3M

Building productivity and efficiency
from the ground up

Whether you're working on new construction, renovation or demolition and clean-up, 3M has a wide range of reliable solutions to help you be more productive and efficient through each stage of the project.

3M Building and Contractor Specialties has consolidated hundreds of products from many 3M divisions into a single convenient resource to better serve contractors and contractor supply distributors.

In addition to products, you can rely on 3M for service that includes a toll-free assistance hotline staffed with technical support specialists:

1-866-513-4026

In this catalog you'll find information on solutions for many building and contractor applications. Here are just a few examples:

- Waterproofing foundations
- Concrete tilt-up
- Seaming, sealing, or repairing moisture barriers
- Stucco masking
- Sealing mineral wool insulation
- Sealing sheet metal ducts
- Sealing wall penetrations with water tight fire barrier
- Work site containment
- Custom threading and anchoring in concrete
- Removing rust and corrosion

# 3M™ Polyurethane Foam Insulation Adhesive CR-20 for new construction and re-roofing

20 squares 20 minutes

Disposable plastic applicator and mixing nozzle.

Polyisocyanurate or other

Roof deck (concrete or other)

Easy to use

High speed for increased productivity

3M™ Polyurethane Foam Insulation Adhesive CR-20 sets a speed record for securely bonding insulation to the roof deck and to itself–up to 20 squares in 20 minutes. Fast foaming 2-part formulation fills gaps between surfaces without lifting the insulation and holds in 4-8 minutes.
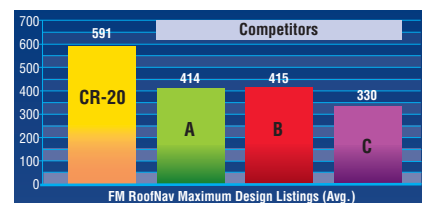

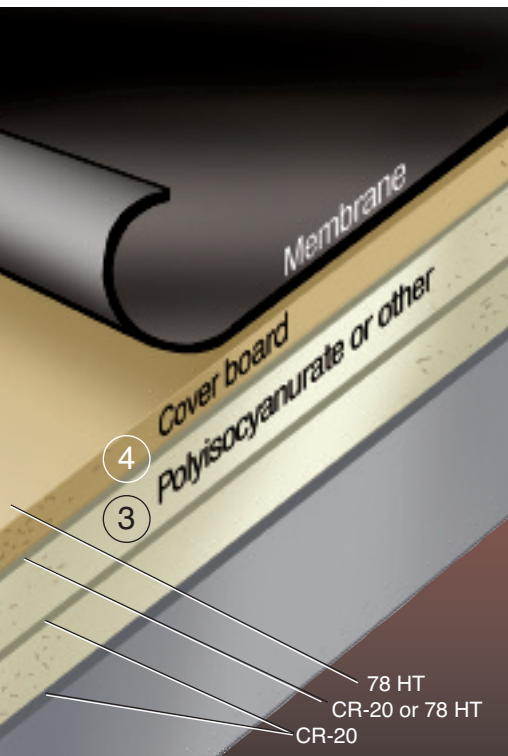

Convenient, easy, and cost-effective

- Portable pressurized twin cylinder system for convenience in high places with no awkward and expensive carts and cartridges

- Simple set-up with just flipping the lids and connecting the hoses

- Economical maintenance-free system with disposable applicator, hoses and mixing nozzle–no capital equipment

- Automatic mixing in the nozzle for consistent, accurate results

- Controlled adhesive width and placement for neat application

- High coverage of 20 squares per kit for fewer changeovers compared to six to eight squares with other systems

Reliable holding power

- Factory Mutual and UL Approved

- Industry leading wind uplift resistance

3M™ Scotch-Weld™ High Temperature Polystyrene Foam Insulation 78 HT Cylinder Spray Adhesive

High speed membrane attachment

New high output applicator
with controlled wide web for fast coverage. Uniform pattern delivers effective and economic use of the adhesive.

Approved for many deck substrates, insulations, and cover boards

- Concrete (structural; some lightweight)
- 22-gauge steel
- Cementitious wood fiber
- Plywood and OSB
- Polyisocyanurate (flat or tapered)
- Extruded or expanded polystyrene
- High density wood fiber
- Gypsum or DensDeck™ Roof Boards

3M™ Scotch-Weld™ High Temperature Polystyrene Foam Insulation 78 HT Cylinder Spray Adhesive for fast membrane bonding

Self-contained pressurized cylinder helps increase productivity with fast application and no time-consuming equipment setup, cleanup, and maintenance.

Simply connect the applicator and hose and start spraying.

- Quickly bonds to most insulations and cover boards including polystyrene

- High holding power to EPDM and TPO (not recommended for PVC)

- Reliability at up to 260°F (126°C)

- Factory Mutual and UL Approved

3M™ All Weather Flashing Tape 8067

Sticks fast
at 0-120°F

Stays stuck
at up to 176°F

Spilt liner for easier, faster installation.

No primers, no staples, no nonsense

With unique pressure sensitive acrylic adhesive, 3M™ All Weather Flashing Tape 8067 bonds on contact to seal through-wall penetrations at application temperatures from 0°F (-18°C) up to 120°F (49°C). Around windows, doors and other openings in wood frame construction, you save the time and work of primers or staples commonly used to attach many moisture-proofing membranes.

