1 Important

Hearing Safety

4 Danger

• To avoid hearing damage, limit the time you use the headphones at high volume and set the volume to a safe level. The louder the volume, the shorter is the safe listening time.

Be sure to observe the following guidelines when using your headphones.

- Listen at reasonable volumes for reasonable periods of time.
- Be careful not to adjust the volume continuously upwards as your hearing adapts.
- Do not turn up the volume so high that you can't hear what's around you.
- You should use caution or temporarily discontinue use in potentially hazardous situations.
- Excessive sound pressure from earphones and headphones can cause hearing loss.
- Using this headset with both ears covered while driving is not recommended and may be illegal in some areas while driving.
- For your safety, avoid distractions from music or phone calls while in traffic or other potentially dangerous environments.

Electric-, Magnetic- and Electromagnetic Fields (EMF)

- Royal Philips Electronics manufactures and sells many products targeted at consumers, which, like any electronic apparatus, in general have the ability to emit and receive electromagnetic signals.
- 2. One of Philips' leading Business Principles is to take all necessary health and safety measures for our products, to comply with all applicable legal requirements and to stay well within the EMF standards applicable at the time of producing products.
- 3. Philips is committed to develop, produce and market products that cause no adverse health effects.
- 4. Philips confirms that if its products are handled properly for their intended use, they are safe to use according to scientific evidence available today.
- Philips plays an active role in the development of international EMF and safety standards, enabling Philips to anticipate further developments in standardization for early integration in its products.

General information

To avoid damage or malfunction:

- Do not expose the headset to excessive heat.
- Do not drop your headset.
- The headset can be washable under running water while the USB charging cable or USB power adaptor shall not be exposed to dripping or splashing.
- Do not allow your headset to be submerged in water.
- Do not use any cleaning agents containing alcohol, ammonia, benzene, or abrasives.
- The main plug of AC/DC adaptor is used as the disconnect device, the disconnect device shall be readily operable.

About operating and storage temperatures

- Do not operate or store in a place where temperature is below -15°C (5°F) or above 55°C (131°F) as this may shorten your battery life.
- The integrated battery shall not be exposed to excessive heat such as sunshine, fire or the like.
- Ensure that there is no foreign objects inside the USB cover and close the cover tightly.

Disposal of your old product

Your product is designed and manufactured with high quality materials and components, which can be recycled and reused.

When this crossed-out wheeled bin symbol is attached to a product it means that the product is covered by the European Directive 2002/96/EC.

Please inform yourself about the local separate collection system for electrical and electronic products.

Please act according to your local rules and do not dispose of your old products with your normal household waste. Correct disposal of your old product helps to prevent potential negative consequences for the environment and human health.

Battery disposal

Your product contains batteries covered by the European Directive 2006/66/EC, which cannot be disposed of with normal household waste.

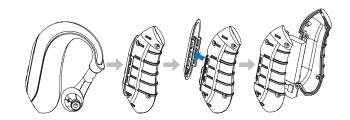

Please inform yourself about the local rules on separate collection of batteries. The correct disposal of batteries helps prevent potentially negative consequences on the environment and human health.

Remove the integrated battery

Warning

• Make sure the headset is disconnected from the USB charging cable before removing the battery.

If there is no collection/recycling system for electronic products in your country, you can protect the environment by removing and recycling the battery before disposing the headset.

Notice for USA (FCC)

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Relocate the receiving antenna.
- Increase the separation between equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning

• Changes or modifications made to this equipment not expressly approved by Philips may void the FCC authorization to operate this equipment.

Note

- FCC/IC Radiation Exposure Statement: This equipment complies with FCC/IC radiation exposure limits set forth for an uncontrolled environment. End users must follow the specific operating instructions for satisfying RF exposure compliance.
- This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Introduction

With the Philips Bluetooth stereo headset SHB6000, you can enjoy convenient wireless hands-free call. Ergonomically designed soft ear bud provides all-day wearing comfort. You can simply recharge your headset on your computer or with a USB charger:

Spend a few minutes to learn more about your headset to enjoy your Philips Bluetooth stereo headset to its fullest.

