

PRODUCT CATALOG

ENGLISH

"37 YEARS. THE #1 REPTILE PRODUCT COMPANY."

Time flies when you are having fun. At Zoo Med our employees love animals and love working for a company that cares about the animals they sell products for. After 36 years we are still a family run company with a deep commitment to the animals we make products for. In 1993 Zoo Med developed the very first UVB lighting for reptiles which was the "tipping point" in how reptiles are currently kept in captivity. In fact, more Zoos and professional hobbyist use our UVB lighting than any other brand of UVB lighting.

Zoo Med is also active with an education stand at over 50 consumer reptile shows and is the largest sponsor of USARK, (U.S. Association of Reptile Keepers) an organization to protect your rights to keep reptiles as pets.

With over 17 exclusive reptile/aquarium product patents and several more pending you can see that "innovation" is our middle name!

In this new catalog you will find the quality products you've come accustomed to and new items like the 40 Gallon ReptiHabitat Kits for Turtles, Snakes and Bearded Dragons, Reptisun® T5 HO Linear lamps and mini compact fluorescents, Moonlite™ Reptile Bulbs, Mealworm and Turtle feeders and the new, improved ReptiRain®.

20 years of Reptisun!

In 1993 we developed and produced the first UVB reptile lamp on the market. This lamp along with heat and a proper diet allows reptile keepers to maintain more fragile species (such as chameleons, etc.) in captivity, plus prevent or reverse metabolic bone disease in all species of lizards, turtles and tortoises. Zoo Med's UVB lamp range is the #1 choice with Zoos, Vets and professional reptile breeders. We estimate that our contribution to the development of UVB lighting for reptiles has saved hundreds of thousands of reptiles from an early death in captivity.

Green Values

Zoo Med's consideration for green values directs the company on its journey toward the appreciation and preservation of wildlife and the natural environment. We also invite you to take a look at our Eco Friendly and Green Products; whether moving terrarium production from overseas to the U.S., using plant based resins or making products from 100% recycled products, we are constantly striving to minimize our environmental impact.

Last, don't forget we are here for you with a customer service department that is second to none, call +1-805-542-9988 or go to www.zoomed.eu for support. You can also find instructional videos on many of our products on You-Tube.

Thank you once more for believing in a once little company that started in a one car garage over 36 years ago!

Your humble servant and turtle farmer,

Gary Bagnall
President/CEO

UNSOLICITED TESTIMONIALS:

"I am writing this letter to compliment you on the incredible quality of your products. I use your merchandise for all of my reptiles and amphibians. Your products are by far the most durable, long lasting, and most cost effective above all other reptile supply companies. I would like to thank you for your amazing reptile supplies. They will continue to be purchased by me for years and years to come. I have and will continue to recommend your supplies and services to the reptile loving community."

Brendan

"My husband and I recently purchased a juvenile Redfoot Tortoise and we were having trouble getting him(her?) to eat. We tried your Natural Tortoise food and it's a definite hit! He(he?) started munching right away! Thank you for your help, and let me thank you for making such a healthy alternative to other processed herp foods! It seems the food we bought contains nothing I wouldn't eat in slim times and in fact smells pretty good too :) "

Erica

"My email is to all of Zoo Med, from the folks who sweep the floors at night to those at the helm: I cannot express enough my extreme gratitude for Zoo Med, y'all are truly an amazing group of people.

Whether you are answering questions about your products to the person trying to keep their animals healthy, making sure your warehouses are stocked so that needed items aren't in short supply, or directly responsible for writing paychecks at the end of the day... Each and every one of you are unsung heroes to the hobby/trade/addiction of non-traditional animal husbandry. Your heartfelt responsibility for the improved public education with regards to conservation, responsible husbandry and environmental awareness does not go unnoticed. Without your continued educational efforts this niche we share would be in far worse shape.

Again, Thank you, thank you, thank you for all it is each and every one of you do for the hobby

Scott

Meet "Sunny" Zoo Med's Albino Green Iguana (Iguana iguana). As a hatchling, he came to live at Zoo Med from Tom Crutchfield Reptiles, the first facility to breed albino iguanas. "Sunny" lives with a female Green Iguana that is heterozygous for albino and although she looks like a normal iguana, she carries the albino trait. The Animal Keepers here at Zoo Med are anxiously waiting the day these iguanas are old enough to breed, as they will produce albino offspring. Iguanas should be kept by advanced reptile hobbyists as they require special care but if you have the experience and are willing to take the time to provide a great home, proper food, and the attention required, iguanas make a great addition to your reptile menagerie.

HOW TO BUILD A WATERFALL

• THE IDEA:

Water is pumped over a decorative item, then percolates through substrate layers, back to the pump.

• THE BENEFIT:

To build a beautiful, natural looking tropical terrarium. The moving water helps retain humidity and provides a water source for tropical animals.

NT-4E WITH WATERFALL KIT

WATERFALL KIT
Item# WK-10E
(see page 8)

1. Prepare the Tank

- Clean the inside of the tank.
- Suction cup pump to the bottom rear of the tank.
- Position the Natural Tile Background and pump cord.

2. Add Hydroballs®

- Rinse to clean.
- Fill bottom with 5-8 cm of Hydroballs®.
- Place pump pointing up.

3. Insert Mesh

- Cut a small hole in the mesh.
- Feed the tubing through the hole.
- Lay the mesh flat, over the top of the Hydroballs®.

4. Add Habitat decor

- Cover mesh with Eco Earth®.
- Use natural items to direct waterfall.
- Secure hose to create your waterfall.

5. Decorate!

- Naturalistic Flora™ adds color and safe cover.
- Terrarium Accents add texture and character.
- Terrarium Mosses help retain humidity and create a soft, natural look.

6. Start the Waterfall

- Treat all tap water with Reptisafe® Water Conditioner.
- Fill the base with water-about 2 inches deep.
- Plug in the pump and Enjoy!

NEW!

A. REPTIHABITAT™ 40 GALLON

All Zoo Med REPTIHABITAT Kits include our "Made in USA" terrariums. The new 40 gallon terrarium can help keep reptiles to full adult size.

- 40 gallon terrarium 91 x 46 x 46 cm with sliding screen top.

Item# NT-B40E Bearded Dragon Kit

Item# NT-T40E Aquatic Turtle Kit

Item# NT-T41E Tortoise Kit

B. REPTIHABITAT™ 20 GALLON

- 20 gallon terrarium 76 x 30 x 30 cm with sliding screen top.

Item# NT-B21E Bearded Dragon Kit

Item# NT-T21E Aquatic Turtle Kit

Item# NT-S21E Snake Kit

D

C. REPTIHABITAT™ 10 GALLON

- 10 gallon terrarium 51 x 25 x 30 cm with sliding screen top.

Item# NT-A10E Amphibian/Pac Man Frog Kit

Item# NT-L10E Leopard Gecko Kit

Item# NT-H10E Hermit Crab Kit

D. NATURALISTIC TERRARIUM®

A Small Piece Of Nature And Tranquility For The Home Or Office.

- Zoo Med's NATURALISTIC TERRARIUM® allows you to add a "water pool" on the inside of your terrarium thus incorporating a beautiful water feature with or without a waterfall.

ADDITIONAL FEATURES:

- Lockable door for safety and security (lock not included).
- Front and top ventilation for natural air flow inside terrarium.
- Water-tight base.
- 6 power cord and airline tubing exit slots with "hold down" clips.

Item# NT-1E 30 x 30 x 30 cm

Item# NT-2E 30 x 30 x 46 cm

Item# NT-3E 46 x 46 x 46 cm

Item# NT-4E 46 x 46 x 60 cm

C

D

E

A. REPTIBREEZE™

Open air aluminum screen cage.

- Great for small species of Old World Chameleons, Juvenile Green Iguanas and other arboreal species of lizards, such as Geckos, Anoles, etc...
- Large front door for easy cage access and bottom door for easy substrate removal.
- Beautiful corrosion-resistant black anodized aluminum screen cage.
- All hardware included; easy to assemble using only a screw-driver.

Item# NT-10E 41 x 41 x 50 cm

Item# NT-11E 41 x 41 x 76 cm

Item# NT-12E 46 x 46 x 91 cm

Item# NT-13E 61 x 61 x 122 cm

B. IGUANARIUM™

Open air cage for large arboreal lizards such as medium to sub-adult Iguanas and Old World Chameleons.

- New Design!
- PVC (Plastic) coated wire to help prevent nose rubbing.
- Front and top opening doors for easy animal access.
- 4 casters (wheels) to move cage outside for natural sunlight.
- Removable "basking" shelf included.

Item# IA-30 91 x 46 x 122 cm

C. TORTOISE HOUSE

A Home for Your Pet Tortoise or Box Turtle.

- Wood sided (for privacy) design preferred by professional tortoise keepers.
- Use indoors/outdoors. Place outside in garden to provide beneficial sunlight/UVB rays.
- Includes: Private weatherproof "sleeping" area and lockable wire safety cover.
- Easy to assemble.
- Modular-Remove end panel and connect a second Tortoise House to double the space!

Item# TTH-1E 91 x 61 x 30,5 cm

D. TORTOISE PLAY PEN

Outdoor Shelter, Exercise Pen and Food Grazing Enclosure for Tortoises.

- Place on your lawn and watch your tortoise feed on beneficial grass.
- Allows your tortoise to absorb natural UVB rays from sunlight, very important for their health and shell growth.
- Complete with "private sleeping area".
- Easy to assemble.

Item# TPP-1E 48 x 41 x 99 cm

E. TURTLE TUB™

Zoo Med's Turtle Tub™ replicates the natural "pond" environment that aquatic turtles naturally live in.

- Built in land/water area.
- Large land area allows natural basking and egg laying behavior.
- Dark walls help in reducing stress.
- Lightweight and easy to clean.
- Made from 100% recycled plastic.

