

L107 Electrician's Torpedo Level...

A Professional Level That Makes The Grade!

Electrical workers seeking professional grade levels will appreciate the Greenlee L107 Electrician's Torpedo level. The L107 Electrician's Torpedo level is useful in a variety of applications including aligning conduit, checking clearance for runs and aligning fixtures. This professional grade level is designed for the electrical worker unlike competitive units that are designed for the construction worker.

The Greenlee L107 has four rare earth magnets which allow for hands-free use on metal surfaces. The four open vial ports assure easy viewing from all angles. The V-groove on the top of the level also adds to the easy viewing of the vials. These great features make the L107 Electrician's Torpedo level a time-saving device for busy electrical workers. The Greenlee L107 is machined from aluminum alloy and anodized to aircraft standards which adds to the appeal of this level.
