STRUCTURED MEDIA™ COMPONENTS—LEVITON INTEGRATED NETWORKS™

The information and communication revolution will have as much impact on America's homes and businesses as did the electrical revolution of the 20th Century. To fully enable the modern home, Leviton has developed Leviton Integrated Networks as the upgrade path to the future. Leviton Integrated Network's Structured Media components and systems deliver the capacity, bandwidth and speed that today's and tomorrow's information and entertainment technologies will demand.

Innovative Technology Blends Multiple Options Into One System

Leviton Integrated Networks takes the concept of structured cabling, as practiced in demanding commercial applications, and combines it with multimedia. This blending accommodates the convergence of telephone communications, computer and Internet services and much more. An innovative series of modules and media centers—configured for either essential platforms or more customized enhanced platforms—manage and distribute voice, data, audio and video in flexible configurations that best suit each homeowner's individual requirements. These requirements can range from something as simple as cable TV and telephone in several rooms, to a local area network (LAN) for a small office or home-based business.

Entertainment products built into the home should have no compromises — in quality, performance, reliability or value. That's why Leviton offers a wide variety of state-of-the-art residential entertainment products that represent today's most advanced audio/video technologies, including indoor and outdoor speakers, on-wall home theater systems, A/V entertainment center products, controls and distribution components.

47605-140 Panel Enclosure with Cover

Series 140 Panel Premium Hinged Cover

Series 140 Structured Media Enclosure

This 14" professional-grade whole-house media enclosure creates one distribution point in the home for all low voltage cables. It will accommodate two Pre-Configured Structured Cabling Panels. The sturdy design and functionality facilitate installation, reducing job-site labor costs, and making it ideal for essential home networking.

SPECIFICATIONS

Dimensions:	
Enclosure:	14.38"H x 14.38"W x 3.60"D
Cover:	16.10"H x 16.10"W
Materials:	White, powder-coated enclosure (20 gauge steel), cover (18 gauge steel)
Standards Compliance:	ACA and cULus Listed. UL Listed for fire and burglary

Series 140 Structured Media Enclosures and Covers

DESCRIPTION	CAT. NO.
Series140 Enclosure and Flush-Mount Cover, empty	47605-140
Series140 Enclosure only	47605-14E
Series 140 Flush Mount Cover	47605-14C
Series 140 Hinged Cover–Economy	47605-14D
Series 140 Hinged Cover–Premium	47605-14P
Series140 Enclosure only (6 per pack)	47605-14G
Series 140 Flush Mount Cover (6 per pack)	47605-14B

SPECIFICATIONS AND FEATURES

- Accommodates up to two full-width Pre-Configured Structured Cabling Panels—delivering audio/ video, voice and data to any room of the home or office.
- Positive “stops” on housing sidewalls prevent the enclosure from falling through studs during installation.
- One piece white steel unit holds full and half-width expansion modules.
- Can be surface-mounted or recessed. Ideal for new installations or retrofits.
- Mounting guides on the cover align screw-holes and reduce the chances of dropping during attachment.
- Powder-coated white cover features a 3/4" overlap to hide irregular drywall cuts.
- Combine two or more enclosures for larger installations or future expansion.
- Multiple knock-outs on top and bottom including two new 2" knockouts on top, facilitate cable entry and routing.
- Cut-out in base of enclosure for mounting single gang J-Box kit
- Six 3" square self-healing foam grommets accommodate cable bundles

STRUCTURED MEDIA™ CENTERS

Series 280 and 420 Structured Media Enclosures

Command central for home media convergence, Leviton's SMC-280 and SMC-420 home technology enclosures put the home or small office on the cutting edge of the Information Age. By bringing every conceivable technology distribution point together in one place, they make running cable and managing media both simple and more cost-effective. Designed to incorporate a hospital-grade power quality module for maximum protection from line surges, the 28" and 42" high units accommodate all the latest in functions such as home networking, fax, internet (including high speed services such as DSL, cable modems and ISDN), multi-line telephones, security camera, coaxial cable and satellite video distribution, and speaker and volume controls, when equipped with the correct accessories.

The Series 280 enclosure can comfortably accommodate up to 8 different Distribution Modules, depending on selection and density, and the 420 enclosure, with its generous size and capacity for up to 12 modules, can simultaneously manage many diverse functions. Perfect for home office and home entertainment. Make sure you plan all modules before starting the project, and specify the correct size media center.

Note: Module count will depend on the type used; some are larger than others.

Series 280 Panel enclosure with cover

SPECIFICATIONS AND FEATURES

- Multiple knock-outs (up to 2") on top, bottom, sides and back, including two new 2" knock-outs on top, facilitate cable entry and routing from every desired room.
- Six 3" square self-healing foam grommets accommodate cable bundles and protect them from being cut
- Sturdy, one-piece white steel construction.
- Combine two or more enclosures for larger installations or future expansions.
- Holds 1/4, 1/2 and full-width expansion modules with the ability to mount most modules vertically or horizontally.
- Large capacity provides multiple functionality for "wired" homes.
- Powder-coated white cover features a 3/4" overlap to hide irregular drywall cuts.

- Mounting hooks on the cover align screw-holes and reduce the chances of dropping during attachment.
- Holds a broad range of current and future distribution modules, delivering audio, video, voice, data, security, and more to any room of the home or office.
- Threaded inserts added to enclosure to ensure accurate threading of screws when mounting cover
- Can be surface-mounted or recessed. Ideal for new installations or retrofits.
- Knock-out in base of enclosure for mounting of either a single gang J-Box kit or an AC power module
- Designed to accommodate safe, high-quality hospital-grade power module with surge suppression.

Extender Brackets for Leviton Series 280 and 420 Structured Media Centers

The Extender Brackets provide an additional 2" of depth and enhanced ventilation with Leviton's Series 280 and 420 Structured Media Centers (SMCs). The Extender Brackets, which are attached between the enclosure and the cover, form a frame assembled from four 2"-deep sheet metal rails with louvers on each side. The greater depth allows for better cable management and for larger modules, such as audio amplifiers, to be mounted within the Structured Media Centers.

Series 280 and 420 Structured Media Enclosures

DESCRIPTION	CAT. NO.
Extender Bracket 2" depth extension package for Series 280 Structured Media Centers	47612-28B
Extender Bracket 2" depth extension package for Series 420 Structured Media Centers	47612-42B

SPECIFICATIONS AND FEATURES

Extender Brackets

- Made of sturdy white powder-coated 18-gauge sheet metal
- Louvers in the Extender Brackets enhance ventilation for added protection against heat build-up from installed modules
- Two-Year Product Warranty

Media Versatile Panel— For Custom Retrofits and Remodeling

Ideal for custom retrofits and remodeling applications, the Media Versatile™ Panel with 3/8" plywood backing allows an open architecture for consolidating low voltage electronics and distribution components for phone, fax/modem, data, home networking, audio, video and home control. The 24" high cold-rolled steel panel with securable door will accommodate a wide variety of Structured Media Distribution Modules by simply removing the Push-Lock Pins and attaching directly to the plywood backing. The sturdy construction is built to industrial-grade standards, and the panel can be surface mounted or recessed in the wall. (Optional mounting brackets may be used for non-standard stud spacing). Ideal for custom retrofits and remodeling applications. Available in black powder coat finish. UL Listed.

SPECIFICATIONS

Dimensions:	24"H x 14"W x 6"D
Materials:	Powder-coated 18 gauge steel with 3/8" plywood backing
Standards Compliance:	UL Listed.

Media Versatile Panel

DESCRIPTION	CAT. NO.
Media Versatile Panel	47602-24E
Mounting Brackets—(set of 4)	47602-BKE

SPECIFICATIONS AND FEATURES

- Eight 1" or 1.5" conduit fittings on top and bottom facilitate cable entry and routing
- Wall-mount or recess. Ideal for new installations or retrofits
- Securable door provides maximum protection from dust and abuse
- Plywood backing allows open architecture for customizing layout and can accommodate a wide variety of Structured Media Distribution Modules.

Compact Structured Media Enclosure—For Multi-Dwelling Units (MDU's)

Leviton's new Compact Structured Media Enclosure for Multi-Dwelling Units offers a compact, cost-effective distribution point for basic telephone and video to owners/managers of multi-unit buildings. The unit accommodates a variety of telephone/video distribution configurations by hosting up to three Telephone Expansion Boards and one Passive Video Splitter.