What's in the box

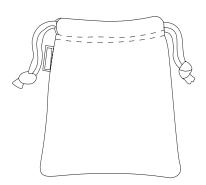

Check and identify the contents of your package:

Exchangeable rubber ear caps

• Quick start guide

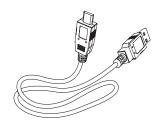

• Pouch

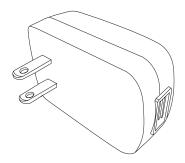

Compatibility

Your headset is compatible with Bluetooth enabled mobile phones. It features Bluetooth version 2.1+EDR. It also works with devices featuring other Bluetooth versions that support the Headset profile (HSP), Hands-free profile (HFP) and Audio/Video remote control profile (AVRCP).

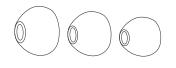

USB charging cable

USB adaptor

Overview of your Bluetooth stereo headset

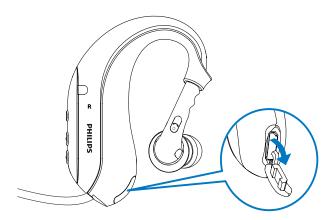

Get started 3

Charge the headset

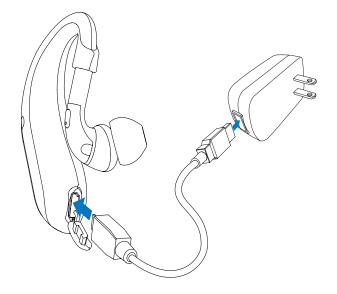

Warning

- Before you use your headset for the first time, charge the battery for four hours for optimum battery capacity and lifetime. Use only the original USB charging cable to avoid any damage. Finish your call before charging the headset, as connecting the headset for
- charging will power off the unit.
- You can operate the headset normally during charge.

1 Remove the USB cap.

- 2 Plug the headset into the USB adaptor with USB charging cable.
 - → LED turns red during charge and turns off when the headset is fully charged.

* Tip

• Typically, a full charge takes two hours.

Pair the headset with your mobile phone

Before you use the headset with a mobile phone for the first time, pair it with the mobile phone. A successful pairing establishes a unique encrypted link between the headset and the mobile phone. The headset stores the last eight links in the memory. If you try to pair more than eight devices, the link for the earliest paired device is overwritten.

- 1 Ensure that the mobile phone is turned on and its Bluetooth feature is activated.
- 2 Ensure that the headset is charged and turned off.
- 3 Press **(** until the LED starts flashing **red** and **blue** alternately. Do not stop pressing the button after seeing the blue LED only.
 - → The headset is in pairing mode, which lasts five minutes.
- 4 Pair the headset with the mobile phone. For details, refer to the user manual of the mobile phone.

A sample pairing is shown below.

- 1 Under Bluetooth menu on the mobile phone, search for the headset.
- 2 On mobile phones using Bluetooth 2.1+EDR or higher, you do not need to enter a pass code.
- 3 From the found devices, select Philips SHB6000.
 - Enter "0000" (4 zeros), if prompted to enter the pin code of the headset.

4 Use the headset

Connect the headset to your mobile phone

- 1 With the mobile phone turned on, press *c* until the LED lights up, to turn on the headset.
 - → Once turned on, the headset reconnects automatically to the last device it was connected to.
 - ➡ If the last connected device is not available, the headset tries to reconnect to the second to last device that was connected to the headset. If it cannot find this device, it will look for all previously paired devices in the order of last usage, until it finds a device to connect to. The headset stores up to eight previously paired devices.

🔆 Тір

 If you turn on the mobile phone or its Bluetooth feature after turning on the headset, connect the headset from the Bluetooth menu of your mobile phone.

Automatic power saving

If the headset cannot find any Bluetooth device to connect to in range within five minutes, it automatically powers down to save battery life.

Get the best fit

- 1 Choose the earbuds that best fit for your ear canal.
- 2 Gently blend the ear hook to fit into your ears.
- **3** Adjust the rubber part of the ear hook to the height that you feel fit.
- **4** Twist the earbuds to the right position for best fit and noise isolation.

Operate the headset

Enter pairing mode	Ensure the headset is off. Press (until LED starts blinking red/blue alternately.
Check battery	When first use: Hold $ au$ for 2 seconds. During operation: Hold VOL + and VOL - simultaneously. >50%: 1 blue flash >25%: 2 red flash <25%: 3 red flash
Turn headset on/off	Hold \land until LED turns on/off.
Play/Pause music	Tap 🕻
Stop music	Hold (
Next / Previous track	Tap 🛣 / 💌
