Introduction

LEVITON THE COMPANY

Since its inception at the beginning of the electrical age, the name *Leviton* has been synonymous with quality electrical products for every conceivable commercial and residential need. Today, Leviton is one of the world's most extensive and diversified electrical manufacturing companies, with some thirty facilities dedicated to engineering, manufacturing and distribution of over 25,000 products for nearly every connectivity need—from electrical receptacles to optical fiber components.

Leviton Integrated Networks™

The information and communication revolution will have as much impact on America's homes and businesses as did the electrical revolution of the 20th Century. To fully enable the modern home, Leviton has developed **Leviton Integrated Networks** as the upgrade path to the future.

From simple coaxial cable to optical fiber, **Leviton Integrated Networks' Structured Media™** components and systems deliver the bandwidth and speed that today's and tomorrow's information and entertainment technologies will demand. **Power Quality** products provide essential protection for the sensitive electronic components and systems that are now standard in today's homes and businesses.

Lighting Control systems bring out a home's personality by adding warmth and ambience, and deliver value by making the home more efficient as well. **Home Control and Security** systems raise a home's IQ level, making it more secure and responsive to the needs of its owner. **Special Needs** systems make a home more accessible and safer for all its occupants. Leviton Integrated Networks even includes the core wiring devices that every home needs, selected from Leviton's highest-grade offerings, to upgrade to a quality level that every homeowner can appreciate.

As the only company that can supply every conceivable connectivity need, Leviton remains the industry's reference point for product quality and installation support—and the company responsible for setting the standards that all others ultimately meet.

The Industry Leader in Quality, Support and Service

Leviton has been instrumental in influencing, developing and establishing a myriad of industry standards and codes. An ISO-9000 certified manufacturer fully resourced to support its substantial customer base, Leviton provides long-term reliability and the highest level of quality across its broad product line. **Six Sigma** is an integral part of Leviton's commitment to continuous improvement in productivity and customer satisfaction. Leviton also maintains an extensive support network dedicated to providing the best, most up-to-date product and systems assistance possible.

Call us at: 800-824-3005 for tech support and 800-323-8920 for the Leviton representative nearest you.

Structured Media™ Systems Group

GUIDELINES FOR LEVITON'S CERTIFIED INSTALLER PARTNER PROGRAM

Leviton Integrated Networks offers installers the opportunity to gain a competitive advantage in their business through a Comprehensive Certification Program. This program includes seminars to improve job planning and installation skills and adds a limited 20 Year Extended Warranty on passive structured media component systems that have been tested and registered with the company. For details, please see warranty information in the Installation Manual. Superior technical support and effective marketing support tools are also provided. For more information on taking advantage of this program for your business, contact your distributor, your Leviton representative or call 1-800-323-8920.

BUILDER PROGRAMS

These programs provide the marketing and training support that helps everyone understand the benefits of home systems. This includes the education of builder sales people plus the availability of consumer-friendly displays and consumer literature. Leviton Integrated Networks can even provide discounted products to qualified parties as part of the Model Home Program. Speak to your Leviton representative or see the Builder section of our website at www.Leviton.com/lin.

Structured Media™ Centers

Series 140 Structured Media Enclosure

This 14" professional-grade whole-house media enclosure creates one distribution point in the home for all low voltage cables. The SMC-140 is ideal for MDU's (Multiple Dwelling Units, such as condos and apartments) or more modest homes requiring limited audio/video/voice and data configurations. It will accommodate two Pre-Configured Structured Cabling Panels. The sturdy design and functionality facilitate installation, reducing job-site labor costs, and making it ideal for essential home networking.

Cat. Nos. 47605-14W Panel enclosure
47606-BTV Basic Telephone and Video Panel

FEATURES

- Accommodates up to two full-width Pre-Configured Structured Cabling Panels –delivering audio/ video, voice and data to any room of the home or office.
- Positive “stops” on housing sidewalls prevent the enclosure from falling through studs during installation.
- One piece white steel unit holds full and half-width expansion modules.
- Can be surface-mounted or recessed. Ideal for new installations or retrofits.
- Mounting guides on the cover align screw-holes and reduce the chances of dropping during attachment.
- Powder-coated white cover features a 3/4" overlap to hide irregular drywall cuts.
- Combine two or more enclosures for larger installations or future expansion.
- Multiple knock-outs on top and bottom including two new 2" knockouts on top, facilitate cable entry and routing.
- Cut-out in base of enclosure for mounting single gang J-Box kit
- Six 3" square self-healing foam grommets accommodate cable bundles

Series 140 Structured Media Enclosure

Specifications	
Dimensions:	
Enclosure:14.38"H.x 14.38"W.x 3.60"D.
Cover:16.10"H.x 16.10"W.
Materials:White, powder-coated 18 gauge steel
Standards Compliance:ACA and cULus Listed. UL Listed for fire and burglary

Series 140 Structured Media Enclosures and Covers

Cat No.	Description
47605-14W	Series140 Enclosure and Flush-Mount Cover, empty
47605-14N	Series140 Enclosure only
47605-F14	Series 140 Flush Mount Cover

For more information on Pre-Configured Cabling Panels, please see pages 8 – 9.

Hinged Cover Lock

Cat No.	Description
5L000-LOK	Lock and key for SMC 140, 280, 420 Hinged Cover

Structured Media™ Centers

FEATURES

- Multiple knock-outs (up to 2") on top, bottom, sides and back, including two new 2" knock-outs on top, facilitate cable entry and routing from every desired room.
- Six 3" square self-healing foam grommets accommodate cable bundles and protect them from being cut
- Sturdy, one-piece white steel construction.
- Combine two or more enclosures for larger installations or future expansions.
- Holds ¼, ½ and full-width expansion modules with the ability to mount most modules vertically or horizontally.
- Large capacity provides multiple functionality for "wired" homes.
- Powder-coated white cover features a ¾" overlap to hide irregular drywall cuts.
- Mounting hooks on the cover align screw-holes and reduce the chances of dropping during attachment.
- Holds a broad range of current and future distribution modules, delivering audio, video, voice, data, security, and more to any room of the home or office.
- Threaded inserts added to enclosure to ensure accurate threading of screws when mounting cover
- Can be surface-mounted or recessed. Ideal for new installations or retrofits.
- Knock-out in base of enclosure for mounting of either a single gang J-Box kit or an AC power module
- Designed to accommodate safe, high-quality hospital-grade power module with surge suppression.

Series 280 and 420 Structured Media Enclosures

Command central for home media convergence, Leviton's SMC-280 and SMC-420 home technology enclosures put the home or small office on the cutting edge of the Information Age. By bringing every conceivable technology distribution point together in one place, they make running cable and managing media both simple and more cost-effective. Designed to incorporate a hospital-grade power quality module for maximum protection from line surges, the 28" and 42" high units accommodate all the latest in functions such as home networking, fax, internet (including high speed services such as DSL, cable modems and ISDN), multi-line telephones, security camera, coaxial cable and satellite video distribution, and speaker and volume controls, when equipped with the correct accessories.

The Series 280 enclosure can comfortably accommodate up to 8 different Distribution Modules, depending on selection and density, and the 420 enclosure, with its generous size and capacity for up to 12 modules, can simultaneously manage many diverse functions. Perfect for home office and home entertainment. Make sure you plan all modules before starting the project, and specify the correct size media center.

*Module count will depend on the type used; some are larger than others.

Structured Media™ Centers

Extender Brackets for Leviton Series 280 and 420 Structured Media Centers

The Extender Brackets provide an additional 2" of depth and enhanced ventilation with Leviton's Series 280 and 420 Structured Media Centers (SMCs). The Extender Brackets, which are attached between the enclosure and the cover, form a frame assembled from four 2" – deep sheet metal rails with louvers on each side. The greater depth allows for better cable management and for larger modules, such as audio amplifiers, to be mounted within the Structured Media Centers.

FEATURES

- Made of sturdy white powder-coated 18-gauge sheet metal
- Louvers in the Extender Brackets enhance ventilation for added protection against heat build-up from installed modules
- Two-Year Product Warranty

Series 280 and 420 Structured Media Enclosures

Cat No.	Description
47612-28B	Extender Bracket 2" depth extension package for Series 280 Structured Media Centers
47612-42B	Extender Bracket 2" depth extension package for Series 420 Structured Media Centers

Structured Media™ Centers

FEATURES

- Eight 1" or 1.5" conduit fittings on top and bottom facilitate cable entry and routing.
- Wall-mount or recess. Ideal for new installations or retrofits.
- Securable door provides maximum protection from dust and abuse.
- Plywood backing allows open architecture for customizing layout and can accommodate a wide variety of Structured Media Distribution Modules.

Media Versatile™ Panel—For Custom Retrofits and Remodeling

Ideal for custom retrofits and remodeling applications, the Media Versatile™ Panel with 3/8" plywood backing allows an open architecture for consolidating low voltage electronics and distribution components for phone, fax/modem, data, home networking, audio, video and home control. The 24" high cold-rolled steel panel with securable door will accommodate a wide variety of Structured Media Distribution Modules by simply removing the Push-Lock Pins and attaching directly to the plywood backing. The sturdy construction is built to industrial-grade standards, and the panel can be surface mounted or recessed in the wall. (Optional mounting brackets may be used for non-standard stud spacing). Ideal for custom retrofits and remodeling applications. Available in black powder coat finish. UL Listed.

Structured Media™ Centers

Compact Structured Media™ Enclosure – For Multi-Dwelling Units (MDU's)

Leviton's new Compact Structured Media Enclosure for Multi-Dwelling Units offers a compact, cost-effective distribution point for basic telephone and video to owners/managers of multi-unit buildings. The unit accommodates a variety of telephone/video distribution configurations by hosting up to three Telephone Expansion Boards and one Passive Video Splitter.

FEATURES

- Unique modular design has fewer parts and is made exclusively from ABS molded plastic to provide customers with cost savings in installation time
- Flexibility to accommodate a variety of telephone/video distribution configurations
- Snap-on cover requires no tools or fasteners
- Molded-in brackets provide quick snap-in convenience for Telephone Expansion Boards
- Angled video splitter shelf for easy installation
- Hosts up to three Telephone Expansion Boards and one Passive Video Splitter
- Available empty with cover or in two kitted versions with a 1x6 Telephone Expansion Board or with a 1x6 Telephone Expansion Board and a 6-Way Splitter

Compact Structured Media Enclosure for MDU's

Specifications	
Dimensions: (Enclosure)8.03"(204.0) H x 14.40"(365.6) W x 3.71"(94.2) D
(Cover)9.01"(228.9) H x 15.39"(390.8) L
Materials:ABS molded plastic

Structured Media™ Panels/Modules

PRE-CONFIGURED STRUCTURED CABLING PANELS

Route telephone, data and video services throughout your home or office with one simple panel. Leviton's Pre-configured Structured Cabling Panels combine some of our most popular voice, data and RF modules to create an economical one-stop home and office media distribution point. See the following pages for available configurations. Some modules are available in expansion styles to fill unused panel slots (see this page). Choose the pre-configured combination that best meets your needs, and enhance with expansion boards or stand-alone brackets.

Panel Components & Expansion Boards

Pre-configured Panels are assembled at the factory and will contain one or more of the following distribution modules.

Components	Application	Features	Available As
 <p>1x9 Bridged Telephone Board</p> <p>Basic telephone distribution</p>		<ul style="list-style-type: none"> • Bridge up to 4 telephone lines to 9 locations • Connect up to 9 separate telephones per line • Printed circuit board module • 4-pair 110-type IDC punchdowns 	<ul style="list-style-type: none"> • Part of a Pre-configured Panel • Stand-alone module with bracket • Expansion board without bracket
 <p>Category 5e Voice & Data Board</p> <p>Basic home networking</p>		<ul style="list-style-type: none"> • Patch phone or data connections to 6 locations • Combine with a TLDM, key system, or network hubs for additional applications • Printed circuit board module • 4-pair 110-type IDC punchdowns and 6 CAT 5e RJ-45 ports 	<ul style="list-style-type: none"> • Part of a Pre-configured Panel • Stand-alone module with bracket • Expansion board without bracket
 <p>Telephone Patching Board</p> <p>Expanded 4-line telephone distribution</p>		<ul style="list-style-type: none"> • Bridge up to 4 telephone lines to 7 locations • Printed circuit board module • One incoming 4-pair 110-type IDC punchdown and 7 outgoing RJ-45 jack connections • Combine with a Category 5e Board to route telephone to remote locations 	<ul style="list-style-type: none"> • Part of a Pre-configured Panel • Expansion board without bracket
 <p>Telephone Security Board</p> <p>Route simple telephone with security interface</p>		<ul style="list-style-type: none"> • Bridge up to 4 telephone lines to 6 locations • Connect up to 6 separate telephones per line • Connect to security system • Printed circuit board module • 4-pair 110-type IDC punchdowns 	<ul style="list-style-type: none"> • Stand-alone module with bracket
 <p>DSL Filter Board</p> <p>Filters DSL signal from telephone line</p>		<ul style="list-style-type: none"> • Filters DSL signal from phone line before distribution throughout a home or office. • Eliminates need for individual filters at each wallplate. • Use with any phone distribution module. • Printed circuit board module with RJ-45 jack and 110 punchdowns 	<ul style="list-style-type: none"> • Stand-alone module with bracket • Expansion board without bracket
 <p>Telephone Line Distribution Module (TLDM)</p> <p>Enhanced telephone distribution</p>		<ul style="list-style-type: none"> • 19 multi-line telephone connections in combinations of 2 or 4 lines • Bridge "Line 1" service to 12 locations and 4-line service to 8 locations • Connect to CAT 5e Voice & Data Board(s) or additional panels for more connections and easier adds/moves/changes • Independent RJ-45 jack and punchdown security interface to accommodate alarm systems 	<ul style="list-style-type: none"> • Part of a Pre-configured Panel ONLY
 <p>Video Splitters</p> <p>Basic video distribution</p>		<ul style="list-style-type: none"> • Cable TV or off-air antenna signals • 4-way or 6-way RF Splitter • Die-cast housing • Available in 1GHz and 2GHz models 	<ul style="list-style-type: none"> • Part of a Pre-configured Panel • Stand-alone module with bracket

Structured Media™ Panels

PRE-CONFIGURED STRUCTURED CABLING PANELS — FULL SIZE

Leviton has a Pre-Configured Structured Cabling Panel to fit any application. See opposite for explanations of individual boards. Use the Panels as they are, expand with easy snap-in Expansion Boards, or combine with other Panels or Stand-alone Modules to create a Structured Media solution tailored to your specific needs. Ideal for all installations, from basic to high-end. The new non-conductive synthetic bracket features a rugged construction and a “shelf-style” design with enhanced cable management and easier installation. Boards quickly snap on and off for easy adds/moves/changes.

Pre-Configured Structured Cabling Panels

Structured Media™ Brackets

Plastic Mounting Brackets for Leviton Structured Media Centers

The Single Plastic Bracket accepts mounting of any single Leviton phone, data, security or DSL Filter Board within the Structured Media Center to enhance an existing system, for use as a stand-alone solution for voice (with or without security), data and DSL filtering services. The Expansion Plastic Bracket is a full-width bracket that can be populated with up to five Leviton phone, data, security or DSL Filter Expansion Boards to meet custom application needs. The Data Plastic Bracket can be used to mount switches, routers, and modems within Leviton's Structured Media Centers. This unit offers a universal design that accommodates installation of a variety of manufacturers' products.

Plastic Mounting Brackets for Leviton Structured Media Centers

Cat No.	Description
47612-SBK	A – Single Plastic Bracket for mounting a single Leviton phone, data, security or DSL Filter Expansion Board in a Leviton Series 140, 280 or 420 Structured Media Center
47612-EBK	B – Expansion Plastic Bracket for mounting up to five Leviton phone, data, security or DSL Filter Expansion Boards in a Leviton Series 140, 280 or 420 Structured Media Center
47612-DBK	C – Data Plastic Bracket for mounting switches, routers, and modems within a Leviton Series 140, 280 or 420 Structured Media Center

FEATURES

- All Plastic Brackets
- Made of sturdy white ABS plastic
- Come with push-lock pins
- Snap-in installation in any Leviton series 140, 280 or 420 Structured Media Center
- Allow for cable management via routing under bracket

Multimedia Adapter Bracket and Mounting Plates

Create a custom audio/video, copper or fiber mini-panel in your Structured Media Center with the Multi-Media Adapter Bracket. The bracket supports your choice of two 6-pack mounting plates, and snaps easily into any of Leviton's Structured Media Centers with push-pins. Pre-loaded mounting plates are available for BNC and F-connectors, or create a custom configuration with unloaded 6-pack QuickPort plates. QuickPort plates accept any combination of the following QuickPort adapters or connectors: BNC, F-Connector, ST, FC, SC and MT-RJ Fiber Optics, Banana Jacks, Speaker Binding Posts, RCA, S-Video, Voice Grade, and Category 5, 5e or 6. Bracket mounts vertically or horizontally.