SPECIFICATIONS

Dimensions: (Enclosure)	8.03"(204.0) H x 14.40"(365.6) W x 3.71"(94.2) D
(Cover)	9.01"(228.9) H x 15.39"(390.8) L
Materials:	ABS molded plastic
Standards Compliance:	UL94 VO flame-retardant fire rating

Compact Structured Media Enclosure for MDU's

DESCRIPTION	CAT. NO.
Compact Structured Media Enclosure and Cover, empty	47605-MDU
MDU Kit (Compact Structured Media Enclosure & Cover plus 1x6 Telephone Expansion Board)	47604-F6
MDU Kit (Compact Structured Media Enclosure & Cover plus 1x6 Telephone Expansion Board and 6-Way Splitter)	47604-F6S

SPECIFICATIONS AND FEATURES

- Unique modular design has fewer parts and is made exclusively from ABS molded plastic to provide customers with cost savings in installation time
- Flexibility to accommodate a variety of telephone/video distribution configurations
- Snap-on cover requires no tools or fasteners
- Molded-in brackets provide quick snap-in convenience for Telephone Expansion Boards
- Angled video splitter shelf for easy installation
- Hosts up to three Telephone Expansion Boards and one Passive Video Splitter
- Available empty with cover or in two kitted versions with a 1x6 Telephone Expansion Board or with a 1x6 Telephone Expansion Board and a 6-Way Splitter

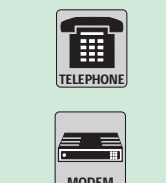

Pre-Configured Structured Cabling Panels

Route telephone, data and video services throughout your home or office with one simple panel. Leviton's Pre-configured Structured Cabling Panels combine some of our most popular voice, data and RF modules to create an economical one-stop home and office media distribution point. See the following pages for available configurations. Some modules are available in expansion styles to fill unused panel slots (see this page). Choose the pre-configured combination that best meets your needs, and enhance with expansion boards or stand-alone brackets.

Panel Components and Expansion Boards

Pre-configured Panels are assembled at the factory and will contain one or more of the following distribution modules.

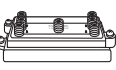

COMPONENTS	APPLICATION	FEATURES	AVAILABLE AS
 <p>1x9 Bridged Telephone Board</p> <p>Basic telephone distribution</p>		<ul style="list-style-type: none"> Bridge up to 4 telephone lines to 9 locations Connect up to 9 separate telephones per line Printed circuit board module 4-pair 110-type IDC punchdowns 	<ul style="list-style-type: none"> Part of a Pre-configured Panel Stand-alone module with bracket Expansion board without bracket

Plastic Mounting Brackets for Leviton Structured Media Centers

The Single Plastic Bracket accepts mounting of any single Leviton phone, data, security or DSL Filter Board within the Structured Media Center to enhance an existing system, for use as a stand-alone solution for voice (with or without security), data and DSL filtering services. The Expansion Plastic Bracket is a full-width bracket that can be populated with up to five Leviton phone, data, security or DSL Filter Expansion Boards in a Leviton Series 140, 280 or 420 Structured Media Center. This unit offers a universal design that accommodates installation of a variety of manufacturers' products.

DESCRIPTION	CAT. NO.
A-Single Plastic Bracket for mounting a single Leviton phone, data, security or DSL Filter Expansion Board in a Leviton Series 140, 280 or 420 Structured Media Center	47612-SBK

SPECIFICATIONS AND FEATURES

All Plastic Brackets

- Made of sturdy white ABS plastic
- Come with push-lock pins
- Snap-in installation in any Leviton series 140, 280 or 420 Structured Media Center
- Allow for cable management via routing under bracket

Universal Security & Shelf Brackets for Leviton Structured Media Centers

The Universal Security Brackets allow for consolidation and integration of security products into any of Leviton's Series 140, 280 or 420 Structured Media Center enclosures. The 6" and 12" Universal Security Brackets accommodate the widest variety of security alarm panels. These 1"-wide brackets are sold in pairs with self-tapping screws and insulating spacers for easy attachment to the panels. The Universal Shelf Bracket provides space for security batteries of various sizes as well as other products to be mounted within Leviton's Series 140, 280 or 420 Structured Media Centers. The bracket comes with four 8" long Velcro® strips to strap down products to the shelf, ensuring both vertical and horizontal stability.

DESCRIPTION	CAT. NO.
A-6" Universal Security Bracket. Comes a set of two 6"-long, 1"-wide brackets with self-tapping screws and spacers for mounting within Leviton's Series 140, 280 or 420 Structured Media Centers	47612-6SB
B-12" Universal Security Bracket. Comes a set of two 12"-long, 1"-wide brackets with self-tapping screws and spacers for mounting within Leviton's Series 140, 280 or 420 Structured Media Centers	47612-1SB
C-Universal Shelf Bracket. Comes with four 8"-long Velcro strips to strap down security batteries of various sizes as well as other products to be mounted within Leviton's Series 140, 280 or 420 Structured Media Centers	47612-UBK
D-Half-Width Universal Security Plate. Comes with a 6" long plate with four adhesive clips for mounting with Leviton's Series 140, 280 or 420 Structured Media Centers	47612-HSB
E-Full-Width Universal Security Plate. Comes with a 12" long plate with four adhesive clips for mounting with Leviton's Series 140, 280 or 420 Structured Media Centers	47612-FSB
F-Combo Bracket is designed to accommodate Leviton products to be installed in most structured wiring enclosures on the market	47612-CBK

SPECIFICATIONS AND FEATURES

All Brackets

- Made of white powder-coated 18 gauge sheet metal
- Come with push-lock pins

Universal Security Brackets

- Allow an unlimited number of upgrades (limited only by the enclosure's size) to be added to an existing security system terminated within any Leviton Structured Media Center
- Sold in pairs with self-tapping screws and spacers to easily connect the largest number of security alarm manufacturers' panels

Universal Shelf Bracket

- Allows security batteries and other products to be mounted inside any Leviton Structured Media Center
- Vertical and horizontal slots on bracket to accommodate Velcro strips, ensuring vertical and horizontal stability

Combo Bracket

- Allows Leviton products to be installed in most non-Levton structured wiring enclosures

Surge-Protective and Standard AC Power Modules and J-Box Kits

Surge AC Power Module or J-Box kit models add clean, safe power to the Series 280 or 420 Structured Media Enclosures (Series 140 enclosure only accepts J-Box kits). Two non-surge protected AC Power Module or J-Box kit units offer an economical method of providing power to distribution modules and, except for built-in surge suppression, offer the same features as the respective surge-protected units. In extremely excessive surge conditions, an alarm will sound to warn the user that power is unprotected. Consists of one (J-Box kit) or two (AC Power Module) 15 Amp Hospital Grade duplex receptacles housed in a powder-coated steel enclosure. They feature EMI/RFI filtering and meet UL 1449 standards.

AC Power Modules for 280 and 420 Series Structured Media Enclosures

SPECIFICATIONS

Dimensions:	10"H x 2.8"W x 2.3"D
Standards Compliance (Surge model only):	UL 1449
Input:	2 @ 15A 120V AC

AC Power Modules for 280 and 420 Series Structured Media Enclosures

DESCRIPTION	CAT. NO.
Surge AC Power Module, Two Duplex Receptacle	47605-DP
Non-Surge AC Power Module, Two Duplex Receptacles	47605-NDP

J-Box Kits for 140, 280 and 420 Series Structured Media Enclosures

SPECIFICATIONS

Dimensions:	3"H.x 2"W.x 2.5"D.
Standards Compliance (Surge model only):	UL 1449
Input:	1 @ 15A 120V AC

J-Box Kits for 140, 280 and 420 Series Structured Media Enclosures

DESCRIPTION	CAT. NO.
Surge J-Box Kit, One Duplex Receptacle	47605-ACS
Non-Surge J-Box Kit, One Duplex Receptacle	47605-ACN

Universal Mini DC Power Supplies

These compact units are designed specifically to fit into Leviton's Series 140, 280 and 420 Structured Media enclosures. They are compatible with any incoming AC voltage in the range of 90 to 264V. The 47605-PSA's 9 12VDC connectors provide up to 40 watts of power and the 47605-PSB's 3 12VDC connectors provide up to 10 watts of power while providing short circuit overload and surge protection as well as EMI/RFI filtering to connected equipment.

DESCRIPTION	CAT. NO.
Universal DC Power Supply, 9 12VDC connectors	47605-PSA
Universal Mini DC Power Supply, 3 12VDC connectors	47605-PSB

SPECIFICATIONS AND FEATURES

- Hospital grade surge-protected units provide greater protection for line-voltage modules, including multi-stage defense (L-N, L-G, N-G)
- Non-surge suppressor units provide an economical method of providing power to active components
- Available with one (J-Box kits) or two (AC Power Modules) 15 Amp duplex receptacles

- Safety clips protect outlets against dust, dirt and debris
- One (J-Box kits) or two (AC Power Modules) cable knock-outs on bottom for power service connection
- Saves valuable real estate by mounting on outside of Structured Media Enclosures
- Meets UL 1449 standards

47605-ACN Non-Surge J-Box Kit

47605-PSB, 47605-PSA
Universal Mini DC Power Supplies

MEDIA CENTER POWER

Snap-In Surge Protection Modules

SPECIFICATIONS AND FEATURES

- Interchangeable modules accommodate changing surge protection needs
- All modules easily snap in to the Cat. No. 3950 Surge Module Bracket
- User-friendly design—no wiring required
- Telephone/Fax/Modem Module acts as a splitter, allowing the connection of two devices

3950-BKT

SPECIFICATIONS AND FEATURES

- Contains six removable double screw terminal jacks.
- Each jack utilizes slot-drive screws.
- Shipped with 6 wires containing 18 gauge connectors and 2.1 mm power plugs.
- Fully regulated (12 volt DC regulated output).