Engineered for handling ease and performance reliability

- High tack to grab fast and tight even on damp surfaces
- Versatile to stick securely to most common building materials even at service temperature up to 176°F (80°C)
- Proprietary backing for long term confidence
  - Seals around nails and staples to prevent moisture intrusion
  - Thin for a reliable and convenient fit into corners and under siding
  - Tough to resist punctures and tears during application and service life

- Fast, convenient application
  - No adhesive melting or staining in the summer's heat
  - Split-liner for easy and accurate positioning of tape, especially long lengths
  - Choice of three widths for the coverage you need: 4", 6", 9"
- Resists UV exposure for up to 6 months
- No adverse reaction with many building sealants (preliminary data for synthetic rubber, butyl, polyurethane, silicone and silane terminated hybrids).
- Meets AAMA 711-05
- Passes Nail Sealability before and after Thermal Cycling
- Eligible for LEED® Compliance Credits

3M

3M™ Scotch-Weld™ Cylinder Spray Adhesives...
fast and easy drain board installation without nails

Stick to it all...
membrane, drain board, filter fabric, concrete, polystyrene, and wood with your choice of two cylinder spray adhesives.

Simply spray

and stick

Simplicity of 3M self-contained pressurized cylinders

- Versatile holding power to replace nails and other fasteners

- Wide spray pattern and fast coverage for vertical and horizontal surfaces

- Short dry time and long open time to work at the best pace for the job

- No cleaning or purging of hose and applicator necessary

3M™ Scotch-Weld™ HoldFast 70 Adhesive

- Very fast tacking for spray and stick speed

- Bonds polystyrene without damaging it

3M™ Scotch-Weld™ General Purpose 60 CA Adhesive (Low VOC)

- Very high coverage for great value from every cylinder

- Meets California VOC regulations

- Not recommended for use on polystyrene foam

Fast & Easy
Tilt-Up Solutions

3M™ Scotch-Weld™ Cylinder Spray Adhesives

An innovative construction method made easier with 3M products

3M™ Scotch-Weld™ Cylinder Spray Adhesives help improve speed and productivity for Tilt-Up contractors while decreasing the need for floor repair.

- Productivity - Just spray and adhere the reveal strips, shoe plates, chamfers and in-lays to the casting slab without nailing or mechanical fasteners
- Eliminate slab repairs needed when using mechanical fasteners or other nailing methods
- High holding power, high heat and moisture resistance
- No cleaning or purging of hose and applicator necessary
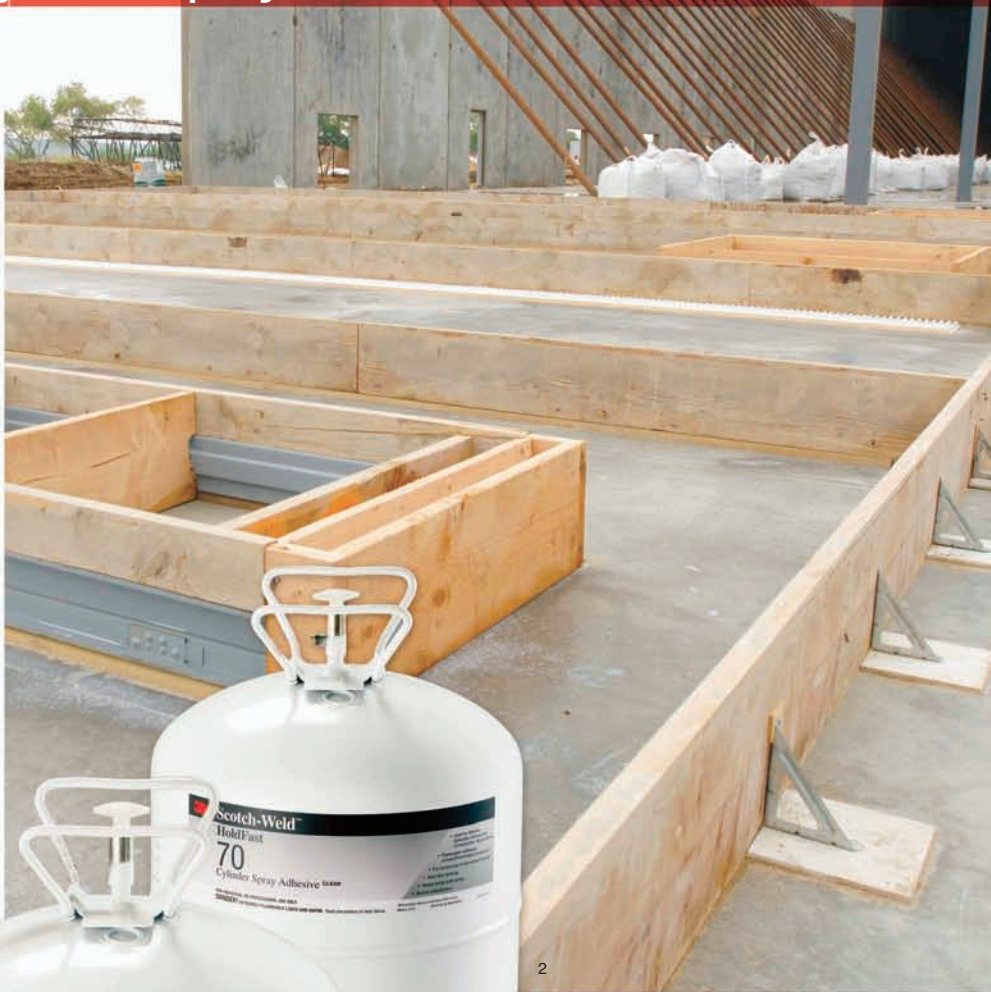

3M™ Scotch-Weld™ Hi-Strength Postforming 94 CA Clear Cylinder Spray Adhesive (Low VOC)

Formulated specifically to meet California's environmental standards.

