WHOLE HOUSE SOLUTIONS

As technology brings the world closer, homes become the central location for working, learning and entertaining. Honeywell's structured wiring and cabling products integrate the most advanced home wiring and networking technologies into simple, affordable, upgradable solutions that entertain, protect and inform the homeowner.

Honeywell provides intelligent, unique structured wiring solutions that make appliances and electronics work together. This synergy helps organize and distribute different technologies throughout the home in order to enhance the quality of consumer's lives—integrating security, home entertainment, computer networking, audio and video, cable and satellite TV and HVAC. The system contains everything consumers need to Future Proof® their homes, making sure it's wired for today's world and tomorrow's advancements.

Every room in the home can be wired for entertaining, letting your customers enjoy the rich, full sights and sounds of home theater, multi-room video and multi-room audio in any location. Security can be controlled via telephones, wireless remotes or keypads and cameras can be incorporated for extra peace of mind. Home automation provides unrivaled comfort and convenience. Family members can also share the same Internet line, files and printers—enabling simultaneous online access.

Honeywell's structured solutions can be used on installations ranging from small entry-level residences, apartments and condominiums to high-end luxury custom homes. Consumers can choose packages that match their needs and budgets, and existing services can be expanded, changed, or replaced as their needs grow.

Honeywell's structured wiring panels are easy to install, easy to use, and integrate seamlessly with both Honeywell's home control products as well as those from companies such as HAI, Crestron and AMX. Best of all, they can make the dream home of the future an affordable reality...today.

APARTMENT AND CONDOMINIUM NETWORKS

Ideal for apartments, condos and entry-level homes, these panels distribute telephone lines and video feeds to various locations throughout the residence. Highlights include quick, easy installation and a housing cover that provides a professional looking finish.

AN100 Distribution Panel

- Distributes four incoming telephone lines to six locations and one incoming coax signal to four locations
- Easy installation
- Stylish cover provides a professional looking finish
- Dimensions: Install ring – 5.5" W x 4" H
Cover – 6.5" W x 4.75" H

QND200 Distribution Panel

- Distributes one incoming coax signal to four locations with two pass throughs for satellite, eight RJ45 connectors for telephone distribution
- Room for expansion module
- Includes cover and one RJ31X jack
- Power not included
- Dimensions: 6" x 14.5"

QND300 Distribution Panel

- Distributes one incoming coax signal to eight locations with amplifications and with two pass throughs for satellite, eight RJ45 connectors for telephone distribution
- Room for one expansion module
- Includes cover and one RJ31X jack
- Power not included
- Dimensions: 6" x 14.5"

QUICKNETWORK SERIES

The economical QuickNetwork series of panels distribute telephone, data and video signals throughout the home, and are available in a variety of configurations to meet the needs of any project or budget. The convenient recessed design allows cables to be hidden behind the cover for an aesthetically pleasing appearance.

DISTRIBUTION PANELS FOR QUICKNETWORK SERIES

QND48P

QuickNetwork Panel

- Services up to eight telephone locations and four TV locations
- One in, four out coax (TV) distribution module with two pass through connections for DBS satellite
- Four line to eight location telephone module (Cat5 rated, RJ45 with RJ31X connector)
- Built-in 110V power outlet
- 18" install panel and cover
- Dimensions: 14.5"W x 18"H x 4"D

QND4800

QuickNetwork Panel

- Same features as QND48P except with 110 punch-down style connector on telephone module instead of RJ45 connectors
- Built-in 110V power outlet
- 18" install panel and cover
- Dimensions: 14.5"W x 18"H x 4"D

QND88P

QuickNetwork Panel

- Services up to eight telephone locations and eight TV locations
- One in, eight out coax (TV) distribution module with two pass through connections for DBS satellite
- Four line to eight location telephone module (Cat5 rated, RJ45 with RJ31X connector)
- Built-in 110V power outlet
- 18" install panel and cover
- Dimensions: 14.5"W x 18"H x 4"D

DISTRIBUTION PANELS FOR QUICKNETWORK SERIES

QND8800

QuickNetwork Panel

- Services up to eight telephone locations and eight TV locations
- One in eight out coax (TV) distribution module with two pass through connections for DBS satellite
- Four line to eight location telephone module 110 punch-down style connector
- Built-in 110V power outlet
- 18" install panel and cover
- Dimensions: 14.5"W x 18"H x 4"D