Item# TT-40E 40 cm H, 100 cm L, 54 cm D
Holds 49 liters

A/B. NATURAL CORK/FOREST TILE BACKGROUND

Create a naturalistic forest look in your terrarium

- Natural Cork panels for terrarium/vivarium backgrounds.
- Perfect for high-humidity environments. Highly resistant to mold or mildew.
- Precut to fit Zoo Med's NATURALISTIC TERRARIUM® or can be cut for custom sizes.
- Use several panels for large enclosures.

A. NATURAL CORK TILE BACKGROUND

Item#	NCB-1E	Fits 30 x 30 cm
Item#	NCB-2E	Fits 30 x 46 cm
Item#	NCB-3E	Fits 46 x 46 cm
Item#	NCB-4E	Fits 46 x 60 cm

B. NATURAL FOREST TILE BACKGROUND

Item#	NWB-1E	Fits 30 x 30 cm
Item#	NWB-2E	Fits 30 x 46 cm
Item#	NWB-3E	Fits 46 x 46 cm
Item#	NWB-4E	Fits 46 x 60 cm

C. NATURALISTIC TERRARIUM® LIGHT BAR

Mount lamps inside your terrarium!

- Light bar mounts inside Zoo Med's NATURALISTIC TERRARIUM® eliminating the need for bulky external light fixtures.
- Three mounting locations! Mount up to 3 light fixtures in three locations on one light bar.
- Includes one ceramic fixture, one light bar, and mounting hardware.
- Includes ON/OFF switch for greater convenience.
- For lamps up to 60 Watts.

Item#	NT-L12E	30 cm (fits NT-1E, NT-2E)
Item#	NT-L18E	46 cm (fits NT-3E, NT-4E)

D. NATURALISTIC TERRARIUM® WATERFALL KIT

Incorporate a beautiful waterfall feature in your NATURALISTIC TERRARIUM®!

Kit includes:

- Water pump.
- HYDROBALLS®.
- Terrarium Mesh.
- Plastic tubing & plastic elbow.
- Instruction book.

Item# WK-10E

E. NATURALISTIC TERRARIUM® SUBSTRATE MESH

- Non-toxic mesh for use in terrariums above the HYDROBALLS® layer to allow proper water drainage, keeping substrates from mixing and contaminating the water/filtration system.
- Excellent for use with waterfall applications.
- For larger terrariums use multiple pieces to cover terrarium floor.

Item# NT-M12E 30 x 30 cm

Item# NT-M18E 46 x 46 cm

F. NATURALISTIC TERRARIUM® REPTI LOCK

Keep your pets and children safe!

- Easy to operate!
- Three position tumbler can be set to any desired combination.
- Designed for use with Zoo Med's NATURALISTIC TERRARIUMS®.

Item# NT-TLE

ADD MORE
"LIVING SPACE"
TO YOUR
TERRARIUM!

LIZARD LADDER™ IN ACTION

A. REPTI SHELTER™

Zoo Med's ReptiShelter 3-in-1 Cave is a unique, naturalistic hide cave that also functions as a shedding and egg-laying chamber. Many reptiles and amphibians suffer from a lack of humidity in captivity, which can lead to shedding and respiratory disorders. The ReptiShelter 3-in-1 Cave corrects this problem by creating a humid "microclimate" within the terrarium, similar to what they would find in burrows, or under rocks and logs in nature. By adding the appropriate substrate to the 3-in-1 Cave tray, you can provide the ideal environment for shedding and egg-laying. Providing a proper nesting site can help prevent against egg-binding, a dangerous condition in which the reptile is unable to lay her eggs.

Item# RC-30E Small
Item# RC-31E Medium
Item# RC-32E Large

B. HABBA HUT™

This is a natural wood alternative to plastic or resin hiding places. Zoo Med's HABBA HUT™ adds privacy to any reptile terrarium. A perfect way to help reptiles feel safe and secure, while reducing the stress associated with keeping animals in captivity. Available in five sizes to meet almost any reptile's needs! TERRARIUM MOSS™ can be added inside HABBA HUT™ to provide a humid shelter. Also great for use with hamsters, mice, rats, ferrets, hedgehogs, guinea pigs and other popular pets!

Item# HH-S Small
Item# HH-M Medium
Item# HH-L Large
Item# HH-XL X-Large
Item# HH-G Giant

C. ADJUSTABLE SNAKE HOOK

Ideal for:

- Moving small snakes.
- Collecting small snakes in the wild.
- Moving cage furniture in your terrarium to inspect condition of your animals.

Features:

- Fully collapsible-adjusts from 18 to 66 cm.
- Fits into pocket when collapsed.
- Easy grip handle.

Item# TA-25E 18 x 66 cm

D. REPTI HAMMOCK™

A soft nylon mesh which provides a lofty, yet accessible multi-dimensional perch. Create an arboreal resting place on the slippery sides of your glass or acrylic terrarium. Use together with Zoo Med's LIZARD LADDER™ for easier access and more living space for your animals.

Item# SP-21 Small Size 36 cm
Item# SP-20 Large Size 44 cm

E. LIZARD LADDER™

A soft nylon mesh that attaches to the back wall of your terrarium to give your reptiles more space to climb. Combine with Zoo Med's REPTI HAMMOCK™ and ARBOREAL LAGOON™ to create a whole 3-D living space.

PRECISION ANALOG GAUGES

Zoo Med's Precision Analog Gauges are of professional breeder quality, with many features not found in cheap imported gauges. Features include: European-made precision German movement, side-venting to prevent against "fogging" inside the thermometer, and Velcro® backing enabling you to remove the gauge for terrarium cleaning and maintenance.

D

E

F

G

A. HYGROTHERM™

Humidity and temperature controller in one!

- Controls up to 1000 Watts of combined temperature and humidity control devices.
- Great for use with Zoo Med's REPTIFOGGER™.
- Nighttime temperature drop feature controlled by photocell.
- Controls temperature by turning on heating devices in "HEAT" mode or by turning on cooling devices in "COOL" mode.
- Alarm flashes when temperature or humidity reaches extreme high or low levels.
- Built in memory stores settings in case of power failure.
- Temperature control range: 50° to 122° F (10° to 50° C).
- Humidity control range: 15% to 95% RH (Relative Humidity).

Item# HT-10E

B. REPTITEMP®

Digital Infrared Thermometer

- Simple to use-just point and click!
- Small, pocket size.
- Temperature measurement range -28° to 230° F (-33° to 110° C).
- Min/Max function.
- Centigrade/Fahrenheit switch.
- Includes one CR2082 lithium cell battery.
- Use to measure:
 - Terrarium temperatures
 - Basking areas
 - Incubation temperatures
 - Egg container temperatures

Item# RT-1

C. DIGITAL TERRARIUM THERMOMETER™

- Wet or dry-ideal for terrariums, aquariums or reptile incubators.
- Temperature range from -10° to 140° F (-23° C to 60° C).
- 99 cm long temperature probe for pinpoint accuracy.
- Battery and mounting suction cups included.

Item# TH-24E

D. HIGH RANGE THERMOMETER™

- Liquid crystal thermometer for all types of enclosures.
- Ranges from 70° to 105° F (21° to 40° C) with easy to read crystal coloring.

Item# TH-10E

E. PRECISION ANALOG THERMOMETER™

- Extreme temperature range from 20° to 120° F (-6° to 49° C) for precise temperature monitoring.

Item# TH-20E

F. PRECISION ANALOG HUMIDITY GAUGE™

- Accurately reads the amount of water vapor saturation (humidity) in the air of your terrarium.
- Range is from 0 to 100%.

Item# TH-21E

G. PRECISION ANALOG THERMOMETER & HUMIDITY GAUGE™

- Allows for the monitoring of temperature and humidity of your terrarium with one unit.
- Thermometer scale: 20° to 120° F (-6° to 49° C). Humidity Scale: 0 to 100%.

Item# TH-22E

E

A. REPTITHERM® U.T.H. UNDER TANK HEATERS

ReptiTherm® U.T.H. Under Tank Heaters are an ideal 24 hour primary or secondary heat source for tropical or temperate reptilian species. All of Zoo Med's Under Tank Heaters are UL/CUL approved and contain a solid state nichrome heating element. These under tank heaters permanently adhere to your terrarium, forming a solid bond for optimum heat transfer.

- UL rated for safety.

ReptiTherm® U.T.H.

Item# RH-4E	15 x 20 cm	10-20 gal	8 Watt
Item# RH-5E	20 x 30 cm	30-40 gal	16 Watt
Item# RH-6E	20 x 45 cm	50-60 gal	24 Watt

NEW!

B. REPTITHERM® HABITAT HEATER

Industrial strength heater for heavy tortoises and other large reptile cage applications.

- 120 Volt, 40 watt heater with LED light to tell you when the heater is "on".
- Automatic thermostat protection shuts-off heater at 48° C to prevent overheating.
- Water-resistant construction. Made from easy-to-clean moisture-proof high density polyethylene plastic.
- Metal protection on power cord to help prevent damage from tortoises and other animals.
- Mounting rails molded into heater allow for secure placement on the floor or side of the enclosure.
- 75 to 80% electrical savings over other heating devices.

Item# RH-20E	46 x 46 cm
--------------	------------

C. REPTI HEAT CABLE

- Optimum terrarium heat source.
- Multiple applications: wrap around branches (inside terrarium) or use under terrarium.
- Low wattage: very economical to operate.

Item# RHC-15E	15 Watt	3,5 m
Item# RHC-25E	25 Watt	4,5 m
Item# RHC-50E	50 Watt	7 m
Item# RHC-100E	100 Watt	12 m

REPTI HEAT CABLE PROFESSIONAL SERIES

- Use with breeding racks*.
- Versatile, easy installation.
- Extra long.
- Optimum heat source.
- Perfect for Vision Versa Breeder Racks.

