## **Safety Approvals and Certification**

Users are advised not to make changes or modify the device in any way. Changes or modifications not expressly approved by our company will void the warranty.

### **FCC Notices**

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

FCC RF Exposure requirements:

This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.

**NOTE : THE MANUFACTURER IS NOT RESPONSIBLE FOR ANY RADIO OR TV INTERFERENCE CAUSED BY UNAUTHORIZED MODIFICATIONS TO THIS EQUIPMENT. SUCH MODIFICATIONS COULD VOID THE USER'S AUTHORITY TO OPERATE THE EQUIPMENT.**

### **CE Statement**

Important Notice: This device is a 2.4GHz FHSS Bluetooth headset, intended for office and home uses in all EU and EFTA member states.

The Bluetooth trademarks are owned by Bluetooth SIG, Inc., U.S.A. and licensed to our company.

**NOTE**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiated radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

## **Introduction**

### **Introduction of Bluetooth wireless Technology**

Bluetooth is a short-range wireless communication technology. The Bluetooth wireless technology makes it possible to connect any compatible portable and stationary communications device without using cables. The technology is based on a radio link that offers fast and reliable transmission of voice and data information. Bluetooth refers to a worldwide standard designed to operate in the internationally recognized ISM (Industrial Scientific and Medical) frequency band. Within the ISM band (2.4GHz~2.485GHz), Bluetooth transmissions hop between 79 separate frequencies 1,600 times every second, and with a communication range of about 10 meters.

### **BH-1000 Bluetooth Headset**

The BH-1000 Bluetooth Headset is a Bluetooth device developed with Bluetooth technology, which can connect to other Bluetooth devices such as mobile phone , PDA, or notebook computer (with audio gateway profile supported) wirelessly to attain voice transferred purpose within a range of 10 meters.

# BH-1000 Bluetooth Headset Overview

## Front

## Back

## Getting Started

Before you start using the headset with mobile phone or other device at first time, you should:

- ⦿ Charge the headset battery.
- ⦿ Pair the headset with a device.

## Charging Battery

The BH-1000 Bluetooth Headset embeds with a rechargeable Li-polymer battery. For first time useage, it takes 2 hours to fully charge the battery. Afterwards, it will take about 1 to 1.5 hours to fully recharge the battery. With the battery fully charged, the talk time will be 6 hours, and the stand-by time will be up to 100 hours.

- ⦿ Plug the travel charger into an AC outlet.
- ⦿ Connect the adapter connector into the BII-1000 Bluetooth Headset. During charging, the indicator light shows a

steady blue light if the BII-1000 Bluetooth Headset is turned off, and flashes blue if the BII-1000 Bluetooth Headset is on.

- ⦿ When the battery is fully charged, the indicator shows a steady red light if the BII-1000 Bluetooth Headset is off, or a flashing blue light and steady red light if the BH-1000 Bluetooth Headset is on.

To charge the battery

Connect the charger to the BH-1000  
Bluetooth Headset and to the mains.

To disconnect the charger

Pull the charger plug parallel to remove  
it.

## Check the Headset buttons

S1 Button (+): increase Volume

S2 Button (-): decrease Volume

S3 Button (⌂ / ⌂): Power on / Power off /  
Answer calls / End calls / Pairing

## Turning the Headset on or off

☉ To turn the Headset on

Press and hold the S3 button (⌂ / ⌂) for 3 seconds, then you will hear two short high tones, and the indicator light of the Headset start to flashes blue. The Headset is now turned on.

(Note: When it is on low battery, the indicator light will flashes red.)

◎ To turn the Headset off

Press and hold the S3 button (↶ / ↷) for 3 seconds, then you will hear two short low tones. And the Headset indicator light switches off followed by the red light flashes. The Headset is turned off now.

## Pairing the Headset

You are required to pair the Headset with your mobile phone or other Bluetooth devices before using the Headset.

