SPECTRALINK® 8452 Wireless Telephone

Regulatory Information

NOTES AND WARNINGS

- HAC—This equipment is Hearing Aid Compatible (HAC).
- Handset Operation Normal Position—Hold the handset as you would any other telephone, with the earpiece to your ear and speak into the microphone. The internal antenna is then positioned properly.
- Handset Operation Body-Worn Position—To maintain compliance with RF energy exposure guidelines, if you wear a handset on your body when transmitting, always use the handset with a Polycom-supplied accessory as described in the user guide for this handset. Polycom supplies belt clips, holsters and lanyards for body-worn operation. Use of accessories not supplied by Polycom may cause the handset emissions to exceed RF energy exposure guidelines.
- The user should not make changes or modifications not expressly approved by Polycom. Any such changes could void the user's authority to operate the equipment.
- Warning—The earpiece/mouthpiece region on the handset can attract and retain small metallic objects.

FCC Information

FCC registration number: M72-PS8452

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Radiation Exposure Statement: This portable device with its antenna complies with FCC's RF radiation exposure limits set forth for an uncontrolled environment. To maintain compliance this transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Charger Information (FCC AND IC)

Charger models SA106B-05, DCA39, DCA40, 8410

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This Class B digital apparatus complies with Canadian ICES-003.
Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.
