Great value
Very quick and simple to set up and best of all, it works, can't beat the price either

Good but could be great.
You used grade 8 and grade 10 metric screws, yet you used the softest grade 2 steel for the drive shaft. Why? Ran about 100' of 4/0 aluminum thru it before the shaft twisted off. Luckily it was covered under warranty, but had a tool grade shaft made so now it works like it should.

Easy Stripper
This is a very useful product. It is a little tough to set at the beginning but easy enough to get used to. Even though it is a simple tool an information sheet included with the tool would be appreciated. The price is also very reasonable.

great wire strip
this is a great wire striper but the shaft is to soft it twisted off and broke striping #4 thhn and the wire guide is hard to use and no instructions
