

## SteamJet Steam Mop

Mfr. Part #: SSN1700 Our Part #: HOSSN1700

### Powerful and environmentally friendly

The powerful Hoover™ SteamJet SSN1700 is the new hygienic way to clean your floors, killing 99.9% of germs and bacteria without the use of chemicals. SteamJet's unique twin cleaning heads integrated with twist and steer technology quickly sanitises even the dirtiest hard floors and will even lift dirt and refresh your carpets.

### Fast and effective

With powerful 1600W steam generation, a 30 second start up time, an LED ready indicator and steam on demand trigger, the Hoover Steam Jet delivers a fast fingertip cleaning power. With an extra long 7m cord length, large 0.7 Litre water tank and 2 washable delux microfiber pads the SteamJet offers uninterrupted steam on demand.

### Total coverage on all floors

The built in water purification system ensures spotlessly clean hard floors but in case of more persistent, stubborn dirt areas, simply press the foot pedal to release the integrated triangular shaped scrubbing brush. The shape of the head is ideal for getting into corners too, so even awkward dirt can be lifted. To refresh your carpets, simply attach the carpet attachment for a friction free glide and watch as the steam penetrates deep into your fibres to breathe life back into your carpets.

### Compact storage & lightweight

The removable handle offers compact storage, while the ergonomic carry handle make it easy to transport the Steam jet thought the house.
