whenever using your phone aboard an aircraft, to prevent any possible interference with airborne electronic equipment.

## BLASTING AREAS

To avoid interfering with blasting operations, turn your phone OFF when in a “blasting area” or in areas posted: “Turn off two-way radio.” Obey all signs and instructions.

## POTENTIALLY EXPLOSIVE ATMOSPHERES

Turn your phone OFF when in any area with a potentially explosive atmosphere and obey all signs and instructions. Sparks in such areas could cause an explosion or fire resulting in bodily injury or even death.

Areas with a potentially explosive atmosphere are often, but not always, clearly marked. They include fueling areas such as gas stations; below deck on boats; fuel or chemical transfer or storage facilities; vehicles using liquefied petroleum gas (such as propane or butane); areas where the air contains chemicals or particles, such as grain, dust, or metal powders; and any other area where you would normally be advised to turn off your vehicle’s engine.

## PRECAUTIONS

Your Handheld Portable Telephone is a high quality piece of equipment. Before operating, read all instructions and cautionary markings on (1) USB AC Adapter (2) Battery and (3) Product Using Battery.

Failure to follow the directions below could result in serious bodily injury and/or property damage due to battery liquid leakage, fire or rupture.

- DO NOT use this equipment in an extreme environment where high temperature or high humidity exists.

- DO NOT abuse the equipment. Avoid striking, shaking or shocking. When not using, lay down the unit to avoid possible damage due to instability.
- DO NOT expose this equipment to rain or spilled beverages.
- DO NOT use unauthorized accessories.
- DO NOT disassemble the phone or its accessories. If service or repair is required, return unit to an authorized PCD cellular service center. If unit is disassembled, the risk of electric shock or fire may result.
- DO NOT short-circuit the battery terminals with metal items etc.

## **SAFETY INFORMATION FOR FCC RF EXPOSURE**

### **WARNING! READ THIS INFORMATION BEFORE USING**

#### **CAUTIONS**

In August 1996 the Federal Communications Commission (FCC) of the United States with its action in Report and Order FCC 96-326 adopted an updated safety standard for human exposure to radio frequency electromagnetic energy emitted by FCC regulated transmitters. Those guidelines are consistent with the safety standard previously set by both U.S. and international standards bodies. The design of this phone complies with the FCC guidelines and these international standards.

#### **BODY-WORN OPERATION**

This device was tested for typical body-worn operations with the back of the phone kept 1cm. from the body. To maintain compliance requirements, use only belt-clips, holsters or similar accessories that maintain a 1cm separation distance between the user's Body and the back of the phone, including the antenna.

The use of belt-clips, holsters and similar accessories should not

contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided.

For more information about RF exposure, visit the FCC website at <http://www.fcc.gov>.

## SAR INFORMATION

### **THIS MODEL PHONE MEETS THE GOVERNMENT'S REQUIREMENTS FOR EXPOSURE TO RADIO WAVES.**

Your wireless phone is a radio transmitter and receiver. It is designed and manufactured not to exceed the emission limits for exposure to radiofrequency (RF) energy set by the Federal Communications Commission of the U.S. Government. These limits are part of comprehensive guidelines and establish permitted levels of RF energy for the general population. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons, regardless of age and health.

The exposure standard for wireless mobile phones employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by the FCC is 1.6 W/kg. \* Tests for SAR are conducted with the phone transmitting at its highest certified power level in all tested frequency bands. Although the SAR is determined at the highest certified power level, the actual SAR level of the phone while operating can be well below the maximum value. This is because the phone is designed to operate at multiple power levels so as to use only the power required to reach the network. In general, the closer you are to a wireless base station antenna, the lower the power output.

