LITHONIA LIGHTING®

LITHONIA LIGHTING DELIVERS A NEW ERA IN STOCK BUSINESS!

The guide features a broad offering of in-stock, ready-to-ship fixtures from North America's preferred lighting brand - Lithonia Lighting. The guide is broken into the following three sections:

- **Contractor Select Items** - Our most popular and competitive portfolio, Contractor Select is a stock-focused set of SKUs with simple catalog numbers, bold packaging and full-fixture warranties.
- **Supplemental Stock Items** - Also included in the guide are some of the more popular stocking items from Lithonia Lighting's broader project-focused product portfolio - along with great sensor and controls stocking solutions from Sensor Switch.
- **LED Stock and Specification Items** - With a comprehensive portfolio of intelligent indoor and outdoor lighting solutions, this section highlights all of the LED products found in the contractor select and supplemental product sections as well as some of our additional specification LED products not available in the stock guide. Depending on your application, we have the LED solution you need.

Easy

The Contractor Select program makes winning stock business easy. With shorter product descriptions and a full-fixture warranty, the program simplifies the way you do business by reducing costs and driving sales growth.

Reliable

With over 65 years of expertise, quality and dependability, Lithonia Lighting provides the industry's strongest stock portfolio of products.

Available

Lithonia Lighting offers the most comprehensive quick shipment service in the business. With distribution centers in each region of the country, Lithonia Lighting has more than 3.1 million units in stock for immediate shipment. Additionally, regional manufacturing capabilities allow us to assemble more than 4,000 products to order.

WINNING PROGRAMS

- Earn more with our lucrative marketing programs
- Move product faster with a customized promotion
- Let our merchandising tools help you sell more
  - Wallboards
  - Gondolas
  - Counter mats
  - Floor mats

FASTER DELIVERY

- Over 3.1 million units in stock
- Regional manufacturing centers offer more than 4,000 products available for customization

SAVING TIME & MONEY

- Electronic Data Interchange (EDI) Capabilities
  - Simplify your operations
  - Improve efficiencies and accuracy
  - Reduce transactional costs
- Vendor Managed Inventory (VMI)
  - Grow sales
  - Improve service levels
  - Increase inventory turns
  - Reduce administrative costs

A NEW ERA IN SUPPORT

LITHONIA LIGHTING®

EASY ANSWERS

LIVE, IN PERSON:

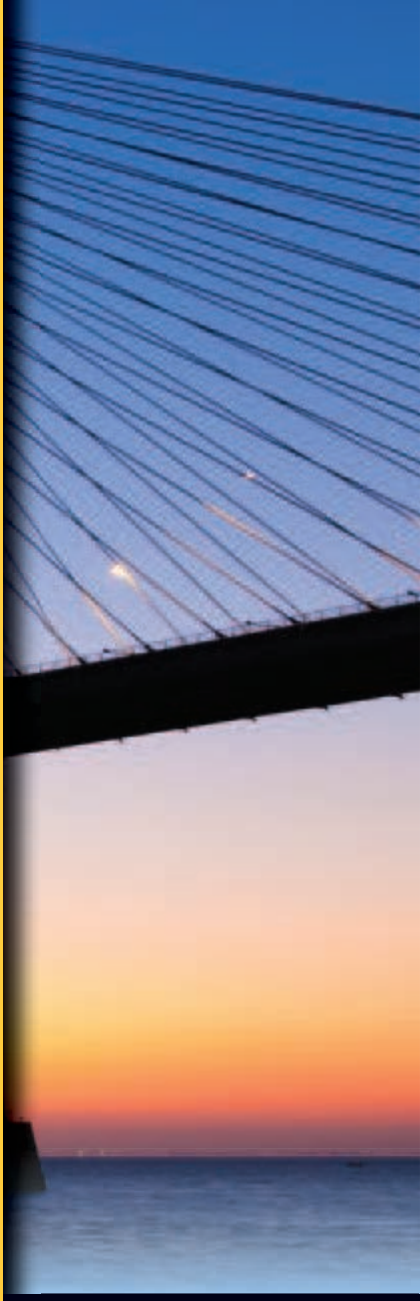
- Dependable answers from the best agency sales force in the business
- Local representatives are available across the United States and Canada
- To find your local rep, visit Lithonia.com/Sales