- Use on wood reveal strips, chamfers, shoe plates, in-lays and form boards
- Fast-drying formula
- High heat and moisture resistance
- HAPS-free and MACT-compliant

UPC No. 00-048011-61703-9   3M ID No. 62-4960-8030-0

3M™ Scotch-Weld™ HoldFast 70 Clear Cylinder Spray Adhesive

This industrial grade adhesive works wonders on polystyrene foams.

- Use on foam reveal strips and foam in-lays
- Fast-drying formula
- Good heat and moisture resistance
- Holds securely, does not degrade foam

UPC No. 00-048011-61690-2   3M ID No. 62-4983-8030-2

3M™ Scotch-Weld™ Hi-Strength Laminating 92 Cylinder Spray Adhesive

High strength, high heat resistance bonds exactly where you need them.

- Use on wood reveal strips, chamfers, shoe plates, in-lays and form boards
- Fast-drying formula
- High heat and moisture resistance

UPC No. 00-048011-61697-1   3M ID No. 62-4956-8030-8

3M™ Inverted Aerosol Adhesives

Turning spray technology upside down for more stickin' per can –
Virtually eliminate traditional aerosol problems of broken spray patterns and adhesive left in the can.

Product Use: Many factors beyond 3M's control and uniquely within user's knowledge and control can affect the use and performance of a 3M product in a particular application. Given the variety of factors that can affect the use and performance of a 3M product, user is solely responsible for evaluating the 3M product and determining whether it is fit for a particular purpose and suitable for user's method of application. **Warranty, Limited Remedy, and Disclaimer:** Unless an additional warranty is specifically stated on the applicable 3M product packaging or product literature, 3M warrants that each 3M product meets the applicable 3M product specification at the time 3M ships the product. 3M MAKES NO OTHER WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OR CONDITION OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY IMPLIED WARRANTY OR CONDITION ARISING OUT OF A COURSE OF DEALING, CUSTOM OR USAGE OF TRADE. If the 3M product does not conform to this warranty, then the sole and exclusive remedy is, at 3M's option, replacement of the 3M product or refund of the purchase price. **Limitation of Liability:** Except where prohibited by law, 3M will not be liable for any loss or damage arising from the 3M product, whether direct, indirect, special, incidental or consequential, regardless of the legal theory asserted, including warranty, contract, negligence or strict liability.

3M™ 730 Clear Hybrid Sealant
3M™ 230 Crystal Clear Sealant

The new, CLEAR choice in sealants

Non-shrinking, UV-resistant formula helps reduce re-work on painted surfaces.

Crystal clear finish blends invisibly with sealed substrates, without staining.

Introducing two powerful no-shows

The advantages of 3M's new POWER Line sealants have never been *less* obvious. 3M™ 730 Clear Hybrid Sealant and 3M™ 230 Crystal Clear Sealant are designed to make sealing, filling, insulating and waterproofing more convenient—and more invisible—than ever.

- Nearly invisible sealants blend in naturally with a wide range of materials
- Eliminate re-work on already painted surfaces—no painting or touch-ups required
- Excellent cosmetic sealant properties, without the hazy finish of silicone sealants
- Eliminates complexities associated with color matching

3M™ 730 Clear Hybrid Sealant

- Excellent UV resistance
- Low VOC
- Non-shrinking
- 30-minute skin time

3M™ 230 Crystal Clear Sealant

- Very good UV resistance
- 20-minute tack-free time
- 3-minute skin time
- Controlled shrinkage

3M

Clearly, a more POWERful line.

3M™ 730 Clear Hybrid Sealant and 3M™ 230 Crystal Clear Sealant are ideal for sealing, filling, insulating and waterproofing in many industrial environments, including marine, specialty vehicles, glass applications and general construction.

Superior to filled silicones

Until now, silicone sealants were the primary choice for applications requiring a clear sealant. Now 3M™ 730 Clear Hybrid Sealant and 3M™ 230 Crystal Clear Sealant offer several advantages over filled silicone to improve product quality and reduce effort:

- superior clarity
- versatile adhesion
- paintable
- better resistance to mildew
- non-staining

3M™ 230 Crystal Clear Sealant (top) is clearly superior to competitor's silicone product (bottom).

Application Summary x = Good xx = Best Choice

	3M™ 730 Clear Hybrid Sealant	3M™ 230 Crystal Clear Sealant
Clarity	x	xx
UV resistance	xx	x
Skin time	Less than 30 minutes	3 minutes

3M™ Inverted Aerosol Adhesives

Best flippin' 3M adhesives on the market

SPRAYS UPSIDE DOWN
ROCÍO INVERTIDO

Turning spray technology upside down for more stickin' per can

With upside down spray technology, 3M™ Inverted Aerosol Adhesives virtually eliminate traditional aerosol problems of broken spray patterns and adhesive left in the can. Whenever spraying downward is more convenient and effective, the larger comfort-designed actuator delivers a controlled spray pattern with reduced finger fatigue.