5F100-6VF	T – F-Connector Mounting plate, 6-pack, loaded
5F100-6QP	S – QuickPort Mounting plate, 6-pack, unloaded

Structured Media™ Brackets

Universal Security & Shelf Brackets for Leviton Structured Media Centers

The Universal Security Brackets allow for consolidation and integration of security products into any of Leviton's Series 140, 280 or 420 Structured Media Center enclosures. The 6" and 12" Universal Security Brackets accommodate the widest variety of security alarm panels. These 1" – wide brackets are sold in pairs with self-tapping screws and insulating spacers for easy attachment to the panels. The Universal Shelf Bracket provides space for security batteries of various sizes as well as other products to be mounted within Leviton's Series 140, 280 or 420 Structured Media Centers. The bracket comes with four 8" long Velcro® strips to strap down products to the shelf, ensuring both vertical and horizontal stability.

FEATURES

All Brackets

- Made of white powder-coated 18 gauge sheet metal
- Come with push-lock pins
- Universal Security Brackets
 - Allow an unlimited number of upgrades (limited only by the enclosure's size) to be added to an existing security system terminated within any Leviton Structured Media Center
- Sold in pairs with self-tapping screws and spacers to easily connect the largest number of security alarm manufacturers' panels

Universal Shelf Bracket

- Allows security batteries and other products to be mounted inside any Leviton Structured Media Center
- Vertical and horizontal slots on bracket to accommodate Velcro strips, ensuring vertical and horizontal stability

Universal Security & Shelf Brackets for Leviton 140, 280 or 420 Structured Media Centers

Cat No.	Description
47612-6SB	A – 6" Universal Security Bracket. Comes a set of two 6" – long, 1" – wide brackets with self-tapping screws and spacers for mounting within Leviton's Series 140, 280 or 420 Structured Media Centers
47612-1SB	B – 12" Universal Security Bracket. Comes a set of two 12" – long, 1" – wide brackets with self-tapping screws and spacers for mounting within Leviton's Series 140, 280 or 420 Structured Media Centers
47612-UBK	C – Universal Shelf Bracket. Comes with four 8" – long Velcro strips to strap down security batteries of various sizes as well as other products to be mounted within Leviton's Series 140, 280 or 420 Structured Media Centers

Media Center Power

SURGE-PROTECTIVE AND STANDARD AC POWER MODULES AND J-BOX KITS

Surge AC Power Module or J-Box kit models add clean, safe power to the Series 280 or 420 Structured Media Enclosures (Series 140 enclosure only accepts J-Box kits). Two non-surge protected AC Power Module or J-Box kit units offer an economical method of providing power to distribution modules and, except for built-in surge suppression, offer the same features as the respective surge-protected units. In extremely excessive surge conditions, an alarm will sound to warn the user that power is unprotected. Consists of one (J-Box kit) or two (AC Power Module) 15 Amp Hospital Grade duplex receptacles housed in a powder-coated steel enclosure. They feature EMI/RFI filtering and meet UL 1449 standards.

AC Power Modules for 280 and 420 Series Structured Media Enclosures

Specifications	
Dimensions:10"H.x 2.8"W.x 2.3"D.
Standards Compliance (Surge model only):	...UL 1449
Input:2 @ 15A 120V AC

AC Power Modules for 280 and 420 Series Structured Media Enclosures

Cat No.	Description
47605-DP	Surge AC Power Module, Two Duplex Receptacle
47605-NDP	Non-Surge AC Power Module, Two Duplex Receptacles

FEATURES

- Hospital grade surge-protected units provide greater protection for line-voltage modules, including multi-stage defense (L-N, L-G, N-G)
- Non-surge suppressor units provide an economical method of providing power to active components
- Available with one (J-Box kits) or two (AC Power Modules) 15 Amp duplex receptacles
- Safety clips protect outlets against dust, dirt and debris
- One (J-Box kits) or two (AC Power Modules) cable knock-outs on bottom for power service connection
- Saves valuable real estate by mounting on outside of Structured Media Enclosures
- Meets UL 1449 standards

J-Box Kits for 140, 280 and 420 Series Structured Media Enclosures

Specifications	
Dimensions:3"H.x 2"W.x 2.5"D.
Standards Compliance (Surge model only):	...UL 1449
Input:1 @ 15A 120V AC

J-Box Kits for 140, 280 and 420 Series Structured Media Enclosures

Cat. No.	Description
47605-ACS	Surge J-Box Kit, One Duplex Receptacle
47605-ACN	Non-Surge J-Box Kit, One Duplex Receptacle

UNIVERSAL MINI DC POWER SUPPLIES

These compact units are designed specifically to fit into Leviton's Series 140, 280 and 420 Structured Media enclosures. They are compatible with any incoming AC voltage in the range of 90 to 264V. The 47605-PSA's 9 12VDC connectors provide up to 40 watts of power and the 47605-PSB's 3 12VDC connectors provide up to 10 watts of power while providing short circuit overload and surge protection as well as EMI/RFI filtering to connected equipment.

Universal Mini Power Supplies

Cat. No.	Description
47605-PSA	Universal DC Power Supply, 9 12VDC connectors
47605-PSB	Universal Mini DC Power Supply, 3 12VDC connectors

Media Center Power

Snap-In Modules for Structured Media Enclosure Surge Module Bracket

Leviton's snap-in surge protective modules provide customized surge protection for all low-voltage communication and data lines in the Structured Media Enclosure. All Series 5950 modules can snap-in to the Cat. No. 3950-BKT Surge Module Bracket. The bracket, allows you to add and change modules to fit specific protection needs. Choose from a selection of protection modules for Digital Satellite Systems, Ethernet systems, Cable TV, Telephone/Fax/Modem and DSL/ADSL equipment. All devices attached to the modules are covered under the Leviton \$50,000 Connected Equipment Warranty.

Snap-In Surge Protection Modules

FEATURES

- Interchangeable modules accommodate changing surge protection needs
- All modules easily snap in to the Cat. No. 3950 Surge Module Bracket
- User-friendly design—no wiring required
- Telephone/Fax/Modem Module acts as a splitter, allowing the connection of two devices

Cat No.	Description
Beige—5951-SA Gray—5951-SAT Ice—5951-SAC	Satellite System/Cable TV Protection Module —4 Standard F-connectors. 3-Amp fuse for over-current. Max. line voltage: 75V DC. Breakdown Voltage Range: 70.4-110 Volts/Sec
Beige—5952-ET Gray—5952-ETH Ice—5952-ETC	Ethernet Protection Module (10 Base-T Applications) —Two RJ45 connectors to protect two pair of transmit/receive lines. 10-Amp automatic Resettable PTC fuses. Max. operating voltage: 16.6V DC. Breakdown Voltage Range: 2.62-19.2 Volts/Sec
Beige—5953-PC Gray—5953-PCG Ice—5953-PCC	Cable TV System Protection Module —Two Standard F-type connectors. 3-Amp fuse for over-current. Max. line voltage: 75V DC. Breakdown Voltage Range: 70.4-110 Volts/Sec
Beige—5954-AT4 Gray—5954-PT4 Ice—5954-CT4	Telephone/Fax/Modem Protection Module —Three RJ11, 4-wire/2-pair connectors. 3-Position splitter allows for connection to a common line. 3-Amp fuse for over-current protection. Max. operating voltage: 150V rms (including ring voltage). Breakdown Voltage Range: 162-331 Volts/Sec
Beige—5955-DT Gray—5955-DTG Ice—5955-DTC	DSL/ADSL Subscriber Equipment Protection Module —Three RJ11, 4-wire/2pair connectors. 3-Amp fuse for over-current protection. Max. operating voltage: 150V rms (including ring voltage). Breakdown Voltage Range: 162-331 Volts/Sec
3950-BKT	Surge Module Bracket

FEATURES

- Contains six removable double screw terminal jacks.
- One F-type output for use with cable amplifiers.
- Each jack utilizes slot-drive screws.
- Shipped with 6 wires containing 18 gauge connectors and 2.1 mm power plugs.
- Fully regulated (12 volt DC regulated output).

DC Power Distribution Module

The DC Power Distribution Module is a unique solution to the need for high quality electrical power for the separate DC-powered components in the Structured Media Enclosure. This module reduces clutter and opens-up space in the Structured Media Enclosure by eliminating the need for multiple DC transformers. Powered by a single DC power supply, the Power Distribution module provides fully-regulated 12 VDC power for up to 6 devices.

DC Power Distribution Module

Specifications
Input:110V AC
Output:Provides 13V DC power for up to 6 devices 1500mA
Compliance (Surge model only):UL 1449
Dimensions:6.58"H.x 2.5"W.x 1.5"D.
Wire Gauge:Up to 12 gauge

Networking and Internet Sharing

STRUCTURED MEDIA™ MODULES—INTERNET CONNECTION SHARING & MULTI-LOCATION NETWORKING

10/100 Internet Gateway Cable/DSL Broadband Router*

Leviton's 10/100Mbps Internet Gateway (a.k.a. a router) allows multiple users to securely share a single, protected high-speed Internet connection.

10/100 Base-T Switches*

At 10/100Mbps speeds, these units are excellent choices for networking PC's to meet a wide range of residential needs such as sharing files, printers and other peripherals.

**Networked PC's and peripherals require compatible networking cards or adapters and associated software.*

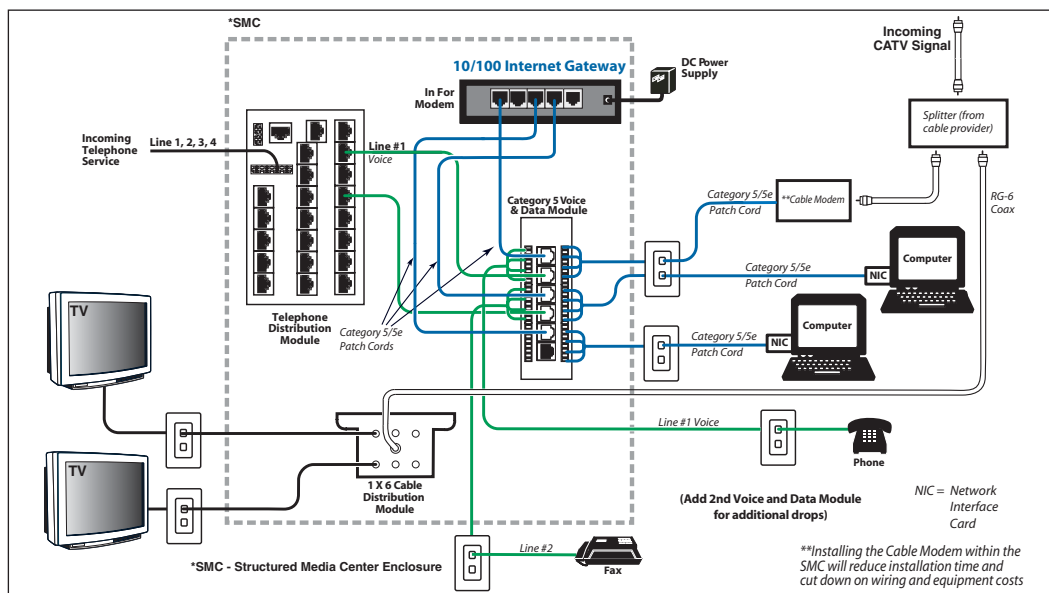

10/100 Base-T Switches and 10/100 Base-T Internet Gateway Router

Specifications	10/100Base-T 5-Port (or 8-Port) Switches	10/100 Base-T Internet Gateway Router
Data Transfer Rate	10/100 Mbps	
Connectors	5 (or 8) LAN ports, 1 AC Power Adapter Jack	4 LAN ports, 1 WAN port, 1 AC Power Adapter Jack
Cabling Requirements	Standard Cat 5/5e UTP	
LED Indicators	Indicators: one Power, 5 (or 8) Link/Activity and 5 (or 8) 100Mbps	Indicators: one Power, one Status, 5 Link/Activity, 5 100Mbps and 1 WAN
Power Supply	12VDC, 1000mA	12VDC, 800mA
Dimensions	5.85" x 3.2" x 1.03"	5.54" x 3.92" x 1.05"
Standards Compliance	IEEE 802.3 10 Base-T Ethernet IEEE 802.3u 100 Base-TX Fast Ethernet, and FCC Class B	

10/100 Base-T Switches and 10/100 Base-T Internet Gateway Router

Cat. No.	Description
47611-5PT	10/100 Base-T 5-Port Ethernet Switch, with Power Adapter
47611-8PT	10/100 Base-T 8-Port Ethernet Switch, with Power Adapter
47611-GT4	10/100 Base-T Internet Gateway Router, with Power Adapter

Cable Distribution—Modem Outside the Structured Media Center

FEATURES

- Connects up to 4 devices directly (up to 253 computers via a series of Leviton switches) to the Internet using a single shared high-speed DSL, cable modem, or Satellite connection
- Allows fast Internet access at up to 100 Mbps
- Permits creation of a private high-speed home area network (HAN) or local area network (LAN) in small office/home office (SOHO) environments for all connected computers with its fast, integral 10/100Mbps auto-negotiating Ethernet ports
- High performance suitable for demanding home office and telecommuting applications, including sharing of high-speed and high-capacity devices such as storage devices and back-up systems
- Network Address Translation technology (NAT) and stateful packet inspection creates a firewall that securely cloaks the private network from outside access
- Pass-through IPSEC and ISAKMP protocols allow attached LAN users to implement secure Virtual Private Network (VPN) communication applications on their PC's
- Built-in DHCP server for easy setup and allocation of IP addresses on the LAN
- Connections are made by running cable from desired locations to a Category 5e Voice and Data Module (either a stand-alone module page 16, or one of the units in the Pre-Configured Structured Cabling Panels page 17). From there, Category 5 or 5e patch cord can be used to connect the Gateway to the Category 5e Module
- Network protocols: TCP/IP, DHCP, DNS, NAT, TFTP, HTTP, PPOE. Not PPOA
- Auto-detect uplink: Use any port to cascade additional switches, hubs or routers

Video Distribution

ENHANCED RF VIDEO DISTRIBUTION MODULES

Cable service providers are converting to digital systems. These new systems will squeeze hundreds of channels plus Internet service onto the coax line. Leviton's high-performance video modules can support these new systems while limiting noise and other artifacts. Modules can distribute standard inputs such as CATV and antennas, and modulated inputs such as VCR's, DVD's and security camera/CCTV on coaxial cable throughout the house. Signals can be precisely controlled through the modules' built-in amplifier/attenuator (-5 to +15db) to compensate for variations in incoming signal strength for the clearest possible reception*.

Incorporates state-of-the-art bi-directional signal paths to support cable modem or cable box communications throughout a home or office. The outlet ports are isolated and do not require any termination caps. Choose from one or three-input models; both come with 8 outputs. One and three-input models come in both 1 and 2 GHz versions. Dimensions: 3.55"H.x 6.57"W.x 3.29"D. Connector: F-Type. Impedance: 75 Ohm. Power Input: 12 VDC, 500 mA (1x8 & 3x8); 12 VDC, 1000 mA (4x16).

*Not for use in-line between DBS satellite dish (LNB) and DBS satellite TV receiver.

47692-GVA	Enhanced Bi-Directional Amplifier, 2 GHz

Video Amplifier

Run cable TV and other video service signals, such as antenna or other modulated input through this Video Amplifier Module and boost video signal strength up to 25 dB. Features a variable attenuator for signal amplification level setting, and an FM trap to eliminate unwanted FM interference.

Video Amplifier

Specifications	
Dimensions:	6.58"H.x 3.67"W. x 4.4"D.
Frequency Range MHz:	50-1000
Gain Control Range dB:	10-25dB
FM Trap dB:	.25
Impedance:	.75 Ohm
Connector Type:	.F-type
Power Source:	.12 VDC 500 mA

Video Amplifier

Cat. No.	Description
48210-VA	B-Video Amplifier Module

FEATURES

- Variable attenuator enables precise amplification for the clearest signal possible.
- Run cable TV or other video signals through the Video Amplifier before splitting and distributing throughout the home or office.
- Boost signal strength by up to 20 dB.

FEATURES

- Run cable TV or other video signals through the Video Amplifier before splitting and distributing throughout the home or office.
- Boost signal strength by up to 25 dB.

