[Add a New VC]

A **reboot** is required before the new configuration takes effect

13 - Clique em "Reboot";

☑ Your settings have been saved.

The new settings will not take effect until the Gateway is rebooted. If you would like to reboot the Gateway now, press the **Reboot** button below.

[Reboot]

14 - Aguarde os 45 segundos da reinicialização do modem;

System Reboot

The SpeedStream Gateway is now rebooting.

NOTE:

Please wait 43 seconds for your Gateway to refresh

15 - Parabéns! sua Conexão está Ativa!

System Summary
