## Printable Markers

**Print your own markers to your requirements!**

### Laser Printable

- Self-laminating markers have a clear overlay of polyester that protects the legend against oils, grease, water, chemicals, and foreign matter
- Markers feature a strong adhesive for maximum adhesion to the wire and are available in a variety of sizes, both as standard and specials
- 1 Mil Polyester (same material as WPR rolls)
- Test template included with each 25 pack
- Sizes to suit most applications

| Cat. No.  | Sheet Size (in.) | Markers per Sheet | Marker Size (in.) | Print Area W x L (in.) | Max. Wire Dia. (in.) |

## Wire Marker Books

Markers that withstand oil, water and humidity!

### Vinyl Cloth, Standard Books

- Choose the numbers or letters you need
- Wide selection of sizes and legends
- Size 3 in. x 5 in. (76 mm x 146 mm)
- Material: vinyl cloth
- Cover keeps markers clean
- Books are 3 in. x 5-1/2 in. pocket size
- 10 pages per book

Easy to Use!

Pocket pack wire marker books are easy to carry and easy to use. The material is an all-purpose vinyl coated cloth tape exclusively designed to resist abrasion, oil, water and dirt.

From Thomas & Betts you get the one-piece wire marker and terminal marker. A slight die-cut enables you to easily remove the terminal.

## Wire Marker Books

A handy solution for your identification needs!

### Compact Wire Marker Books

- Compact books are easier to carry
- Bold letters/numbers, easy to apply and read
- Convenient alphanumeric and load center legends
- E-Z-Snap feature removes the entire sheet more easily from the booklet
- Vinyl coated cloth

| Cat. No. | Number of Markers and Legends                                    |
|----------|--|
| WCMB-09  | 128 markers 0-9, ABC, +-/; marker size 1/4 in. x 1-1/2 in.       |
| WCMB-LC  | 176 markers Load-center Labels; marker size 1-1/32 in. x 3/4 in. |

Identify and protect all in one!

### Vinyl Self-Laminating Books

- Convenient alphanumeric legends
- Lamination keeps markers protected

| Cat. No.       | Number of Markers and Legends  |
|----------------|--|
| WMSL 1-33, A-G | 400 markers: 1/4 in. x 1-1/4 in. – printed area 5/8 in.; 10 markers each: 1 thru 33 and A thru G   |
| WMSL-0-9       | 40 markers each 0 thru 9; 10 markers each: T <sub>1</sub> , T <sub>2</sub> , T <sub>3</sub> , L <sub>1</sub> , L <sub>2</sub> , L <sub>3</sub> |
| WMSL-0-45      | 10 markers each 0 thru 45  |
| WMSL-46-90     | 10 markers each 46 thru 90   |
| WMSL-A-Z       | 10 markers each: A thru Z; +, -, and 0 thru 15   |
| WMSL-A-90      | 6 markers each: 0 thru 15; 4 markers each 16 thru 90; 2 markers each A thru Z  |

### Vinyl Self-Laminating, Blank Write-on Books

- Choose from a variety of marking area sizes
- Clear area covers print legend for extra protection
- Lamination keeps markers protected

| Cat. No. | Number of Markers and Legends  |
|----------|--|
| WM-BW3   | 30 markers 1 in. x 4-7/8 in. blank write-on, self-laminating markers; marking area: 1 in. x 1 in.        |
| WM-BW5   | 60 markers 1 in. x 2-3/4 in. blank write-on, self-laminating markers; marking area: 1 in. x 3/4 in.      |
| WM-BW12  | 200 markers 1/2 in. x 1-1/4 in. blank write-on, self-laminating markers; marking area: 1/2 in. x 5/8 in. |
| WM-BW14  | 400 markers 1/4 in. x 1-1/4 in. blank write-on, self-laminating markers; marking area: 1/4 in. x 5/8 in. |
| WM-BW34  | 140 markers 3/4 in. x 1-1/4 in. blank write-on, self-laminating markers; marking area: 3/4 in. x 5/8 in. |

### Vinyl Self-Laminating, Standard Laminator Book

- Protect labels or apply over non-sticking markers
- 50, 3-1/2 in. x 5 in. clear cable laminators

| Cat. No. | Number of Markers and Legends                |
|----------|--|
| WM-LAM   | 50, 3-1/2 in. x 5 in. clear cable laminators |

Wire Marker Cards – Vinyl Cloth

Vinyl, Colour Coding Standard Books

- Available in two sizes
- Colour your wires for coding and other applications

| Cat. No. | Number of Markers and Legends   |
|----------|---|
| WM-COL14 | 460 Markers each: 1/4 in. x 1-1/4 in. 1 page yellow and blue;<br>2 pages red, white, green, and black |
| WM-COL1  | 50 Markers each: 1 in. x 2-1/4 in. 1 page yellow and blue;<br>2 pages red, white, green and black     |

## Wire Marker Cards – Vinyl Cloth

**Marker Cards repel oil, water, and humidity!**

### Catalogue Numbering System

Example:

**WC** **100** **S** = **Wire Marker Card**

*Legend 100*

*1-1/2 in. Size*

**Y** Replace Y with length

*S = 1-1/2 in.*

*D = 3/4 in.*

**X** Replace X with legend

*Single character = 1, 2, 3, etc.*

*Sequence = 1 thru 33*

**W** **( )** Replace ( ) with legend

*C = Wire Marker Card*

*S = Vinyl Self-laminated*

- Select from a variety of number and letter combinations and sizes
- Material — vinyl cloth
- Standard length 1-1/2 in.
- Available in 3/4 in. length

### Numbers in Sequence

| Cat. No.               | Legend  | Markers per Card  |                  |
|------------------------|---------|-------------------|------------------|
|                        |         | 1-1/2 in. (38 mm) | 3/4 in. (19 mm)* |
| <b>WC1 thru 33S</b>    | 1–33    | 33                | 66               |
| <b>WC34 thru 66S</b>   | 34–66   |                   |                  |
| <b>WC67 thru 99S</b>   | 67–99   |                   |                  |
| <b>WC100 thru 124S</b> | 100–125 | 25                | 50               |
| <b>WC125 thru 149S</b> | 125–149 |                   |                  |
| <b>WC974 thru 999S</b> | 974–999 |                   |                  |

Order in multiples of 25 cards.

\*When 3/4 in. length markers are required, substitute the last S in the catalogue number with a D, i.e. WC1 thru 33S would become WC1 thru 33D.

### Solid Numbers

| Cat. No.                          | Legend           | Markers per Card  |                  |
|-----------------------------------|------------------|-------------------|------------------|
|                                   |                  | 1-1/2 in. (38 mm) | 3/4 in. (19 mm)* |
| <b>WCZEROS</b>                    | 0                | 36                | 72               |
| <b>WC1S, WC2S thru WC99S</b>      | 1, 2, ...99      |                   |                  |
| <b>WC101S, WC102S thru WC600S</b> | 101, 102, ...600 | 25                | 50               |

Order in multiples of 25 cards.

\*When 3/4 in. length markers are required, substitute the last S in the catalogue number with a D, i.e. WC1S would become WC1D.