Choose from 3M™ Hi-Strength 90 Spray Adhesive, 3M™ Polystyrene Foam Insulation 78 Spray Adhesive, and 3M™ FoamFast 74 Spray Adhesive to match requirements for a wide variety of job site or in-plant applications. For example:

- 90 to hold tilt-up wood reveal strips, brackets, and form board
- 90 to seam poly
- 90 to bond rubber mats to concrete
- 90 to bond countertop HPL
- 78 to hold tilt-up foam reveal strips

- 78 to attach polystyrene insulation to concrete or wood
- 74 to secure urethane foam strips for concrete expansion joints
- 74 to bond foam to foam and fabric in cushions and mattresses

Adhesive

3M
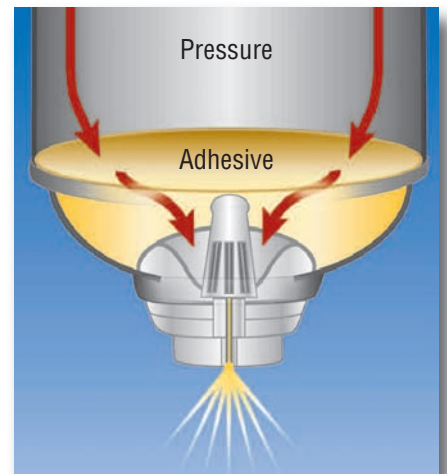

3M™ Inverted Aerosol Adhesives

3M™ Hi-Strength 90
Spray Adhesive Inverted

- Fast tacking
- High temperature resistance
- High moisture resistance
- Lace spray pattern
- Bonds combinations of many materials including concrete, wood, HPL, metal, polyethylene, and polypropylene

UPC: 00-051111-07278-3
3M ID #: 62-4942-4970-9
Quantity: 12/case

3M™ Polystyrene Foam Insulation 78
Spray Adhesive Inverted

- Does not degrade polystyrene
- Fast tacking
- Good temperature resistance
- High moisture resistance
- Lace spray pattern
- Bonds polystyrene and other insulation to themselves and other surfaces, including concrete

UPC: 00-051111-07279-0
3M ID #: 62-4951-4970-0
Quantity: 12/case

3M™ FoamFast 74
Spray Adhesive Inverted

- Fast tacking
- Soft non-dimpling glue line
- Foam-tearing strength
- Lace spray pattern
- Bonds soft foam to itself, fabric, wood, and metal

UPC: 00-051111-07277-6
3M ID #: 62-4935-4970-3
Quantity: 12/case

Our commitment to sustainability

3M has made a long-term commitment to continuously improve the environmental, health and safety impact of our products and processes. 3M™ Inverted Aerosol Adhesives provide examples of this environmental leadership with the following features:

- LEED® Compliance Credit Eligible
- California Compliant

- Does not contain ozone-depleting chlorofluorocarbons (CFCs)
- These 3M aerosol adhesives contain no methylene chloride or 1,1,1-trichlorethane (methyl chloroform)
- Please recycle

Warranty and Limited Remedy: 3M warrants that each 3M product meets the applicable 3M product specification at the time 3M ships the product. 3M MAKES NO OTHER EXPRESS OR IMPLIED WARRANTIES OR CONDITIONS, INCLUDING ANY IMPLIED WARRANTY OR CONDITION OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. If the 3M product does not conform to this warranty, the sole and exclusive remedy is, at 3M's option, replacement of the 3M product or refund of the purchase price.

Limitation of Liability: Except where prohibited by law, 3M will not be liable for any loss or damage arising from the 3M product, whether direct, indirect, special, incidental or consequential, regardless of the legal theory asserted.

Meet
the all new
Scotch-Blue™

Now there's a stickier, more heat-resistant Scotch-Blue™ tape for the industrial market.

When sharp paint lines are a must in your paint bake operations, turn to Scotch-Blue™ Industrial Advantage Masking Tape 2750. It withstands bake temperatures up to 250°F for 30 minutes and offers a 3-day clean removal time from a variety of surfaces including aluminum, stainless steel, EPDM rubber and powder-coated metals.

Scotch-Blue Industrial Advantage Masking Tape 2750 provides:

- The high-performance quality of Scotch-Blue tape
- Strong holding power on most surfaces
- 3-day clean removal
- Resistance to heat and solvents
- Straight paint lines
- Flexibility to work with solvent- and latex-based paints
- Crepe paper backing to conform to curves and shapes
- ASTM D6123/D6123M-97 approval (replaces obsolete standards PPP-T-42C and CID-A-A-883B)

3M

Scotch-Blue™ Industrial Advantage Masking Tape 2750

Good holding of smaller gross masking papers.

Sharp lines and 3-day clean removal.
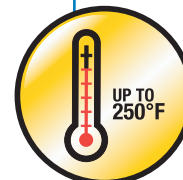

HIGH ADHESION

The
Ultimate TAPE

For the
Ultimate
EDGE

1

2

The sharpest, straightest paint lines, inside or out.

Scotch® 60-Day Ultimate Paint Edge Masking Tape 2480S is much more than just another fine line, crepe or flatback tape. Featuring a unique hybrid technology, this tape is perfect for creating both the long, straight lines that usually call for flatback tapes, as well as the razor-sharp paint edges of fine line tapes. A strong acrylic adhesive holds on contact to most surfaces, yet peels away smoothly and cleanly without residue and fogging–even after 60 days in the sun or exposure to up to 200°F temperatures.