Before a phone model is available for sale to the public, it must be tested and certified to the FCC that it does not exceed the limit

established by the government adopted requirement for safe exposure. The tests are performed in positions and locations (e.g., at the ear and worn on the body) as required by the FCC for each model. The highest SAR value for this model phone when tested for use at the ear is 0.626 W/Kg and when worn on the body, as described in this user guide, is 0.886 W/Kg. (Body-worn measurements differ among phone models, depending upon available accessories and FCC requirements.) While there may be differences between the SAR levels of various phones and at various positions, they all meet the government requirement for safe exposure.

The SAR testing for Body-worn operation was performed with a belt clip that provided a 1cm separation. The User's Manual indicates that any holsters/clips used with this device should contain no metallic components.

The FCC has granted an Equipment Authorization for this model phone with all reported SAR levels evaluated as in compliance with the FCC RF exposure guidelines.

SAR information on this model phone is on file with the FCC and can be found under the Display Grant section of <http://www.fcc.gov/oet/ea> after searching on JYCSTARQ.

Additional information on Specific Absorption Rates (SAR) can be found on the Cellular Telecommunications Industry Association (CTIA) web-site at <http://www.ctia.org>.

\* In the United States and Canada, the SAR limit for mobile phones used by the public is 1.6 watts/kg (W/kg) averaged over one gram of tissue. The standard incorporates a substantial margin of safety to give additional protection for the public and to account for any variations in measurements.

## **HEARING AID COMPATIBILITY (HAC) FOR WIRELESS TELECOMMUNICATIONS DEVICES**

### **PCD'S COMMITMENT**

PCD believes that all of our customers should be able to enjoy the benefits of digital wireless technologies.

We are committed to providing a selection of compatible devices for our customers who wear hearing aids.

### **THIS PHONE HAS A HAC RATING OF M4/T3**

#### **WHAT IS HEARING AID COMPATIBILITY?**

The Federal Communications Commission has implemented rules and a rating system designed to enable people who wear hearing aids to more effectively use these wireless telecommunications devices. The standard for compatibility of digital wireless phones with hearing aids is set forth in American National Standard Institute (ANSI) standard C6319. There are two sets of ANSI standards with ratings from one to four (four being the best rating): an "M" rating for reduced interference making it easier to hear conversations on the phone when using the hearing aid microphone, and a "T" rating that enables the phone to be used with hearing aids operating in the telecoil mode thus reducing unwanted background noise.

#### **HOW WILL I KNOW WHICH WIRELESS PHONES ARE HEARING AID COMPATIBLE?**

The Hearing Aid Compatibility rating is displayed on the wireless phone box.

A phone is considered Hearing Aid Compatible for acoustic coupling (microphone mode) if it has an “M3” or “M4” rating. A digital wireless phone is considered Hearing Aid Compatible for inductive coupling (telecoil mode) if it has a “T3” or “T4” rating.

This phone has been tested and rated for use with hearing aids for some of the wireless technologies that it uses. However, there may be some newer wireless technologies used in this phone that have not been tested yet for use with hearing aids. It is important to try the different features of this phone thoroughly and in different locations, using your hearing aid or cochlear implant, to determine if you hear any interfering noise. Consult your service provider about its return and exchange policies and for information on hearing aid compatibility.

## HOW WILL I KNOW IF MY HEARING AID WILL WORK WITH A PARTICULAR DIGITAL WIRELESS PHONE?

You'll want to try a number of wireless phones so that you can decide which works the best with your hearing aids. You may also want to talk with your hearing aid professional about the extent to which your hearing aids are immune to interference, if they have wireless phone shielding, and whether your hearing aid has a HAC rating.