### Numbers in Sequence Repeated

| Cat. No.             | Legend | Markers per Card  |                  |
|----------------------|--------|-------------------|------------------|
|                      |        | 1-1/2 in. (38 mm) | 3/4 in. (19 mm)* |
| <b>WC1 thru 3S</b>   | 1–3    | 36                | 72               |
| <b>WC1 thru 4S</b>   | 1–4    |                   |                  |
| <b>WC1 thru 5S</b>   | 1–5    |                   |                  |
| <b>WC0 thru 10S</b>  | 0–10   | 33                | 66               |
| <b>WC1 thru 12S</b>  | 1–12   | 36                | 72               |
| <b>WC1 thru 18S</b>  | 1–18   |                   |                  |
| <b>WC19 thru 36S</b> | 19–36  |                   |                  |

Order in multiples of 25 cards.

\*When 3/4 in. length markers are required, substitute the last S in the catalogue number with a D, i.e. WC1 thru 3S would become WC1 thru 3D.

## Wire Marker Cards – Vinyl Cloth

### Paired Numbers in Sequence

### Numbers in Sequence on a Coloured Background

| Cat. No.       | Legend | Markers per Card  |                  |
|----------------|--------|-------------------|------------------|
|                |        | 1-1/2 in. (38 mm) | 3/4 in. (19 mm)* |
| WC1 thru 16PS  | 1-16   | 16                | 32               |
| WC17 thru 32PS | 17-32  |                   |                  |
| WC33 thru 48PS | 33-48  |                   |                  |

Order in multiples of 25 cards. \*When 3/4 in. length markers are required, substitute the last S in the catalogue number with a D, i.e. WC1 thru 16PS would become WC1 thru 16PD.

### Suffix Numbers

- Use to extend numbers or to make alphanumeric codes (i.e. adding suffix 05 to ABC = ABC05)

| Cat. No.                | Legend   | Markers per Card  |                  |
|-------------------------|----------|-------------------|------------------|
|                         |          | 1-1/2 in. (38 mm) | 3/4 in. (19 mm)* |
| WC00S                   | 00       | 36                | 72               |
| WC01S, WC02S thru WC09S | 0, 02-09 |                   |                  |
| WC0009S                 | 00-09    | 30                | 60               |

Catalogue No. WC0009S has three sequences of 00...09 on a card. WC0009D has six sequences of 00...09 on a card. Order in multiples of 25 cards. \*When 3/4 in. length markers are required, substitute the last S in the catalogue number with a D, i.e. WC00S would become WC00D.

### Suffix Numbers

- Blue, green and red markers have white legends; orange and yellow markers have black legends

| Cat. No.         | Legend | Background Colour | Markers per Card  |                  |
|------------------|--------|-------------------|-------------------|------------------|
|                  |        |                   | 1-1/2 in. (38 mm) | 3/4 in. (19 mm)* |
| WCBLZEROS        | 0      | Blue              | 36                | 72               |
| WCBL1S...WCBL50S | 1...50 |                   |                   |                  |
| WCGRZEROS        | 0      | Green             |                   |                  |
| WCGR1S...WCGR50S | 1...50 |                   |                   |                  |
| WCORZEROS        | 0      | Orange            |                   |                  |
| WCOR1S...WCOR50S | 1...50 |                   |                   |                  |
| WCRDZEROS        | 0      | Red               |                   |                  |

\*When 3/4 in. length markers are required, substitute the last S in the catalogue number with a D, i.e. WC1T1-3T3S would become WC1T1-3T3D.

## Wire Marker Cards – Vinyl Cloth

Mini Markers are used to identify smaller items such as terminal blocks and small wires

### Terminal Block – Mini Markers

| Cat. No.       | Legend         | Markers per Card<br>Marker Size 5/16 in. x 3/16 in. |
|----------------|----------------|---|
| WC1 thru 48TM  | 1, 2 thru 48   | 144   |
| WC49 thru 96TM | 49, 50 thru 96 |   |
| WCA thru ZTM   | A, B thru Z    |   |

Order in multiples of 25 cards.  
A thru Z legend does not include "I" or "O".

### Solid Numbers and Solid Letters – Mini Markers

| Cat. No.             | Legend         | Markers per Card<br>1/2 in. (13 mm) |
|----------------------|----------------|-------------------------------------|
| <b>Solid Numbers</b> |                |                                     |
| WCZEROMIN...WC99MIN  | 0, 1, ...99    | 150                                 |
| WC100MIN...WC250MIN  | 100, 101...250 | 99                                  |
| <b>Solid Letters</b> |                |                                     |
| WCAMIN               | A              | 150                                 |
| WCBMIN...WCZMIN      | B, C...Z       |                                     |

Order in multiples of 25 cards.

### Numbers in Sequence – Mini Markers

| Cat. No.          | Legend         | Markers per Card<br>1/2 in. (13 mm) |
|-------------------|----------------|-------------------------------------|
| WC0 thru 49MIN    | 0, 1...49      | 150                                 |
| WC50 thru 99MIN   | 50, 51...99    |                                     |
| WC100 thru 132MIN | 100, 101...132 | 99                                  |
| WC133 thru 165MIN | 133, 134...165 |                                     |
| WC463 thru 495MIN | 463, 464...495 |                                     |

Order in multiples of 25 cards.  
Quantity of each number per card: 3.

### Letters in Sequence – Mini Markers

| Cat. No. | Legend   | Markers per Card<br>1/2 in. (13 mm) |
|----------|----------|-------------------------------------|
| WCAZMIN  | A, B...Z | 156                                 |

Order in multiples of 25 cards.

## Wire Marker Cards – Vinyl Cloth

Cable markers are used to identify large conductors, electrical cables and tubing for hydraulic systems!

### Solid Numbers and Solid Letters – Cable Markers

| Cat. No.                | Legend   | Markers per Card  |                    |
|-------------------------|----------|-------------------|--------------------|
|                         |          | 3-1/2 in. (89 mm) | 1-3/4 in. (45 mm)* |
| Solid Letters           |          |                   |                    |
| WCCMAS                  | A        | 18                | 36                 |
| WCCMBS                  | B        |                   |                    |
| WCCMCS                  | C        |                   |                    |
| WCCMDS                  | D        |                   |                    |
| WCCMES                  | E        |                   |                    |
| WCCMFS                  | F        |                   |                    |
| WCCMNS                  | N        |                   |                    |
| Solid Numbers           |          |                   |                    |
| WCCM0S                  | 0        | 18                | 36                 |
| WCCM1S, WCCM2S...WCCM9S | 1, 2...9 |                   |                    |

Order in multiples of 25 cards.

\*When 1-3/4 in. length markers are required, substitute the last S in the catalogue number with a D, i.e. WCCMAS would become WCCMAD.

### Numbers or Letters in Sequence – Cable Markers

| Cat. No.   | Legend     | Markers per Card  |                    |
|------------|------------|-------------------|--------------------|
|            |            | 3-1/2 in. (89 mm) | 1-3/4 in. (45 mm)* |
| WCCM01-09S | 01 thru 09 | 2                 | 4                  |
| WCCM1-9S   | 1 thru 9   |                   |                    |
| WCCM1-18S  | 1 thru 18  | 1                 | 2                  |
| WCCM19-36S | 19 thru 36 |                   |                    |

## Vinyl Sleeve Markers

## SMY Sleeve Markers

Closed combination marker. A special Y-shaped profile covers a wide diameter range of small wires. The large print surface of the marker enables excellent readability at normal reading distances.

| Cat. No.  | Colour | Recommended wire diameter (in.) | AWG   | Std. Pkg.        |
|-----------|--------|---------------------------------|-------|------------------|
| SMY079-4* | Yellow | 0.039 – 0.079                   | 23–20 | 1001 = Reel/1000 |
| SMY079-9* | White  |                                 |       |                  |

\*Replace with character required.