ON THE PHONE:

- Toll-free factory technical support
  - Fluorescent - 800.858.7763
  - Industrial - 800.315.4963
  - Downlighting - 800.315.4935
  - Outdoor - 800.279.8041
  - Sensor Switch - 800.727.7483

ON THE WEB:

- Lithonia.com
  - Download specification sheets
  - View photometry
  - Access product literature
- Lithoniadistributorcenter.com (LDC)
  - Access product availability
  - Request a quote
  - Check order status
  - Submit freight claims



PRODUCT

Contractor Select consists of a focused, quality line of the most popular and competitive stock products from Lithonia Lighting. Energy efficiency, reliability and ease of installation are designed into every product. These products feature enhanced packaging and shorter product descriptions to simplify product selection and ordering.

WARRANTY

We offer a simplified fixture warranty for easy problem resolution. Each product has a full-fixture warranty, including the ballast, good for 2 years* from the distributor date of purchase, subject to the limitations and exclusions set forth in the Lithonia Lighting Terms and Conditions of Sale available at Lithona.com/termsandconditions. For warranty questions, contact the Lithonia Lighting support team at 800-858-7763 or visit us online at www.lithonia.com/contractorselect/warranty.

*LED fixtures are warranted for 5 years from the distributor date of purchase.

STOCK AVAILABILITY

Products are stocked in Lithonia Lighting regional distribution centers to support local electrical distributor inventory. Real-time Lithonia Lighting inventory status is available 24/7 on the Lithonia Distributor Center (LDC).

TECHNICAL INFORMATION

Specification sheets, color product photos and key product features available 24/7 online at www.lithonia.com/contractorselect.

EASY

The **Contractor Select** program is Lithonia Lighting's solution to simplify the way you do business by reducing costs, increasing productivity and driving sales growth.

6" & 8" Light Commercial Vertical Frame-in

c UL us LISTED

FEATURES

- Fixtures are CUL Listed for through-branch wiring, NON-IC recessed mounting and damp location
- Galvanized steel mounting frame-in with high-friction retention clips secure optical system
- Utilizes an extruded socket housing that attaches to the reflector via key hole mount, which provides superior heat dissipation and extended lamp life
- Factory-installed captive bar hangers that span 24" and feature built-in nailers and T-bar clips
- Maximum ceiling thickness of 1½"
- Lamp Type Applications:
  - Compact Fluorescent (120-277V)
  - Incandescent (120V); SDT (277V stepdown transformer to 120V)

BRAND STRENGTH

Lithonia Lighting is more than a brand, it is the most recognized and trusted name in the lighting industry. Our reputation for value and performance is built on over 65 years of product expertise and service excellence. The strength of the Lithonia Lighting name provides customers with the assurance that their expectations will be met.

PRODUCT STRENGTH

From I-BEAM to Reality, Lithonia Lighting offers the broadest stock portfolio in the electrical lighting industry. With solutions that cover all product categories, from indoor to outdoor to lighting controls, you are certain to find the ideal product for any application.

SERVICE STRENGTH

As an industry leader, we are determined to provide superior value to our customers. Whether it's our strong agency sales force, our quick shipment opportunities or our innovative service capabilities such as LDC and EDI, our goal is to make selecting, ordering and receiving the product easy.

RELIABLE

With over 65 years of expertise, quality and dependability, Lithonia Lighting provides the industry's strongest stock portfolio of products.

Volumetric Lighting

2RT5

c UL us LISTED

FEATURES

- Ideal for volumetric lighting applications such as offices, schools, hospitals and retail applications
- Low profile 3-1/8" depth makes RT5™ fixture perfect for applications where plenum height is a factor
- Two-piece refractor system includes micro-facets that echo the frequency of the prisms in the refractor, providing a quiet appearance in the ceiling
- Step-dimming options (available with GEB95S ballast) allow the system to be switched to 50% power for compliance with common energy codes

- **DGA24** Drywall Grid Adapter (Use with any 2x4 grid fixture)
- **L2GT8 A12** Replacement Lens for 2x4 Lensed Troffer

Certain airborne contaminants can diminsh integrity of acrylic. See pg.116 for Acrylic Compatibility table for suitable uses.