## FDA CONSUMER UPDATE

U.S. FOOD AND DRUG ADMINISTRATION –  
CENTER FOR DEVICES AND RADIOLOGICAL  
HEALTH CONSUMER UPDATE ON WIRELESS  
PHONES

### 1. Do wireless phones pose a health hazard?

The available scientific evidence does not show that any health problems are associated with using wireless phones. There is no proof, however, that wireless phones are absolutely safe. Wireless phones emit low levels of radiofrequency energy (RF) in the microwave range while being used. They also emit very low levels of RF when in the Home screen. Whereas high levels of RF can produce health effects (by heating tissue), exposure to low level RF that does not produce heating effects causes no known adverse health effects. Many studies of low level RF exposures have not found any biological effects. Some studies have suggested that some biological effects may occur, but such findings have not been confirmed by additional research. In some cases, other researchers have had difficulty in reproducing those studies, or in determining the reasons for inconsistent results.

## 2. What is FDA's role concerning the safety of wireless phones?

Under the law, FDA does not review the safety of radiation-emitting consumer products such as wireless phones before they can be sold, as it does with new drugs or medical devices. However, the agency has authority to take action if wireless phones are shown to emit radiofrequency energy (RF) at a level that is hazardous to the user. In such a case, FDA could require the manufacturers of wireless phones to notify users of the health hazard and to repair, replace or recall the phones so that the hazard no longer exists. Although the existing scientific data do not justify FDA regulatory actions, FDA has urged the wireless phone industry to take a number of steps, including the following:

- Support needed research into possible biological effects of RF of the type emitted by wireless phones;
- Design wireless phones in a way that minimizes any RF exposure to the user that is not necessary for device function; and
- Cooperate in providing users of wireless phones with the best possible information on possible effects of wireless phone use on human health.

FDA belongs to an interagency working group of the federal agencies that have responsibility for different aspects of RF safety to ensure coordinated efforts at the federal level. The following agencies belong to this working group:

- National Institute for Occupational Safety and Health
- Environmental Protection Agency
- Federal Communications Commission
- Occupational Safety and Health Administration
- National Telecommunications and Information Administration

The National Institutes of Health participates in some inter-agency working group activities, as well. FDA shares regulatory responsibilities for wireless phones with the Federal Communications Commission (FCC). All phones that are sold in the United States must comply with FCC safety guidelines that limit RF exposure. FCC relies on FDA and other health agencies for safety questions about wireless phones. FCC also regulates the base stations that the wireless phone networks rely upon. While these base stations operate at higher power than do the wireless phones themselves, the RF exposures that people get from these base stations are typically thousands of times lower than those they can get from wireless phones. Base stations are thus not the subject of the safety questions discussed in this document.

### **3. What kinds of phones are the subject of this update?**

The term “wireless phone” refers here to hand-held wireless phones with built-in antennas, often called “cell,” “mobile,” or “PCS” phones. These types of wireless phones can expose the user to measurable radiofrequency energy (RF) because of the short distance between the phone and the user’s head. These RF exposures are limited by Federal Communications Commission safety guidelines that were developed with the advice of FDA and other federal health and safety agencies. When the phone is located at greater distances from the user, the exposure to RF is drastically lower because a person’s RF exposure decreases rapidly with increasing distance from the source. The so-called “cordless phones,” which have a base unit connected to the telephone wiring in a house, typically operate at far lower power levels, and thus produce RF exposures far below the FCC safety limits.

### **4. What are the results of the research done already?**

The research done thus far has produced conflicting results, and many studies have suffered from flaws in their research methods. Animal experiments investigating the effects of radiofrequency energy (RF) exposures characteristic of wireless phones have yielded conflicting

results that often cannot be repeated in other laboratories. A few animal studies, however, have suggested that low levels of RF could accelerate the development of cancer in laboratory animals. However, many of the studies that showed increased tumor development used animals that had been genetically engineered or treated with cancer-causing chemicals so as to be predisposed to develop cancer in the absence of RF exposure. Other studies exposed the animals to RF for up to 22 hours per day. These conditions are not similar to the conditions under which people use wireless phones, so we don't know with certainty what the results of such studies mean for human health. Three large epidemiology studies have been published since December 2000. Between them, the studies investigated any possible association between the use of wireless phones and primary brain cancer, glioma, meningioma, or acoustic neuroma, tumors of the brain or salivary gland, leukemia, or other cancers. None of the studies demonstrated the existence of any harmful health effects from wireless phone RF exposures. However, none of the studies can answer questions about long-term exposures, since the average period of phone use in these studies was around three years.