Video Distribution

FEATURES

- Splits video signals. Outputs for up to 4, 6 or 8 televisions.
- Provide digital cable, cable TV and other video services, via coaxial cable, to any room in the house.
- Die-cast housing and printed circuit board.
- Use with the Video Amplifier for increased signal strength.
- Units for SMC 140, 280, 420 come with mounting bracket.
- Gold-flashed contacts on 2.05 GHz units provide lowest conductive resistance.

FEATURES

- Distributed digital satellite signals to up to 4 TV's.
- Combines signals from digital satellite with off-air antenna onto single coax cable.

PASSIVE COMPONENTS

1x4, 1x6, 1x8 Passive Video Splitters

Use 4-, 6- and 8-way Passive Video Splitters to split digital cable, quality cable TV and off-air antenna signals to 4, 6, or 8 televisions throughout the home or office. They feature die-cast housing and printed circuit board construction. Use with the Video Amplifier for increased signal strength.

1x4, 1x6, 1x8 Passive Video Splitters

3x4 Multi-Switch

The 3x4 Multi-Switch distributes satellite signals to up to 4 TV's. It combines signals from dual incoming LNB (low noise block) digital satellite systems with transmission from an off-air antenna for distribution on a single coaxial cable. The module incorporates a separate input to receive TV antenna signals which is best used in combination with a video amplifier.

3x4 Multi-Switch

Home Security Monitoring

HOME SECURITY

Decora® Camera

A high-tech addition to the attractive Decora family, the Decora Camera provides high-quality color video output that will run through the Structured Media Enclosure and connect to a monitor anywhere in the home or office—instantly turning a home media center into a home security center.

Combine multiple cameras with a Leviton Video Sequencer to create one signal that steps through the different views. Then add a Leviton Modulator and Notch Filter to route its signal not only to a dedicated monitor, but also over a whole-house pre-assigned “security channel” between 75-80 (when used with a notch filter).

The Decora Camera produces clear and reliable CMOS-based video with a wide angle lens that eliminates the need for constant re-adjustment. It features a self-contained video differential amp for increased clarity of signal. A manual horizontal pan feature allows you to easily aim the camera. Power is indicated with a green LED indicator on the front of the faceplate. The Decora Camera does not have audio capability.

The Decora Camera has a terminal block output. An RCA/F adapter is provided for use with coaxial cable (shipped with one RCA female, 2-wire adapter and two male RCA to female F-connector adapters). Powered over separate cable. Connect power at your Structured Media Enclosure with a Leviton DC Power Distribution Module. Video signal is carried on coaxial cable. Power is supplied via a Cat 5 cable. Shipped with one RCA female 2-wire adapter and two RCA male to female F-connector adapters. This stylish camera is complemented by a Decora wallplate (available separately).

FEATURES

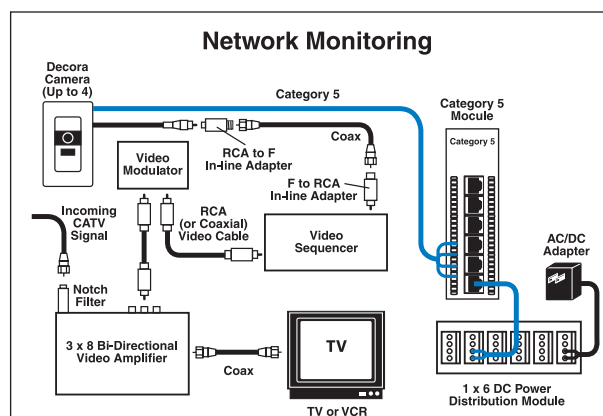

- Self-contained video differential amp provide increased clarity of signal.
- CMOS-based wide angle color video camera in one compact Decora-style unit.
- Features terminal block output connections.
- Power is indicated by a green LED on faceplate.

Decora® Camera

Specifications	
Dimensions: 4.1"H.x 1.4"W.x 2.2"D.
Connection: 4-position, removable screw terminal.
Camera: CMOS imager: 1/3" 310 TV lines, NTSC with S/N ratio 38 dB min. Minimum illumination 5 lux
Transmission Total Harmonic Distortion: -75 dBc
Power: 12-VDC @35mA typical 50mA max; green Power On LED

Decora® Camera

Cat. No.	Description
48213-WDC	Decora Camera

For special and custom video installations, refer to Leviton's Custom Installation Products section, starting on page 40

Home Security Monitoring

FEATURES

- RCA video and audio inputs.
- F-Connector output (channels 14-35 UHF and 54-86 CATV).
- DC power supply.

Media Center Modulator

The Media Center Modulator takes the signal from a video device such as a security camera (or multiple cameras using the Video Sequencer) and modulates the signal to one unused cable TV channel, which can then be combined with the CATV signal to multiple locations anywhere in the home, effectively providing a whole-house security channel.

Select the broadcast channel to be programmed via dip-switch button programming. The modulator provides 0, 10, 20 or 30 dBmV RF output.

Note: Modulator broadcasts mono audio only. In a Structured Media System, when used with Structured Media Video Distribution modules, the Modulator must be used with a Leviton Notch Filter (PN 47690-NFA) to clear the target cable channel and avoid interference.

Media Center Modulator

Specifications	
Dimensions:	.3.2"H.x 2.25"W.x 1"D.
Inputs:	.RCA video, RCA audio inputs
Outputs:	.1 F-connector for RF signal
Operational channels:	.14-69 UHF; 70-94, 100-125 CATV
Bandwidth:	.50MHZ-860MHZ
Power:	.12V DC 400mA

Media Center Modulator

Cat No.	Description
48213-VMA	Media Center Modulator

Video Sequencer

The Structured Media Video Sequencer, which automatically switches between video cameras, is a security product engineered for long-term home use. With the Video Sequencer, up to four Decora Cameras, may be monitored sequentially. The Sequencer allows a variable time-interval setting from 1–30 seconds on each camera to allow thorough surveillance of any perimeter or interior.

The Video Sequencer has four composite RCA audio/video inputs and two sets of RCA outputs to connect with a monitor or modulator. It snaps into a 280 or 420 Structured Media Center.

*Not for use with Indoor/Outdoor B&W camera with built-in modulator

Video Sequencer

Specifications	
Dimensions:	.7.4"H.x 4.75"W.x 2"D.
Power:	.12 VDC @ 300mA
Inputs:	.Four RCA video; Eight RCA left/right audio
Outputs:	.2 RCA video and 4 RCA left/right audio
Time interval:	.1-30 seconds, variable/adjustable
Signal to Noise Ratio:	.<1.2dB
Bandwidth:	.5MHz

FEATURES

- Inputs for up to four video cameras and audio sources.
- Automatic switching between cameras.
- 1–30 second variable time setting between cameras.
- RCA composite audio/video inputs and outputs.

Video Sequencer

Cat No.	Description
48213-CVS	Video Sequencer

Home Security Monitoring

Indoor/Outdoor B&W Camera with Built-in Modulator

The Indoor/Outdoor B&W Camera allows monitoring of front doors, back yards, and anywhere an extra eye is desirable. It is designed to withstand temperature and environmental extremes when mounted in a suitable location.* The camera uses a single wire for power and video making installation easy. Output is controlled by a dip-switch inside the camera housing. Permits 360° horizontal adjustment and 180° vertical adjustment.

*Recommended mounting is in a sheltered location such as under an eave or overhang and away from direct exposure to rain and snow.

*Not for use with video sequencer

Indoor/Outdoor B&W Camera with Built-in Modulator

Specifications	
Dimensions	.Base 5.5"x4.5"
Power	.12 VDC, 300mA
Output Connection	.F-Connector, 75 Ohm
Camera Lens	.3.6 mm
Resolution	.350+ lines
Minimum Illumination	.0.7 lux
Output Level	.27 dBmV
Output Frequency	.UHF 14-69, CATV 70-94, 100-125
Cable Type	.RG 59, RG6 or better

Indoor/Outdoor B&W Camera with Built-in Modulator

Cat No.	Description
48213-BMC	.Indoor/Outdoor B&W Camera with Built-in Modulator

RF Notch Filter

The RF Notch Filter is an essential element of Home Security Monitoring and Multi-Room Video. It blocks incoming cable TV channels 75–80, allowing the Media Center Modulator or Component Modulator to broadcast an in-house “security” or “entertainment” channel over the coaxial cable system without interference. The Notch Filter simply couples to the coaxial cable TV input on either a splitter or an active video distribution device. Once installed, it filters out six cable channels to make room for any home security or entertainment video application. It also blocks outgoing signals, such as cameras, from being broadcast outside the home.

RF Notch Filter

Specifications	
Dimensions/Weight:	.3"L.x .9"W.–2lbs
Type:	.Passive RF filter
Bandwidth:	.CATV channels 75-80
Input:	.Female F-connector
Output:	.Male F-connector

RF Notch Filter

47690-NFA	RF Notch Filter

Multi-Room Audio/Video

AUDIO/VIDEO DISTRIBUTION

Decora Media™ System

Distribute audio and video signals anywhere in the home using Category 5e cable and Leviton's Decora Media System (DMS). Send VCR, DVD library, CD, MP3 and Internet radio signals through up to 1,000 feet (300 meters) of cable with no discernible audio or video distortion and better performance than the more expensive, specialized "designer" cables.

FEATURES

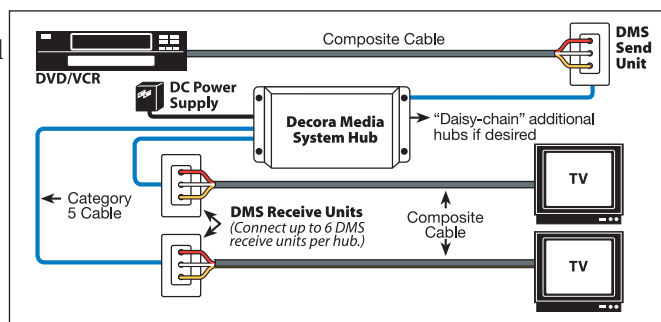

- Panel can be attached vertically or horizontally in Structured Media Enclosures.
- Cascade hub units to distribute audio/video signals to over 20 locations.
- Send and Receive units are equipped with RJ-45 jacks and 110 punchdown blocks for maximum flexibility in installation.
- Composite RCA inputs for connectivity directly from A/V source.
- Send and Receive units fit standard wallboxes and Decora wallplates.
- Advanced circuitry with automatic equalization streams analog audio and video signals over long distances with less distortion.
- Stereo audio input/output handles Dolby® ProLogic™ surround signals.
- Send VCR, DVD, cable TV, satellite and security camera signals through Category 5 cable.
- RJ-45 input for Send unit.

DMS is comprised of: a Send Unit for transmitting audio/video signals, a Receive Unit for receiving signals and a Media Hub for whole house distribution.

The DMS utilizes advanced active electronics to operate with several different topologies: a star wiring scheme, with peripheral components sending and receiving critical information via Send and Receive units and the centralized data-communications hub; a Hub-to-Receive model, where information is sent to the hub—and from the hub to remote Receive units; and a Point-to-Point model, where Send and Receive units are linked directly together.

Send and receive units run on 12VDC, hub runs on 15VDC and can be powered independently or through the Media Hub.

For Category 5 and 5e patch cords, see page 46.

Multi-Room Audio/Video

Multi-Room Infrared (IR) Repeater System

The IR Repeater System consists of three pieces: an IR Target, IR Emitter and a distribution block for distributing control signals to multiple emitters. The IR Target takes the signal from a remote control for an audio/video component, such as a DVD player or home theater receiver, and converts it to a low-voltage electrical signal for use over long distances and in different rooms. The electrical signal is converted back at the component to be controlled by the IR emitter. With such a set-up, a user can control a DVD player down in the family room from an upstairs bedroom, for example. The IR Repeater System is highly useful with multi-room audio/video distribution using the Component Modulator or Decora Media™ System.

The IR Target easily installs in a ceiling or wall, and connects with Category 5 cable to the IR Emitter. A separate IR Emitter is used for each controlled A/V component, through the distribution block in the Structured Media Enclosure. Distribution block (Cat. No. 47689-B) available separately.

FEATURES

- Low-profile, flush-mount Target design.
- Two signal connections and two power connections.
- Emitter features adhesive surface for easy installation on audio/video components.
- Distribution block for multiple Emitter configurations.
- DC power supply.

IR Repeater System

Specifications	
Dimensions:2"L.x 1"W.
Power:12V DC @200mA
Target Output:4 signal leads
Target Input:2 power leads (DC + and -)
Emitter Output:Infrared to control source component
Emitter Input:2 signal leads
Power Supply:12V DC @5mA

IR Repeater System

47621-MIE	C -Emitter
47603-110	D -1x9 Bridged Telephone Module, w/o bracket. Indiv. boxed unit pack, rack pack carton.

Multi-Room Audio/Video

FEATURES

- Connects up to six rooms/zones
- Convenient single-point connection for all speakers
- Combine with Decora® Strauss™ Transformer-Free-Volume™ Controls to control up to six locations of speakers from one amplifier or receiver*
- User-removable connectors facilitate installation
- Transformer-Free™ impedance-matching design ensures linear frequency response, signal integrity and high power handling capacity

***IMPORTANT:** The Spec-Grade Sound System Matching Module (SGAMP-00W) and the Decora® Strauss™ Transformer-Free-Volume™ Control (SGVST-00W) are not intended for use with any Leviton/Sound by Bose systems.

SPEC-GRADE SOUND™ SYSTEM MATCHING MODULE WITH AUTOSURGE™ TECHNOLOGY

The Spec-Grade Sound System Matching Module is used with Leviton's Spec-Grade Sound System to match the impedance of all speakers, zones and volume controls automatically at the central wiring point where they converge to interface with the amplifier. The unit also provides another layer of AutoSurge™ circuit protection technology, complementing the AutoSurge protection built into every Spec-Grade Sound speaker. This protects the speakers from potentially damaging transients, ensuring the greatest system reliability possible.

Spec-Grade Sound System Matching Module

Specifications	
Dimensions:2.57 in (68.6 mm) H x 6.38 in (161.9 mm) W x 5.38 in (136.5mm) D
Mounting Location:Mounts in Leviton Structured Media™ Centers
Power Handling:150W RMS per channel/225W peak
Frequency Response:10Hz-40kHz, +/- .5dB
Wire Gauge:Detachable cable connectors are compatible with all standard speaker wire sizes (14-18 gauge)

Spec-Grade Sound System Matching Module

Cat No.	Description
SGAMP-000	Spec-Grade Sound™ System Matching Module With AutoSurge™ Technology

FEATURES

- Connects seven rooms/zones
- Convenient single-point connection for all speakers
- Combine with Decora® SoundShaper™ Transformer-Free™ Impedance-Matched Volume Control (LBVSS) to control up to seven zones of speakers from one amplifier or receiver*
- User-removable connectors facilitate installation
- Independent channel grounds for safe amplifier connection

***IMPORTANT:** The AutoSurge™ 7-Zone Multi-Room Audio Distribution Module (LBASP) and the electronically matched Decora® SoundShaper™ Transformer-Free™ Volume Control (LBVSS) are designed for use only with loudspeakers and distribution devices specified in the Leviton/Sound by Bose system. Use with any other components may cause a component mismatch which could result in compromised performance and system damage, and void your warranty.

LEVITON®/SOUND BY BOSE® AUTOSURGE™ 7-ZONE MULTI-ROOM AUDIO DISTRIBUTION MODULE

To ensure that the entire audio chain has no weak links, each Leviton/Sound by Bose multi-room music system is networked using the exclusive Leviton AutoSurge™ 7-Zone Multi-Room Audio Distribution Module. This unit facilitates connectivity for up to 7 rooms/zones and makes the system more reliable with two-stage speaker power protection to guard against speaker damage from overdriving. Each room has a preset level for AutoSurge activation calibrated for the Bose LB32S indoor speakers. The AutoSurge module activates only when harmful voltage transients are present, such as those produced when a system is significantly overdriven, resetting itself automatically shortly thereafter. The module mounts in Leviton Structured Media™ Center and provides a convenient single connection point for up to 7 rooms/zones, including a separate switched outdoor zone terminal.

*Note each zone can have a maximum of 2 pairs of speakers

Leviton®/Sound by Bose® AutoSurge™ 7-Zone Multi-Room Audio Distribution Module

Multi-Room Audio/Video

AUDIO/VIDEO DISTRIBUTION

1x6 Passive Audio Module

Easy, centralized audio system distribution module connects up to six pairs of speakers from an entertainment center or amplifier. Just run speaker wire to this passive bridging module and fill multiple rooms with high-quality music or sound. Supports up to six pairs of speakers; ideal for multi-room sound systems. Note: To ensure a correct impedance match with an amplifier, only use the passive audio module with impedance matched volume controls or the Decora Digital Chopin Volume Control.

