

# 3M Online Respirator Medical Evaluation

On busy job sites, getting results – and getting them quickly – is vital. To save you time, money, and the hassle of coordinating clinic appointments, 3M facilitates a convenient, online method for employers to obtain medical evaluation of respirator wearers as required by the OSHA Respiratory Protection Standard (29 CFR 1910.134\*). The Online Respirator Medical Evaluation has a web-based interactive questionnaire, which gives you immediate notification of the results.

## Here are some of the benefits the Online Respirator Medical Evaluation Service offers:

### Convenience

---

- Respirator medical evaluations for all brands and types of respirators
- Most employees do not need to leave the work site
- Questionnaires available in both English and Spanish
- Evaluations can be taken 24 hours/day, 7 days/week from any computer with internet access

### Speed

---

- It takes most employees only 15 to 30 minutes to complete the questionnaire

### Consistency

---

- All employees are evaluated using the same expanded OSHA Respirator Medical Evaluation Questionnaire

### Quality

---

- The expanded OSHA Respirator Medical Evaluation Questionnaire incorporates work conditions and respirator types
- Board-certified occupational medicine physicians complete the reviews and, when necessary, make recommendations for medical follow-up.

\*This service is not designed to meet the medical surveillance requirements of substance-specific OSHA health standards.

Sign up, take the questionnaire, and get instant results with the 3M Online Respirator Medical Evaluation Service. It costs only \$28 per person (and you can create up to seven different respirator profiles) – and, there's no minimum orders or hidden costs.

## The process is easy to use:

1

### Create an account.

The employer follows a few simple steps including creating one or more Respirator Profiles describing the respirator type, the work being done, and the conditions under which the respirator(s) will be used. Employees can test against up to seven different respirator profiles for one low cost.

### Answer the questionnaire.

2

Each employee logs on to a secure web site using a unique personal password. The employee then completes the online questionnaire and submits it for evaluation.

3

### Get the results.

The employee receives immediate notification of his/her respirator use status. Within minutes after employees have completed the questionnaire, the employer can find out the respirator use status of those employees.

### Receive notification.

4

Employees and the employer are notified within one (1) business day after completion of the questionnaire regarding status of any employees requiring further evaluation.

5

### Data is stored securely.

All data is stored behind a firewall on a secure server. The employer does not have access to the employees' private health information.

## Ordering Instructions

Order online at [www.respexam.com](http://www.respexam.com) or call **1-800-383-3393**