Item# RHC-150E	150 Watt	16 m
----------------	----------	------

D. REPTICARE® CERAMIC INFRARED HEAT EMITTERS

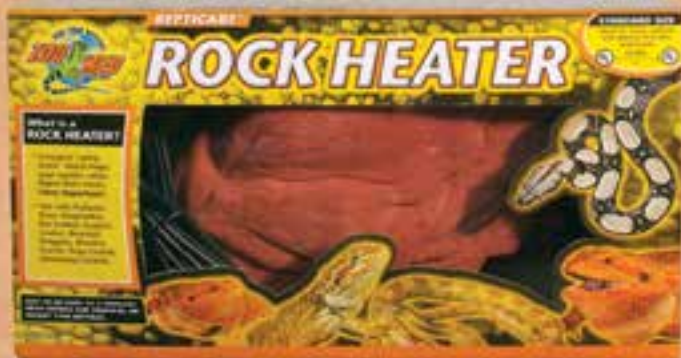

- Perfect 24 hour "Non-light Emitting" heat source for all tropical and desert reptiles.
- Lasts up to **5 YEARS!** 25,000 hour average life.
- Long wavelength infrared emissions for maximum heat penetration.
- Use in high humidity terrariums or large size wire cages like Zoo Med's Iguanariums™.
- UL rated for safety.

Item# CE-60E	60 Watt
Item# CE-100E	100 Watt
Item# CE-150E	150 Watt

E. WIRE CAGE CLAMP LAMP

- Best clamp fixture for ceramic heat emitters.
- The "open wire cage design" prevents the accumulation of "back heat," making it the safest clamp lamp available for use with high-heat producing ceramic heat emitters.
- Versatile: Can be used with POWERSUN® UV mercury vapor lamps, basking spot lamps, infrared heat lamps and ceramic heat emitters *up to 150 Watts*.
- UL approved for safety (when used with Zoo Med's Ceramic Heat Emitter) plus includes on/off switch and ceramic socket.

Item# LF-10EC

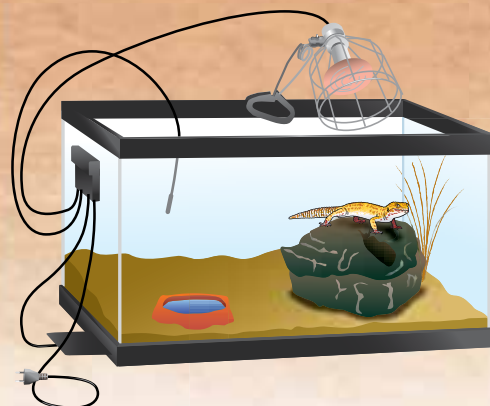

A

B

C

A. REPTICARE® ROCK HEATER

- New improved insulated nichrome wire element that creates even heat throughout the rock with no "hot spots".
- Washable surface to help prevent harmful bacteria build up.
- The only rock heater with a full coverage, completely encapsulated heating element.
- The only rock heater made with a custom 100% hydrated rock material that is twice as strong as cement or pumice.
- Available in Santa Fe Red.
- UL rated for safety.

Item# RH-2E	Mini Size	(5 Watt)
Item# RH-1E	Standard Size	(10 Watt)
Item# RH-3E	Giant Size	(15 Watt)

B. REPTI HEAT CAVE™

A Natural Looking Heated Cave for Reptiles to Bask on or Hide in

- Insulated nichrome wire element that creates even heat throughout the cave top with no "hot spots".
- 100% hydrated rock material that lasts up to twice as long as ordinary cement and up to 10 times longer than pumice!
- Washable surface to help prevent harmful bacteria buildup.
- Cave top can be removed and used solely as a ReptiCare® Rock Heater if your animal outgrows the cave.
- Low wattage with UL rating for safety.

Item# RH-8E

C. REPTITEMP® 500R REMOTE SENSOR THERMOSTAT

Remote Sensor Thermostat

- Automatically adjusts terrarium temperatures.
- Built-in dual plug receptacles control up to two heating devices at once.
- Includes 1.8 M sensor cable, safety cover and instruction book.
- Use with ceramic heat emitters, reptile heat pads, infrared heat lamps and other types of reptile heating devices. (Not for use with Rock Heaters).

Item# RT-500RE

REPTICARE® ROCK HEATERS™

Question: Why use Rock Heaters?

Answer: In nature the sun beats down on rocks and pavement (roads) which hold heat. Many species of reptiles will take advantage of this heat during the day or early evening to help "heat-up" their digestive tract and facilitate food digestion. The REPTICARE® ROCK HEATER replicates this "heated stone" feature found in nature and is very useful for reptiles that eat large meals (i.e: mice and rats) like Pythons, Boas, Monitor Lizards, Tegus, etc.

Helpful Hints:

- A rock heater should never be the sole source of heat at any time in any enclosure.
- Never cover or bury the rock heater with anything.
- If your reptile never leaves the rock heater, then your terrarium is too cold and you need an additional heat source. (i.e. a Ceramic Heat Emitter or ReptiTherm® UTH heater).

A. REPTI BASKING SPOT LAMP™

- The ultimate "Basking Light" for all types of reptiles.
- Patented computer designed "Double Reflector" focuses 35% More light/heat in the beam than other reflector bulbs.
- Tighter beam creates a more effective Basking Site than ordinary reflector bulbs.
- Increases the overall ambient (inside) air temperature of your terrarium. Especially helpful for all tropical and desert species, i.e. Iguanas, Bearded Dragons, etc.

- Lasts up to 2,000 hours.

Item# SL-25E	25 Watt
Item# SL-40E	40 Watt
Item# SL-60E	75 Watt
Item# SL-100E	100 Watt
Item# SL-150E	150 Watt
Item# SL-250E	250 Watt

REPTI BASKING SPOT LAMP™ VALUE PACK

- Economically priced "2 bulb value pack".

Item# SL2-40E	40 Watt
Item# SL2-60E	75 Watt
Item# SL2-100E	100 Watt

B. NOCTURNAL INFRARED HEAT LAMP™

- True red glass, not painted or coated!
- Ideal 24 hour heat source for all types of reptiles, birds or small animals.
- Excellent for nocturnal viewing of all types of captive animals, including: reptiles, amphibians, birds, hamsters, rats, mice, etc.
- Very little visible light provided so as not to disturb your animal's sleeping patterns.

Item# RS-50E	50 Watt
Item# RS-75E	75 Watt
Item# RS-100E	100 Watt
Item# RS-150E	150 Watt
Item# RS-250E	250 Watt

C. DAYLIGHT BLUE™ REPTILE BULB

- Bright naturalistic light bulb for heating reptile or amphibian terrariums.
- European quality for long burn life.

Item# DB-25E	25 Watt
Item# DB-40E	40 Watt
Item# DB-60E	60 Watt
Item# DB-100E	100 Watt

D. NIGHTLIGHT RED™ REPTILE BULB

- True red glass (not painted or coated) for better heat transfer.
- Perfect "Nightlight" bulb for viewing the nocturnal behavior of your animals.
- Can be combined with Zoo Med's Repti Basking Spot Lamp™ or Daylight Blue™ Reptile Bulb.

Item# NR-25E	25 Watt
Item# NR-40E	40 Watt
Item# NR-60E	60 Watt
Item# NR-100E	100 Watt

E. REPTI HALOGEN™

- Another "first" from Zoo Med! High quality halogen spot lamps specifically made for use with reptile terrariums!
- Halogen technology increases burn life and the crisp bright white light will make animals' colors appear richer.
- New, improved rough service design.

Item# HB-50E	50 Watt
Item# HB-75E	75 Watt
Item# HB-100E	100 Watt
Item# HB-150E	150 Watt

F. REPTI TUFF™ SPLASHPROOF HALOGEN LAMP

- Heavy duty "splash proof" halogen lamp.
- For use with all types of aquatic turtles or other water based terrarium animals.
- Long lasting: average 2500 hour bulb life.
- Makes animals' colors appear richer.

Item# OH-50E	50 Watt
Item# OH-75E	75 Watt
Item# OH-90E	90 Watt

C. REPTISUN® T8 5.0 UVB

The award winning industry standard UVB lamp for reptiles. A full 5% UVB output allows vitamin D₃ synthesis to occur naturally, preventing or reversing MBD and other health problems in turtles and tortoises, Bearded Dragons, Iguanas, and all other diurnal reptiles. The REPTISUN® 5.0 is effective for UVB induced photoconversion of vitamin D₃ in reptiles' skin at distances up to 30 cm. Accept no substitutes; get the original reptile UVB lamp: Zoo Med's REPTISUN® 5.0.

Item# FS-15E	381 mm	14 Watt
Item# FS-18E	457 mm	15 Watt
Item# FS-24E	610 mm	17 Watt
Item# FS-36E	914 mm	25 Watt
Item# FS-48E	1219 mm	32 Watt

D. REPTISUN® T8 10.0 UVB

Emits UVB a full 51 cm from the surface of the lamp to prevent or reverse metabolic bone disease. (Compared to 30 cm on the REPTISUN® 5.0). Optimal for use with larger terrariums where greater than 30 cm of UVB penetration is needed. The REPTISUN® 10.0 is also recommended for use above screen covers which can filter out up to 50% of the UVB wavelengths.

Item# OS-18E	457 mm	15 Watt
Item# OS-24E	610 mm	17 Watt
Item# OS-36E	914 mm	25 Watt
Item# OS-48E	1219 mm	32 Watt

**SEE CHART ON PAGE 16 FOR HELP
ON CHOOSING THE PROPER UVB
LAMP FOR YOUR APPLICATION**

E. REPTISUN® SELF BALLASTED COMPACT FLUORESCENT LAMPS

REPTISUN® 5.0 UVB tropical

- Perfect for all tropical species of reptiles and amphibians.
- 5% UVB Output, 30% UVA Output, FULL SPECTRUM.