## SMS Sleeve Markers

Closed combination marker, permanent grip and adjustable marking sleeve for as yet unconnected wires. Unique profile with spring-action bellows covers a wide diameter range. Twist-protection for secure combination marking.

| Type Designation | Height (H) (in.) | Width (B) (in.) | Text Height (in.) |

Refill markers order SMS118 or SML196 Series, see page E17.

## T&B Express

### Multi-Character Marking (Customized Orders)

Multi-character markings allows you to order markers already printed with the combinations of characters required, in accordance with customers specifications, direct from T&B with a 5 to 10 day delivery for orders under 10,000 markers. The information is transferred via e-mail in an Excel format. Purchase order is matched with the Excel file and is sent to Customer Service. We even offer heat shrink markers. Value of customized marking order must be equal to or greater than \$100.

*Please consult your Regional Sales Offices for a Quote (Min. order required)*

E-Z-CODER

Items included in the E-Z-CODER

36 reels of 500 x SMO markers from 1 to 9, A thru Z including the “-” symbol (order suffix **DH**). To replenish your reels of markers, order a reel of catalogue no. SM0256-4\* and to select your legend, just replace the asterisk with your choice of characters i.e.: **A, 3, .** (for dot symbol, order suffix **DT**). For other legends or symbols, contact your Thomas & Betts Regional Sales Office.

The carrying case also includes one bag (100 pieces) of SMKH10-0 “short” cable tag holders for up to 10 characters and one bag (100 pieces) of SMKH20-0 “long” cable tag holders for up to 20 characters. To complete this kit, 100 x TY5253MX Ty-Rap® cable ties are supplied to install and secure your cable tag holders.

Packaging options for customized order

**Unsorted in a loop in sequential manner based on how markers are on customer Excel file.**

**Sorted marking sleeves packed entirely according to customer requirements, in packs with sorting designations.**

## Labels Overview

### Stick to safety with E-Z-Code® Labels

All kinds of dangers exist with high-voltage equipment and industrial machinery. Warn your employees of hazards and keep them safe with E-Z-Code® Labels. Place the self-adhesive labels where they need to be seen for on-the-spot identification and instruction and to help you comply with workplace health and safety regulations.

#### Arc Flash Labels

Avoid accidents and OSHA fines by clearly marking electrical equipment with potential for arc flash hazards with E-Z-Code® Arc Flash Labels. They're designed to meet the latest ANSI standards for safety labels and help you comply with both Canadian Electrical Code and National Electrical Code® standards.

- Made of pressure-sensitive vinyl with aggressive acrylic adhesive
- For more information, see **p. E33**

#### Conduit and Voltage Markers

Positively identify voltage on conduit, load centers, circuit breakers, switches and other electrical equipment to allow faster, safer repair.

- Made from rugged, self-sticking vinyl — adheres to most surfaces
- High-contrast black type on safety-orange background for visibility
- For more information, see **p. E31**

#### Electrical Safety Labels

Positively identify voltage on conduit, load centers, circuit breakers, switches and other electrical equipment to allow faster, safer repair.

- Made from rugged, self-sticking vinyl — adheres to most surfaces
- High-contrast black type on safety-orange background for visibility
- For more information, see **p. E32**

#### Lockout Labels

Compliant with both Canadian and US lockout/tagout requirements, E-Z-Code® Lockout Labels are designed to help you develop, implement and update a lockout/tagout program for your facility.

- Made from pressure-sensitive vinyl with polyester overlaminate
- Adhere to almost any clean, dry surface — rough or smooth
- Use in indoor or outdoor applications
- For more information, see **p. E33 to E35**

#### Pictogram Labels

Use these labels featuring universal symbols to communicate hazards to anyone, regardless of literacy or language.

- Made from self-adhesive vinyl
- For more information, see **p. E45**

#### Machine Warning Labels

Machine Warning Labels help you prevent injuries and reduce downtime. They also comply with ASME (ANSI Z535), CSA standard Z462 and OSHA 1910.145 requirements to use safety and compliance signs to indicate hazards that may lead to accidents, injury and property damage.

**DANGER** indicates an immediate hazard with a strong potential for death or severe injury

**WARNING** indicates hazardous situations that may result in death or severe injury

**CAUTION** warns against potential hazards or unsafe practices

- Made from pressure-sensitive vinyl with polyester overlaminate and permanent acrylic adhesive
- Use indoors or outdoors — temperature range of -40°C to 180°C
- 5-year durability
- For more information, see **p. E36 to E40**

#### Write-On Control Markers

A quick and simple way to keep on-the-spot records, write-on control markers are easy to carry and dispense as needed.

- Made from pressure-sensitive, imprintable matte vinyl
- Adhere to clean, flat, dry, smooth surfaces
- Resists grease, oil and moisture
- Accepts pen, pencil, felt-tip marker, typewriter or rubber stamp
- For more information, see **p. E41, E42**

#### Industrial Markers

Individual letters and numbers are ideal for fast, general-purpose marking of bins, shelves, poles, panels, switches and equipment.

- Made from plastic-coated vinyl cloth with high-tack adhesive
- Rated for indoor use
- Available in 4 sizes with character height ranging from 5/16 in. to 2 in.
- Reflective letters and numbers also available for high visibility in dark or dimly lit areas
- For more information, see **p. E44**

#### Custom Labels

Need labels you don't see in this catalogue? No problem — we welcome custom orders. Please refer to the form on **p. E46, E47** for guidance, and don't hesitate to contact your Regional Sales Office for ordering assistance.

## Conduit & Voltage Marker Cards

**Identify electrical systems, including load centers, circuit breakers, switches or any other vital electrical equipment!**

- Helps prevent mistakes and trial and error searching during electrical service work
- Manufactured of rugged Self-Sticking Vinyl with high-contrast black printing on safety orange background
- OSHA compliant

Style A: 2-1/4 in. x 9 in.  
(1 marker per card) Character Height 1-7/8 in.

Style B: 1-1/8 in. x 4-1/2 in.  
(4 markers per card) Character Height 7/8 in.

Style C: 2-1/4 in. x 1/2 in.

## Electrical Safety Labels

### “Mr. Ouch” — NEMA Safety Labels

- Use on pad-mounted transformers located in public areas
- Meets NEMA, UL and CSA standards
- Made of tamper-resistant film to prevent defacing and vandalism
- Permanent pressure-sensitive adhesive makes removal virtually impossible
- Orange WARNING label goes on outside of enclosure
- Red DANGER label goes on inside of enclosure

| Cat. No.        | Label Size        |
|-----------------|-------------------|
| <b>WUT-0366</b> | 4-1/2 in. x 8 in. |

## Lockout Labels

Nothing's shocking when you warn service personnel of potential arc flash hazards

## Arc Flash Labels

- Use on switchboards, panelboards, industrial control panels, motor control centers and other electrical equipment and components to identify potential arc flash hazards
- Post where clearly visible to qualified persons before they service, adjust or perform maintenance on equipment
- Designed to meet the latest ANSI standards for safety labels
- Made of durable, pressure-sensitive vinyl with aggressive acrylic adhesive

### CEC, Rule 2-306, NEC Article 110.16 — Flash Protection.

Electrical equipment, such as switchboards, panelboards, industrial control panels, meter socket enclosures and motor control centers, that are in other than dwelling occupancies, and are likely to require examination, adjustment, servicing or maintenance while energized shall be field marked to warn qualified persons of potential electric arc flash hazards.

