**NSi Industries LLC
Huntersville, North Carolina**

For nearly 40 years, NSi companies have been respected as a leading supplier of quality electrical tools, timers and wire and cable management products to industrial and retail markets throughout North America. With facilities in Huntersville and Mount Vernon, New York, NSi provides centrally located distribution to over 5000 customers.

NSi offers its customers electronic ordering, order tracking, demand forecasting and invoicing, and has a well-earned reputation for fast order turnaround and complete fill rates. NSi's internal teams offer the retailer responsive development of new products and custom marketing materials.

In designing the offering of retail electrical products outlined in this catalog, NSi not only drew from its long industry experience, but importantly, listened carefully to the needs of its customers and its end users. We used this information to build a better product line that addresses those needs, making life easier for the retail shopper and responds to the specific needs of today's retailer.

Addressing the needs of the customer...

Our customers told us that they wanted

- The right selection of products, in the right categories, at the right price, at one location
- Quality products they could depend on, with good warranties, backed by agency certification
- Packaging that enabled them to make quick buying decisions on their own
- Packaging of small parts that they could re-use for storage

Our program addresses all of these needs and more. We even added a QR scanning feature on the products where we thought the shopper could use some additional help in making a quick purchase decision. We even added product "how-to" videos.

Addressing the selling needs of the retailer

We designed as much into our new program as possible to increase your profits, give you the same tools as the mega retailers, and adapt to the way that you merchandise products by

- Giving you more products in less square footage, to increase your profit per square foot
- Offering you advanced product packaging concepts often reserved for the big guys, like gravity feeder master cartons for high volume products and great cross merchandising potential
- Letting you choose between either peg-hook or shelf pack displays, equally attractive and information-packed

Easy-Twist™ Wire Connectors

Color-coded, professional quality twist-on standard wire connectors with features required by electricians

- Knurled outer shell provides traction for easy twisting
- Outer shells are color-coded to industry standards
- Square hardened internal spring “bites” into copper wires for secure, long-lasting connections
- Deep threaded funnel entry design provides protection from flashover and shorts

Outer shell is designed to protect against:

- Flame: UL94V-2 flame retardant
- Temperature extremes: 105°C (221°F)
- Diluted acid, alkaline solutions or hydrocarbons

Color	Model #	Pack	Pack Type	Wire Range

Easy-Twist™ Wing Connectors

Color-coded, professional quality twist-on winged wire connectors

- Exceptional “wing” design increases torque force, making twisting easier and faster, especially in tight places
- Square hardened internal spring “bites” into copper wires and then expands as wires are threaded, for greater range

Outer shell is designed to protect against:

- Flame: UL94V-2 flame retardant
- Temperature extremes: 105°C (221°F)
- Diluted acid, alkaline solutions or hydrocarbons

Grounding Accessories

Professional products to fill common wire grounding requirements

- Green grounding wire connectors join up to 4 grounding wires in a junction box, extending one wire for common ground attachment
- Hex-head grounding screws fasten grounding wires to electrical junction boxes
- Grounding pigtails provide a handy ground wire from a switch or receptacle to a junction box.
- Grounding clips fasten grounding wires to junction boxes when there is no threaded ground screw hole.

MINITERMS SOLDERLESS TERMINALS

Waterproof Crimp Terminals, Vinyl Insulated

Built with heat-activated adhesive-lined shrink tubing for waterproof connections

- Adhesive melts with torch or heat gun to create a seal
- Impervious to chemicals, acid and salt water
- Rated at 600V max.
- Temperature range: -67°F to 221°F (-55°C to 105°C)
- 2.5 to 1 shrink ratio

Model #	Pack	Pack Type	Description/Wire Range

Precision Wire Strippers

- Finest hardened spring steel construction with precision-ground cutting edges
- Double-Insulated cushioned handles
- Strip solid or stranded copper or aluminum wires