Snap-In Modules for Structured Media Enclosure Surge Module Bracket

Leviton's snap-in surge protective modules provide customized surge protection for all low-voltage communication and data lines in the Structured Media Enclosure. All Series 5950 modules can snap-in to the Cat. No. 3950-BKT Surge Module Bracket. The bracket, allows you to add and change modules to fit specific protection needs. Choose from a selection of protection modules for Digital Satellite Systems, Ethernet systems, Cable TV, Telephone/Fax/Modem and DSL/ADSL equipment. All devices attached to the modules are covered under the Leviton \$50,000 Connected Equipment Warranty.

DESCRIPTION	CAT. NO.
Satellite System/Cable TV Protection Module—4 Standard F-connectors. 3-Amp fuse for over-current. Max. line voltage: 75V DC. Breakdown Voltage Range: 70.4-110 Volts/Sec	Beige—5951-SA Grey—5951-SAT Ice—5951-SAC
Ethernet Protection Module (10 Base-T Applications)—Two RJ45 connectors to protect two pair of transmit/receive lines. 10-Amp automatic Resettable PTC fuses. Max. operating voltage: 16.6V DC. Breakdown Voltage Range: 2.62-19.2 Volts/Sec	Beige—5952-ET Grey—5952-ETH
Cable TV System Protection Module—Two Standard F-type connectors. 3-Amp fuse for over-current. Max. line voltage: 75V DC. Breakdown Voltage Range: 70.4-110 Volts/Sec	Beige—5953-PC Grey—5953-PCG Ice—5953-PCC
Telephone/Fax/Modem Protection Module—Three RJ11, 4-wire/2-pair connectors. 3-Position splitter allows for connection to a common line. 3-Amp fuse for over-current protection. Max. operating voltage: 150V rms (including ring voltage). Breakdown Voltage Range: 162-331 Volts/Sec	Beige—5954-AT4 Grey—5954-PT4 Ice—5954-CT4
DSL/ADSL Subscriber Equipment Protection Module—Three RJ11, 4-wire/2pair connectors. 3-Amp fuse for over-current protection. Max. operating voltage: 150V rms (including ring voltage). Breakdown Voltage Range: 162-331 Volts/Sec	Beige—5955-DT Grey—5955-DTG

DC Power Distribution Module

The DC Power Distribution Module is a unique solution to the need for high quality electrical power for the separate DC-powered components in the Structured Media Enclosure. This module reduces clutter and opens-up space in the Structured Media Enclosure by eliminating the need for multiple DC transformers. Powered by a single DC power supply, the Power Distribution module provides fully-regulated 12 VDC power for up to 6 devices.

SPECIFICATIONS

Input:	110V AC
Output:	Provides 13V DC power for up to 6 devices 1500mA
Compliance (Surge model only):	UL 1449
Dimensions:	6.58"H x 2.5"W x 1.5"D
Wire Gauge:	Up to 12 gauge

DC Power Distribution Module

DESCRIPTION	CAT. NO.
DC Power Distribution Module	48212-ODC

Structured Media™ Modules—Internet Connection Sharing and Multi-Location Networking

10/100 Internet Gateway Cable/DSL Broadband Router*

Leviton's 10/100Mbps Internet Gateway (a.k.a router) allows multiple users to securely share a single, protected high-speed Internet connection.

10/100 base-t switches*

At 10/100Mbps speeds, these units are excellent choices for networking PC's to meet a wide range of residential needs such as sharing files, printers and other peripherals.

*Networked PC's and peripherals require compatible networking cards or adapters and associated software.

Cat No. 47611-GT4
10/100Mbps Internet Gateway Router

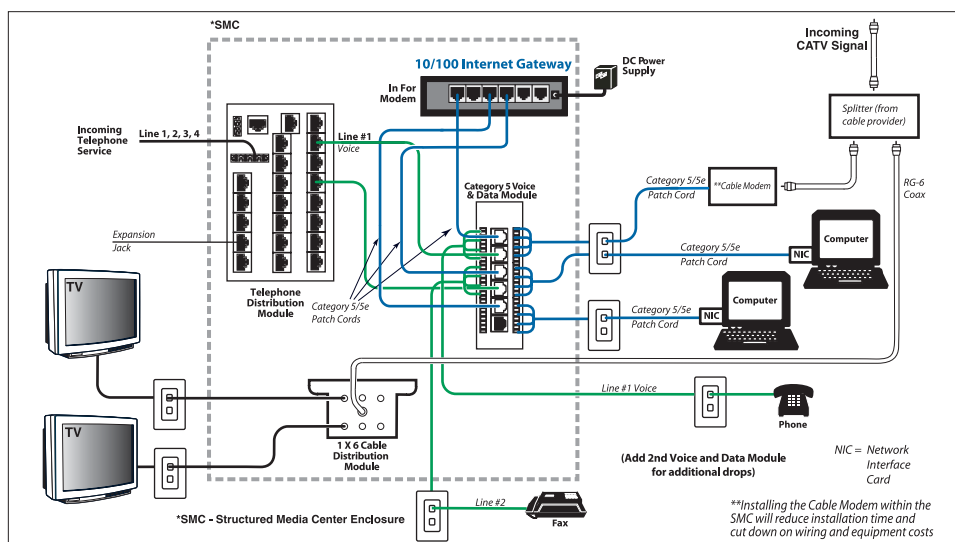

10/100 Base-T Switches and 10/100 Base-T Internet Gateway Router

SPECIFICATIONS	10/100BASE-T 5-PORT (OR 8-PORT) SWITCHES	10/100 BASE-T INTERNET GATEWAY ROUTER
Data Transfer Rate	10/100 Mbps	
Connectors	5 (or 8) ports, 1 AC Power Adapter Jack	4 LAN ports, 1 WAN port, 1 Uplink port, 1 AC Power Adapter Jack

Cable Distribution—Modem Outside the Structured Media Center

47611-5PT

47611-8PT

SPECIFICATIONS AND FEATURES

- Connects up to 4 devices directly (up to 253 computers via a series of cascaded devices) to the Internet using a single shared high-speed DSL, cable modem, or Satellite connection
- Allows fast Internet access at up to 100 Mbps
- Permits creation of a private high-speed home area network (HAN) or local area network (LAN) in small office/home office (SOHO) environments for all connected computers with its fast, integral 10/100Mbps auto-sensing Ethernet ports
- High performance suitable for demanding home office and telecommuting applications, including sharing of high-speed and high-capacity devices such as storage devices and back-up systems.
- Network Address Translation technology (NAT) creates a firewall that securely cloaks the private network from outside access
- Pass-through IPSEC and ISAKMP protocols allow attached LAN users to implement secure Virtual Private Network (VPN) communication applications on their PC's.
- Built-in DHCP server for easy setup and allocation of IP addresses on the LAN.
- Connections are made by running cable from desired locations to a Category 5e Voice and Data Module (either a stand-alone module page J10, or one of the units in the Pre-Configured Structured Cabling Panels page J9). From there, Category 5 or 5e patch cord can be used to connect the Gateway to the Category 5e Module.
- Network protocols: TCP/IP, DHCP, DNS, NAT, TFTP, HTTP, PPOE. Not PPOA
- Auto detect uplink: Use any port to cascade additional switches, hubs or routers

CATV 1GHz Video Distribution Modules

Cable service providers are converting to digital systems. These new systems will squeeze hundreds of channels plus Internet service onto the coax line. Leviton's high-performance CATV modules can support these new systems while limiting noise and other artifacts. Modules can distribute standard inputs such as CATV and antennas, and modulated inputs such as VCR's, DVD's and security camera/CCTV on coaxial cable throughout the house. Signals can be precisely controlled through the modules' built-in amplifier/attenuator (-5 to +15db) to compensate for variations in incoming signal strength for the clearest possible reception*.

Incorporates state-of-the-art bi-directional signal paths to support cable modem or cable box communications throughout a home or office. Choose from one or three-input models; both come with 8 outputs. One and three-input models come in both nickel-plated and gold-plated connector versions.

Dimensions: 3.50"H x 6.50"W x 3.20"D, Connector: F-Type, Impedance: 75 Ohm, Power Input: 12 VDC, 500 mA (1x8 & 3x8).

*Not for use in-line between 1 satellite dish (LNB) and DBS satellite TV receiver.

Video Amplifier

Run cable TV and other video service signals, such as antenna or other modulated input through this Video Amplifier Module and boost video signal strength up to 25 dB. Features a variable attenuator for signal amplification level setting, and an FM trap to eliminate unwanted FM interference.