QND88200

QuickNetwork Panel

- Combination 8x8 amplified coax/phone distribution module with RJ45 connectors
- Distributes one incoming coax TV line to eight locations with built-in amplification plus two pass throughs and four telephone lines to eight locations
- Includes an RJ31X connection
- 18" install panel and cover
- Built-in 110V power outlet
- Dimensions: 14.5"W x 18"H x 4"D

QND88400

QuickNetwork Panel

- Combination 8x8 amplified coax/phone distribution module with 110 punch-down connectors
- Distributes one incoming coax signal to eight locations with amplification
- Two RG6 pass through connectors for SATV and four telephone lines to eight locations
- 18" install panel and cover
- Built-in 110V power outlet
- Dimensions: 14.5"W x 18"H x 4"D

DISTRIBUTION PANELS FOR QUICKNETWORK SERIES

**QNP6X****QuickNetwork 6 Panel**

- Services up to six zones
- Six populated zones, including a total of 12 Cat5e connections, 12 RG6 coax connections, 6 Cat5 patch cords, and 6 RG6-rated coax patch cords
- Includes one five in, eight out coax (TV) distribution module with 4 pass through, surge suppression and 20 db bidirectional amplifier
- One four line to 12 location telephone module (Cat5 rated, RJ45) with surge suppression, RJ31X security system connection, and a PBX/KSU connection
- Five expansion bays
- Built-in 110V power outlet
- 36" install panel and cover
- Dimensions: 14.5"W x 36"H x 4"D

**QNP12X****QuickNetwork 12 Panel**

- Services up to 12 zones
- 12 populated zones, including a total of 24 Cat5e connections, 24 RG6 coax connections, 12 Cat5 patch cords, and 12 RG6 coax patch cords
- Includes one five in, 12 out coax (TV) distribution module with 4 pass through, surge suppression and 20 db bidirectional amplifier
- One four line to 12 location telephone module (Cat5 rated, RJ45) with surge suppression, RJ31X security system connection, and a PBX/KSU connection
- Built-in 110V power outlet
- 36" install panel and cover
- Dimensions: 14.5"W x 36"H x 4"D

**QNP18X****QuickNetwork 18 Panel**

- Services up to 18 zones
- 18 populated zones, including a total of 32 Cat5e connections, 32 RG6 coax connections, 18 Cat5 patch cords, and 18 RG6-rated coax patch cords
- Includes one five in, 16 out coax (TV) distribution module with 4 pass through, surge suppression and 20 db bidirectional amplifier
- One four line to 12 location telephone module (Cat5 rated, RJ45) with surge suppression, RJ31X security system connection, and a PBX/KSU connection
- Built-in 110V power outlet
- 48" install panel and cover
- Dimensions: 14.5"W x 48"H x 4"D

MODULES FOR QUICKNETWORK SERIES PANELS

Whether you need to add security, telephone, satellite TV or whole-house audio, count on Honeywell's QuickNetwork modules to effortlessly expand your customer's system based on their needs and requirements.

MODULES FOR QUICKNETWORK SERIES PANELS

Telephone

MDT124P

12 Port, 4 Line Telephone Module

- 12 RJ45 ports (Cat5 rated) support four incoming phone lines with speeds up to 100Mbps
- Includes two Amphenol connectors for interface to a Key System Unit (KSU) or PBX. Amphenol connectors include shorting block for compatibility with Plain Old Telephone Service (POTS) lines
- Also includes surge suppression and one RJ31X port
- 12" form factor

MDT122P

12 Port, 2 Line Telephone Module

- Harmonica-style twisted pair module used for connecting and distributing voice at speeds up to 10Mbps
- Includes 12 RJ11 ports, supports two incoming telephone lines, and an Amphenol connector for interface with a telephone Key System Unit (KSU) or PBX. Amphenol connector includes shorting block for compatibility with Plain Old Telephone Service (POTS) lines
- Includes surge suppression
- 12" form factor

MDT083P

8 Port, 3 Line Telephone Hub

- RJ11 harmonica-style twisted pair module is designed to work with Panasonic Key Service Units (KSUs) that require a three-pair connection
- Note: A shorting block is not provided with this module. Cannot be used with Plain Old Telephone Service (POTS)
- 6" form factor

