Seastán Teilifíse agus Gléasadh Balla

Seastán teilifíse

Is féidir leat na treoracha chun an seastán teilifíse a ghléasadh a fháil sa Treoir Mhearthosaithe a tháinig leis an teilifís. Is féidir leat an treoir seo a íoslódáil ó www.philips.com sa chás gur chaill tú í.

Úsáid uimhir chineáil táirge na teilifíse chun cuardach a dhéanamh don Treoir Mearthosaithe atá le híoslódáil.

Gléasadh Balla

Tá do theilifís ullamh freisin do bhrac ghléasadh balla atá oiriúnach le VESA (díoltar as féin é).

Bain úsáid as an gcód VESA seo a leanas nuair atá an gléasadh balla á cheannach agat . . .

• 55POS9002

VESA MIS-F 300x300, M6

Ullmhúchán

Bain na 4 scriú chlaibín plaisteacha amach as na boisc shnáithithe ar chúl na teilifíse.

Cinntigh go dtéann na scriúnná miotail thart ar 10mm isteach i mboisc shnáithithe na teilifíse chun an teilifís a ghléasadh ar an mbrac atá oiriúnach le VESA.

Rabhadh

Teastaíonn scileanna sainiúla chun an teilifís a ghléasadh ar an mballa agus ní ceart d'aon duine ach pearsanra atá cáilithe tabhairt faoi. Ba cheart go gcomhlíonfadh gléasadh balla na teilifíse caighdeáin sábháilteachta atá bunaithe ar mheáchan na teilifís.

Léigh na réamhchúraim sábháilteachta freisin sula suífidh tú an teilifís.

Ní ghlacann TP Vision Europe B.V. le haon fhreagracht as gléasadh míchuí ná aon ghléasadh a mbeidh tionóisc nó gortú mar thoradh air.

Leideanna maidir le Láithriú

- Cuir an teilifís in áit nach bhfuil solas ag lonrú go díreach ar an scáileán.
- Ísligh an solas sa seomra chun na dálaí is fearr a fháil don éifeacht Ambilight.
- Socraigh an teilifís suas le 15 cm ón mballa.
- Is é an t-achar is fearr le bheith ag féachaint ar an teilifís uaidh ná trí oiread méid fhiarthrasna an scáileáin. Nuair atá tú i do shuí, ba cheart go mbeadh do shúile ar an leibhéal céanna le lár an scáileáin.

1.4

Cábla Cumhachta

- Cuir isteach an cábla cumhachta sa nascóir **POWER** ar chúl na teilifíse.
- Bí cinnte go bhfuil an cábla cumhachta curtha isteach go daingean sa nascóir.
- Bí cinnte gur féidir leat rochtain a fháil i gcónaí ar an bpluga cumhachta sa soicéad balla.
- Nuair a díphlugáilann tú an cábla cumhachta, tarraing an pluga i gcónaí, ná tarraing an cábla go deo.

D'ainneoin go bhfuil tomhaltas cumhachta an-íseal ag an teilifís seo nuair atá sé ar fuireachas, bain amach an cábla cumhachta chun fuinneamh a shábháil mura mbeidh an teilifís in úsáid ar feadh tréimhse fada.

Chun tuilleadh eolais a fháil, i **Cabhair**, brúigh an eochair datha **— Eochairfhocail** agus déan cuardach do **Casadh air** chun tuilleadh eolais a fháil faoin gcaoi an teilifís a chasadh air agus as.

Cábla na hAeróige

Cuir isteach pluga na haeróige go daingean sa soicéad Aeróige ar chúl na teilifíse.

Is féidir leat d'aeróg féin a nascadh nó nasc a dhéanamh le comhartha aeróige ó chóras dailte aeróige. Úsáid nascóir aeróige IEC Coax 75 Ohm RF.

Úsáid an nasc aeróige seo do chomharthaí ionchuir DVB-T agus DVB-C.

Péireáil do Chianrialtán leis an teilifís

Baineann an cianrialtán seo úsáid as Bluetooth agus IR (infridhearg) araon chun a threoracha a sheoladh chuig an teilifís.

- Is féidir leat an cianrialtán seo a úsáid via IR (infridhreag) don chuid is mó d'oibríochtaí.
- Chun ardoibríocht cosúil le cuardach gutha agus méarchlár an cianrialtáin a úsáid, ní mór duit an teilifís a phéireáil (nascadh) leis an gcianrialtán.

Nuair a chuir tú tús le suiteáil bhunaidh na teilifíse, thug an teilifís cuireadh duit an eochair **PAIR** a bhrú, agus leis sin, rinneadh an phéireáil.

Tabhair faoi deara: Mura lainseálann an teilifís an réimse cuardaigh gutha nuair a bhrúnn tú **VOICE**, níor éirigh leis an bpéireáil.

Péireáil nó péireáil arís

Má tá an phéireáil leis an gcianrialtán imithe, is féidir leat an teilifís a phéireáil arís leis an gcianrialtán.

Díreach brúigh an eochair **PAIR** (thart ar 3 soicind) le haghaidh péireála.

Mar rogha air sin, téigh go dtí **📏** (roghchlár na teilifíse) > **⚙** Socruithe > **Gan sreang agus líonra** > **Cianrialtán** > **Péireáil cianrialtán**, ansin lean na treoracha ar an scáileán.

Taispeánfar teachtaireacht nuair a éiríonn leis an bpéireáil.

📏 (roghchlár teilifíse) > **⚙** Socruithe > **Gan sreang agus líonra** > **Cianrialtán** > **Faisnéis faoin mbogearraí reatha**

Comhuain is atá an cianrialtán péireáilte, is féidir leat leagan reatha na mbogearraí cianrialtáin a sheiceáil.

📏 (roghchlár teilifíse) > **⚙** Socruithe > **Gan sreang agus líonra** > **Cianrialtán** > **Nuashonraigh na bogearraí cianrialtáin**

Seiceáil bogearraí cianrialtáin reatha le haghaidh nuashonruithe.

2.3

Cuardach Gutha

Is féidir leat cuardach a dhéanamh d'fhíseáin ceol nó rud ar bith eile ar an Idirlíon díreach trí do ghuth a úsáid. Is féidir leat labhairt isteach sa mhicreafón ar an gcianrialtán.

Ní mór duit an cianrialtán a phéireáil leis an teilifís sula

n-úsáideann tú cuardach gutha.

Chun Guth a úsáid...

1 – Brúigh agus coinnigh síos  **VOICE** ar an gcianrialtán, lasfar an solas gorm ar an gcianrialtán agus osclóidh an réimse cuardaigh, tá an micreafón gníomhach.

2 – Labhair amach an rud atá uait go soiléir. Is féidir leat labhairt ar feadh 10 soicind sula gcasfar an micreafón as. D'fhéadfadh sé roinnt ama a thógáil sula dtaispeánfar na torthaí.

3 – Is féidir leat an rud atá uait a roghnú ó na torthaí ar an gcuardach.

Is féidir leat an teanga ar mhaith leat í a úsáid le hidirghníomhú gutha.

 (roghchlár teilifíse) >  Socruithe > Socruithe Android > Roghanna > Urlabhra

2.4

Braiteoir IR

Tá an teilifís in ann glacadh freisin le horduithe ó chianrialtán a úsáideann IR (infridhearg) chun orduithe a sheoladh. Má úsáideann tú a leithéid de chianrialtán, bí cinnte i gcónaí go bpointeálann tú an cianrialtán i dtreo braiteoir infridhearg an chianrialtáin ar aghaidh na teilifíse.

Rabhadh

Ná cuir aon rud os comhair braiteoir IR na teilifíse mar go bhféadfadh sé an comhartha IR a bhlocáil.

2.5

Ceallraí

Cuirfidh an teilfís ar an eolas tú nuair a bheidh cumhacht cheallraí an chianrialtáin íseal.

Chun na ceallraí a athsholáthar, oscail raca na gceallraí ar thaobh an mhéarchláir den chianrialtán.

1 – Úsáid bonn beag nó rud beag maol eile agus brúigh an cnaipe scaoilte, a bhfuil cruth cearnóige aige, chun clúdach na gceallraí a oscailt.

2 – Sleamhnaigh an ceallra i dtreo an lingéain miotail agus tarraing taobh eile an cheallra amach.

3 – Athsholáthar na seancheallraí le 2 cheallra alcaileacha den chineál **AAA-LR6-1.5V**. Bí cinnte go luífidh na deirí + agus – de na ceallraí isteach i gceart.

4 – Cuir doras na gceallraí ar ais agus brúigh síos é go dtí go gliceálann sé.

Bain amach na ceallraí mura mbeidh siad in úsáid agat ar feadh tréimhse fada.

Faigh réidh le do sheancheallraí de réir na dtreoracha a thugtar maidir le deireadh úsáide.

Chun tuilleadh eolais a fháil, in **Cabhair**,

roghnaigh **Eochairfhocail** **Deireadh Úsáide**.

2.6

Glanadh

Tá bratú scrabhadh-fhriotaíoch ar do chianrialtán.

Chun an cianrialtán a ghlanadh, úsáid ceirt bhog thais.

Ná húsáid substaintí cosúil le halcól, ceimicigh ná glantóirí tí nó an cianrialtán.

Ag Casadh Air agus As

Air nó ar fuireachas

Cinntigh go bhfuil an teilifís nasctha leis an bpríomhchumhacht AC. Nasc an corda cumhachta a tháinig leis an teilifís leis an nascóir **AC** isteach ar chúl na teilifíse. Lasfar an solas táscaire ag bun na teilifíse.

Cas air

Brúigh  ar an gcianrialtán chun an teilifís a chasadh air. Mar rogha air sin, brúigh  **HOME**. Is féidir leat freisin an luamhán stiúrtha beag ar chúl na teilifíse a bhrú freisin chun an teilifís a chasadh air mura bhfuil tú in ann teacht ar an gcianrialtán nó má tá na ceallraí caite.

Athraigh go dtí fuireachas

Chun an teilifís a athrú go dtí fuireachas, brúigh  ar an gcianrialtán. Is féidir leat freisin an luamhán stiúrtha beag ar chúl na teilifíse a bhrú freisin.

Agus í i bhfuireachas, tá an teilifís nasctha leis an bpríomhlíonra cumhachta i gcónaí ach is beag fuinneamh atá á tomhailt aici.

Bain amach an pluga cumhachta chun an teilifís a chasadh as ar fad.

Nuair a dínascann tú an pluga cumhachta, tarraing an pluga cumhachta i gcónaí, ná tarraing an seolán. Bí cinnte go bhfuil rochtain iomlán agat ar an bpluga cumhachta, an seolán cumhachta agus ar an soicéad asraoin i gcónaí.

Méaracha teilifíse

Má tá an cianrialtán caillte agat, nó má tá a cheallraí caite, is féidir leat roinnt oibríochtaí bunúsacha teilifíse a dhéanamh i gcónaí.

Chun an roghchlár bunúsach a oscailt...

1 – Agus an teilifís casta air agat, brúigh an eochair luamhán stiúrtha ar chúl na teilifíse chun an roghchlár bunúsach a oscailt.

Suiteáil Cainéal

5.1

Suiteáil Satailíte

Maidir le Suiteáil Satailítí

Suas le 4 Satailít

Is féidir leat suas le 4 satailít (4 LNBanna) a shuiteáil ar an teilifís seo. Roghnaigh díreach an líon satailítí ar mian leat iad a shuiteáil ag tús na suiteála. Éascóidh sé sin an tsuiteáil.

Unicable

Is féidir leat córas Unicable a úsáid chun an mhias aeróige a nascadh leis an teilifís. Is féidir leat Unicable a roghnú do shatailít 1 nó 2 satailít ag tús na suiteála.

MDU – Aonad Ilteaghais

Tacaíonn tiúnóirí satailíte ionsuite na teilifíse seo le MDU ar na satailítí Astra agus le Digiturk ar shatailít Eutelsat. Ní thacaítear le MDU ar Türksat.

Cuir tús leis an tSuiteáil

Cinntigh go bhfuil do mhias satailíte nasctha i gceart agus go bhfuil sé ailínithe go foirfe sula dtosóidh tú an tsuiteáil.

Chun an tsuiteáil satailíte a thosú...

- 1 – Brúigh  roghnaigh Gach socrú agus brúigh OK.
- 2 – Roghnaigh Cainéil > Suiteáil Satailíte agus brúigh OK. Cuir isteach do chód PIN más gá.
- 3 – Roghnaigh Déan cuardach do Shatailít agus brúigh OK.
- 4 – Roghnaigh Cuardaigh agus brúigh OK. Déan an teilifís cuardach do shatailítí.
- 5 – Roghnaigh Suiteáil agus brúigh OK. Taispeánann an teiliís an tsuiteáil satailíte reatha. Má tá uait an tsuiteáil seo a athrú, roghnaigh Socruithe.
- Mura bhfuil uait an tsuiteáil a athrú, roghnaigh Cuardaigh. Téigh go céim 5.

6 – Roghnaigh an líon satailítí a bhfuil uait iad a shuiteáil nó roghnaigh ceann de na córais Unicable i gCóras Suiteála. Nuair a roghnaíonn tú Unicable, is féidir leat na hUimhreacha Banda Úsáideora a roghnú agus na Minicíochtaí Banda Úsáideora a chur isteach do gach tiúnóir. Is féidir leat roinnt sainsocruithe a athrú do gach LNB i roinnt tíortha in Tuilleadh Socraithe.

7 – Déanfaidh an teilifís cuardach do na satailítí atá ar

fáil nuair a bheidh do mhias aeróige ailínithe.

D'fhéadfadh sé sin roinnt nóiméad a thógáil. Má aimsítear satailít, taispeánfar a hainm agus a threise glactha ar an scáileán.

8 – Nuair atá na satailítí atá uait aimsithe ag an teilifís, roghnaigh Suiteáil.

9 – Má thairgeann satailít Pacáistí Cainéal, taispeánfaidh an teilifís na pacáistí atá ar fáil don satailít sin. Roghnaigh an pacáiste atá uait. Tairgeann roinnt pacáistí suiteáil Thapaidh nó lomlán do na cainéil atá curtha ar fáil acu, roghnaigh ceann amháin nó an ceann eile. Suiteálfaidh an teilifís na cainéil satailíte agus na stáisiúin raidió.

10 – Chun an tsuiteáil satailíte a stóráil chomh maith leis na cainéil suiteáilte agus stáisiúin raidió, roghnaigh Críochnaigh.

Socruithe Suiteála Satailíte

Tá na socruithe suiteála satailíte réamhshocraithe de réir tíre. Cinneann na socruithe sin an chaoi a ndéanann an teilifís cuardach agus an chaoi a suiteálann sé satailítí agus a gcainéil. Is féidir leat na socruithe sin a athrú i gcónaí.

Chun na socruithe suiteála satailíte a athrú...

- 1 – Cuir tús leis an tsuiteáil satailíte.
- 2 – Ar an scáileán ar ar féidir leat tús a chur leis an gcuardach do shatailítí, roghnaigh Socruithe agus brúigh OK.
- 3 – Roghnaigh an líon satailítí a bhfuil uait iad a shuiteáil nó roghnaigh ceann de na córais Unicable. Nuair a roghnaíonn tú Unicable, is féidir leat na hUimhreacha Banda Úsáideora a roghnú agus na Minicíochtaí Banda Úsáideora a chur isteach do gach tiúnóir.
- 4 – Nuair atá sé sin déanta agat, roghnaigh Ar Aghaidh agus brúigh OK.
- 5 – Ar an roghchlár Socruithe, brúigh an eochair datha  Déanta chun filleadh go dtí an scáileán chun tús a chur leis an gcuardach do shatailítí.

Trasfhreagróir Frithinge agus LNB

Is féidir leat na sainsocruithe don trasfhreagróir frithinge agus do gach LNB a athrú i roinnt tíortha. Ná húsáid ná athraigh na socruithe sin nuair atá teiptha ar ghnáthshuiteáil. Má tá trealamh satailíte nach bhfuil caighdeánach agat, is féidir leat na socruithe sin a úsáid chun na gnáthshocruithe a sháru. D'fhéadfadh roinnt soláthróirí luachanna don trasfhreagróir nó don LNB a thabhairt duit ar féidir leat iad a chur isteach anseo.

CAManna Satailíte

Má úsáideann tú CAM – Modúl Rochtana Coinníollai a bhfuil cárta cliste aige – chun féachaint ar chainéil satailíte, molaimid go ndéanfaí an tsuiteáil satailíte nuair atá an CAM curtha isteach sa teilifís.

Baintear úsáid as an gcuid is mó de CAManna chun cainéil a dhíscróbhadh.