FEATURES

- Supports up to six pairs of speakers.
- Combine with Decora Volume Controls to control up to six pairs of speakers from one amplifier or receiver.
- Parallel connection scheme insures the best sound quality.
- User-removable connectors facilitate installation.
- Connects with standard fire-rated speaker wire.

Multi-Location Stereo

COMPOSER SERIES AUDIO AND SPEAKER CONTROLS

Leviton's Composer Series controls are built to a single quality standard, which means system designers can specify them for any distributed sound application with total confidence. Leviton's Chopin Digital Volume control uses the same heat-dissipation technology used on the space shuttle and resistive switching to achieve ruler-flat frequency response.

On the rotary analog controls, tapped auto-transformer design provides a stable interface between high-current amplification and speakers of virtually any type while resisting contamination from dust and dirt.

All analog audio power ratings are UL referenced. All volume controls feature screw connectors for long-term connection integrity.

FEATURES

- Connects to Interface Module with a single RJ-45 connection. No direct speaker/amplifier connections required at the controller.
- Microprocessor-controlled relays for silent switching.
- Provides impedance matching with speakers from 4–16 Ohms.
- Terminates all amplifier and speaker connections using high-quality audio connection block.
- Digital, transformer-free design uses aerospace-quality ceramic resistors for proper heat dissipation and superior performance.
- Each audio zone requires one Digital Volume Control module.
- Each Digital Volume Control module can support up to three volume control units.
- Each Digital Volume Control module can control up to 4 pairs of speakers.
- Tap mute feature activated when center of rocker panel is pressed.

Decora Digital™ Chopin™ Volume Control

Fill a home with high-quality audio at the touch of a button, replacing traditional transformers and rotary controls with this advanced interface module and one-touch Decora Chopin™ Rocker-Switch Wall Unit. Attractive Decora styling and transformer-less design bring simplicity and superior sound-quality to this advanced audio delivery system. The Volume Control mounts in a standard wall box or low-voltage mounting bracket and connects via Category 5 cable to the Interface Module in the Structured Media Enclosure. Decora Chopin Wall Units are a perfect match with Decora Mural™ lighting controls, fit in all Decora wallplates and accommodate up to 4 pairs of speakers if wired in a series/parallel configuration.

Decora Digital Volume Control Systems

Specifications	
Peak RMS Power Rating:	.200 Watts per channel
Continuous Power Rating:	.100 Watts RMS per channel

COMPOSER SERIES ANALOG AUDIO CONTROLS

Brahms™ Stereo Volume Controls—75 Watt Audio

The 75 Watt Brahms series (25 Watts RMS) of volume controls is ideal for moderate power installations in the home and for use with dedicated multi-room amplifiers and mini-systems. The units accommodate 4, 8 or 16 Ohm speakers and amplifiers up to 75 Watts. All controls facilitate impedance matching.

Attenuation: -34 dB in 12 steps. Attenuator Type: Tapped auto transformer. Power Rating: UL Listed @ 75 Watts audio, 25 Watts RMS continuous. Frequency Response: 35 Hz–20 kHz. Screw type connections, 12 position rotary switch.

Decora® Brahms™ Stereo Volume Controls

Control stereo volume from convenient wall-mounted location.

Cat No.—White	Cat No.—Almond	Description
40841-DW	40841-DA	A —Decora® Brahms Stereo Volume Control, 75 Watt, 25 Watt RMS with insert, knob and plate. Boxed unit pack, rack pack carton

Decora® Brahms Stereo Volume Control with ON/OFF Switch

Cat No.—White	Description
40905-25W	B —Decora® Brahms Stereo Volume Control, 75 Watt, 25 Watt RMS with insert, knob and plate. Boxed unit pack, rack pack carton

COMPOSER SERIES ANALOG AUDIO CONTROLS

Strauss™ Stereo Volume Controls—216 Watt Audio

The 216 Watt Audio (72 Watt RMS) Strauss volume control series is ideal for higher power installations in the home, and for use with home theater receivers and separate power amplifiers. Their heavy-duty autoformer construction is designed to resist saturation and degradation even after years of high-volume use while maintaining signal purity. The units accommodate 4, 8 or 16 Ohm speakers and amplifier systems rated up to 216 Watts. All controls facilitate impedance matching.

Attenuation: -34 dB in 12 steps. Attenuator Type: Tapped auto transformer. Power Rating: UL Listed @ 216 Watts Audio, 72 Watts RMS continuous. Frequency Response: 35 Hz–20 kHz. Screw type connectors, 12 position rotary switch.

Decora® Stereo Volume Control with ON/OFF Switch

Convenience of ON/OFF, as well as volume control.

Cat No.—White	Description

Decora® Stereo A/B Selector Switch

2 stereo source inputs, 1 stereo speaker pair output. Provides the ability to choose between two separate sources, such as a receiver or an amplifier.

Cat No.—White	Description
40911-DW	D —Decora® Stereo A/B Selector Switch, 900 Watt audio, 300 Watt RMS. Boxed unit pack, rack pack carton

Multi-Location Stereo

FEATURES

- Precisely matched to the Bose® speakers used in the Leviton/Sound by Bose system
- Decora slide control with precision 12-position switch (including fully OFF position)
- SoundShaper™ circuit technology (patent pending) deliver rich, full sound at any volume level in any room
- Aerospace-grade Cermetile resistors replace conventional autoformers to maintain audio signal purity
- Automatic impedance matching for trouble-free installation
- Detachable cable connector is compatible with all standard speaker wire (14-18 gauge)

***IMPORTANT:** The electronically matched Decora® SoundShaper™ Transformer-Free™ Volume Control (LBVSS) is designed for use only with loudspeakers and distribution devices specified in the Leviton/Sound by Bose system. Use with any other components may cause a component mismatch that could result in compromised performance and system damage, and void your warranty.

FEATURES

- Decora slide control with precision 12-position switch (including fully-OFF position)
- Transformer-Free™ volume control delivers rich, full sound at any volume level in any room
- Aerospace-grade Cermetile resistors replace conventional autoformers to maintain audio signal purity
- Detachable cable connector is compatible with all standard speaker wire (14-18 gauge)
- Not impedance matched

***IMPORTANT:** The Decora Strauss Transformer-Free Volume Control (SGVST-00W) is not intended for use with any Leviton/Sound by Bose systems.

LEVITON®/SOUND BY BOSE® DISTRIBUTED AUDIO VOLUME CONTROL

Decora® SoundShaper™ Impedance-Matched Transformer-Free™ Volume Control

The Decora SoundShaper™ Volume Control is precisely matched to the performance characteristics of the Bose speakers offered in Leviton/Sound by Bose Distributed Audio Systems. Its transformer-free resistive design replaces conventional autoformer-based volume controls typical of multi-room systems that can contribute to signal degradation in sound quality by filtering extremes of bass and treble. High-end Cermetile audio-grade resistors deliver ruler-flat frequency response across the entire audible sound range as well as high power-handling capability. SoundShaper automatically adjusts bass and treble to make up for human hearing deficiencies at low volume levels, ensuring that the music sounds rich and full at all levels. It also speeds up installation by providing automatic impedance matching between all attached speakers and the system's amplifier.

Decora® SoundShaper™ Impedance-Matched Transformer-Free™ Volume Control

Specifications	
Speaker Impedance:2-16 Ohms (nominal 8 Ohms)
Power Handling:200W peak/100W RMS
Frequency Response:20Hz-20KkHz +/- 1dB (with SoundShaper circuit "out")
Dimensions:4.06" (103.1mm) H x 1.32" (33.5mm) W x 2.5" (63.5mm) D
Mounting:Standard single-gang design with a mounting depth of 2.5"
Wire Gauge:Detachable cable connectors are compatible with all standard speaker wire sizes (14-18 gauge)
Color:White (Optional color change kits available for Ivory/Almond)

SGVCK-IA	Color change kit converts to Ivory or Almond

SPEC-GRADE SOUND™ SYSTEM AUDIO VOLUME CONTROL

Decora® Strauss™ Transformer-Free™ Volume Control

The Decora Strauss transformer-free resistive design replaces conventional autoformer-based volume controls typical of multi-room systems that can contribute to signal degradation in sound quality (muffled sound). Because it presents the amplifier with a purely resistive load at any volume level, the Decora Strauss Transformer-Free Volume Control is ruler-flat across the entire audio spectrum (and well beyond it). Moreover, because it can't "saturate" like a conventional control, it can instantaneously handle the full peak output power of any consumer-grade amplifier on the market today.

Decora® Strauss™ Transformer-Free™ Volume Control

Specifications	
Speaker Impedance:2-16 Ohms (nominal 8 Ohms)
Power Handling:200W peak/100W RMS
Frequency Response:20Hz-20KkHz +/- 1dB
Dimensions:4.06" (103.1mm) H x 1.32" (33.5mm) W x 2.5" (63.5mm) D

SPEAKERS

Spec-Grade Sound™ Indoor and Outdoor Speakers

Leviton's new Spec-Grade Sound™ indoor and outdoor speakers take installed home audio to a new level in both technical innovation and value. With features and technologies equal to the highest-rated brands, they offer identical performance but at a price that works for the contracting and residential construction business... designer sound without the designer price tag.

The Spec-Grade Sound™ indoor and outdoor speakers can be used with Leviton's innovative, exclusive Decora® Strauss™ Transformer-Free™ Volume Control (See Page 27) and Leviton's Spec-Grade Sound™ System Matching Module With AutoSurge™ Technology (See Page 24) to form a complete system.

All Leviton Spec-Grade Sound™ indoor speakers incorporate exceptionally strong, light and rigid AeroNylon tweeters and Kevlar®-composite woofers for exceptional clarity, detail and impact. They come with built-in AutoSurge protection to safeguard the speakers from possible damage due to overdriving. The outdoor/utility speaker is constructed of weather-resistant materials inside and out.

Kevlar is a registered trademark of E.I. du Pont de Nemours and company

LEVITON®/SOUND BY BOSE® SPEAKERS

Ceiling Speaker (Cat. No. LB32S)

Syncom® computer-tested Bose HVC (helical voice coil) 4.5-inch driver handles high power while accurately tracking every musical nuance and detail for wide dispersion, smooth sound distribution throughout a listening area. Acoustically optimized, ported-type sub-enclosure to eliminate sound degradation from speaker/ceiling cavity interaction (UL 2043 Compliant for use in air handling spaces). Provisions for optional conduit wiring and safety cable installation should that be desired. Ceiling Speaker installation is simplified by available Adapter Bracket for sheetrock and Rough-in Bracket for place-holding during preconstruction. Sensitivity: 89dB SPL @ 1Watt/1 Meter, Power Handling: 32W RMS (Compatible with amplifiers rated up to 80 Watts/channel), Impedance: Nominal 4 Ohms/Minimum 4 Ohms, Dimensions: 7.19" (182.6mm) W x 7.13" (181.1mm) D.

Cat No.—White ONLY	Description
LB32S-000	A - 4.5-inch In-Ceiling Speaker

Ceiling Speaker Adapter Bracket (Cat. No. LB32B)

Simplifies installation with 2-piece mounting installation, adjustable "doglegs" that clamp to speaker and ceiling material and easy trim ring installation with snap catch. High quality ABS construction. Paintable to match décor. Dimensions: Outer Diameter: 10.71" (271.8mm); Inner Diameter: 6.14" (156mm); Grill Diameter: 7.71" (195.8mm); Trim Ring Depth: 1.01" (25.7mm)

Cat No.—White ONLY	Description
LB32B-000	B - Adapter Bracket for drywall installation

Ceiling Speaker Rough-In Bracket (Cat. No. LB32P)

Acts as a placeholder during pre-construction, Dimensions: 40.08" (101.8cm) W x 12.00" (30.48cm) H x .30" (.76cm) D

Cat No.—White ONLY	Description
LB32P-000	C - Rough-in Bracket for place-holding during pre-construction

Outdoor/Environmental Speaker (Cat. No. LB32E)

Syncom® computer-tested Bose HVC (helical voice coil) 4.5-inch driver with polymer-composite cone and silicone-coated surround for outdoor use. Weather-protective high-impact polystyrene, acoustically-optimized, ported-type enclosure and nickel-plated connections to withstand all weather conditions. Sensitivity: 86dB SPL @ 1Watt/1 Meter, Power Handling: 32W RMS, Impedance: Nominal 4 Ohms/Minimum 4 Ohms, Environmental Conditioning: Humidity: 100% relative; Temperature: -22 to 140 F (-30 to 60 C), Dimensions: 6.0" (152.4mm) H x 9.0" (228.6mm) W x 5.6" (142.2mm) D.

Home Theater

LEVITON®/SOUND BY BOSE® HOME THEATER SPEAKER PACKAGES

Leviton/Sound by Bose Home Theater Speaker Packages

The Leviton/Sound by Bose Home Theater Speaker Packages are based on the unique Bose® Acoustimass® Home Theater Speaker System that features a hidden, amplified Acoustimass module for reproducing low frequencies. The Bose Virtually Invisible® speaker system design results in exciting, high-fidelity music and sound effects that seem to come only from the extremely small and elegant cube speakers (LBAM6) or speaker arrays (LBAM1) that handle the rest of the performance. Adaptive Energy Summing® electronics and patented integrated signal processing ensure that the bass from all channels is reproduced with full impact. The adjustable Direct/Reflecting® cube arrays in the LBAM1 Home Theater Speaker System reproduce the balance between indirect and direct sound that occurs during a live event, increasing the listener's sense of sonic realism. All Leviton/Sound by Bose Home Theater Packages are designed to be exceptionally craft and user friendly, making world-renowned Bose Acoustimass system technology truly a part of the home with Leviton's innovative installation package.

LBAM6 Leviton/Sound by Bose Home Theater Package

The LBAM6 System is recommended for small and mid-sized rooms up to 250 square feet. Compatible with 5.1 digital and analog surround sound AV receivers/amplifiers rated up to 150 Watts/channel RMS and rated from 4 to 8 ohms. LBAM6 Module 8.13" (20.65cm) W x 16.33" (41.48cm) H x 22.33" (56.72cm) D has 5.25" (13.3cm) high-excursion woofer. Each cube speaker (total of six cubes with system) 3.0" (7.62cm) W x 3.10" (7.87cm) H has (1) 2.5" (6.4cm) wide range driver. Color availability: Black

LBAM1-000	F - LBAM1 Leviton/Sound by Bose Home Theater System

Wall Brackets (Cat. Nos. LBUB2 & LBWB2)

Designed for wall mounting of the cube speakers (LBAM6) or speaker arrays (LBAM1). Dimensions: 2.60" (66mm) W x 2.44" (62mm) H. Color availability: Black (LBUB2) and Arctic white (LBWB2)

Cat No.	Description
LBUB2-000	Wall Bracket, Color: Black
LBWB2-000	Wall Bracket, Color: White

Leviton Home Theater Interface Kit (Cat. No. LBHTK)

Provides interface for the Home Theater Speaker Systems between the Acoustimass module and the cube speakers or speaker arrays for in-wall installation. Provides AutoSurge™ protection for the cube speakers/speaker arrays. Consists of 3 separate parts: 1. Wallplate with one 15-pin connector and five RCA connectors; 2. Interface cable with five RCA to RCA cables and one 15-pin to 15-pin cable under one cable jacket (each end labeled with text and color-coded to match Bose system); and five blue rough-in brackets for the cube speakers or speaker arrays that are 2.0" (50.8mm) W x 3.75" (95.2mm) H.

Cat No.	Description

QuickPort® Modules and Wallplates

QuickPort® Snap-In Connectors

The cornerstone of our superior copper structured cabling systems—GigaMax™ 5e, Category 5 and Voice Grade Snap-In Connectors feature dual-color-coded wiring labels with both T568A and T568B wiring patterns for dual flexibility in a single connector, plus fast, accurate termination of station wiring. All connectors meet or exceed industry standards. All category-rated connectors are fully compliant with published TIA-568 and 570 requirements. All other QuickPort connectors are UL certified, fully compliant with NEC® Article 800, and meet FCC Part 68. Communication wiring interfaces can be tailored to support the user's exact requirements for voice, data, video, audio and security applications.

QuickPort® Snap-In Connectors Colors

Your choice of 13 connector colors—the largest selection in the industry— provides many options for color-coded port ID.

QuickPort® Modules and Wallplates

QuickPort® Snap-In Connectors for Audio/Video Cable Types

These F-type bulkhead modules are for TV, VCR, DVD, satellite and home theater applications where RG6 coaxial cable is used (“F” plug termination required). Each unit pack includes one female-to-female, front and rear screw-on connector. They require no soldering and connections can be made with standard industry tools.