MODULES FOR QUICKNETWORK SERIES PANELS

Telephone

**MDT124HB****12 Port, 4 Line Punch-down Telephone Module for KSU**

- 12 110 punch-down blocks which distribute four incoming lines to 12 locations
- 6" form factor

**MDT412100****12 Port, 4 Line Punch-down Telephone Module**

- 12 110 punch-down blocks which distribute four incoming lines to 12 locations
- 6" form factor

**MDT8RJ****8 Port, 4 Line Telephone Module**

- Eight RJ45 ports support four incoming phone lines
- One RJ31X port for security
- 6" form factor

**MDT416100****16 Port, 4 Line Telephone Module**

- 16 RJ45 ports support four incoming phone lines
- One RJ31X port for security
- 6" form factor

Video

**MDC104****1x4 Coax Module**

- One in, four out coax module with four pass through connectors
- 6" form factor

MDC104500, same features as above except rated for 2 GHz

**MDC108****1x8 Coax Module**

- One in, eight out coax module with two pass through connectors
- 6" form factor

**MDC108200****1x8 Amplified Coax Module**

- One in, eight out coax module with 12 dB bidirectional amplifier and two pass through connectors
- 6" form factor

ALSO AVAILABLE:

MDC108500, same features as above except rated for 2 GHz

MODULES FOR QUICKNETWORK SERIES PANELS

Video

**MDC408 5x8 Coax Module**

- Five in, eight out coax module with 20 dB bi-directional amplifier, surge protection, and four pass through connectors and four inputs for modulated signals
- One input for antenna or CATV
- 12" form factor

**MDC412 5x12 Coax Module**

- Five in, 12 out coax module with 20 dB bi-directional amplifier, surge protection, four pass through connectors, and four inputs for modulated signals
- One input for antenna or CATV
- 12" form factor

**MDC416 5x16 Coax Module**

- Five in, 16 out coax module with 20 dB bi-directional amplifier, surge protection, with one direct and four inputs for modulated signals
- One input for antenna or CATV
- 12" form factor

**MDDS4 Four Location DBS Distribution Module**

- Provides distribution of dual LNB DBS Digital Satellite Dish signal to four locations through a single coax cable without modulation
- Does not work with HDTV Signals
- Each TV location must be connected to a separate DBS receiver where desired
- Antenna/CATV input
- Does not work with Dish TV Systems
- 6" form factor

**MDDS8202**, same features as above except with distribution up to 8 locations

- Works on up to four Satellite Systems
- Antenna/CATV inputs
- Does not work with Dish 500 TV Systems
- Works with HDTV signals
- 12" form factor

**MDMDO3 Triple Channel Modulator Module**

- Used for creating in-home TV channels for viewing from any TV in the home
- Signals from three different audio/video sources. For example, TV, VCR, DVD, DBS, satellite TV, and security cameras may be identified and displayed by any TV
- 6" form factor

MODULES FOR QUICKNETWORK SERIES PANELS

Audio

MDAD86 Eight Location Audio Distribution Module

- Allows audio signal to be distributed to eight stereo locations
- Impedance matched
- 6" form factor

MDADZ600

A-BUS® 6 Zone Audio

- Use in QuickNetwork panels
- Distributes Cat5 audio to six locations
- Can be chained to additional modules for more locations
- 6" form factor

A-BUS Multisource/Multizone Distributed Audio

MDADZHMS

A-BUS MS/MZ Audio Hub for QuickNetwork Panel

- A-BUS Multisource/Multizone audio distribution hub - one required per installation
- Any of up to 4 sources can be heard in upto 4 zones (2 different pairs of speakers in each zone)
- Includes AC power transformer
- 6" form factor

MDADZHMSE A-BUS MS/MZ Expansion Audio Hub for QuickNetwork Panel

- Optional A-BUS Multisource/Multizone audio distribution hub - provides capability of communicating with additional rooms
- Expand an additional 4 zones (2 different pairs of speakers in each zone)
- Includes AC power transformer
- 6" form factor