Is féidir leis na CAManna is nuai (CI+ 1.3 le Próifíl Oibritheora), na cainéil satailíte a shuiteáil leo féin ar do theilifís. Tabharfaidh an CAM cuireadh duit a shatailít(i) agus cainéil a shuiteáil. Ní hamháin go suiteálann agus ndíscróbhann na CAManna seo na cainéil ach láimhseálann siad nuashonruithe cainéal rialta freisin.

Pacáistí Cainéal

Is féidir le hoibritheoirí satailíte pacáistí cainéal a thairiscint a chuachann cainéil shaora agus a thairgeann sórtáil a fheileann do thír. Tairgeann roinnt satailítí pacáistí suibscríbhíne – cnuasach cainéal a n-íocann tú astu.

Má roghnaíonn tú pacáiste suibscríbhíne, d'fhéadfadh an teilifís iarraidh ort rogha a dhéanamh idir Suiteáil Tapaidh nó Suiteáil Iomlán. Roghnaigh **Tapaidh** chun cainéil an phacáiste amháin a shuiteáil nó roghnaigh **Iomlán** chun an pacáiste agus gach cainéal eile atá ar fáil a shuiteáil freisin. Molaimid suiteáil Thapaidh i gcás pacáistí suibscríbhíne. Má tá satailít breise agat nach cuid de do phacáiste suibscríbhíne iad, molaimid suiteáil Iomlán. Cuirtear gach cainéal suiteáilte sa liosta cainéal Gach Cainéal.

Suiteáil Unicable

An Córas Unicable

Is féidir leat córas Chábla Singil, MDU nó córas Unicable a úsáid chun an mhias aeróige a nascadh leis an teilifís. Úsáideann córas Chábla Singil cábla amháin chun an mhias satailíte a nascadh le gach tiúnóir satailíte ina chóras. Is iondúil go n-úsáidfear córas Chábla Singil i bhfoirgnimh árasán. Má úsáideann tú córas Unicable, iarrfaidh an teilifís ort uimhreacha banda úsáideora agus minicíochtaí comhfhreagracha a shannadh i rith na suiteála. Is féidir leat 1 nó 2 satailít a shannadh le Unicable ar an teilifís seo.

Má thugann tú faoi deara go bhfuil roinnt cainéal ar iarraidh i ndiaidh suiteáil Unicable, tá an seans ann go ndearnadh suiteáil eile ag an am céanna ar an gcóras Unicable. Déan an tsuiteáil arís chun na cainéil atá ar iarraidh a shuiteáil.

Uimhir Bhanda Úsáideora

I gcóras Unicable, ní mór uimhir a bheith ag gach tiúnóir satailíte nasctha (e.g. 0, 1, 2 nó 3 etc.).

Is féidir leat na bandaí úsáideora atá ar fáil mar aon lena n-uimhir a fháil ar an lascbhosca Unicable. Giorraítear banda úsáideora uaireanta do UB. Tá lascbhoscaí Unicable ann a thairgeann 4 nó 8 banda úsáideora. Má roghnaíonn tú Unicable sna socruithe, iarrfaidh an teilifís ort an uimhir banda úsáideora uathúil dá ghlacadóir satailíte ionsuite a shannadh. Ní féidir an uimhir banda úsáideora chéanna a bheith ag glacadóir satailíte amháin is atá ag glacadóir satailíte eile sa chóras Unicable.

Minicíocht Bhanda Úsáideora

Chomh maith leis an uimhir banda úsáideora uathúil, tá minicíocht an uimhir banda úsáideora atá roghnaithe ag teastáil ón nglacadóir satailíte ionsuite. Taispeántar na minicíochtaí sin den chuid is mó in aice leis an uimhir banda úsáideora ar lascbhosca Unicable.

Nuashonrú Cainéal de Láimh

Is féidir leat nuashonrú cainéal a thosú tú féin i gcónaí.

Chun nuashonrú cainéal a thosú de láimh...

- 1 – Brúigh , roghnaigh Gach socrú agus brúigh OK.
 - 2 – Roghnaigh Cainéil > Suiteáil Satailíte agus brúigh OK.
 - 3 – Roghnaigh Cuardaigh cainéal agus brúigh OK.
 - 4 – Roghnaigh Nuashonraigh Cainéil agus brúigh OK.
- Tosóidh nuashonrú ar an teilifís. D'fhéadfadh an nuashonrú roinnt nóiméad a thógáil.
- 5 – Lean na treoracha ar an scáileán. D'fhéadfadh an nuashonrú roinnt nóiméad a thógáil.
 - 6 – Roghnaigh Críochnaigh agus brúigh OK.

Cuir satailít leis an liosta

Is féidir leat satailít bhreise a chur le do shuiteáil satailíte reatha. Ní dhéanann sé aon difríocht do na satailítí suiteáilte ná dá gcainéil. Ní cheadaíonn roinnt oibritheoirí satailíte duit satailít a chur leis an liosta.

Ba cheart caitheamh leis an satailít bhreise mar rud breise. Ní hé do phríomhshuibscríbhinn satailíte é ná an phríomhshatailít a bhfuil a pacáiste cainéal á úsáid agat. Chuirfeá an 4ú satailít leis an liosta nuair atá 3 shatailít suiteáilte agat cheana féin. Má tá 4 shatailít suiteáilte agat cheana féin, d'fhéadfá breithniú a dhéanamh ar cheann a bhaint as chun go mbeifeá in

ann satailít nua a shuiteáil.

Suiteáil

Mura bhfuil ach 1 nó 2 satailít suiteáilte agat, tá an seans ann nach ligfidh na socruithe suiteála reatha duit satailít bhreise a chur leis an liosta. Má chaitheann tú na socruithe suiteála a athrú, ní mór duit an tsuiteáil satailíte a athdhéanamh ina iomlán. Ní féidir leat **Cuir satailít leis an liosta** a úsáid má tá athrú socruithe ag teastáil.

Chun satailít a chur leis an liosta...

- 1 – Brúigh , roghnaigh **Gach socrú** agus brúigh **OK**.
- 2 – Roghnaigh **Cainéil > Suiteáil Satailíte** agus brúigh **OK**.
- 3 – Roghnaigh **Déan cuardach do shatailít** agus brúigh **OK**.
- 4 – Roghnaigh **Cuir Satailíte leis an liosta** agus brúigh **OK**. Taispeánfar na satailítí reatha.
- 5 – Roghnaigh **Cuardaigh** agus brúigh **OK**. Déanann an teilifís cuardach do shatailítí nua.
- 6 – Má tá satailít amháin nó níos mó aimsithe ag an teilifís, roghnaigh **Suiteáil** agus brúigh **OK**. Suiteálann an teilifís cainéil na satailítí a aimsíodh.
- 7 – Roghnaigh **Críochnaigh** agus brúigh **OK** chun na cainéil agus na stáisiúin raidió a stóráil.

Satailít a Bhaint as

Is féidir leat satailít amháin nó níos mó a bhaint as ó do shuiteáil satailíte reatha. Baineann tú an tsatailít agus a cainéil as. Tá roinnt oibritheoirí satailíte ann nach gceadaíonn satailít a bhaint as.

Chun satailítí a bhaint as...

- 1 – Brúigh , roghnaigh **Gach socrú** agus brúigh **OK**.
- 2 – Roghnaigh **Cainéil > Suiteáil Satailíte** agus brúigh **OK**.
- 3 – Roghnaigh **Déan cuardach do shatailít** agus brúigh **OK**.
- 4 – Roghnaigh **Bain Satailít as** agus brúigh **OK**. Taispeánfar na satailítí reatha.
- 5 – Roghnaigh satailít agus brúigh **OK** chun iad a mharcáil le haghaidh a mbainte as.
- 6 – Brúigh  (clé), arís agus arís eile, más gá, chun an roghchlár a dhúnadh.

Suiteáil de Láimh

Is do shainúsáideoirí atá Suiteáil de Láimh dírithe.

Is féidir leat Suiteáil de Láimh a úsáid chun cainéil nua a chur leis an liosta go tapaigh ó thrasfhreagróir satailíte. Ní mór minicíocht agus polarú an trasfhreagróra a bheith ar eolas agat. Suiteálfaidh an teilifís gach cainéal ón trasfhreagróir sin. Más rud é gur

suiteáladh an trasfhreagróir cheana, bogfar gach ceann dá chainéil – na cinn a bhí ann cheana féin agus na cinn nua – go dtí deireadh an liosta cainéal Gach Cainéal.

Ní féidir leat Suiteáil de Láimh a úsáid má chaitheann tú líon na satailítí a athrú. Má tá gá leis seo, ní mór duit suiteáil iomlán a dhéanamh le Suiteáil Satailítí.

Chun trasfhreagróir a shuiteáil...

- 1 – Brúigh , roghnaigh **Gach socrú** agus brúigh **OK**.
- 2 – Roghnaigh **Cainéil > Suiteáil Satailíte** agus brúigh **OK**.
- 3 – Roghnaigh **Suiteáil de Láimh** agus brúigh  (deas) chun an roghchlár a oscailt.
- 4 – Má tá níos mó ná 1 satailít suiteáilte agat, roghnaigh an **LNB** a bhfuil uait cainéil a chur leis.
- 5 – Socraigh an **Polarú** atá ag teastáil uait. Má shocraíonn tú an **Mód Ráta Siombaile do De Láimh**, is féidir leat an **Ráta siombaile** a chur isteach de láimh.
- 6 – Brúigh na saigheada  (suas) nó  (síos) chun an mhinicíocht a athrú, agus roghnaigh **Déanta**.
- 7 – Roghnaigh **Cuardaigh** agus brúigh **OK**. Taispeánfar neart an chomhartha ar an scáileán.
- 8 – Má tá uait cainéil trasfhreagróra nua a stóráil, roghnaigh **Stóráil** agus brúigh **OK**.
- 9 – Brúigh  (clé), arís agus arís eile, más gá, chun an roghchlár a dhúnadh.

Trasfhreagróir Frithinge agus LNB

Is féidir leat na sainsocruithe don trasfhreagróir frithinge agus do gach LNB a athrú i roinnt tíortha. Ná húsáid ná athraigh na socruithe sin nuair atá teiptha ar ghnáthshuiteáil. Má tá trealamh satailíte nach bhfuil caighdeánach agat, is féidir leat na socruithe sin a úsáid chun na gnáthshocruithe a sháru. D'fhéadfadh roinnt soláthróirí luachanna don trasfhreagróir nó don LNB a thabhairt duit ar féidir leat iad a chur isteach anseo.

Cumhacht LNB

Is é Air an réamhshocrú do Chumhacht LNB.

Ton 22 kHz

Is é Uathoibríoch an réamhshocrú do Thon.

Minicíocht Íseal LO/ Minicíocht Ard LO

Socraítear minicíochtaí an ascaltóra áitiúil do luachanna caighdeánacha. Ná hathraigh na luachanna ach amháin i gcás trealaimh eisceachtúil a bhfuil luachanna éagsúla ag teastáil uaidh.

Fabhtcheartú

Ní féidir leis an teilifís na satailítí atá uaim a aimsiú nó suiteálann an teilifís an tsatailít chéanna faoi dhó

- Cinntigh go bhfuil an líon ceart satailítí socraithe i Socruithe ag tús na suiteála. Is féidir leat an teilifís a shocrú chun cuardach a dhéanamh do shatailít amháin, dhá shatailít nó 3/4 shatailít.

Ní féidir le LNB déchnoga an dara satailít a aimsiú

- Má aimsíonn an teilifís satailít amháin ach mura féidir leis an dara ceann a aimsiú, cas an mhias cúpla céim. Ailínigh an mhias chun an comhartha is treise a fháil don chéad satailít. Seiceáil táscaire treise comhartha an chéad satailít ar an scáileán. Nuair atá an chéad satailít socraithe ag an gcomhartha is treise, roghnaigh Cuardaigh arís chun an dara satailít a aimsiú.
- Cinntigh go bhfuil na socruithe athraithe go Dhá Shatailít.

Níor réitíodh m'fhadhb nuair a athraíodh na socruithe suiteála

- Ní stóráltar aon socrú, satailít nó cainéal go dtí deireadh na suiteála nuair a chríochnaíonn tú.

Tá gach cainéal satailíte imithe.

- Má tá córas Unicable in úsáid agat, cinntigh gur shann tú dhá uimhir banda uathúla sna socruithe Unicable don dá thiúnóir ionsuite. D'fhéadfadh glacadóir satailít eile i do chóras Unicable a bheith ag úsáid an uimhir banda úsáideora chéanna.

Tá an chosúlacht air go bhfuil roinnt cainéal satailíte imithe ó liosta na gcainéal.

- Má tá an chosúlacht air go bhfuil roinnt cainéal imithe nó san áit mhícheart, d'fhéadfadh suíomh trasfhreagróra na gcainéal sin a bheith athraithe ag an gcraoltóir. Is féidir leat triail a bhaint as nuashonrú ar an bpacáiste cainéal chun suíomhanna na gcainéal a chur ar ais.

Ní féidir liom satailít a bhaint as

- Ní ligeann pacáistí suibscríbhíne duit satailít a bhaint as. Chun an tsatailít a bhaint as, ní mór duit suiteáil iomlán a dhéanamh arís agus pacáiste eile a roghnú.

Bíonn an ghlacacht lag ó am go chéile

- Cinntigh go bhfuil an mhias satailíte gléasta go daingean agat. Tá gaotha láidre in ann an mhias a bhogadh.
- Tá sneachta agus báisteach in ann an glacadh a dhighrádú.

Nuashonraigh Cainéil

Uasdátú Cainéil Uathoibríoch

Má fhaigheann tú cainéil dhigiteacha, is féidir leat an teilifís a shocrú chun na cainéil seo a nuashonrú go huathoibríoch.

Déanann an teilifís nuashonrú ar na cainéil agus stóráilann sé cainéil nua uair amháin in aghaidh an lae, ag 6 AM. Stóráltar cainéil nua sa Liosta Cainéal agus marcáltar iad le . Baintear cainéil atá gan chomhartha as. Ní mór don teilifís a bheith ar Fuireachas chun cainéil a nuashonrú go huathoibríoch. Is féidir leat Nuashonrú Cainéal Uathoibríoch a chasadh as.

DVB-T nó DVB-C

Glacacht DVB-T nó DVB-C

Roghnaigh tú Aeróg (DVB-T) nó Cábla (DVB-C) i rith na suiteála cainéal, díreach sula ndearna tú an cuardach cainéal. Déanann Aeróg DVB-T/T2 cuardach do cainéil analógacha thrastíre agus cainéil DVB-T/T2 dhigiteacha. Déanann Cábla DVB-C cuardach do chainéil analógacha agus dhigiteacha atá ar fáil ó oibritheoir cábla DVB-C.

Suiteáil cainéal DVB-C

Tá gach socrú DVB-C athraithe go uathoibríoch ar mhaithe le héascaíocht. Más rud é gur thug do sholáthróir DVB-C luachanna sonracha DVB-C duit, ID an líonra nó minicíocht an líonra, cuir na luachanna sin isteach nuair a iarrann an teilifís ort i rith suiteála.

Coinbhleacht maidir le hUimhreacha Cainéal

D'fhéadfadh an uimhir cainéil chéanna a bheith ag cainéil teilifíse éagsúla (craoltóirí) i roinnt tíortha. Taispeánann an teilifís an liosta uimhreacha cainéal a bhfuil coinbhleachtaí ann i rith na suiteála. Ní mór duit an cainéal teilifíse a bhfuil uait é a shuiteáil ar uimhir cainéil a bhfuil roinnt cainéal teilifíse air a roghnú.

Socruithe DVB

Mód Minicíochta Líonra

Má tá sé ar intinn agat an modh tapaidh Mearscanadh a úsáid chun cainéil a chuardach sa Scanadh Minicíochta, roghnaigh Uathoibríoch. Bainfidh an teilifís úsáid as 1 de na minicíochtaí líonra réamhshainithe (nó HC - cainéal frithinge) atá in úsáid ag an gcuid is mó de na hoibritheoirí cábla i do thír.

Má fuair tú luach sonrach minicíocht líonra chun

cainéil a chuardach, roghnaigh **De Láimh**.

Minicíocht Líonra

Nuair atá an socrú **De Láimh** i bhfeidhm don **Mhód Minicíochta Líonra**, is féidir leat an luach minicíochta líonra a fuair tú ó d'oibritheoirí cábla a chur isteach anseo. Úsáid na heochracha uimhreach chun an luach a chur isteach.

Scanadh Minicíochta

Roghnaigh an modh chun cuardach a dhéanamh do chainéil. Is féidir leat an modh níos tapúla **Mearscanadh** a roghnú agus na socruithe réamhshainithe atá á n-úsáid ag an gcuid is mó de na hoibritheoirí cábla i do thír a úsáid.