Cat No.– Ivory	Cat No.– White	Cat No.– Almond	Description

QuickPort® RCA-110 Connector

Leviton’s RCA-110 QuickPort® Connector transmits audio/video signals over standard Category 5, 5e or 6 UTP cabling, and features 110-style IDC punchdowns on the rear for simple, fast installation. This simple connector is ideal in environments (like classrooms) that have frequent adds, moves and changes, or where coaxial cable runs aren’t an option. The front of the connector features a gold-plated contact surface for a better connection, and its oversized cavity readily accommodates male RCA plugs. To indicate different media types, connector inserts are offered in four colors, including Right Line Level Audio (red), Left Line Level Audio (white), Composite Video (yellow) and PCM Audio (orange). Part of the QuickPort family of connectors, Leviton’s RCA-110 Connectors are compatible with any QuickPort housing or panel.

*Refers to Housing Color: White(W), Ivory (I), Almond (A), Grey (G), Black (E)

QuickPort® Modules and Wallplates

QuickPort® Snap-In Connectors for a Variety of Applications

These various connectors can be used with UTP copper cable and audio/video cable types to create a customized multi-media center in your single- or dual-gang wallplate. They require no soldering and connections can be made with standard industry tools.

FEATURES

- Each modular jack's patented "cutting ledge" trims the wire during termination when used with the high impact punchdown tool.
- Audio and video connectors require no soldering; connections can be made with easy-to-use tools.
- All jacks feature color-coded wiring labels for fast, accurate terminations.
- F-Type, RCA, Binding Posts, BNC and Banana jacks are available gold-plated. F-Type, and BNC jacks are also available nickel-plated.
- Modules are listed in accordance and fully compliant with NEC Article 800.
- Category 5 and 5e jacks are certified to meet TIA/EIA-568-A and FCC Part 68 requirements.

*See page 51 for compression connector tool

QuickPort® Modules and Wallplates

QuickPort® Flush-Mount Wallplates

Flush mount wallplates offer field-configurability in an attractive single-piece housing. All versions include color-matched mounting screws.

Note: Midway size plates are also available in plastic and high-impact nylon.

QuickPort® Modules and Wallplates

QuickPort® Multimedia Wallplate Inserts

Bring voice, data, audio and video together in one wallplate. Decora multimedia wallplate inserts match multimedia outlets to wallplates for electrical or lighting systems. Mix and match QuickPort Snap-In modules in combinations of two, three, four or six. Compatible with the full line of standard Decora wallplates, Decora Plus snap-on wallplates with hidden mounting screws and Leviton sectional wallplates (sold separately). The insert fits standard NEMA wallboxes and includes sturdy steel nuts on mounting tabs to ensure secure wallplate mounting without stripping.

4x4 Breakout Module

This unique telephone distribution module provides easy plug-and-play access to all incoming lines by using one outlet connector. The 4x4 Breakout Module allows you to divide an incoming four-line telephone connection into four individual lines for use on one- or two-line output connectors. The module provides six, eight-position RJ-45 voice grade connectors. This module is for use on 568A wiring sequenced systems.

Custom Video, Cabling & Distribution

CUSTOM INSTALLATION PRODUCTS

Leviton Custom Installation products are designed for large-premise and retrofit applications, where a high degree of customization is required and installation space may be at a premium. Custom Video includes multi-room distribution for making the most out of an existing cable infrastructure. Cable Distribution offers the same voice & data communications connection and patching products proven in demanding commercial applications. Optical Fiber is based on Leviton's renowned Thread-Lock® technology, the first "residential-friendly" fiber termination system through its time-saving installation procedure and reusable design.

CUSTOM VIDEO

DSS 75 Ohm and 2.0GHz Combiner/Diplexer with DC Blocking

Combining: one antenna/cable TV input and one DSS 2.1 GHz input, to one combined output. Diplexing: splits out a combined sat & cable TV signal for use at TV.

Cat No.	Description
40856-DSS	A— DSS 75 Ohm and 2.0GHz Combiner/Duplexer, gold plated, carded unit pack

DSS Signal Amplifier

Provides 12 dB in-line signal amplification.

Cat No.	Description
40866-DSS	B— DSS Signal Amplifier, gold plated, carded unit pack

Coaxial Surge Suppressor

Maximum surge current of 5000 Amps. 0.3 dB maximum insertion loss at 5 MHz–1000 MHz.

Cat No.	Description
47690-6S	C— Coaxial Surge Suppressor, carded unit pack

Splitters and Termination Cap for F-Connector Jacks

Splits 75 Ohm CATV signal into 2, 3, or 4 signals. Standard F-connector input and outputs. Die-cast body is configured with mounting tabs and ground screw.

2-, 3- and 4-Way Splitters

Cat No.	Description
C5002-CP C5002	D— 2-Way Splitter, contractor pack, 12/box 2-Way Splitter, carded unit pack
C5002-GO 40987-2	2-Way Splitter, gold plated, carded unit pack 2-Way Splitter, gold plated, individual polybag pack
C5003 40987-3	E— 3-Way Splitter, carded unit pack 3-Way Splitter, gold plated, individual polybag pack
C5004 C5004-GO 40987-4	F— 4-Way Splitter, carded unit pack 4-Way Splitter, gold plated, carded unit pack 4-Way Splitter, gold plated, individual polybag pack
40984	G— Termination cap for F-connector jacks (bag of 25)

Custom Video, Cabling & Distribution

Push-On Male F-Connectors for 75 Ohm Coaxial Cable

Available in Quick and Universal styles, Leviton's Push-On F-Connectors are an easy-to-use, cost-effective solution for termination of 75 Ohm RG59, RG-6 and Quad coaxial cable. Innovative Universal push-on rubber cap requires no crimping tools. F-connector style adds metal collar to the Universal rubber cap for fast and easy, adds, moves and changes. Strip tool is included.

Cat No.	Description
40985-HPC	A- Universal F-Connector (bag of 100)
40985-HPM	B- Quick F-Connector (bag of 20)

Twist-On Male F-Connectors

Terminate 75 Ohm coaxial cable with a twist-on male F-connector. No crimping tools required.

Cat No.	Description
40985-TW9 C5203 C5203-G C5203-CP	C- Twist-On F-Connector for RG-59 Bulk polybag pack, 100 connectors per polybag 2 per carded unit pack 2 per carded unit pack, gold plated Contractor pack, 25 connectors per unit, rack pack carton
40985-TW6 C5008 C5008-G C5008-CP	D- Twist-On F-Connector for RG-6 Bulk polybag pack, 100 connectors per polybag 2 per carded unit pack 2 per carded unit pack, gold plated Contractor pack, 25 connectors per unit, rackpack carton

In-Line Splice Coupler

Double female F-connector for use in splicing two cable runs together. Attaches to male F-connectors.

Cat No.	Description
40986	E- In-line splice coupler (bag of 100)

Note: Retainer nut for wallplate mounting not provided.

Residential Tool Kit

Residential Tool Kit provides everything needed to install coaxial cable and UTP wire in residential or small office installations. The kit comes with everything you need, including a High-Impact Punch-Down Tool with 110 Blade, a 2 Step Coaxial Cable Stripper, an EZ-RJ45™ Crimp Tool with 10 EZ-RJ45 connectors, a Round Wire Cable Cutter, a UTP Stripper and a 6-in-1-Head Screwdriver.

Cat No.-Ivory	Description
40812-RTK	F- Residential Tool Kit

High-Impact Wire Punchdown/Termination Tool

Versatile punchdown/termination tool makes reliable connections on a variety of wire termination blocks. Its adjustable impact setting enables wires to be terminated with less effort than with other impact tools.

Cat No.	Description
49553-814	G- High-Impact Wire Punchdown/Termination Tool (blades sold separately)
49553-110	110 IDC Blade
49553-66	66 Clip Blade

Coaxial Stripping Tool

Designed for easy, one-step cable stripping, this contractor-grade stripping tool has an adjustable blade that adapts to different cable sizes; RG-6, RG-58 and RG-59.

Cat No.	Description
C5914	H- Coaxial stripping tool

Custom Video, Cabling & Distribution

DSS 2-Way Splitter

Connects one input to two outputs. All ports 2.1 GHz

Cat No.	Description
40867-DSS	A– DSS 2-Way Splitter, gold plated, carded unit pack

DSS 4-Way Splitter

Connects one input to four outputs. All ports 2.1 GHz.

Cat No.	Description
40868-DSS	B– DSS 4-Way Splitter, gold plated, carded unit pack

RG6 Quad Shield Cables

Digital cable, gold plated "F" plugs.

Cat No.	Description
40871-25W	C– 25' Quad shield cable, gold plated, carded unit pack
40871-50W	D– 50' Quad shield cable, gold plated, carded unit pack
40871-CW	E– 100' Quad shield cable, gold plated, carded unit pack

Coax Cable Clips

Nail-in clips to manage RG-59 or RG-6 coaxial cable.

Cat No.–White	Cat No.–Black	Description
C5811	C5812	F– Coax Cable Clips
C5811-WCP	_____	10 per carded unit pack Contractor pack, 50 clips per unit, rack pack carton

Video Adapter—1 F-Connector to 1 RCA Plug

Converts RCA plug to 75 Ohm F-connector connection.

Cat No.	Description
C5229	G– Video Adapter—1 "F" Jack to 1 RCA Plug

RCA to F-Type Video Adapter—1 F Jack to 1 RCA Jack

Used for connecting a 75 Ohm female jack to RCA plug connection.

Cat No.	Description
C5205	H– RCA to F-Type Video Adapter, carded unit pack

Custom Video, Cabling & Distribution

75-Ohm Push-On Connector

Converts 75 Ohm twist-on connection to 75 Ohm push-on connection.

Cat No.	Description
C5235	A- Push-on connector, 2 per carded unit pack

75-Ohm In-Line Cable Connector

Connects two cables that terminate in F plugs. Includes mounting nut.

Cat No.	Description
C5259	B- In-line cable connector, 2 per carded unit pack
C5259-GO	In-line cable connector, gold plated, 2 per carded unit pack

Indoor Matching Transformer

Converts 75-Ohm incoming signal to 300 Ohm.

Cat No.	Description
C5052	C- Indoor matching transformer, carded unit pack
C5052-GO	Indoor matching transformer, gold plated, carded unit pack

Outdoor Matching Transformer

Converts 300-Ohm incoming signal to 75 Ohm. Includes waterproof slip-on boot.

Cat No.	Description
C5053	D- Outdoor matching transformer, carded unit pack

Push-On Matching Transformer

Converts 300-Ohm incoming signal to 75 Ohm.

Cat No.	Description
C5055	E- Converts 300 Ohm incoming signal into 75 Ohm.

Deluxe Shielded Composite A/V Cable

High-quality wire and extra shielding. Gold-plated RCA plugs with strain-relief. Permits connection between A/V components.

Cat No.-Black	Description
C5822-GO	F- Stereo Dubbing Cable, carded unit pack

Custom Video, Cabling & Distribution

6' Composite A/V Cable

High-quality wire and extra shielding. Permits connection between A/V components.

Cat No.–Black	Description
C5822	A– 6' Stereo Dubbing Cable, carded unit pack

6' Composite A/V Cable, Gold-Plated

Molded gold-plated RCA plugs with strain-relief. Permits connection between A/V components.

Cat No.–Black	Description
C5856-GO	B– 6' Stereo Dubbing Cable, gold plated, carded unit pack

RCA Coax Cable

Cat No.–Black	Description
C5852-6GO	C– 6' RCA Coax Cable, gold plated, carded unit pack
C5852-12G	D– 12' RCA Coax Cable, gold plated, carded unit pack

6' S-Video Cable

Male-to-male plug. Designed for use with Super VHS video systems. Connects the SVHS TV to the SVHS VCR.

Cat No.–Black	Description
C5853-6	E– 6' SVHS Cable, carded unit pack

In-Line RCA Coupler

Connects two RCA plug audio cables together in-line.

Cat No.	Description
C5255	F– In-Line RCA Coupler, carded unit pack, nickel

RCA Y Adapter, 1 RCA Jack to 2 RCA Plugs

Splits RCA audio cable into two cables when the two cables have a plug on one end and jack on the other.

Cat No.–Black	Description
C5402	G– RCA Y Adapter, carded unit pack

Custom Video, Cabling & Distribution

RCA Y Adapter, 1 RCA Plug to 2 RCA Jacks

Splits RCA audio cable into two cables when new cables have plugs on one end and jacks on the other end or splits audio signal out of amplifier.

Cat No.—Black	Description
C5405	A— RCA Y Adapter, carded unit pack

Stereo Shielded Cable, 2 RCA Plugs to 2 RCA Plugs

Red and black plugs on both ends.

Cat No.—Black	Description
C5451-3	B— 3' Shielded Stereo Cable, carded unit pack
C5451-6	C— 6' Shielded Stereo Cable, carded unit pack
C5451-6GO	D— 6' Shielded Stereo Cable, carded unit pack, gold-plated plugs
C5451-12	E— 12' Shielded Stereo Cable, carded unit pack

RCA Patch Cable—4 RCA Plugs to RCA Plugs

Yellow, white, red and black plugs on both ends.

Cat No.—Black	Description
C-5454-3	F— Black Cable with Color-Coded Plugs (Y-W-R-B)

18/2 AWG Speaker Wire (not rated for in-wall use)

Cat No.—Clear	Description
X3301-25C	H— 18/2 AWG Speaker Wire, 25 ft., sleeve unit pack in carton
X3301-50C	I— 18/2 AWG Speaker Wire, 50 ft., sleeve unit pack in carton
X3301-100	J— 18/2 AWG Speaker Wire, 100 ft., sleeve unit pack in carton

14/2 AWG Speaker Wire (not rated for in-wall use)

Cat No.—Clear	Description
X3324-25C	K— 14/2 AWG Speaker Wire, 25 ft., sleeve unit pack
X3324-50C	L— 14/2 AWG Speaker Wire, 50 ft., sleeve unit pack.
X3324-100	M— 14/2 AWG Speaker Wire, 100 ft., sleeve unit pack

Custom Video, Cabling & Distribution

Category 5 Patch Cords

Leviton Category 5 patch cords are compliant with the latest standards, including TIA/EIA TSB-95, meeting and exceeding a full range of patching performance requirements. All have superior quality construction to maintain the integrity of signal transmission at the cross-connect, which is critical to the performance of the entire cabling system. They can be used to connect a number of SMC Modules, including the Decora Media System, 10/100 Switch, Internet Gateway and Category 5e Voice and Data Module.

Cat No.	Description
47620-1W	A – 1 ft Patch Cord, Individual polybag pack, white only
52455-3* 52454-3R 47620-3W	B – 3 ft Patch Cord Individual polybag pack Carded unit pack, rack pack carton, blue only Individual polybag pack, white only
52455-7* 52454-7R	C – 7 ft Patch Cord Individual polybag pack Carded unit pack, rack pack carton, blue only
52455-15* 52454-15R	D – 15 ft Patch Cord Individual polybag pack Carded unit pack, rack pack carton, blue only

*Colors: White(W), Red(R), Yellow(Y), Green(G), Blue(L), Grey(S), Black(E)

GigaMax™ Category 5e Patch Cords

Leviton GigaMax Category 5e patch cords meet the very latest TIA/EIA TSB-95 guidelines for supporting 1000 Base-T gigabit applications. Superior quality guarantees no-risk data transmission with soaring headroom over industry guidelines. They can be used to connect a number of SMC Modules, including the Decora Media System, 10/100 Switch, Internet Gateway and Category 5e Voice and Data Module.

Cat No.	Description
5G455-3* 5G454-3R	E – 3 ft Patch Cord Individual polybag pack Carded unit pack, rack pack carton, yellow only
5G455-5*	F – 5 ft Patch Cord, Individual polybag pack
5G455-7* 5G454-7R	G – 7 ft Patch Cord Individual polybag pack Carded unit pack, rack pack carton, yellow only
5G455-15* 5G454-15R	H – 15 ft Patch Cord Individual polybag pack Carded unit pack, rack pack carton, yellow only

*Colors: White(W), Red(R), Yellow(Y), Green(G), Blue(L), Grey(S), Black(E)

4- or 8-Conductor Telephone Patch Cords

Flat cordage patch cord used to connect the Telephone Distribution Module to the Category 5 Voice and Data Module, providing a dial tone instantly to any room of the home, with easy adds, moves and changes.

Cat No.	Description
42400-G	I –Flat Cordage Patch Cord, 7" long
42400-8FG	J –8P8C Patch Cord, 8" long

Custom Video, Cabling & Distribution

EZ-RJ45 Connectors and Crimp Tool

Connectors and EZ-RJ45 Crimp Tool provide quick, cost-effective UTP wire terminations. The high-quality connectors, terminated with our EZ-RJ45 Crimp Tool, feature openings that allow wires to be inserted and extended out the front for increased performance, wire sequence verification, and no wasted connectors, crimps, or bad terminations.

