# 1 Important safety information

## General maintenance

The translation of this document is for reference only.

In the event of any inconsistency between the English version and the translated version, the English version shall prevail.

#### Caution

- · To avoid damage or malfunction:
- Do not expose the product to excessive heat caused by heating equipment or direct sunlight.
- Do not drop the product or allow objects to fall on your player.
- Do not allow the product to be submerged in water. Do not expose headphone socket or battery compartment to water, as water entering the set may cause major damage.
- Active mobile phones in the vicinity may cause interference.
- Back up your files. Ensure that you retain the original files you have downloaded to your device. Philips is not responsible for any loss of data if the product becomes damaged or not readable / legible.
- Manage (transfer, delete, etc.) your music files only with the supplied music software to avoid problems.
- Do not use any cleaning agents containing alcohol, ammonia, benzene, or abrasives as these may harm the product.
- Batteries (battery pack or batteries installed) shall not be exposed to excessive heat such as sunshine, fire or the like.
- Danger of explosion if battery is incorrectly replaced.
   Replace only with the same or equivalent type.

#### About operating and storage temperatures

- Operate in a place where temperature is always between 0 and 40°C (32 to 104°F)
- Store in a place where temperature is always between -20 and 45°C (-4 to 113°F).

 Battery life may be shortened in low temperature conditions.

#### Replacement parts/accessories:

Visit www.philips.com/support to order replacement parts/accessories.

## Hearing Safety

#### Listen at a moderate volume:

Using headphones at a high volume can impair your hearing. This product can produce sounds in decibel ranges that may cause hearing loss for a normal person, even for exposure less than a minute. The higher decibel ranges are offered for those that may have already experienced some hearing loss.

Sound can be deceiving. Over time your hearing 'comfort level' adapts to higher volumes of sound. So after prolonged listening, what sounds 'normal' can actually be loud and harmful to your hearing. To guard against this, set your volume to a safe level before your hearing adapts and leave it there.

To establish a safe volume level:

Set your volume control at a low setting. Slowly increase the sound until you can hear it comfortably and clearly, without distortion.

Listen for reasonable periods of time:

Prolonged exposure to sound, even at normally 'safe' levels, can also cause hearing loss.

Be sure to use your equipment reasonably and take appropriate breaks.

Be sure to observe the following guidelines when using your headphones.

Listen at reasonable volumes for reasonable periods of time.

Be careful not to adjust the volume as your hearing adapts.

Do not turn up the volume so high that you can't hear what's around you.

You should use caution or temporarily discontinue use in potentially hazardous situations.

Do not use headphones while operating a motorized vehicle, cycling, skateboarding, etc.; it may create a traffic hazard and is illegal in many areas.

#### **Modifications**

Modifications not authorized by the manufacturer may void user's authority to operate the product.

#### Copyright information

All other brands and product names are trademarks of their respective companies or organizations.

Unauthorized duplication of any recordings whether downloaded from the Internet or made from audio CDs is a violation of copyright laws and international treaties.

The making of unauthorized copies of copyprotected material, including computer programs, files, broadcasts and sound recordings, may be an infringement of copyrights and constitute a criminal offense. This equipment should not be used for such purposes.

The Windows Media and the Windows logo are registered trademarks of Microsoft Corporation in the United States and/or other countries.

#### Be responsible! Respect copyrights.

Philips respects the intellectual property of others, and we ask our users to do the same. Multimedia content on the internet may have been created and/or distributed without the original copyright owner's authorization. Copying or distributing unauthorized content may violate copyright laws in various countries including yours.

Compliance with copyright laws remains your responsibility.

The recording and transfer to the portable player of video streams downloaded to your

computer is intended only for use with public domain or properly licensed content. You may only use such content for your private, non-commercial use and shall respect eventual copyright instructions provided by the copyright owner of the work. Such instruction may state that no further copies shall be made. Video streams may include copy protection technology that prohibits further copying. For such situations the recording function will not work and you will be notified with a message.

#### Data logging

Philips is committed to improving the quality of your product and enhancing the Philips user experience. To understand the usage profile of this device, this device logs some info / data to the non-volatile memory region of the device. These data are used to identify and detect any failures or problems you as a user may experience while using the device. The data stored, for example, will be the duration of playback in music mode, duration of playback in turner mode, how many times battery low was encountered, etc. The data stored do not reveal the content or media used on the device or the source of downloads. The data stored on the device are retrieved and used ONLY if the user returns the device to the Philips service center and ONLY to simplify error detection and prevention. The data stored shall be made available to user on user's first request.