SPECIFICATIONS

Dimensions:	6.58"H x 3.67"W x 4.4"D
Frequency Range MHz:	50-1000
Gain Control Range dB:	10-25dB
FM Trap dB:	25
Impedance:	75 Ohm
Connector Type:	F-type
Power Source:	12 VDC 500 mA

Video Amplifier

DESCRIPTION	CAT. NO.
Video Amplifier Module	48210-VA

48210-VA

SPECIFICATIONS AND FEATURES

- Run cable TV or other video signals through the Video Amplifier before splitting and distributing throughout the home or office.
- Boost signal strength by up to 25 dB.

VIDEO DISTRIBUTION

1 GHz Modules

1 GHz Video Splitters

SPECIFICATIONS AND FEATURES

- Splits video signals. Outputs for up to 4, 6 or 8 televisions.
- Provide digital cable, cable TV and other video services, via coaxial cable, to any room in the house.
- Die-cast housing and printed circuit board.
- Use with the Video Amplifier for increased signal strength.
- Units for SMC 140, 280, 420 come with mounting bracket.
- Gold-flashed contacts on 2 GHz units provide lowest conductive resistance.

47691-3MS

47691-5MS

SPECIFICATIONS AND FEATURES

- Distributes digital satellite signals to up to 4 TVs (47691-3MS) or 8 TVs (47691-5MS).
- Combines signals from digital satellite with off-air antenna onto single coax cable.
- DSS 75 Ohm and 2.0 GHz Combiner/Diplexer with DC Blocking, Cat. No. 40856-DSS, is available to separate antenna and cable signals.

Passive Components

Use 4-, 6- and 8-way Passive Video Splitters to split digital cable, quality cable TV and off-air antenna signals to 4, 6, or 8 televisions throughout the home or office. They feature die-cast housing and printed circuit board construction. Use with the Video Amplifier for increased signal strength.

1x4, 1x6, 1x8 Passive Video Splitters

1x8 Passive Video Splitter For Compact Structured Media Enclosure (2GHz)	47690-G8

Satellite Distribution Components

3x4 Multi-Switch—Passive module combines signals from dual incoming LNB digital satellite systems with off-air antenna signals on a single coaxial cable, enabling distribution to up to 4 TV's. Module incorporates a separate input for TV antenna signals (best used in combination with a video amplifier).

5x8 Multi-Switch—Active module combines signals from two dual incoming LNB digital satellite systems with an off-air antenna or cable signals on a single coaxial cable, enabling distribution to up to 8 TV's. Works with HDTV or standard receivers and with integrated multi-switches at the satellite dish; also works with DirecTV® systems. Equipped with built-in low noise amplifier and 24VDC power supply.

Leviton Video Monitoring System

Leviton's easy-to-install, high-resolution color video cameras only require one CAT 5e cable for video and power connections, both of which are supplied by a Camera Hub in the SMC. The Camera Hub installs in a single Leviton bracket space in the SMC and the cameras mount with only two screws on a low voltage ring (Indoor Camera) or outdoor electrical box (Outdoor Camera). Standard 110 IDC terminations and 8P8C jacks make the UTP cable connections quick, simple and reliable. Indoor Camera fits in a Decora style wallplate and comes with clear and tinted lens covers. The Outdoor Camera provides 0 Lux operation with IR illumination.

The Leviton IP/Quad Module enables users to view a full-screen single Indoor or Outdoor camera view or multiple cameras, up to four at once in the same "quad" view, on one or more TV sets in the home, or via the Internet from any location using an Internet browser on a PC. Mount s directly in SMC with integral mounting bracket.

Video Monitoring System Components

DESCRIPTION	CAT. NO.
Indoor Color Camera	VSIND-OSC
Outdoor Color Camera	VSOUT-00W
Camera Hub	VSHUB-000
IP/Quad Module	VSQIP-000

VSIND-OSC

VSOUT-00W

VSHUB-000

VSQIP-000

SPECIFICATIONS AND FEATURES

Camera Hub

- Powers camera engines over UTP connection up to 100 meters

Indoor Camera

- Includes balun for clear video over UTP cable
- Includes 15VDC input power terminals for separate power cable where UTP run exceeds 100 meter limit
- Internal strap allows viewing angle adjustment
- Fits standard Decora plate with snap-in clear or smoked inserts

Outdoor camera

- Auto-on infrared LEDs for B&W video images in zero Lux conditions
- Includes balun for clear video over UTP cable

- Includes 15VDC input power terminals for separate power cable where UTP run exceeds 100 meter limit
- Mounts via special single-gang wallplate.
- Ball-joint strut allows 360° rotation and +/- 90° tilt viewing angle adjustment

IP/Quad Module

- Mounts directly to the SMC with integral mounting bracket
- Enables user to view Indoor and Outdoor Cameras on one or more TV sets in the home or via the Internet from any location using an Internet browser on a PC
- Easy browser setup and control of all cameras, including camera name, sensitivity, brightness, contrast, saturation, hue, and single or multiple camera display mode

HOME VIDEO MONITORING SYSTEM

48213-VMA

SPECIFICATIONS AND FEATURES

- RCA video and audio inputs.
- F-Connector output: 14-69 UHF; 70-94, 100-125 CATV.
- DC power supply.

Media Center Modulator

The Media Center Modulator takes the signal from a video device such as a security camera (or multiple cameras using the Video Sequencer) and modulates the signal to one unused cable TV channel, which can then be combined with the CATV signal to multiple locations anywhere in the home, effectively providing a whole-house security channel.

Select the broadcast channel to be programmed via dip-switch button programming. The modulator provides 0, 10, 20 or 30 dBmV RF output.

Note: Modulator broadcasts mono audio only. In a Structured Media System, when used with Structured Media Video Distribution modules, the Modulator must be used with a Leviton Notch Filter (PN 47690-NFA) to clear the target cable channel and avoid interference.

SPECIFICATIONS

Dimensions:	3.2"H x 2.25"W x 1"D
Inputs:	RCA video, RCA audio inputs
Outputs:	1 F-connector for RF signal
Operational channels:	14-69 UHF; 70-94, 100-125 CATV
Bandwidth:	50MHZ-860MHZ
Power:	12V DC 400mA

Media Center Modulator

DESCRIPTION	CAT. NO.
Media Center Modulator	48213-VMA

48213-CVS

SPECIFICATIONS AND FEATURES

- Inputs for up to four video cameras and audio sources.
- Automatic switching between cameras.
- 1-30 second variable time setting between cameras.
- RCA composite audio/video inputs and outputs.

Video Sequencer

The Structured Media Video Sequencer, which automatically switches between video cameras, is a security product engineered for long-term home use. With the Video Sequencer, up to four Decora Cameras* may be monitored sequentially. The Sequencer allows a variable time-interval setting from 1-30 seconds on each camera to allow thorough surveillance of any perimeter or interior. The Video Sequencer has four composite RCA audio/video inputs and two sets of RCA outputs to connect with a monitor or modulator. It snaps into a 280 or 420 Structured Media Center.

SPECIFICATIONS

Dimensions:	7.4"H x 4.75"W x 2"D
Power:	12 VDC @ 300mA
Inputs:	Four RCA video; Eight RCA left/right audio
Outputs:	2 RCA video and 4 RCA left/right audio
Time interval:	1-30 seconds, variable/adjustable
Signal to Noise Ratio:	<1.2dB
Bandwidth:	5MHz

Video Sequencer

DESCRIPTION	CAT. NO.
Video Sequencer	48213-CVS

**Not for use with Indoor/Outdoor B&W Camera with built-in modulator (Cat. No. 48213-BMC).*

Indoor/Outdoor B&W Camera with Built-in Modulator

The Indoor/Outdoor B&W Camera allows monitoring of front doors, back yards, and anywhere an extra eye is desirable. It is designed to withstand temperature and environmental extremes when mounted in a suitable location.* The camera uses a single wire for power and video making installation easy. Output is controlled by a dip-switch inside the camera housing. Permits 360° horizontal adjustment and 180° vertical adjustment.

**Recommended mounting is in a sheltered location such as under an eave or overhang and away from direct exposure to rain and snow.*

Not for use with video sequencer

SPECIFICATIONS

Dimensions:	Base 5.5" x 4.5"
Power:	12 VDC, 300mA
Output Connection:	F-Connector, 75 Ohm
Camera Lens:	3.6 mm
Resolution:	350+ lines
Minimum Illumination:	0.7 lux
Output Level:	27 dBmV
Output Frequency:	UHF 14-69, CATV 70-94, 100-125
Cable Type:	RG 59, RG6 or better

Indoor/Outdoor B&W Camera with Built-in Modulator

DESCRIPTION	CAT. NO.
Indoor/Outdoor B&W Camera with Built-in Modulator	48213-BMC

RF Notch Filter

The RF Notch Filter is an essential element of Home Security Monitoring and Multi-Room Video. It blocks incoming cable TV channels 75-80, allowing the Media Center Modulator or Component Modulator to broadcast an in-house "security" or "entertainment" channel over the coaxial cable system without interference. The Notch Filter simply couples to the coaxial cable TV input on either a splitter or an active video distribution device. Once installed, it filters out six cable channels to make room for any home security or entertainment video application. It also blocks outgoing signals, such as cameras, from being broadcast outside the home.

