

High Roller®

Bill Counters & Counterfeit Detection

High Roller® Counterfeit Money Detection Pen MSRP: \$3.⁹⁵

Make checking bills easy. Simply mark any bill with the detection pen, if the marking shows up as bright yellow, your bill is genuine. If the marking goes dark and stays dark, your bill is fake! Works on most current international bank notes.

Part Number: 700014

HIGH ROLLER® FAST PROCESSING. GREAT ACCURACY.

Part Number: 700012

High Roller® LCD Bill Counter **MSRP: \$219.95**

Features both UV (ultraviolet) and MG (magnetic) automatic detection while counting. Automatic start, stop and clearing functions. It has a front LCD display, side display and includes an external plug in display. Counting speeds of up to 1000 bills/min. Highly accurate counting of bill quantity. Does not count denominations.

Part Number: 700016

High Roller® Mixed Denomination Currency Counter **MSRP: \$999.95**

Features UV (ultraviolet), MG (magnetic) and IR (Infrared) sensors which detect authenticity & bill types while counting. Automatic start, stop and clearing functions. Features a front LCD display with easy to use button controls which makes changing settings simple. Counts \$1, \$5, \$10, \$20, \$50 and \$100 bills simultaneously. Upon completion of a count the machine will display total currency counted as well as a summary of the count of bills by denomination. Hopper capacity is 300 bills and counting speed is up to 1000 bills/min.
