sense and simplicity

# Highlights

## (Patented) Super Lift & Cut

The first blade raises each hair while the second blade comfortably cuts it below skin level, for a really smooth result.

## Anti-slip grip

The grip's unique, ergonomic design and anti-slip materials make it easy to shave with precision and comfort.

## Aquatec wet and dry

The AquaTec seal on the Philips electric shaver makes it 100% waterproof. Use it in the shower with your favorite shaving gel or foam for extra skin comfort. Naturally you can also shave dry for convenience

## Cordless use only

An efficient, powerful lithium-ion battery gives you more shaves per charge. Charge it for an hour and you'll have up to 60 minutes of shaving time – that's around 20 shaves. The shaver automatically adjusts its power to suit the way you shave, so your actual shaving time may vary. Charge it for 3 minutes and you'll have enough power for one shave.

## Skin protection system

Rounded low-friction heads adjust to the contours of your face to limit skin irritation.

## SkinGlide system

The low-friction SkinGlide shaving surface slides smoothly along your skin for a close, easy shave.

## Pivoting and Flexing Heads

Flexing heads stay in close contact with your skin, while the pivoting neck adds an extra dimension of movement – all giving you a close, fast, and comfortable shave.

## TripleTrack heads

TripleTrack heads with three shaving tracks cover 50% more skin surface at a time., while comfortably shaving both long hair and stubble.

## Water-resistant

For easy cleaning, and wet & dry use