## Monkey's Audio decoder

- (1) The Monkey's Audio SDK and source code can be freely used to add APE format playback, encoding, or tagging support to any product, free or commercial. Use of the code for proprietary efforts that don't support the official APE format require written consent of the author.
- (2) Monkey's Audio source can be included in GPL and open-source software, although Monkey's Audio itself will not be subjected to external licensing

requirements or other viral source restrictions.

- 3 Code changes and improvements must be contributed back to the Monkey's Audio project free from restrictions or royalties, unless exempted by express written consent of the author.
- 4 Any source code, ideas, or libraries used must be plainly acknowledged in the software using the code.
- (5) Although the software has been tested thoroughly, the author is in no way responsible for damages due to bugs or misuse.

If you do not completely agree with all of the previous stipulations, you must cease using this source code and remove it from your storage device.

# Recycling the product and the built-in battery

Your product is designed and manufactured with high quality materials and components, which can be recycled and reused.

Never dispose of your product with other household waste. Please inform yourself about the local rules on the separate collection of electrical and electronic products and batteries. The correct disposal of these products helps prevent potentially negative consequences on the environment and human health.

Please visit www.recycle.philips.com for additional information on a recycling center in your area.

#### Caution

 Removal of the built-in battery invalidates the warranty and can destroy the product.

#### AZURE

#### **Philips**

#### Notice for the USA

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The set complies with the FCC-Rules, Part-15. Operation is subject to the following two conditions:

 This device may not cause harmful interference, and

- This device must accept any interference received, including interference that may cause undesired operation.
- Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

#### Notice for Canada

This Class B digital apparatus complies with Canadian ICES-003.

This device complies with Industry Canada licence-exempt RSS standard(s): Operation is subject to the following Two conditions:(1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Cet appareil s'accorde avec Industrie Canada licence-exempte RSS standard. (1) cet appareil ne peut pas causer l'intervention, et (2) cet appareil doit accepter de l'intervention, y compris l'intervention qui peut causer l'opération non désirée de.

Cet appareil numérique de la classe B est conforme à la norme canadienne ICES-003.

## **★** [Settings]

customize the settings of AZURE

## Navigate from the Home screen

- From the Home screen, you can access functional menus by pressing the navigation buttons ™ / ™ / ™ and ►II.
- To go back to to previous screens, press srepeatedly.

# Switch between the Home screen and play screen

On the Home screen,

During music play or radio play,

 Press = and select [Now playing] or [Last played].

#### On the play screen,

Press 
 repeatedly.

#### Select a theme

To select a theme for the display,

## Lock/unlock the keys

When the player is on, use the lock to prevent accidental operation.

- Press and hold ∅ / € to lock or unlock the keys.
  - → All buttons except the volume keys are locked and a lock icon is displayed.

#### Screen on/off

To save power, the screen switches off automatically after the pre-defined time duration if

- · no new action is taken on AZURE; and
- a value is selected in \* > [Display settings] > [Backlight timer].

#### To exit the power-saving mode

Press any key.

## Sound settings

From the Home screen, go to **[Sound]** to select your sound settings:

• Alternatively, on the music play screen, press ≡ > [Sound settings].

## MySound or [Equalizer]

• Defines sound settings as desired. In MySound, press № / № / № and ► II to select your option.

## [FullSound]

• Restores the sonic details that music compression loses (e.g. MP3, WMA).

## Get started

## Charge power

AZURE has a built-in battery that can be charged through the USB port of a computer. Connect AZURE to a PC by using the USB cable.

- · When you connect AZURE to a computer, you are briefly prompted to select: [Charge & transfer] or [Charge & play]. If no option is selected, [Charge & transfer] applies.
- · To play AZURE when you charge power, select [Charge & play].

## Battery level indication

- When the battery is low, the low battery screen is displayed repeatedly.
- When the charging process is complete, 2 is displayed.

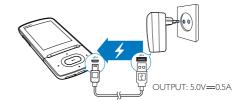

#### Note

· Rechargeable batteries have a limited number of charge cycles. Battery life and number of charge cycles vary by use and settings.

## Charge through a USB AC/DC adapter

To charge AZURE through a USB AC/DC adapter (not supplied), make sure that the power output is 5.0 V and 0.5A.

## Switch the player on or off

Press and hold ७ / € until the player is switched on or off.

## Automatic standby and shut-down

The player has an automatic standby and shutdown feature that can save battery power. After 5 minutes in idle mode (no play, no button is pressed), the player switches off.