Intercom

MDADZICH

A-BUS Intercom Hub for QuickNetwork Panels

- A-BUS Intercom Hub mounted in QuickNetwork Panel Module Housing
- Capable of connecting 8 number of rooms with any mixture of either AUDZICRM or AUDZICMC
- Connect up to 8 rooms per hub
- Connect and control up to 2 doors per hub
- Includes AC power transformer
- 6" form factor

MODULES FOR QUICKNETWORK SERIES PANELS

Combination Telephone/Video

**MDC4T8RJ****Combo 4x8 Coax/Phone Distribution Module**

- With RJ45 patch connectors
- Distributes one incoming coax TV line to four locations plus two pass throughs and four telephone lines to eight locations
- Includes RJ31X connection
- 6" form factor

**MDX48300****Combo 4x8 Coax/Phone Distribution Module**

- Distributes one incoming coax TV line to four locations plus two pass throughs and four telephone lines to eight locations
- With 110 punch-down connectors
- 6" form factor

**MDX48500****Combo 4x8 Coax/Phone Distribution Module**

- With RJ45 connectors
- Distributes one incoming coax TV line to four locations plus two pass throughs and four telephone lines to eight locations
- Rated for 2 GHz
- 6" form factor

**MDC8T8RJ****Combo 8x8 Passive Coax/Phone Distribution Module**

- With RJ45 patch connectors
- Distributes one incoming coax TV line to eight locations plus two pass throughs and four telephone lines to eight locations
- Includes RJ31X connection
- 6" form factor

**MDX88200****Combo 8x8 Active Coax/Phone Distribution Module**

- With RJ45 patch connectors
- Distributes one incoming coax TV line to eight locations with built-in amplification plus two pass throughs and four telephone lines to eight locations
- Includes RJ31X connection
- 6" form factor

**MDX88300****Combo 8x8 Passive Coax/Phone Distribution Module**

- With 110 punch-down connectors
- Distributes one incoming coax TV line to eight locations plus two pass throughs and four telephone lines to eight locations
- With 110 punch-down connectors
- 6" form factor

MODULES FOR QUICKNETWORK SERIES PANELS

Combination Telephone/Video

MDX88400

Combo 8x8 Active Coax/Phone Distribution Module

- With 110 punch-down connectors
- Distributes one incoming coax TV line to eight locations with built-in amplification plus two pass throughs and four telephone lines to eight locations
- Includes RJ31X connection
- 6" form factor

MDX88500

Combo 8x8 Passive Coax/Phone Distribution Module

- With RJ45 patch connectors
- Distributes one incoming coax TV line to eight locations (plus two pass throughs) and four telephone lines to eight locations
- Includes RJ31X connection
- Rated for 2 GHz
- 6" form factor

Patch Modules

MDB100

Expansion Bay Blank

- This blank is used to cover open area or conceal wires that are running through the QuickNetwork distribution panel
- 6" form factor

MDPB

Blank Patch Module

- Use this blank patch module to custom design a zone
- Accepts any configuration of Honeywell's inserts to terminate and distribute virtually any type of low voltage signal
- Labeling allows identification of connections/rooms
- 6" form factor

MDP2

Two Zone Patch Module

- 12 connection ports
- Two Cat5, two coax, and two fiber optic connections per zone
- 6" form factor

MDP3

Three Zone Patch Module

- 12 connection ports
- Two Cat5 and two coax per zone
- 6" form factor

MODULES FOR QUICKNETWORK SERIES PANELS

Data

MDEN108

Eight Port, 10/100 Base-T Ethernet Switch Module

- Creates a Local Area Network (LAN) by connecting up to eight computers, printers, scanners, fax machines, etc.
- Supports data transfer speeds up to 100 Mbps
- Stackable and bridgeable
- 12" form factor

MDEN105

Five Port, 10/100 Base-T Ethernet Switch Module

- Creates a Local Area Network (LAN) by connecting up to five computers, printers, scanners, fax machines, etc.
- Supports data transfer speeds up to 100 Mbps
- Stackable and bridgeable
- 6" form factor

MDENR100

DSL Cable Router with Four Port 10/100M Fast Ethernet Switch

- Built-in NAT Firewall
- 6" form factor

MDENWR100

Wireless DSL Cable Router with Four Port 10/100M Fast Ethernet Switch

- Built-in NAT Firewall
- Works with 802.11g and 802.11b wireless devices
- 6" form factor

