RF-SPX15

 Bluetooth Wireless Speaker

QUICK SETUP GUIDE

Congratulations on your purchase of the RF-SPX15 Rocketfish Bluetooth Speaker. Your speaker provides high-quality music playback from a Bluetooth-compatible device and clear, hands-free communication with a Bluetooth-compatible phone.

Package contents

- Bluetooth Wireless Speaker
- USB charging cable
- AC adapter
- Carrying case
- Quick Setup Guide

Features

Front

Back

Charging the battery:

Before using your speaker, you need to charge it for about four hours. When the battery is fully charged, it provides up to ten hours of music playback and up to 480 hours of standby time. Plug the USB charging cable into a USB power adapter or a USB port on a computer.

- 1 USB Power Adapter Charging:** use the USB cable to plug your Rocketfish RF-SPX15 Bluetooth Speaker into a USB power adapter.
- 2 Computer Charging:** use the USB port on a computer and the USB cable to charge your RF-SPX15 Rocketfish Bluetooth Speaker.

Turning your speaker on or off

Press and hold the multi-function button for three seconds. Your speaker turns on and beeps and the LED indicator lights blue.

Press and hold the multi-function button for three seconds. Your speaker beeps and turns off and the LED indicator also turns off.

Pairing your speaker with a Bluetooth device

- 1** Make sure that a compatible Bluetooth device, such as your phone or MP3 player, is turned on and within 33 feet (10 meters) of your speaker.
- 2** Make sure that your speaker's battery is fully charged, then turn on your speaker.
- 3** Press and hold the multi-function button for five seconds until the LED indicator flashes red and blue. Your speaker is in pairing mode.
- 4** Activate pairing mode on your Bluetooth device, then set the device to start searching. See the documentation that came with the device.
- 5** On the Bluetooth device, select **RF-SPX15** in the list of found devices.
- 6** On the Bluetooth device, enter **0000** as the PIN. Your speaker beeps twice and the LED indicator lights blue.

Playing music

- Press the multi-function button to start or pause playback.
- Press the next button to go to the next track. Press and hold the button to fast forward.
- Press the previous button to go to the beginning of the current track or to the previous track, depending on how long the current track has been playing. Press and hold the button to fast reverse.
- Press the + button to increase the volume, or press the — button to decrease the volume.

Using the phone feature

Press the multi-function button when the phone is ringing to answer the phone call. Press this button again to end the call.

Double-press the multi-function button when the phone is ringing to reject the phone call.

Press and hold the multi-function button for two seconds to switch a phone call from the phone to the speaker.

Press the + button to increase the volume, or press the — button to decrease the volume.

Press the next button to mute the microphone. Press the previous button to unmute the microphone.

Disconnecting your speaker from the device:

- Turn off your speaker.
- Disconnect your speaker in the device's Bluetooth menu.
- Move your speaker more than 33 feet (10 meters) away from the Bluetooth device.

Resetting your speaker:

Insert a paperclip into the reset hole, then press the reset button. Your speaker turns off and resets.

FCC and IC information

This device complies with Part 15 of the FCC Rules and Industry license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measure

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

RSS-Gen & RSS-210 statement:

"This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement."

RSS-102 Statement:

"This equipment complies with Industry Canada radiation exposure limits set forth for an uncontrolled environment. "
 "Cet équipement est conforme à l'exposition aux rayonnements Industry Canada limites établies pour un environnement non contrôlé. "
