

Additional Statements for the Precise BioAccess Mifare

The following additional text will be include in the instructions delivered with the product:

This device has been certified to the FCC rules and regulations (CFR47 Part 15 Subpart C) for the low power transmitter contained within this device. In addition, this device has also been verified to comply with Class B digital device requirements as specified in the FCC rules and regulations (CFR47 Part 15 Subpart B).

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

CAUTION: Changes or modifications not expressly approved by the party responsible for Compliance could void the user's authority to operate the equipment
