

Chic · Light · Fun

## Appealing Design

The sleek, classic appearance and colourful choices of watch faces make Ticwatch 2 truly a smart choice.

## Keep It Light

Coming with a light-weight and liquid silicon strap, Ticwatch 2 doesn't weigh you down when you need to lift up.

## RUN OUTSIDE

## LEAVE YOUR PHONE AT HOME

## Never Lose Track

The built-in GPS helps you track steps and locations during workout while the built-in sports apps allow you to check your movement track in real time.

## Music On Device

Store your favourite song tracks on the Ticwatch. Go out, get pumped without the phone!

## Your Daily Health Reminder

Every step counts, every heartbeat sounds. With the heart rate monitor, pedometer, and stand-up reminder, Ticwatch 2 helps you keep up with your health routine.

# SLEEK DESIGN FOR EVERY OCCASION

## A Watch Should Look Like A Watch

Using a traditional circular watch face, the design of Ticwatch 2 adopts a Scandinavian design philosophy that perfectly combines simplicity, quality with craftsmanship. The ambient mode allows you to check time anywhere anytime. Stay low key and smart.

## Different Watchfaces for Different Occasions

From official customised watch faces to downloadable ones from the cloud, we offer unique designs that prepares you in any special occasion.

## Never Miss What Matters

Our user-friendly Timeline feature acts like your notification assistant that helps you stay connected wherever you go.

## Hands Free Calls On Route.

Just flip your wrist to answer or hang up a phone call when you drive. Play phone calls out loud with built-in speaker.

## A Swipe Away From All The Info You Need.

Swipe down to show quick cards that give instant and seamless access to various information like weather, news, music and things you need everyday.

STAY CONNECTED,  
STAY SIMPLE

## GPS Tracking

Ticwatch uses built-in GPS to track your speed, distance and GPS location that allows you to work out outside without the phone.

## Heart Rate Monitor

Dynamic heart rate sensor helps track and update your heart rate data in real time.

## Notification

Allow you to check calls, texts, email notifications, and calendar alerts on the wrist. Reply with voice commands for Android users only.

## Colourful Choices

Preload watch faces and countless more unique third-party designs from the Mobvoi Store.

## ticwear OS Self-developed Ticwear OS Interface

Multiple and intuitive interactions including voice command, touch control, side strip, flip and knock, and palm. The Ticwear OS enables smooth navigation based on your needs such as notification, quick cards, the app list, music control, voice search and a lot more.

## Always on Display

The power-reserve mode allows you to check time through a simple glance without costing too much battery.

## Built-in Speaker

Play phone calls out with Ticwatch 2. Tico now can respond to you with its own voice.

## Battery Life

Under moderate usage, Ticwatch 2 is able last between 1.5 to 2 days.
