OKI
PRINTING SOLUTIONS

High performance, eco-friendly 9-pin printers, perfect for high volume document production

High volume, high speed printing and energy savings

The ML5520eco and 136 column ML5521eco dot matrix printers are perfect for high speed, high volume data listing and multi-part forms applications, where fast throughput and reliability are a must.

Designed to be tough enough for mission critical printing in the most demanding of environments these high performance desktop printers have provided many years of dependable service to industry. Now enhanced with the latest power management technology power consumption is reduced to just 1.5W in "Sleep mode" to deliver significant energy savings over the products long life.

Application and media friendly

The ML5520/1eco printers can handle cut sheets, continuous feed paper and multi-part forms. They are ideal for the fast printing of receipts, invoices, picking lists, reports and spread sheets in industrial and retail applications. Their powerful 9-pin print head can produce up to 6 copies simultaneously for highly efficient document production.

Top, bottom and rear paper input paths and a built-in rear push tractor feed unit provide flexibility.

Optional bottom push and top pull tractor units are available to allow the loading of two different media types simultaneously or the feeding of heavier papers and labels. A Roll Paper Stand option is available for the ML5520eco for fast printing of long passenger lists, call logs, data logs etc.

Helping the environment and saving money

The ML5520/1eco printers have been enhanced to be eco-friendly. OKI's SoC (System on Chip) technology reduces power consumption to an impressively low 1.5W in "Sleep mode" helping to reduce your carbon footprint as well as keeping your running costs and energy consumption to a minimum.

OKI's commitment to customers
