Produce your own in-house signs and labels with our range of industry specific portable or desktop printers, software and accessories.

DIY Printing – A Beginners Guide

Professional Printing At Your Fingertips

- Customise Designs According To Your Needs
- Avoid External Supplier Minimum Order Quantities
- Print Instantly, Whenever You Need To

With Seton DIY printers, you have control. Produce professional quality signs and labels on demand.

Investing in a DIY printer can help your business to save money, improve productivity and stay compliant with safety standards.

How To Select Your DIY Printing Solution

1 Select Your Printer

Sign Printers

For safety and facility identification applications such as hazard warnings, safety equipment and pipe marking.

OR

Label Printers

For identifying and tracing unique assets such as wires & cables, laboratory equipment, warehouse items and machinery panels

There are several different types of Sign Printers to meet your needs. See Sign Printer Selection Guide on page 542.

There are several different types of Label Printers to meet your needs. See Label Printer Selection Guide on page 552.

2 Select Sign/Label Material To Print On

Each printer has different capabilities in terms of the type and range of materials it can print on. Use our printer selection guides to identify the correct printer for your application. Then simply go to the relevant page for your desired printer and the sign/label media order codes are listed for you to order at the same time.

3 Ribbons (Printer Ink)

Most DIY printers require a separate ink supply ribbon. Select the relevant compatible ribbon that is listed with the sign/label material you wish to print on.

Create Signs And Labels Straight From Your PC

Maximise your control over your DIY printing designs with our simple to use software. Two separate software packages are available, one for Sign Printers and one for Label Printers. See page 541 for more details.

Produce Signs And Labels Straight From Your PC

- Design And Preview Your Designs On Your PC Screen, Then Print Directly To Your DIY Printer
- Use The Prebuilt Templates Library For Most Common Applications
- Save Your Own Templates For Quick Setup In Future Print Runs
- Quickly Create Barcoded And Serialised Signs And Labels

For A Guide To Signs And Label Making, See Page 540.

ONE PRINTER FOR ALL YOUR NEEDS

Pipe Markers

Warning & Safety Labels

Tamper Resistant

Panel Switch ID

PLUS WIRE & CABLE, LABORATORY AND GENERAL LABELLING! (See Pages 554-557)

FYI

Compatible with Handimark™ and TLS™ 2200 labels

The BMP™71 printer replaces Brady HandiMark™ and TLS™ 2200 printers by combining the functionality of both into one printer.

If you currently have a HandiMark™ or TLS™ 2200 printer, you can use all your existing label stock with the BMP™71 printer (not including ribbons). This is in addition to a whole range of labels specifically designed for the BMP™71.

Printer Specifications

For a comparison of specifications versus other printer, see page 542.

Recommended label production per day	1,000
Print speed	38.1mm per second
Max. Label width	50.8mm
Continuous Labels	Yes
Die cut labels	Yes
Print colour	Single colour printing
Font sizes	4 to 174 pt
Memory	100,000 characters
PC Connectivity	USB
	Able to be used with MarkWare™ and LabelMark™ software (see page 541)
Stand-alone design	Yes
Print resolution	300dpi
Serialisation function	Yes

BMP™71 Label Printer

Brady BMP™71 Mobile Printer

- Create All Of Your Safety, Facility, Wire/Cable, Asset And Component Identification With One Printer
- Use All Of Your Existing HandiMark™ And TLS™2200 Label Stocks With The BMP™71 Printer
- Prints On Over 400 Label Parts And 30 Different Brady Material Types
- Large, Full Colour Display Screen And Full QWERTY Keyboard
- Automatic Font Sizing, Serialisation And Barcode Wizards
- Simple To Load, Smart Chipped Labels & Ribbons

ONE PRINTER FOR ALL YOUR NEEDS

Wire & Cable Marking

General Identification

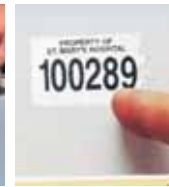

Laboratory Identification

Pipe Markers

Warning & Safety Labels

Tamper Resistant

Panel Switch ID

PLUS WIRE & CABLE, LABORATORY AND GENERAL LABELLING! (See Pages 543-544)

Compatible with Handimark™ and TLS™2200 labels

The BMP™71 printer replaces Brady HandiMark™ and TLS™220 printers by combining the functionality of both into one printer.

If you currently have a HandiMark™ or TLS™2200 printer, you can use all your existing label stock with the BMP™71 printer (not including ribbons). This is in addition to a whole range of labels specifically designed for the BMP™71.

Printer Specifications

For a comparison of specifications versus other printer, see page 542.

Recommended label production per day	1,000
Print speed	38.1mm per second
Max. Label width	50.8mm
Continuous Labels	Yes
Die cut labels	Yes
Print colour	Single colour printing
Font sizes	4 to 174 pt
Memory	100,000 characters
PC Connectivity	USB
	Able to be used with MarkWare™ and LabelMark™ software (see page 541)
Stand-alone design	Yes
Print resolution	300dpi
Serialisation function	Yes
Barcode function	Yes - 39 and 128
Symbols	500+ built into printer for standalone use, thousands when used with PC Software
Power Supply	Rechargeable Battery and AC Power included

Includes PC Design Software

The BMP™71 includes your choice of MarkWare™ or LabelMark™ software (see page 541).