## **5. What research is needed to decide whether RF exposure from wireless phones poses a health risk?**

A combination of laboratory studies and epidemiological studies of people actually using wireless phones would provide some of the data that are needed. Lifetime animal exposure studies could be completed in a few years. However, very large numbers of animals would be needed to provide reliable proof of a cancer promoting effect if one exists. Epidemiological studies can provide data that is directly applicable to human populations, but 10 or more years' follow-up may be needed to provide answers about some health effects, such as cancer. This is because the interval between the time of exposure to a cancer-causing agent and the time tumors

develop - if they do - may be many, many years. The interpretation of epidemiological studies is hampered by difficulties in measuring actual RF exposure during day-to-day use of wireless phones. Many factors affect this measurement, such as the angle at which the phone is held, or which model of phone is used.

## **6. What is FDA doing to find out more about the possible health effects of wireless phone RF?**

FDA is working with the U.S. National Toxicology Program and with groups of investigators around the world to ensure that high priority animal studies are conducted to address important questions about the effects of exposure to radiofrequency energy (RF). FDA has been a leading participant in the World Health Organization International Electromagnetic Fields (EMF) Project since its inception in 1996. An influential result of this work has been the development of a detailed agenda of research needs that has driven the establishment of new research programs around the world. The Project has also helped develop a series of public information documents on EMF issues. FDA and the Cellular Telecommunications & Internet Association (CTIA) have a formal Cooperative Research and Development Agreement (CRADA) to do research on wireless phone safety. FDA provides the scientific oversight, obtaining input from experts in government, industry, and academic organizations. CTIA-funded research is conducted through contracts to independent investigators. The initial research will include both laboratory studies and studies of wireless phone users. The CRADA will also include a broad assessment of additional research needs in the context of the latest research developments around the world.

## **7. How can I find out how much radiofrequency energy exposure I can get by using my wireless phone?**

All phones sold in the United States must comply with Federal Communications Commission (FCC) guidelines that limit radiofrequency energy (RF) exposures. FCC established these guidelines in consultation with FDA and the other federal health and safety agencies. The FCC limit for RF exposure from wireless telephones is set at a Specific Absorption Rate (SAR) of 1.6 watts per kilogram (1.6 W/kg). The FCC limit is consistent with the safety standards developed by the Institute of Electrical and Electronic Engineering (IEEE) and the National Council on Radiation Protection and Measurement. The exposure limit takes into consideration the body's ability to remove heat from the tissues that absorb energy from the wireless phone and is set well below levels known to have effects. Manufacturers of wireless phones must report the RF exposure level for each model of phone to the FCC. The FCC website (<http://www.fda.gov> (under "c" in the subject index, select Cell Phones > Research).) gives directions for locating the FCC identification number on your phone so you can find your phone's RF exposure level in the online listing.

## **8. What has FDA done to measure the radiofrequency energy coming from wireless phones?**

The Institute of Electrical and Electronic Engineers (IEEE) is developing a technical standard for measuring the radiofrequency energy (RF) exposure from wireless phones and other wireless handsets with the participation and leadership of FDA scientists and engineers. The standard, "Recommended Practice for Determining the Spatial-Peak Specific Absorption Rate (SAR) in the Human Body Due to Wireless Communications Devices: Experimental Techniques," sets forth the

first consistent test methodology for measuring the rate at which RF is deposited in the heads of wireless phone users. The test method uses a tissue-simulating model of the human head. Standardized SAR test methodology is expected to greatly improve the consistency of measurements made at different laboratories on the same phone. SAR is the measurement of the amount of energy absorbed in tissue, either by the whole body or a small part of the body. It is measured in watts/kg (or milliwatts/g) of matter. This measurement is used to determine whether a wireless phone complies with safety guidelines.