Scotch® 60-Day Ultimate Paint Edge Masking Tape

- Smooth backing produces long, straight lines

- Resists bleedthrough, even from solvent-based paints

- UV-resistant adhesive removes cleanly for up to 60 days in the sun

- Strong enough to pull through paint and caulk without tearing

- Resists lifting and curling

- Distinctive sea green color helps avoid "which tape to use" confusion and helps eliminate taping errors

- Ideal for a variety of applications ranging from, but not limited to, aerospace, specialty vehicle and commercial window glazing

3M

Scotch® 60-Day Ultimate Paint Edge Masking Tape 2480S

Excellent adhesion to smaller gross masking papers.

Strong enough to pull through window glazing caulk for a neat, crisp edge.

Unique hybrid technology combines the long, straight lines of flatback tapes with the sharp, exceptionally low paint edges of fine line.

LOW ADHESION

UP TO 200°F

Straight up
versatile

Long, straight lines, sharp edges.

Think tough and think straight when you think Scotch® Ultimate Paint Edge Masking Tape 2460. This ultra-thin, ultra-smooth tape is ideal for creating the long, straight, smooth paint lines you need for the highest quality finished products. Yet it is strong enough to pull through paint and caulk without ripping. And it peels off clean with no adhesive residue, even when exposed to high temperatures (up to 300°F). It's the versatile gold tape that can handle many challenges.

Scotch® Ultimate Paint Edge Masking Tape 2460

- Distinctive gold color helps avoid "which tape to use" confusion and helps eliminate taping errors
- Resists elongation for true, straight paint lines
- Ultra thin for a virtually undetectable paint ridge
- Cross tears easily by hand
- Not affected by most solvents or latex paints

3M

Scotch® Ultimate Paint Edge Masking Tape 2460

Creating long, straight paint lines is easy.

Ideal for paint bake operations.

Head and Face Protection Products, 3M™ Head Protection

3M™ Peltor™ G2000 Orange Hard Hat with Uvicator™ Sensor, 4-PT Pinlock Suspension PG2008ORUV

Provides a visual indicator to wearers that it's time to replace their hard hat due to extended UV exposure. The built-in indicator is shaped like a small clock. At the outset, it is bright red. As the hard hat is exposed to UV light, the indicator will gradually fade. When it has turned completely white, it's time to replace the hard hat. Peltor G2000 hard hats meet the requirements of ANSI Z89.1-2003, Type I, Class C.

⚠ **SAFETY PRODUCT WARNINGS**

⚠ **EYE AND FACE PROTECTION PRODUCTS WARNING**

These eye and face protection products help provide limited eye and face protection. **Misuse or failure to follow warnings and instructions may result in serious potential injury, including blindness, or death.** For proper use, selection, and applications against flying particles, optical radiation and / or splash see supervisor, read *User Instructions* and warnings on the package or call 3M OH&ESD Technical Service in the USA at 1-800-243-4630. In Canada, call 1-800-267-4414.

⚠ **HEAD PROTECTION PRODUCTS WARNING**

These hardhats provide limited protection only. **Misuse or failure to follow warnings and instructions may result in serious personal injury or death.** For proper use, see supervisor, read instructions and warnings on the package, or call 3M OH&ESD Technical Service in the USA at 1-800-243-4630. In Canada, call 1-800-267-4414.

Bumpcaps do not provide protection against impact from falling or glancing objects. They do not protect against electrical hazards. Bumpcaps do not meet the requirements of the American National Standard for Industrial Head Protection ANSI Z89.1-2003. When head protection is required, wear a protective hardhat or helmet that meets the requirements of ANSI Z89.1-2003.

⚠ **HEARING PROTECTION PRODUCTS WARNING**

These hearing protectors help reduce exposure to hazardous noise and other loud sounds. Misuse or failure to wear hearing protectors at all times that you are exposed to noise **may result in hearing loss or injury.** For proper use, see supervisor, **User Instructions**, or call 3M in U.S.A. at 1-800-243-4630. In Canada, call Technical Service at 1-800-267-4414. If there is any drainage from your ear or if you have a hole in your eardrum, consult with your physician before wearing ear plugs. Failure to do so may result in hearing loss or injury.

⚠ **AIR MONITORING SYSTEMS WARNING**

Do Not Use For:

- Ammonia, Carbon Monoxide; Ethylene Oxide[1]; Formaldehyde[2]; Hydrogen Sulfide; Isocyanates; Methane; Ethane; Propane; Methyl Alcohol (Methanol); Methyl Chloride; Methyl, Dimethyl, Trimethyl Amines; Organic Solids; Sulfur Dioxide

- Reactive or polar compounds such as amines, phenols, aldehydes and low molecular weight alcohols

- Extremely low concentrations within a sampling period of less than 8 hours

- Particulates

1 Ethylene Oxide can be monitored using 3M™ 3550/3551 Ethylene Oxide Monitor.
2 Formaldehyde can be monitored using 3M™ 3720/3721 Formaldehyde Monitor.