REPTISUN® 10.0 UVB desert

- Perfect for all desert and basking reptiles.
- 10% UVB Output, 30% UVA Output, FULL SPECTRUM.

The REPTISUN® Compact Fluorescent Lamps use a special UVB transmitting quartz glass for maximum UVB penetration. Energy efficient compact fluorescent lamps screw into standard threaded sockets, eliminating the need for a separate ballast. Lamp can be oriented either vertically or horizontally in your reptile hood or clamp lamp fixture. UVB emissions help prevent or reverse metabolic bone disease and UVA increases feeding, mating, and other natural behaviors.

ZOO MED'S REPTILE LIGHTING SELECTION GUIDE

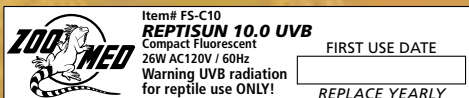

Reptile health is dependent on an interconnected cycle of a varied diet, proper heat regimes and supplementation of calcium and vitamins. Most reptiles require exposure to UVB to produce vitamin D₃. Vitamin D₃ is essential for the uptake of calcium from their diet. The sun provides UVB in nature, however, in your home you will need to provide UVB with specialty lighting designed for reptiles. There are many lamps available for reptiles in your local pet store. Some lamps produce UVB, some produce UVA, and others produce heat. Some lamps even produce UVB, UVA and Heat. Not all lamps are created equal, so go with the company you can trust: ZOO MED!

REPTILE LAMP CHART

Choosing the Correct Reptile Lamp is an important part of setting up a habitat and keeping reptiles healthy. Different lamps have different properties and features. Use this chart to find the best lamp or combination of lamps for you and your pet.

LAMPS	FEATURES	Daytime Light/ Night Time Viewing	24 Hour Heat	Heat	Basking	Splashproof	UVB	UVA
Powersun UV®		DAYLIGHT						
Repti Halogen™		DAYLIGHT						
Repti Basking Spot Lamp™		DAYLIGHT						
Repti Tuff™ Splashproof Halogen		DAYLIGHT						
Nocturnal Infrared Heat Lamp™		NIGHT						
Daylight Blue™		DAYLIGHT						
Nightlight Red™		NIGHT						
Repticare® Ceramic Heat Emitter								
Reptisun® 5.0		DAYLIGHT						
Reptisun® 10.0		DAYLIGHT						
Naturesun®		DAYLIGHT						

HEAT: Heat bulbs help maintain optimum terrarium temperatures. Use low heat for Temperate species, medium heat for tropical species & high heat for desert species.

Basking bulbs provide a focused beam of heat which is essential for many reptile species.

UVB is essential to the health of many reptiles and helps them maintain strong bones.

UVA helps reptiles to see accurately and can promote natural behaviors.

Night time viewing bulbs provide enough light for people to watch their pets at night, but do not disturb the day and night cycle of the animal.

Visible Daylight is important to establish a natural light cycle for the animal and should be used for 12-14 hours a day.

A Splashproof bulb is ideal for an aquatic habitat where animals, such as turtles, may splash it.

ZOO MED OFFERS HOODS FOR EVERY LAMP THAT WE SELL, HERE ARE A FEW OF OUR AVAILABLE FIXTURES AND THE LAMPS THAT CAN BE SAFELY USED WITH THEM.

NEW!

REPTILE LED/UVB LAMPS

A

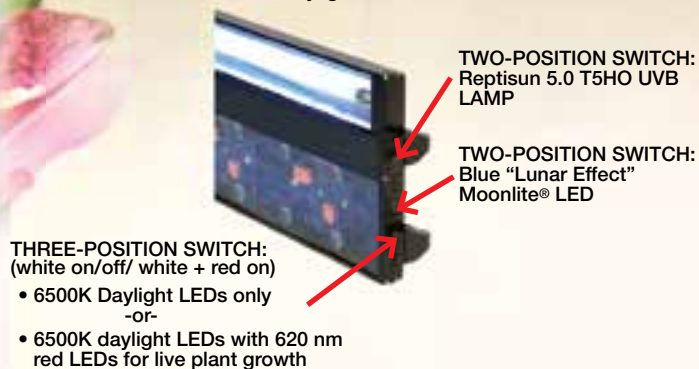

WHITE ONLY: 6500K daylight

BLUE MOONLITE®: Low light "Lunar Effect".

WHITE with RED: 6500K daylight with 620 nm red for habitats with live plants.

ReptiSun 5.0 T5HO UVB lamp (included) provides safe and effective UVB in terrariums.

Low light 60 milliwatt blue LED simulates "Lunar Effect" and provides for nighttime viewing.

Two 0.5 watt 620 nm RED LEDs to provide correct wavelengths for photosynthesis & live plant growth.

Each module contains four 1 watt 6500K High Output daylight LEDs.

Adjustable brackets for different sized tanks.

Optional stainless steel "aircraft cable" suspension kit included.

NEW!

A. REPTISUN LED UVB TERRARIUM HOOD

- BRILLIANT LIGHT! 6500K daylight high output LEDs for truly naturalistic lighting.
- UVB: ReptiSun 5.0 T5 HO (high-output) lamp included for safe & effective UVB and bright light for improved color rendering.
- PLANT GROWTH: 620 nm RED LEDs stimulate live plant growth.
- MOON LITE®: 465 nm BLUE LED simulates nighttime lighting "Lunar Effect".
- LONG LIFE: 20,000 hour life range.

THE ULTIMATE UV METER

ZOO MED'S DIGITAL UV INDEX RADIOMETER is an easy to use meter for measuring UVB lamps and the sun.

HOW IS THE UV INDEX METER DIFFERENT FROM STANDARD UVB METERS?

Standard UVB meters measure total UVB and are useful for finding out if a lamp is emitting UVB, and also for tracking the decay in UVB over time. Readings from standard UVB meters can be confusing and misleading, especially when trying to make comparisons between natural sunlight levels and UVB lamps.

The UV Index was developed by the World Health Organization as a tool for evaluating human risk of UV exposure outdoors. It is a measure of the UV radiation from sunlight that contributes to vitamin D synthesis, as well as skin and eye damage. It is NOT simply a measure of total UVB. Since the UV Index meter only "sees" the wavelengths that contribute to vitamin D synthesis, as well as eye/skin damage, it can be used for the following:

- To determine if a UVB lamp is safe for use with animals.
- To determine the appropriate distance from the UVB lamp to the basking site.
- To make meaningful comparisons between different types and brands of lamps, and between lamps and the sun.

D

NEW!

DEEP DOME FEATURES

ALL OF THESE FIXTURES HAVE POLISHED ALUMINUM DOMES THAT INCREASE LIGHT AND UV OUTPUT UP TO 30%

A. MINI DEEP DOME LAMP FIXTURE™

- Extra long reflector dome that extends beyond the face of the lamp, preventing the lamp from "sticking out".
- Ceramic socket: for use with lamps up to 100 Watts.
- Polished aluminum dome for maximum light and heat output.
- On/off switch allows easy control of lighting device.
- UL rated for safety.

Item# LF-18E

NEW!

B. MINI COMBO DEEP DOME LAMP FIXTURE™

- Two fixtures in one for maximum convenience.
- Dual fixture allows for one Basking Spot Lamp or 100 watt POWERSUN® UV lamp and a Nightlight Red™ Heat lamp.
- Polished aluminum domes for maximum light and heat output.
- Includes dual on/off switches for greater convenience.
- Patented Zoo Med design.

Item# LF-19E

C. DEEP DOME LAMP FIXTURE™

- Extra long reflector dome extends beyond the face of the lamp, preventing the lamp from "sticking out".
- Perfect for use with Zoo Med's POWER-SUN® UV lamps and REPTISUN® UVB Compact Fluorescent lamps.
- Highly polished aluminum inside greatly increases UVB & UVA output!
- Ceramic base! For use with lamps up to 160 Watts.

Item# LF-17E

NEW!

D. COMBO DEEP DOME LAMP FIXTURE™

- Dual ceramic sockets for use with lamps up to 160 Watts* (each socket).
- Polished aluminum dome for maximum light & heat output.
- Deep dome extends beyond the face of the lamp preventing the lamp from "sticking out".
- Two lamp fixtures in one for maximum convenience.
- Dual fixture allows for multiple lamp combinations including UVB lamps, daytime heat lamps, & night-time heat lamps.
- Includes dual on/off switches for greater convenience.
- Patented Zoo Med design.

Item# LF-25E

THIS LAMP PROVIDES UVB, UVA & VISIBLE LIGHT FOR YOUR REPTILE 5 SIZES, LOW PROFILE DESIGN

**NEW!
T5**

- **STRONGER UVB & BRIGHTER LIGHT:** Twice as strong as standard ReptiSun® 10.0 lamps!
- **The strongest ReptiSun® lamp available!** Perfect for desert reptiles in large habitats.
- **INCREASED UVB OUTPUT:** Perfect for larger reptile habitats.

Item# LF-74E
1200 mm holds one 54W T5 HO 1160 mm lamp

B. NATURALISTIC TERRARIUM HOOD™ 30 CM

- Fits all 30 cm wide NATURALISTIC TERRARIUMS® (Zoo Med item# NT-1E or NT-2E).
- Single socket hood with reflector for increased heat or UVB output.
- 3 different lighting possibilities:
 - UVB-ReptiSun® UVB Compact Fluorescent bulb.
 - Heat-Daylight Blue™ Reptile Bulb or Nightlight Red™ Reptile Bulb.
- UL rated for safety.