## **9. What steps can I take to reduce my exposure to radiofrequency energy from my wireless phone?**

If there is a risk from these products—and at this point we do not know that there is—it is probably very small. But if you are concerned about avoiding even potential risks, you can take a few simple steps to minimize your exposure to radiofrequency energy (RF). Since time is a key factor in how much exposure a person receives, reducing the amount of time spent using a wireless phone will reduce RF exposure.

- If you must conduct extended conversations by wireless phone every day, you could place more distance between your body and the source of the RF, since the exposure level drops off dramatically with distance.

For example, you could use a headset and carry the wireless phone away from your body or use a wireless phone connected to a remote antenna. Again, the scientific data do not demonstrate that wireless phones are harmful. But if you are concerned about the RF exposure from these products, you can use measures like those described above to reduce your RF exposure from wireless phone use.

## **10. What about children using wireless phones?**

The scientific evidence does not show a danger to users of wireless phones, including children and teenagers. If you want to take steps

to lower exposure to radiofrequency energy (RF), the measures described above would apply to children and teenagers using wireless phones. Reducing the time of wireless phone use and increasing the distance between the user and the RF source will reduce RF exposure. Some groups sponsored by other national governments have advised that children be discouraged from using wireless phones at all. For example, the government in the United Kingdom distributed leaflets containing such a recommendation in December 2000. They noted that no evidence exists that using a wireless phone causes brain tumors or other ill effects. Their recommendation to limit wireless phone use by children was strictly precautionary; it was not based on scientific evidence that any health hazard exists.

## **11. What about wireless phone interference with medical equipment?**

Radiofrequency energy (RF) from wireless phones can interact with some electronic devices. For this reason, FDA helped develop a detailed test method to measure electromagnetic interference (EMI) of implanted cardiac pacemakers and defibrillators from wireless telephones. This test method is now part of a standard sponsored by the Association for the Advancement of Medical Instrumentation (AAMI). The final draft, a joint effort by FDA, medical device manufacturers, and many other groups, was completed in late 2000. This standard will allow manufacturers to ensure that cardiac pacemakers and defibrillators are safe from wireless phone EMI. FDA has tested hearing aids for interference from handheld wireless phones and helped develop a voluntary standard sponsored by the Institute of Electrical and Electronic Engineers (IEEE). This standard specifies test methods and performance requirements for hearing aids and wireless phones so that that no interference occurs when a person uses a "compatible" phone and a "compatible" hearing aid

at the same time. This standard was approved by the IEEE in 2000. FDA continues to monitor the use of wireless phones for possible interactions with other medical devices. Should harmful interference be found to occur, FDA will conduct testing to assess the interference and work to resolve the problem.

## 12. Where can I find additional information?

For additional information, please refer to the following resources:

- For FDA web page on wireless phones, visit <http://www.fda.gov/Radiation-EmittingProducts/RadiationEmittingProductsandProcedures/HomeBusinessandEntertainment/CellPhones/default.htm>.
- For Federal Communications Commission (FCC) RF Safety Program, visit <http://www.fcc.gov/oet/rfsafety>.
- For International Commission on Non-Ionizing Radiation Protection, visit <http://www.icnirp.de>.
- For World Health Organization (WHO) International EMF Project, visit <http://www.who.int/peh-emf/en/>.
- For National Radiological Protection Board (UK), visit <http://www.hpa.org.uk/radiation/>.

## AVOID POTENTIAL HEARING LOSS

Prolonged exposure to loud sounds is the most common cause of preventable hearing loss. Some scientific research suggests that using portable audio devices, and cellular telephones, at high volume settings for long durations may lead to permanent noise-induced hearing loss. This includes the use of headphones (including headsets, earbuds and Bluetooth® or other wireless devices). Exposure to very loud sound has also been associated in some studies with tinnitus (a ringing in the ear), hypersensitivity to sound and distorted hearing. Individual susceptibility to noise-induced hearing loss and other potential hearing problems varies.