## 4 Music

## Transfer music to the player

You can transfer music from your PC media library to **AZURE** in the following ways:

- Drag and drop music files in Windows Explorer.
  - By doing so, you can organize your music collection by file folder.
- Sync through Songbird.
   With the media management software, you can access online music stores, create playlists, or edit your music collection by song information. Download Songbirdwww.philips.com/songbird.

To drag and drop music files in Windows Explorer,

- 1 Connect AZURE to a PC.
- 2 On the PC, under My Computer or Computer,
  - select AZURE, and create file folders.
- 3 On the PC, drag and drop music files to the file folders on AZURE.
  - Alternatively, drag and drop file folders from the PC to AZURE.

## Find music on the player

After you sync the player with your PC media library, find the music on the player.

## Find music by song information

With Bluetooth enabled on **AZURE**, you can listen to music through Bluetooth headphones or speakers.

- 1 Switch on Bluetooth on **AZURE** and the Bluetooth device.
  - on AZURE, press and hold ¾ / ≡;
  - Alternatively, on the music play screen, press \* / ≡ > [Play via Bluetooth].
     Select [Bluetooth On/Off] > [On].
    - \* is displayed on the upper right corner.
- 2 On AZURE, search for and connect to the Bluetooth device:
  - ① On the music play screen, press \* / ≡ > [Play via Bluetooth] > [Connect to].
    - → You can find a list of available Bluetooth devices or previously paired devices.
  - 2) Select a device to start pairing and connection.
    - When connection is complete, \$ changes to \$.

- → You can listen to music through Bluetooth.
- Next time you switch on Bluetooth,
   AZURE connects to the last paired device automatically.
- To pair with and connect to another Bluetooth device, select [Other device] on the [Connect to...] screen.

## Videos

## Transfer videos to the player

You can transfer videos to the player in two ways:

- Transfer through Philips Media Converter:
  - With the video converter software. you can convert videos to the file type that is supported on the player, and transfer the converted files to the player.
- Drag and drop video files (.AMV files) in Windows Explorer. By doing so, you can organize your video collection by file folder.

## Install Philips Media Converter

- Connect AZURE to a PC.
- On the PC, select My Computer (Windows XP / Windows 2000) / Computer (Windows Vista / Windows 7 /8).
- Click the Philips GoGear AZURE icon. Double-click the PMCsetup.exe.
- Follow the onscreen instructions to complete the installation of the software.

• You can also get the Philips Media Converter software from www.philips.com/support.

## Use Philips Media Converter

- On your PC, launch Philips Media Converter.
- Connect the player to the PC by using the USB cable.
  - Wait until the player is recognized by Philips Media Converter.

- In Philips Media Converter, add videos from your PC library:
  - Click .
    - → The video is added to the list of files for conversion and transfer.
  - To remove a video from the list of files. click 🔳
- In Philips Media Converter, start the file conversion and transfer:
  - Click @.

## Find videos on the player

To find videos by file name,

- Go to ■.
  - → Videos are listed by file name.

To find videos by file folder,

- Go to ■.
  - → Videos are organized by file folder as on the PC.

## Play videos

- Select a video.
- Press ►II to start play.
  - → The video plays in the landscape view.

On the play screen,

• Press ►II to pause and resume play.

To select a video file on the play screen,

Repeatedly press • / • ...

To rewind or fast forward within current video.

• On the play screen, press and hold 🛂 / 🗈.

## Delete videos from the player

- 1 Select or play a video.
- 2 On the list of videos or play screen,
  - press = and select [Delete video].
    - → A confirmation message is displayed.
- 3 Select [Yes] to delete the video.
  - → Current video is deleted from the player.

## 7 Pictures

## Add pictures to the player

- 1 Connect AZURE to a computer.
- 2 On the PC, under My Computer or Computer,
  - select AZURE, and create file folders.
- 3 On the PC, drag and drop files to the file folders on AZURE.
  - Alternatively, drag and drop file folders from the PC to AZURE.

## Find pictures on the player

- Go to ℚ
  - → The thumbnails of pictures are listed.

#### To find pictures by file folder,

- Go to ■.
  - → Pictures are organized by file folder as on the PC.

## View pictures

- Select a picture. Press ►II to view the picture.
  - The picture is displayed in the landscape view.

#### On the play screen,

Press !! / !! to select a picture.

#### Start a slideshow

- On the play screen, press ►II to start a slideshow.
  - → Pictures play one by one.

## Select play options

On the play screen, press  $\equiv$  to select play options:

[Brightness]	Select the brightness of the	
	screen.	
[Backlight	Select a value. After the selected	
timer]	time duration, the screen	
	switches off automatically.	