Má fhágann sé sin nach mbeidh aon chainéal suiteáilte nó má tá roinnt cainéal ar iarraidh, is féidir leat an modh **Scanadh Iomlán** a úsáid. Bíonn níos mó ama ag teastáil ón modh sin chun cainéil a chuardach agus a shuiteáil.

Méid Céime Minicíochta

Déanann an teilifís cuardach do chainéil in eatraimh de **8MHz**.

Má fhágann sé sin nach mbeidh aon chainéal suiteáilte nó má tá roinnt cainéal ar iarraidh, is féidir leat cuardach a dhéanamh in eatraimh níos lú de **1MHz**. Má bhaintear úsáid as na heatraimh 1MHz, beidh níos mó ama ag teastáil chun cainéil a chuardach agus a shuiteáil.

Cainéil Dhigiteacha

Má tá a fhios agat nach bhfuil d'oibritheoir cábla ag tairiscint cainéal digiteach, ní fiú duit cuardach a dhéanamh do chainéil dhigiteacha.

Cainéil Analógacha

Má tá a fhios agat nach bhfuil d'oibritheoir cábla ag tairiscint cainéal analógach, ní fiú duit cuardach a dhéanamh do chainéil analógacha.

Saor / Scrofa

Má tá suibscríbhinn agus CAM - Modúl Rochtana Coinníollai agat le haghaidh seirbhísí teilifíse nach mór íoc astu, roghnaigh **Saor + Scrofa**. Mura bhfuil suibscríbhinn agat chun cainéil nó seirbhísí teilifíse nach mór íoc astu a fháil, is féidir leat **Cainéil in Aisce**

Amháin a roghnú.

Chun tuilleadh eolais a fháil, in **Cabhair**, brúigh an eochair datha  **Eochairfhocail** agus déan cuardach do **CAM**, **Modúl Rochtana Coinníollai**.

Caighdeán Glacachta

Is féidir leat caighdeán agus neart comhartha chainéil dhigitigh a sheiceáil. Má tá d'aeróg féin agat, is féidir leat triail a bhaint as suíomh na haeróige a athrú chun an ghlacacht a fheabhsú.

Nasc Gléasanna

6.1

Maidir le Nasc

Treoir maidir le Nascacht

Nasc gléas leis an teilifís i gcónaí leis an nasc is airde caighdeán atá ar fáil. Anuas air sin, úsáid cáblaí ar chaighdeán maith chun a chinntiú go mbeidh aistriú maith pictiúr agus fuaimeanna ann.

Nuair a nascann tú gléas, aithníonn an teilifís a chineál agus tugann sé ainm cineáil ceart do gach gléas. Is féidir leat an t-ainm cineáil a athrú más mian leat. Má shocraítear ainm cineáil ceart do ghléas, athraíonn an teilifís go huathoibríoch go dtí na socruithe teilifíse is fearr a fheileann di nuair a athraíonn tú go dtí an gléas seo sa roghchlár Foinsí.

Port aeróige

Má tá Bosca bairr (glacadóir digiteach) nó Taifeadán agat, nasc cáblaí na haeróige chun comhartha na haeróige a rith tríd an mBosca bairr agus/nó an Taifeadán i dtosach sula n-iontrálfaidh sé an teilifís. Ar an gcaoi sin, is féidir leis an aeróg agus an Bosca bairr cainéil bhreise fhéideartha a sheoladh go dtí an Taifeadán le haghaidh a dtaifeadta.

Poirt HDMI

Cáiliócht HDMI

Bíonn an caighdeán pictiúir agus fuaime is fearr ann le nasc HDMI. Bíonn na comharthaí físe agus fuaime araon le chéile in aon chábla HDMI amháin. Úsáid cábla HDMI le haghaidh comhartha teilifíse.

Úsáid cábla HDMI Ardluais chun an t-aistriú comhartha is fearr a fháil agus ná húsáid cábla HDMI níos faide ná 5 m.

Mura bhfuil gléas atá nasctha le HDMI ag obair i gceart, bain triail as socrú **HDMI Ultra HD** éagsúil chun an fhadhb a réiteach. In Cabhair, brúigh an eochair datha **— Eochairfhocail** agus déan cuardach do HDMI Ultra HD.

Cosaint ar chóipeáil

Tacaíonn cáblaí HDMI le HDCP 2.2 (Cosaint Ábhar Digiteach Ard-Leitheadbhandá). Is comhartha chosaint ar chóipeáil HDCP a chuireann cosc ar chóipeáil ábhar ó dhiosca DVD nó Diosca Blu-ray.

Tagraítear dó fresin mar DRM (Bainistíocht Ceart Digiteach).

HDMI ARC

Tá HDMI ARC (Cainéal Fillte Fuaime) ag gach ceann de na nasc HDMI ar an teilifís.

Má tá an nasc HDMI ARC ag an ngléas freisin, ar gnách gur Córas Amharclainne Baile (HTS) é, nasc le haon cheann de na nasc HDMI ar an teilifís seo é. Ní chaithfidh an cábla fuaime breise a sheolann fuaim na teilifíse go dtí an HTS a bheith agat nuair atá nasc HDMI ARC ann. Tá an dá chomhartha sa nasc HDMI ARC.

Is féidir leat aon nasc HDMI ar an teilifís seo a úsáid chun an HTS a nascadh ach níl ARC ar fáil ach do 1 gléas/nasc ag aon uair amháin.

HDMI MHL

Is féidir leat a bhfuil le feiceáil ar d'fhón cliste Android nó ar do thaibléad a sheoladh chuig scáileán teilifíse le HDMI MHL.

Tá **MHL 2.0** (Mobile High-Definition Link) istigh leis an nasc **HDMI 1** ar an teilifís seo.

Baineann an-chobhsaíocht agus leithead banda leis an nasc sreangaithe seo, mar aon le haga folaigh íseal, gan aon briseadh isteach gan sreang mar aon le hatáirgeadh fuaime ar chaighdeán maith. Anuas air sin, luchtóidh an nasc MHL ceallra d'fhón cliste nó do thaibléad. Bíodh is go bhfuil sé nasctha, ní bheidh do ghléas soghluaiste ag luchtú nuair atá an teilifís ar fuireachas.

Bí ar an eolas faoin gcábala MHL fulangach atá feiliúnach do do ghléas soghluaiste. Tabhair faoi deara go háirithe an cinéal nascóra atá de dhíth ort chun nascadh le d'fhón cliste nó do thaibléad leis an nascóir HDMI don theilifís ar thaobh amháin.

Is trádhmharcanna de chuid an MHL, LLC iad MHL, Mobile High-Definition Link agus Lógó MHL.

HDMI CEC – EasyLink

Bíonn an caighdeán pictiúir agus fuaime is fearr ann le nasc HDMI. Bíonn na comharthaí físe agus fuaime araon le chéile in aon chábala HDMI amháin. Úsáid an cábla HDMI le haghaidh comharthaí teilifíse Ardghléine (HD). Úsáid cábla HDMI Ardluais chun an t-

aistriú comhartha is fearr a fháil agus ná húsáid cábla HDMI níos faide ná 5 m.

Nasc gléasanna HDMI CEC-comhoiriúnacha le do theilifís, is féidir leat iad a oibriú le cianrialtán na teilifíse.

Ní mór EasyLink HDMI CEC a chasadh air ar an teilifís agus ar an ngléas nasctha.

CAM le Cárta Cliste – CI+

CI+

Tá an teilifís seo réidh do Rochtain Choinníollach CI+.

Is féidir leat féachaint ar scothchláir HD, cosúil le scannáin agus cláir spóirt atá curtha ar fáil ag oibritheoirí teilifíse digití i do réigiún le CI+. Scrobhann oibritheoirí teilifíse na cláir seo agus díscrobhann modúl CI+ réamhíoctha iad.

Cuireann oibritheoirí teilifíse digití modúl CI+ (Modúl Rochtana Coinníolláí – CAM) ar fáil, agus cárta cliste a ghabhann leis, nuair a dhéanann tú suibscríbhinn dá scothchláir. Bíonn ardleibhéal cosanta ar chóipeáil ag an cláir seo.

Déan teagmháil le oibritheoir teilifíse digití le haghaidh tuilleadh eolais maidir le téarmaí agus coinníollacha.

Cárta Cliste

Cuireann oibritheoirí teilifíse digití modúl CI+ (Modúl Rochtana Coinníolláí – CAM) ar fáil, agus cárta cliste a ghabhann leis, nuair a dhéanann tú suibscríbhinn dá scothchláir.

Cuir an cárta cliste isteach sa mhodúl CAM. Féach ar an treoir a fuair tú ón oibritheoir.

Chun an CAM a chur isteach sa teilifís...

1 – Beidh an modh ceart chun an CAM a chur isteach le feiceáil ar an gCAM. Má chuireann tú isteach mícheart é, d'fhéadfá damáiste a dhéanamh don CAM agus don teilifís.

2 – Agus tú ag féachaint ar chúl na teilifíse, agus aghaidh an CAM i do threo, cuir an CAM isteach go réidh sa slótán **COMMON INTERFACE**.

3 – Brúigh an CAM isteach chomh fada is a rachaidh sé. Fág sa slótán go buan é.

Nuair chasann tú air an teilifís, d'fhéadfadh roinnt nóiméad a bheith i gceist sula ngníomhachtófar an CAM. Má chuirtear CAM isteach agus má íoctar na táillí suibscríbhíne (bíonn modhanna suibscríbhíne éagsúla ann), is féidir leat féachaint ar na cainéil scrofa a dtacaíonn an cárta cliste CAM leo.

Is do do theilifís amháin an CAM agus an cárta cliste. Má bhaineann tú an CAM amach, ní bheidh tú in ann féachaint ar na cainéil scrofa a dtacaíonn CAM leo.

Líonra agus Idirlíon

Líonra Baile

Ní mór do do theilifís a bheith nasctha leis an Idirlíon chun leas a bhaint as cumais iomlána an Philips Android TV.

Nasc an teilifís le líonra baile a bhfuil nasc ardluais don Idirlíon aige. Is féidir leat do theilifís a nascadh le do ródaire líonra gan sreang nó sreangaithe.

Nasc le Líonra

Nasc gan Sreang

A bhfuil de dhíth ort

Teastaíonn ródaire Wi-Fi a bhfuil nasc don Idirlíon aige chun an teilifís a nascadh leis an Idirlíon gan sreang.

Úsáid nasc ardluais (leathanbhanda) leis an Idirlíon.

Déan an Nasc

Déan an Nasc – Gan Sreang

 (Roghchlár teilifíse) >  Socruithe > Gan sreang agus Líonraí > Sreangaithe nó Wi-Fi > Nasc le Líonra > Gan sreang.

1 – Clliceáil ar do líonra gan sreang sa liosta de na líonraí a aimsíodh. Mura bhfuil do líonra sa liosta mar go bhfuil ainm an líonra i bhfolach (chas tú as craoladh SSID an ródaire), roghnaigh Cuir Líonra Nua leis an liosta chun ainm an líonra a chur isteach tú féin.

2 – Ag brath ar chineál an ródaire, cuir isteach d'eochar criptithe – WEP, WPA nó WPA2. Más rud é gur chuir tú isteach an eochar chriptithe don líonra seo cheana féin, is féidir leat OK a chliceáil chun an nasc a dhéanamh láithreach.

3 – Taispeánfar teachtaireacht nuair a dhéanfar an nasc.

Déan an Nasc – WPS

Má tá WPS ag do ródaire, is féidir leat nascadh leis an

ródaire go díreach gan scanadh a dhéanamh do líonraí. Má tá gléasanna agat i do líonra gan sreang a úsáideann an córas slándála criptithe WEP, ní féidir leat WPS a úsáid.

1 – Téigh go dtí an ródaire, brúigh an cnaipe WPS agus téigh ar ais go dtí an teilifís laistigh de 2 nóiméad.

2 – Clliceáil Nasc chun an nasc a dhéanamh.

3 – Taispeánfar teachtaireacht nuair a dhéanfar an nasc.

Déan an Nasc – WPS le Cód PIN

 (Roghchlár teilifíse) >  Socruithe > Gan sreang agus Líonraí > Sreangaithe nó Wi-Fi > Nasc le Líonra > WPS le Cód PIN.

Bainistigh Feidhmchláir

Má stopann tú feidhmchlár agus má fhilleann tú ar an roghchlár Baile, níl an feidhmchlár stoptha. Tá an feidhmchlár beo sa chúla i gcónaí. Ní mór don chuid is mó d'fheidhmchláir roinnt sonraí a shábháil i gcuimhne thaisce na teilifíse chun feidhmiú go maith. D'fhéadfadh sé a bheith inmholta feidhmchlár a stopadh ar fad nó sonraí taisce feidhmchláir faoi leith a ghlanadh chun feidhmíocht feidhmchlár ar an iomlán a optamú agus chun úsáid chuimhne a choinneáil íseal ar do Android TV. Anuas air sin, is é an cleachtas is fearr feidhmchláir nach bhfuil in úsáid agat a dhíshuiteáil.

8.7

Stóráil

Is féidir leat féachaint ar an méid spáis stórála – cuimhne inmheánach na teilifíse – atá á úsáid agat do d'fheidhmchláir, físeáin, ceol, etc, agus ar an méid spáis atá saor i gcónaí agat chun feidhmchláir nua a shuiteáil. Seiceáil do stóráil má tá d'fheidhmchláir mall nó mura bhfuil siad ag obair i gceart.

Chun an méid stórála atá á úsáid agat a fheiceáil...

- 5 - Brúigh  BACK chun dul siar céim amháin nó brúigh  EXIT chun an roghchlár a dhúnadh.

Diosca Crua USB

Má nascann tú Diosca Crua USB, is féidir leat an diosca crua a úsáid chun síneadh a chur le cuimhne na teilifíse chun go mbeidh tú in ann tuilleadh feidhmchláir a stóráil. Lig don Diosca Crua USB a bheith úsáidte mar chuimhne teilifíse bhreise i rith an phróisis formáidithe. Déanfaidh an teilifís iarracht na feidhmchláir nua a stóráil ar an Diosca Crua USB i dtosach. Tá roinnt feidhmchláir ann nach bhfuil ceadaithe iad a stóráil ar Dhiosca Crua USB.

Chun do shonraí reatha a ascnamh, téigh go dtí Gach Socrú > Socruithe Android > Gléas > Stóráil & athshocraigh agus roghnaigh an Diosca Crua USB.

Má thaispeántar íomhá shocair ar feadh tréimhse fada, d'fhéadfadh rian den íomhá sin fanacht ar an scáileán. Is gnáthiompar an feiniméan sin i gcás painéal OLED.

Déan iarracht gan íomhá shocair a thaispeáint ar scáileán na teilifíse ar feadh tréimhse fada ama. Nó is féidir leat an fheidhm seo a ghníomhachtú chun

a leithéid de choinneáil íomhá a ghlanadh.

Casfar an teilifís as go dtí go gcríochnófar an próiseas.

Má tá tú ag taifeadadh rud éigin, cuirfear an próiseas ar sos, agus tosófar an taifeadadh arís nuair atá sé réidh. D'fhéadfadh sé níos mó ná uair an chloig a thógáil.

Má chasann tú an teilifís air i rith an phróisis, stopfar é agus tosófar arís é go huathoibríoch nuair a chastar an teilifís go fuireachas níos deireanaí.

D'fhéadfadh líne bhán a bheith le feiceáil ar an scáileán i rith an phróiseála. Is minic a tharlaíonn a leithéid nuair atáthar ag glanadh íomhánna atá coinnithe ar an scáileán.

- **Cuir in Oiriúint don Scáileán** – zúmálann sé an pictiúr isteach go huathoibríoch chun an scáileán a líonadh gan díchumadh. D'fhéadfadh barraí dubha a bheith le feiceáil. Níl sé feiliúnach d'ionchur ó ríomhaire.
- **Scáileán Leathan** – déanann sé an pictiúr a zúmáil go scáileán leathan go huathoibríoch.
- **Bunaidh** – déanann sé an pictiúr a zúmáil go scáileán leathan go huathoibríoch.

GNU LIBRARY GENERAL PUBLIC LICENSE

Version 2, June 1991

Copyright (C) 1991 Free Software Foundation, Inc.

51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public Licenses are intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users.

This license, the Library General Public License, applies to some specially designated Free Software Foundation software, and to any other libraries whose authors decide to use it. You can use it for your libraries, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the library, or if you modify it.

For example, if you distribute copies of the library, whether gratis or for a fee, you must give the recipients all the rights that we gave you. You must make sure that they, too, receive or can get the source code. If you link a program with the library, you must provide complete object files to the recipients so that they can relink them with the library, after making changes to the library and recompiling it. And you must show them these terms so they know their rights.