SPECIFICATIONS

Dimensions/Weight:	3"L x .9"W – 2lbs
Type:	Passive RF filter
Bandwidth:	CATV channels 75-80
Input:	Female F-connector
Output:	Male F-connector

RESIDENTIAL INTERCOM SYSTEM

Leviton brings the home intercom into the 21st century with the introduction of its new Residential Intercom system for Structured Media™ installations. Available as a series of easy-to-install components, the Residential Intercom system is designed to incorporate easily into the category 5-based modular structured wiring systems that have become a standard feature of today's high-tech homes.

DESCRIPTION	CAT. NO.
A-Intercom Kit (includes Main Controller Board, 1 Interface Board on a bracket with 1 Outdoor station)	47000-MKB
B-Main Controller Board	47000-00M
C-Outdoor Station (Brushed nickel finish)	47000-0D1
D-Indoor Station (White)	47000-0W1
E-Indoor Station (Black)	47000-0E1
F-Door Strike Module	47000-STR
G-Interface Board with 4 additional ports	47000-PRT
H-Door Chime Module	47000-CHM

SPECIFICATIONS AND FEATURES

- Main controller board installs easily in SMC
- System integrates with other services in SMC (phone system, door strike, lighting controls, door bell, dry contact security devices and Indoor and Outdoor Stations)
- Supports up to 12 wall station locations in four zones
- Onboard firmware for music-on-hold
- Answering machine function for message and message taking for intercom activations
- Allows call-on-hold for hang-up at one location and pick-up at another
- Allows whole-house paging, including phone-to-phone paging
- CCTV capability integrated in Interface Board

Leviton Architectural Edition™ powered by JBL Products and Systems

When music and film professionals who create and record sound for a living have to “get it right,” they insist on JBL. Because they know JBL systems will faithfully deliver all the clarity, accuracy and impact of the original performance. When it comes to entertaining at home, why settle for less than the recording industry’s best? Especially when Leviton makes it easy to build premium JBL sound right into the home and enjoy music, movies and more with the same legendary quality heard in concerts, clubs, recording studios, and from behind the screens of the best theaters in the world.

The Leviton Architectural Edition powered by JBL program transforms a living room into a cinema, a deck into an outdoor concert, a kitchen into an elegant bistro, a dining room into a dance hall. Even a master bath turns into a luxurious private retreat. Most important, Leviton/JBL systems are the product of precision engineering, advanced audio technology, painstaking craftsmanship and the latest advances in materials— the same technologies, features and performance that make JBL the first choice of professionals. And they are offered through a select network of quality homebuilders and trained installation professionals working with Leviton, the leader in residential connectivity and home networking systems.

Leviton Architectural Edition™ powered by JBL Indoor In-Wall and In-Ceiling Speakers

Leviton/JBL multi-room In-Wall and In-Ceiling Speakers can deliver a professional listening experience in the home because they incorporate the same features and technologies found in JBL’s renowned family of professional studio monitors, including an Elliptical Oblate Spheroidal™ (EOS) Waveguide for improved high-frequency dispersion throughout a listening area, Titanium-laminate drivers to ensure musical accuracy and clarity, and HeatScape™ magnetic structures for impact and bass realism.

6.5-Inch (170mm) Two-Way In-Wall Loudspeaker

Acoustically transparent paintable baffles and grilles. 1” (25mm) Titanium laminate dome tweeter and 6.5” (170mm) Titanium-laminate woofer, Frequency Response (-10dB): 38 Hz-20 kHz, Sensitivity (2.83V/1m): 88 dB, Power Handling: 80 Watts, Impedance: Nominal 8 Ohms, Dimensions: 11” (279mm) H x 8.5” (226mm) W x 3.87” (98mm) D. Weight: 5 lb/2.3 kg per speaker. Sold in pairs.

DESCRIPTION	CAT NO.

Leviton Architectural Edition™ powered by JBL Outdoor/All-Weather Speakers

As the brand delivering sound in more concert venues than any other (including all three Woodstock festivals) JBL is extremely qualified to bring premium sound outdoors. These outdoor speakers are engineered to withstand long-term exposure to the elements right down to their weatherized grilles and input connectors. They are also ideal for indoor pools, atriums and other large open spaces where enclosure speakers with large-area coverage are desired.

Outdoor/All-Weather Two-Way Loudspeaker

Professional-grade injection-molded weather-resistant ported base-reflex enclosure with metal-mesh grille, .75" (19mm) Titanium laminate dome tweeter and 4" (100mm) WeatherPlas™ (polymer-coated cellulose fiber cone) woofer with rubber surround, high-temperature/oversized Kapton® voice coil and HeatScape™ motor structure, Frequency Response (-3dB): 75 Hz-20 kHz, Sensitivity (2.83V/1m): 86 dB, Power Handling: 100 Watts, Impedance: Nominal 8 Ohms, Dimensions: 9.5" (241mm) H x 6.25" (159mm) W x 4.75" (121mm) D. Weight: 4.5 lb/2.1 kg per speaker. Sold in pairs.

DESCRIPTION	CAT NO.
Outdoor/All-Weather Two-Way Loudspeaker	AEN24

Outdoor/All-Weather Three-Way Loudspeaker

"Extreme performance" three-way professional-grade sealed enclosure speaker with all-metal, gold-plated binding posts for outdoor applications and for music and home theater installations (as a satellite with a subwoofer system). 1" (25mm) Pure Titanium laminate dome tweeter, 4" (100mm) WeatherPlas™ shielded midrange with Linear Field Proximity (LFP) bezel and 6" (150mm) WeatherPlas™ (polymer-coated cellulose fiber cone) woofer with rubber surround, high-temperature/oversized Kapton® voice coil, Frequency Response (-3dB): 60 Hz-20 kHz, Sensitivity (2.83V/1m): 90 dB, Power Handling: 150 Watts, Impedance: Nominal 8 Ohms, Dimensions: 10.25" (260mm) H x 14.62" (371mm) W x 5" (127mm) D. Weight: 11 lb/5 kg per speaker. Sold in pairs

DESCRIPTION	CAT NO.

Leviton Architectural Edition™ powered by JBL Home Theater Speaker Components

JBL systems measure-up to higher standards than "home" theater, because more JBL speakers are found in film recording studios and behind the screens of the worlds best movie theaters than any other brand. This select group of installed and enclosed speakers for residential home-theater applications can bring cinema realism to any living room.

Two-Way In-Wall Center Channel Speaker

Can be used in front-speaker home theater applications either singly with Leviton/JBL In-Wall left and right speakers or in a matched set of three left/right/center speaker in ultra-premium installations. Acoustically-transparent paintable baffle and grille. 1" (25mm) Pure Titanium dome tweeter and two 5" (125mm) Polymer-coated aluminum woofers, Frequency Response (-10dB): 40 Hz-20 kHz, Sensitivity (2.83V/1m): 88 dB, Power Handling: 120 Watts, Impedance: Nominal 8 Ohms, Dimensions: 7.5" (191mm) H x 15.37" (391mm) W x 3.87" (98mm) D. Weight: 5.7 lb/2.5 kg per speaker. Sold individually

DESCRIPTION	CAT NO.
Two-Way In-Wall Center Channel Speaker	AEI55

Dual 5-Inch (125mm) Two-Way Shelf-Mount Center Channel Loudspeaker

Enclosed free-standing, shelf-mounted center-channel speaker to accompany in-wall installed left and right speakers like the Leviton/JBL AEI65, AEI80 and AEI55. .75" (19mm) Titanium laminate dome shielded tweeter and two 5" (130mm) PolyPlas™ shielded woofers, Frequency response (-3dB): 75 Hz-20 kHz, Sensitivity (2.83V/1m): 90 dB, Power Handling: 75 Watts, Impedance: Nominal 8 Ohms, Dimensions: 6.5" (165mm) H x 20.25" (514mm) W x 9.62" (244mm) D. Weight: 9.6 lb/4.4 kg per speaker. Sold individually..

DESCRIPTION	CAT NO.
Dual 5-Inch (130mm) Two-Way Shelf-Mount Center Channel Loudspeaker	AECCS

Powered 12-Inch Subwoofer

Freestanding front firing, powered (amplified) subwoofer to reinforce in-wall and in-ceiling installed systems in home theater viewing. High-efficiency, high current switched amplifier. Variable low-pass crossover and output level (volume) control. 12" (300mm) PolyPlas™ woofer with heat-resistant voice coil, front-firing enclosure. Amplifier output (RMS): 300 Watts, Dynamic power (peak): 600 Watts, Frequency response (+/- 3dB): 25 Hz low-pass crossover setting (variable), Dimensions: 19.75" (502mm) H x 14.37" (365mm) W x 18" (457mm) D. Weight: 39.5 lb/18 kg. Sold individually.