The amount of sound produced by a portable audio device varies depending on the nature of the sound, the device, the device settings and the headphones. You should follow some commonsense recommendations when using any portable audio device:

- Set the volume in a quiet environment and select the lowest volume at which you can hear adequately.
- When using headphones, turn the volume down if you cannot hear the people speaking near you or if the person sitting next to you can hear what you are listening to.
- Do not turn the volume up to block out noisy surroundings. If you choose to listen to your portable device in a noisy environment, use noise-cancelling headphones to block out background environmental noise.
- Limit the amount of time you listen. As the volume increases, less time is required before your hearing could be affected.
- Avoid using headphones after exposure to extremely loud noises, such as concerts, that might cause temporary hearing loss. Temporary hearing loss might cause unsafe volumes to sound normal.
- Do not listen at any volume that causes you discomfort. If you experience ringing in your ears, hear muffled speech or experience any temporary hearing difficulty after listening to your portable audio device, discontinue use and consult your doctor.

## FCC COMPLIANCE INFORMATION

This device complies with Part 15 of FCC Rules.

### Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received. Including interference that may cause undesired operation.

## INFORMATION TO THE USER

This equipment has been tested and found to comply with the limits for a Class B digital device pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful Interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if Not installed and used in accordance with the instructions, may cause harmful Interference to radio communications. However, there is no guarantee that interference will not occur in a particular Installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.  
Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet of a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for assistance.

**⚠ CAUTION** Changes or modification not expressly approved by the party responsible for Compliance could void the user's authority to operate the equipment. Connecting of peripherals requires the use of grounded shielded signal cables.

## 12-MONTH LIMITED WARRANTY

Personal Communications Devices, LLC. (the "Company") warrants to the original retail purchaser of this handheld portable cellular telephone, that should this product or any part thereof during normal consumer usage and conditions, be proven defective in material or workmanship that results in product failure within the first twelve (12) month period from the date of purchase, such defect(s) will be repaired or replaced (with new or rebuilt parts) at the Company's option, without charge for parts or labor directly related to the defect(s).

The antenna, keypad, display, rechargeable battery and battery charger, if included, are similarly warranted for twelve (12) months from date of purchase.

This Warranty extends only to consumers who purchase the product in the United States or Canada and it is not transferable or assignable.

This Warranty does not apply to:

- (a) Product subjected to abnormal use or conditions, accident, mishandling, neglect, unauthorized alteration, misuse, improper installation or repair or improper storage;
- (b) Product whose mechanical serial number or electronic serial number has been removed, altered or defaced.

- (c) Damage from exposure to moisture, humidity, excessive temperatures or extreme environmental conditions;
- (d) Damage resulting from connection to, or use of any accessory or other product not approved or authorized by the Company;
- (e) Defects in appearance, cosmetic, decorative or structural items such as framing and non-operative parts;
- (f) Product damaged from external causes such as fire, flooding, dirt, sand, weather conditions, battery leakage, blown fuse, theft or improper usage of any electrical source.

The Company disclaims liability for removal or reinstallation of the product, for geographic coverage, for inadequate signal reception by the antenna or for communications range or operation of the cellular system as a whole.

When sending your wireless device to Personal Communications Devices for repair or service, please note that any personal data or software stored on the device may be inadvertently erased or altered. Therefore, we strongly recommend you make a back up copy of all data and software contained on your device before submitting it for repair or service. This includes all contact lists, downloads (i.e. third-party software applications, ringtones, games and graphics) and any other data added to your device. In addition, if your wireless device utilizes a SIM or Multimedia card, please remove the card before submitting the device and store for later use when your device is returned, Personal Communications Devices is not responsible for and does not guarantee restoration of any third-party software, personal

information or memory data contained in, stored on, or integrated with any wireless device, whether under warranty or not, returned to Personal Communications Devices for repair or service.

