## YOU MAY ALSO LIKE

**TWITCH II** TWI8-CP  
SATIN / DROP POINT / STRAIGHT

Looking at the intricate construction of the Twitches reminds us of the workings in a fine

chronograph watch; everything right and precisely in its place. These techno wizards feature a pass-through lockbar (patent pending) from which the "kick" of the blade sticks through. By pressing on the "kick", one is able to initiate the opening of the blade. S.A.T. **SOG Assisted Technology™** then takes over to finish opening and to securely lock the blade open. What makes these space-age little gems even more beautiful is that they are also affordable!