DESCRIPTION	CAT NO.
Powered 12" Subwoofer	AESUB

Leviton Architectural Edition™ powered by JBL On-Wall Home Cinema Speaker System

An ideal solution for home theater locations where an in-wall/ in-ceiling installed home theater speaker solution is impractical but full performance is desired (such as in room corner installations). This is a 5-channel surround-sound package that is expandable to 6.1 or 7.1 surround-sound operation with the addition of optional matched AESS5 Expansion Satellite Speaker(s). Includes 5 mounting brackets and subwoofer input RCA cable. Available in White or black finish

Home Cinema Speaker System

Speaker Complement: Five 2-way magnetically shielded satellite speakers with high-output 2.5" (63.5mm) woofer and precision .5" (12.7mm) tweeter, and one 8" (200mm) 100 watt powered subwoofer with LFE input, adjustable level control, and built-in crossover network for use with speaker-level outputs. Enclosure: Bass-reflex with FreeFlow™ flared port, Recommended power range: 10-100 Watts, Subwoofer Frequency Response (+/- 3dB): 150 Hz-20kHz, Satellite Speaker Sensitivity (2.83V/1m): 86dB, Satellite Impedance: Nominal 8 Ohms, Dimensions (Subwoofer): 16.25" (413mm) H x 11" (279mm) W x 13.75" (349mm) D, Dimensions (Satellite Speaker): 5" (127mm) H x 3.5" (88mm) W x 3.5" (88mm) D Subwoofer weight: 28 lb/12.7 kg.

Expansion Satellite Speaker

One 2-way magnetically shielded satellite speaker with high-output 2.5" (63.5mm) woofer and precision .5" (12.7mm) tweeter. Recommended power range: 10-100 Watts, Frequency Response (+/- 3dB): 150 Hz-20kHz, Speaker Sensitivity (2.83V/1m): 86dB, Impedance: Nominal 8 Ohms, Dimensions (Satellite Speaker): 5" (127mm) H x 3.5" (88mm) W x 3.5" (88mm) D Weight: 1.8lb/0.8kg per speaker.

Audio/Video Entertainment Center Components and Accessories from Harman/Kardon™

There is no better way to assure the highest performance and value from a state-of-the-art Leviton/JBL than to power it with matched Harman/Kardon Entertainment Center. The Harman/Kardon components available as part of the Leviton/JBL program represent a summary of today's most advanced analog and digital audio and video technologies—and ensure full compatibility with the home entertainment formats and platforms of the future.

Harman/Kardon Audio/Video Receivers

Harman/Kardon 7.1-channel digital audio/video receivers offer a wealth of listening and viewing options, including high-current amplifier design for accurate tracking of musical and audio/video source information, the latest HDMI audio/video input and switching, auto speaker calibration for surround sound perfection, multi-room audio, XM Satellite Radio and I-Pod capability, and much more, all in a elegant package.

DESCRIPTION	CAT NO.
7.1 Channel Surround Sound A/V Receiver, w/HDMI™ Switching and A-BUS®	HKAVR-XXX*
7.1 Channel Surround Sound A/V Receiver, w/HDMI™ Switching	HKAVR-XXX*

High-Performance Single-Disc DVD Player

Advanced video performance requires a maximum resolution source, because the best TV screen is only as good as what's fed into it. The Harman/Kardon progressive-scan DVD Player is equal to the task, with HDMI output, DCDi by Faroudja video processing, and up-scaling to 1080i high-definition playback.

DESCRIPTION	CAT NO.
High-Performance Single-Disc DVD Player with HDMI Output and 1080i Upscaling	HKDVD-038*

High-Definition 5-Disc CD Carousel Changer

The Harman/Kardon Changer compliments your multi-room audio system by delivering hours of music with a wide range of programming options to customize the mix – and advanced digital signal processors and digital output capability to ensure that every musical note is delivered free from distortion.

DESCRIPTION	CAT NO.
High-Definition 5-Disc CD Carousel Changer	HKDC-000*

The Bridge™ iPod Docking Station

The Bridge docking station allows your favorite iPod tracks and playlists to be controlled and heard through an entire home entertainment system when used with a compatible Harman/Kardon A/V Receiver.

DESCRIPTION	CAT NO.
The Bridge™ iPod Docking Station	HKPOD-000*

Infrared Remote Sensor

The low-profile IR remote sensor can be placed conveniently to control audio and video components with a compatible receiver's remote control even when they are in a cabinet or entertainment center. All Harman/Kardon AV products can be connected together so that one IR Sensor can operate them all.

DESCRIPTION	CAT NO.
IR Remote Sensor	HKRMS-000*

Harman/Kardon™ A-BUS® System

Multi-room music is easy with these amplified volume controls and distribution hub. The hub simply plugs into the back of an A-BUS Ready® Harman/Kardon (or other brand) A/V Receiver, and sends a selected sound source to up to four rooms/zones where the amplified volume controls take over. The system is ideal for background and casual indoor audio entertaining applications.

Amplified In-Wall A-BUS Volume Control

A Decora up/down amplified rocker-style volume control for dedicated speakers in a single room/zone for use with any A-BUS Ready Harman/Kardon A/V Receiver. Also accepts control commands to A/V receiver or other compatible components via a built-in IR sensor.

DESCRIPTION	CAT NO.
Amplified In-Wall A-BUS® Volume Control	HKABV-000*

A-BUS® Hub 4-Zone System Expansion

When used with the A-BUS interface on compatible HKAVR A/V Receivers, it allows the A/V Receiver to operate up to four rooms/zones of distributed audio (with HKABV Volume Controls and connected speakers).

DESCRIPTION	CAT NO.
A-BUS® Hub 4-Zone System Expansion	HKABH-000*

Leviton Architectural Edition™ Multi-Room Audio Amplifiers

Leviton's AE6MA and AE6MC Architectural Edition Multi-Room Audio Amplifiers combine advanced audio engineering, high-current performance and tremendous value in a single low-profile chassis that delivers superior multi-channel amplification to meet the needs of the most demanding residential multi-zone systems. Combining "audiophile" sound quality with commercial reliability, these amplifiers are a no-compromise solution for large, high-output multi-room listening systems. The amplifiers are designed for long-term use with advanced circuit protection and a thermostatically-controlled cooling fan. The AE6MA is a perfect balance of performance and simplicity, with input source flexibility through a unique "electronic channel link" feature that enables different single sources to be assigned to different rooms/zones. The AE6MC is the ultimate in listening flexibility, with advanced LCD keypads that enable the selection of up to seven different audio sources in any room with full independent control.

AE6MA

AE6MA-back

Single-Source 12 Channel (6 Stereo Pairs) Six-Room/Zone Multi-Channel Power Amplifier

Output power: 50 Watts nominal (40 watts per channel 20Hz to 20kHz @ <0.2% THD, all channels driven into 8 ohms); Peak output power: 100 watts per channel; Inputs: Gold-plated RCA jacks with adjustable input gain; Outputs: 5-way gold-plated binding posts; Total Harmonic Distortion (THD): Less than 0.1% 20 Hz to 20 kHz; Signal-to-noise ratio: Over 105 dB; Fan noise: Quiet 28 dB; Dimensions: 3.5 in (89mm) H x 17 in (432mm) W x 11.5 in (292mm) D

AE6MC-PAD

SPECIFICATIONS AND FEATURES

Single-Source 12 Channel (6 Stereo Pairs) Six-Room/Zone Multi-Channel Power Amplifier

- Automatic protection circuitry
- Individual input gain adjustment
- External power ON/OFF through external controllers
- Channel Link allows channels to have individual sources or share a common source
- Cooling fan prevents overheating and maximizes energy efficiency

Single-Source 12 Channel (6 Stereo Pairs) Six-Room/Zone Multi-Channel Power Amplifier

- Seven source input selection for each amplifier

- RS-232 port for use with whole-house and PC-based compatible control systems
- Six internal 80+ position stereo volume controls
- High efficiency/small space.
- Automatic protection circuitry
- Individual bass, treble and balance adjustment of speakers in each room
- External power ON/OFF through external controllers
- All-zone control through use of AE6MC keypad
- Cooling fan prevents overheating and maximizes energy efficiency

An entertainment system is like a chain – it can only be as strong as its weakest link. The Leviton Architectural Edition series of products was developed to make sure that every link in the system—volume controls, distribution and connection components, even multi-room amplifiers—have no weak points and are as “state-of-the-art” in performance as the systems’ speakers. The Leviton Architectural Edition is a complete solution for entertainment system designers and installers. Leviton’s award-winning System Matching module and Strauss™ Transformer-Free volume controls use advanced aerospace technology to deliver ruler-flat frequency response to every zone of a multi-room audio system. The Architectural Edition multi-room audio amplifiers combine advanced audio engineering, high-current performance and tremendous value in a single low-profile chassis that delivers superior multi-channel amplification to meet the needs of the most demanding residential multi-zone systems. The advanced circuit engineering inside Leviton’s home theater and multi-room wallplates means that audiophile-grade connectivity can be easy and quick to install.