FEATURES

Avante

- Features optimum mix of directional and diffuse reflected light for balanced illumination
- Available in 2'x2' and 2'x4' symmetric distributions for general area lighting
- Injection-molded plastic light traps prevent light leaks between shielding and end plates
- Matte-white polyester powder paint finished reflectors provide uniform light distribution

Parabolics

2PM3N

FEATURES

- Designed for use in open area applications where optical control, visual comfort and light cut-off are important
- Hemmed sides and ends provide smooth edges for easy handling during installation
- Mitered corners and interlocking construction assure precise parabolic shaped louver
- Integral T-bar safety clips hold fixture to T-bar securely; no fasteners required
- Hinges die-formed for maximum strength
- Spring action latches concealed in black reveal
- 2'x4' features 18-cell louver with semi-specular (Diffuse) finish; 2'x2' features 9-cell louver in same finish

FEATURES

2ES8P

- Provides a high-performance T8 (HPT8) energy-saving alternative to 3-lamp, 18-cell parabolic fixtures
- 2ES8P can provide 44% energy savings while meeting IESNA recommended illuminance levels
- Highly reflective surfaces combine with efficient design to produce up to 86% photometric efficiency
- Combining robust design, precision-tooling and automated assembly creates the industry's strongest louver

LED Modular Undercabinet Lighting

Rayzer

FEATURES

- Ideal for display, task, office and cove lighting
- 50,000 hour long-lasting LEDs provide even illumination (3000K with CRI 85)
- Durable aluminum, low-profile design
- Mounting clips allow for quick and easy installation (two flush and two 30° mounting clips included)
- Dimmable using the optional step dimmer (not compatible with the standard dimmer)
- Link up to 10' of fixtures per transformer
- Uses only 1.7 watts of energy per LED bulb

I-BEAM® Fluorescent High Bay Lighting

FEATURES

- Factory- or field-installable components available to satisfy almost any requirement
- Multiple lamp configurations available for varying needs and/or applications
- Occupancy sensors and photocells available to maximize energy savings
- Superior thermal management ensures both optimal lamp performance and ballast reliability
- Ballast disconnect standard

FEATURES

- Fixtures are UL Listed for through-branch wiring, NON-IC recessed mounting and damp location
- Galvanized steel mounting frame-in with mechanical trim retention (yoke) ensures secure flush reflector mounting to ceiling
- Aluminum full reflectors are optically designed to maximize lumen output and provide superior glare control
- Vertically adjustable mounting brackets for use with 16-gauge flat barhangers (included), C channels or ½" steel conduit
- Maximum ceiling thickness of 1½"

Motion Sensors (LED)

FEATURES

- Ideal for walkways, yards, patios, play areas and driveways creating an inviting exterior space as well as providing safety and security
- Tool-free adjustable heads allow for easy aiming up/down or side-to-side
- Clear acrylic lenses are fully gasketed to keep out moisture, dirt and bugs
- Each head contains (3) high performance LEDs which maintain their lumen output at 50,000 hour life
- Dual array motion sensor provides 180° detection with up to 70 feet forward range and additional downward perimeter protection; integrated photocell prevents activation during daylight

OLW (LED)

FEATURES

- Ideal for lighting building facades, parking areas, walkways, garages, loading areas and any other outdoor space
- Features a sturdy weather-resistant aluminum housing and a clear polycarbonate lens that protects the optics from moisture, dirt and other contaminants
- The OLW 23 and OLW 31 feature individual, precision-molded optics for Type 3 light distribution
- High performance LEDs powered by a multi-volt driver provide 1,400 lumens (OLW14), 2,300 lumens (OLW 23) and 3,100 lumens (OLW 31) of cool white light (5000K)
- 50,000 hour average LED life means no lamp replacement
- Adjustable dusk-to-dawn, multi-volt photocell is standard
- Tested in accordance with IESNA LM-79 and LM-80