⚠ SAFETY PRODUCT WARNINGS

RESPIRATOR WARNING
These respirators help reduce exposures to certain airborne contaminants. Before use, the wearer must read and understand the *User Instructions* provided as a part of product packaging. A written respiratory protection program must be implemented meeting all the requirements of OSHA 1910.134, including training, fit testing and medical evaluation. In Canada, CSA standards Z94.4 requirements must be met and/or requirements of the applicable jurisdiction, as appropriate. **Misuse may result in sickness or death.** For proper use, see package instructions, supervisor or call 3M OH&ESD Technical Service in USA at 1-800-243-4630 and in Canada at 1-800-267-4414.

SORBENTS WARNING
FAILURE TO PROPERLY HANDLE AND DISPOSE OF SORBENTS CONTAMINATED BY HAZARDOUS MATERIALS CAN RESULT IN SERIOUS PHYSICAL INJURY OR DEATH AND/OR ENVIRONMENTAL HARM.

For proper handling, consult the Material safety Data Sheet for the material absorbed, applicable safety and health standards, contact your supervisor, or call 3M at 1-800-243-4630.

WELDING HELMETS
These welding safety products must be used only by qualified persons trained in their use and maintenance and only in strict accordance with and adherence to the detailed instruction and precautionary statements provided in the instruction manual which accompanies each product. **Failure to comply with these instructions could result in sickness, serious bodily injury or loss of life.**

For proper use of these products read **User Instructions** and **WARNINGS** on the package. Any questions concerning proper use should be directed to your supervisor, on-site training specialist, industrial hygienist or 3M Occupational Health and Environmental Safety Division (OH&ESD) Technical Service in the U.S.A. at 1-800-243-4630. In Canada, call Technical Service at 1-800-267-4414.

Duct Tapes, Cloth Tapes

3M™ Value Duct Tape 1900

Utility cloth duct tape. Typical physical and performance properties include, adhesion to steel: 58 oz./in. width, tensile strength: 16 lbs/in width, elongation at break: 12%, thickness: 5.8 mils, temperature use range: up to 200°F (93°C.)

Contractors selection
Masking tape made easy

This streamlined selection features the range of performance characteristics typically in demand at a contractor job site.

LEVELS	MASKING TAPE PRODUCT PORTFOLIO

I

LEVEL 1 CONTRACTOR HIGH PERFORMANCE

Best-in-class contractor choices for reliable masking and clean removal for paints and coatings and heavy duty use.

Tape number	Thickness (mils)	Holding capability	Days for clean removal	UV resistance
234	6.0	High	3	Yes
2308	5.6	High	3	Yes

II

LEVEL 2 CONTRACTOR PERFORMANCE

Choices with clean removal for general job site hanging, sealing, bundling, attaching, and labeling.

Tape number	Thickness (mils)	Holding capability	Days for clean removal	UV resistance
203	5.2	Medium	1	No
200	4.5	Medium	1	No

III

LEVEL 3 CONTRACTOR VALUE

Economical choices with clean removal for light duty bundling, attaching, and labeling.

Tape number	Thickness (mils)	Holding capability	Days for clean removal	UV resistance
2214	5.3	Low/Medium	1	No
2209	5.1	Low/Medium	1	No

Note: This technical information and data should be considered representative or typical only and should not be used for specification purposes.

Answers to the following questions will probably take you to one of the above six 3M™ Masking Tapes.

1. What is the performance requirement for the job? Critical or light duty?

2. What are the environmental conditions? Consider UV, temperature range or indoor/outdoor conditions.

3. Does the job require higher or lower adhesion?
   NOTE: Rough surfaces require higher adhesion, so determine surface being masked.

4. Is it important to be able to remove the tape in one piece?
   Consider the correct tape for easy one piece removal.
   NOTE: How many days will it be masked?

3M

Going Green
Made Easy

What does it mean to be GREENGUARD™ Certified?

"GREENGUARD" is the designation given to products that meet rigorous standards for low-emitting materials. The GREENGUARD Certification Program℠ is an industry-independent, third-party testing program for low-emitting products and materials. It is administered by the GREENGUARD Environmental Institute (GEI), an ANSI authorized standards developer. GEI establishes acceptable indoor air standards for indoor products, environments and buildings; its mission is to improve public health and quality of life through programs that improve indoor air. The first GREENGUARD Certification was awarded in 2002. In 2005, GEI announced the GREENGUARD Children & Schools℠ standard, which created the most rigorous product emissions criteria available today. For more information on GREENGUARD, go to www.greenguard.org.

For more information on the LEED® rating system, go to **www.usgbc.org**.

The "green building" revolution is spreading across the world, and builders and manufacturers everywhere are looking for products to help them meet their new green goals. 3M can help. We've been actively developing water-based adhesives for more than 40 years, and our portfolio of high-performance products includes a wide variety of high solids/low-VOC and GREENGUARD Indoor Air Quality Certified® adhesives. Incorporating these adhesives into your manufacturing processes can help you and your customers pursue LEED® (Leadership in Energy and Environmental Design) rated projects.

The Green Build Rating System: Measuring Greenness

Nearly everyone agrees that building green is a great idea, but how do you measure and substantiate the level of "greenness" achieved by a building? That's what the LEED® rating system was designed to do. Developed by the United States Green Building Council (USGBC), the LEED® rating system awards points to buildings if they meet specific green criteria in five key areas of human and environmental health: sustainable site development, water savings, energy efficiency, materials selection and indoor air quality.

