

Additional Information

NOTE: This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

Any modifications to this device not expressly approved by the party responsible for FCC related compliance testing could void the user's authority to operate the system.

The FCC equipment authorizations has been granted for a system comprised of the following components:

MVI-D2-2HRX Controller
MVH2000-F15 Antenna
MVC-60-xxxK Data Carrier

Connection between the MVI-D2-2HRX and the MVH2000-F15 is established via the connection cable that is an integral part of the Antenna. If longer distances are to be covered the shielded cables must be used.

Pepperl+Fuchs strongly suggest using the accessory cables MVK-xx.