CONTROLS

CM/CMRB

FEATURES

- Ideal for public spaces with windows like vestibules, corridors or bathrooms
- Self-calibrating – capable of finding optimum set-point
- Easy to apply – deploy standalone or combine with occupancy sensors
- Available in low or line voltage and in several enclosures
- Sensors are powered with 12 to 24 VAC/VDC and typically operate with a PP20 or MP20 Power Pack

Daylighting Control Sensors

CM/CMRB

c UL us LISTED

FEATURES

- Provide continuous control of dimmable ballasts for day light harvesting applications
- Self-calibrating – capable of finding optimum set-point
- Inhibit only, on/off, stepped dimming and 0-10 VDC dimming varieties (consult full Sensor Switch catalog)
- All units are powered by 12 to 24 VAC/VDC
- Available in low or line voltage

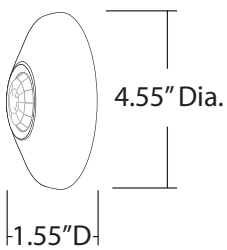
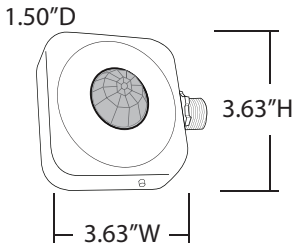
DIMENSIONS

CM



CMRB



FEATURES

- Lighting control alternative to wall switch occupancy sensors
- Intended to switch a line voltage lighting load or small motor load
- Elegant, decorator style wall switches provide 6 preset timer selections as well as an on/off push-button
- Powered from 120/277V VAC
- No neutral required making them ideal for retrofit applications

LITHONIA LIGHTING®

Delivering the promise of LED

Lithonia Lighting offers a comprehensive portfolio of intelligent indoor and outdoor lighting solutions unmatched in the marketplace. By integrating LED sources with digital controls, the company's offerings maximize light quality and minimize total ownership costs. Customers benefit from additional distinctions: an enduring heritage of superior performance; the manufacturing scale of a market leader; and a fresh, innovative approach to evolving technology.

The benefits of LED

Indoor

- Increases Energy Savings
- Improves Quality of Light
- Maintains Light Illumination
- Integrates Controls Easier
- Provides Full Brightness at Start Up
- Reduces Glare

Outdoor

- Lowers Maintenance Costs
- Provides Longer Fixture Life
- Creates Safer Environment
- Integrates Controls Easier
- Maintains Light Illumination
- Increases Energy Savings

LED Troffers

FEATURES

- Long-life LEDs, coupled with high-efficiency drivers, provide superior level of illumination
- Rated to deliver L80 performance for 50,000 hours
- Fully dimmable LED with lightout range from 10-100%
- See page 7 for additional information

Rayzer LED Undercabinets

FEATURES

- 50,000 hour long-lasting LEDs provide even illumination (3000K with CRI 85)
- Durable aluminum, low-profile design
- Link up to 10' of fixtures per transformer
- See page 62 for additional information

REALITY™ Residential LED Module

FEATURES

- LED module for use in retrofit/remodel or new construction applications where energy savings, long-life, and functional delivered light levels are required
- Energy-star approved; Wet location listed; Electronic low-voltage (ELV) dimming standard
- Features narrow design, allowing retrofit module to fit in most incandescent, fluorescent and GU24 recessed housings
- See page 79 for additional information

L Series LED Downlighting Modules

FEATURES

- Features focused LED optics that direct light without sacrificing the warm look of traditional lighting
- 80% more energy efficient than comparable incandescent lamps
- Virtually maintenance free, lasting 17x longer than traditional lighting sources
- See page 80 for additional information