Item# LF-50E

C. NATURALISTIC TERRARIUM HOOD™ 46 CM

- Fits all 46 cm wide NATURALISTIC TERRARIUMS® (Zoo Med item# NT-3E or NT-4E).
- Includes built-in reflector and two sockets for heat and UVB lamps.
- **UVB:** Use with Zoo Med's REPTISUN® 5.0 UVB Compact Fluorescent Lamp for UVB and UVA.
- **HEAT:** Use Zoo Med's Daylight Blue™ Reptile Bulb for daytime heat or Zoo Med's Nightlight Red™ Reptile Bulb for 24 hour heat.
- UL rated for safety.

Item# LF-55E

D/E. REPTILE LAMP STAND™

- Safely secures clamp lamp fixtures above your terrarium resulting in better lamp heat transfer and reduces the risk of fire from your clamp lamp in the event it comes loose from a "frame mount".
- Stable "foot" goes underneath terrarium so stand can not be knocked over.
- Adjustable knobs for height and length adjustment.
- Available in two sizes:

Item# LF-20 (Standard size) max-H 97 cm
max L 38 cm

Item# LF-21E (Small size 10-20 gal) max-H 61 cm
max L 30,5 cm

F. DELUXE PORCELAIN CLAMP LAMP™ & DELUXE PORCELAIN BROODER LAMP™

Zoo Med's most popular Clamp Lamp fixture is available in three sizes: 14 cm, 22 cm, or 25 cm diameter domes. Made of heavy gauge painted aluminum. All three models have a ceramic socket, and can be used with the Clamp Lamp Safety Cover to protect your bulbs, animals, and home.

- UL rated for safety.
- Item# LF-11E 14 cm (up to 100W)
Item# LF-12E 22 cm (up to 150W)
Item# LF-15E 25 cm (up to 250W)

REPTIBATOR™

Digital egg incubator

- Digital controller with LCD display and LED heat indicator light.
- Pulse proportional thermostat for stable temperature regulation.
- Temperature control range from 15° C to 40° C (59° F to 104° F).
- Humidity Display range from 10%-95% relative humidity.
- Rigid 55 W heating element.
- Programmable temperature alarm.
- Built in memory stores settings in case of power failure.
- Clear cover allows for easy egg inspection without opening incubator.
- Multiple water reservoirs molded into incubator base. Flow-through ventilation and sponge insert allows for even evaporation and humidity levels within incubator.

Item# RI-10E

INCUBATION ROOM

View a piece of Zoo Med's passion!

Zoo Med is made up of biologists and passionate hobbyists. In our facility we house over 90 species of reptiles, amphibians, fish and invertebrates. We don't sell these animals; these are our pets! You can see many images of these pets in our product packaging (such as the female Day Gecko holding her egg on the left).

This year we have had quite a successful breeding season and we've had several species laying eggs. We invite you to view a piece of Zoo Med's passion by going to:

H

I

NEW!**A. FLOATING TURTLE FEEDER™**

- Floating "fish shaped" feeder releases turtle food pellets when bumped!
- Enjoy watching your turtles forage for food just as they do in nature.
- Better than dumping food directly into the water.
- Patented.

Item# TA-41E

B. TURTLE TUB™

Zoo Med's Turtle Tub replicates the natural "pond" environment that aquatic turtles naturally live in.

- Built in land/water area.
- Large land area allows natural basking and egg laying behavior.
- Opaque walls help in reducing stress.
- Lightweight and easy to clean.
- Made from 100% recycled material!

Item# TT-40E

C. TURTLECLEAN™ 15 CANISTER FILTER

For tanks up to 15 gallons.

Small, convenient outside-the-tank canister filter for turtle tanks up to 15 gallons. Contains biological, chemical, and mechanical filtration material. Clear viewing case allows you to see when filter media needs replacing.

- UL rated for safety.

Item# TC-30E Canister Turtle Filter
Item# TC-701E Replacement Carbon
Item# TC-702E Replacement Sponge

D. DR. TURTLE®

Slow-release calcium block

- Provides required calcium and conditions water.

Item# MD-11E

E. TURTLE BONE™

- A natural floating source of calcium for all aquatic turtles, box turtles, and tortoises.
- Rough edible surface prevents overgrown mandibles (beaks).

Item# TB-1E
(2 cuttlebones per package)

F. TURTLE HUT™

If you want the look of a natural log hiding place for your reptiles with the convenience, strength, and washability of resin, then Zoo Med's TURTLE HUT™ is for you. Inert material means it won't mold and is easy to sterilize. It can be submerged in water for aquatic turtles, newts, and even shy fish or used on dry land for any species of reptile or amphibian.

Item# AH-SE Small
Item# AH-ME Medium
Item# AH-LE Large
Item# AH-XLE X-Large
Item# AH-GE Giant

IN A CONTINUING EFFORT TO REDUCE OUR RELIANCE ON FOSSIL POLYMERS, WE CONVERTED ALL OUR RESIN PRODUCTS TO PLANT-BASED RESIN OR CERAMIC.

G. TURTLE DOCK™

Unique floating dock for aquatic animals to bask on. Self leveling feature automatically adjusts to all water levels. Submerged ramp allows turtles easy access to a dry basking area for maximum exposure to heat and UVB lamps. Available in 4 sizes to easily accommodate any size aquatic turtle.

- Patented.

Item# TD-5E Mini Dock
Item# TD-10E Small (10 gal. and up)
Item# TD-20E Medium (15 gal. and up)
Item# TD-30E Large (40 gal. and up)
Item# TDS-4 4-pack/suction cups

H. FLOATING TURTLE LOG™

The new natural looking Floating Turtle Log provides security, comfort, and stress reduction for aquatic turtles, newts, frogs, mudskippers, and tropical fish. The hollow resin log floats just at the surface so that turtles can bask on top of it or hide submerged inside. Bottom-weighting prevents the log from rolling over, even with two 10 cm turtles on top.

- Patented.

Item# TA-40E

I. DIGITAL AQUATIC TURTLE THERMOMETER

- Waterproof, completely submersible.

Item# TH-26E

SELECTION/CARE

DIET TYPE	SUPPLEMENTAL FOODS	TIPS
 	Bearded Dragon Pellets, Can O's, Fruit Mix Ins	Provide 35°C basking site
	Leopard Gecko Food, Can O's	Use 3 in 1 ReptiShelter™ for humid hide
	Can O's	Use Reptifogger™ to maintain humidity
 	Can O's	Use Mosses for burrowing
 	Aquatic Newt Food, Turtle Treat	Use Zoo Med's 318 or 15 filter to keep water clean
	Feed with Tongs	Use 3 in 1 ReptiShelter™ for humid hide
	Feed with Tongs	Use 3 in 1 ReptiShelter™ for humid hide
 	Day Gecko Food, Fruit Mix Ins, Can O's	Use ReptiRain® for automatic misting
 	Can O's	Use a Repti Rock™ Water Dish for feeding goldfish
	Can O's	Use ReptiRain® for automatic misting
	Can O's	Use Mosses to retain humidity
	Feed with Tongs	Use rock heater as secondary heat source
	Feed with Tongs	Use 3 in 1 ReptiShelter™ for humid hide
 	Day Gecko Food, Fruit Mix Ins, Can O's	Use ReptiRain® for automatic misting
 	Natural Iguana Food, Mix Ins, Can O's	Needs to be HOT! 43-49°C Basking site
  	Hermit Crab Food, Blocks, Fruit Salad, Treat	Use Reptifogger™ to maintain humidity
  	Natural food, Turtle Treats, Can O's, Reptisticks, Blocks	Use a TurtleClean™ filter to keep water clean. Zoo Med has 4 sizes available (15, 30, 50, & 75).
 	Can O's	Use Reptifogger™ to maintain humidity
  	Tegu Food, Mix Ins, Can O's	Research specific species needs
 	Can O Crickets, Can O' Mealworms	Research specific species needs
	Natural Iguana Food, Mix Ins, Canned Iguana	Get BIG! Check out Iguanarium® for housing
	Can O' Worms, Crickets, Superworms	Use ReptiRain® for drinking water droplets
  	Natural Box turtle food, Can O's, Mix Ins	Provide Deep Substrate for burrowing. Use Repti Ramp™ Bowl for soaking.
Depends on species	Natural Tortoise Food, Tortoise Block	Use Grassland Tortoise Food for Russian, Sulcata, & Greek tortoises. Use Forest Tortoise Food for Redfoot, Emys & Hingeback tortoises.

HEATING & LIGHTING

Basking bulbs provide a focused beam of heat which is essential for many reptile species.

UVB is essential to the health of many reptiles and helps them maintain strong bones.

UVA helps reptiles to see accurately and can promote natural behaviors.

Night time viewing bulbs provide enough light for people to watch their pets at night, but do not disturb the day and night cycle of the animal.

Visible Daylight is important to establish a natural light cycle for the animal and should be used for 12-14 hours a day. A Splashproof bulb is ideal for an aquatic habitat where animals, such as turtles, may splash it.

A

B

C

D

"I love your new Grassland Tortoise food. Zoo Med really did it's research on this product. The only thing that can beat the natural ingredients and long fiber in your product would be moving my family and tortoise herd back to the tortoise's natural habitat! I can't say enough about it and I really want everyone with a tortoise to know about it".

Sincerely,
John Bailey
TSA member & noted tortoise breeder

Colored corn tortoise pellets should be fed as a "treat" only and never used as a regular tortoise diet.

* Pyramiding is NOT normal in most species, and is likely caused by poor diet (high protein/low fiber) and low humidity.

E

F

(NEW!)**A. TORTOISE BLOCK***Calcium Block with Cactus & Vegetables*

- Great source of Calcium, Spineless Cactus, and other vegetables.
- Provides enrichment as your tortoises chew the block to get the food inside.
- Helps to prevent overgrown beaks on tortoises.

Item# BB-55E 142 g

B. NATURAL BOX TURTLE FOOD

- Correct fiber, protein, and calcium levels for normal growth and proper shell development.
- Contains small amounts of fruit (papaya & mango) and animal protein to meet the unique dietary requirements of Box Turtles.
- Contains a variety of nutritious plants that Box Turtles love!