1. The Headset must be powered off before initiating the pairing. Hold and keep pressing S3 button (↶ / ↷) for 5 seconds until the blue and the red indicators are flashing alternatively. The Headset is now ready for pairing. (If you are wearing the Headset during the pairing process you will hear two short high tones when the Headset is ready for pairing.)
2. After search, you will see a new item which is "BH-1000" added to the list of paired devices in the mobile phone. To start the processes to pair the Headset with a bluetooth mobile phone, please refer to mobile phone's user manual.

3. When asked the Pin-Code by the mobile Phone, enter "0000" and confirm it.

(Note: The "0000" is a default pin-code Pre-stored in the Headset)

When pairing is successful, the red indicator will turn off and the blue indicator will flash.

**Note:**

1. If the Headset is not in pairing mode, your mobile phone will not recognize the Headset.

Please set the Headset into pairing mode before your mobile phone start to search it.

2. If can not finish pairing with in one minute, the Headset will power off automatically. You need to repeat steps 1 to 3 until pairing successful.

Right or left ear

To adjust the ear hook for right-ear use

To adjust the ear hook for left-ear use

### Putting on the Headset

- ⦿ Put on the headset with the ear hook behind your ear.
- ⦿ Make sure the microphone is pointing towards your mouth.

### Microphone use method

Microphone is designed with pull out bar, and can support in two position. One position is in closed position which the bar does not pull out. Another position is to pull the bar fully out to extend the microphone.

## Using the BH-1000 Bluetooth Headset

Once you have paired the headset with your mobile phone, you can make and receive calls using the headset as long as it is turned on and within range of the phone up to 10m(30ft) outdoors or up to 5m(15ft) indoors with no solid objects in between. For best performance, please use the headset and mobile phone in the same room.

## Making and Answering calls

Once the BII-1000 Bluetooth Headset is paired with your mobile phone successfully, you can use the Headset to make and receive calls. The Headset can be used with voice dialling if your mobile phone supports this function. For more information on voice dialling function, please refer to the user manual of your mobile phone.

### Making Calls

1. Using voice dialling:  
Press the S3 button (  ), waiting for a beep tone, and say the name of the person you want to call.
2. Using mobile phone keys to make a call:  
Dial the number on the mobile phone, Once the call has been initiated, the sound will be transferred to your Headset Automatically.

### Answering calls and End the call

Using S3 button (  /  ) to answer a call

1. When the BH-1000 Bluetooth Headset rings, press the S3 button (  /  ) °

#### **Note:**

If the phone rings first, wait until the headset rings, then press the S3 button

- (  /  ) °
2. End the call by pressing the S3 button (  /  ) °

### MSN

If you plug in some brands of USB dongle on your PC, you can use BII-1000 as a wireless microphone on MSN chat.

### Adjusting the volume

You can adjust the headset speaker volume during a call.

- ⊙ To increase the volume, press S1 button(+)
- ⊙ To decrease the volume, press S2 Button(-)

**Note:** The headset uses increasing volume. For safety reasons, it starts with a low volume level before the maximum set level is reached.

### Low Battery

When the red indicator starts to flash, it indicates that the BII-1000 Bluetooth Headset is running low on battery. Please charge the headset battery for approximately 1 to 1.5 hours.

## Important Information

### Troubleshooting

The indicator light flashes red:

This indicates that the headset has only limited talk and standby time left. Charge the headset battery for approximately 1 to 1.5 hours.

#### No indication of charging is shown

If you charge a headset battery that is empty, or has not been used for a long time, it may take up to few minutes, before a light to indicate charging (a steady blue light appears).

#### No sound contact between Headset and other devices

- ⊙ Make sure that the two devices have been paired.
- ⊙ Make sure that the Headset is turned on.

- ⊙ Made sure that the two devices are within a working range.
- ⊙ Make sure that your mobile phone is within signal strength.
- ⊙ Some Bluetooth mobile phones can support one Bluetooth Headset only. Disconnection may happen when there is more than one Headset paired with your mobile phone.

#### Why there has noise coming from the Headset?

The performance of the Headset will be affected by two factors.

1. If the distance between your mobile phone and the Headset over the receiving range.
2. If your mobile phone is in weak signal area, you will not hear clearly with the Headset.