Our method of protecting your rights has two steps: (1) copyright the library, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the library.

Also, for each distributor's protection, we want to make certain that everyone understands that there is no warranty for this free library. If the library is modified by someone else and passed on, we want its recipients to know that what they have is not the original version, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that companies distributing free software will individually obtain patent licenses, thus in effect transforming the program into proprietary software. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

Most GNU software, including some libraries, is covered by the ordinary GNU General Public License, which was designed for utility programs. This license,

the GNU Library General Public License, applies to certain designated libraries. This license is quite different from the ordinary one; be sure to read it in full, and don't assume that anything in it is the same as in the ordinary license.

The reason we have a separate public license for some libraries is that they blur the distinction we usually make between modifying or adding to a program and simply using it. Linking a program with a library, without changing the library, is in some sense simply using the library, and is analogous to running a utility program or application program. However, in a textual and legal sense, the linked executable is a combined work, a derivative of the original library, and the ordinary General Public License treats it as such.

Because of this blurred distinction, using the ordinary General Public License for libraries did not effectively promote software sharing, because most developers did not use the libraries. We concluded that weaker conditions might promote sharing better.

However, unrestricted linking of non-free programs would deprive the users of those programs of all benefit from the free status of the libraries themselves. This Library General Public License is intended to permit developers of non-free programs to use free libraries, while preserving your freedom as a user of such programs to change the free libraries that are incorporated in them. (We have not seen how to achieve this as regards changes in header files, but we have achieved it as regards changes in the actual functions of the Library.) The hope is that this will lead to faster development of free libraries.

The precise terms and conditions for copying, distribution and modification follow. Pay close attention to the difference between a "work based on the library" and a "work that uses the library". The former contains code derived from the library, while the latter only works together with the library.

Note that it is possible for a library to be covered by the ordinary General Public License rather than by this special one.

GNU LIBRARY GENERAL PUBLIC LICENSE

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License Agreement applies to any software library which contains a notice placed by the copyright holder or other authorized party saying it may be distributed under the terms of this Library General Public License (also called "this License"). Each licensee is addressed as "you".

A "library" means a collection of software functions

and/or data prepared so as to be conveniently linked with application programs (which use some of those functions and data) to form executables.

The "Library", below, refers to any such software library or work which has been distributed under these terms. A "work based on the Library" means either the Library or any derivative work under copyright law: that is to say, a work containing the Library or a portion of it, either verbatim or with modifications and/or translated straightforwardly into another language. (Hereinafter, translation is included without limitation in the term "modification".)

"Source code" for a work means the preferred form of the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus any associate interface definition files, plus the scripts used to control compilation and installation of the library.

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running a program using the Library is not restricted, and output from such a program is covered only if its contents constitute a work based on the Library (independent of the use of the Library in a tool for writing it). Whether that is true depends on what the Library does and what the program that uses the Library does.

1. You may copy and distribute verbatim copies of the Library's complete source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and distribute a copy of this License along with the

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a

2. You may modify your copy or copies of the Library or any portion of it, thus forming a work based on the Library, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

a) The modified work must itself be a software library.

b) You must cause the files modified to carry prominent notices stating that you changed the files and the date of any change.

c) You must cause the whole of the work to be licensed at no charge to all third parties under the terms of this License.

d) If a facility in the modified Library refers to a

function or a table of data to be supplied by an application program that uses the facility, other than as an argument passed when the facility is invoked, then you must make a good faith effort to ensure that, in the event an application does not supply such function or table, the facility still operates, and performs whatever part of its purpose remains meaningful.

(For example, a function in a library to compute square roots has a purpose that is entirely well-defined independent of the application. Therefore, Subsection 2d requires that any application-supplied function or table used by this function must be optional: if the application does not supply it, the squareroot function must still compute square roots.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Library, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Library, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote. Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Library.

In addition, mere aggregation of another work not based on the Library with the Library (or with a work based on the Library) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may opt to apply the terms of the ordinary GNU General Public License instead of this License to a given copy of the Library. To do this, you must alter all the notices that refer to this License, so that they refer to the ordinary GNU General Public License, version 2, instead of to this License. (If a newer version than version 2 of the ordinary GNU General Public License has appeared, then you can specify that version instead if you wish.) Do not make any other change in these notices.

Once this change is made in a given copy, it is irreversible for that copy, so the ordinary GNU General Public License applies to all subsequent copies and derivative works made from that copy.

This option is useful when you wish to copy part of the code of the Library into a program that is not a library.

4. You may copy and distribute the Library (or a portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections

1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange.

If distribution of object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place satisfies the requirement to distribute the source code, even though third parties are not compelled to copy the source along with the object code.

5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a "work that uses the Library". Such a work, in isolation, is not a derivative work of the Library, and therefore falls outside the scope of this License.

However, linking a "work that uses the Library" with the Library creates an executable that is a derivative of the Library (because it contains portions of the Library), rather than a "work that uses the library". The executable is therefore covered by this License.

Section 6 states terms for distribution of such executables.

When a "work that uses the Library" uses material from a header file that is part of the Library, the object code for the work may be a derivative work of the Library even though the source code is not. Whether this is true is especially significant if the work can be linked without the Library, or if the work is itself a library. The threshold for this to be true is not precisely defined by law.

If such an object file uses only numerical parameters, data structure layouts and accessors, and small macros and small inline functions (ten lines or less in length), then the use of the object file is unrestricted, regardless of whether it is legally a derivative work. (Executables containing this object code plus portions of the Library will still fall under Section 6.)

Otherwise, if the work is a derivative of the Library, you may distribute the object code for the work under the terms of Section 6. Any executables containing that work also fall under Section 6, whether or not they are linked directly with the Library itself.

6. As an exception to the Sections above, you may also compile or link a "work that uses the Library" with the Library to produce a work containing portions of the Library, and distribute that work under terms of your choice, provided that the terms permit modification of the work for the customer's own use and reverse engineering for debugging such modifications.

You must give prominent notice with each copy of the work that the Library is used in it and that the Library and its use are covered by this License. You must supply a copy of this License. If the work during execution displays copyright notices, you must include the copyright notice for the Library among them, as well as a reference directing the user to the copy of this License. Also, you must do one of these things:

a) Accompany the work with the complete corresponding machine-readable source code for the Library including whatever changes were used in the work (which must be distributed under Sections 1 and 2 above); and, if the work is an executable linked with the Library, with the complete machine-readable "work that uses the Library", as object code and/or source code, so that the user can modify the Library and then relink to produce a modified executable containing the modified Library. (It is understood that the user who changes the contents of definitions files in the Library will not necessarily be able to recompile the application to use the modified definitions.)

b) Accompany the work with a written offer, valid for at least three years, to give the same user the materials specified in Subsection 6a, above, for a charge no more than the cost of performing this distribution.

c) If distribution of the work is made by offering access to copy from a designated place, offer equivalent access to copy the above specified materials from the same place.

d) Verify that the user has already received a copy of these materials or that you have already sent this user a copy.

For an executable, the required form of the "work that uses the Library" must include any data and utility programs needed for reproducing the executable from it. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

It may happen that this requirement contradicts the license restrictions of other proprietary libraries that do not normally accompany the operating system. Such a contradiction means you cannot use both them and the Library together in an executable that you distribute.

7. You may place library facilities that are a work based on the Library side-by-side in a single library together with other library facilities not covered by this License, and distribute such a combined library,

provided that the separate distribution of the work based on the Library and of the other library facilities is otherwise permitted, and provided that you do these two things:

a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities. This must be distributed under the terms of the Sections above.

b) Give prominent notice with the combined library of the fact that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.

8. You may not copy, modify, sublicense, link with, or distribute the Library except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense, link with, or distribute the Library is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

9. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Library or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Library (or any work based on the Library), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Library or works based on it.

10. Each time you redistribute the Library (or any work based on the Library), the recipient automatically receives a license from the original licensor to copy, distribute, link with or modify the Library subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.

11. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Library at all. For example, if a patent license would not permit royalty-free redistribution of the Library by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Library.

If any portion of this section is held invalid or

unenforceable under any particular circumstance, the balance of the section is intended to apply, and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

12. If the distribution and/or use of the Library is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Library under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

13. The Free Software Foundation may publish revised and/or new versions of the Library General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Library specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Library does not specify a license version number, you may choose any version ever published by the Free Software Foundation.

14. If you wish to incorporate parts of the Library into other free programs whose distribution conditions are incompatible with these, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

Copyright (C) 1991, 1999 Free Software Foundation,
Inc.

51 Franklin Street, Fifth Floor, Boston, MA

Everyone is permitted to copy and distribute verbatim
copies of this license document, but changing it is
not allowed.

[This is the first released version of the Lesser GPL. It
also counts as the successor of the GNU Library
Public License, version 2, hence the version number
2.1.]

Preamble

The licenses for most software are designed to take
away your freedom to share and change it. By
contrast, the GNU General Public Licenses are
intended to guarantee your freedom to share and
change free software--to make sure the software is
free for all its users.

This license, the Lesser General Public License,
applies to some specially designated software
packages--typically libraries--of the Free Software
Foundation and other authors who decide to use it.
You can use it too, but we suggest you first think
carefully about whether this license or the ordinary
General Public License is the better strategy to use in
any particular case, based on the explanations below.

When we speak of free software, we are referring to
freedom of use, not price. Our General Public
Licenses are designed to make sure that you have
the freedom to distribute copies of free software (and
charge for this service if you wish); that you receive
source code or can get it if you want it; that you can
change the software and use pieces of it in new free
programs; and that you are informed that you can
do these things.

To protect your rights, we need to make restrictions
that forbid distributors to deny you these rights or to
ask you to surrender these rights. These restrictions
translate to certain responsibilities for you if you
distribute copies of the library or if you modify it.

For example, if you distribute copies of the library,
whether gratis or for a fee, you must give the
recipients all the rights that we gave you. You must
make sure that they, too, receive or can get the
source code. If you link other code with the library,
you must provide complete object files to the
recipients, so that they can relink them with the
library after making changes to the library and
recompiling it. And you must show them these terms
so they know their rights.

We protect your rights with a two-step method: (1) we
copyright the library, and (2) we offer you this
license, which gives you legal permission to copy,
distribute and/or modify the library.

To protect each distributor, we want to make it very
clear that there is no warranty for the free library.
Also, if the library is modified by someone else and
passed on, the recipients should know that what
they have is not the original version, so that the
original author's reputation will not be affected by
problems that might be introduced by others.

Finally, software patents pose a constant threat to the existence of any free program. We wish to make sure that a company cannot effectively restrict the users of a free program by obtaining a restrictive license from a patent holder. Therefore, we insist that any patent license obtained for a version of the library must be consistent with the full freedom of use specified in this license.

Most GNU software, including some libraries, is covered by the ordinary GNU General Public License. This license, the GNU Lesser General Public License, applies to certain designated libraries, and is quite different from the ordinary General Public License. We use this license for certain libraries in order to permit linking those libraries into non-free programs.

When a program is linked with a library, whether statically or using a shared library, the combination of the two is legally speaking a combined work, a derivative of the original library. The ordinary General Public License therefore permits such linking only if the entire combination fits its criteria of freedom. The Lesser General Public License permits more lax criteria for linking other code with the library.

We call this license the "Lesser" General Public License because it does Less to protect the user's freedom than the ordinary General Public License. It also provides other free software developers Less of an advantage over competing non-free programs. These disadvantages are the reason we use the ordinary General Public License for many libraries. However, the Lesser license provides advantages in certain special circumstances.

For example, on rare occasions, there may be a special need to encourage the widest possible use of a certain library, so that it becomes a de-facto standard. To achieve this, non-free programs must be allowed to use the library. A more frequent case is that a free library does the same job as widely used non-free libraries. In this case, there is little to gain by limiting the free library to free software only, so we use the Lesser General Public License.

In other cases, permission to use a particular library in non-free programs enables a greater number of people to use a large body of free software. For example, permission to use the GNU C Library in non-free programs enables many more people to use the whole GNU operating system, as well as its variant, the GNU/Linux operating system.

Although the Lesser General Public License is Less protective of the users' freedom, it does ensure that the user of a program that is linked with the Library has the freedom and the wherewithal to run that program using a modified version of the Library.

The precise terms and conditions for copying, distribution and modification follow. Pay close

attention to the difference between a "work based on the library" and a "work that uses the library". The former contains code derived from the library, whereas the latter must be combined with the library in order to run.

GNU LESSER GENERAL PUBLIC LICENSE

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License Agreement applies to any software library or other program which contains a notice placed by the copyright holder or other authorized party saying it may be distributed under the terms of this Lesser General Public License (also called "this License"). Each licensee is addressed as "you".

A "library" means a collection of software functions and/or data prepared so as to be conveniently linked with application programs (which use some of those functions and data) to form executables.

The "Library", below, refers to any such software library or work which has been distributed under these terms. A "work based on the Library" means either the Library or any derivative work under copyright law: that is to say, a work containing the Library or a portion of it, either verbatim or with modifications and/or translated straightforwardly into another language. (Hereinafter, translation is included without limitation in the term "modification".)

"Source code" for a work means the preferred form of the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the library.

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running a program using the Library is not restricted, and output from such a program is covered only if its contents constitute a work based on the Library (independent of the use of the Library in a tool for writing it). Whether that is true depends on what the Library does and what the program that uses the Library does.

1. You may copy and distribute verbatim copies of the Library's complete source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and distribute a copy of this License along with the Library.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Library or any portion of it, thus forming a work based on the Library, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

a) The modified work must itself be a software library.

b) You must cause the files modified to carry prominent notices stating that you changed the files and the date of any change.

c) You must cause the whole of the work to be licensed at no charge to all third parties under the terms of this License.

d) If a facility in the modified Library refers to a function or a table of data to be supplied by an application program that uses the facility, other than as an argument passed when the facility is invoked, then you must make a good faith effort to ensure that, in the event an application does not supply such function or table, the facility still operates, and performs whatever part of its purpose remains meaningful.

(For example, a function in a library to compute square roots has a purpose that is entirely well-defined independent of the application. Therefore, Subsection 2d requires that any application-supplied function or table used by this function must be optional: if the application does not supply it, the square root function must still compute square roots.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Library, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Library, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Library.

In addition, mere aggregation of another work not based on the Library with the Library (or with a work based on the Library) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may opt to apply the terms of the ordinary GNU General Public License instead of this License to a given copy of the Library. To do this, you must alter all the notices that refer to this License, so that they refer to the ordinary GNU General Public License, version 2, instead of to this License. (If a newer version than version 2 of the ordinary GNU General Public License has appeared, then you can specify that version instead if you wish.) Do not make any other change in these notices.

Once this change is made in a given copy, it is irreversible for that copy, so the ordinary GNU General Public License applies to all subsequent copies and derivative works made from that copy.

This option is useful when you wish to copy part of the code of the Library into a program that is not a library.

4. You may copy and distribute the Library (or a portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange.

If distribution of object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place satisfies the requirement to distribute the source code, even though third parties are not compelled to copy the source along with the object code.

5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a "work that uses the Library". Such a work, in isolation, is not a derivative work of the Library, and therefore falls outside the scope of this License.

However, linking a "work that uses the Library" with the Library creates an executable that is a derivative of the Library (because it contains portions of the Library), rather than a "work that uses the library". The executable is therefore covered by this License.

Section 6 states terms for distribution of such executables.

When a "work that uses the Library" uses material from a header file that is part of the Library, the object code for the work may be a derivative work of the Library even though the source code is not. Whether this is true is especially significant if the work can be linked without the Library, or if the work is itself a library. The threshold for this to be true is not precisely defined by law.

If such an object file uses only numerical parameters, data structure layouts and accessors, and small macros and small inline functions (ten lines or less in

length), then the use of the object file is unrestricted, regardless of whether it is legally a derivative work. (Executables containing this object code plus portions of the Library will still fall under Section 6.)

Otherwise, if the work is a derivative of the Library, you may distribute the object code for the work under the terms of Section 6. Any executables containing that work also fall under Section 6, whether or not they are linked directly with the Library itself.

6. As an exception to the Sections above, you may also combine or link a "work that uses the Library" with the Library to produce a work containing portions of the Library, and distribute that work under terms of your choice, provided that the terms permit modification of the work for the customer's own use and reverse engineering for debugging such modifications.