To obtain repairs or replacement within the terms of this Warranty, the product should be delivered with proof of Warranty coverage (e.g. dated bill of sale), the consumer's return address, daytime phone number and/or fax number and complete description of the problem, transportation prepaid, to the Company at the address shown below or to the place of purchase for repair or replacement processing. In addition, for reference to an authorized Warranty station in your area, you may telephone in the United States (800) 229-1235, and in Canada (800) 465-9672 (in Ontario call 416-695-3060).

THE EXTENT OF THE COMPANY'S LIABILITY UNDER THIS WARRANTY IS LIMITED TO THE REPAIR OR REPLACEMENT PROVIDED ABOVE AND, IN NO EVENT, SHALL THE COMPANY'S LIABILITY EXCEED THE PURCHASE PRICE PAID BY PURCHASER FOR THE PRODUCT.

ANY IMPLIED WARRANTIES, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, SHALL BE LIMITED TO THE DURATION OF THIS WRITTEN WARRANTY. ANY ACTION FOR BREACH OF ANY WARRANTY MUST BE BROUGHT WITHIN A PERIOD OF 18 MONTHS FROM DATE OF ORIGINAL PURCHASE. IN NO CASE SHALL THE COMPANY BE LIABLE FOR AN SPECIAL CONSEQUENTIAL OR INCIDENTAL DAMAGES FOR BREACH OF THIS OR ANY OTHER WARRANTY, EXPRESS OR IMPLIED, WHATSOEVER. THE COMPANY SHALL NOT BE LIABLE FOR THE DELAY IN RENDERING SERVICE UNDER THIS WARRANTY OR LOSS OF USE DURING THE TIME THE PRODUCT IS BEING REPAIRED OR REPLACED.

No person or representative is authorized to assume for the Company any liability other than expressed herein in connection with the sale of this product. Some states or provinces do not allow limitations on how long an implied warranty lasts or the exclusion or limitation

of incidental or consequential damage so the above limitation or exclusions may not apply to you. This Warranty gives you specific legal rights, and you may also have other rights, which vary from state to state or province to province.

IN USA: Personal Communications Devices.

## UPnP AND DLNA

### UNIVERSAL PLUG AND PLAY (UPnP)

Universal Plug and Play (UPnP) technology targets home networks, proximity networks and networks in small businesses and commercial buildings. It enables data communication between any two devices under the command of any control device on the network. UPnP technology is independent of any particular operating system, programming language, or network technology.

## DIGITAL LIVING NETWORK ALLIANCE (DLNA)

You'll find the DLNA Certified™ logo on all kinds of new digital devices for your home and on the go – TVs, PCs, mobile phones, you name it. But they aren't the same TVs, PCs and mobile phones you're used to. They may look familiar, but they have new capabilities of DLNA Device Classes.

## HIGH-DEFINITION MULTIMEDIA INTERACE (HDMI)

HDMI, the HDMI Logo, and High-Definition Multimedia Interface are trademarks or registered trademarks of HDMI Licensing LLC in the United States and other countries.

## SPECIFICATIONS

### DESIGN

Horizontal Qwerty Slider

### DISPLAYS

TFT Color LCD with 3.8" (inches) active area, 480x800 (WVGA) pixels in resolution

### MEMORY

- Main memory: 4GB/768MB(eMMC/DDR2)
- External memory: Micro SD Card

## MULTIMEDIA

- Video: MPEG4, H.263, H.264, WMV(9)
- Audio: AAC, AAC+, eAAC+, MP3, AMR-(NB/WB/WB+), MIDI, OGG, WAV, WMA(9/10), (QCELP/ EVRC)