Composer Series Volume Controls

Leviton’s Composer Series controls are built to a single quality standard, which means system designers can specify them for any distributed sound application with total confidence. (Leviton’s Strauss and Chopin Digital Volume controls use the same heat-dissipation technology used on the space shuttle and resistive switching to achieve ruler-flat frequency response.) On the Brahms rotary controls, tapped auto-transformer design provides a stable interface between high-current amplification and speakers of virtually any type while resisting contamination from dust and dirt. All audio power ratings are UL referenced. All volume controls feature screw connectors for long-term connection integrity.

Decora® Strauss™ Transformer-Free™ and Impedance Matching Transformer-Free™ Volume Controls

In multi-room distributed audio systems, the source of undesirable speaker coloration (usually perceived as a “muffled” sound) is often the volume control itself, because the audio transformers (AKA: autoformers) used in conventional controls can actually filter the bass and treble frequencies. The Decora Strauss Transformer-Free Volume Controls use audio-grade Cermetile resistors to change volume levels while leaving the audio signal unaffected, resulting in ruler-flat frequency response across the entire audible frequency range. Moreover, Decora Strauss Transformer-Free Volume Controls eliminate the problem of “saturation” associated with conventional volume controls and can handle tremendous amounts of music power. Available in standard and impedance-matched versions.

SGVST-00W

SPECIFICATIONS

Speaker Impedance:	2-16 Ohms (nominal 8 Ohms)
Power Handling:	200W peak/100W RMS
Frequency Response:	20Hz-20KkHz +/- 1dB
Dimensions:	4.06"(103.1) H x 1.32"(33.5) W x 2.5"(63.5) D
Mounting:	Standard single-gang design with a mounting depth of 2.5"
Wire Gauge:	Detachable cable connectors are compatible with all standard speaker wire sizes (14-18 gauge)
Color:	White (Optional color change kits available)

Decora Strauss Transformer-Free Volume Control

DESCRIPTION	CAT NO.—WHITE
Decora Strauss Transformer-Free Impedance-Matched Volume Control	SGVSM-00W
Decora Strauss Transformer-Free Volume Control	SGVST-00W

Color change kit converts to Ebony	SGVCK-00E
Color change kit converts to Light Almond	SGVCK-OLA

SPECIFICATIONS AND FEATURES

- Decora slide control with precision 12-position switch (including fully-OFF position)
- Transformer-Free™ volume controls deliver rich, full sound at any volume level in any room
- Aerospace-grade Cermetile resistors replace conventional autoformers to maintain audio signal purity
- Detachable cable connector is compatible with all standard speaker wire (14-18 gauge)

Decora Digital™ Chopin™ Volume Control

Fill a room with high-quality audio at the touch of a button, replacing traditional transformers and rotary controls with this advanced interface module and one-touch Decora Chopin Rocker-Switch Wall Unit. Attractive Decora styling and transformer-less design delivers simplicity and superior sound-quality, and enables “three-way” volume control operation in larger rooms/zones. The Volume Control mounts in a standard wall box or low-voltage mounting bracket and connects via Category 5 cable to the Interface Module.

SPECIFICATIONS

Peak RMS Power Rating:	200 Watts per channel
Continuous Power Rating:	100 Watts RMS per channel
Frequency Response, all rated power levels, +/-0.1 dB:	DC-50,000 Hz
Speaker Impedance:	4-16 Ohms nominal
Speaker/Amplifier Connection:	Removable, snap-in audio monoblock w/screw terminals
Power:	12 Volts DC, 200 mA

DESCRIPTION	CAT. NO.
Decora Digital Volume Control Kit (Includes Interface Module and Wall Unit with Power Supply)	48211-WVK
Decora Digital Volume Control Wall Unit	48211-WVC

Brahms Autoformer Volume Controls

On the Brahms series of rotary controls, tapped auto-transformer design provides a stable interface between high-current amplification and speakers of virtually any type while resisting contamination from dust and dirt.

Brahms™ Stereo Volume Controls—75 Watt Audio

The 75 Watt Brahms series (25 Watts RMS) of volume controls is designed for low to moderate power installations in the home. The units accommodate 4, 8 or 16 Ohm speakers and amplifiers up to 75 Watts. All controls are impedance matching.

Attenuation: -34 dB in 12 steps. Attenuator Type: Tapped auto transformer. Power Rating: UL Listed @ 75 Watts audio, 25 Watts RMS continuous. Frequency Response: 35 Hz–20 kHz. Screw type connections, 12 position rotary switch.

Decora® Brahms™ Stereo Volume Controls—75 Watt Audio

Control stereo volume from convenient wall-mounted location.

DESCRIPTION	CAT NO.—WHITE
Decora Brahms Stereo Volume Control, 75 Watt, 25 Watt RMS with insert, knob and plate. Boxed unit pack, rack pack carton	40841-ODW

40841-ODW

SPECIFICATIONS AND FEATURES

Decora Digital Chopin Volume Control

- Connects to Interface Module with a single RJ-45 connection. No direct speaker/amplifier connections required at the controller.
- Microprocessor-controlled relays for silent switching.
- Provides impedance matching with speakers from 4–16 Ohms.
- Terminates all amplifier and speaker connections using high-quality audio connection block.
- Digital, transformer-free design uses aerospace-quality cermet resistors for proper heat dissipation and superior performance.
- Each audio zone requires one Digital Volume Control module.
- Each Digital Volume Control module can support up to three volume control units.
- Each Digital Volume Control module can control up to 4 pairs of speakers.
- Tap mute feature activated when center of rocker panel is pressed.

40905-25W

Decora® Brahms™ Stereo Volume Control with ON/OFF Switch—75 Watt Audio

Control of ON/OFF, as well as volume control.

DESCRIPTION	CAT NO.—WHITE
Decora Brahms Stereo Volume Control, 75 Watt, 25 Watt RMS with insert, knob and plate. Boxed unit pack, rack pack carton	40905-25W

Decora® Brahms™ Stereo Volume Controls—216 Watt Audio

The 216 Watt Audio (72 Watt RMS) Strauss volume control series is designed for higher power installations in the home. Their heavy-duty autoformer construction is designed to resist saturation and degradation even after years of high-volume use. The units accommodate 4, 8 or 16 Ohm speakers and amplifier systems rated up to 216 Watts. All controls are impedance matching.

Attenuation: -34 dB in 12 steps. Attenuator Type: Tapped auto transformer. Power Rating: UL Listed @ 216 Watts Audio, 72 Watts RMS continuous. Frequency Response: 35 Hz–20 kHz. Screw type connectors, 12 position rotary switch.

Decora® Brahms™ Stereo Control with ON/OFF Switch—216 Watt Audio

Convenience of ON/OFF, as well as volume control.

DESCRIPTION	CAT NO.—WHITE
Decora Brahms Stereo Volume Control, 216 Watt, 72 Watt RMS with two-gang plate. Boxed unit pack, rack pack carton	40888-72W

40888-72W

Leviton Architectural Edition System Matching Module with AutoSurge™ Technology

The System Matching Module is used to match the impedance of all speakers and volume controls automatically at a central wiring point. It allows connecting up to six rooms of speakers to a stereo amplifier, and is a cost-effective way to design a passive, impedance-matched multi-room music system.

NOTE: Do not use the System Matching Module with impedance-matched volume controls.

SPECIFICATIONS

Dimensions:	2.57"(68.6) H x 6.38"(161.9) W x 5.38"(136.5) D
Mounting Location:	Mounts in Leviton Structured Media™ Centers
Power Handling:	150W RMS per channel/225W peak
Frequency Response:	10Hz-40kHz, +/- .5dB
Wire Gauge:	Detachable cable connectors are compatible with all standard speaker wire sizes (18-14 AWG)

System Matching Module

DESCRIPTION	CAT NO.-WHITE
System Matching Module with AutoSurge Technology	SGAMP-000

SGAMP-000

1x6 Passive Audio Module

Easy, centralized audio system distribution module connects up to six pairs of speakers from an entertainment center or amplifier. Note: To ensure a correct impedance match with an amplifier, only use the passive audio module with impedance-matched volume controls.