You must give prominent notice with each copy of the work that the Library is used in it and that the Library and its use are covered by this License. You must supply a copy of this License. If the work during execution displays copyright notices, you must include the copyright notice for the Library among them, as well as a reference directing the user to the copy of this License. Also, you must do one of these things:

a) Accompany the work with the complete corresponding machine-readable source code for the Library including whatever changes were used in the work (which must be distributed under Sections 1 and 2 above); and, if the work is an executable linked with the Library, with the complete machine-readable "work that uses the Library", as object code and/or source code, so that the user can modify the Library and then relink to produce a modified executable containing the modified Library. (It is understood that the user who changes the contents of definitions files in the Library will not necessarily be able to recompile the application to use the modified definitions.)

b) Use a suitable shared library mechanism for linking with the Library. A suitable mechanism is one that (1) uses at run time a copy of the library already present on the user's computer system rather than copying library functions into the executable, and (2) will operate properly with a modified version of the library, if the user installs one, as long as the modified version is interface-compatible with the version that the work was made with.

c) Accompany the work with a written offer, valid for at least three years, to give the same user the materials specified in Subsection 6a, above, for a charge no more than the cost of performing this distribution.

d) If distribution of the work is made by offering access to copy from a designated place, offer

equivalent access to copy the above specified materials from the same place.

e) Verify that the user has already received a copy of these materials or that you have already sent this user a copy.

For an executable, the required form of the "work that uses the Library" must include any data and utility programs needed for reproducing the executable from it. However, as a special exception, the materials to be distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

It may happen that this requirement contradicts the license restrictions of other proprietary libraries that do not normally accompany the operating system. Such a contradiction means you cannot use both them and the Library together in an executable that you

7. You may place library facilities that are a work based on the Library side-by-side in a single library together with other library facilities not covered by this License, and distribute such a combined library, provided that the separate distribution of the work based on the Library and of the other library facilities is otherwise permitted, and provided that you do these two things:

a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities. This must be distributed under the terms of the Sections above.

b) Give prominent notice with the combined library of the fact that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.

8. You may not copy, modify, sublicense, link with, or distribute the Library except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense, link with, or distribute the Library is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

9. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Library or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Library (or any work based on the Library), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Library or works based

on it.

10. Each time you redistribute the Library (or any work based on the Library), the recipient automatically receives a license from the original licensor to copy, distribute, link with or modify the Library subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties with this License.

11. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Library at all. For example, if a patent license would not permit royalty-free redistribution of the Library by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Library.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply, and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

12. If the distribution and/or use of the Library is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Library under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

13. The Free Software Foundation may publish

revised and/or new versions of the Lesser General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Library specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Library does not specify a license version number, you may choose any version ever published by the Free Software Foundation.

14. If you wish to incorporate parts of the Library into other free programs whose distribution conditions are incompatible with these, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

ARPHIC PUBLIC LICENSE

Copyright (C) 1999 Arphic Technology Co., Ltd.

All rights reserved except as specified below.

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is forbidden.

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the ARPHIC PUBLIC LICENSE specifically

permits and encourages you to use this software, provided that you give the recipients all the rights that we gave you and make sure they can get the modifications of this software.

Legal Terms

Throughout this License, "Font" means the TrueType fonts "AR PL Mingti2L Big5", "AR PL KaitiM Big5" (BIG-5 character set) and "AR PL SungtiL GB", "AR PL KaitiM GB" (GB character set) which are originally distributed by Arphic, and the derivatives of those fonts created through any modification including modifying glyph, reordering glyph, converting format, changing font name, or adding/deleting some characters in/from glyph table.

"PL" means "Public License".

"Copyright Holder" means whoever is named in the copyright or copyrights for the Font.

"You" means the licensee, or person copying, redistributing or modifying the Font.

"Freely Available" means that you have the freedom to copy or modify the Font as well as redistribute copies of the Font under the same conditions you received, not price. If you wish, you can charge for this service.

You may copy and distribute verbatim copies of this Font in any medium, without restriction, provided that you retain this license file (ARPHICPL.TXT) unaltered in all copies.

You may otherwise modify your copy of this Font in any way, including modifying glyph, reordering glyph, converting format, changing font name, or adding/deleting some characters in/from glyph table, and copy and distribute such modifications under the terms of Section 1 above, provided that the following conditions are met:

a) You must insert a prominent notice in each modified file stating how and when you changed that file.

b) You must make such modifications Freely Available as a whole to all third parties under the terms of this License, such as by offering access to copy the modifications from a designated place, or distributing the modifications on a medium customarily used for software interchange.

c) If the modified fonts normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the Font under these conditions, and telling the user how to view a copy of this License.

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Font, and can be reasonably considered independent and separate works in themselves, then this License and its terms, do not apply to those sections when you distribute them as separate works. Therefore, mere aggregation of another work not based on the Font with the Font on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

You may not copy, modify, sublicense, or distribute the Font except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Font will automatically retroactively void your rights under this License. However, parties who have received copies or rights from you under this License will keep their licenses valid so long as such parties remain in full compliance.

You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to copy, modify, sublicense or distribute the Font. These actions are prohibited by law if you do not accept this License. Therefore, by copying, modifying, sublicensing or distributing the Font, you indicate your acceptance of this License and all its terms and conditions.

Each time you redistribute the Font, the recipient automatically receives a license from the original licensor to copy, distribute or modify the Font subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.

If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Font at all. For example, if a patent license would not permit royalty-free redistribution of the Font by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Font.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.

BECAUSE THE FONT IS LICENSED FREE OF

CHARGE, THERE IS NO WARRANTY FOR THE FONT, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS OR OTHER PARTIES PROVIDE THE FONT "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING BUT NOT LIMITED TO THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE FONT IS WITH YOU. SHOULD THE FONT PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING, IN NO EVENT WILL ANY COPYRIGHTTT HOLDERS, OR OTHER PARTIES WHO MAY COPY, MODIFY OR REDISTRIBUTE THE FONT AS PERMITTED ABOVE, BE LIABLE TO YOU FOR ANY DIRECT, INDIRECT, CONSEQUENTIAL, INCIDENTAL, SPECIAL OR EXEMPLARY DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE FONT (INCLUDING BUT NOT LIMITED TO PROCUREMENT OF SUBSTITUTE GOODS OR SERVICES; LOSS OF USE, DATA OR PROFITS; OR BUSINESS INTERRUPTION), EVEN IF SUCH HOLDERS OR OTHER PARTIES HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

Copyright FAQ

=====

1. I don't understand the resale restriction... What gives?

Bitstream is giving away these fonts, but wishes to ensure its

competitors can't just drop the fonts as is into a font sale system

and sell them as is. It seems fair that if Bitstream can't make money

from the Bitstream Vera fonts, their competitors should not be able to

do so either. You can sell the fonts as part of any software package,

however.

2. I want to package these fonts separately for distribution and

sale as part of a larger software package or system. Can I do so?

Yes. A RPM or Debian package is a "larger software package" to begin

with, and you aren't selling them independently by themselves.

See 1. above.

3. Are derivative works allowed?

Yes!

4. Can I change or add to the font(s)?

Yes, but you must change the name(s) of the font(s).

5. Under what terms are derivative works allowed?

You must change the name(s) of the fonts.

This is to ensure the

quality of the fonts, both to protect Bitstream and Gnome. We want to

ensure that if an application has opened a font specifically of these

names, it gets what it expects (though of course, using fontconfig,

substitutions could still could have occurred during font

opening). You must include the Bitstream copyright. Additional

copyrights can be added, as per copyright law. Happy Font Hacking!

6. If I have improvements for Bitstream Vera, is it possible they might get

adopted in future versions?

Yes. The contract between the Gnome Foundation and Bitstream has

provisions for working with Bitstream to ensure quality additions to

the Bitstream Vera font family. Please contact us if you have such

additions. Note, that in general, we will want such additions for the

entire family, not just a single font, and that you'll have to keep

both Gnome and Jim Lyles, Vera's designer, happy! To make sense to add

glyphs to the font, they must be stylistically in keeping with Vera's

design. Vera cannot become a "ransom note" font. Jim Lyles will be

providing a document describing the design elements used in Vera, as a

guide and aid for people interested in contributing to Vera.

7. I want to sell a software package that uses these fonts: Can I do so?

Sure. Bundle the fonts with your software and sell your software

with the fonts. That is the intent of the copyright.

8. If applications have built the names "Bitstream Vera" into them,

can I override this somehow to use fonts of my

choosing?

This depends on exact details of the software. Most open source

systems and software (e.g., Gnome, KDE, etc.) are now converting to

use fontconfig (see www.fontconfig.org) to handle font configuration,

selection and substitution; it has provisions for overriding font

names and substituting alternatives. An example is provided by the

supplied local.conf file, which chooses the family Bitstream Vera for

"sans", "serif" and "monospace". Other software (e.g., the XFree86

core server) has other mechanisms for font substitution.

"Legal Entity" shall mean the union of the acting entity and all

other entities that control, are controlled by, or are under common

control with that entity. For the purposes of this definition,

"control" means (i) the power, direct or indirect, to cause the

direction or management of such entity, whether by contract or

otherwise, or (ii) ownership of fifty percent (50%) or more of the

outstanding shares, or (iii) beneficial ownership of such entity.

transformation or translation of a Source form, including but

not limited to compiled object code, generated documentation,

and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or

Object form, made available under the License, as indicated by a

copyright notice that is included in or attached to the work

"Derivative Works" shall mean any work, whether in Source or Object

form, that is based on (or derived from) the Work and for which the

editorial revisions, annotations, elaborations, or other modifications

separable from, or merely link (or bind by name) to the interfaces of,

the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including

the original version of the Work and any modifications or additions

to that Work or Derivative Works thereof, that is intentionally

submitted to Licensor for inclusion in the Work by the copyright owner

or by an individual or Legal Entity authorized to submit on behalf of

the copyright owner. For the purposes of this definition, "submitted"

means any form of electronic, verbal, or written communication sent

to the Licensor or its representatives, including but not limited to

communication on electronic mailing lists, source code control systems,

Licensor for the purpose of discussing and improving the Work, but

excluding communication that is conspicuously marked or otherwise

designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity

on behalf of whom a Contribution has been received by Licensor and

subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of

this License, each Contributor hereby grants to You a perpetual,

worldwide, non-exclusive, no-charge, royalty-free, irrevocable

copyright license to reproduce, prepare Derivative Works of,

publicly display, publicly perform, sublicense, and distribute the

Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of

this License, each Contributor hereby grants to You a perpetual,

worldwide, non-exclusive, no-charge, royalty-

free, irrevocable

(except as stated in this section) patent license to make, have made,

use, offer to sell, sell, import, and otherwise transfer the Work,

where such license applies only to those patent claims licensable

by such Contributor that are necessarily infringed by their

Contribution(s) alone or by combination of their Contribution(s)

with the Work to which such Contribution(s) was submitted. If You

institute patent litigation against any entity (including a

cross-claim or counterclaim in a lawsuit) alleging that the Work

or a Contribution incorporated within the Work constitutes direct

or contributory patent infringement, then any patent licenses

granted to You under this License for that Work shall terminate

as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the

Work or Derivative Works thereof in any medium, with or without

modifications, and in Source or Object form, provided that You

meet the following conditions:

(a) You must give any other recipients of the Work or

Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices

stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works

that You distribute, all copyright, patent, trademark, and

attribution notices from the Source form of the Work,

excluding those notices that do not pertain to any part of

the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its

distribution, then any Derivative Works that You distribute must

include a readable copy of the attribution notices contained

within such NOTICE file, excluding those notices that do not

pertain to any part of the Derivative Works, in at least one

of the following places: within a NOTICE text file distributed

as part of the Derivative Works; within the Source form or

documentation, if provided along with the Derivative Works; or,

within a display generated by the Derivative Works, if and

wherever such third-party notices normally appear. The contents

of the NOTICE file are for informational purposes only and

do not modify the License. You may add Your own attribution

notices within Derivative Works that You distribute, alongside

or as an addendum to the NOTICE text from the Work, provided

that such additional attribution notices cannot be construed

as modifying the License.

You may add Your own copyright statement to Your modifications and

may provide additional or different license terms and conditions

for use, reproduction, or distribution of Your modifications, or

for any such Derivative Works as a whole, provided Your use,

reproduction, and distribution of the Work otherwise complies with

the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise,

any Contribution intentionally submitted for

inclusion in the Work

by You to the Licensor shall be under the terms and conditions of

this License, without any additional terms or conditions.

Notwithstanding the above, nothing herein shall supersede or modify

the terms of any separate license agreement you may have executed

with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade

names, trademarks, service marks, or product names of the Licensor,

except as required for reasonable and customary use in describing the

origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or

agreed to in writing, Licensor provides the Work (and each

Contributor provides its Contributions) on an "AS IS" BASIS,

WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or

implied, including, without limitation, any warranties or conditions

of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A

PARTICULAR PURPOSE. You are solely responsible for determining the

appropriateness of using or redistributing the Work and assume any

risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory,

whether in tort (including negligence), contract, or otherwise,

unless required by applicable law (such as deliberate and grossly

negligent acts) or agreed to in writing, shall any Contributor be

liable to You for damages, including any

direct, indirect, special,

incidental, or consequential damages of any character arising as a

result of this License or out of the use or inability to use the

Work (including but not limited to damages for loss of goodwill,

work stoppage, computer failure or malfunction, or any and all

other commercial damages or losses), even if such Contributor

has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing

the Work or Derivative Works thereof, You may choose to offer,

and charge a fee for, acceptance of support, warranty, indemnity,

or other liability obligations and/or rights consistent with this

License. However, in accepting such obligations, You may act only

on Your own behalf and on Your sole responsibility, not on behalf

of any other Contributor, and only if You agree to indemnify,

defend, and hold each Contributor harmless for any liability

incurred by, or claims asserted against, such Contributor by reason

of your accepting any such warranty or additional liability.

SIL OPEN FONT LICENSE Version 1.1 - 26 February
2007

PREAMBLE

The goals of the Open Font License (OFL) are to
stimulate worldwide development of collaborative
font projects, to support the font creation efforts of
academic and linguistic communities, and to provide
a free and open framework in which fonts may be
shared and improved in partnership with others.

The OFL allows the licensed fonts to be used,

studied, modified and redistributed freely as long as
they are not sold by themselves. The fonts, including
any derivative works, can be bundled,
embedded, redistributed and/or sold with any
software provided that any reserved names are not
used by derivative works. The fonts and
derivatives, however, cannot be released under any
other type of license. The requirement for fonts to
remain under this license does not apply to any
document created using the fonts or their derivatives.

DEFINITIONS

"Font Software" refers to the set of files released by
the Copyright Holder(s) under this license and clearly
marked as such. This may include source files, build
scripts and documentation.

"Reserved Font Name" refers to any names specified
as such after the copyright statement(s).

"Original Version" refers to the collection of Font
Software components as distributed by the
Copyright Holder(s).

"Modified Version" refers to any derivative made by
adding to, deleting, or substituting -- in part or in
whole -- any of the components of the Original
Version, by changing formats or by porting the Font
Software to a new environment.

"Author" refers to any designer, engineer,
programmer, technical writer or other person who
contributed to the Font Software.

PERMISSION & CONDITIONS

Permission is hereby granted, free of charge, to any
person obtaining

a copy of the Font Software, to use, study, copy,
merge, embed, modify,

redistribute, and sell modified and unmodified copies
of the Font

Software, subject to the following conditions:

1) Neither the Font Software nor any of its individual
components,
in Original or Modified Versions, may be sold by itself.

2) Original or Modified Versions of the Font Software
may be bundled,

redistributed and/or sold with any software, provided
that each copy

contains the above copyright notice and this license.
These can be

included either as stand-alone text files, human-
readable headers or

in the appropriate machine-readable metadata fields
within text or

binary files as long as those fields can be easily viewed by the user.

3) No Modified Version of the Font Software may use the Reserved Font

Name(s) unless explicit written permission is granted by the corresponding

Copyright Holder. This restriction only applies to the primary font name as presented to the users.

4) The name(s) of the Copyright Holder(s) or the Author(s) of the Font

Software shall not be used to promote, endorse or advertise any

Modified Version, except to acknowledge the contribution(s) of the

Copyright Holder(s) and the Author(s) or with their explicit written

5) The Font Software, modified or unmodified, in part or in whole,

must be distributed entirely under this license, and must not be

distributed under any other license. The requirement for fonts to

remain under this license does not apply to any document created

using the Font Software.

TERMINATION

This license becomes null and void if any of the above conditions are not met.

GNU LIBRARY GENERAL PUBLIC LICENSE

Version 2, June 1991

Copyright (C) 1991 Free Software Foundation, Inc.

59 Temple Place - Suite 330, Boston, MA 02111-1307, USA

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

[This is the first released version of the library GPL. It is numbered 2 because it goes with version 2 of the ordinary GPL.]

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public Licenses are intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users.

