ATHLETES IN ACTION: SUMMER 2013 BASIC BRANDING GUIDE

WHY IS ESTABLISHING A **BRAND** IMPORTANT?

A brand helps to build recognition and trust toward an organization. Having multiple pieces with the same branding (look) shows connectivity among different products, be it a brochure, invitation or DVD, and lets the person who is receiving the products know that they come from Athletes in Action, even if there are products from different departments. It says, “Hey, we’re Athletes in Action, and if you see any more information/booklets/websites like these you can trust that it’s from us, too.”

Think of companies/organizations with well established brands: Nike, Coca-Cola and Red Cross are a few of the more recognizable. Often you don’t even need to see a name or logo to know that a piece is from that company/organization.

That’s what we want for Athletes in Action. But we need help from everyone to obtain that kind of recognition. Please look to this branding guide when designing for Athletes in Action. Even having our Athletes in Action logo screen-printed the correct color on a t-shirt is important in building brand recognition.

If you have any questions please feel free to contact me. Thank you for helping us make our ministry instantly recognizable!

LOGO USAGE

PRIMARY LOGO COLOR

The primary colors for the logo are BLUE and RED. This is the only multi-colored color scheme allowed. The Athletes in Action logo has had a slight update. We are now including a Cru endorsement to better connect us as a Cru ministry.

SECONDARY LOGO COLORS

When printing in black and white please use the ALL-BLACK or ALL-WHITE version of the logo. If the logo is on a dark background use the ALL-WHITE logo so the logo will stand out.

LOGO OVER A PHOTO

If the logo is on a photo use either the ALL-WHITE logo or the primary logo. Use the primary logo on light areas of the photograph and the all white logo on darker areas. Never put a stroke around the logo to make it stand out. If the primary logo is hard to see, try the all white logo in that location.

CLEAR SPACE

Make sure the logo is legible when used in a small size. Leave empty space equal to the height of the "s" on all sides.

MINIMUM SIZE

The logo should never be smaller than 0.9 inch wide.

INCORRECT LOGO USAGE

Do not rotate, skew, obstruct or alter the logo. Do not use effects on the logo. Keep it straight and clean!

LOGO ADAPTATIONS

ADDING A SCHOOL OR DEPARTMENT NAME TO THE LOGO

When adding a name to the Athletes in Action logo there are some guidelines to follow.

1. The name must fit evenly under the word “Action”, between the long arm of the A and the right end of the N in the logo and aligned right.
2. The font must be **FREIGHT SANS PRO SEMI BOLD ITALIC** in all caps.
3. The name must be legible when the logo is at 1.5 inches wide.
4. The name may not be larger than 2/3rd the height of the logo’s S.
5. Acceptable colors for the name are gray, black, white, blue, or red.
6. You can choose what name to use under the Athletes in Action logo. However, you must stay consistent with that choice
7. You may use abbreviations and symbols, such as ampersands (&).

DO NOT

- Add a school’s logo to the Athletes in Action logo
This would go against the logo usage guides on page 4 and most likely the school’s branding.
- Use any name or words that do not specifically pertain to your school or department name
- Add text anywhere other than the designated area
- Change the logo colors to your school colors
This would go against the logo usage guides on page 4.

IMAGES

CHOOSING IMAGES

Great images grab people's attention and hearts much faster than great text. When choosing images choose compelling shots of people doing ministry, working with students or nationals from other countries, playing their sport. Action shots are always best.

WHAT TO AVOID

We never use images that are stereotypes or images that trivialize our mission. Avoid clichéd images—if we've seen it again and again, so have our audiences. Religious artifacts such as Bibles and crosses should never be used as props. Instead, they must be integrated into true-to-life situations (e.g., students participating in a study group, or a cross displayed in the background). Never use photos of people impersonating Jesus. Imagery depicting people should never seem staged, posed or forced (including group photos). Instead, they should be candid and believable, like we've captured a brief moment in time. When viewed as a whole, our imagery must be diverse in both gender and ethnicity. Avoid imagery that lacks diversity.

CO-BRANDING

USING ATHLETES IN ACTION AND CRU LOGOS

If you need to use both the Athletes in Action and Cru logos it is important to represent both brands as equally as possible. The dimensions of the Athletes in Action and Cru logos are different, so it is important to keep the logos visually balanced. When using the Cru logo you must follow the Cru *Brand Identity Guidelines* in regard to the logo

HORIZONTAL

- Keep the logos at equal height, as depicted by Y.
- Align the base of the word mark "Cru" to the base of "ction" of Action.

VERTICAL

- To find the proper width for the Cru logo: Multiply the width of the Athletes in Action logo "X" by 0.81375.
- Align the left edge of the "c" in Cru to the left end of the crossbar of the "A" in Athletes.

Spacing allowance for both Athletes in Action and Cru logos

WAYS TO NOT COMBINE THE LOGOS

Careful planning went in to finding the right proportions for co-branding with the Athletes in Action and Cru logo. Here are ways you should never use the logos together.
