

Pre-Assembled
Sturdy Construction
Line Cords with NEMA5-15P

FEATURES

- Low-Noise versions available
- Promotes excellent air circulation
- Fully wired - ready to install

Ventilation Systems

Hubbell Premise Wiring offers a wide variety of ventilation systems for data communications applications. For full size cabinets such as HPW’s Premise Networking and Server Cabinets, roof- or rack-mounted versions can be easily installed to keep network equipment cool.

Our Premise Networking Cabinets have integral ventilation cut-outs in the doors and side covers promoting air circulation throughout. The Server Cabinet has a built-in honeycomb ventilation pattern, which covers the front and rear doors, and top. It provides a high degree of open ventilation accommodating front to rear and top to bottom cooling schemes. Both fan units occupy minimal space within the rack.

The wall mount cabinet fans for QUADCAB® and RE-BOX® enclosures increase air circulation for active equipment in confined spaces. A fan tray kit or single-units fans are available for mounting.

For All Racks/Cabinets and QUADCAB® Wall Mount Enclosures

Fan Kit

Order Information

Delivery: 1 fan tray assembly, wired, 1 kit mounting hardware.

Description Catalog No.

Fan kit, 114 CFM, 120 VAC, 60 Hz, 36 dBA **HWKF120**

Fan kit, 114 CFM, 230 VAC, 50 Hz, 36 dBA **HWKF230**

Blank plate with 4" fan/PVC conduit cut-out **H1KB**

Dimensions

HWKF120/HWK230

Fan Plate/Fan

Order Information

For use with Premise Networking and Server cabinets.

Delivery: 1 fan, 1 wire guard, 4 lock nuts, screws, washers, 1 cord with plug, 6’.

Description Catalog No.

Fan, 125V/7A **REKEF**

Blank plate with 4" fan/PVC conduit cut-out **H1KB**

For All Racks/Cabinets and QUADCAB® Wall Mount Enclosures

Reusable Dust Filter