The marking shall be located so as to be clearly visible to qualified persons before examination, adjustment, servicing or maintenance of the equipment.

**NEC Informational Note No. 1 : NFPA 70E-2004, Standard for Electrical Safety in the Workplace**, provides assistance in determining severity of potential exposure, planning safe work practices, and selecting personal protective equipment.

**NEC Informational Note No. 2 : ZNSI A535.4-1998, Product Safety Signs and Labels**, provides guidelines for the design of safety signs and labels for application to products.

## Lockout Labels

Stick'em up for greater workplace safety

### Lockout Labels

- Prevent accidents and protect employees
- Comply with Canadian and US lockout/tagout requirements
- Made from pressure-sensitive vinyl with polyester overlamine to protect graphics
- Adhere to almost any clean, dry surface  
— rough or smooth
- Use in indoor or outdoor applications

## Machine Warning Labels

### Prevent injuries at your industrial location

#### Guide to Label Headers

**DANGER** indicates an immediate hazard with a strong potential for death or severe injury

**WARNING** indicates hazardous situations that may result in death or severe injury

**CAUTION** warns against potential hazards or unsafe practices

- Help prevent accidents and reduce downtime
- Comply with ASME (ANSI Z535), CSA Standard Z462 and OSHA 1910.145 requirements
- Made from pressure-sensitive vinyl with polyester overlaminate and permanent acrylic adhesive
- Use in indoor or outdoor applications
- Temperature range of -40°C to 180°C
- 5-year durability

## Write-On Control Markers

### Polyolefin Pocket Pack Markers

#### Stay ready for quality control!

- Easy to carry — marker books fit in shirt pocket
- Easy to use — just peel the marker from the page
- Clean and convenient — markers are tabbed so fingers never touch the adhesive

15 pages per book, 16 markers per page. Each label is 1-1/2 in. x 5/8 in.  
Each book contains 240 identical labels.

## Industrial Markers

Easy to read and available in a variety of configurations!

### Numbers and Letters

- High-contrast, self-sticking, vinyl cloth markers make numbering and coding quick and easy
- Rated for indoor use
- Select character heights ranging from 5/16 in. to 3-3/4 in.

Series 003

78 markers per card.  
Marker size: 3/8 in. x 1/2 in. Character Height: 5/16 in.

Series 063

32 markers per card.  
Marker size: 9/16 in. x 3/4 in. Character Height: 5/8 in.

Series 100

10 markers per card.  
Marker size: 7/8 in. x 1-1/2 in. Character Height: 1 in.

Series 200

10 markers per card.  
Marker size: 7/8 in. x 2-1/4 in. Character Height: 2 in.

Order in multiples of 5 cards.

### Numbers and Letters

- High-contrast, self-sticking, vinyl cloth markers make numbering and coding quick and easy
- Rated for indoor use

| Cat. No. | Size     | Character Height | Marker Size (W x H)    |
|----------|----------|------------------|------------------------|
| WRSUM*   | Small    | 1-1/2 in.        | 1-3/8 in. x 1-7/8 in.  |
| WRUM*    | Standard | 2-1/2 in.        | 1-3/4 in. x 2-7/8 in.  |
| WRLUM*   | Large    | 3-3/4 in.        | 2-7/8 in. x 4-5/16 in. |

\* Add desired letter (A–Z) or number (0–9) in place of asterisk to complete Cat. No.  
Example: WRSUM1, WRSUM2, WRSUMA, etc.  
Order in multiples of 25 cards.

## Pictogram Labels

Don't let words get in the way of hazard information

### Pictogram labels

- Universal symbols communicate hazards to anyone, regardless of literacy or language
- Made from self-adhesive vinyl
- Label size is 2 in. x 2 in.

| Cat. No.       | Label Size    |
|----------------|---------------|
| <b>PTG-100</b> | 2 in. x 2 in. |

| Cat. No.       | Label Size    |

## Signs Overview

**Prevent injuries and reduce downtime with E-Z-Code® safety and compliance signs**

### Industry Standards

ASME (ANSI Z535) and OSHA 1910.145 require the use of safety and compliance signs to indicate hazards that may lead to accidents, injury and property damage. E-Z-Code® signs comply with all current OSHA and ANSI standards and will help you create a safer workplace for both employees and visitors.

### Guide to Label Headers

|  |  |
|--|--|
|  | <b>DANGER</b> indicates an immediate hazard with a strong potential for death or severe injury |
|  | <b>CAUTION</b> warns against potential hazards or unsafe practices                             |
|  | <b>NOTICE</b> provides general information to prevent confusion                                |
|  | <b>SAFETY FIRST</b> offers information about health, housekeeping and general safety           |

### Materials

#### Self-Sticking (SS)

- Made from pressure-sensitive vinyl with permanent acrylic adhesive
- Indoor and outdoor applications
- Temperature range of -40°C to 82°C (-40°F to 180°F)
- 2- to 3-year durability

#### Plastic (PL)

- Made from durable linear polyethylene
- Fade- and crack-resistant
- Indoor and outdoor applications
- Temperature range of -23°C to 80°C (-10°F to 176°F)
- 5- to 8-year durability

#### Aluminum (AL)

- Made from aluminum with baked finish and screen-printed graphics
- Indoor and outdoor applications
- 8- to 10-year durability

### Sizes

- Most signs available in your choice of 7 in. x 10 in. or 10 in. x 14 in. sizes
- Bilingual English/Spanish signs available in larger 10 in. x 14 in. size only

## Electrical Protection Signs

Avoid potential catastrophes by clearly marking hazard areas

## Visual Warning Tapes Overview

**E-Z-Code® Visual Warning Tapes make identification and warning easier**

### Colour-Coded Vinyl I.D. Tapes

- Use to indicate traffic patterns or identify equipment
- Made from self-sticking vinyl
- Available in 4 widths and 11 colours
- For more information, see p. E57

### Barricade Tapes

- Suitable for indoor or outdoor use
- Available with a variety of CAUTION legends on yellow tape or DANGER on red and white striped tape
- For more information, see p. E59, E60

### Buried Utility Tapes

- Warn equipment operators that a utility cable or pipe is buried below — before damage occurs
- Designed for direct burial 12 in. to 18 in. below ground surface, directly above cable or pipe
- Legends for electric, water, telephone, gas, sewer, high voltage and fiber optic lines
- Black printing on bright, fade-resistant coloured backgrounds
- Available in 3 in. and 6 in. widths
- For more information, see p. E59, E60

### Detectable Buried Utility Tapes

- Use to identify buried lines so that you can easily find them in the future
- Metallic-backed tape, when buried up to 18 in. below ground, can be detected by common metal detectors
- Legends for electric, water, telephone, gas, oil, sewer, high voltage, cable TV and fiber optic lines
- Black printing on bright coloured background
- Available in 3 in. and 6 in. widths
- For more information, see p. E60

## Colour-Coded I.D. Tapes, Floor Tapes

**Save time and money over painting!**

### Colour-Coded Vinyl I.D. Tape

- Effectively warns or identifies equipment, traffic and housekeeping items
- Choose from different widths
- Many colours available

### Buried Utility Tape

- Protect against costly utility dig-ins
- Place 1 to 1-1/2 feet below the ground surface directly above pipeline or cable below
- Bright, fade-resistant colours warn equipment operators that a vital pipeline or cable is buried below, before damage occurs
- Black text on a bright background

**NOTE:** All barricade and utility tapes are 4 MIL polyethylene and are not self sticking. All legends are printed in black. Standard package is 1 roll.