AN15610-H 6' Extension Cable SMA Connectors

AN15620-H Omnidirectional antenna with SMA Connector

AN15640-H 3M Extension cable for AN15620-H

AN15660-H 8M Extension cable for AN15620-H

MODULES FOR QUICKNETWORK SERIES PANELS

Security

**MDSG100****Universal Security System Module**

- Accepts the following security system boards: VISTA-10, VISTA-15, VISTA-20, First Alert Professional FA130CP, FA148CP, FA168CP
- 12" form factor

**MDSG150****Universal Security System Module with Locking Cover**

- Same features as MDSG100 except with locking cover

**MDSC100****Non-Locking Cover for Security System**

- Requires MDSG100

**MDSC200****Locking Cover for Security System**

- Requires MDSG100

**MDSG400****Universal Security System Module**

- Accepts the following security system boards: VISTA-128BP, VISTA-250BP, First Alert Professional FA1660 and FA1700C
- 12" x 14-1/2" form factor

**MDSG450****Universal Security System Module with Locking Cover**

- Same features as MDSG400 except with locking cover

SUPERPRO SERIES

Perfect for high-end custom homes and light commercial applications, these top-of-the-line surface mount panels provide the highest level of expansion and customization capabilities and make reconfiguration a snap for homeowners. It is an ideal expansion device for existing QuickNetwork panels.

DISTRIBUTION PANELS FOR SUPERPRO SERIES

SP0800

SuperPro 8 Surface Mount Panel

- Services up to eight zones
- Four populated zones, including a total of eight RJ45 telephone connections (Cat5e), eight coax TV connections (RG6), eight blanks (for fiber optic, Cat5e, or RG6 expansion), four Cat5 patch cords, and four RG6-rated coax patch cords
- Also includes: four unpopulated zones and eight expansion slots for TELCO, video and other optional hubs
- Dimensions: 18" W x 27" H x 6" D
- 24" optional cover

ALSO AVAILABLE: **SP0800R, SuperPro 8 Semi-Flush Mount Panel.** Same features as SP08, except in a 2.5" deep semi-flush mount housing

SP1600

SuperPro 16 Surface Mount Panel

- Services up to 16 zones
- Eight populated zones, including a total of 16 RJ45 telephone connections (Cat5e), 16 coax TV connections (RG6), 16 blanks (for fiber optic, Cat5e, or RG6 expansion), eight Cat5 patch cords, and eight RG6-rated coax patch cords
- Also includes: eight unpopulated zones, and 11 expansion slots for TELCO, video and other optional hubs
- Dimensions: 18" W x 39" H x 6" D
- 36" optional cover

ALSO AVAILABLE: **SP1600R, SuperPro 16 Semi-Flush Mount Panel.** Same features as SP16, except in a 2.5" deep semi-flush mount housing

SP2400

SuperPro 24 Surface Mount Panel

- Services up to 24 zones
- 12 populated zones, including a total of 24 RJ45 telephone connections (Cat5e), 24 coax TV connections (RG6), 24 blanks (for fiber optic, Cat5e, or RG6 expansion), 12 Cat5 patch cords, and 12 RG6-rated coax patch cords
- Also includes: 12 unpopulated zones, and 14 expansion slots for TELCO, video and other optional hubs
- Dimensions: 18" W x 51" H x 6" D
- 48" optional cover

SP3200

SuperPro 32 Surface Mount Panel

- Services up to 32 zones
- 16 populated zones, including a total of 32 RJ45 telephone connections (Cat5e), 32 coax TV connections (RG6), 32 blanks (for fiber optic, Cat5e, or RG6 expansion), 16 Cat5 patch cords, and 16 RG6-rated coax patch cords
- Also includes: 16 unpopulated zones, and 12 expansion slots for TELCO, video and other optional hubs
- Dimensions: 18" W x 51" H x 6" D
- 48" optional cover

HUBS FOR SUPERPRO SERIES PANELS

Telephone

**HBT124P****12 Port, Four Line Telephone Hub**

- 12 RJ45 ports (Cat5 rated) support four incoming telephone lines
- Includes two Amphenol connectors for interface with telephone Key System Unit (KSU) or PBX
- Amphenol connector includes a shorting block for compatibility with Plain Old Telephone Service (POTS) lines
- Includes surge suppression and one RJ31X port