Item# ZM-24E 57 g
Item# ZM-21BE 284 g
Item# ZM-22BE 567 g
Item# ZM-23BE 1134 g

A. CRICKET BLOCK

Cricket Calcium & Gutload Block

- Increases the calcium content of crickets fed to reptiles.
- Calcium base with food inside to increase nutritional value of crickets.
- Easy to use! Just place inside cage with crickets.

Item# BB-60E 142 g

B. CRICKET CARE

- Finely ground gut-load for crickets being fed to reptiles.
- With added vitamins and minerals.

Crickets are an important food for insect-eating reptiles and amphibians. Live crickets sold for reptiles must eat a healthy diet in order to provide reptiles with the nutrients that they need. Crickets sold in stores are often underfed, or are fed poor quality foods that lack essential nutrients. Zoo Med's Natural Cricket Care™ provides a gut-load with essential nutrients for the optimum health of crickets and the reptiles that eat them.

Item# ZM-170E 49 g

Item# ZM-171E 283 g

K. CAN O' GRASSHOPPERS™

Large size grasshoppers. Ideal for large monitors, Tegus, skinks, turtles, Box Turtles, and birds.

Item# ZM-44E 34 g

REPTI CALCIUM® AND REPTIVITE™:

Balanced calcium and multi-vitamin supplementation for all reptiles and amphibians. Offer REPTI CALCIUM® and REPTIVITE™ in alternate feedings as directed. Proper nutrition for reptiles and amphibians is dependent on many variables. Exposure to UVB helps animals produce Vitamin D₃ in their skin, while some animals obtain vitamin D₃ from their diet. Either way, vitamin D₃ is responsible for utilizing calcium within the diet. UVB, Vitamin D₃, heat, calcium and diet work together and are dependent on each other for balanced nutrition.

There is no prescribed rule for which animals need additional D₃, but a little research can help guide keepers in the right direction. For more information on UVB, Vitamin D₃ and calcium, please visit www.zoomed.com.

A

B

Zoo Med's REPTI CALCIUM® With or Without Vitamin D₃ is a phosphorus-free calcium supplement for reptiles and amphibians. We use only Precipitated Calcium Carbonate which is white in color and is essentially lead free. Impurities in other sources of calcium carbonate (e.g. Oyster Shell Calcium) cause the supplement to appear gray. With REPTI CALCIUM®, you can take comfort in knowing that your reptiles are getting a highly bioavailable source of calcium carbonate that is free of harmful impurities.

A. REPTI CALCIUM® WITH D₃

Item# A34-3E	85 g
Item# A34-8E	226 g
Item# A34-12E	340 g
Item# A34-48E	1,36 kg

Item# A33-3E	85 g
Item# A33-8E	226 g
Item# A33-12E	340 g
Item# A33-48E	1,36 kg

General Recommendations:

Recommended Use: With D₃

- Diurnal species housed indoors (Bearded Dragons, Chameleons, turtles and tortoises).
- Can be offered occasionally to nocturnal animals.

Recommended Use: Without D₃

- Animals housed outdoors with direct exposure to sunlight for 10 hrs/day or more (i.e. Chameleons and tortoises housed outdoors).
- Reptiles that eat whole vertebrate prey (eg. mice).

TO READ MORE ABOUT VITAMIN D₃, UVB, UVA LIGHTING AND REPTILES, PLEASE VISIT:

www.zoomed.eu

C

D

Zoo Med is proud to offer REPTIVITE™, a complete vitamin, mineral, and amino acid complex specifically formulated for reptiles. REPTIVITE™ is calcium based to ensure healthy bone growth with the correct 2:1 calcium to phosphorus ratio. Originally developed for the San Diego Zoo to correct soft-shell problems in turtles, it is now used by some of the most respected zoos and animal parks throughout the world. The first reptile vitamin to include the complete amino acid complex, an essential component in protein digestion. REPTIVITE™ does not contain artificial additives or fillers like soy, yeast, or sucrose. Use 2-3 times weekly on your reptile's food.

E. REPTI TURTLE EYE DROPS

- Opens and cleans inflamed turtle eyes.
- Preventative for eye diseases caused by vitamin A deficiencies.
- Helpful with box turtle eye problems.

Item# MD-30E 66 mL

F. REPTI SHEDDING AID

Aids in removing dry sheds from snakes and lizards. REPTI SHEDDING AID conditions your reptiles' skin and provides a visible sheen. Long lasting! Works between sheds.

Item# MD-31E 64 mL

G. MITE OFF

Controls mites in captive reptile collections. MITE OFF contains colloids, small electrically charged molecules that can penetrate and disrupt simple organisms like mites. Completely non-toxic and safe for the water supply and environment (no EPA listed pesticide ingredients). MITE OFF has no effect on vertebrate species and other complex organisms including humans, reptiles, dogs, cats, and plants.

Item# M0-8E 258 mL

H. WIPE OUT 1™

Terrarium and small animal cage disinfectant, cleaner and deodorizer. It is ideal for cleaning, disinfecting and deodorizing terrariums and other animal enclosures. WIPE OUT 1™ kills *Salmonella choleraesuis* and *Pseudomonas aeruginosa* and can reduce the spread of bacterial infections among your animals.

(EPA Reg. No. 69814-4)

Item# W0-18E 258 mL

I. REPTISAFE®

The first instant terrarium water conditioner. Great for reptile water bowls, chameleon drip water systems, amphibian enclosures, and aquatic turtle tanks. REPTISAFE® removes chloramines and chlorine, detoxifies ammonia and nitrites, and provides essential ions and electrolytes which help to hydrate newly acquired animals. Also stimulates slime coat development in amphibians and fish.

Item# VB-10E	Baja Blue	4,5 kg

D. EXCAVATOR®

Clay Burrowing Substrate.

- Allows reptiles to dig tunnels and burrows just like they do in nature.
- Watch your reptiles perform natural digging behaviors.
- You can mold and create multi-level terraces and burrows in your reptile's terrarium.
- Make your reptiles feel like they're "at home" in their natural habitat.
- EXCAVATOR® holds its shape so burrows and tunnels won't collapse.
- All Natural! No added dyes, colors, or chemicals.

E

A. REPTIBARK®

The #1 selling reptile bark worldwide!
Naturally decorative.

- 100% pure fir bark. Provides your terrarium with that tropical rainforest look!
- Excellent substrate for tropical humidity loving reptiles.
- Triple cleaning process to eliminate large sticks, dust and dirt.
- Beneficial small size particles prevents crickets from hiding in substrate.
- REPTIBARK® is washable and re-usable.

Item# RB-4E 4,4 L

Item# RB-8E 8,8 L

Item# RB-24 26,4 L

B. ASPEN SNAKE BEDDING

#1 Preferred snake bedding by professional herpetoculturists worldwide!

- No toxic oils like cedar and other similar wood shavings.
- Odorless, easy to clean, and 99.9% dust free!
- Provides a safe, naturalistic substrate that allows snakes, lizards and small animals to form burrows and nests as they would in the wild.

Item# SB-4E 4,4 L

Item# SB-8E 8,8 L

Item# SB-24 26,4 L

C. FOREST FLOOR™

- 100% natural cypress mulch.
- Provides your terrarium with a natural "forest floor" look while retaining moisture to provide humidity to the enclosure.
- Great for snakes, amphibians, tarantulas or invertebrates, mix with Zoo Med's ECO EARTH® for tropical species of tortoises or box turtles.

Item# CM-4E 4,4 L

Item# CM-8E 8,8 L

Item# CM-24 26,4 L

D. ECO EARTH®

- ECO EARTH® is a natural coconut fiber substrate that is ideal for all burrowing type animals like; box turtles, tropical tortoises, hermit crabs, salamanders, toads, frogs, tarantulas and invertebrates.
- Excellent for NATURALISTIC TERRARIUMS™.
- Increases humidity in your enclosure.
- ECO EARTH® now comes in a compressed "brick" form or "loose fill" pack.

Item# EE-08E Loose, 8 dry quarts

Item# EE-10 One brick

Item# EE-20 Three brick pack

Item# EE-24 Loose, 24 dry quarts

E. HYDROBALLS®

NATURALISTIC TERRARIUM™

- Use as a base layer underneath Zoo Med's ECO EARTH® compressed coconut fiber substrate or other substrate to create an underground water table in Naturalistic Terrariums.

INCREASES HUMIDITY:

- Add water to HYDROBALLS® to create a natural "aquifer" and increase humidity levels for all tropical species!

LIVE PLANTS:

- Provides an excellent substrate for live plant root growth in NATURALISTIC TERRARIUMS™.

BUILD A WATERFALL:

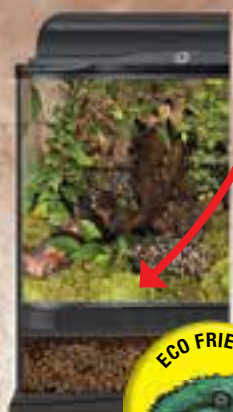

- Add a water pump to the HYDROBALLS® layer to create a waterfall and generate water flow through the HYDROBALLS® for optimum filtration.

Item# VC-10E 1,13 kg

A

OUR CARPET IS MADE FROM 100% RECYCLED PLASTIC MILK CARTONS; THESE MILK CARTONS WON'T BE STAYING IN OUR LANDFILLS!

A. FROG MOSS

- Frog Moss (Also called "Pillow Moss") will come back to life and grow in proper terrarium conditions.
- A beautiful, decorative living moss to accent your naturalistic terrarium.
- Increases humidity in terrariums for all high humidity loving species of reptiles or amphibians.
- Excellent top substrate for Zoo Med's NATURALISTIC TERRARIUMS®.