## Barricade and Burial Tapes

### Foil-Backed Detectable Buried Utility Tape

- Features a metallic backing designed to be detectable under normal earthen surfaces up to 18 in. with common metal detectors
- Simple and fast method for relocating lines, cables and conduit for future renovation
- Black text on a bright background

## MTX-MK9-USB

### What is ProMark?

- USB 2.0 connection
- Backlit screen
- Produces up to one marker a second

The Partex ProMark concept consists of small, portable marking machines that solve most smaller marking needs.

ProMark should be seen as your own small marker factory that enables fast and cost effective complementary marking.

### MTX-MK9-USB

- Portable printer for complementary marking and production of smaller series of markers
- "A small marker factory" that writes cable, wire, component and terminal block markers
- Uses ink ribbons for printing and is close to maintenance free
- High wear resistance on print
- Printer is controlled by a computer or by its own keyboard (excellent when producing single markers or short numerical series)

### WinSign Software

- Lets you control the whole printing process i.e. boldness of print, length of the marker, printing speed, text size, etc.
- Pre-programmed default values get you ready in no time
- Easy to import files from Excel. Just copy and paste
- Database function for easy saves and loadings of files and projects
- Number generator function

## MTX-MK9-USB

### ProMark

#### MTX-MK9-USB PRINTER

- Compact, portable printer for cable, wire and component marking on site
- Feeds, prints and cuts bulk Partex profiles and self adhesive labels
- Stores and imports marker files with a USB-PC connection, or by USB memory
- Choose between English, German or French language for printer display
- A cost effective identification system for use in panel building and electrical installations

#### Facts

##### Thermotransfer printing

300 dpi print resolution

##### Printing speed

35.0 mm/s in standard mode

20.0 mm/s in low temperature mode

##### Text heights

2, 3, 4 or 6 mm

##### Maximum rows that can be printed

1 or 2 row in tube mode and 1 to 3 rows in tape mode

##### PC connection

USB 2.0 connection and WinSign software or

USB memory and WinSign software

##### Power

AC adapter 100 ~ 240V (50-60Hz)

Power consumption: 20W

CE Certified

##### Measurements

(L x W x H) 290 x 300 x 95

##### Weight

2 kg

##### Temperature range

Operating temperature: +10°C to 35°C

Storage temperature: 0°C to +40°C

To obtain the best printing results, the temperature of the profile should not be lower than +25°C

#### General information

##### Design

A third generation printer the ProMark MTX-MK9-USB is a flexible thermal transfer printer, ideal for fast, on site complementary work. The marking machine is equipped with a USB 2.0 connection to a PC for fast transfer of marking files. It is also possible to save/load marker files on a USB memory.

The MTX-MK9-USB has several libraries of symbols that can be imported onto the markers. It is equipped with an international keyboard; therefore you have to import unique European letters from a library of European letters.

##### Features

High production speed

Backlit display

Extended memory

USB 2.0 connection

Partex WinSign 5.5 software is included

## MTX-MK9-USB

### Improvements to the MTX-MK9-USB!

**PO profile**

**Shrink tubing**

**PP profile**

**PO-068Q**

**PO profiles on compactdisc**

**PO profiles on DN-reel**

- USB 2.0 direct PC connection
- Flash drive is replaced with USB memory
- The screen has higher resolution and is backlit
- Higher production speed, both in low temperature and standard mode
- Extended internal memory
- Smoother more quiet feed of profiles
- No guiding cassette needed to print on PO-068 profile
- Writes on PO-068Q - a profile with pre-punched holes for fast and reliable cable marking
- Use together with a DN reel when producing smaller series for cost effective marker production
- Compatible with a new, updated version of Partex WinSign software

## MTX-MK9-USB

### The ProMark MK9 System Concept

**MTX-MK9-USB**

**Easy loading of ribbon into ribbon holder. 50 meter black ribbon and 30 meter white ribbon.**

**Cutting and printing unit.**

**The MTX-MK9-USB is delivered in a case with room for manuals, AC adapter and other accessories.**

**MTX-MK9-USB prints profiles on DN reels.**

**Printing on P0 profiles.**

**MTX-MK9-USB**

**Transfer data files with marking information between the PC and the printer by using the USB 2.0 PC/printer connection or a USB memory.**

**Profile guide cassette for profiles such as PP-046.**

## MTX-MK9-USB

### Applications

PP profile on compactdisc

Tape cassette

PP profile inside PTC sleeve

PP profile

PP profile inside PT+ sleeves

PO-068Q profile for cable marking

Compactdisc with PO profiles

PO-068TW for cable marking on SMOH

PO profiles on DN reel

PP profiles mounted on terminal block

**Standard USB cables available at most electronic retail stores.**

**Notes:**

Following Partex products can be combined with ProMark consumables:

1. PM-10/20/24 transparent sleeves with ProMark PP-046/090 insert tags and MK9-PL090/120 self adhesive labels.
2. PT+02/10/20/30 transparent sleeves combined with PP-046 insert tag profile.
3. PTC10/20/30/50 transparent sleeves are combined with PP-046 insert tag profile
4. PKH and SMOH carrier strips are combined with P0-068TW / PRZ071 cable marking profiles.

For detailed information, please contact your Regional Sales Office.

Ø = 4 Yellow profile, 9 White profile, other colours on request

**Zerex sleeves and carrier strips are halogen free**

## MTX-MK10-KIT1

### Thermal Transfer Printer

### Specification - Printer Data

MTX-MK10-KIT1 is a modern thermal transfer printer for PARTEX PO profiles for all needs of wire and cable marking with high production speed (up to 125 mm/sec).

MTX-MK10-KIT1 has a direct connection to any computer by means of a USB cable and is controlled by Partex WinSign software.

It prints on profiles directly from a reel and semi detaches the marker at desired lengths with the built-in cutting unit.

In addition to PO profile, the MTX-KM10-KIT1 prints on heat shrink tubing and PARTEX component marker PPA profile.

### Production on site

- Compact heavy duty printer for high demand production for wire, cable and component marking
- Feeds, prints and cuts bulk cable markers (PO), heat shrink (PHZ) profiles and self adhesive profiles
- MTX-MK10-KIT1 is a very cost effective identification system for use in panel building and electrical installations
- USB connection, controlled by Partex software WinSign

### Specification – General

#### Thermal transfer printing

300 dpi print resolution

#### Printing speed

125 mm/sec.