**HBT122P****12 Port, Two Line Telephone Hub**

- 12 location, two line, RJ11 harmonica-style twisted pair hub is used for connecting and distributing voice
- 12 RJ11 ports support two incoming telephone lines
- Includes Amphenol or TELCO connector for interface with telephone Key System Unit (KSU) or PBX
- Amphenol connector includes a shorting block for compatibility with Plain Old Telephone Service (POTS) lines
- Includes surge suppression

**HBT083P****Eight Port, Three Line Telephone Hub**

- Eight location, three line, RJ11 harmonica-style twisted pair hub is designed to work with Panasonic Key Service Units (KSUs) that require a three-pair connection rather than a two-pair connection
- Note: a shortening block is not provided and this hub cannot be used with Plain Old Telephone Service (POTS)

HUBS FOR SUPERPRO SERIES PANELS

Video

HBC408B

5x8 Coax Hub

- Five in, eight out, with 20 dB bi-directional amplifier and built-in surge suppression
- One direct and four inputs for modulating signals
- One antenna or CATV input
- Four modulated inputs

HBC412B

5x12 Coax Hub

- Five in, 12 out, with 20 dB bi-directional amplifier and built-in surge suppression
- One direct and four inputs for modulated signals
- One antenna or CATV input
- Four modulated inputs

HBC416B

5x16 Coax Hub

- Five in, 16 out, with 20 dB bi-directional amplifier and built-in surge suppression
- One direct and four inputs for modulated signals
- One antenna or CATV input
- Four modulated inputs

HBDS4

Four Location DBS Distribution Hub

- Provides distribution of one dual LNB DBS digital satellite dish signal to four locations
- Provides DBS distribution through a single coax line and doesn't require modulation
- Each TV location must be connected to a separate DBS receiver where desired
- DirectTV only (does not support Dish Network 500)

HBMD03

Three Channel Modulator Hub

- Used for creating in-home TV channels for viewing from any TV in the home
- Signals from three different audio/video sources. For example, TV, VCR, DVD, DBS, satellite TV and security cameras may be identified and displayed by any TV

HBDS8202

Eight Location Digital SATV Distribution Hub

- Supports dual LNB systems and DirectTV multi-satellite systems
- DirectTV only (does not support Dish Network 500)

HUBS FOR SUPERPRO SERIES PANELS

Data

**HBEN105****Five Port, 10/100 Base-T Ethernet Switch Hub**

- Used for creating a Local Area Network (LAN) by connecting up to five computers, printers, scanners, fax machines, etc.
- Supports data transfer speeds up to 100 Mbps
- Stackable and bridgeable
- Hub format

**HBEN108****Eight Port, 10/100 Base-T Ethernet Switch**

- Used for creating a Local Area Network (LAN) by connecting up to eight computers, printers, scanners, fax machines, etc.
- Supports data transfer speeds up to 100 Mbps
- Stackable and bridgeable
- Hub format

**HBENR100****DSL Cable Router with Four Port 10/100M Fast Ethernet Switch**

- Built-in NAT Firewall
- Hub format

**HBENWR100****Wireless DSL Cable Router with Four Port 10/100M Fast Ethernet Switch**

- Built-in NAT Firewall
- Works with 802.11g and 802.11b wireless devices
- Hub format

AN15610-H 6' Extension Cable SMA Connectors

AN15620-H Omnidirectional antenna with SMA connector

AN15640-H 3M Extension cable for AN15620-H

AN15660-H 8M Extension cable for AN15620-H

HUBS FOR SUPERPRO SERIES PANELS

Audio

HBAD8

Eight Location Audio Distribution Hub

- Allows an audio signal to be distributed to eight stereo locations
- Impedance matched
- Hub format

HBADZ600

A-BUS® 6 Zone Audio

- Use in SuperPro distribution panels
- Distributes Cat5 audio to six locations
- Can be chained to additional hubs for more locations
- 12" form factor
- Hub format