SPECIFICATIONS

Dimensions:	6.58"H x 2.89"W x 1.42"D
Wire Gauge:	18-14 AWG
Requirements:	Product should be used with impedance-matched volume controls

48211-06A

1x6 Passive Audio Module

DESCRIPTION	CAT. NO.
1x6 Passive Audio Module	48211-06A

SPECIFICATIONS AND FEATURES

System Matching Module

- Connects up to six rooms/zones
- Convenient single-point connection for all speakers
- Combine with Decora® Strauss™ Transformer-Free-Volume™ Controls or equivalent to control up to six locations of speakers from one amplifier or receiver*
- User-removable connectors facilitate installation
- Transformer-Free impedance-matching design ensures linear frequency response, signal integrity and high power handling capacity

1x6 Passive Audio Module

- Supports up to six pairs of speakers.
- Parallel connection scheme insures the best sound quality.
- User-removable connectors facilitate installation.
- Connects with standard fire-rated speaker wire.

Home Theater and Multi-Room Integrated Wallplates

Both integrated wallplates combine the convenience of a ready-made plate with pre-configured wiring terminations with the performance and connection quality of "audiophile-grade" connectors. These plates are complete and ready-to-use, and make a "custom quality" statement in any installed entertainment system.

Home Theater Interface Wallplate

Connector Type (Front of module): 14 audiophile-grade, gold-plated black and red spring clips, 2 RCA connectors, 2 QuickPort openings; Connector Type (Back of module): 8-pin and 6-pin in-line pluggable screw terminals; Wallplate: High quality impact-resistant white plastic, standard 3-gang with matching painted screws; Mounting Depth: 2.5" (64mm); Wiring: 14-16 gauge speaker wire

DESCRIPTION	CAT NO.
Home Theater Interface Wallplate	AEHTK-000

AEHTK-000

Multi-Room Stereo Speaker Wallplate

Connector Type (Front of module): 4 audiophile-grade, gold-plated black and red spring clips, 2 QuickPort openings; Connector Type (Back of module): Two 2-pin in-line pluggable screw terminals; Wallplate: High quality impact-resistant white plastic, standard single-gang with matching painted screws; Mounting Depth: 2.5" (64mm); Wiring: 14-16 gauge speaker wire

DESCRIPTION	CAT NO.
Multi-Room Stereo Speaker Wallplate	AEMRK-000

AEMRK-000

Specialized Audio/Video Wallplates

These high-value plates are quick to install and intuitive to use when connecting a multi-room entertainment system.

Single Spring Clip Wallplate

Equipped with spade terminals. Mounted on break resistant polymer wallplate.

DESCRIPTION	CAT NO.-WHITE	CAT NO.-IVORY
Single Spring Clip Wallplate. Carded unit pack, rack pack carton	40951-1PW	40951-1PI

40951-1PW

Double Spring Clip Wallplate

Equipped with spade terminals. Mounted on break resistant polymer wallplate.

DESCRIPTION	CAT NO.-WHITE	CAT NO.-IVORY
Double Spring Clip Wallplate. Carded unit pack, rack pack carton	40952-2PW	40952-2PI

40952-2PW

SPECIFICATIONS AND FEATURES

Home Theater Interface Wallplate

- Accommodates from 5.1 to 7.1 channel surround-sound systems
- For use with low voltage rings and standard low voltage junction boxes
- Features RCA connectors for connecting subwoofers
- Two extra openings for additional QuickPort connectors

Multi-Room Stereo Speaker Wallplate

- Integrated wallplate for connecting left and right audio speakers (+/- connections)
- For use with low voltage rings and standard low voltage junction boxes
- Two extra openings for additional QuickPort connectors

Spec Grade Sound™ Indoor and Outdoor Speakers

Leviton's award-winning* Spec-Grade Sound™ indoor and outdoor speaker line takes installed home audio to a new level in both technical innovation and value. Leviton's Spec-Grade Sound™ indoor and outdoor speakers can be used with Leviton's innovative, exclusive Decora® Strauss™ Transformer-Free™ Volume Controls and Leviton's System Matching Module and other audio distribution products to form complete systems. All of Leviton Spec Grade Sound™ indoor speakers incorporate exceptionally strong, light and rigid AeroNylon tweeters and Kevlar®-composite woofers for exceptional clarity, detail and impact. They come with built-in AutoSurge protection to help protect the speakers from possible damage due to overdriving. The outdoor/utility speaker is constructed of weather resistant materials inside and out.

OTHER HOME ENTERTAINMENT PRODUCTS

Decora Media™ System

Send analog audio and video signals through up to 1,000 feet (300 meters) of Category-5 cable with no discernible distortion. The Decora Media System is ideal for connecting source components back to a multi-room audio amplifier located elsewhere in a system. DMS is comprised of: a Send Unit for transmitting audio/video signals, a Receive Unit for receiving signals and a Media Hub. The DMS can operate several ways: in a "hub" configuration with one Send unit sending a single audio/video signal to up to six Receiver units, and point-to-point where Send and Receive units are linked directly together to replace expensive specialized cables or baluns with simple Category-5 cabling..

Send and receive units run on 12VDC, hub runs on 15VDC and can be powered independently or through the Media Hub.

SPECIFICATIONS	SEND UNIT	RECEIVE UNIT	MEDIA HUB

Decora Media System

DESCRIPTION	CAT. NO.
Decora Media System Media Hub with Power Supply	48210-MCH
Decora Media System Send and Receive Unit Pair with Power Supply	48210-SRU
Decora Media System Send Unit with Power Supply	48210-MSU
Decora Media System Receive Unit	48210-MRU

SPECIFICATIONS AND FEATURES

- Cascade hub units to distribute audio/video signals to over 20 locations.
- Send and Receive units are equipped with RJ-45 jacks and 110 punchdown blocks for maximum flexibility in installation.
- Composite RCA inputs for connectivity directly from AV source.
- Send and Receive units fit standard wallboxes and Decora wallplates.
- Advanced circuitry with automatic equalization streams analog stereo audio and video signals over long distances with less distortion.
- Stereo audio input/output handles Dolby® ProLogic™ surround signals.
- RJ-45 input for Send unit.

Multi-Room Infrared (IR) Repeater System

The IR Repeater System consists of three pieces: an IR Target, IR Emitter and a distribution block for distributing control signals to multiple emitters. The IR Target takes the signal from a remote control for an audio/video component and converts it to a low-voltage electrical signal, sending it back to a component to be controlled by the IR emitter. The flush-mount IR Target easily installs in a ceiling or wall, and connects with Category 5 cable to the IR Emitter. Multiple IR Emitters connect to controlled A/V components through the distribution block in the Structured Media Enclosure. Distribution block (Cat. No. 47689-B) available separately. Dimensions: 2"L x 1"W, Power: 12V DC @200mA, Target Output: 4 signal leads, Target Input: 2 power leads (DC + and -), Emitter Output: Infrared to control source component, Emitter Input: 2 signal leads, Power Supply (included): 12V DC @5mA

† QuickPort Connectors not included.

SPECIFICATIONS AND FEATURES

Recessed Entertainment Box

- Provides single location for line and low-voltage connections
- Stud- and wall-mountable
- Neat, clean recessed installation
- Optional high-profile cover includes sliding plastic front panel and channels all wires through the bottom of the REB
- Paintable white ABS plastic

Recessed Two-Gang Duplex Receptacle with QuickPort Openings

- Provides 2 15A/125V AC NEMA 5-15R power outlets and openings for any 6 installer-selected QuickPort connectors or blank inserts (4 inserts included)
- Includes plastic electrical box and a barrier to separate line and low-voltage conductors
- Wallplate built into device

Recessed One-Gang Duplex Receptacle

- Installs invisibly behind wall units, signature artwork and wall-mounted flat-panel TVs
- Supplies AC power for two components

- Fits most common electrical boxes available (electrical box not included)

Recessed One-Gang Single Receptacles

- Includes clock-hanger hook
- Flush mount with square recess

TESTING AND CODE COMPLIANCE

Recessed Receptacles

- cULus Listed
- NOM Certified (#057)

All Recessed Devices

- Backed by a Limited Two-Year Warranty

HOW TO USE THIS CATALOG

The L-101 Leviton Wiring Device Catalog is designed to help you find the device you're seeking in the quickest and easiest way possible. Most product sections are divided into three distinct categories in the following sequence—Industrial Grade, Commercial Grade and Residential Grade—and grouped according to amperage and voltage, lowest to highest. For example, if you need to order 15 Amp, 125 Volt Industrial Grade straight-blade duplex receptacles, begin your search with the main Table of Contents at the front of the book. Here you'll see that all straight blade receptacles are listed in Section G. Turn to Section G for a more detailed Table of Contents on the first page. Each section page contains product descriptions, ratings and catalog numbers. There are also helpful highlights including Specifications and Features, Testing and Code Compliance, Color listing, Material Characteristics and dimensioned color product photos. Any product page in the L-101 Catalog can be clearly copied or faxed to customers and prospects for use as a specifier sheet or as part of a presentation.

The Quick Reference Guide follows the main Table of Contents to help you pinpoint and locate specific products. Technical Section V provides general product and test data, industry standards, NEMA configuration charts, a glossary of wiring device terms, ANSI architectural symbols and other related information. Specific catalog numbers are listed in the exhaustive index at the back of the catalog.