Packed in clamshells with exposed handles

Model #	Pack	Description
ADJUSTABLE 10-24 AWG 5" WIRE STRIPPER		

TL-ADJ5

1

Gauge wheel sets to 8 wire sizes
Wire Looping hole

10-20 AWG 6" WIRE STRIPPER		
-----------------------------------	--	--

TL-WS6

1

Pliers nose
Wire looping holes
Spring and lock

10-20 AWG 8 1/2" 6-FUNCTION ELECTRICIAN'S TOOL		
---	--	--

TL-6-1

1

Pliers nose
Wire looper
Bolt cutter and re-threader
Insulated and non-insulated crimping stations

10-22 AWG 9 1/2" 5-FUNCTION ELECTRICIAN'S TOOL		
---	--	--

TL-5-1

1

Wire cutter nose
Insulated and non-insulated crimping stations*
Bolt cutter and re-threader

CABLE JACKET RIPPER 4"		
-------------------------------	--	--

TL-RCR

1

Cuts outer jacket off flat and round non-metallic cable
Nickel-plated finish
6-14 AWG wire gauge

*TL-5-1 is a stamped heat-treated tool

Electrician's Hand Tools

- The essential hand tools for electrical work
- Heat-treated forged steel, construction with precision ground edges for cutting copper and aluminum.
- Double-insulated cushioned handles

Packed in clamshells with exposed handles

	Model #	Pack	Description
DIAGONAL CUTTING PLIERS 6 1/2"			
	TL-DC	1	Tapered nose for tight cuts High leverage design
CABLE CUTTER 8"			
	TL-CCIH	1	For Copper and Aluminum wires to 2/0
LONG REACH CUTTER/CRIMPER 8"			
	TL-CRP	1	Tapered cutting nose for tight places Insulated and non-insulated crimping stations
LONG NOSE PLIERS/STRIPPER/CRIMPER 6 1/2"			
	TL-LNP	1	Tapered pliers tip 14-16 AWG stripper Insulated and non-insulated crimper to 10 AWG cutting blade
LINEMAN'S PLIERS 7 1/2"			
	TL-LP	1	Side cutting pliers High leverage square pliers jaw
ELECTRICIAN'S 1000V SCREWDRIVERS			
	TL-ISS	2	(1) #2 Phillips Tip (1) 3/16" Slotted Tip

Fish Tapes

For pulling wires through conduit lines, over ceilings and through and between walls

- Extremely flexible and durable flat spring steel
- Looped end for attaching wires
- Heavy-duty housing withstands rough conditions
- High visibility yellow makes fish tape easy to locate
- Viewing holes to show remaining tape
- Handle slides through base to reel tape easily
- 500 lb. maximum tape strength

Packed with sleeve wrap

Model #	Pack	Description
FTS50	1	50' Flat Spring Steel Wire Fish Tape
FTS100	1	100' Flat Spring Steel Wire Fish Tape

Wire Pulling Lubricant

Applies to cables lessen friction between wires and conduit

- Exceptional lubricity. Retains higher lubricity when dry on cables
- Compatible with all types of cable jackets
- Retains original lubricity after re-wetting
- Non toxic to humans

Model #	Pack	Description
SWL-1QR	1 quart	Safe, Non-flammable, non-toxic Pulling Lubricant

Conduit Benders

For making precise bends in thinwall and rigid steel conduits

- Light weight heat treated aluminum alloy
- Reinforced stress points
- Clearly marked bending angles

Mounted on card

Model #	Pack	Description
CB50	1	1/2" Lightweight Aluminum Thinwall Conduit Bender
CB75	1	3/4" Lightweight Aluminum Conduit Bender w/ Levels
CBH75	1	38" Screw-on Bender Handle to Fit Both NSi Benders

Electrical Multitesters

Precision, highly accurate hand held analog and digital test meters for testing:

- A/C and D/C voltage
- Resistance, continuity, decibels and battery strength

Clamshell Packed

Model #	Pack	Description	Rating Marks
ANALOG MULTITESTER 5-FUNCTION 13 RANGE			

TES-MT12 1

Measures AC/DC voltage to 300 Volts
DC amperage to 250 mA
Decibels from -20 to 56dB
1.5 and 9V Batteries
Continuity
Fuse protection
Insulated test leads
Requires (2) AAA batteries