#### Printer head width

105 mm

#### PC connection

USB 2.0 connection and PARTEX software WinSign

#### Power supply

100 - 240 V (50-60Hz)  
Power consumption: max. 300 W  
CE Certified

#### Measurements

(L x W x H): 446 x 242 x 275 mm

#### Weight

9 kg

#### Cutter

Perforation cutter

#### Operation data

Operating temperature: +10°C to +35°C  
Humidity: 30 - 85% not condensing  
To obtain the best printing result, the temperature of the profile should not be lower than +25°C

## MTX-MK10-KIT1

### Product and Ordering Information

- Includes a complete system with a wide range of products and is user friendly
- Features a printer with high production speed, a perforation cutter and solid construction
- Uses software that allows the printer to be directly connected to a PC via USB and is controlled by the Partex WinSign software which supports different font sizes

**PP/PPA**  
Inlay tags /  
Component markers

**PO/POZ**  
Wire / Cable markers

**SMOZ**  
Cable markers

## MTX-MK10-KIT1

### Product and Ordering Information

#### Thermal Transfer Labels, Polyester

Printing with thermal transfer printer, waste removed, rounded corners

Material: S0-5 and S7 Series polyester, matte yellow S0, white S3, silver S1 and security film S5, S2 polyester silver gloss, S4 white gloss

Package: 1 roll. Core 38 or 76 mm (1.496 or 2.992 in.)

Polyester labels, 1-track or 3-track, core diameter 38 mm (1.496 in.), perforated, 5 rolls/box

## MTX-MK10-KIT1

### Product and Ordering Information

#### Thermal Transfer Labels, Polyester (cont'd)

Printing with thermal transfer printer, waste removed, rounded corners

Material: S0-5 and S7 Series polyester, matte yellow S0, white S3, silver S1 and security film S5, S2 polyester silver gloss, S4 white gloss

Package: 1 roll. Core 38 or 76 mm (1.496 or 2.992 in.)

Polyester labels, 1-track or 3-track, core diameter 38 mm (1.496 in.), perforated, 5 rolls/box

## MTX-MK1 Miniplotter

.....

## MTX-MK1 Miniplotter

.....

- Provides complete customized marking on site for cables, wires, terminal blocks and components

- Easy to use keyboard, display unit and pre-programmed product modules

- Saves time and money when small production and additional markings are carried out, combined with rapid, customized deliveries from PARTEX

- Designed for on site marking of small and medium marking volumes

## MTX-MK1 Miniplotter

.....

### Miniplotter Marking System Specifications

#### Design

The MTX-MK1 marking system contains a plotter and inlays intended for Partex neutral wire, cable, component and terminal block markings. The marking information is transferred to the plotter through a MTX-MK1-Cable (RS232) input from the keyboard. The marker inlays are quickly loaded either with individual cut markers or strips of markers. Flexible on site operation with battery pack. MTX-MK1 is controlled from a program cassette through an RS232 (MTX-MK1-Cable) interface to a PC computer. PC control is performed with Partex MTX-MK1 software (WSG-IN-INCL).

#### Power

120 / 240 V

#### Keyboard

North American Industrial Standard

#### Text Height and Width

Three text heights small, medium and large and three text widths narrow, standard and wide. The height of text is automatically adapted to match type of profile and number of lines chosen. The number of characters possible on a line is shown in the display. The program makes it possible to decrease or increase the size of the text.

#### Plotter Pens

Refill pens (etching ink), for marking on Partex products. Fibre-tip pen, for testing. On Zerex sleeve please use only drawing tip 0.25 mm with Partex Zerex ink.

#### Resistance

The products intended for MK1 are tested by the Swedish National Test and Research Institute according to the Partex Product Test Program.

## MTX-MK1 Miniplotter

### Applications

Terminal blocks with PP profiles

PP profile in a PTC sleeve mounted on a CAT 5 cable

PPA profile mounted on a component

### Product and Ordering Information

| Cat. No.           | Profile  | Profile Width | Compactdisc Pack Unit |
|--------------------|--|---------------|-----------------------|
| <b>PP-04600SN</b>  | Flat profile, fits PT+, PTC and PTM sleeves  | 4.6 mm        | 15 m                  |

## MTX-MK1 Miniplotter

### MTX-MK1 – Terminal Block Marking: TX

#### Design

Terminal block marking with strong hooks for safe snap mounting. (TX-96 matches Phoenix, Entrelecs, Wagos and TX-61051 matches Weidmüller, Conta-Clip and others with similar design)

#### Material

Cadmium free, stiff PVC material of Partex formula

#### Colours

White or orange

#### Temperature Range

Shape permanence between -30°C and +60°C  
(-22°F to +140°F) (PVC)

| Cat. No.           | Intended for Terminal Block (B1) | Height (H) | Markers / Strip | Strips / Inlay | Length (B2) 10 markers | Cat. No. Fixture |

| <b>TX-61051PNØ</b> | 5.1                              | 6.1        | 15              |                | 51.0                   | MTX-MK1-TX61     |

Material: TX = hard PVC

P = Strip of 10 markers, N = Neutral (blank)

Ø Colours: 3 = Orange, 9 = White

Example: TX-96050P9 = 5.0 mm, White

TX-96 Series matches Phoenix, Entrelecs and Wagos terminal blocks.

TX-61051 Series matches Weidmüller, Conta-Clip and others with similar design.

MTX-MK1 Miniplotter

MTX-MK1 – X-Card Marking System: PFC

- Fast mounting, easy breakoff cards with precut or moulded marker tags
- Easily detachable tags are put directly into various tag holder systems
- The hard tags can be rapidly mounted, before or after connecting the wires and cables

| Cat. No.    | Description                    | Marker Tag Length x Height mm | Marker Tags per Card | Marker Tags per Box | Material        | Suitable Holder System                         |

### X-Card Marking System

- Prints various marker tags on credit card type format (Type PFC) that also accommodates project and mounting information directly on the card

- Cable, wire and component X-Card marking system for more efficient and versatile marking on site

- Printing on site with PC controlled thermotransfer printer in monochrome or colour

- A user friendly compact system with high production capacity

## MTX-MK3

.....

### Specifications – Production on Site

#### General

The MTX-MK3 printer is a high resolution, high speed production thermotransfer printer for both monochrome and colour printout. Loaded with a number of cards in a feeder magazine, the printer feeds the cards one by one through the printer, where all the individual tags are printed row by row. The printed cards are automatically fed to an output magazine. The printer is controlled by WinSign (WSG-NG-INCL) software. Different marking file formats can be imported.

#### System Layout

The X-Card system is comprised of the MTX-MK3 printer, winSign software and marker tag cards type PFC for cable, wire and component marking. Some PFC cards are used together with Partex holder systems PTPLUS, PTZPLUS, PTC, PM10, PM20, PM24 and PS20T. Other cards are used for direct marking and are attached with Ty-Rap® cable ties.

#### Thermotransfer

300 dpi Resolution

#### Printing Speed

4 seconds per card for resin black ink  
25 seconds per card four full colour single sided (YMCKO)

#### Software

WinSign WSG-NG-INCL

#### Communication Interface

USB 1.1 cable included

#### Power Connection

110 VAC-240 VAC, 50 – 60 Hz  
FCC Class B, CE, UL and cUL approved

#### Measurements

(L x W x H): 462 x 239 x 256 mm

#### Weight

7 kg

#### Temperature Range

Operating temperature range: +15°C to +70°C (60°F to 86°F)  
Operating humidity: 20% to 65% non-condensing  
Storage temperature: -5°C to 70°C (23°F to 158°F)

## MTX-MK20-SP2000

.....

