** See Suffix Table.
(1) Figures shown in parentheses are for long-dwell ( $45^{\circ}$ ) cam forms. Order by description. No price addition for long-
dwell cam. Contact nearest GE Industrial Systems-Electrical Distribution and Control Representative for prices and data for $180^{\circ}$ cam forms.
2) Prices shown are for shaft extension on one side only.
Add $\$ 6.00$, GO-10G6 for
forms with shaft extensions on
both sides.

Suffix Table (Use for shaft extension type where ** appears in Catalog Number.)

| Description <br> (Type or Shaft End) | Shaft Extension On |  |  |
| :--- | :---: | :---: | :---: |
|  | Right <br> Side | Left <br> Side | Both <br> Sides (3) |
| Standard Plain-End Shaft | 01 | 11 | 21 (3) |
| Woodruff Key-Type End Shaft <br> (No. 3 Woodruff key is provided) | 02 | 12 | 22 (3) |

(3) Prices shown in pricing
information table are for shaft
extension on one side only.
Add \$6.00, GO-10G6 for
forms with shaft extensions on both sides.

## CR115E Geared Rotary Limit Switch

15 Amperes Continuous
AC/DC

## Application

GE's CR115E geared rotary limit switch provides limit control on rotating-drive equipment. This worm and gear-reduction limit switch may be used in conjunction with motors to open and close overhead doors, to operate cable on cranes and hoists, limit the number of turns on thread-tapping equipment, and on other machine tool applications that require rotating-drive shaft control.

Switches are provided in NEMA Type 1, 4, 7, and 9 enclosures for adapting to specific environmental conditions. Forms having long-dwell cams may be ordered by description. Forms with various contact arrangements of snap-acting switches are listed.

## Features

- Long-life-switch equipped with rugged bearings and shaft extension on either or both sides.
- Flexible operation—gear ratios from 20:1 to 1280:1.
- Rapid reset-requires fewer turns to reset.
- Easy adjustment-trip points or operating cams can be quickly and easily adjusted independently with standard screwdriver.
- Versatility control—available with up to four precision snapacting switches; each will control an independent function.
Maximum input speed—3600 RPM.

## Ordering Directions

Order limit switch by complete Catalog Number from pricing information table.

Select shaft extension (by type of shaft end and desired side) and substitute suffix number in place of ** in switch Catalog Number.

CR115E geared rotary limit switch.

Example: A NEMA Type 1 enclosed switch with 4 NO-4 NC snapacting contacts, a 320:1 cam ratio, and a standard plain-end shaft extension on the left side is desired.

Order: CR115E146111 at $\$ 636.00$, GO-10G6.

## Dual Dimensions $\frac{\text { Inches }}{\text { Millimeters }}$ and Weights (For Estimating Only)

NEMA Type 1 and 4 Approx. shipping wt., 5 lbs.