This license, the Library General Public License, applies to some specially designated Free Software Foundation software, and to any other libraries whose authors decide to use it. You can use it for your libraries, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the

software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the library, or if you modify it.

For example, if you distribute copies of the library, whether gratis or for a fee, you must give the recipients all the rights that we gave you. You must make sure that they, too, receive or can get the source code. If you link a program with the library, you must provide complete object files to the recipients so that they can relink them with the library, after making changes to the library and recompiling it. And you must show them these terms so they know their rights.

Our method of protecting your rights has two steps: (1) copyright the library, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the library.

Also, for each distributor's protection, we want to make certain that everyone understands that there is no warranty for this free library. If the library is modified by someone else and passed on, we want its recipients to know that what they have is not the original version, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that companies distributing free software will individually obtain patent licenses, thus in effect transforming the program into proprietary software. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

Most GNU software, including some libraries, is covered by the ordinary GNU General Public License, which was designed for utility programs. This license, the GNU Library General Public License, applies to certain designated libraries. This license is quite different from the ordinary one; be sure to read it in full, and don't assume that anything in it is the same as in the ordinary license.

The reason we have a separate public license for some libraries is that they blur the distinction we usually make between modifying or adding to a program and simply using it. Linking a program with a library, without changing the library, is in some sense simply using the library, and is analogous to running a utility program or application program. However, in a textual and legal sense, the linked executable is a combined work, a derivative of the original library, and the ordinary General Public License treats it as such.

Because of this blurred distinction, using the ordinary

General Public License for libraries did not effectively promote software sharing, because most developers did not use the libraries. We concluded that weaker conditions might promote sharing better.

However, unrestricted linking of non-free programs would deprive the users of those programs of all benefit from the free status of the libraries themselves. This Library General Public License is intended to permit developers of non-free programs to use free libraries, while preserving your freedom as a user of such programs to change the free libraries that are incorporated in them. (We have not seen how to achieve this as regards changes in header files, but we have achieved it as regards changes in the actual functions of the Library.) The hope is that this will lead to faster development of free libraries.

The precise terms and conditions for copying, distribution and modification follow. Pay close attention to the difference between a "work based on the library" and a "work that uses the library". The former contains code derived from the library, while the latter only works together with the library.

Note that it is possible for a library to be covered by the ordinary General Public License rather than by this special one.

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

A "library" means a collection of software functions and/or data prepared so as to be conveniently linked with application programs (which use some of those functions and data) to form executables.

The "Library", below, refers to any such software library or work which has been distributed under these terms. A "work based on the Library" means either the Library or any derivative work under copyright law: that is to say, a work containing the Library or a portion of it, either verbatim or with modifications and/or translated straightforwardly into another language. (Hereinafter, translation is included without limitation in the term "modification".)

"Source code" for a work means the preferred form of the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the library.

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running a program using the Library is not restricted, and output from such a program is covered only if its contents constitute a work based on the Library (independent of the use of the Library in a tool for writing it). Whether that is true depends on what the Library does and what the program that uses the Library does.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

- a) The modified work must itself be a software library.
- b) You must cause the files modified to carry prominent notices stating that you changed the files and the date of any change.
- c) You must cause the whole of the work to be licensed at no charge to all third parties under the terms of this License.
- d) If a facility in the modified Library refers to a function or a table of data to be supplied by an application program that uses the facility, other than as an argument passed when the facility is invoked, then you must make a good faith effort to ensure that, in the event an application does not supply such function or table, the facility still operates, and performs whatever part of its purpose remains meaningful.

(For example, a function in a library to compute square roots has a purpose that is entirely well-defined independent of the application. Therefore, Subsection 2d requires that any application-supplied function or table used by this function must be optional: if the application does not supply it, the square root function must still compute square roots.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Library, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Library, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Library.

In addition, mere aggregation of another work not based on the Library with the Library (or with a work based on the Library) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

Once this change is made in a given copy, it is irreversible for that copy, so the ordinary GNU General Public License applies to all subsequent copies and derivative works made from that copy.

This option is useful when you wish to copy part of the code of the Library into a program that is not a library.

If distribution of object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place satisfies the requirement to distribute the source code, even though third parties are not compelled to copy the source along with the object code.

However, linking a "work that uses the Library" with the Library creates an executable that is a derivative of the Library (because it contains portions of the Library), rather than a "work that uses the library". The executable is therefore covered by this License. Section 6 states terms for distribution of such executables.

When a "work that uses the Library" uses material from a header file that is part of the Library, the object code for the work may be a derivative work of the Library even though the source code is not. Whether this is true is especially significant if the work can be linked without the Library, or if the work is itself a library. The threshold for this to be true is not precisely defined by law.

If such an object file uses only numerical parameters, data structure layouts and accessors, and small macros and small inline functions (ten lines or less in length), then the use of the object file is unrestricted, regardless of whether it is legally a derivative work. (Executables containing this object code plus portions of the Library will still fall under Section 6.)

Otherwise, if the work is a derivative of the Library, you may distribute the object code for the work under the terms of Section 6. Any executables containing that work also fall under Section 6, whether or not they are linked directly with the Library itself.

You must give prominent notice with each copy of the work that the Library is used in it and that the Library and its use are covered by this License. You must supply a copy of this License. If the work during execution displays copyright notices, you must include the copyright notice for the Library among them, as well as a reference directing the user to the copy of this License. Also, you must do one of these things:

- a) Accompany the work with the complete corresponding machine-readable source code for the Library including whatever changes were used in the work (which must be distributed under Sections 1 and 2 above); and, if the work is an executable linked with the Library, with the complete machine-readable "work that uses the Library", as object code and/or source code, so that the user can modify the Library and then relink to produce a modified executable containing the modified Library. (It is understood that the user who changes the contents of definitions files in the Library will not necessarily be able to recompile the application to use the modified definitions.)
- b) Accompany the work with a written offer, valid for

at least three years, to give the same user the materials specified in Subsection 6a, above, for a charge no more than the cost of performing this distribution.

c) If distribution of the work is made by offering access to copy from a designated place, offer equivalent access to copy the above specified materials from the same place.

d) Verify that the user has already received a copy of these materials or that you have already sent this user a copy.

For an executable, the required form of the "work that uses the Library" must include any data and utility programs needed for reproducing the executable from it. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

It may happen that this requirement contradicts the license restrictions of other proprietary libraries that do not normally accompany the operating system. Such a contradiction means you cannot use both them and the Library together in an executable that you distribute.

a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities. This must be distributed under the terms of the Sections above.

b) Give prominent notice with the combined library of the fact that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply, and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

Each version is given a distinguishing version number. If the Library specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Library does not specify a license version number, you may choose any version ever published by the Free Software Foundation.

How to Apply These Terms to Your New Libraries

If you develop a new library, and you want it to be of the greatest possible use to the public, we recommend making it free software that everyone can redistribute and change. You can do so by permitting redistribution under these terms (or, alternatively, under the terms of the ordinary General Public License).

To apply these terms, attach the following notices to the library. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

one line to give the library's name and an idea of what it does.

This library is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU Lesser General Public License for more details.

You should have received a copy of the GNU Lesser General Public License along with this library; if not, write to the Free Software Foundation, Inc., 59 Temple Place, Suite 330, Boston, MA 02111-1307 USA

Also add information on how to contact you by electronic and paper mail.

You should also get your employer (if you work as a programmer) or your school, if any, to sign a "copyright disclaimer" for the library, if necessary. Here is a sample; alter the names:

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or

merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

You must give any other recipients of the Work or Derivative Works a copy of this License; and

You must cause any modified files to carry prominent notices stating that You changed the files; and

You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. Each User may also freely distribute the Program, whether in its

original form or modified, to any third party or parties, PROVIDED

that the provisions of Section 3 ("NO WARRANTY") will ALWAYS appear

on, or be attached to, the Program, which is distributed substantially

in the same form as set out herein and that such intended

distribution, if actually made, will neither violate or otherwise

contravene any of the laws and regulations of the countries having

jurisdiction over the User or the intended distribution itself.

#

NO WARRANTY

#

The program was produced on an experimental basis in the course of the

research and development conducted during the project and is provided

to users as so produced on an experimental basis. Accordingly, the

program is provided without any warranty whatsoever, whether express,

implied, statutory or otherwise. The term "warranty" used herein

includes, but is not limited to, any warranty of the quality,

performance, merchantability and fitness for a particular purpose of

the program and the nonexistence of any infringement or violation of

any right of any third party.

#

Each user of the program will agree and understand, and be deemed to

have agreed and understood, that there is no warranty whatsoever for

the program and, accordingly, the entire risk arising from or

otherwise connected with the program is assumed by the user.

#

Therefore, neither ICOT, the copyright holder, or any other

organization that participated in or was otherwise related to the

development of the program and their respective officials, directors,

officers and other employees shall be held liable for any and all

damages, including, without limitation, general, special, incidental

and consequential damages, arising out of or otherwise in connection

with the use or inability to use the program or any product, material

or result produced or otherwise obtained by using the program,

regardless of whether they have been advised of, or otherwise had

knowledge of, the possibility of such damages at any time during the

project or thereafter. Each user will be deemed to have agreed to the

foregoing by his or her commencement of use of the program. The term

"use" as used herein includes, but is not limited to, the use,

modification, copying and distribution of the program and the

production of secondary products from the program.

#

In the case where the program, whether in its original form or

modified, was distributed or delivered to or received by a user from

any person, organization or entity other than ICOT, unless it makes or

grants independently of ICOT any specific warranty to the user in

writing, such person, organization or entity, will also be exempted

from and not be held liable to the user for any such damages as noted

above as far as the program is concerned.

5. Time Zone Database

ICU uses the public domain data and code derived from Time Zone Database

for its time zone support. The ownership of the TZ database is explained

in BCP 175: Procedure for Maintaining the Time Zone Database section 7.

1 - Database Ownership

The TZ database itself is not an IETF Contribution or an IETF

document. Rather it is a pre-existing and regularly updated work

that is in the public domain, and is intended to remain in the public

domain. Therefore, BCPs 78 [RFC5378] and 79 [RFC3979] do not apply

to the TZ Database or contributions that individuals make to it.

Should any claims be made and substantiated against the TZ Database,

the organization that is providing the IANA Considerations defined in

this RFC, under the memorandum of understanding with the IETF,

currently ICANN, may act in accordance with all competent court

orders. No ownership claims will be made by ICANN or the IETF Trust

on the database or the code. Any person making a contribution to the

database or code waives all rights to future claims in that

contribution or in the TZ Database.

by the usual distribution terms of the Free Software
Foundation; principally,

that you must include source code if you redistribute
it. (See the file ansi2knr.c for

full details.)

However, since ansi2knr.c is not needed as part

of any program generated from the IJG code, this
does not limit you more than

the foregoing paragraphs do.

The Unix configuration script "configure" was
produced with GNU Autoconf.

It is copyright by the Free Software Foundation but is
freely distributable.

The same holds for its supporting scripts
(config.guess, config.sub,

ltconfig, ltmain.sh). Another support script, install-sh,
is copyright

by M.I.T. but is also freely distributable.

It appears that the arithmetic coding option of the
JPEG spec is covered by

patents owned by IBM, AT&T, and Mitsubishi. Hence
arithmetic coding cannot

legally be used without obtaining one or more
licenses. For this reason,

support for arithmetic coding has been removed from the free JPEG software.

(Since arithmetic coding provides only a marginal gain over the unpatented

Huffman mode, it is unlikely that very many implementations will support it.)

So far as we are aware, there are no patent restrictions on the remaining

The IJG distribution formerly included code to read and write GIF files.

To avoid entanglement with the Unisys LZW patent, GIF reading support has

been removed altogether, and the GIF writer has been simplified to produce

"uncompressed GIFs". This technique does not use the LZW algorithm; the

resulting GIF files are larger than usual, but are readable by all standard

GIF decoders.

We are required to state that

"The Graphics Interchange Format(c) is the Copyright property of

CompuServe Incorporated. GIF(sm) is a Service Mark property of

CompuServe Incorporated."

Unlimited Commercial Use

We try to make it clear that you may use all clipart from Openclipart even for unlimited commercial use. We believe that giving away our images is a great way to share with the world our talents and that will come back around in a better form.

May I Use Openclipart for?

We put together a small chart of as many possibilities and questions we have heard from people asking how they may use Openclipart. If you have an additional question, please email love@openclipart.org.

All Clipart are Released into the Public Domain.

Each artist at Openclipart releases all rights to the images they share at Openclipart. The reason is so that there is no friction in using and sharing images authors make available at this website so that each artist might also receive the same benefit in using other artists clipart totally for any possible reason.

; This is a header file for the x264ASM assembly
language, which uses

; NASM/YASM syntax combined with a large number
of macros to provide easy

; abstraction between different calling conventions
(x86_32, win64, linux64).

; It also has various other useful features to simplify
writing the kind of

; DSP functions that are most often used in x264.

; Unlike the rest of x264, this file is available under an
ISC license, as it

; has significant usefulness outside of x264 and we
want it to be available

; to the largest audience possible. Of course, if you
modify it for your own

; purposes to add a new feature, we strongly
encourage contributing a patch

; as this feature might be useful for others as well.
Send patches or ideas

; to x264-devel@videolan.org .

LICENSE

Copyright 1996-2002,
2006 by
David Turner, Robert Wilhelm, and
Werner Lemberg

Introduction

=====

The FreeType Project is distributed in several archive packages;
some of them may contain, in addition to the FreeType font engine,
various tools and contributions which rely on, or relate to, the
FreeType Project.

This license applies to all files found in such packages, and

which do not fall under their own explicit license. The license affects thus the FreeType font engine, the test programs, documentation and makefiles, at the very least.

This license was inspired by the BSD, Artistic, and IJG (Independent JPEG Group) licenses, which all encourage inclusion and use of free software in commercial and freeware products alike. As a consequence, its main points are that:

- o We don't promise that this software works. However, we will be interested in any kind of bug reports. ('as is' distribution)

- o You can use this software for whatever you want, in parts or full form, without having to pay us. ('royalty-free' usage)

- o You may not pretend that you wrote this software. If you use it, or only parts of it, in a program, you must acknowledge somewhere in your documentation that you have used the FreeType code. ('credits')

We specifically permit and encourage the inclusion of this software, with or without modifications, in commercial products.

We disclaim all warranties covering The FreeType Project and assume no liability related to The FreeType Project.

Finally, many people asked us for a preferred form for a credit/disclaimer to use in compliance with this license. We thus encourage you to use the following text:

""

Portions of this software are copyright ©<year> The FreeType Project (www.freetype.org). All rights reserved.

""

Please replace <year> with the value from the FreeType version you actually use.

Legal Terms

=====

Throughout this license, the terms 'package', 'FreeType Project',

and 'FreeType archive' refer to the set of files originally

distributed by the authors (David Turner, Robert Wilhelm, and

Werner Lemberg) as the 'FreeType Project', be they named as alpha,

beta or final release.

'You' refers to the licensee, or person using the project, where

'using' is a generic term including compiling the project's source

code as well as linking it to form a 'program' or 'executable'.

This program is referred to as 'a program using the FreeType engine'.

This license applies to all files distributed in the original

FreeType Project, including all source code, binaries and

documentation, unless otherwise stated in the file in its

original, unmodified form as distributed in the original archive.

If you are unsure whether or not a particular file is covered by

this license, you must contact us to verify this.

The FreeType Project is copyright (C) 1996-2000 by David Turner, Robert Wilhelm, and Werner Lemberg. All rights reserved except as specified below.

THE FREETYPE PROJECT IS PROVIDED 'AS IS' WITHOUT WARRANTY OF ANY

WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR

PURPOSE. IN NO EVENT WILL ANY OF THE AUTHORS OR COPYRIGHT HOLDERS

BE LIABLE FOR ANY DAMAGES CAUSED BY THE USE OR THE INABILITY TO

USE, OF THE FREETYPE PROJECT.

This license grants a worldwide, royalty-free, perpetual and

irrevocable right and license to use, execute, perform, compile,

display, copy, create derivative works of, distribute and

sublicense the FreeType Project (in both source and object code

forms) and derivative works thereof for any purpose; and to

authorize others to exercise some or all of the rights granted

herein, subject to the following conditions:

o Redistribution of source code must retain this license file

('FTL.TXT') unaltered; any additions, deletions or changes to

the original files must be clearly indicated in accompanying

documentation. The copyright notices of the unaltered,

original files must be preserved in all copies of source

files.

o Redistribution in binary form must provide a

disclaimer that

states that the software is based in part of the work of the

FreeType Team, in the distribution documentation. We also

encourage you to put an URL to the FreeType web page in your

documentation, though this isn't mandatory.