OFLR LED Floodlights

FEATURES

- Tool-free adjustable heads allow for easy aiming up/down or side-to-side
- Clear acrylic lenses are fully gasketed to keep out moisture, dirt and bugs
- Each head contains (3) high performance LEDs which maintain their lumen output at 50,000 hour life
- See page 90-91 for additional information

OLW LED Wall Packs

FEATURES

- 50,000 hour average LED life means no lamp replacement
- Fixture is maintenance-free
- Adjustable dusk-to-dawn, multi-volt photocell is standard
- See page 94 for additional information

OLAW LED Security Luminaire

FEATURES

- Wall or arm mount; all mounting hardware included (mounting arm sold separately)
- 50,000 hour average LED life means no lamp replacement
- Adjustable dusk-to-dawn photocell is standard
- See page 97 for additional information

INDOOR: Additional Specification LED Products

RTLED High-Performance Volumetric Troffer

FEATURES

- Configurations include 2x2, 2x4 and 1x4 with lumen packages ranging from 2,200-4,800 lumens
- Volumetric illumination delivers a more balanced, complementary luminous environment
- Features embedded intelligent controls
- See www.lithonia.com/RTLED for more information

VTLED Volumetric Troffer

FEATURES

- Configurations include 2x2 and 2x4 with lumen packages ranging from 2,200-4,800 lumens
- High-quality, cost-effective digital solution
- Features embedded intelligent controls
- See www.lithonia.com/VTLED for more information

ACLED Architectural Coffer

FEATURES

- Unique architectural design creates a quiet ceiling
- 3,300 lumen package provides uniform distribution
- Includes simple integrated controls
- See www.lithonia.com/ACLED for more information

TLED Ambient Troffer

FEATURES

- Best quality general purpose LED luminaires
- Includes embedded intelligent controls
- 3,300 lumens offer a superior quality of light
- See www.lithonia.com/TLED for more information

LED Mini Pendants & Sconces

FEATURES

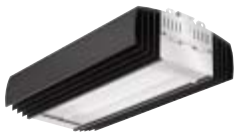
- 3000K high-performance LEDs which maintain 280 lumen output; 9.5 watts
- Pendant mount includes 78" coax cable for tool-free adjustment
- Fully dimmable down to 10%
- See www.lithonia.com/LEDpendants-sconces for more information

Z Series LED Striplights

FEATURES

- Cove, warehouse, cold storage, under canopy and retail
- 2' and 4' lengths; 1,400-6,000 lumens; controls available
- Superior color consistency and 83 CRI
- See www.lithonia.com/ZSeries for more information

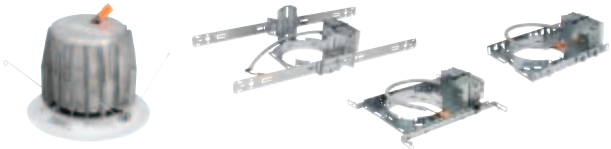
PROTEON™ LED High Bay



FEATURES

- Cold storage, manufacturing, warehouse, gymnasium and other large spaces
- 65% more efficient than HID; optional controls
- Predicted life greater than 100,000 hours
- See www.lithonia.com/PROTEON for more information

REALITY™ Commercial LED Downlight



FEATURES

- 3500K high performance LEDs with nominal 1,000 lumen output
- 0-10V dimming is standard
- Frame choices available for new construction and renovation projects
- See www.lithonia.com/Reality for more information

Contour® KAD LED Area Luminaire

FEATURES

- Ideal for parking areas, street lighting, walkways and car lots
- Energy Savings – up to 68% savings over HID
- Long Life – 15+ years expected service life
- Available in Type 2, Type 3, Type 4 and Type 5 distributions
- See www.lithonia.com/KAD-LED for more information

Contour® KACM LED Canopy Luminaire

FEATURES

- Ideal for parking garages, convenience stores, hotels and walkways
- Expected service life of 60,000 hours
- Surface or Yoke Mounting options
- Available in Type 2, Type 3, Type 4 and Type 5 distributions
- See www.lithonia.com/KACM-LED for more information

