Parrot CK3000 EVOLUTION Black Edition

Get your hands on the best technology in onboard telephony

Parrot's development teams have drawn on their expertise in *Bluetooth*® technology, voice recognition and sound processing to streamline the operation of the CK3000 EVOLUTION Black Edition in order to develop a car kit that offers clear conversations, despite the noise particularly inherent in driving.

Design and audio quality: choose a kit that integrates seamlessly into the car

The CK3000 EVOLUTION Black Edition features a discreet design that is hardly noticeable on the dashboard. In the event of a call, the car radio automatically cuts out, so that the speakers can transmit the conversation, and the microphone clearly reproduces the sound of your voice.

Make calls with the greatest of ease via voice recognition and the browser button

When users get in their car, they start the engine and the kit immediately connects to their mobile phone. With its voice recognition feature, drivers say a name and the kit automatically dials the number. Keep your hands on the wheel and eyes on the road. By intuitively turning the browser button, the kit states the menu functions, so that drivers can check and manage their voicemail, etc.

Take advantage of the universal *Bluetooth* solution

The CK3000 EVOLUTION Black Edition is compatible with all *Bluetooth* mobile phones on the market.

Wireless technology

Bluetooth wireless technology enables voice and data to be sent via a short distance radio link. It connects a wide range of electronic equipment without requiring additional cables. Furthermore, it extends the communication possibilities for mobile phones and a large number of devices. The *Bluetooth* Stereo (A2DP) profile uses the same short distance radio frequencies to transport music files from one peripheral to another.

Phone & device compatibility

As Parrot products are 100% *Bluetooth* compatible, they are compatible with almost every *Bluetooth* mobile phone. Refer to www.parrot.com

Example: Asus, Audiovox, BenQ, Blackberry, Eten, Grundig, HP, HTC, I-Mate, LG, Motorola, NEC, Nokia, Palm Treo, Panasonic, Qtek, Sagem, Samsung, Sendo, Sharp, Siemens, Sony Ericsson, SPV, Telital, VK mobile and many others.

Technical and commercial specifications

Parrot CK3000 EVOLUTION Black Edition
Bluetooth hands-free car kit

Specifications

Unidirectional microphone: noise reduction, echo cancellation, voice recognition up to 150 names

Speakers: uses the vehicle's speakers

Pairing: pairing up to 3 phones

Dimensions

Keypad: 2.0 x 1.0 x 0.75 in. ; 3.8 oz
(50 x 26 x 19 mm ; 32 g)

Bluebox: 5.25 x 1.2 x 2.25 in. ; 1.1 oz
(135 x 30 x 58 mm ; 110 g)

Package contents

- 1 electronic control unit
- 1 external microphone
- 1 power supply cable
- 1 mute cable with ISO connectors
- 1 Keypad, fitting accessories
- 1 User manual

Standards

CE, e2, FCC, RSS210
