For your first time use:

1. Manually pair your headphone.
2. Make sure the headphone is fully charged. (Approximately 5 hours)
3. Enable Bluetooth on your device and keep open on screen.
4. Press and hold the Call/Music button until the blue and white LED is flashing alternatively.
5. Your device should start searching for Philips SHB8000.
6. Follow the on screen instructions to pair your device. (Check your phones' user manual for details).

Please refer to [www.philips.com/welcome](http://www.philips.com/welcome) for the full user manual

'0000' not required for some mobile phones