These conditions apply to any software derived from or based on

the FreeType Project, not just the unmodified files. If you use

our work, you must acknowledge us. However, no fee need be paid

to us.

Neither the FreeType authors and contributors nor you shall use

the name of the other for commercial, advertising, or promotional

purposes without specific prior written permission.

We suggest, but do not require, that you use one or more of the

following phrases to refer to this software in your documentation

or advertising materials: 'FreeType Project', 'FreeType Engine',

'FreeType library', or 'FreeType Distribution'.

As you have not signed this license, you are not required to

accept it. However, as the FreeType Project is copyrighted

material, only this license, or another one contracted with the

authors, grants you the right to use, distribute, and modify it.

Therefore, by using, distributing, or modifying the FreeType

Project, you indicate that you understand and accept all the terms

of this license.

There are two mailing lists related to FreeType:

- o freetype@nongnu.org

Discusses general use and applications of FreeType, as well as

future and wanted additions to the library and distribution.

If you are looking for support, start in this list if you

haven't found anything to help you in the documentation.

- o freetype-devel@nongnu.org

Discusses bugs, as well as engine internals, design issues, specific licenses, porting, etc.

B. Any new file that contains any part of the Original Code or

previous Modifications.

1.10. "Original Code" means Source Code of computer software code

Source Code can be in a compressed or archival form, provided the

appropriate decompression or de-archiving software is widely available

for no charge.

1.12. "You" (or "Your") means an individual or a legal entity

exercising rights under, and complying with all of the terms of, this

License or a future version of this License issued under Section 6.1.

For legal entities, "You" includes any entity which controls, is

controlled by, or is under common control with You. For purposes of

this definition, "control" means (a) the power, direct or indirect,

to cause the direction or management of such entity, whether by

contract or otherwise, or (b) ownership of more than fifty percent

(50%) of the outstanding shares or beneficial ownership of such

entity.

2.1. The Initial Developer Grant.

The Initial Developer hereby grants You a world-wide, royalty-free,

non-exclusive license, subject to third party intellectual property

claims:

(a) under intellectual property rights (other than patent or

trademark) Licensable by Initial Developer to use, reproduce,

modify, display, perform, sublicense and distribute the Original

Code (or portions thereof) with or without Modifications, and/or

as part of a Larger Work; and

(b) under Patents Claims infringed by the making, using or

selling of Original Code, to make, have made, use, practice,

sell, and offer for sale, and/or otherwise dispose of the

Original Code (or portions thereof).

(c) the licenses granted in this Section 2.1(a) and (b) are

effective on the date Initial Developer first distributes

Original Code under the terms of this License.

(d) Notwithstanding Section 2.1(b) above, no patent license is

granted: 1) for code that You delete from the Original Code; 2)

separate from the Original Code; or 3) for infringements caused

by: i) the modification of the Original Code or ii) the

combination of the Original Code with other software or devices.

2.2. Contributor Grant.

Subject to third party intellectual property claims, each Contributor

hereby grants You a world-wide, royalty-free, non-exclusive license

(a) under intellectual property rights (other than patent or

trademark) Licensable by Contributor, to use, reproduce, modify,

display, perform, sublicense and distribute the Modifications

created by such Contributor (or portions thereof) either on an

unmodified basis, with other Modifications, as Covered Code

and/or as part of a Larger Work; and

(b) under Patent Claims infringed by the making, using, or

selling of Modifications made by that Contributor either alone

and/or in combination with its Contributor Version (or portions

of such combination), to make, use, sell, offer for sale, have

made, and/or otherwise dispose of: 1) Modifications made by that

Contributor (or portions thereof); and 2) the combination of

Modifications made by that Contributor with its Contributor

Version (or portions of such combination).

(c) the licenses granted in Sections 2.2(a) and 2.2(b) are

effective on the date Contributor first makes Commercial Use of

the Covered Code.

(d) Notwithstanding Section 2.2(b) above, no patent license is

granted: 1) for any code that Contributor has deleted from the

Contributor Version; 2) separate from the Contributor Version;

3) for infringements caused by: i) third party modifications of

Contributor Version or ii) the combination of Modifications made

by that Contributor with other software (except as part of the

Contributor Version) or other devices; or 4) under Patent Claims

infringed by Covered Code in the absence of Modifications made by

that Contributor.

3.1. Application of License.

The Modifications which You create or to which You contribute are

governed by the terms of this License, including without limitation

Section 2.2. The Source Code version of Covered Code may be

distributed only under the terms of this License or a future version

of this License released under Section 6.1, and You must include a

copy of this License with every copy of the Source Code You

distribute. You may not offer or impose any terms on any Source Code

version that alters or restricts the applicable version of this

License or the recipients' rights hereunder. However, You may include

an additional document offering the additional rights described in

Section 3.5.

3.2. Availability of Source Code.

Any Modification which You create or to which You contribute must be

made available in Source Code form under the terms of this License

either on the same media as an Executable version or via an accepted

Electronic Distribution Mechanism to anyone to whom you made an

Executable version available; and if made available via Electronic

Distribution Mechanism, must remain available for at least twelve (12)

months after the date it initially became available, or at least six

(6) months after a subsequent version of that particular Modification

has been made available to such recipients. You are responsible for

ensuring that the Source Code version remains available even if the

Electronic Distribution Mechanism is maintained by a third party.

3.3. Description of Modifications.

You must cause all Covered Code to which You contribute to contain a

file documenting the changes You made to create that Covered Code and

the date of any change. You must include a prominent statement that

the Modification is derived, directly or indirectly, from Original

Code provided by the Initial Developer and including the name of the

Initial Developer in (a) the Source Code, and (b) in any notice in an

Executable version or related documentation in which You describe the

origin or ownership of the Covered Code.

3.4. Intellectual Property Matters

(a) Third Party Claims.

If Contributor has knowledge that a license under a third party's

intellectual property rights is required to exercise the rights

granted by such Contributor under Sections 2.1 or 2.2,

Contributor must include a text file with the Source Code

distribution titled "LEGAL" which describes the claim and the

party making the claim in sufficient detail that a recipient will

know whom to contact. If Contributor obtains such knowledge after

the Modification is made available as described in Section 3.2,

Contributor shall promptly modify the LEGAL file in all copies

Contributor makes available thereafter and shall take other steps

(such as notifying appropriate mailing lists or newsgroups)

reasonably calculated to inform those who received the Covered

Code that new knowledge has been obtained.

(b) Contributor APIs.

If Contributor's Modifications include an application programming

interface and Contributor has knowledge of patent licenses which

are reasonably necessary to implement that API, Contributor must

also include this information in the LEGAL file.

(c) Representations.

Contributor represents that, except as disclosed pursuant to

Section 3.4(a) above, Contributor believes that Contributor's

Modifications are Contributor's original creation(s) and/or

Contributor has sufficient rights to grant the rights conveyed by

this License.

3.5. Required Notices.

You must duplicate the notice in Exhibit A in each file of the Source

Code. If it is not possible to put such notice in a particular Source

Code file due to its structure, then You must include such notice in a

location (such as a relevant directory) where a

user would be likely

to look for such a notice. If You created one or more Modification(s)

You may add your name as a Contributor to the notice described in

Exhibit A. You must also duplicate this License in any documentation

for the Source Code where You describe recipients' rights or ownership

rights relating to Covered Code. You may choose to offer, and to

charge a fee for, warranty, support, indemnity or liability

obligations to one or more recipients of Covered Code. However, You

may do so only on Your own behalf, and not on behalf of the Initial

Developer or any Contributor. You must make it absolutely clear than

any such warranty, support, indemnity or liability obligation is

offered by You alone, and You hereby agree to indemnify the Initial

Developer and every Contributor for any liability incurred by the

Initial Developer or such Contributor as a result of warranty,

support, indemnity or liability terms You offer.

3.6. Distribution of Executable Versions.

You may distribute Covered Code in Executable form only if the

requirements of Section 3.1–3.5 have been met for that Covered Code,

and if You include a notice stating that the Source Code version of

the Covered Code is available under the terms of this License,

including a description of how and where You have fulfilled the

obligations of Section 3.2. The notice must be conspicuously included

in any notice in an Executable version, related documentation or

collateral in which You describe recipients' rights relating to the

Covered Code. You may distribute the Executable version of Covered

Code or ownership rights under a license of Your choice, which may

contain terms different from this License, provided that You are in

compliance with the terms of this License and that the license for the

Executable version does not attempt to limit or alter the recipient's

rights in the Source Code version from the rights set forth in this

License. If You distribute the Executable version under a different

license You must make it absolutely clear that any terms which differ

from this License are offered by You alone, not by the Initial

Developer or any Contributor. You hereby agree to indemnify the

Initial Developer and every Contributor for any liability incurred by

the Initial Developer or such Contributor as a result of any such

terms You offer.

3.7. Larger Works.

You may create a Larger Work by combining Covered Code with other code

not governed by the terms of this License and distribute the Larger

Work as a single product. In such a case, You must make sure the

requirements of this License are fulfilled for the Covered Code.

If it is impossible for You to comply with any of the terms of this

License with respect to some or all of the Covered Code due to

statute, judicial order, or regulation then You must: (a) comply with

the terms of this License to the maximum extent possible; and (b)

describe the limitations and the code they affect. Such description

must be included in the LEGAL file described in Section 3.4 and must

be included with all distributions of the Source Code. Except to the

extent prohibited by statute or regulation, such description must be

sufficiently detailed for a recipient of ordinary skill to be able to

understand it.

This License applies to code to which the Initial Developer has

attached the notice in Exhibit A and to related Covered Code.

6.1. New Versions.

Netscape Communications Corporation ("Netscape") may publish revised

and/or new versions of the License from time to time. Each version

will be given a distinguishing version number.

6.2. Effect of New Versions.

Once Covered Code has been published under a particular version of the

License, You may always continue to use it under the terms of that

version. You may also choose to use such Covered Code under the terms

of any subsequent version of the License published by Netscape. No one

other than Netscape has the right to modify the terms applicable to

Covered Code created under this License.

6.3. Derivative Works.

If You create or use a modified version of this License (which you may

only do in order to apply it to code which is not already Covered Code

governed by this License), You must (a) rename Your license so that

the phrases "Mozilla", "MOZILLAPL", "MOZPL", "Netscape",

"MPL", "NPL" or any confusingly similar phrase do not appear in your

license (except to note that your license differs from this License)

and (b) otherwise make it clear that Your version of the license

contains terms which differ from the Mozilla

Public License and

Netscape Public License. (Filling in the name of the Initial

Developer, Original Code or Contributor in the notice described in

Exhibit A shall not of themselves be deemed to be modifications of

this License.)

COVERED CODE IS PROVIDED UNDER THIS LICENSE ON AN "AS IS" BASIS,

WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING,

WITHOUT LIMITATION, WARRANTIES THAT THE COVERED CODE IS FREE OF

DEFECTS, MERCHANTABILITY, FIT FOR A PARTICULAR PURPOSE OR NON-INFRINGEMENT.

THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE COVERED CODE

IS WITH YOU. SHOULD ANY COVERED CODE PROVE DEFECTIVE IN ANY RESPECT,

YOU (NOT THE INITIAL DEVELOPER OR ANY OTHER CONTRIBUTOR) ASSUME THE

COST OF ANY NECESSARY SERVICING, REPAIR OR CORRECTION. THIS DISCLAIMER

OF WARRANTY CONSTITUTES AN ESSENTIAL PART OF THIS LICENSE. NO USE OF

ANY COVERED CODE IS AUTHORIZED HEREUNDER EXCEPT UNDER THIS DISCLAIMER.

8.1. This License and the rights granted hereunder will terminate

automatically if You fail to comply with terms herein and fail to cure

such breach within 30 days of becoming aware of the breach. All

sublicenses to the Covered Code which are properly granted shall

survive any termination of this License. Provisions which, by their

nature, must remain in effect beyond the termination of this License

shall survive.

8.2. If You initiate litigation by asserting a patent infringement

claim (excluding declaratory judgment actions) against Initial Developer

or a Contributor (the Initial Developer or Contributor against whom

You file such action is referred to as "Participant") alleging that:

(a) such Participant's Contributor Version directly or indirectly

infringes any patent, then any and all rights granted by such

Participant to You under Sections 2.1 and/or 2.2 of this License

shall, upon 60 days notice from Participant terminate prospectively,

unless if within 60 days after receipt of notice You either: (i)

agree in writing to pay Participant a mutually agreeable reasonable

royalty for Your past and future use of Modifications made by such

Participant, or (ii) withdraw Your litigation claim with respect to

the Contributor Version against such Participant. If within 60 days

of notice, a reasonable royalty and payment arrangement are not

mutually agreed upon in writing by the parties or the litigation claim

is not withdrawn, the rights granted by Participant to You under

Sections 2.1 and/or 2.2 automatically terminate at the expiration of

the 60 day notice period specified above.

(b) any software, hardware, or device, other than such Participant's

Contributor Version, directly or indirectly infringes any patent, then

any rights granted to You by such Participant under Sections 2.1(b)

and 2.2(b) are revoked effective as of the date You first made, used,

sold, distributed, or had made, Modifications made by that

Participant.

8.3. If You assert a patent infringement claim against Participant

alleging that such Participant's Contributor

Version directly or

indirectly infringes any patent where such claim is resolved (such as

by license or settlement) prior to the initiation of patent

infringement litigation, then the reasonable value of the licenses

granted by such Participant under Sections 2.1 or 2.2 shall be taken

into account in determining the amount or value of any payment or

license.

8.4. In the event of termination under Sections 8.1 or 8.2 above,

all end user license agreements (excluding distributors and resellers)

which have been validly granted by You or any distributor hereunder

prior to termination shall survive termination.

UNDER NO CIRCUMSTANCES AND UNDER NO LEGAL THEORY, WHETHER TORT

(INCLUDING NEGLIGENCE), CONTRACT, OR OTHERWISE, SHALL YOU, THE INITIAL

DEVELOPER, ANY OTHER CONTRIBUTOR, OR ANY DISTRIBUTOR OF COVERED CODE,

OR ANY SUPPLIER OF ANY OF SUCH PARTIES, BE LIABLE TO ANY PERSON FOR

ANY INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES OF ANY

CHARACTER INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOSS OF GOODWILL,

WORK STOPPAGE, COMPUTER FAILURE OR MALFUNCTION, OR ANY AND ALL OTHER

COMMERCIAL DAMAGES OR LOSSES, EVEN IF SUCH PARTY SHALL HAVE BEEN

INFORMED OF THE POSSIBILITY OF SUCH DAMAGES. THIS LIMITATION OF

LIABILITY SHALL NOT APPLY TO LIABILITY FOR DEATH OR PERSONAL INJURY

RESULTING FROM SUCH PARTY'S NEGLIGENCE TO THE EXTENT APPLICABLE LAW

PROHIBITS SUCH LIMITATION. SOME JURISDICTIONS DO NOT ALLOW THE

EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO

THIS EXCLUSION AND LIMITATION MAY NOT

APPLY TO YOU.

The Covered Code is a "commercial item," as that term is defined in

48 C.F.R. 2.101 (Oct. 1995), consisting of "commercial computer

software" and "commercial computer software documentation," as such

terms are used in 48 C.F.R. 12.212 (Sept. 1995). Consistent with 48

C.F.R. 12.212 and 48 C.F.R. 227.7202-1 through 227.7202-4 (June 1995),

all U.S. Government End Users acquire Covered Code with only those

rights set forth herein.

This License represents the complete agreement concerning subject

matter hereof. If any provision of this License is held to be

unenforceable, such provision shall be reformed only to the extent

necessary to make it enforceable. This License shall be governed by

California law provisions (except to the extent applicable law, if

any, provides otherwise), excluding its conflict-of-law provisions.

With respect to disputes in which at least one party is a citizen of,

or an entity chartered or registered to do business in the United

States of America, any litigation relating to this License shall be

subject to the jurisdiction of the Federal Courts of the Northern

District of California, with venue lying in Santa Clara County,

California, with the losing party responsible for costs, including

without limitation, court costs and reasonable attorneys' fees and

Fadhbanna

Cas Air agus Cianrialtán

Ní chasann an teilifís air

- Bain an cábla cumhachta amach as an asraon cumhachta. Fan ar feadh nóiméid agus ansin cuir isteach arís é.
- Cinntigh go bhfuil an cábla cumhachta nasctha go daingean.

Tá fuaime dhíosacánach ann nuair a chastar air nó as é

Nuair a bhíonn tú ag casadh na teilifíse air, as nó ar Fhuireachas, cloiseann tú fuaime dhíosacánach ó fhonnadh na teilifíse. Is mar gheall ar ghnáthleathadh agus cungú na teilifíse an fhuaim dhíosacánach sin, agus an teilifís ag fuarú agus ag téamh. Ní chuireann sé isteach ar fheidhmíocht.