Cat No.	Description
47613-EZC	A —EZ-RJ45 Connectors (bag of 50)
47613-EZR	EZ-RJ45 Connectors (10 per clamshell)
40989-RCT	B —EZ-RJ45 Crimp Tool

1-Piece and 2-Piece Crimp-On F-Connector

Terminates 75 OHM coaxial cable with crimp-on male F-connector. A crimping tool is required. Comes in either a 2-piece version with separate crimp ring, or a 1-piece version with crimp ring attached. Both RG-59 and RG-6 versions available

Cat No.	Description
40985-Q6	A —One-Piece Crimp-On F-Connector for RG6 Quad Shield Bulk polybag pack, 100 connectors per pack
40985-1P9 C5307 C5307-G C5307-CP	C —One-Piece Crimp-On F-Connector for RG59 Bulk polybag pack, 100 connectors per pack 2 per carded unit pack 2 per carded unit pack, gold plated Contractor pack, 25 connectors per unit, rack pack carton
40985-1P6	D —One-Piece Crimp-On F-Connector for RG6 Bulk polybag pack, 100 connectors per pack
40985-2P9 C5009 C5009-G	E —Two-Piece Crimp-On F-Connector for RG59 Bulk polybag pack, 100 connectors per pack 4 per carded unit pack 2 per carded unit pack, gold plated
40985-2P6 C5007 C5007-CP	F —Two-Piece Crimp-On F-Connector for RG6 Bulk polybag pack, 100 connectors per pack 2 per carded unit pack Contractor pack, 25 connectors per unit, rack pack carton

Compression Connectors and Compression Tool

Compression Tool terminates 75 OHM coaxial cable with male compression F-connectors and male compression RCA connectors.

Cat No.	Description
40989-CPT	G —Master Compression Tool
40985-CR*	H —Compression RCA Connector Bulk polybag pack, 25 connectors per pack
40985-CPF	I —Compression F-Connector Bulk polybag pack, 100 connectors per pack

*Designates color band on RCA connectors: Red (R), Black (E), Yellow (Y), Blue (L), Green (V)

Push-Lock Pins

Use Leviton Push-Lock Pins to secure Structured Media Modules into your Structured Media Enclosure. Each bag contains 20 replacement pin-and-base sets.

Cat No.	Description
47615-NYL	Push-Lock Pins—(bag of 20)

Use our Push Pins for installation of Expansion Boards on page 11

Custom Video, Cabling & Distribution

CABLING DISTRIBUTION

Leviton's cabling distribution products for residential and small office environments feature several excellent options for multimedia, 110 and 66-clip connectivity. The QuickPort® Multimedia Patch Block and 12-Port Category 5e Patch Block are ideal for small-scale network installations or additions, using twisted pair cabling where a wall-mounted or low-profile solution is required. Voice and low-speed data applications such as networks, fax machines, intercom systems and PBXs can be connected with Leviton's high-density M blocks—a well known standard for contractors and telecom professionals. Two types of patch panels are available: pre-configured Category 5e patch panels with 12 or 24 Category 5e connectors to meet the needs of high-speed data applications, or empty QuickPort® patch panels which can be configured on-site with 24 or 48 QuickPort snap-in modules (sold separately) for those high-media-density installations.

Patch Blocks and Panels

When a distribution panel enclosure doesn't provide the space or wire management necessary to support a wiring consolidation point, Leviton patch blocks can provide a customized cabling solution. Installers can lay out the products of their choice on a wall or plywood base (backboard) to build the exact configuration to meet their needs. All patch blocks fit into a standard "89D footprint" to facilitate space planning.

QuickPort® 12-Port Multimedia Patch Block

It can be field-configured with QuickPort snap-in modules to support a full range of low-voltage voice and data applications, and Category 5e and eXtreme applications. Provides custom-configurable cross-connects with all the performance of higher density products.

Snap-in module retention plates are accessible from the front side to simplify connector and cable administration. This patch block also comes with an 89D mounting bracket and port identification strips. Patch block is UL listed.

Cat No.	Description
47689-QP	A— QuickPort 12-port multimedia patch block

12-Port Universal Category 5e Patch Block

For smaller, wall-mount installations, this 12-port patch block is the ideal low-profile solution. Pre-configured with twelve Category 5e connectors, this universal block is suitable for T568A or B configurations, and comes complete with a mounting bracket and white write-on areas silkscreened beside the connectors to help identify port assignments. The patch blocks are UL Listed and fully comply with FCC Part 68. Dimensions: 10.0"H.x 2.375"W.

Cat No.	Description
5G584-U89	B— 12-port Universal Category 5e Patch Block, includes mounting bracket

QuickPort® Patch Panels

QuickPort patch panels can be field-configured with any QuickPort snap-in modules to maximize versatility, appearance, and ease of installation and upgrades. Choose from a 24-port or 48-port high-density panel for small- or large-scale network installations. Both panel versions also include a rear wire management bar. They are UL Listed and CSA Listed. Port identification kits are sold separately.

Cat No.	Description
49255-H24	C— High Density 24-Port Patch Panel w/Wire Management Bar (1.75"H.x 19"W.)
49257-I24	Order 1 Port identification kit
49255-H48	D— High Density 48-Port Patch Panel w/Wire Management Bar (3.5"H.x 19"W.)
49257-I24	Order 2 Port identification kits

Custom Video, Cabling & Distribution

Universal Category 5 and GigaMax™ 5e Patch Panels

The 12 and 24-port Category 5 and GigaMax™ 5e patch panels are pre-configured with Category 5 and 5e connectors. White write-on areas are silk-screened beside the connectors for ease of identification. The panels mount in standard 19" EIA Equipment racks and accommodate top, bottom, or side cable entry. The panels are UL Listed, meet National Electrical Code requirements and specifications for UL 1863, and fully comply with FCC Part 68 and TIA/EIA-568-B Category 5 and 5e.

APPLICATION NOTE

110-Type Connections vs. 66-Clip Connections

Leviton recommends the use of products with 110-type connectors over those with 66-clips. However, many installers have different preferences, which is why Leviton offers some 66-clip products in addition to those with 110-type connectors.

66-clip blocks have been the standard for voice connections for many years. Although 66-clip blocks have been used for data, the 110 termination block may be a better choice. Both 66 and 110 blocks are insulation displacement connection (IDC) devices, which are key to reliable data connections. The 110-type connection offers: [A] higher density (more wiring in a smaller space) and [B] better control (less movement of the wires at the connection). Since more and more homes and small businesses are calling for both voice and data connections, it is easy to see why it makes sense to install 110-type devices in most situations.

110 BLOCKS

Distribution Block with 110 Connectors

50-pair 110 distribution block can be used as a termination point for all high-density voice and data cabling applications, including Category 5 Power Sum. Kit includes an 89D bracket, port identification strips, and C-4 and C-5 connectors.

Cat No.	Description
47690-110	A- Distribution Block with 110 Connectors

66-CLIP BLOCK ACCESSORIES

M Block Bracket for Jack/Connector Mounting Type 89D

Stand-off mounting bracket for 25- and 50-pair M blocks is open at top and bottom so that installers may mount bracket and lay cable, then install connecting blocks easily at a later date. Dimensions: 10"H.x 3.46"W.x 1.5"D.

Cat No.	Description
40089-D	B- M Block Bracket for Jack/Connector Mounting Type 89D Individual polybag pack
40089-DBR	Individual poly bag pack, rack pack carton

Standoff Mounting Bracket for M Blocks Type 89B

Stand-off mounting bracket for 25- and 50-pair M blocks is open at top and bottom so that installers may lay cable and mount bracket, then install connecting blocks easily at a later date. Dimensions: 10"H.x 3.41"W.x 1.5"D.

Cat No.	Description
40089-B	C- Standoff Mounting Bracket for M Blocks Type 89B

Modular Adapters

Plug into M blocks to convert 66-clip contacts to a modular jack for quick connection of equipment. These products are typically used for testing and temporary connections.

Cat No.	Description	Application
40072-T2 (Tap™-2)	D-2-position modular adapter	Converts two 66-clip contacts into a 6-position, 2-conductor modular jack.
40072-T4 (Tap™-4)	E-4-position modular adapter	Converts four contacts into a 6-position, 4-conductor modular jack.
40072-T6 (Tap™-6)	F-6-position modular adapter	Converts six contacts into a 6-position, 6 conductor modular jack.
40072-T8 (Tap™-8)	G-8-position modular adapter T568B wiring	Converts eight contacts into an 8-position, 8-conductor non-keyed modular jack

Custom Video, Cabling & Distribution

Wire Distribution Spools

Facilitate routing and fanning of cable, cross-connections, and jumper wires to any connection apparatus. Mount conveniently on backboard of distribution frame. Dimensions: 1.75" Dia. x 3"H.

Cat No.	Description
40054-DS	A– Distribution Spool without captive screw (20-A)
40054-DSS	B– Distribution Spool with captive screw (20-B)

Designation Strip for M Blocks (D-10)

Strip snaps onto fanning strips of M blocks to identify pair assignments.

Cat No.	Description
40056-DSM	C– Designation Strip for M Blocks

66-CLIP BLOCKS (Numbers in parentheses refer to industry product designations)

M Block: 25-pair (66M1-25)

25-pair M block contains 50 rows, each with a single clip having four slots. Incoming cable pairs (“tip” and “ring”) are connected by terminating “tip” on the leftmost slot of one row and “ring” on the leftmost slot of the next lower row. The three remaining slots in each clip are available for cross-connects. Dimensions: 10"H.x 3.31"W.x 1.19"D.

Cat No.	Description
40066-M25	D– M Block: 25-pair

Split M Block: 50-pair (66M1-50)

Split M block, like the 25-pair M block, contains 50 rows of clips, but instead of one 4-slot clip, each row contains two separate 2-slot clips. By terminating 25 incoming pairs on the slots of the left-hand clips and an additional 25 pairs on the slots of the right-hand clips, 50 cross-connects can be made. To make or eliminate connections even faster, bridging clips may be used to connect the two adjacent sets of clips together. Dimensions: 10"H.x 3.31"W.x 1.19"D.

Cat No.	Description
40066-M50	E– Split M Block: 50-pair Individual polybag pack, rack pack carton*

Bridging Clips (SA-1)

Bridging clips press onto the two center slots in any row of a Split M block. If outside cable pairs are terminated on the left-hand clips and station equipment wire is terminated on the right-hand clips, then connections can quickly be made or eliminated by simply inserting or removing the bridging clips. They can also be used on other products that use 66 clips. Made of phosphor bronze alloy, these clips provide long-term conductivity in even the most hostile environments. Because of their durability, they can easily be removed and reused for rewiring.

Cat No.	Description
40067-BC	F– Bridging Clips Bulk polybag pack, order in increments of 50
40067-CLP	Bulk polybag pack, 50 clips per unit, rack pack carton

Snap-On Cover for M Blocks (66MC-4)

Durable cover snaps onto 25- and 50-pair M blocks to protect wiring from dust, dirt, and incidental shorting. Transparent plastic permits viewing of wiring and pair assignments. Dimensions: 9.94"H.x 2.31"W.x .31"D.

Cat No.–Black	Description
40050-MCV	A– Snap-On Cover for M Blocks

Hinged Cover for Demarc Blocks (66MC4LH-O)

Orange-colored cover allows the easy identification of the network demarcation point. It snaps onto the right side fanning strip of 25- and 50-pair M blocks to protect wiring from dust, dirt, and incidental shorting. Allows wires to be routed from both the left and right sides. Designation strip included on inside for recording pair assignments. Dimensions: 10"H.x 2.44"W.x .75"D.

Hinged Cover for M Blocks (66MC4LH-G)

Snaps onto the right side fanning strip of 25- and 50-pair M blocks to protect wiring from dust, dirt, and incidental shorting. Allows wires to be routed from both left and right sides with inside designation strip included for recording pair assignments. Dimensions: 10"H.x 2.44"W.x .75"D.

Cat No.–Black	Description
40050-MHG	B– Hinged Cover for M Blocks (grey)
40050-MHO	C– Hinged Cover for Demarc Blocks (orange)

Home Control & Security Group

HOME CONTROL & SECURITY GROUP

A home smart enough to keep up with its owners.

Safety and security are a high priority with everyone today. Security experts are unanimous on the fact that making a home safer means first making it look “lived in.” Leviton’s Home Control and Security Group (including Decora Home Controls–DHC) makes a home more convenient, secure and comfortable.

The base-level *Smarter Home* package option brings timed ON/OFF switching to selected exterior lighting locations and motion-sensor activation at strategic outside points. The *Welcome Home* package means homeowners never have to come home to a dark house again. Exterior and entry lights can be turned ON and OFF from the safety of a locked car in the driveway using keychain transmitters, effectively reducing the “window of opportunity” for suspicious activity outside the home.

The *House Sitter* package activates exterior and interior lights according to preset time commands, and can even turn ON appliances such as coffee and bread-makers to help everyone start the day. The entire system is controlled from a simple wall-mounted whole-house programmable controller that's as easy to use as a clock radio. This package also includes an ALL LIGHTS ON panic mode for added security, and has a SECURITY setting to randomize ON/OFF light timing while everyone is away to make the home look totally lived-in.

The *Night Sentinel* package adds total safety and convenience with four elements: *photocell control* that activates selected lighting at dawn and dusk, *outdoor*

motion sensing that can turn an entire lighting perimeter ON (and can even activate selected interior lighting for a full alert), *bedside control* to enable users to turn all Home Control devices ON and OFF without leaving their bedroom, and an *alarm interface* that integrates the smart lighting and control system to a low-voltage security system (not included) so that lights flash ON and OFF during an alarm.

Most Home Control and Security packages incorporate Leviton’s award-winning Decora Home Controls (DHC) product line, which combines superior quality with state-of-the-art electronic technology to form an

ultra-reliable home control network that’s also extremely easy to use. The system is also

simple to install and configure because it uses a wiring network that’s already built-into the home: the power-line itself. Core DHC products are equipped with Leviton’s exclusive Intellisense™ Technology to perform reliably even where electrical “noise” exists on the powerline. Leviton’s DHC Coupler/Repeater Module ensures proper signal integrity throughout the entire home.

DHC systems can be expanded to automate sprinkler systems, motorized blinds and curtains, heating systems, skylights, garage doors, motorized gates and nearly anything else the homeowner desires.

Important: *The Home Control and Security Group should only be installed in conjunction with a Leviton Power Quality network protection system for maximum reliability. Welcome Home is a prerequisite for House Sitter, and House Sitter is a prerequisite for Night Sentinel.*

Home Control & Security Group

SYSTEM PACKAGES

Smarter Home Package

A simple yet effective level of control for exterior lighting and interior pathways. *Smarter Home* uses powerful, programmable Decora LCD timers that can assign up to 48 ON/OFF intervals over a 24-hour period - perfect for setting outside lights to turn ON/OFF early in the morning, and then again at night. Residential-grade outdoor motion sensors turn lights ON/OFF in back yards and driveways, while occupancy/motion passive-infrared (PIR) sensors illuminate walk-through/walk-in paths inside the home for added security and convenience.

Type	Cat No.	Description
Decora Wall Switch PIR Occupancy Sensor, 10A	ODS10-ID	Automatic light switch turns incandescent or fluorescent lights ON and OFF in response to occupancy
Self-Contained PIR Ceiling Mount Occupancy Sensor	ODC0S-I1W	Automatically turns incandescent or fluorescent lights ON and OFF in response to occupancy, 1000W/VA
Single-Pole & 3-Way Wall-Mount Occupancy Sensor (PIR)	PR180-1L	Automatic light switch turns incandescent or fluorescent lights ON and OFF in response to occupancy, 500W incandescent, 400VA fluorescent rapid start magnetic only
Outdoor Motion Sensor	RS110-10	Outdoor sensor turns lights ON and OFF in response to motion, 500W/VA
Decora Plus Programmable Electronic Timer Switch	6124H	24-hour programmable timer for ON/OFF scheduling 1200W/VA

Welcome Home Package

Dark driveways and doorways are a thing of the past with Leviton's *Welcome Home* package. *Welcome Home* puts control of outside and entryway lights into the palm of a homeowner's hand with a small command transmitter that fits right on a key chain. Simply push a button to turn outside lights and inside entry lights ON, all from the safety of a locked car. Because it operates from up to 75 feet away, *Welcome Home* can be a welcome deterrent in dealing with any unwelcome presence lurking near the home. It's also a more convenient way to come home after a long day. *Welcome Home* can even turn OFF power to a garage door opener (with an extra control module) for added security during extended vacations.