ANALOG MULTITESTER 7-FUNCTION 19 RANGE			
---	--	--	--

TES-MT19 1

Tests AC/DC voltage to check 10 Meg
Decibels from -8 to +62dB
1.5 and 9V batteries
Continuity with audible buzzer
Fuse protection
Insulated test leads
Requires (2) AA batteries

ANALOG BATTERY TESTER			
------------------------------	--	--	--

TES-MBT1 1

Tests AA; AAA; C; D; C; button cells; Ni-Cad; 3V lithium; 22.5V photo and lantern cells; 6V lantern; 12V, 15V photo cells.
Insulated test leads
Exclusive button cell test compartment

TES-BT

1

Checks 7 different battery types for strength of charge
Flip-up contact arm fits battery poles

Cable Ties

Handy and versatile with 1000s of uses including bundling wires, cables, cards, hoses, gear and more

- Resealable zip-lock bags for easy storage
- Nylon 6/6
- UL recognized
- Meets UL 94 V-2 flammability classification
- Ultraviolet ties have additive to resist outdoor sunlight deterioration

Length	Color	Model #	Pack	Max. Bundle Diameter	Tensile Strength

Spiral Wrap

- White memory-spring flat plastic strands wind around wire and cable bundles to organize neatly and route according to desired location. Perfect for electronic, audio, computer high and low volt wires. Allows individual wires to be split-off through plastic windings.
- Not to be used as electrical conduit.

Length	Color	Model #	Pack
3/4" wide x 3 1/2' long	White	SRPE-750	1 per bag

Split Flex Tubing

- Black flexible corrugated plastic tubing is split along its length to allow insertion of wire and cable bundles to organize and conceal cables neatly. Perfect for electronic, audio and automotive cables.
- Not to be used as electrical conduit

Length	Model #	Pack
3/8" wide x 10' long	FLX-37510	1 per bag
1/2" wide x 7' long	FLX-5007	1 per bag

Electrical Tape

- Flexible 7 mil thick adhesive backed tape, ideal for wrapping electrical conductors. Insulates to 600V. Effective to 80°C (176°F). Flameproof. Low lead content
- Always use approved wire connectors for joining conductors.

Length	Model #	Color	Pack	Rating Marks
60' x 3/4"	EWG-7060-LL	Black	1 roll	 <small>LR31971 NO. 33546 -7°C to 80°C</small> <small>LISTED #33546 E50292</small>

Colored Electrical Tape Assortment

- Multi-purpose 7 mil thick adhesive backed colored tapes. Insulated to 600V. Effective to 80°C (176°F). Flameproof. Perfect for organizing conductors. Low lead content.
- Always use wire connectors for joining conductors.

Length	Model #	Color	Pack	Rating Marks
1/2" wide x 12' long	EWG-ASTCR-5R	Red, White, Blue, Green, Yellow	5 rolls	 <small>LR31971 NO. 33546 -7°C to 80°C</small> <small>LISTED #33546 E50292</small>

Duct Seal

- All-purpose moldable compound specifically designed for plugging holes and cracks around electrical wiring applications. Flame proof, non-conductive, non-corrosive, paintable sealant.
- Stays effective in temperature ranges: -20°F (-29°C) to 350°F (175°C)

Weight	Model #	Color	Pack
1 pound	DS184-R	Grey	1 pug

Circuit Breaker Markers

- Two handy sheets of 45, 1/4" x 1" peel-off adhesive marker strips for identifying many common circuit breaker types.
- Tough nylon impregnated fabric resists dirt and wear.

Packed in Reusable clamshells.

Model #	Description	Pack
WMB-LC	90 Circuit Breaker Marker Strips	2 sheets

Heat Shrink Tubing

- Versatile 4" thinwall polyolefin heat shrink tubes shrink to 1/2 original diameter when flame or heat is applied. Forms a tight seal around wire connections, cord-ends. Flame-retardant. Effective temperature: -55°C (-67°F) to 135°C (275°F)
- 600V dielectric strength.