Ní fhreagraíonn an teilifís don chianrialtán

Teastaíonn roinnt ama ón teilifís tosú. I rith an ama sin, ní fhreagraíonn an teilifís don chianrialtán ná do rialcúithe na teilifíse. Is gnáthiompar é sin. Má leanann an teilifís gan freagairt don chianrialtán, is féidir leat seiceáil an bhfuil an cianrialtán ag obair trí úsáid a bhaint as ceamara ar fhón soghluaiste. Cuir an fón i mód ceamar agus pointeáil an cianrialtán i dtreo lionsa an cheamara. Má bhrúnn tú aon eochair ar an gcianrialtán agus má thugann tú faoi deara caochaíl infiridhearg an LED tríd an gceamara, tá an cianrialtán ag obair. Ní mór an teilifís a sheiceáil. Mura bhfuil an caochaíl le tabhairt faoi deara, d'fhéadfadh an cianrialtán a bheith briste nó d'fhéadfadh a gceallraí a bheith briste. Ní féidir an modh seo chun an cianrialtán a sheiceáil a úsáid le cianrialtáin atá péireáilte leis an teilifís gan sreang.

Téann an teilifís ar ais go Fuireachas tar éis scáileán tosaithe Philips a thaispeáint

Nuair atá an teilifís i bhFuireachas, taispeántar scáileán tosaithe Philips, ansin filleann an teilifís ar mhód Fuireachais. Is gnáthiompar é sin. Nuair a dhínasctar an teilifís agus nuair a nasctar arís í leis an soláthar cumhachta, taispeántar an scáileán tosaithe an chéad uair eile a thosaítear í. Chun an teilifís a chasadh air ó Fhuireachas, brúigh  ar an gcianrialtán nó ar an teilifís.

Coinníonn an solas Fuireachais leis ag caochaíl

Bain an cábla cumhachta amach as an asraon cumhachta. Fan 5 nóiméad sula nascann tú an cábla cumhachta arís. Má tharlaíonn an caochaíl arís, déan teagmháil le Philips TV Consumer Care.

Cainéil

Níor aimsíodh aon chainéal digiteach i rith na suiteála

Féach ar na sonraíochtaí teicniúla chun a chinntiú go dtacaíonn do theilifís le DVB-T nó DVB-C i do thír. Cinntigh go bhfuil na cáblaí nasctha i gceart agus go bhfuil an líonra ceart roghnaithe.

Níl na cainéil a suiteáladh roimhe seo sa liosta cainéal

Cinntigh go bhfuil an liosta cainéal ceart roghnaithe.

Pictiúr

Gan pictiúr / pictiúr díchumtha

- Cinntigh go bhfuil an aeróg nasctha leis an teilifís i gceart.
- Cinntigh go bhfuil an gléas ceart roghnaithe mar an fhoinsé taispeána.
- Cinntigh go bhfuil an gléas nó foinse sheachtrach nasctha i gceart.

Tá fuaime ann ach níl aon phictiúr

- Cinntigh go bhfuil na socruithe pictiúr socraithe i gceart.

Glacadh aeróige lag

- Cinntigh go bhfuil an aeróg nasctha leis an teilifís i gceart.
- Tá callairí arda, gléasanna fuaime nach bhfuil talmhaithe, soilse neon, foirgnimh arda agus rudaí móra eile in ann tionchar a imirt ar chaighdeán an ghlactha. Más féidir, déan iarracht caighdeán an ghlactha a fheabhsú trí threo na haeróige a athrú nó gléasanna a bhogadh amach ón teilifís.
- Má tá an glacadh go dona díreach ar chainéal amháin, déan míntiúnadh ar an gcainéal sin.

Drochphictiúr ó ghléas

- Cinntigh go bhfuil an gléas nasctha i gceart.
- Cinntigh go bhfuil na socruithe pictiúr socraithe i gceart.

Athraíonn socruithe pictiúr tar éis scathaimh

Cinntigh go bhfuil **Suíomh** socraithe do **Baile** . Is féidir socruithe a athrú agus a shábháil sa mhód seo.

Tá meirge tráchtála ar taispeáint

Cinntigh go bhfuil **Suíomh** socraithe do **Baile** .

Ní oireann an pictiúr don scáileán

Athraigh go formáid pictiúr éagsúil.

Tá suíomh an phictiúir mícheart

Is féidir nach n-oirfeadh comharthaí pictiúr ó ghléasanna áirithe don scáileán i gceart. Seiceáil aschur comhartha an ghléis nasctha.

Níl an pictiúr ríomhaire cobhsaí

Cinntigh go n-úsáideann do ríomhaire an taifeach agus ráta athnuacha a dtacaítear leo.

Fuaim

Gan aon fhuaim nó droch-chaighdeán fuaime

Mura mbraitear aon chomhartha fuaime, casanna an teilifís an aschur fuaime as go huathoibríoch — ní chiallaíonn sé sin mífheidhm.

- Cinntigh go bhfuil na socruithe fuaime socraithe i gceart.
- Cinntigh go bhfuil gach cábla nasctha i gceart.
- Cinntigh nach bhfuil an airde fuaime balbhaithe nó socraithe go nialas.
- Cinntigh go bhfuil aschur fuaime na teilifíse nasctha le hionchur fuaime an Chóras Amharclainne Baile. Ba cheart go mbeadh fuaim le cloisteáil ó challairí an HTS.
- D'fhéadfadh roinnt gléasanna iarraidh ort aschur fuaime HDMI a chumasú de láimh. Má tá fuaim HDMI cumasaithe cheana féin, ach fós ní chloiseann tú aon fhuaim, bain triail as an fhormaid fuaime digití a athrú go PCM (Modhnú Bíogchóid). Féach ar an gcáipéisíocht a tháinig le do ghléas le haghaidh treoracha.

HDMI agus USB

HDMI

- Tabhair faoi deara go bhféadfadh tacaíocht HDCP (Cosaint Ábhar Digiteach Ard-Bandaleithead) in ann moill a chur ar an méid ama a thógann sé do theilifís ábhar ó ghléas HDMI a thaispeáint.
- Mura n-aithníonn an teilifís an gléas HDMI agus mura bhfuil aon phictiúr ar taispeáint, athraigh an fhoinsé ó ghléas amháin go gléas eile agus ar ais arís.
- Má tá pictiúr agus fuaim gléis atá nasctha le **HDMI 3** nó **HDMI 4** díchumtha, nasc an gléas le **HDMI 1** nó **HDMI 2** ar an teilifís seo.
- Má tá pictiúr agus fuaim gléis atá nasctha le HDMI díchumtha, bain triail as socrú éagsúil **HDMI Ultra HD** chun an fhadhb a réiteach. In Cabhair, brúigh an eochair datha  **Eochairfhocail** agus déan cuardach do **HDMI Ultra HD**.
- Má chuirtear isteach ar an bhfuaim go heatramhach, cinntigh go bhfuil na socruithe aschuir ón ngléas HDMI ceart.
- Má tá cuibheoir HDMI-go-DVI nó cábla HDMI-go-DVI in úsáid agat, cinntigh go bhfuil cábla fuaime breise nasctha le AUDIO IN (mion-seac amháin), más ann dó.

Ní oibríonn HDMI EasyLink

- Cinntigh go bhfuil do ghléasanna HDMI comhoiriúnach le HDMI-CEC. Ní oibríonn gnéithe EasyLink ach amháin le gléasanna atá comhoiriúnach le HDMI-CEC.

Níl an deilbhín don airde fuaime ar taispeáint
• Nuair atá gléas fuaime HDMI–CEC nasctha agus nuair a úsáideann tú Cianrialtán na Teilifíse chun an airde fuaime a athrú ón ngléas, is gnáthiompar é sin. Ní thaispeántar grianghraif, físeáin agus ceol ó ghléas USB

• Cinntigh go bhfuil an gléas stórála USB socraithe chun a bheith comhoiriúnach le hAicme Ollstórála, mar atá curtha síos air i gcáipéisíocht an ghléis stórála.
• Cinntigh go bhfuil an gléas stórála USB comhoiriúnach leis an teilifís.
• Cinntigh go dtacaíonn an teilifís na formáidí comhaid fuaime agus pictiúir.

Athsheinnt briste comhad USB

• D'fhéadfadh feidhmíocht aistrithe an ghléis stórála USB srian a chur ar an ráta aistrithe sonraí chuig an teilifís, a bhfuil athsheinnt briste mar thoradh uirthi.

Ná triail an teilifís a athdheisiú tú féin. D'fhéadfá tú féin a ghortú go dona, damáiste nach féidir é a leigheas a dhéanamh do do theilifís nó do bharánta a chur ar ceal.

Sábháilteacht agus Cúram

Sábháilteacht

Tábhachtach

Léigh agus tuig gach treoir sábháilteachta sula n-úsáidfídh tú an teilifís. Má tharlaíonn díobháil mar nár leanadh treoracha, ní bheidh feidhm ag an mbaránta.

Baol Turrainge Leictrí nó Tine

- Ná nocht an teilifís don bháisteach nó d'uisce. Ná cuir soithí ina mbíonn leachtanna, cosúil le vásaí, in aice leis an teilifís.
- Má dhoirtear leachtanna ar an teilifís, nó isteach inti, dínasc an teilifís ón asraon cumhachta láithreach. Déan teagmháil le Cúram Custaiméirí Philips TV chun an teilifís a sheiceáil sula n-úsáidfí í.
- Ná nocht an teilifís, an cianrialtán ná ceallraí go deo do theas iomarcach. Ná cuir in aice le coinnle ar lasadh nó lasracha gan chosaint iad, ná in aice le foinsí teasa iad, lena n-áirítear teas díreach na gréine.
- Ná cuir aon rud isteach sna slótáin aeraithe go deo, ná sna hoscailtí eile ar an teilifís.
- Ná cuir rudaí troma go deo ar an seolán cumhachta.
- Ná bíodh aon neart á imirt ar na plugaí cumhachta. Tá plugaí cumhachta scaoilte in ann a bheith ina n-údar do stuáil nó do thine. Bí cinnte nach mbeidh aon straidhn ar an seolán cumhachta nuair a sclóineann tú scáileán na teilifíse.
- Chun an teilifís a dínascadh ó chumhacht an phríomhlíonra, ní mór pluga cumhachta na teilifíse a dínascadh. Nuair atá an chumhacht a dínascadh agat, tarraing an pluga cumhachta i gcónaí, ná tarraing an seolán go deo. Bí cinnte go bhfuil rochtain iomlán agat ar an bpluga cumhachta, an seolán cumhachta agus ar an soicéad asraoin i gcónaí.

Baol Gortuithe nó Baol Díobhála don teilifís

- Teastaíonn beirt chun teilifís atá níos troime ná 25 cileagram nó 55 punt a iompar.
- Má ghléasann tú an teilifís ar sheastán, ná húsáid ach an seastán a tháinig léi. Daingnigh an seastán leis an teilifís go maith.
- Lonnaigh an teilifís ar dhromchla réidh cothrom atá in ann glacadh le meáchan na teilifíse agus an seastáin.
- Nuair atá sé gléasta ar an mballa, bí cinnte go bhfuil

an gléasadh balla in ann meáchan na teilifíse a iompar go sábháilte. Ní ghlacann TP Vision le haon fhreagracht as gléasadh balla míchuí a mbeidh tionóisc, gortú nó damáiste mar thoradh air.

- Is as gloine atá píosaí den táirge déanta. Láimhseáil go cúramach é chun gortú nó damáiste a sheachaint.

Baol damáiste don teilifís

Sula nascaidh tú an teilifís leis an asraon cumhachta, cinntigh go bhfuil an voltas cumhachta ag meaitseáil an luach atá priontáilte ar chúl na teilifíse. Ná nasc an teilifís go deo leis an asraon cumhachta má tá voltas éagsúil ann.

Baol Gortuithe do Pháistí

Lean na réamhchúraim seo chun nach mbeidh an teilifís ina údar gortuithe do pháistí má thiteann sé ón seastán:

- Ná cuir an teilifís go deo ar dhromchla atá clúdaithe le héadach nó le hábhar eile ar féidir é a tharraingt.
- Bí cinnte nach bhfuil aon chuid den teilifís ag gobadh amach thar imeall an dromchla gléasta.
- Ná cuir an teilifís go deo ar throsacán ard, cosúil le leabhragán, gan an troscán agus an teilifís araon a bheith daingnithe don bhalla nó do thaca feiliúnach.
- Labhair le leanaí faoi na contúirtí a bhaineann le bheith ag dreapadóireacht ar throsacán chun dul chomh fada leis an teilifís.

An baol a bhaineann le ceallraí a shlogadh!

D'fhéadfadh ceallraí atá cosúil le boinn airgid a bheith sa chianrialtán agus d'fhéadfadh leanaí óga iad a shlogadh go héasca. Ná bíodh leanaí in ann rochtain a fháil ar na ceallraí seo go deo.

Baol Róthéite

Ná cuir an teilifís go deo in áit a bhfuil an spás cúng ann. Bíodh spás 20 ceintiméadar nó 4 orlach ar a laghad timpeall na teilifíse i gcónaí le haghaidh aeraithe. Bí cinnte nach gclúdaíonn cuirtíní nó rudaí eile slótáin aeraithe na teilifíse.

Stoirmeacha Tintrí

Dínasc an teilifís ón asraon cumhachta agus ón aeróg roimh stoirmeacha tintrí.

Ná leag do lámh ar aon chuid den teilifís, an seológ cumhachta nó cábla na haeróige i rith stoirmeacha tintrí.

Baol Damáiste Éisteachta

Ná húsáid cluasáin ar feadh tréimhsí fada nuair a bhíonn an fhuaim an-ard agat.

Teochtaí Ísle

Má iompraítear an teilifís nuair atá an teocht níos lú ná 5°C nó 41°F, díphacáil an teilifís agus fan go dtí go mbeidh teocht an tseomra bainte amach ag an teilifís sula nascfaidh tú an teilifís leis an asraon cumhachta.

Bogthaise

Tá sé in ann tarlú go hannamh, ag brath ar theocht agus ar bhogthaise, go mbeidh mion-comhdhlúthú ar an taobh istigh d'aghaidh ghloine na teilifíse (ar roinnt múnlaí). Chun é seo a chosc, ná nocht an teilifís do sholas díreach na gréine, do theas ná do an-bhogthaise. Má bhíonn comhdhlúthú ann, imeoidh sé leis féin tar éis don teilifís a bheith air ar feadh roinnt uaireanta.

Ní dhéanfaidh taise an bhogthaise aon dochar don teilifís agus ní bheidh sé ina údar mífheidhme.

24.2

Cúram Scáileáin

- Ná bíodh aon rud i dteagmáil leis an scáileán agus ná húsáid aon rud chun an scáileán a bhrú, a chuimilt nó a bhualadh.
- Bain amach pluga na teilifíse sula nglanann tú í.
- Glan an teilifís agus an fráma le ceirt bhog thais agus cuimil go séimh í. Ná déan teagmháil leis na LEDanna Ambilight ar chúl na teilifíse. Ná húsáid substaintí cosúil le halcól, ceimicigh nó glantóirí tí ar an teilifís.
- Chun dífhoirmithe agus téaltú na ndathanna a sheachaint, glan suas braonta uisce chomh tapaigh agus is féidir.
- Seachain íomhánna cónaitheacha a mhéid is féidir. Íomhánna a fhanann ar an scáileán ar feadh tréimhsí fada iad íomhánna cónaitheacha. Áirítear le híomhánna cónaitheacha roghchláir ar an scáileán, barraí dubha, taispeántaí ama, srl. Má chaitheann tú íomhánna cónaitheacha a úsáid, laghdaigh codarsnacht agus gile an scáileán chun damáiste don scáileán a sheachaint.

Nó tabhair cuairt ar ár láithreán gréasáin www.philips.com/support agus roghnaigh do thír más gá. Cuirfear an baránta ar neamhní má dhéantar aon oibríocht atá toirmiscithe go sainráite sa treoirleabhar seo, nó aon choigeartú nó nós imeachta cóimeála nach bhfuil molta ná údaraithe sa

treoirleabhar seo.

Tréithe pictéilín

Tá líon ard pictéilíní daite ag an táirge TV seo. Cé go bhfuil pictéilíní éifeachtacha de 99.999% nó níos airde aige, d'fhéadfaí poncanna dubha nó pointí geala solais (dearg, uaine nó gorm) a bheith ar taispeáint go leanúnach ar an scáileán. Airí struchtúrtha de chuid na taispeána é seo (laistigh de ghnáthchaighdeáin an tionscail) agus ní mífhéidhm é.