Type	Cat No.	Description
Key Chain Transmitter	HCKKR	Key chain remote control (RF) turns lights ON and OFF from a maximum distance of 75 feet
Transceiver	HCPRF	RF receiver/transmitter receives key chain signal and relays signal to the DHC network
Universal Remote Control	HCCUR	Provides RF Control of DHC switches and receptacles and IR control of home entertainment components (e.g., TV, cable, etc.)
DHC Single-Pole or 3-Way Dimming Receiver Switch with Scene Control	HCM06-1SW	Switch receives signals for ON/OFF or dimming Also, functions as a standard switch using manual override
DHC Single-Pole or 3-Way Dimming Receiver Switch with Scene Control	HCM10-1DW	Switch receives signals for ON/OFF or dimming Also, functions as a standard switch using manual override
DHC Single-Pole or 3-Way Dimming Receiver Switch with Scene Control	HCM06-1TW	Switch receives signals for ON/OFF or dimming Also, functions using manual override
DHC Single-Pole or 3-Way Switch with Scene Control	HCC10-1TW	Provides manual and remote ON/OFF switching for incandescent, fluorescent and low-voltage lighting, 10A 1200W/VA
DHC One-Address ALL ON/ALL OFF Controller	HCC1A-1TW	One ON/OFF rocker transmits ON/OFF remote commands to one address
DHC 3-Way & 4-Way (Multi-Location) Remote Dimming Switch	MS00R-10	For use as a remote switch for the HCM06-1SW & HCS10-1SW
DHC Signal Amplifier/Coupler/Repeater	HCA02-10E	Ensures system reliability
DHC Split Duplex Receptacle	6227	Top outlet provides ON/OFF control, bottom outlet is continuously live

Home Control & Security Group

House Sitter Package

Leviton's *House Sitter* package makes a home smart enough to turn its inside and outside lights ON and OFF at pre-selected times, making it look like someone is always at home. *House Sitter* lets users leave their home with a greater sense of confidence—in fact, they'll never have to worry about whether they left the lights on again. *House Sitter* turns them ON and OFF automatically.

House Sitter's Wall Programmer/Controller is as easy to preset and use as a clock radio. It assigns up to eight different timed events for front, side and backyard lights, as well as entryway lights and selected lamps inside the house. The Wall Programmer/Controller can also turn ON a coffeemaker at a pre-selected time in the morning. Features include an ALL LIGHTS ON control for "panic" situations, an ALL UNITS OFF control, a BRIGHT/DIM control for dimmers (such as the entryway) and a SECURITY mode to randomize lights and enhance the "lived in" look.

Note: *House Sitter* may require additional DHC-enabled receivers (switches, receptacles and lighting controls) listed in the Welcome Home package.

Type	Cat No.	Description
Programmable Controller	6312	Basic Programmer provides automatic control plus security mode random light switching and ALL-LIGHTS-ON control
DHC Toscana™ Deluxe Programmer	HCCPG-1TW	One-touch access to up to 64 lighting scenes and direct remote control of up to 256 devices. Automatically turns appliances ON/OFF and lights ON/OFF/DIM/BRIGHT. Run timed events on recurring basis
Three-Address Dimming ALL LIGHTS ON/ALL OFF Wall Switch Controller	HCC4A-1TW	Multi-button transmitter sends signals to 3 receiver addresses for switching and dimming plus ALL LIGHTS ON/ALL OFF and GROUP DIM/BRIGHT control
One-Address ON/OFF Wall Switch Controller	HCC10-1TW	One ON/OFF rocker transmits ON/OFF commands to one address
One-Address Dimming Wall Switch Controller	HCC1D-1TW	One ON/OFF rocker transmits ON/OFF commands to one address while a built-in arrow-shaped rocker transmits BRIGHT/DIM commands to the same address.
Two-Address Dimming Wall Switch Controller	HCC2D-1TW	Two sets of ON/OFF buttons transmit ON/OFF commands to two sequential addresses in the same letter code and one set of buttons transmits GROUP BRIGHT/DIM commands to the most recently selected address
Three-Address Dimming Wall Switch Controller	HCC3D-1TW	Three sets of ON/OFF buttons transmit ON/OFF commands to three sequential addresses in the same letter code. One set of buttons transmits GROUP BRIGHT/DIM commands to the most recently selected address
Four-Address Dimming Wall Switch Controller	HCC4D-1TW	Four sets of buttons transmit ON/OFF commands to three sequential addresses of the same letter code. One set of buttons transmits GROUP BRIGHT/DIM commands to the most recently selected address.
Seven-Scene Dimming Wall Switch Controller	HCCS7-1TW	Each of SEVEN scene buttons transmits ON commands to preset levels to 12 sequential addresses of the same letter code group as the controller. Only works with scene-capable receivers. One OFF button transmits OFF command to the most recently selected scene.
System Coupler/Repeater	HCA02-10E	Ensures a strong signal throughout a residence
DHC Single-Pole or 3-Way Dimming Receiver Switch with Scene Control	HCM06-1TW	Switch receives signals for ON/OFF or dimming. Also, functions using manual override
DHC Single-Pole or 3-Way Dimming Receiver Switch with Scene Control	HCM10-1TW	Switch receives signals for ON/OFF or dimming. Also, functions using manual override
DHC Single-Pole or 3-Way Receiver Switch with Scene Control	HCS06-1TW	Switch receives signals for ON/OFF. Also, functions using manual override

Home Control & Security Group

Night Sentinel Package

Night Sentinel turns a home into a smart castle. Automatically turn outside and inside lights ON at sunset and OFF at sunrise, flash inside and outside lights ON and OFF at the cue of an optional security system, turn back, side and front lights ON when anyone or anything approaches the house, or even turn lights and appliances ON and OFF from the comfort of your bedside.

The *Night Sentinel* package consists of four main elements. An Outdoor Motion Sensor/Transmitter not only controls a dedicated floodlight fixture, but all the lights included in the *Welcome Home* and *House Sitter* packages by telling them to turn ON when anything approaches the house. The Outdoor Photocell Transmitter turns selected lights and lamps OFF and ON at dawn and at dusk, eliminating the need to constantly re-adjust OFF and ON times. In conjunction with an alarm system (not included), the Alarm Interface ties that system into the home's lighting, flashing the lights in an emergency to attract attention and deter criminals. Finally, the Bedside Controller complements *House Sitter's* Wall Programmer/Controller by letting your customers command essential functions from their bed sides.

Note: Night Sentinel must be used in conjunction with the House Sitter package and the Welcome Home package

Type	Cat No.	Description
Photocell Transmitter	6308	Outdoor photocell transmitter sends signals to switch receivers in response to dawn and dusk
Outdoor Motion Sensor	6417	Outdoor motion sensor transmitter sends signal to outdoor and indoor receivers to turn lights ON
Security Interface	6330	Alarm interface flashes lights ON/OFF in emergency
Table Top Controller	6320	Controls multiple light switches and offers ALL-LIGHTS-ON control
Universal Low Voltage Module	6337	Allows almost any low voltage device to be automated by interfacing it with a 120V AC wiring network from which it can receive ON or OFF commands from DHC Controllers
System Coupler/Repeater	HCA02-10E	Ensures a strong signal throughout a residence

Lighting Controls Group

LIGHTING CONTROLS GROUP

Setting the mood for any occasion in every room

Light defines every feature in a home, and, through variation, can even change a room's personality. By artfully controlling lighting, a room or zone can take on many levels of involvement, from intimacy to excitement.

Leviton Integrated Networks takes care of the "control" aspect by providing three levels of advanced lighting products aimed at bringing more comfort and style to

the two primary segments of the home: the living areas, and the bed and bath areas. *Living Director* upgrades kitchens, dining rooms, offices, dens and hallways, with stylish controls for lighting

fixtures and ceiling fans. *Bed & Bath* focuses on bedrooms, bathrooms, associated hallways and common areas, with controls specifically designed for these applications. Together, these two innovations transform the home into an environment suitable for entertaining, working, relaxing, and much more.

Cinema Style is an option that can equip a home theater with a theatrical-grade intelligent lighting system that's at home with any video presentation, from casual channel-surfing to feature-length films.

Lighting Magic saves time by providing "hands-free" occupancy and motion-sensing ON/OFF activation in critical walk-through and walk-in areas such as garages, laundries, hallways and closets. In garages, *Lighting Magic* also provides extra safety by turning entry lights ON before anyone gets out of the vehicle.

These Lighting Control upgrades do more than add ambience. They also add value. Even at modest settings, dimmers save energy and increase light-bulb life, while occupancy / motion sensors turn lights ON only when needed.

All Leviton Lighting Controls are inspired by the Leviton commercial and architectural lighting systems appearing in art galleries, hotels, fine restaurants and other high-profile venues. All are built to a higher level of quality, with superior on-board filtering technology, precision control features, air-gap internal switching, encapsulated gold-surfaced contacts and improved heat-dissipation design. The result is a line of lighting controls designed for the life of the home and built to withstand the rigors of everyday use.

Traditional Lighting Group

Classic and unobtrusive toggle styling hides advanced lighting technology that provides extraordinary control from ordinary-looking controls. Based on Leviton's ToggleTouch™ lighting control, the *Traditional Group* is a masterpiece of digital design in a timeless setting.

ToggleTouch uses digital electronics and Touch Pad technology to provide fingertip-control dimming with advanced features such as preset dimming and soft-ON. Protected memory ensures that each ToggleTouch control retains its memory after power outages.

Lighting Controls Group

SYSTEM PACKAGES

Traditional Living & Entertainment Director Package

Dimmers in living room, family room, dining room, bathroom and entry area

Type	Cat No.	Description
ToggleTouch™ 600W Incandescent Dimmer (No LED locator)	TGI06-10	Controls light levels
ToggleTouch™ 600W Illuminated Incandescent Dimmer	TGI06-1L	Controls light levels—helpful in dark hallways
ToggleTouch™ 1000VA Illuminated Magnetic Low-Voltage Dimmer	TGM10-1L	Controls light levels—helpful in dark hallways

Bed & Bath Ambience Package

Dimmers in bedrooms and bathrooms, and timers in the bathrooms

Type	Cat No.	Description
ToggleTouch™ 600W Incandescent Dimmer (No LED locator)	TGI06-10	Controls light levels
ToggleTouch™ 600W Illuminated Incandescent Dimmer	TGI06-1L	Controls light levels—help in dark hallways
Lighted Toggle Switch	5501-LH	Illuminated switch helps in dark areas
3-Way Lighted Toggle Switch	5503-LH	Illuminated 3-way switch helps in dark areas
Timer Switch	6230M	Timers turn OFF exhaust fan in bathrooms using factory-set time increments of 5-10-20-30 minutes

Lighting Controls Group

DECORA® LIGHTING GROUP

Leviton's hallmark design is re-expressed for contemporary applications in these high-style lighting controls. Centered on Leviton's acclaimed Illumatech™ slide dimmer, the Decora Lighting Group includes innovations such as digital timers for bathroom fans (turns fans OFF after preset intervals), and Lighting Magic occupancy/motion sensors for hands-free ON/OFF switching in walk-through and walk-in areas. Proven in the hospitality industry, the Decora Lighting Group is ideal for bringing style and utility into today's homes. Features include power-failure recovery, exceptionally fluid slide control, and full compatibility with models designed for different types of lighting fixtures including fluorescent and low-voltage.

SYSTEM PACKAGES

Decora Living & Entertainment Director Package

Includes dimmers in all living areas such as living room, kitchen, family room and dining room as well as dimmers and fan timers in the bathroom.

Type	Cat No.	Description
IllumaTech™ Preset 600W Incandescent Dimmer with LED Locator	IPI06-1L	Single-Pole and 3-Way preset fluid slide incandescent dimming control with LED indicator when lights are OFF
IllumaTech™ Preset 400VA Electronic Low-Voltage Dimmer with LED Locator	IPE04-1L	Single-Pole and 3-Way preset fluid slide electronic low-voltage dimming control with LED indicator when lights are OFF
IllumaTech™ Quiet Fan Speed Control with LED Locator	IPF01-1L	1.5 Amp preset step fan speed control with LED indicator ideal for use in libraries, study rooms and wherever fan noise could become distracting
IllumaTech™ Incandescent Dimmer (no preset)	INI06-1L	Single-pole fluid slide incandescent dimming control with LED indicator when lights are OFF
IllumaTech™ Magnetic Low-Voltage Dimmer (no preset)	INM06-1L	Single-pole fluid slide magnetic low voltage dimming control LED indicator when lights are OFF

Decora Bed & Bath Ambience Package

Includes illuminated switches in hallways, dimmers in bedrooms and dimmers plus timers in the bathroom.

Type	Cat No.	Description
IllumaTech™ Preset 600W Incandescent Dimmer with LED Locator	IPI06-1L	Single-Pole and 3-Way preset fluid slide incandescent dimming control with LED indicator when lights are OFF
IllumaTech™ Preset 400VA Electronic Low-Voltage Dimmer with LED Locator	IPE04-1L	Single-Pole and 3-Way preset fluid slide electronic low-voltage dimming control with LED indicator when lights are OFF
IllumaTech™ Quiet Fan Speed Control with LED Locator	IPF01-1L	Ideal for up to 1.5 Amp preset step fan speed control with LED indicator when fan is OFF to eliminate distracting fan noise
Decora Quiet Rocker Switch	5613	3-Way illuminated switch (when OFF)
Decora Quiet Rocker Switch	5611	Single-Pole Illuminated (when OFF)
Timer Switch	6230M	Fan Timers

Decora Lighting Magic Package

Provides energy savings plus convenience. Includes motion sensor light switches in areas such as the laundry room, the garage and entryways as well as a timer in the attic.

Type	Cat No.	Description
Occupancy Sensor	PR180-1L	Automatic light switch turns lights ON and OFF in response to occupancy. 500W incandescent 400VA fluorescent, rapid start magnetic only

Lighting Controls Group

DESIGNER LIGHTING GROUP

Remote-controllable architectural-grade lighting that's equally at home in a residence as it is in art galleries and museums. The Designer Lighting Group is based on Leviton's Mural™ and TouchPoint™ digital dimmers that use advanced microprocessor circuitry for extremely precise control.

SYSTEM PACKAGES

Designer Living & Entertainment Director Package

In *Living & Entertainment Director* applications, dimmers are replaced with multiple Mural Scene Capable Dimmers that can be combined with a Scene Controller to effect flexible, preset lighting scenes with IR remote control over entire zones (such as an open kitchen/family room area).

Type	Cat No.	Description
Mural™ Decora-Style Dimmer	MSI06-1L	600W Incandescent Dimmer with LED locator is easily found in dark areas
Mural™ Decora-Style Dimmer	MDI06-1L	600W Incandescent Dimmer with LED locator and LED Brightness Display is easily found in dark areas and indicates level of illumination
Mural™ L/S (Level Set) Decora-Style Preset Digital Dimmer	MLI06-1L	600W Incandescent Dimmer with LED locator is easily found in dark areas
Mural™ L/S (Level Set) Decora-Style Preset Digital Dimmer	MRI06-1L	600W Incandescent Dimmer with LED locator is easily found in dark areas and indicates level of illumination
Mural™ Multi-Remote Unit	MS00R-10	Remote Switch permits Multi-Location Dimming
Mural™ Decora-Style Dimmer	MDM06-1L	600VA Magnetic Low-Voltage Dimmer with LED locator and LED Brightness Display is easily found in dark areas and indicates level of illumination
Mural™ L/S (Level Set) Decora-Style Preset Digital Dimmer	MLM06-1L	600VA Magnetic Low-Voltage Dimmer with LED locator and LED Brightness Display is easily found in dark areas and indicates level of illumination
Mural™ Scene Capable Decora-Style Digital Magnetic Low-Voltage Dimmer	MCM06-1L	600VA Scene Capable Incandescent Magnetic Low-Voltage Dimmer with LED locator and LED Brightness Display is easily found in dark areas and indicates level of illumination that can be set by a Scene Controller Device
Mural™ Scene Capable Decora-Style Digital Incandescent/Magnetic Low-Voltage Dimmer	MCM10-1L	1000VA Scene Capable Incandescent/Magnetic Low-Voltage Dimmer with LED locator and LED Brightness Display is easily found in dark areas and indicates level of illumination that can be set by a Scene Controller Device
Mural™ Scene Controller	MN00C-1L	7 Lighting-Scene plus OFF and Group DIM and BRIGHT buttons provide for flexible control
Remote Control	177RC	Hand-Held IR Remote Control provides convenient lighting controls from different room locations
Remote Control Infrared Receiver	177IR-IWA	IR Receiver for 177RC Remote Control
2-Way Signal Repeater	17100-2WY	Used to control lighting on more than one circuit
Occupancy Sensor Control Bridge	177OC	Operates Scene devices in conjunction with any Leviton Occupancy Sensor

Lighting Controls Group

Designer Bed and Bath Lighting Ambience Package

Package features TouchPoint™ Touch-Pad dimmers in bedrooms and bathrooms, Decora Plus illuminated switches for welcome nighttime lighting in hallways and guest rooms and digital fan controls for turning bathroom fans OFF after preset time intervals.