So you can design and print your labels both on-the-go via the full colour display screen on the printer or at your PC using the software.

TLS2200™ Labels And Ribbons

FYI

TLS2200™ Printer Supplies

The TLS™2200 printer has been replaced by the BMP™71 Printer (see page 554). Seton continues to offer a range of TLS™2200 supplies below to use with your existing printer. However, should you wish to upgrade to a new BMP™71 printer, all your current TLS™2200 labels can be used in this printer.

Durasleeve Wire Marking (B-390)

- Use With TLS™ 2200
- Long Lasting And Durable Marking Of Wires And Cables
- Available In White Or Yellow

Durasleeve wire marking consists of two parts, the marker insert (that is printed upon) and the vinyl carrier which the marker is inserted into. The vinyl carrier is then threaded onto the wire or cable. There are two lengths and four sizes to suit the different wire diameters.

*Style No. 18559 Ribbon is recommended for this material.

Raised Panel Labels

- Puts Engraved Plates To Rest
- Print What You Want Instantly

Seton offers a solution that will put an end to the hassle of buying engraved plates once and for all. Raised Panel are an innovative solution specifically designed to replace engraved and plotted plates for the identification of electrical components, electrical cabinets, push buttons, patch panels, etc. Raised Panel labels save time and money by allowing you to print nameplates with your TLS Printer, exactly when you want them instead of having to order pre-printed nameplates.

BBP™11 Label Printer

Brady BBP™11 Desktop Label Printer

- Up To 104mm Print Width – Widest In Our Label Printer Range
- Fastest Print Speed In Our Label Printer Range
- Compact Desktop Footprint
- Includes Free LabelMark™ Design Software For Easy Barcoding, Serialisation
- And Print Management

With an output of up to 1500 labels per day and a rapid print speed of 76.2mm per second, the BBP™11 provides a high end label printing solution at a cost-effective price. This compact desktop label printer is ideal for general asset, wire and cable and laboratory identification. With the free LabelMark™ PC Design Software (see page 485) included, you can setup, preview and print batches of labels with barcodes, serialisation and other variable data in minutes.

Included in the BBP™11 Printer Kit:

- Printer
- External media stand
- LabelMark™ Software (see page 541)

A selection of Labels are listed overleaf and Ink Ribbons are listed below – both sold separately to the kit.

Printer Specifications

For a comparison of specifications versus other printers, see page 552.

Recommended label production per day	1,500
Print speed	76.2mm per second
Max. Label width	118mm

Die cut labels	Yes
Print colour	Single colour printing
Memory	2mb
PC Connectivity	USB, Serial, Parallel, Internal Ethernet Able to be used with LabelMark™ software
Stand-alone design	No
Print resolution	300dpi
Serialisation function	Yes
Barcode function	Yes
Power Supply	AC Power included

Wire & Cable Marking

General Identification

TO ORDER: Specify Style No. A35754 and Quantity.

PRICE (EX GST): \$1,550.00 Each.

BBP™11 Printer Ribbons

- Instantly Dry And Smudge Proof
- Permanent And Crisp Print

All Thermal Transfer Ribbons are developed to meet the performance requirements of the materials to be printed on. The bond between the ribbon and the label is critical to the success of the print permanence. Seton recommends you only use the ribbons suggested when printing with this printer.

TO ORDER: Specify Style No. and Quantity.

PRICE (EX GST): Each.

Style No.	Reference	Colour	Size (W x L)	Price
A35756	R-6000	Black	110mm x 70m	\$84.90
A35757	R-7950	Black	110mm x 70m	79.90

The recommended ribbons for each label are included in the pricing table for each label overleaf.

Label Printers – Portable Laboratory ID

30-DAY FREE Money-Back Guarantee*

LabPal™ Laboratory ID Label Printer

- Labels Withstand Extreme Lab Conditions Pre-Programmed Vial And Slide Sizes
- Time/Date Stamp Laboratory Symbols
- Six Months Warranty

The LabPal™ label printer is portable, easy-to-use and makes identifying your samples quick and efficient. LabPal™ labels are designed to withstand extreme laboratory environments like; Liquid Nitrogen, Hot Water Baths, Freezers and Autoclave and resist most chemicals including Xylene, Ethanol, Alcohol and DMSO. The LabPal™ is ideal for customers who want to improve their sample identification from handwriting to something more professional.

Common Applications Include:

- Identification of vials: .6, 1.5, 2–4, 15ml vials
- Slides: 23mm “Label Type” fits perfect on a slide
- Well plates
- Petri dishes
- Flask and beakers
- General lab ID from binders to shelves to pipettes

Ask For Your **FREE Gift** When You Purchase A LabPal™ Printer!

Long-lasting labels that sticks and stay stuck!
