Technical help is available: Monday - Friday from 07:00 - 19:00 (GMT)
Saturday from 09:00 - 13:00 (GMT)

Documentation on all Paxton products can be found on our website - <http://www.paxton.co.uk/>

Suitability

Security-sensitive doors ❌

Wet environments ✅

Mounted on metal surface ❌

Readers mounted together **300 mm** between readers

Quickstart guide

This supplement is a brief guide to installing a P series compact system. Further information is available for download at: <http://www.paxton.co.uk/> or call the communications team on: **01273 811011**.

P75 Screw connector option

The unit should be mounted in conjunction with an electrical backbox to achieve the required clearance for the connector.

If an adaptor plate (310-750) is fitted, the mountings on the backbox can also be used.

Indoor use only

Electric release

12V DC release current rating must be less than 1A.

Wiring

Reset - Use one method

1. Power down the unit.
 2. Press and hold the exit button.
 3. Power up the unit. It will give several quick beeps.
 4. Wait for a further beep and then release and press the exit button twice more.
 5. The reader will beep 3 times to confirm the reset.
- OR
1. Present Enrolment card.
 2. Present Door open time card twice.
 3. Present Enrolment card.
 4. Present Door open time card twice.
 5. WAIT FOR 5 SECONDS!

Fitting

Reader covers

Additional covers are available in black, white, grey, blue and silver. Registered installers can order these free of charge by logging onto the secure installer extranet: <http://paxton.info/1035> or if you are not a registered installer please call us on: **01273 811011** for more information.

Enrolment Card - must be presented when the system is first powered on

1. Take the enrolment card from the new pack of user cards.
2. Present the enrolment card to the reader.
3. The reader beeps and the LED's light up as the enrolment card is acknowledged.
4. All cards in the pack are now valid. The enrolment card can now be returned to it's pack.

Issuing tokens

1. Across each double page there are pairs of cards - a user card and a corresponding shadow card.
2. Write the name of the user on the shadow card.
3. Take the user card from the opposite pouch and issue to the user.
4. Keep the card pack containing the shadow cards in a safe place.

Bar a user

1. When a card is lost or stolen it is important to bar the card from your system to avoid unauthorized access.
2. To bar a card or token take it's corresponding shadow card from the card pack.
3. Present the shadow card to the reader. This will remove the lost card or token from your system.
4. A barred card can re-validated by presenting the enrolment card followed by the user card to the reader.

Fail open release card - Compact systems are fail closed as default

THIS CARD CAN ONLY BE USED WITH A FAIL OPEN LOCK.

1. Take the fail open release function card from the starter pack.
2. Present/swipe the card through the reader. The reader will beep for about a second.
3. The reader is now set to fail open mode. This allows safe operation of the door in case of fire: The lock will release when the power is cut.
4. To revert to fail closed mode, swipe the card again and the reader will beep once.

Door open time (seconds)

1. Take the 'door open time' card from the starter pack.
2. Present the card to the reader. The reader will start beeping.
3. Wait for the required period you wish the door to remain open.
4. Present the card again at the end of the period to set the open time. The beeping will stop.

Silent operation

1. Take the silent operation function card from the starter pack.
2. Present the card to the reader. The reader will beep.
3. The reader is now in silent operation mode.
4. Present the card again to disable silent operation mode. The reader will beep twice.
