LEVITON

QuickPort® 1-Port Surface Mount Housing

APPLICATION

The compact surface mount housing accepts one QuickPort snap-in connector module. The housing supports voice/data applications in open office, retrofit or other surface mount environments. It includes an ID window, mounting screws and adhesive, and is available in four colors.

SPECIFICATION

The surface mount housing shall be small and low profile to accept one field-configurable QuickPort module. Base and snap-on cover shall include knockouts for rear, bottom, or side cable entry. Base shall also include cable anchor points. Mounting methods shall include screws and pressure sensitive adhesive. Cover shall include an identification window. Construction shall be of high impact fire retardant plastic rated UL 94V-0. Housing shall be cULus listed and compliant with ANSI/TIA-568-C.

FEATURES

- Low profile and small overall footprint
- Compatible with all individual QuickPort modules
- Housing base functions as a punchdown platform stabilizing connector modules during termination
- Connector module can be pre-terminated prior to snapping into housing port
- Comes in four colors: white, ivory, grey, and black

DESIGN CONSIDERATIONS

- Choose either screws or adhesive for mounting
- Bottom, side, or rear cable entry options (rear cable entry recommended to help meet cable bend radius standards)
- Allows several port identification methods, including colored modules, designation labels and custom silkscreening
- Allows the use of different colored connectors for different applications to ID ports, 13 TIA-606 compatible connector colors available. Leviton's pre-printed Port Designation Labels are also compatible (PN 41080-L*B)

STANDARDS COMPLIANCE

Meets or exceeds all applicable standards. cULus listed; complies with NEC Article 800 and ANSI/TIA-568-C.
