- Interchangeable and robust
- Easy assembly
- Dedicated NavLock™ trackers enhance procedural workflow
- Modular offerings for procedure specific StealthStation® Navigation solutions

Innovating for life.

StealthStation® Spinal Navigation Instrument Sets

TRANSFORM SURGERY WORKFLOW WITH A MODULAR NAVIGATION SOLUTION

Instrument trays provide various benefits:

- Trays are compliant with new Occupational Safety and Health Administration (OSHA) weight standards
- Sealed trays do not need to be wrapped, offering a “green” solution with less paper waste
- Small filters cost less than wrapped trays, providing financial savings over time
- Joint Commission on Accreditation of Healthcare Organizations (JHACO) compliant stackable trays
