

Production and Logistics Technician

Company: Terabee, High-Tech sensor and sensing solutions company

Location: France, Saint Genis-Pouilly, (Close to Geneva, next to CERN)

Contract: Full-time

Terabee is a dynamic and fast-paced technology company that designs, develops and manufactures the TeraRanger brand of optical Time of Flight distance and ranging sensors, bringing new ideas and unique solutions to robotics, automation, IoT and smart city challenges.

We are now seeking for a Supply Chain Supervisor to build the TeraRanger products. You will operate within a highly stimulating and international environment. You'll be a team player with a passion for technology and design, a creative mind and a sense of initiative.

Role and Responsibilities:

- Carefully assemble TeraRanger products according to defined standards and processes
- Build and maintain suitable stock levels of TeraRanger products to ensure customer orders can be fulfilled
- Prepare, register and ship customer orders
- Accurately manage a simple logistics software system to keep stock updated and populated
- Advise on and implement production and logistics process improvements

You are best equipped for this role if you have:

- A Bachelor degree, ideally in logistics and/or production
- Ability to undertake manual production and assembly work in a high-technology environment, including optics and electronics
- Fluent English, both verbal and written (Additional languages advantageous, but not essential)
- Capacity to quickly adapt and work in a fast-paced, multi-disciplinary and international team
- An ability to multitask and show both enthusiasm and reactivity for learning new competences

This is an ideal first position for someone looking to start their career in high-tech product production and logistics. Prior experience is beneficial but not essential and appropriate

training will be given. Due to rapid expansion, this position offers multiple career growth opportunities with new positions opening up as the company grows.

Please send your CV and letter of motivation to careers@terabee.com with the title "Production and Logistics Technician" in the subject line

We look forward to receiving your application!