Type	Cat No.	Description
Decora Switch	5611	Single-Pole illuminated switch (Lens illuminated when OFF)
Decora Switch	5613	3-way illuminated switch (Lens illuminated when OFF)
Decora Switch	5614	4-way illuminated switch (Lens illuminated when OFF)
Dimmer	TPI06-1L	TouchPoint™ 600W incandescent w/LED locator
Dimmer	TPI10-1L	TouchPoint™ 1000W incandescent
Timer Switch	6230M	Turns fans OFF using factory-set time increments of 5-10-15-30 minutes

Designer Lighting Package

The Designer Lighting Group's energy-saving *Lighting Magic* package features advanced-technology Leviton passive-infrared (PIR) occupancy sensors that have a proven track record in commercial environments where reliability, efficiency and aesthetics are equally critical.

Type	Cat No.	Description
Motion Sensors	ODS10-ID	Features large coverage area and provides automatic ON and OFF light switching in response to occupancy
Timer Switch	6230M	Turns lights OFF using factory-set increments of 5-10-30 minutes

Cinema Style Package

The *Cinema Style* package brings a professional-quality, remote-controlled scene lighting system to home theaters and entertainment areas.

Type	Cat No.	Description
Dimmer	MCM10-1L	Mural™ scene capable 1000W incandescent/1000VA magnetic low voltage, architectural style
Controller	MN00C-1LW	Scene controller, 7 scenes
Accessory	177RC	Remote control, 4 scenes
Accessory	177IR-IWA	Infrared receiver, wall and ceiling mount
Dimmer	MNM06-1LW	Monet™ scene-capable 600VA magnetic low-voltage, architectural style

Power Quality Group

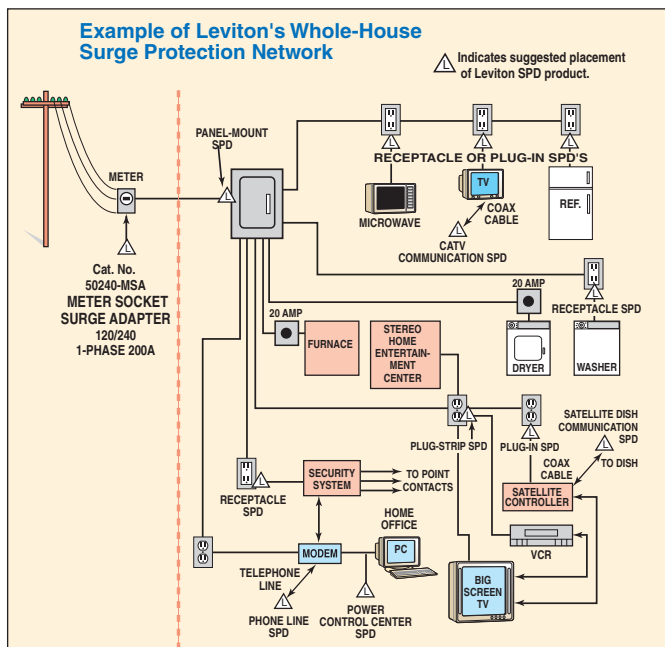

POWER QUALITY GROUP

A whole-house surge protection network for residential applications

The popularity of home offices, the internet and home theaters means that there are more home electronics that are vulnerable to voltage surges than ever before. A whole-house protection plan must protect against voltage surges on both the powerline and the telephone or communication lines. Homeowners may be unaware that surges can enter their expensive electronic equipment (modems, FAX machines, answering machines, TV's and VCR's) through telephone lines and cable TV or satellite dish connections. Most surge protective devices (SPD's) designed for the AC powerline will not prevent telephone or communication line surges from damaging valuable equipment. As a result, Leviton offers a complete selection of SPD's for powerline, telephone and communication line applications. The best protection for the home is an industrial-strength solution: A Leviton Power Quality network, designed to protect mission-critical equipment in the most demanding professional environments including hospitals and laboratories.

The keyword here is "network." Because power line problems can be generated either outside (externally) or even inside the home, full protection requires a network that guards both the entire premises and each device from potentially damaging problems. The Leviton solution places an advanced-technology

transient voltage surge suppression (TVSS) device at the service entrance (either at the electrical panel or the meter), with point-of-use TVSS devices located strategically throughout the home—behind PC's and entertainment centers, in home theater rooms and at major appliances. Because damaging electrical impulses can even enter through low-voltage lines such as cable TV and telephone, total protection includes TVSS devices designed to protect those lines as well.

From the use of hybrid-circuit design for a more advanced level of protection to Leviton's hybrid MOV (metal oxide varistor) design that delivers superior noise filtering, tighter clamping, faster response to high-speed transients and superior energy dissipation, a Leviton Integrated Networks Power Quality system is the last word in first-line defense against the damaging effects of power line surges. It should be the first choice of anyone with an electronic investment at risk.

Power Quality Group

SYSTEM PACKAGES

Whole-House Electrical “Networked” Surge Protection Package

Includes whole-house surge protection at the electrical panel and point-of-use protection at various critical locations (home office, entertainment center, major appliances).

Type	Cat No.	Description
Whole house	51110-PTC	Panel protects AC, CATV and telephone lines at point-of-entry to home
Point-of-use	5280	Receptacle protects any plugged-in equipment (PC, stereo, microwave oven, etc.)

Whole-House Low-Voltage and Electrical Complete PQ Protection Package

Includes whole-house surge protection at the electrical panel and point-of-use protection with extra protection for low-voltage lines to protect sensitive electronics that can suffer circuit degradation. UPS's are employed for safe shutdown of home office computers when power is lost as well to protect them from power fluctuations.

Type	Cat No.	Description
Whole house	51110-PTC	Panel protects AC, CATV and telephone lines at point-of-entry to home
Point-of-use	5280	Receptacle protects any plugged-in equipment (PC, stereo, microwave oven, etc.)
Audio/Video Equipment	5505	19-inch rack-mount unit protects A/V equipment
UPS	U1000-AKP	Uninterruptible Power Supply functions as off-line power strip up to 1000VA, 5 outlets

Special Needs Group

SPECIAL NEEDS GROUP

Safer, More Accessible Home

Today, equal access is a rapidly growing residential need—not to mention a social and even legal responsibility in certain applications. Diversity in ages and abilities as well as temporary circumstances can impose special challenges in everyday life.

Leviton's Special Needs group is designed to help overcome some of those challenges by making homes safer, more accessible and more enjoyable for all users. The *Child Safety* package makes homes more secure for the littlest members of the household. The *Universal Design* package makes the home more accessible for everyone. Leviton is a pioneer in touch-operated electrical devices, with Leviton devices routinely specified in managed-care and health facilities. Exceptionally intuitive and ergonomic design combined with ease-of-use place Decora devices in the lead in this emerging field.

Leviton's Special Needs group provides nearly effortless control over a wide variety of devices and systems, placing every individual—regardless of their age, ability or mobility, more in control of their living and working environment.

SYSTEM PACKAGES

Child Safety Package

Thousands of accidents happen each year involving children and electricity. Leviton's *Child Safety* package goes a long way to making them avoidable in the home.

Instead of potentially hazardous caps in outlets, the Child Safety package starts with Leviton Kiddy Cop™ outlets which consist of two elements: a Tamper-Resistant outlet with an internal plastic shield that will not open the outlet slots up to anything except an electrical plug (resisting screwdrivers, keys and fingers), and an innovative outlet cover with spring-loaded plates that snap shut over the Tamper-Resistant outlet for a second line of defense.

Complete shock protection is assured with Leviton's innovative patent-pending SmartLock™ GFCI receptacle. It makes sure that no electrical power is provided whenever the GFCI fails to function properly for any reason.

Leviton's Anywhere Light Switches help protect children from injuries while climbing to turn ON lights by placing a second remote-controlled light switch where children can use it. The remote control can be moved as the child grows. Switch Locks prevent children from turning critical switches ON or OFF. A child's room feels more secure with a Leviton Digital Timer, which can be programmed for bedtime or naptime, letting a child fall asleep with the lights ON and turning them OFF shortly after.

Type	Cat No.	Description
Tamper-Resistant Electric Outlet	5321	Exclusive internal shutter design protects against shock due to insertion of objects in the outlet
Outlet Cover	86002	Outlet covers provide a cost-effective safety feature by blocking outlet slots
GFCI (SmartLock™) Receptacle	8599	SmartLock™ GFCI blocks power completely when ground fault prevention has been compromised
Light Switch Kit	6696	Anywhere Light Switch allows switch location lower on wall to prevent child climbing accidents
Switch Cover	12005	Light switch lock
Timer Switch	6124H	Digital timer switch

Special Needs Group

Universal Design Package

For those with differing abilities and needs, even ordinary electrical switches can present a challenge. With the *Universal Design* package, the same Leviton electrical devices recommended by the Center for Universal Design and used in assisted-living communities throughout the country can be installed in your customers' home to make it more comfortable for loved ones in their care.

Leviton True Touch™ Digital Dimmers require the least amount of physical pressure to activate. A simple light touch turns lights ON or OFF. They are ideal for people with restricted range of motion. For those with mobility restrictions, Leviton Anywhere Dimmers provide a second remote-control point for room lighting and may be moved for convenience (next to a bed, for example). Anywhere Dimmers provide simple three-stage dimming (low, mid and high), allowing users to touch a rocker on the wall switch or use a remote (remotes may be handheld or mounted). Bathrooms and bedrooms become friendlier with Illuminated Receptacles, which provide welcome night-lighting and make it easier to locate electrical outlets. In case of an emergency, the Leviton 911 Flasher can flash a home's outside lights to signal arriving help such as police or paramedics.

Type	Cat No.	Description
Dimmer	TT106-10	True Touch™ dimmer for easy control. 600W-120V AC incandescent only.
Illuminated Receptacle	8200-HL	Illumination helps those with reduced vision locate receptacle in darkened rooms. 15A-125V
Illuminated Switch	1201-LH	Illumination helps those with reduced vision locate switch in darkened rooms. 15A-120V AC.
Flasher Switch	911	Light Switch will flash outdoor lights to notify emergency vehicles of location (also operates as standard light switch). 500W-120V AC.
Anywhere Dimmer Switch	6698	Provides local and remote incandescent dimming

LIN Frequently Asked Questions

BASIC INFORMATION

Q. What is Leviton Integrated Networks?

A. Leviton Integrated Networks is the Leviton product line for home structured media, lighting, home control and surge protection.

Q. OK. What's a home-structured media system?

A. A system that distributes everything that isn't powered by standard electrical voltage, including Internet, cable, VCR and satellite TV, phone and fax, stereo system, home and child monitoring.

Q. When should I install a structured media system?

A. Installing one is much more economical when a house is being built, but it's also easy to install it during remodeling or when adding an addition.

LEVITON INTEGRATED NETWORKS, THE INTERNET AND HOME NETWORKING

Q. What about Leviton Integrated Networks and the Internet?

A. Whether it's for a home office or a student's room, a kitchen or a family room, Leviton Integrated Networks is capable of high-speed Internet transmission to as many rooms as you choose. (See the following question for more information on high-speed Internet.) Leviton Integrated Networks also turns homes with more than one computer into powerful home networks, for sharing of files, printers or scanners.

Q. Will Leviton Integrated Networks make my Internet downloads go faster?

A. Yes. Leviton Integrated Networks provides a large capacity pathway for downloading information from the Internet. The wiring connections allow speeds more than a hundred times faster than standard modems. But keep in mind that your Internet service provider also affects the speed of your Internet connection.

Q. Can Leviton Integrated Networks help me run an office in my home?

A. Along with Internet access, Leviton Integrated Networks puts telephones, fax/modems and other devices to work in any room of your home, because all rooms are wired and connected. Leviton Integrated Networks gives you a powerful phone network, managing distribution of multiple lines. Leviton Integrated Networks also allows you to connect to your home network just by plugging in to the data jacks in any room.

Q. Do I need anything else to set up a home network?

A. Your computer may need a networking card and software. Check your computer owner's manual.

Q. Will I need to upgrade if I add phone lines or more TVs?

A. It depends on the module you choose for your home. Basic modules can handle four phone lines and six TVs.

Q. Does Leviton Integrated Networks offer surge protection?

A. Yes. Leviton Integrated Networks helps protect sensitive and expensive electronics that can be damaged by voltage surges.

LEVITON INTEGRATED NETWORKS AND WHOLE-HOUSE VIDEO

Q. Can I get TV reception in any room in my house?

A. Yes. Any video signal (VCR, cable, satellite, DVD) can be distributed to any room in the house.

Q. Do Leviton Integrated Networks products control interior lighting?

A. Leviton Integrated Networks sets the mood for an evening's entertainment, with simplified control of room lighting.

LEVITON INTEGRATED NETWORKS AND HOME-WIDE STEREO

Q. Can I distribute music throughout my home?

A. Yes. Using Leviton Integrated Networks audio components, you can have music throughout your home.

Q. What if I want to play the stereo in only a couple of rooms?

A. A volume control unit in each location where speakers are present allows you to turn off the audio.

LEVITON INTEGRATED NETWORKS, CAMERA MONITORING AND SECURITY LIGHTING

Q. Can I monitor the safety of my family in a different part of the house?

A. Yes. Leviton Integrated Networks allows you to distribute a signal to any TV in the house using a camera in the kid's room.

Q. How about security lighting?

A. Leviton Integrated Networks helps create a safer, more secure environment. With features like an ALL LIGHTS ON panic button that turns all controlled lights on for "bumps in the night."

Q. What is the benefit of automatic lighting control?

A. It allows you to set a program for exterior lights to turn on and off automatically. It also increases safety by providing automatic lighting for walkways or entry areas, giving a home an occupied look when you're away.

Q. What is the benefit of "remote" lighting control?

A. Using a transmitter at your bedside, you can control lights all over your home at bedtime.

Q. How does the automated home control system work?

A. It's controlled by transmitters and receivers, which operate on either a programmed schedule or manually like conventional switches, dimmers and outlets.

TECHNICAL INFORMATION

Q. What does it mean when something is rated Category 5e (Cat 5e)?

A. Cat 5 indicates a high level of performance for wire and the products that connect to it. Products that are rated Category 5e meet high performance levels, and allow the home to handle current and future technologies.

Q. What kind of cabling would I need in my home?

A. Typically, voice and data signals are transmitted through or Category 5e wiring, RG-6 and other coaxial cable are a higher level of video and audio wire.

Leviton's Complete Line of Catalogs

L-504 Wiring Devices

This catalog contains a comprehensive selection of Leviton products for Industrial, Commercial and Residential construction and maintenance, including switches, receptacles, plugs and connectors, wire mesh safety grips, lighting controls, surge protective devices (TVSS), wallplates, communications premise wiring products and more.

Power Quality Products

Virtually every educational facility has microprocessor-driven electronic equipment that is vulnerable to the disruptive and damaging effects of transient voltage surges, voltage sags and power outages. Leviton offers a full line of surge protective devices and Uninterruptible Power Supplies (UPS) to defend this equipment.

Lighting Control Products

This catalog provides a comprehensive offering of Leviton's state-of-the-art lighting control products, including our extensive line of architectural lighting control systems, box-mounted lighting and fan speed controls, occupancy sensors and DHC powerline carrier home automation products.

Decora Home Controls Technical Manual

A complete guide to Decora Home Controls Components for automated control of lighting scenes, time-set On/Off lighting control and automated appliance control, including wiring diagrams and technical information plus real-life applications for field use.

Decora Collection of Designer Devices

A comprehensive look at the Decora collection of designer-styled switches, receptacles, wallplates, lighting controls, voice, data, video and audio devices, and Decora Home Controls developed by Leviton through the merging of sleek design with the ultimate in technology to provide an elegant finishing touch to any interior.

Structured Wiring Installation Manual

This manual provides a comprehensive description of industry standards, warranties, installer certification, ordinances, tools, job planning, and system design and installation techniques for residential structured wiring.

Night and Day Designer Color Collection

Leviton offers the most complete collection of residential and commercial almond and black colored wiring, electronic and communications devices from a single source.

Home Cabling User Guide

This user guide is designed to show you the components and applications of structured wiring. It also provides suggestions and tips for the placement of TV's, computers, telephones, and other devices that will make use of structured wiring. It concludes with a glossary and section of frequently asked questions related to structured wiring.

Structured Cabling Systems

This catalog covers the wide range of structured cabling/structured media products that Leviton offers for any type of home or office cabling project, new or retrofit, from multimedia connectors to cable management to fiber optic panels and more.
