

Cube_world_game is the only file included in the final submission. So just press that and use the controls to play.

The controls are as follows:

W or Up Arrow for moving straight

D or Right Arrow for moving right

A or Left Arrow for moving left

S or down arrow for moving back

Space Bar to jump onto the cubes.

Use mouse to look around the whole scene.

So as soon as you select the cube_world_game file you need to click on the screen anywhere to start the game.