According to the USGBC, pursuing LEED® rated projects can benefit builders in many ways:

- Greater energy efficiency when the building is operational
- Tax relief and lower permit fees
- Lower interest and insurance rates
- Higher-appraised-value properties
- Faster occupancy rates due to greater demand
- A better image in the community

GREENGUARD Certified

Today, 3M has six adhesives that have been certified to the GREENGUARD Children & Schools℠ standard—the highest certification offered by the GREENGUARD Environmental Institute's (GEI) GREENGUARD Certification Program℠. GEI is an industry-independent, nonprofit organization that tests products to ensure their chemical and particle emissions meet acceptable indoor air quality (IAQ) standards—one of the five components of the United States Green Building Council's LEED® rating system.

Botton-line Benefits

3M™ Adhesives that are GREENGUARD Indoor Air Quality Certified® can do more than just help manufacturers and builders pursue LEED® rated projects; they can make long-term economic sense. In addition to the benefits listed below, incorporating green 3M adhesives into your processes can be an important part of helping make your own products green—opening the door to a whole new universe of customers.

Choosing green 3M adhesives can benefit manufacturers through:

- Reduced flammability and fire marshal issues with water-based adhesives
- Fewer controlled substances to manage
- No transportation restrictions from using water-based adhesives
- Improved worker safety with low-VOC adhesives

Green 3M™ Adhesives

3M's commitment to the green movement extends far beyond GREENGUARD Certified adhesives. Our line of high-performance green products also includes a variety of high solids/low-VOC adhesives. So whatever your application, 3M has an adhesive that can help you meet your green goals. And only 3M offers comprehensive support.

3M adhesives that are GREENGUARD Certified include:

A 3M™ Scotch-Weld™ Cylinder Spray Adhesive 94CA—conveniently packaged, low-VOC, solvent-based contact adhesive for laminating

B 3M™ Fastbond™ Pressure Sensitive Adhesive 4224NF—pressure-sensitive water-based adhesive for foam, fabric and carpeting

C 3M™ Fastbond™ Contact Adhesive 30NF/30H—the industry standard in water-based contact adhesives

D 3M™ Fastbond™ Foam Adhesive 100—fast-setting water-based adhesive for foam bonding

E 3M™ Fastbond™ Insulation Adhesive 49—fast-setting, pressure-sensitive water-based adhesive for lightweight bonding

F 3M™ Fastbond™ Contact Adhesive 2000NF—immediate-bonding water-based contact adhesive for laminating

3M support makes the difference

"Going green" is often easier said than done. That's why 3M technical experts are available to work with your manufacturing engineers—to make sure our adhesives deliver the performance you need.

3M provides superior training and support for the adhesives industry. So once you make the decision to go with 3M™ Adhesives, you sign on with a partner who will work with you to make sure our adhesives perform to the highest possible standards.

Opportunities for LEED® Rated Projects

Select 3M™ Adhesives are certified to the GREENGUARD Children & Schools℠ product emission standard for low-emitting interior building materials in the following LEED® rating categories.

Products	LEED® Rating Categories*	Applications	Substrates
3M™ Fastbond™ Contact Adhesive 30NF/30H 3M™ Fastbond™ Contact Adhesive 2000NF 3M™ Fastbond™ Foam Adhesive 100 3M™ Fastbond™ Insulation Adhesive 49 3M™ Fastbond™ Pressure Sensitive Adhesive 4224NF 3M™ Scotch-Weld™ Cylinder Spray Adhesive 94CA	Directly contributes to LEED® EQ Credit 4.1: Low-Emitting Materials: Adhesives & Sealants (NC, CS, CI, R Option A, S Option A)	Many construction applications	Laminate, foam, fabric
3M™ Fastbond™ Contact Adhesive 30NF/30H 3M™ Fastbond™ Contact Adhesive 2000NF 3M™ Fastbond™ Pressure Sensitive Adhesive 4224NF 3M™ Scotch-Weld™ Cylinder Spray Adhesive 94CA	Addresses or contributes to LEED® EQ Credit 4.3: Low-Emitting Materials: Flooring Materials (NC, CS, CI, R Option C, S Option 3)	Flooring	Access, laminate, carpet
3M™ Fastbond™ Contact Adhesive 30NF/30H 3M™ Fastbond™ Contact Adhesive 2000NF 3M™ Scotch-Weld™ Cylinder Spray Adhesive 94CA	Addresses or contributes to LEED® EQ Credit 4.4: Composite Wood & Agrifiber Products (NC, CS, CI, R Option D)	On-site laminations, countertop laminations	HPL, veneers
3M™ Fastbond™ Contact Adhesive 30NF/30H 3M™ Fastbond™ Contact Adhesive 2000NF 3M™ Fastbond™ Foam Adhesive 100 3M™ Fastbond™ Insulation Adhesive 49 3M™ Fastbond™ Pressure Sensitive Adhesive 4224NF 3M™ Scotch-Weld™ Cylinder Spray Adhesive 94CA	Addresses or contributes to LEED® EQ Credit 4.5: Low-Emitting Materials: Furniture and Furnishings (CI, R Option E, S Option 5 – Method A)	Case goods, furniture, mattresses	Foam, fabric, wood, metal, plastic
3M™ Fastbond™ Contact Adhesive 30NF/30H 3M™ Fastbond™ Contact Adhesive 2000NF 3M™ Fastbond™ Foam Adhesive 100 3M™ Fastbond™ Insulation Adhesive 49 3M™ Scotch-Weld™ Cylinder Spray Adhesive 94CA	Addresses or contributes to LEED® EQ Credit 4.6: Low-Emitting Materials: Ceiling and Wall Systems	Displays, partitions, decorative coverings	Drywall, fabric, tile, wood

*In these categories, 3M adhesives that are GREENGUARD™ Certified as components of your products should support your LEED® compliance efforts. Project Types: NC – New Construction, CS – Core and Shell, CI – Commercial Interiors, R – Retail, S – Schools.

