Delivering Power and Data  
to the Work Surface

## Pre-Wired Work Surface Series

The Hubbell Work Surface Series products deliver power and low voltage services to the work surface. An open architecture design allows keystone jacks or Hubbell iSTATION™ connectivity to configure specific needs for AV and multi-media, making them the perfect solution for kiosks, work stations and hospitality applications.

Multiple finish options to match any style or décor. All models in the Work Surface Series are pre-wired for easy installation.

#### 1 AV Ceiling Box

Configured with 15A power outlet, 15-pin feed through and 3.5mm audio jack. This unit allows for further customizing by populating two keystone openings. Plenum and non-plenum versions available.

#### 2 X-END™ Plug-n-Play AV System

X-END's main focus is the integration of connections from multimedia devices and applications such as:

- Display devices
- White boarding
- Videoconferencing
- Webcasting
- Streaming media content

#### 3 FPTV Connection Enclosure

Hubbell's netSELECT® Flat Panel Television enclosure delivers high-density connectivity and power in the wall. This allows flat panel displays and interactive "smart" boards to sit flush against walls with no dangling cords. It quickly installs to studs or sheetrock without additional components or hardware.

#### 4 SystemOne FRPT and Floor Box

Hubbell SystemOne sub-plates are designed to meet the growing needs of the audio and video markets. Some sub-plates provide power outlets with Hubbell's audio/video products including 15-pin SVGA, RCA, S-Video, 3.5mm stereo, and XLR microphone jacks. Other sub-plates can accommodate Extron® Electronics MAAP and AAP series audio/video modules.
