- Perfect match with your TV, just place it on top
- Volume knob for easy control

Richer sound for watching TV and movies

- Virtual Surround Sound for a realistic movie experience
- Integrated subwoofer for powerful bass
- Dolby Digital for ultimate movie experience

PHILIPS

Highlights

Virtual Surround Sound

Philips Virtual Surround Sound produces rich and immersive surround sound from a less than five-speaker system. Highly advanced spatial algorithms faithfully replicate the sonic characteristics that occur in an ideal 5.1-channel environment. Any high quality stereo source is transformed into true-to-life, multi-channel surround sound. No need to purchase extra speakers, wires or speaker stands to appreciate room-filling sound.

Dolby Digital

Because Dolby Digital standards, the world's leading digital multi-channel audio standards, make use of the way the human ear naturally

processes sound, you experience superb quality surround sound audio with realistic spatial cues.

Bluetooth wireless streaming

Bluetooth wireless music streaming from your music devices

NFC technology

Pair Bluetooth devices easily with one-touch NFC (Near Field Communications) technology. Just tap the NFC-enabled smartphone or tablet on the NFC area of a speaker to turn the speaker on, start Bluetooth pairing and begin streaming music.

USB

Enjoy MP3/WMA music directly from your portable USB devices

Audio in

Audio-in allows you to easily play your music directly from your iPod/iPhone/iPad, MP3 player or laptop via a simple connection to your home cinema. Simply connect your audio device to the Audio-in jack to enjoy your music with the superior sound quality of the Philips home cinema system.

Works with multiple devices

Works with TVs, BD/DVD players, gaming consoles, MP3 players