Item# CF3-FME 1,31 cu dm

B. NEW ZEALAND SPHAGNUM MOSS

- TRUE SPHAGNUM MOSS: The #1 preferred moss for all vivarium applications.
- INCREASE HUMIDITY: Holds more water and stays moist longer than any other type of moss!
- LONG LASTING: Natural compounds in moss prevent it from decomposing in humid environments.
- Excellent top substrate for Zoo Med's NATURALISTIC TERRARIUMS®.

Item# CF2-NZE 150 g

Item# CF3-NZE 1,31 cu dm

B

D

C. TERRARIUM MOSS™

- Completely natural moss cage substrate for amphibians and wetland environment reptiles.
- Great for use in humidity shelters for all types of reptiles and amphibians.
- Excellent for use as an egg-laying and incubation medium for a variety of reptiles.
- Available in 5 sizes including a mini compressed bale size for pet shops or multiple terrariums.

Item# CF2-SE 1,31 L

Item# CF2-ME 1,8 L

Item# CF2-LE 2,3 L

Item# CF2-XE 3,1 L

Item# CF2-MBE Mini Bale 5,62 L

D. REPTI CAGE CARPET™

Terrarium carpet liner for snakes, lizards, turtles or tortoises

- Economical • Absorbent • Washable
- Two carpets per package to allow for easy cleaning.
- Recommended by professional hobbyist as carpet aids in muscle development in lizards, turtles, and tortoises.
- SAFE: Cannot be accidentally ingested by your animals.
- Available in two colors: Green and Brown.

Item# CC-5 20 x 40 cm

Item# CC-10 25 x 51 cm

Item# CC-15 25 x 51 cm

Item# CC-29 230 x 76 cm

Item# CC-40 38 x 92 cm

REPTISAND®							
Vita-Sand®							
Mosses							

ZOO MED'S RECOMMENDED SUBSTRATE COMBINATIONS

FOREST GROUND COVER

Eco Earth® can be added to either ReptiBark® or FOREST FLOOR™ to add texture and moisture holding properties. These blends create a realistic ground cover that retains humidity and allows animals to retreat under the top layers of substrate.

ODOR ABSORBING

ReptiFresh® can be added to other substrates to add odor-absorbing properties. Add ReptiFresh® to EXCAVATOR® or REPTISAND® for desert terrariums. Add ReptiFresh® to Eco Earth® for tropical terrariums.

HUMID BURROWS

Add water holding properties to EXCAVATOR® by adding Eco Earth®. This combo is also a preferred nesting substrate for Uromastix and other desert burrowing species.

TROPICAL SAND (LOAM-TYPE)

Eco Earth® and REPTISAND® are a perfect tropical combination. Eco Earth® will help retain humidity, while REPTISAND® helps create texture that will hold shape for burrowing.

ZOO MED'S NESTING SUBSTRATE COMBO

A combination of Zoo Med's Eco Earth®, FOREST FLOOR™, and REPTISAND® makes the perfect nesting substrate for many species. This substrate combo holds moisture, holds shape, and is a very natural consistency for nest digging.

We use this combination at Zoo Med for all our land tortoise, aquatic turtle, and lizard breeding nesting areas!

SUBSTRATE TOPPERS:

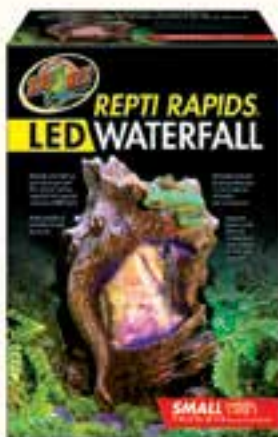

Add any of these substrate toppers to your terrarium to help retain humidity and create a natural looking environment for tropical species. Mosses can be added to burrows and/or shelters of desert terrariums to create a humid retreat similar to that found in nature.

CUSTOMER
FAVOURITE

B

C

D

E

NEW!**A. REPTIRAIN®***IMPROVED, Automatic Misting Machine*

- Stronger & QUIETER pump.
- Will mist up to TWO terrariums at once!
- Improved spray pattern.
- Programmable misting unit for terrariums, bird cages, aviaries or indoor gardens. Portable – for indoor or outdoor use. Includes AC adaptor, or will run on batteries (4 C batteries, not included).
- Four programmable spray interval settings– every hour, 3 hours, 6 hours, or 12 hours. Four spray duration settings: 15, 30, 45, or 60 seconds.
- Includes adjustable mounting hooks, 4 point suction cup hold down, remote nozzle extension and 6 watt AC adaptor.
- One year warranty.
- Patented.

Item# HM-10E

B. REPTIFOGGER™

Create a tropical rainforest in your terrarium using Zoo Med's REPTIFOGGER™ Terrarium Humidifier. Dramatic cool mist increases animal comfort, relative humidity, and visual appeal. The REPTIFOGGER™ can be used to increase the overall humidity level in smaller terrariums, or to create a humid "micro climate" in larger terrariums. Use with Zoo Med's HYGROTHERM™ for precise humidity and temperature control in your terrarium!

Excellent for use with tropical and rainforest species of reptiles & amphibians including:

- Chameleons and Anoles.
- Amphibians (including Dart Frogs).
- Geckos (including Crested Geckos & Day Geckos).
- Forest tortoise species (e.g. Red-foot Tortoises, Yellow-foot Tortoises & Hingeback Tortoises).
- Hatchling and juvenile tortoises to prevent pyramiding.
- Box Turtles.
- Hermit Crabs.
- One year warranty.

Item# RF-10E

C. HYGROTHERM™

Humidity and temperature controller in one!

- Controls up to 1000 Watts of combined temperature and humidity control devices.
- Great for use with Zoo Med's REPTIFOGGER™.
- Nighttime temperature drop feature controlled by photocell.
- Controls temperature by turning on heating devices in "HEAT" mode or by turning on cooling devices in "COOL" mode.
- Alarm flashes when temperature or humidity reaches extreme high or low levels.
- Built in memory stores settings in case of power failure.
- Temperature control range: 10°C to 50°C.
- Humidity control range: 15% to 95% RH (Relative Humidity).

Item# HT-10E

D. BIG & LITTLE DRIPPER™

Zoo Med's Drippers simulate natural rainfall and provide humidity for captive reptiles. The Dripper has a folding handle lid that allows you to suspend the dripper above the enclosure. Especially helpful for animals that do not readily drink standing water and instead drink "dew" from leaves (i.e. Old World Chameleons). Our Drippers are available in two sizes, the 3,78 L "Big Dripper™" and the 2 L "Little Dripper™".

Item# BD-1E Big Dripper™

Item# LD-1E Little Dripper™

E. REPTI ROCK RESERVOIR™

A deluxe reptile water dish with a 22 oz. (0.65 L) "reservoir" water reserve. The large reserve provides constant fresh water, while the small basin discourages reptiles from fouling their water. Includes an "insect guard" which prevents insects and small lizards from entering the reservoir and getting stuck. Extra wide base prevents accidental tipping and spilling.

A. HERMIT CRAB KIT

- 10 gallon (long) terrarium 51 x 25 x 30 cm with sliding screen top.
- VitaSand (white) 2.2 kg.
- Eco Earth® (1 brick).
- Hermit Crab Mineral Block.
- Combo food/water dish.
- Care of Hermit Crab book.
- Sample pack: Hermit Crab food.
- Sample pack: Hermit Crab Water Conditioner.
- Sample pack: Hermit Crab Salt Water Conditioner.

Item# NT-H10

B. HERMIT CRAB CORK SHELTER

- A natural piece of cork bark for your hermit crab to climb or hide under.
- Provides a natural "humidity area" and encourages natural digging.

Item# HC-53

C. HERMIT CRAB THERMOMETER

- Liquid crystal thermometer for all types of enclosures.

Item# HC-10

D. HERMIT CRAB SEA SPONGE

A great way for hermit crabs to exit deep water dishes. Sea sponges have natural minerals from the ocean essential to the longevity of your hermit crab.

Item# HS-10

E. HERMIT CRAB FOOD

A convenient pellet diet for all land hermit crabs. Use as regular staple food.

Item# ZM-11B 68 g

F. HERMIT CRAB PEANUT CRUNCHIES

All natural peanut butter treat. Add some variety to your scavenger's diet!

Item# HC-60 52 g

G. HERMIT CRAB FRUIT SALAD

All natural fruit treat containing dried apples, cranberries, and mango.

Item# HC-61 24 g

H. HERMIT CRAB MINERAL BLOCKS

Mineral block with added food

- A specially made mineral and food block for the health of your Hermit Crabs.
- Great "time release" vacation food! Each block will feed one crab for up to 4 days.
- Enrichment fun! Your Hermit Crabs will sit on top of the banquet block for hours picking away the minerals and food.
- Made in the U.S.A.

Item# HC-62

I. HERMIT CRAB DRINKING WATER CONDITIONER

Makes tap water safe for crabs by removing chlorine and chloramines while adding beneficial electrolytes and calcium.