A-BUS Multi-source/Multi-zone Distributed Audio

HBADZHMS

A-BUS MS/MZ Audio Hub for SuperPro Panel

- A-BUS Multi-source/Multi-zone audio distribution hub - one required per installation
- Any of up to 4 sources can be heard in upto 4 zones (2 different pairs of speakers in each zone)
- Includes AC power transformer
- Hub format

HBADZHMSSE A-BUS MS/MZ Expansion Audio Hub for SuperPro Panel

- Optional A-BUS Multi-source/Multi-zone audio distribution hub - provides capability of communicating with additional rooms
- Expand an additional 4 zones (2 different pairs of speakers in each zone)
- Includes AC power transformer
- Hub format

Intercom

HBADZICH A-BUS Intercom Hub for SuperPro Network Panels

- A-BUS Intercom Hub mounted in SuperPro Panel Hub Housing
- Capable of connecting 8 number of rooms with any mixture of either AUDZICRM or AUDZICMC
- Connect up to 8 rooms per hub
- Connect and control up to 2 doors per hub
- Includes AC power transformer
- Hub format

Miscellaneous

HBES

Expansion Shelf

- Metal shelf fits in two expansion slots in any SuperPro panel and allows third party products (i.e., amplifiers, modulators, power supplies, etc.) to be installed in the panel

Service

HBSI

Service Input Hub

- Gateway for connecting outside telecommunication and network services
- Includes configuration of:
 - four RG6 coax connectors (for TV, VCR, CATV, DBS or satellite TV)
 - two Cat5e connectors (for telephones, fax, ISDN, etc.)
 - two ST Fiber optic connectors
 - four expansion slots

PANEL INSERTS (SOLD IN PACKS OF 10)

INSBLPY

(for distribution panel)

- 10 pack of yellow blanks

ALSO AVAILABLE:

INSBLPR 10 pack of red blanks

INSBLPB 10 pack of blue blanks

INSBLPW 10 pack of white blanks

INSBZ5N *

(for distribution panel)

- 10 pack of blue bezels

ALSO AVAILABLE:

INSBZ5O * 10 pack of orange bezels

INSBZ5W * 10 pack of white bezels

INSBZ5R * 10 pack of red bezels

INSBZ5Y * 10 pack of yellow bezels

* may use any Honeywell faceplate insert

QNS100 QuickNetwork Cover Clips, 10 pack

QNS150 QuickNetwork Cover Screws, 10 pack

QNS200 QuickNetwork Rivet Package Grommet/Plunger, 10 pack

RIV100 Quick Network Rivet Package Grommet/Plunger, 20 pack

QNS50 SuperPro 6/32 Truss Head Screws, 10 pack

QNS250 SuperPro 10/32 Truss Head Screws, 10 pack

INSCXP

(for distribution panel)

- 10 pack of RG6 coax connectors

INSFOP

(for distribution panel)

- 10 pack of ST Fiber optic connectors

INSC5P

(for distribution panel)

- 10 pack of RJ45, Cat5e rated connectors (shown in blue bezel)

INTERNET CONTROL MODULE FOR VISTA SECURITY PANELS

Internet Connection Module for VISTA

How it works

The new VISTA ICM provides easy and affordable control via an IP-based web interface, enabling your customers to access their security, HVAC, lighting controls and other devices from anywhere in the world.

Features include:

Enhanced Control

- Customers can control their VISTA security systems and select Honeywell thermostats from a web browser on a PC, web tablet, wireless PDA or laptop.
- ICMs work together, such that in the event of a fire, the security system can send a signal to an HVAC ICM to shut down airflow to help stop the spread of smoke.

Messaging

- Customers can receive notification of system events via text messaging or e-mail.

Cameras

- With some additional equipment, homeowners can view IP cameras from any Internet connection.

Lighting

- ICM modules are available for Lutron as well as popular lighting solutions such as UPB, Z-Wave and Insteon systems. Again, the ICM devices work together to offer very sophisticated automation solutions which are easy to install and incredibly simple to use!