Other low-emitting high-solid bonding products

Product Category	Descriptor	Green Element
3M™ VHB™ Tapes	Pressure-sensitive tape to bond and seal	100% solids
3M™ Scotch-Weld™ Structural Adhesives	High-strength, two-component assembly adhesives	Low VOC, meets SCAQMD rule 1168
3M™ Rite-Lok™ Adhesives	Maintenance and repair, thread locking adhesives, assembly, pipe sealants, gasket makers and instant adhesives	Low VOC, meets SCAQMD rule 1168
3M™ Scotch-Weld™ Hot Melt Adhesives	Fast-setting assembly adhesives	100% solids
3M™ Scotch-Weld™ Polyurethane Reactive Adhesives	Fast-setting structural assembly adhesives	100% solids
3M™ Aerosol Adhesives	Conveniently packaged spray adhesives	Low VOC, meets SCAQMD rule 1168
3M™ Scotch-Weld™ Sealants	High-performance polyurethane adhesives and sealants	Low VOC, meets SCAQMD rule 1168

Abrasives, Packaged, Hand Sanding Products

3M™ Drywall Sanding Screen

3M™ Drywall Sanding Screen is made to fit most drywall sanding tools. Made with a sharp silicon carbide mineral for long-lasting performance. Waterproof and can be rinsed for reuse. Features an open mesh cloth backing which reduces loading.

UPC Number	Product ID	Grade	Size	Case Qty	Units
00-051131-50215-4	9089NA	FIN	4.375"x11"	40	PH
00-051131-53738-5	9090NA	MED	4.375"x11"	40	PH

Abrasives, Packaged, 3M™ Pro-Pak™ Abrasives

3M™ Pro-Pak™ Drywall Sanding Screens

3M™ Pro-Pak™ Drywall Sanding Screens are waterproof and can be rinsed for reuse. Designed for sanding drywall joints, patching compounds and plaster. Made with sharp silicon carbide mineral for long-lasting performance.

UPC Number	Product ID	Grade	Size	Case Qty	Units
00-051144-99438-0	99438	120 grit	4-3/16"x11¼"	10	PH
00-051144-99436-6	99436	200 grit	4-3/16"x11¼"	10	PH

Abrasives, Packaged, Sanding Sponges

3M™ Detail Area and Angled Sanding Sponge

3M™ Detail Area and Angled Sanding Sponge is ideal for either dry or wet sanding of wood, paint, metal, plastic and drywall. Rinse and reuse. Angled edge sands corners without affecting adjacent wall or "popcorn" textured ceilings.

UPC Number	Product ID	Grade	Size	Case Qty	Units
00-051115-07053-2	CP040	FIN	4-7/8"x2-7/8"x1	24	PH

3M™ Drywall Sanding Sponge CP042

3M™ Detail Area/Angled Drywall Sanding Sponge is ideal for sanding drywall and plaster during spot repair. When finished, simply rinse and reuse. Available in fine grade.

UPC Number	Grade	Size	Case Qty	Units
00-051115-07056-3	FIN	4.875"x2.875"x1"	24	PH

Abrasives, Packaged, Sanding Sponges, cont'd

3M™ Full Size Sanding Sponge

3M™ Full Size Sanding Sponge is ideal for dry or wet sanding of wood, paint, metal, plastic and drywall. When finished, simply rinse and reuse. Conformable, comfortable, flexible and convenient.

UPC Number	Product ID	Grade	Size	Case Qty	Units
00-051115-00409-4	CP001	FIN	3¾"x2-5/8"x1"	24	PH
00-051115-00408-7	CP002	MED	3¾"x2-5/8"x1"	24	EA

3M™ Sanding Sponge

3M™ Sanding Sponge is for either dry or wet sanding. Ideal for sanding wood, paint, metal, plastic and drywall. Two sanding grades on one sponge in a combination of extra fine/fine. Rinse and reuse.

UPC Number	Product ID	Grade	Size	Case Qty	Units
00-051131-85076-7	900-CP	FIN/MED	3¾"x2-5/8"x1"	4	PH

3M™ Small Area Sanding Sponge 908NA

3M™ Small Area Sanding Sponge is for either dry or wet sanding. Ideal for sanding wood, paint, metal, plastic and drywall. Two sanding grades on one sponge in a combination of extra fine/fine, fine/medium, or medium/coarse. Rinse and reuse.

UPC Number	Grade	Size	Case Qty	Units
00-051131-50038-9	FIN/MED	3¾"x2-5/8"x1"	24	EA

Masking Systems

3M™ Hand-Masker™ Masking Film Plus

Pre-folded, high-density, nonporous film for paint masking and paint overspray protection. Flake resistant for multiple coat use. May be used with lacquers. Use with 3M™ Hand-Masker™ M3000 dispenser. Color: White.

UPC Number	Product ID	Size	Case Qty	Units