## MTX-MK20-SP2000

### Automatic Marking System

- Compact heavy duty machine for high demand production of wire, cable and component marking
- PC link connection or stand alone mode with an optional standard keyboard
- Printing of large diameter sleeves and tubes ranging up to 28 mm OD or 45 mm flattened
- Improved mechanism for quality printing on hardened tubes in low temperature environment
- Sleeves can be completely or partly cut off

- MTX-MK20-SP2000 connected to a PC with Partex WSG-NG-INCL software (WinSign)

- MTX-MK20-SP2000 as a stand alone unit with a PC Keyboard connected

## MTX-MK20-SP2000

.....

### Specifications

#### Design

MTX-MK20-SP2000 is a complete marking production machine unit with automatic feeding of marker profiles, printing and partial or complete cutting function. Output magazine for ease of random pick of printed markers when mounting onto wires and cables. The machine is controlled by either a connected PC with Partex WinSign software or an optional standard computer keyboard working as a stand alone unit.

#### Sleeve Length

0 mm to 999.9 mm  
No limitations when using WinSign software (WSG-NG-INCL)

#### Diameter Range

O.D. 2.0 to 28 mm (or flat folded width to 45 mm)  
0.2 mm to 0.7 mm in thick

#### Cutting

Three choices are available:

- 1) No cut
- 2) Partly cut off
- 3) Completely cut off

#### Thermotransfer Printing

300 dpi print resolution

#### Production Capacity

About 4,500 pcs per hour  
(5 digits, 1-line marker on 20 mm long sleeve)

#### Character Sizes and Orientation

Height x width 2.4 x 2.4 horizontal and vertical  
2.0 x 1.2 horizontal and vertical  
3.0 x 2.4 horizontal and vertical  
5.0 x 3.0 horizontal  
1.8 x 1.8 horizontal and vertical  
1.8 x 0.9 horizontal and vertical  
2.7 x 2.1 horizontal  
2.4 x 1.2 horizontal and vertical

#### Kind of Characters

96: 0–9, A–Z, +, -, /, \*, signs, etc.

#### Data Storage

Max. 1000 lines can be stored in the memory of the machine, backed up by an internal rechargeable battery.

#### Marking Data from WinSign

Marker data files created directly in WinSign can be transferred to the MTX-MK20-SP200. Data from other software can only be transferred as text files to WinSign and then to the machine.

#### Power Supply

110 – 220 VAC, 50/60 Hz

#### Dimensions

(L x W x H): 435 x 290 x 290 mm

#### Weight

15 kg

## MTX-MK20-SP2000

### Automatic Marking System

| Cat. No.                     | Description  |
|------------------------------|--|
| <b>MTX-MK20-SP2000</b>       | Marking machine incl. manual, service tool kit and data cable for connection to PC (MTX-MK20-SP2000-CABLE) |

### Oval Marking Profile

- Oval marking profile with sizes for big cable diameter range
- Very fast one hand mounting onto the cable or wire
- Built-in spring action retains sleeve shape with excellent grip
- Permanent marking but still adjustable on cable or wire
- Efficient on site marking with Partex marking machines and WinSign software
- Also delivered halogen free with a UL94-V0 rating

MTX-MK1

MTX-MK3

MTX-MK10-KIT1

MTX-MK20-SP2000  
Marking machine for high volume marking production

MTX-MK9-USB  
MTX-MK9 bench-top machine for low or medium volume on marking production

## WinSign

### WinSign Software

- Winsign software is ideal for project handling, production and printout of customized marking products on site

- Software in Windows environment with database handling adapted to import/export on text files

| Cat. No.              | Information   |
|-----------------------|---|
| <b>WSG-NG-EXCL</b>    | When the software is bought separately and a marking machine type MTX-MK1 or MTX-MK20-2000 is not bought at the same time |
| <b>WSG-NG-INCL</b>    | When the software is bought at the same time as a marking machine type MTX-MK1 or MTX-MK20-SP2000                         |
| <b>WSG-NG-UPGRADE</b> | Upgrade your older version to the latest one  |

## Medium-Wall Heat Shrinkable Tubing

### System demands

|                        |                           |
|------------------------|---------------------------|
| <b>Processor type:</b> | Min. Pentium II           |
| <b>RAM memory:</b>     | 64 MB                     |
| <b>Hard drive:</b>     | At least 10 MB free space |
| <b>CD-reader:</b>      | Yes                       |

### Can run under these environments

- Windows 98 SE (Second Edition)
- Windows NT with at least Explorer 4.0x
- Windows ME
- Windows 2000
- Windows XP

We recommend a more powerful computer because it will execute the processes quicker.

## WinSign

### Specifications – Marking Methods

#### What can WinSign do?

WinSign software is ideal for project handling, production and printout of Partex customized marking products on site. The software operates under a Windows platform and can import files from Excel-, CAD or pure text files. The information that is created in WinSign is saved in a database format. All this is controlled by the software's database engine.

WinSign makes it possible to print only the markers you need right away when you are installing a cabinet, etc. This means the information will be accessible quickly for production which reduces the lead time.

WinSign controls almost all marking machines.

#### Structure

You can work in two ways with WinSign. You can create a whole project with traceability so that you can search for information etc. or you can easily type information in the "Direct Marking" mode to print markers right away.

When creating a project, a Project Manager using WinSign can type in all the marking information for all the different cabinets and machines when he still is at his office. If the electrician has access to this WinSign file he can print out the information on site only for the cabinet he is working on. If he has any questions he can call the Project Manager, because you can see in WinSign who has created the file and his/her phone number.

The "Direct Marking" mode is similar to the Project mode. In "Direct Marking" you don't need to type in any information that can be traced later on. You can print the information right away on any of the Partex marking machines.

Some WinSign functions:

- Imports both marking information and number of markers required from Excel
- Imports information from EPLAN and ELPRO CAD (contact your Regional Sales Office for more information)
- Number generator: ordinary and alphanumeric
- Unique production windows for each printer/machine
- The marker information is typed in a grid that looks like Excel
- Updates and downloads are available on [www.tnb-id.ca](http://www.tnb-id.ca)

## WSG-NG-EXCL

### Printers/Machines that can be controlled by WinSign

#### MTX-MK1 Mini Plotter

A marking system suited for smaller production. It is excellent to use when you have a revision and used multi character Partex markers for the earlier installation. It's easy to use, portable and can be operated from its own keyboard or from a computer.

Inlay fixtures for MTX-MK1 for marking of:

- Wires
- Positions and components
- Cables
- Terminal blocks

#### MTX-MK3 X-Card Printer

Card printer for thermal transfer printout of marking tags out of a card in a credit card format. The tags are easily mounted into various holder systems.

Production of:

- Wire markers
- Cable markers
- Components markers

The systems also have cards with various labels sizes. The printer must be used with Partex WinSign software included when you buy an MTX-MK3-P330.

#### ProMark MTX-MK9-USB

A marking system suited for smaller production. It is excellent to use when you have a revision and used multi character Partex markers for the earlier installation. It's easy to use, portable and can be operated from its own keyboard or from a computer.

