- Optional accessories: Plug-in Microphone LFH9171, Tie Clip Microphone LFH9173, Stereo Headphones LFH2236

# Highlights

## Easy file organisation

The VoiceTracer digital recorder supports up to 99 recordings in each of four available folders to help organise your files in a fast and easy way.

## Extra large display

The large graphical display lets you view all important file information at a glance.

## Instant one-touch recording

Press and hold the record button for a moment to switch the Digital Voice Tracer on and start recording instantly.

## Lightweight design

Small and lightweight, you'll hardly notice it's with you. Pop it in your pocket or bag and take it anywhere. The durable casing and attractive, ergonomic design will make you want to carry it everywhere you go.

## Microphone-earphone combi

This microphone-earphone combination has been designed for recording and playing back recordings with a single and small device. The microphone-earphone combination comes complete with a tie clip, allowing you to attach it to your clothing and talk while you walk!

## USB mass storage device

As a USB mass storage device, the Voice Tracer offers a convenient way to save, back up and move files. The Voice Tracer connects to a computer using a USB connection and does not require special software to be installed. The Voice Tracer is automatically displayed as a removable drive, allowing you to simply drag and drop files to and from the unit.

## Voice-activated recording

Voice-activated recording is a convenience feature for hands-free recording. When enabled, recording will start automatically when you start speaking. Recordings stop automatically after you stop speaking and restart automatically when you start speaking again.