In [Slideshow settings], select your options for slideshow:

[Time per Select the time interval between	
slide]	two slides.
[Repeat]	Play pictures repeatedly.
[Shuffle]	Play pictures in random order.

# Delete pictures from the player

- 1 Select or play a picture.
- 2 On the list of pictures or play screen,
  - press = and select [Delete picture].
    - → Current picture is deleted from the player.

## FM radio

· Plug in the supplied earphones when you tune in to radio stations. The earphones double as antenna. For better reception, move the earphone cable in different directions.

## Tune in to radio stations

#### Auto tune

The first time you tune in to the radio, start Auto tune to search for stations.

- From the Home screen, go to ≥ | Auto tune].
  - → Up to 20 stations are stored as presets.
- Press or repeatedly to select a preset station. Press ►II to start play.

To select a preset on the play screen,

Press or repeatedly.

• When you move to a new place (such as a new city or country), restart auto tune for better reception.

#### Manual tune

Use Manual tune to search for a frequency or station.

- 1 From the Home screen, go to ≥> [Manual tune].
  - → The last played station starts to play.

- On the play screen, press and hold or
  - → You tune in to the next station from current frequency.
  - For fine tuning, press or repeatedly.

## Store preset stations

On AZURE, you can store up to 20 preset stations.

- Tune in to a radio station.
- On the play screen, press = and select [Save to preset].
- Press or to select a location in the list of presets. Press ►II.
  - → A confirmation message is displayed.
- Select [Yes] to confirm.
  - → Current station is saved to the location.

#### To remove a preset station,

- On the play screen or in the list of presets, press = and select [Clear preset].
  - → In the list of presets, current station is selected.
- Press or to select a station.
- Press >II. Select [Yes].
  - → The selected station is removed from the list of presets.

## To remove all preset stations,

- On the list of presets, press => [Clear all presets].
- Select [Yes].
  - → All the stations are removed from the list of presets.

## Listen to the FM radio

- Go to  $\ge$  > [Presets].
- Press or to select a preset station. Press II to start play.

- On the play screen, press or to select a preset.
- Press **5** to select another preset station from **[Presets]**. Press **▶II** to start play.

## 9 Text reader

You can read text files (.txt files) on the player.

## Add text files to the player

- 1 Connect AZURE to a computer.
- 2 On the PC, under My Computer or Computer,

## [File type supported]

[Music]	supported types of music files
[Pictures]	supported types of picture files
[Videos]	supported types of video files

## Format device

Format the player. You remove all the data that are stored on the player.

• Select [Format device], and then, select [Yes] as prompted.

# 14 Update the firmware through Philips Device Manager

## Install Philips Device Manager

- 1 Connect AZURE to a PC.
- 2 On the PC, select My Computer (Windows XP / Windows 2000) / Computer (Windows Vista / Windows 7 / 8).
- 3 Right click on the Philips GoGear AZURE icon. Select Install Philips Device Manager.
  - Alternatively, click the Philips GoGear AZURE icon. Double-click the installer. exe.
- 4 Follow the onscreen instructions to complete the installation of the software.

#### Check for firmware updates

- Make sure that you have connected your PC to the Internet.
- 2 Launch Philips Device Manager.
  - → A dialog box is displayed.
- 3 Connect AZURE to your PC.
  - When the device is connected, "SA5AZUX" is displayed on the text box.

→ You can find current firmware version of the device.

- 4 To check for firmware updates,
  - 1 Close the dialog box of Philips Device Manager.
  - 2 At the base of the PC screen, right click and select Check for updates.

→ Philips SA5AZUXX Device Manager checks for updates from the Internet.

## Update the firmware

- When the firmware update is available, follow the onscreen instructions to download and install the firmware.
- 2 Disconnect AZURE from the PC.

→ AZURE restarts after the firmware is updated and is ready for use again,

## 15 Troubleshooting

If **AZURE** is not working properly or the display freezes, you can reset it without losing data:

#### How do I reset AZURE?

- Insert a pen tip or other object into the reset hole on AZURE. Hold until the player shuts down.
- If the reset option is unsuccessful, recover AZURE through Philips Device Manager:
- On your PC, launch Philips Device Manager.
- 2 Enter the recovery mode:
  - (1) Switch off AZURE.
  - 2 Press and hold the volume up button, and then, connect AZURE to your PC.
  - (3) Keep holding the button until Philips Device Manager recognizes AZURE and enters the recovery mode.
- 3 Start the recovery process:
  - 1 On Philips Device Manager, click the Repair button. Follow the onscreen instructions to complete the recovery process.
  - When the recovery is completed, disconnect AZURE from your PC.
- 4 Restart AZURE.