GATEWAY® LED Rough Service Luminaires

FEATURES

- Architectural round and oval fixtures with several faces to choose from
- May be mounted to the wall or ceiling in indoor or outdoor applications
- Controls-enabled to increase energy savings
- See www.lithonia.com for more information

D-Series LED Parking Garage

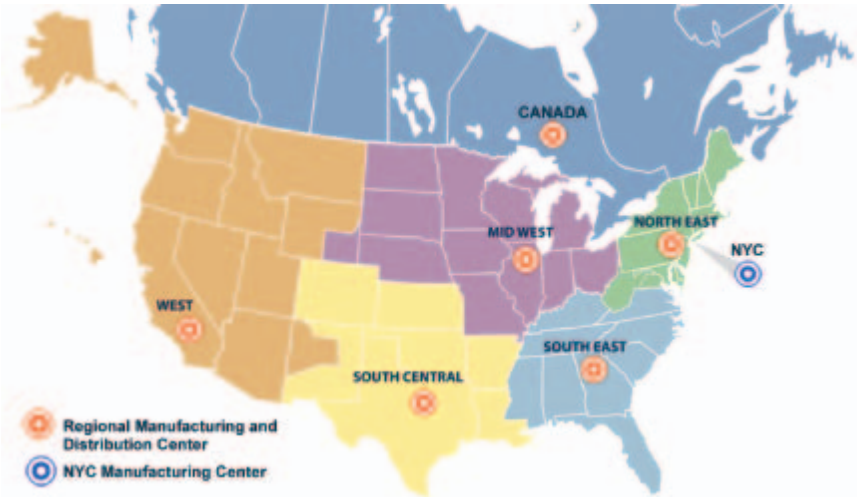
FEATURES

- Smart choice for commercial and municipal garage applications
- Provides energy savings of 64-85% when replacing 175W MH luminaires
- Expected service life of over 100,000 hours (10+ years of 24/7 operation)
- See www.lithonia.com/D-Series for more information

QUICK SHIPMENT CAPABILITY

LOCAL STOCK

- Distribution centers in each region of the country
- Product is available for will call or shipment same day (order received by noon) or next day
- Product availability is visible on the Lithonia Distributor Center (LDC)



REGIONAL MANUFACTURING CENTERS

- We have expanded our inventory stocking programs and invested in just-in-time, regional manufacturing centers across the United States and Canada
- Over 4,000 additional products can be manufactured at these locations

For a list of available products and shipment timeframes, visit www.acuitybrands.com/quickship

AVAILABLE

Lithonia Lighting offers the most comprehensive quick shipment service in the business. With distribution centers in each region of the country, Lithonia Lighting has more than 3.1 million units in stock for immediate shipment. Additionally, regional manufacturing capabilities allow us to assemble more than 4,000 products to order. This flexibility enables you to respond to customers' needs where breadth of product and speed are critical factors.

PRODUCT SELECTION GUIDE

Although this Stock Guide provides a solid summary of the key, high volume items available from Lithonia Lighting and Sensor Switch, it only scratches the surface of Acuity Brands' total product portfolio of leading lighting and controls brands. Our 800-page Product Selection Guide (PSG10) offers a comprehensive look at the billions of product configurations we offer to meet the requirements of even the most complex projects.

- To view or download full PDF versions of PSG10, visit Lithonia.com/PSG
- For a quick product search, view the Interactive eCatalog
- Contact your local sales representative to order a printed copy

Acrylic Compatibility Table

Certain chemicals that may exist in end-user locations release airborne contaminants that can impact the integrity and safety of key fixture components that contain acrylic material. Immediate damage may occur such as crazing, cracking, permeation losses and mechanical failure. Products with visually noticeable deterioration have diminished integrity and must be replaced immediately with a more suitable product for the application.

This table identifies the most common chemicals and is not intended to be all-inclusive. Exposure to compounds identified as "Not Acceptable" will void all warranties associated with the product. Acrylic components should not be used in areas where these chemicals are used and where these chemicals become mists or airborne vapors. Ensure that chemical interactions are considered when selecting fixtures. For additional information please consult an authorized factory representative.