## CAMERA

Integrated 5M CMOS Camera

- Digital zoom enabled
- Auto / Macro focus

## DIMENSIONS & WEIGHT

- Weight: TBD (with battery cell)
- Dimensions: 128.9 x65.4 x 11.85mm (5.07"x2.57"x0.46")

## POWER MANAGEMENT (PERFORMANCE)

Battery Type	Capacity	Standby Time	Talk Time
Standard Lithium-Ion (Li-ion)	1,680 mAh	TBD	TBD

## OPERATING FREQUENCY

- GSM/GPRS/EDGE 850/900/1800/1900 MHz, UMTS/HSDPA 850/1900 MHz networks in North America, South America, Europe, Africa, and Asia-Pacific where these networks are supported.
- Automatic band switching

## LOCATION-BASED SERVICES

Your wireless device can determine its (and your) physical, geographical location ("Location Information"). Certain applications and services can access, collect and use Location Information and disclose the information to others. Use caution and discretion when you make Location Information available to them.

To limit potential unauthorized access to your Location Information, Verizon Wireless devices are preset to "E911" which only allows authorized emergency response personnel to locate you when you dial 9-1-1 from your wireless device.

When you select "VZW Location Services" or "Standalone GPS Services" or "Google Location Services" you allow third party access to Location Information. Any software, widget or peripheral components or service you choose to download, add or attach to your wireless device or otherwise access or use can use this information.

Check your wireless device periodically and only use software, widgets, peripheral components and services from reliable sources. Verizon Wireless makes no representation of accuracy, completeness or timeliness of any location data, product or service.

When you use your mobile browser or other services and applications, you authorize Verizon Wireless to collect, use and disclose your Location Information to provide you with any location services.

Verizon Wireless does not retain Location Information longer than necessary to provide the services to you. We will not knowingly disclose your Location Information to third parties without your consent, except as required by law.

Carefully review the privacy policies of application providers and third parties who have access to your Location Information. Significant risks can be associated with disclosing your Location Information to others.

## END USER LICENSE AGREEMENT (EULA)

Your use of Visual Voicemail confirms that you are the account owner, you are authorized to sign up for this service and you agree to pay the monthly subscription fee. Basic Voicemail and Verizon coverage areas are required to use Visual Voicemail. Visual Voicemail may not support all traditional Voicemail features which will remain accessible by dialing \*86 from your handset. Standard messaging rates apply to any messages initiated from Visual Voicemail.

Accessing Voicemail, Call Forwarding, Call Return, Personal Operator and other features are subject to airtime, long distance, roaming charges and taxes and IN Calling minutes do not apply. Visual Voicemail and traditional Voicemail may not always be synchronized and if you cancel Visual Voicemail you may lose all stored Voicemails and information.

Visual Voicemail can only use the Verizon Wireless network rather than the available Wi-Fi connection. Standard data usage charges shall apply.

I understand that by selecting OK my password will be automatically stored and will allow anyone in possession of this device to have access to my Voicemail. I further understand that my Voicemail messages may be stored in electronic format on this device.

## TROUBLESHOOTING CHECKLIST

### WHEN AUDIO QUALITY IS POOR:

End a call and try it again.

### WHEN THE OTHER PARTY CANNOT HEAR YOU SPEAKING:

Your phone may be set to MUTE. Disable the MUTE function. Or your hand may be covering the microphone.

### WHEN BATTERY LIFE IS SHORTER THAN USUAL:

This may happen when you are in an area with low signal strength. Turn off your phone when it is not in use. Change the battery when battery energy is exhausted.

### WHEN YOU CANNOT TURN ON YOUR PHONE:

Make sure your battery is charged. Check to see if your phone works while recharging the battery.

### WHEN YOU ARE UNABLE TO SEND A MESSAGE:

Either you are not registered to receive an SMS service, or you may be in an area where your network service provider cannot provide such a service.

### WHEN YOU ARE UNABLE TO MAKE A CALL:

Your phone may be set to "fixed dial." Cancel the "fixed dial" function.
