#### WARNING

- Always consult your physician before beginning or modifying your exercise routine.
- The device is not medical devices, and could suffer from interference from external electrical sources.

## **WARNING**

Follow these guidelines as well to ensure safe Cycling:

- Always use your best judgement, and operate your bicycle in a safe manner. Do not become distracted by the device while riding, and always be fully aware of your surroundings. Minimize the amount of time spent viewing the device screen while riding.
- While riding, never attempt to adjust settings or access functions that require more than a quick glance. Pull over and come to a complete stop in a safe location off the road before making settings or adjustments.
- Secure your bicycle in a safe place to switch modes or replace the battery.
   The bicycle may fall causing an injury.

English

#### Important Safety Information

- After switching modes or replacing the battery, install the transmitter cover securely and tighten the screw with the specified torque.
   If it is not installed securely, it may fall causing an accident or injury.
- Do not leave small parts such as screws or the battery in an area that infants can reach to prevent accidental swallowing. If you think this may have happened, consult with a doctor immediately.
- Before riding your bicycle, make sure that the device is installed securely in an area that does not disturb riding operations. Make especially sure that cable ties are secure and all screws are tightened as any loose components could cause the device to fall causing an accident or injury.

  Consult with the dealer if there is malfunction such as looseness.

- Do not leave the device in places that are exposed to direct sunlight, high temperature, high humidity, or a lot of dust as it may cause the device to malfunction.
- Never dismantle, refurbish, or repair the device or any attached parts as it could cause electrical shock or the device to malfunction.
- Do not use this device if any unusual conditions exist such as penetration by a foreign object, water submersion, smoke is detected, or an unusual odor is detected.
   Stop using the device immediately and have it repaired.
- This device communicates using ANT+ radio communication. Do not use in areas that forbid the use of electronic devices such as hospitals or airplanes as unintended interference from this device could cause serious accidents

#### CAUTION

- Do not put this device in water or wipe with detergents, chemical duster, or volatile medicines such as benzine or thinner as they may cause the device to malfunction.
- Thoroughly remove any excess bicycle lubricants or cleaners from this device as they could cause an unexpected malfunction.
- Do not allow overly violent impacts on this device as it may cause it to malfunction.
- Do not wash this device with a high pressure water sprayer as water may penetrate into the device causing it to malfunction.

#### **WARNING**

Batteries (battery pack or batteries installed) must not be exposed to excessive heat such as sunshine, fire or the like.

# Information for users on collection and disposal of old equipment and used batteries

Symbol for equipment

Symbol examples for batteries

These symbols on the products, packaging, and/or accompanying documents mean that used electrical and electronic products and batteries should not be mixed with general household waste.

For proper treatment, recovery and recycling of old products and used batteries, please take them to applicable collection points in accordance with your national legislation.

By disposing of these products and batteries correctly, you will help to save valuable resources and prevent any potential negative effects on human health and the environment which could otherwise arise from inappropriate waste handling.

For more information about collection and recycling of old products and batteries, please contact your local municipality, your waste disposal service or the point of sale where you purchased the items.

These symbols are only valid in the European Union.

#### For countries outside the European Union:

If you wish to discard these items, please contact your local authorities or dealer and ask for the correct method of disposal.

## **Operating Environment**

Operating environment temperature and humidity:

-10  $^{\circ}$ C to +50  $^{\circ}$ C (+14  $^{\circ}$ F to +122  $^{\circ}$ F); less than 85  $^{\circ}$ RH (cooling vents not blocked) Do not install this unit in a poorly ventilated area, or in locations exposed to high humidity or direct sunlight (or strong artificial light)

# **Before Use (Important)**

# **Safety Precautions**

## DANGER

#### **About the Device**

- Do not throw the device, strike it with a hammer or other object, or pierce this device in any way.
- Do not use or leave the device in places where it will be exposed to high temperatures, such as near a stove or inside a closed automobile.
- Always keep the device out of the reach of infants and small children.

# WARNING

#### **About the Device**

- Do not use this device if it emits an unusual odor, heats up, changes color or shape, or if any other abnormalities occur during use, while recharging or while placed in storage.
- Do not place the device in a microwave oven or expose it to high pressure, since the device may overheat, rupture, or ignite.
- Keep the lithium battery out of the reach of children. Should battery be swallowed, immediately consult a doctor.

# CAUTION

- Do not recharge disassemble, heat or dispose of the battery in fire.
- Use a CR2032 (3 V) lithium battery only. Never use other types of battery with this unit.
- Do not handle the battery with metalic tools.
- Do not store the battery with metallic materials.
- When disposing of used batteries, please comply with governmental regulations or environmental public institutions rules that apply in your country or area.
- Always check carefully that you are loading battery with its (+) and (-) poles facing in the proper directions.

# CAUTION

# About Water-resistance Observe the following precautions in regard to the device's water-resistant.

- Do not place the unit in water.
- Do not expose the unit to a large amount of water.
- Do not expose to rain for long periods of time.
- Do not pour or place in warm water or water containing soap or detergent.
- Do not use on or near the beach.
   This could cause rust. If exposed to seawater, thoroughly wipe off the moisture immediately with a dry cloth.
- If the rubber packing becomes soiled, wipe it clean with a dry, clean cloth.
- Do not open the transmitter cover in humid environments in which the device could get exposed to water.

 If the device is exposed to a large amount of water or moisture, immediately wipe it down with a dry cloth.

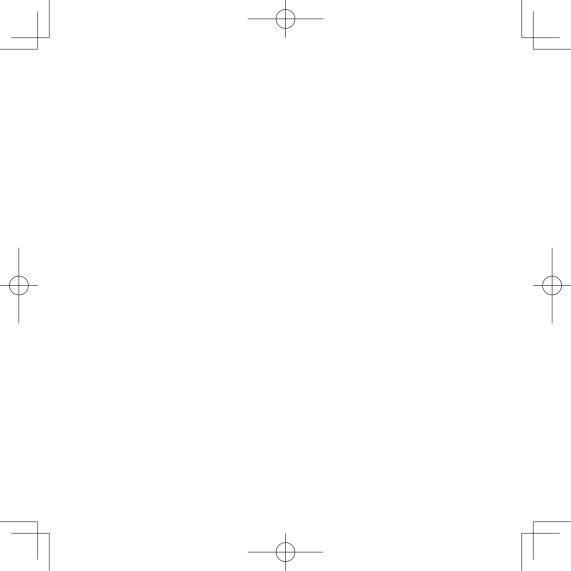

Only open or close the transmitter cover after having completely wiped off any moisture. Be sure your hands are completely dry and you are in an environment where the unit will not get exposed to moisture again.

 If this device is exposed to water, thoroughly dry all crevices on the units body where water may have permeated. This unit has been designed with waterresistance equivalent to standards IPX6(\*) as defined by the International Electrotechnical Commission (IEC). Malfunctions due to water damage

Malfunctions due to water damage caused by improper use are not covered by the product warranty, even if they occur within the warranty period.

- Depending on conditions of use, the water-resistant features are not necessarily guaranteed even during the warranty period.
- IPX6: Protection against strong jet of water

We recommend you have the rubber gaskets in the transmitters of the sensors replaced periodically. (This is a paid service.)
