

E-Dice Using Guide

Notice:

- The using age of the E-Dice is over 14 years old.

Pairing the E-Dice

The E-Dice is paired for your convenience before out of factory. It should work immediately after plugging the dongle into your computer.

You may need to manually pair the E-Dice if it is not functioning.

To pair the E-Dice, do the following:

1. Plug the dongle into USB connector of your computer.
2. Open the software program, then click **E-Dice Testing** button in the pop-up dialog box, then click **Start Pairing** button and roll the E-Dice, when the E-Dice is stopped, the dialog interface will show the same pips with the E-Dice, then click **Complete Pairing** -> **Back** button to finish the pairing process.

Note: You need to do the same pairing process when you get a second E-Dice before playing games.

Charging the battery for E-Dice

The E-Dice has an internal rechargeable battery. The battery indicator is on the SIX pips side of the E-Dice.

When you roll the dice, the indicator light blinking indicates low on power.

To charge the battery, do the following:

Put the dice into the included USB power adapter and connect the adapter to computer USB connector.

Note: When the dice is charging, the indicator blink. When charging completed, the indicator light will be not bright.

Using and Maintenance

The effective range between E-Dice and computer is 10 meters. Find a comfortable posture when rolling the dice.

Keep the E-Dice away from water or wet environment. Clean the dice with a soft and dry cloth.

FCC ID: EMJKGA800

FCC ID: EMJKGA800-D

FCC Statement:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help."

FCC Caution:

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
