## Audio systems

- Output power in total: 50W
- Speaker output power: 2 x 12.5 W
- Subwoofer output power: 20 W

## Tuner/Reception/Transmission

- Tuner bands: FM

# Highlights

## 50W RMS

This Philips speaker has 50W RMS total output power. RMS refers to Root Mean Square which is a typical measurement of audio power, or rather, the electrical power transferred from an audio amplifier to a loudspeaker, which is measured in watts. The amount of electrical power delivered to the loudspeaker and its sensitivity determines the sound power that is generated. The higher the wattage, the better the sound power emitted by the speaker.

## USB and SD card slots

Thanks to the complete file transferability, you can easily enjoy the convenience and fun of accessing more music and photos via the USB and SD card slots.

## FM tuner

The built-in FM tuner lets you enjoy your favorite songs or news from your radio station every day. Simply tune into the station that you want to listen.

## AUX-in for easy connection

AUX-in for easy connection to almost any electronic device

## Compatible with any media

Compatible with any media

## Rich bass

This Philips PC speaker provides good sound quality with a rich bass experience from a loudspeaker box system.

## Stereo sound

Lifelike stereo sound to enhance your listening experience

## AUDIO-IN (3.5mm)

Make one easy connection and enjoy all your music from portable devices and computers. Simply plug your device to the AUDIO-IN (3.5 mm) port on your Philips set. With computers, the connection is typically made from the headset output. Once linked, you can enjoy your entire music collection directly, on a set of superior speakers. Philips simply delivers better sound.

## Speaker-front control

Convenient speaker-front volume and power control
