KeySafe Pro Permanent - StrongBox design with pushbuttons

Overview

The KeySafe Pro Permanent provides convenient, managed access to stored keys (max. 5). The StrongBox design has a solid track record for unmatched quality and security in residential and small business applications.

The code can be changed anytime for added security.

A durable weather cover is available to prevent water intrusion and to hide out of sight.

Available in multiple neutral colours.

Construction and installation

The KeySafe Pro Permanent is made of zinc alloy with a powder-coat finish. The KeySafe attaches securely to any wall or flat surface with 4 screws (not provided; type depending on wall material). Proper installation is important for security reasons.

Operation

Slide the 'Clear' switch down to reset the buttons.
Push the appropriate combination code.
Press down the 'Open' switch and remove the lid.
After use of the key, enter the code again, press down the 'Open' button and place the lid back.
Release the 'Open' button and the lid will be locked.

Applications

Residential applications: children get home, unattended servicing, spare keys, more secure storage of hidden keys, emergency entry, vacation homes,...

Business applications: alarm & emergency entry, office keys, access to cabinets, access on construction sites, home healthcare access, property management, remote sites,...

Standard Features

- Easy-to-use key box
- Security level appropriate for residential & small business applications
- Holds up to five keys
- Change combination as often as needed - 1024 different code combinations possible

Snow/Ice	-26°C
Resistance against chemicals/cleaners	Standard household cleaners
UV exposure	Long-tem sunlight exposure
Dust Bombardment	6 hours at 23°C

Guidelines

We recommend that your KeySafe is fitted in a covert position if at all possible.

When programming your access code, we recommend that you NEVER use a birth year or other obvious combination code. A combination consisting of between 5 and 7 digits is recommended.

We recommend that you fit your KeySafe to brickwork or concrete areas as opposed to wooden surfaces. Please remember that KeySafe is a convenience product, not a security product.