Part# VISTA ICM – Internet Control Module for Vista

ICM Connectivity Packages with Thermostat

Part #	Description
AICMHVAC	VisionPro IAQ, VisionPro Serial Adapter, ICM for Destiny & HVAC (Quantity: 2)

VISTA Connectivity Package with Thermostat

Part #	Description
VICMHVAC	VisionPro IAQ, VisionPro Serial Adapter, ICM for VISTA, ICM for Destiny & HVAC

Options for VISTA or APEX Connectivity Package

Part #	Description
QC-YTH9421C0	VisionPro IAQ
QC-W8735A105	VisionPro Serial Adapter

ENTERTAINMENT SYSTEM COMPONENTS

Audio

AUD75VC
75 Watt Volume Control
• Non impedance

AUDW65
In-Wall Speakers
• Set of two
• .75" Tweeter
• 6.5" Poly Woofer
• Surround Sound capable

AUDC65
In-Ceiling Speakers
• Set of two
• 1" Swivel Tweeter
• 6.5" Poly Woofer
• Surround Sound capable

AUDO55B
Outdoor Speakers
• Set of two
• 5.5" Poly Woofer
• .75" Tweeter
• Surround Sound capable
• Color: Black
ALSO AVAILABLE: AUDO55W – Color: White

ENTERTAINMENT SYSTEM COMPONENTS

Audio

**AUDZ200 (W/A)****A-BUS® Volume Control Module**

- Available in white and almond
- Décor face plate not included

**AUDZ300 (W/A)****A-BUS® Volume Control Module with IR**

- Available in white and almond
- Décor face plate not included

**AUDZ420 (W/A)****A-BUS® Push Button Volume Control with IR and Remote**

- Touch button or remote control of room volume included
- IR repeating to control source functions with that source's remote control
- Red LED for IR talkback and On Status
- Fits standard Decora® wall plates
- Drives one pair of speakers (min. sensitivity 88dB)
- Available in white and almond

**AUDZ700 (W/A)****A-BUS® Local Input Module**

- Available in white and almond
- Décor face plate not included

**AUDZ500****A-BUS® Interface Module****AUDZ400****A-BUS® Multiple Input Interface Module**

- Four RCA stereo inputs
- Four IR emitter inputs
- Four loop out connectors
- IR pass thru

A-BUS INTERCOM SYSTEM

AUDZICMC: A-BUS Intercom Room Unit

- 2-gang box installation

AUDZICRM: A-BUS Intercom Control Center

- 3-gang box installation
- 8-room selectable control

AUDZFDS: A-BUS Intercom Entry Communicator

- Weatherproof front door Intercom Station

AUDZDBC: Secure Door Communicator - Intercom Door Unit with Security

- A-BUS Intercom and interface to control electronic door locks for intercom control of doors

A-BUS MULTI-SOURCE/MULTI-ZONE SYSTEM

**AUDZ45:****A-BUS MSMZ Keypad**

- 4 selector Multi-source/Multi-zone wall switch
 - Allows for independent selection of up to 4 unique audio sources for in-room playback
-

**AUDZ41RC:****A-BUS Large Learning Remote**

- All purpose remote for control of TV, Stereo, etc. in addition to specialized A-BUS remote control buttons
-

**AUDZPS40:****A-BUS Power Brick & AC Cord**

- Extra A-BUS power supply and AC cord - fits all A-BUS powered products
-

**AUDZBX75:****A-BUS 4 Source Input Wallplates**

- Typically installed behind home theater equipment; this is a multi-input wall jack that connects back to the multisource multizone input hub mounted in the structured panel
- Provides clean, finished installation without extra wires laying around

MISCELLANEOUS

**LBO1****Telephone Line Breakout Module**

- Connects up to four devices (phone, fax, DSL or cable modem, etc.) to a single Cat5 jack with one pass through connection

**MOD101****Single Channel Modulator**

- Used for creating an in-home TV channel for viewing from any TV in the home
- A signal from audio/video sources such as TV, VCR, DVD, DBS, satellite TV and security cameras may be identified and displayed by any TV

**MOD301****Triple Channel Modulator**

- Attach to a home entertainment center for creating an in-home TV channel for viewing from any TV in the home
- A single signal from audio/video sources such as TV, VCR, DVD, or satellite TV may be identified and displayed by any TV
- For multi-room video distribution, a separate Triple Channel Modulator (part no. MDMD or HBMD) must be installed in the distribution panel

POWER SUPPLY

- PSV110** **110v Power Supply, for all coax hubs and modules**
(HBC408, HBC412, HBC416, MDC408, MDC412, MDC416)
