Ready-to-Use™

Unlike other products designed for office use, the HandiMark® system prints on Brady's high-quality, industrial strength tapes and adhesives for maximum durability.

Indoor/Outdoor Grade Vinyl Tape (B-580)

Labels adhere well to pipes, walls, equipment, doors — most clean, dry surfaces. Conforms well to irregular, curved or rough surfaces. It even stands up to grease, oil and most industrial chemicals. Five-year average outdoor durability in temperatures from 180°F to -40°F (82°C to -40°C). Tape can be applied as low as 0°F (-18°C). 50 feet (15.2m) per roll.

Reflective Tape (B-584)

Indoor/outdoor use. Reflective capabilities are ideal for reading labels in low light conditions with a flashlight or from a vehicle. Applications include utility I.D., door I.D., and labeling roof-top equipment. 33 feet (10m) per roll.

Size	Reflective White	Reflective Orange	Reflective Yellow
	1" x 33' (25mm x 10m)	42062	42066
2" x 33' (51mm x 10m)	42063	42067	42065

Repositionable Vinyl Tape (B-581)

Durable vinyl tape has a special adhesive that allows you to easily remove the label and re-apply again and again. This is the label of choice for marking where frequent repositioning is required, such as storage shelves and racks in warehouse facilities. 50 feet (15.2m) per roll.

Size	Yellow	White
	.5" x 50' (13mm x 15.2m)	42103

2" x 50' (51mm x 15.2m)	42105	42102

Tamper Resistant Tape (B-530)

This tape destructs into tiny fragments when tampered with making removal very tedious and difficult. 50 feet (15.2m) per roll.

Size	White
	.5" x 50' (13mm x 15.2m)
1" x 50' (25mm x 15.2m)	42138
2" x 50' (51mm x 15.2m)	42139

Industrial Grade Ribbons

Super-tough, smear-proof ribbons produce printed text that lasts for years outdoors and in industrial areas. One size fits all tape widths. 75 ft. (23m) per cartridge.

That Means Productivity Improvement. That Means Cost Savings.

The HandyMark® Portable Label Maker from Brady lets you create high visibility labels for commercial and industrial applications – in the office, throughout the plant, or even in the field – all at a fraction of the cost and time of custom printed or engraved labels.

Unlike competitive products designed for use in office areas, the HandyMark® printer uses super tough vinyl tapes specially formulated to perform for years outdoors and in industrial environments.

Best of all, the HandyMark® system fits in the palm of your hand and runs on a rechargeable battery or AC power supply giving you the flexibility and convenience of taking the unit wherever labeling is needed.

The HandyMark® printer packs a lot of power into one small system. For instance, you can customize labels with various colors, type styles and an extensive library of symbols and pictograms with multi-language capability. Its powerful memory also lets you create your own bar codes and store frequently used labels for printing without re-entering.