Inlay fixtures for MTX-MK1 for marking of:

- Wires
- Positions and components
- Cables
- Terminal blocks

#### MTX-MK20-SP2000 Marking System

A marking machine for profiles MTX-MK20-SP2000 feeds, prints and automatically cuts sleeves to the desired length. Controlled from own keyboard or from a PC with WinSign. High production capacity.

Production of:

- Wire markers
- Cable markers
- Heat shrink markers

#### WSG-EXCL Laser Printer

The labels are put into various Partex holder systems.

Low cost production of:

- Wire markers
- Cable markers
- Position and components markers

We recommend laser printers type HP2100/2200.

## PF/PFA

### PF Label Material

- Label material for cables, wires, cabinets and components
- For holder systems PTPLUS, PTZPLUS, PM
- Easy to separate in rigid polyester foil, specially pre-processed for printing
- Halogen free
- Print-out by matrix or laser printer (HP2100/2200)
- Fast, convenient marking on site with WSG-NG-EXCL WinSign software for Windows
- A low cost 2-component solution for marking before and after connection of wires and cables

### Specifications

#### Design

The PF labels come on a perforated sheet with tractor feed. Individual labels are detachable or picked in any order to facilitate mounting and overview. This enables simplified sheet feeding through a laser printer. Special top coating allows multiple laser printer feedings of same sheet. The PF marking labels are intended to be mounted in PTPLUS, PTZPLUS, PTC or PM holders to enable wire, cable and component marking.

#### Material

Polyester foil, specially pre-processed for printing.

#### Colours

Sheet is white on one side, yellow on the other side.

#### Print / Text

Printed with WSG-NG-EXCL WinSign software and by recommended laser printer (HP2100/HP2200). Windows full font is available with WinSign for your own choice of readability, number of characters and lines required.

#### Printing Equipment

Industrial matrix printer for PF labels. Laser printer with straight feed of sheets for PF marker labels. Printout with Partex WinSign software.

#### Temperature Range

From -30°C to +120°C (-22°F to +248°F)

N.B.: Withstands laser printing.

#### Durability

Withstands most solvents.

For application in hostile environments, please contact your Regional Sales Office for information.

For label holder systems see separate product data sheets!

PF/PFA

Applications

Dimensions in mm (nominal)

| Cat. No.     | Height (H) | Length (L) |
|--------------|------------|------------|
| PF-10015KT49 | 4.6        | 15.0       |
| PF-10021KT49 |            | 21.0       |
| PF-20018KT49 | 9.5        | 17.5       |
| PF-07533KT49 | 7.6 – 7.8  | 33.0       |

Size and Packaging

| Cat. No.     | Number of labels per sheet | Number of sheets per pack | Number of labels per pack | Colour         | Sheet format            |
|--------------|----------------------------|---------------------------|---------------------------|----------------|-------------------------|
| PF-10015KT49 | 66 x 12                    | 10                        | 7920                      | Yellow / White | A4 width, 12 in. length |
| PF-10021KT49 | 66 x 9                     |                           | 5940                      |                |                         |
| PF-20018KT49 | 32 x 11                    |                           | 3520                      |                |                         |
| PF-07533KT49 | 25 x 4                     |                           | 1000                      | White          |                         |

PF-Tractor feed sheets for matrix printer are coloured yellow on one side and white on the other and printable on both sides and only applicable for PF10 OCH PF-20.  
One order = 10 sheets

## PF/PFA

### Specifications – PF Label Material

- Halogen-free self-adhesive label on sheet for direct marking of components in control cabinets
- Label modules pre-perforated in standardized 17.5 mm units
- Print-out by laser printer
- Installation time can be 4 times faster than label combination systems

### Design

Perforated self-adhesive display material with adhesive on paper base. Folded sheets A4 width and tractor feed. 12 in. sheet length with tear initiation. The PFA label is intended for component marking with the standardized width of 17.5 mm.

### Material

Self-adhesive polyester foil, specially pre-processed for printing.

### Colours

White or yellow.

### Print / Text

Printed with aid of WSG-NG-EXCL WinSign software and by recommended laser printer type HP2100/2200. WinSign handles the Windows installed True Type fonts.

### Temperature Range

From -30°C to +120°C (-22°F to +248°F)

N.B.: Withstands laser printing.

### Durability

Withstands most solvents.

For application in hostile environments, please contact Regional Sales Office for informaton.

| Cat. No.   | Height | Length |
|------------|--------|--------|
| PFA20018KT | 9.5    | 17.5   |

0 = 4 Yellow; 9 White  
One order = 10 sheets

## PM

### PM Cable Marking For PF Labels

- Transparent holder for cable marking with Partex marking labels, tapes and tags for series PF, PL, PP or PFC
- Four lengths, three widths cover most cable marking demands
- Fitting and fastening with Ty-Rap® cable ties (recommend TY524MX)
- Marking labels can be printed on-site using WSG-NG-EXCL WinSign software and various marking equipment
- The label is easily inserted into the holder providing fast installation and protection of the marking

## Specifications

### Design

Holder for marker tags with punched holes for mounting with cable ties. Two standard lengths in two sizes 9 mm and 12 mm widths. Suitable marker labels and tags are PF on a A4 size sheet and tags on PFC X-cards in credit card formats. ProMark PP profile tags and PL tapes can also be used. The labels or tags are easily pushed into the holder and will be protected from dust, oil etc.

### Material

Cadmium and silicon free soft PVC according to special formula.

### Colours

Transparent

### Temperature Range

Shape permanence from -30°C to + 60°C  
(-22°F to +140°F)

### Resistance

The product is tested by the Swedish National Test and Research Institute according to the Partex Product Test program and has the following test properties:

- Flammability resistance: UL94-V0
- Resistance to UV radiation: corresponds to 1 year outdoors in the south of Sweden
- Chemical resistance: meets Partex Product test and aging Program criteria
- Thermal resistance: meets norms of Partex Product Test Program standards.

For application in hostile environments, please contact your Regional Sales Office for information.

## PTPLUS

### PTPLUS Wire Marker Holder For PF Labels

- Improved holder similar to PA profile with oval shaped pocket for marker labels and tags
- The marker pocket's resilient design protects and fastens marker tag
- Fast and easy assembly of marker by applying pressure once on marker pocket
- The flexible bellows design of the holder allows rapid and adaptable mounting on wires and cables

## Specifications

### Design

PTPLUS is a closed marker holder of improved bellows design with a pocket to hold marker tags of types PF, PFC or PP. The new bellows design with grooves decreases the friction up to 50% when the sleeve is pushed on the wire. The holder is transparent and is mounted directly on the cable or wire before assembly. The marker tag can be affixed before or after assembly. The holder does not require much space, PTPLUS02 and PTPLUS10 fit wires to 5 mm terminal block widths.

### Material

Cadmium and silicon free soft PVC according to Partex formula.

### Colours

Transparent.

### Temperature Range

Shape permanence from -30°C to + 60°C  
(-22°F to + 140°F)

N.B.: Only the sleeve.

### Resistance

The product is tested by the Swedish Test and Research institute according to the Partex Product Test Program and has the following test properties:

- Flammability resistance: UL94-V0
- Resistance to UV radiation: corresponds to 1 year outdoors in the south of Sweden
- Chemical resistance: meets Partex Product Test Program criteria (except for battery acid)
- Thermal and aging resistance: meets Partex Product Test Program standards
