Charging	Solid red. When fully charged, LED is off.
Battery status	Low = 2 red flashes, Critically low = 3 red flashes
Pairing mode	Flashes red/blue

Step 1 Set up your headset and computer

Install the software

To use all the features of your system, install the Plantronics software from the CD included or download it at plantronics.com/software.

Once the software is installed, Windows users can access the utility by selecting Start > Programs > Plantronics > Plantronics Control Panel.

Charge your headset

To calibrate your headset and provide optimal performance fully charge the headset before using. Connect the AC charger to an outlet and the headset. The headset LED will be solid red to indicate that the headset battery is charging. When fully charged the LED goes off.

NOTE To charge the headset with USB charging cable the PC must be on and in an active state. Charge times using the USB cable will be longer.

Try on your headset

The headset comes configured for the right ear, with the medium eartip installed, however you can replace it with the small or large eartip provided. For the best sound clarity and comfort, make sure you have a secure fit.

Replace the eartip for a better fit

- 1 Grip the eartip and gently push it into the speaker housing.
- 2 Rotate it a quarter turn to the left to unlock.
- 3 Pull the eartip away from the headset.

Attach a new eartip

- Align the tabs on the eartip with the slots on the speaker housing.
- Gently push the eartip into housing while turning it a quarter turn to the right. The eartip will stop rotating when it is locked.

You may want to add a foam eartip cover for additional comfort.

Wearing the headset

- Guide the earloop behind your ear and position the headset so that the speaker and eartip rest comfortably in your ear.
- Pivot the boom up to point the microphone toward the corner of your mouth.

Quick-turn adjustment for the left ear

- Pivot the boom into an upright position.
- Rotate the boom and speaker to the other side of the headset and lower it before fitting your other ear.

Step 2 Connect (Pair) your headset to your mobile phone

1 Ready

Activate the Bluetooth feature on your phone, then use the phone's settings to add/search/discover new Bluetooth devices.

BlackBerry® Settings/options > Bluetooth: On > Search for devices.

iPhone Settings > General > Bluetooth > On (starts the search for devices)

Android Phone Settings > Wireless > Bluetooth: On > Scan for devices

2 Set

To activate Bluetooth pairing mode, press and hold the power button until LED flashes red/blue to indicate pairing mode.

3 Connect

- Select **VoyagerPRO UC v2** from the list of Bluetooth devices shown on your phone.
- If phone asks for a passcode, enter four zeros **0000**. You may see **** on screen.
- Some phones also ask to confirm headset connection after pairing.
- Headset LED will stop flashing red/blue once your phone and headset are successfully paired/connected.

Advanced Features

Auto Answer: When you are not wearing your headset.	When you have an incoming call on your mobile or softphone, simply put on the headset and the call will be answered automatically. You do not have to press the call button.
Auto Pause: When you are listening to streaming audio.	When you are streaming audio from your mobile phone or PC. Simply remove the headset and the streaming audio pauses. Place your headset back on and the streaming audio resumes.
Auto Transfer: Whether you are wearing your headset or not.	If you are not wearing your headset and there is an incoming call, the audio will be routed to the mobile phone. When you place the headset on your head, the audio will be routed back to the headset and will Auto Answer. In the case where the headset is already being worn, the audio will be in the headset and you will need to press the Call Button to answer the call.
Auto Lock: When you are not wearing your headset	This feature locks out the call button to prevent an accidental call when the headset is not worn.

Step 3 Call Making calls with Microsoft Office Communicator

You can make Microsoft Office Communicator calls with your computer using your Bluetooth adapter which comes automatically paired with your headset.

- 1 Ensure the headset is powered on.
- 2 Ensure Microsoft Office Communicator is running on your PC.
- 3 Insert the USB adapter into USB Port on the PC. The LED on the adapter will flash blue to indicate the adapter is connecting to the headset. The LED will become solid blue to indicate the adapter is powered on and is connected to the headset.
- 4 Set the headset and microphone volume to a comfortable level using the Microsoft Office Communicator "Set up Audio and Video" page.*.
- 5 Place a call using Microsoft Office Communicator. The audio connection to your headset will activate automatically when your recipient's phone begins to ring. The LED on the adapter will slowly flash blue while you are on an active call.

* Consult Microsoft Office Communicator Help for more information.