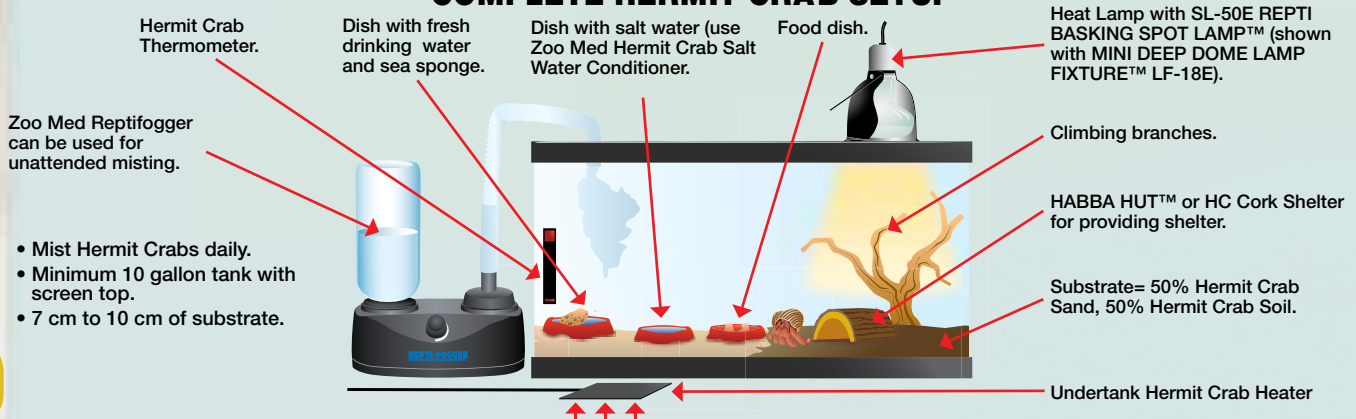

Item# HC-90

J. HERMIT CRAB SALT WATER CONDITIONER

Hermit crabs will benefit from a dish of salt water in addition to their fresh water supply. This conditioner adds natural sea salt as well as calcium in addition to removing chlorine and chloramines.

Item# HC-91

**HIGH
QUALITY
MADE IN
GERMANY**

ZOO MED'S T5 AQUARIUM LIGHTS OFFER HIGH PERFORMANCE AND HIGH QUALITY FOR BOTH FRESH AND SALTWATER AQUARIUMS.

- Distributes the light evenly across the water surface.
- Generates less heat compared to metal halide lamps.
- Higher lumen (light) output compared to T8, T12, and standard T5 aquarium lamps.
- Fits Zoo Med's new AquaSun T5 aquarium hoods.

NEW!

A. CORAL BLUE® T5 HO 460 NM

- A special 460 nm blend of phosphors that enhance the blue color spectrum in your aquarium.
- Ideally used in combination with Zoo Med's UltraSun trichromatic Super Daylight for amazing blue color of your fish, corals, and invertebrates.

Item#	CB5-24E	55 cm	24 Watt
Item#	CB5-39E	85 cm	39 Watt
Item#	CB5-54E	115 cm	54 Watt

B. CORAL SUN® T5 HO ACTINIC 420

- Promotes the growth of zooxanthellae algae, essential for the growth and well-being of all live corals and invertebrates.
- Combine with Zoo Med's OCEAN SUN® for a more subdued "deepwater" tank effect.
- Combine with Zoo Med's ULTRA SUN® for optimum viewing pleasure of live fish and corals.

Item#	CL5-24E	55 cm	24 Watt
Item#	CL5-39E	85 cm	39 Watt
Item#	CL5-54E	115 cm	54 Watt

C. FLORA SUN® T5 HO MAX PLANT GROWTH

- 5,000K High Intensity lamp to maximize the growth of live aquarium plants.
- Ideal for planted aquariums or terrariums.
- Long lasting: effective for up to 10,000 hours.
- Combine with Zoo Med's ULTRA SUN® for maximum full color viewing pleasure of your fish and plants.

Item#	FL5-24E	55 cm	24 Watt
Item#	FL5-39E	85 cm	39 Watt
Item#	FL5-54E	115 cm	54 Watt

D. OCEAN SUN® T5 HO 10,000K

- 10,000K High Intensity T5 HO lamp with strong emissions in the blue spectrum-simulating deeper ocean environments.
- Ideal for all marine aquariums, reef aquariums and fresh water aquariums where a deep water effect is desired.
- Combine with Zoo Med's CORAL SUN® for a more subdued "deepwater" tank effect.

Item#	OL5-24E	55 cm	24 Watt
Item#	OL5-39E	85 cm	39 Watt
Item#	OL5-54E	115 cm	54 Watt

E. ULTRA SUN® T5 HO SUPER DAYLIGHT

- 6,500K High Intensity super daylight lamp brings out the full colors of your fish, plants, corals and invertebrates.
- Ideal for all marine aquariums, reef tanks and fresh water aquariums where maximum daylight simulation is required.
- Combine with Zoo Med's CORAL SUN® for all live coral and invertebrate reef tanks.
- Combine with Zoo Med's FLORA SUN® for maximum plant growth and full color viewing of your fish and plants.

Item#	UL5-24E	55 cm	24 Watt
Item#	UL5-39E	85 cm	39 Watt
Item#	UL5-54E	115 cm	54 Watt

NEW!

All lamps are energy efficient T-8 size with 10,000 hour European quality. Whatever type of aquarium you keep, Zoo Med has the correct lamp for your tank!

**NEW!****A. CORAL BLUE 460 NM®**

- A special 460 nm blend of phosphors that enhance the blue color spectrum in your aquarium.
- Ideally used in combination with Zoo Med's UltraSun trichromatic Super Daylight for amazing blue color of your fish, corals, and invertebrates.
- High quality T8 lamp manufactured in Germany.

Item# CB-18E	457 mm	15 Watt
Item# CB-24E	610 mm	17 Watt
Item# CB-36E	914 mm	25 Watt
Item# CB-48E	1219 mm	32 Watt

B. TROPIC SUN®

A 5500K lamp that is ideal for freshwater fish and live plants. The TROPIC SUN® is a full spectrum daylight lamp, which simulates natural sunlight for optimum aquarium viewing.

Item# TL-15E	381 mm	14 Watt
Item# TL-18E	457 mm	15 Watt
Item# TL-24E	610 mm	17 Watt
Item# TL-36E	914 mm	25 Watt
Item# TL-48E	1219 mm	32 Watt

C. ULTRA SUN®

The ULTRA SUN® is a 6500K high intensity trichromatic full spectrum daylight lamp. With a CRI rating of 98, it provides excellent color rendition for optimum viewing of your freshwater or marine fish and live corals with a balanced full spectrum of visible light and UVA.

Item# UL-15E	381 mm	14 Watt
Item# UL-18E	457 mm	15 Watt
Item# UL-24E	610 mm	17 Watt
Item# UL-36E	914 mm	25 Watt
Item# UL-48E	1219 mm	32 Watt

D. FLORA SUN®

This high intensity lamp with peak emissions in the blue and red regions serves to maximize the photobiological processes in plants. The emission spectrum closely resembles the absorption curve of chlorophyll-A, promoting maximum photosynthesis, ideal for planted aquariums, or terrariums. Also great for shy fish species such as Dwarf Cichlids, Discus, etc.

Item# FL-18E	457 mm	15 Watt
Item# FL-24E	610 mm	17 Watt
Item# FL-36E	914 mm	25 Watts
Item# FL-48E	1219 mm	32 Watt

E. CORAL SUN®

CORAL SUN® is a high intensity actinic lamp with strong emissions in the short wavelength region of the spectrum, peaking at 420 nm. It promotes growth of zooxanthellae algae, essential for the growth and well being of all photosynthetic corals and invertebrates. This lamp simulates the short wavelength blue light which penetrates to reef depth in nature.

Item# CL-15E	381 mm	14 Watt
Item# CL-18E	457 mm	15 Watt
Item# CL-24E	610 mm	17 Watt
Item# CL-36E	914 mm	25 Watt
Item# CL-48E	1219 mm	32 Watt

F. OCEAN SUN®

The OCEAN SUN® is a 10,000k high intensity lamp which creates a beautiful "deep ocean" effect in your marine or freshwater aquarium. This emission spectrum, strong in the blue regions, makes this lamp ideal for all marine, and freshwater aquariums where a deep water effect is desired.

Item# OL-15E	381 mm	14 Watt
Item# OL-18E	457 mm	15 Watt
Item# OL-24E	610 mm	17 Watt
Item# OL-36E	914 mm	25 Watt
Item# OL-48E	1219 mm	32 Watt

G. REEF SUN®

Our REEF SUN® lamp has a 50/50 combination of 6500K trichromatic daylight phosphor and actinic 420 phosphor in the same lamp. It provides high intensity full spectrum illumination, strong in the short wavelength blue region essential for photosynthetic corals and invertebrates.

Item# RL-15E	381 mm	14 Watt
Item# RL-18E	457 mm	15 Watt
Item# RL-24E	610 mm	17 Watt
Item# RL-36E	914 mm	25 Watt
Item# RL-48E	1219 mm	32 Watt

A. AQUA COOL

Aquarium Cooling Fan

- Low voltage (12 V) for maximum safety when used near a wet environment.
- Better than overhead fans: Side-mounted fan assembly to minimize water splash on the motor and to prevent accidental immersion.
- Multi directional discharge nozzle for precise air flow focus.
- Fully adjustable, wide discharge nozzle for maximum cooling due to increased air/water contact.

Cools aquarium by one of the following methods:

- Direct the nozzle upwards toward the aquarium lamp fixture to dissipate some of the radiant heat generated by your aquarium lamps.
- Direct the nozzle so that air flows over the surface of the water. This will reduce the water temperature through increased evaporative cooling.

Item# AA-13E

B. MAG CLIP®

- Industrial strength MAGNETIC suction cup with Interchangeable clips.
- Great for holding down aquarium heaters, filter intake or out-take tubes and airline tubing.
- Never replace your suction cups again!
- Patented.

Item# MS-1E

C. AQUASWEEP™

Connect to Canister Filter Outlet for Strong Wave Action!

Connect the AquaSweep™ Filter Attachment to your canister filter outlet hose for strong wave action in your aquarium. Can also be connected to an aquarium pump/powerhead instead of a canister filter.

- For fresh or salt water use.

Item# PS-50

D. DIGITAL NANO THERMOMETER

For fresh or saltwater nano tanks.

- Easy to read digital aquarium thermometer.
- Waterproof: Completely submersible.
- Wide temperature operating range.
- Extra battery included.

Item# TH-29E

E. DIGITAL AQUARIUM THERMOMETER

- Easy to read digital aquarium thermometer.
- Waterproof: Completely submersible.
- Wide temperature operating range.
- Safe for fresh or marine aquariums.
