- Rechargeable Bluetooth keyboard, charges via micro USB to USB cable (included)

Keyboard overview

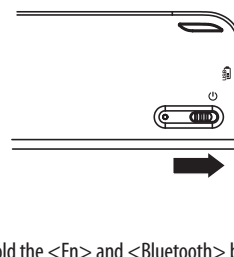

1. Power button
2. Bluetooth LED indicator and low battery and charging LED indicator
3. Micro USB port for charging
4. Pairing procedure

(Press and hold <Fn>+<Bluetooth> for more than two seconds)

Connecting with an Acer tablet

1. Make sure your Acer tablet is on.
 2. Slide the power switch to the right on Acer Keyboard Cover.
- 
3. Press and hold the <Fn> and <Bluetooth> buttons simultaneously for 2 seconds or until the Bluetooth indication LED begins to blink.
 4. Go to Settings on your Acer tablet > Change PC Settings > Devices > Add a device. The tablet will begin to search for available Bluetooth devices to pair with. Acer Keyboard Cover will show up on the screen when the device is identified.
 5. Follow the pairing procedure and the onscreen instructions to finish pairing the keyboard with the tablet.
 6. The power/Bluetooth indication LED will stop blinking when the devices are paired.

Note: Charge your Acer Keyboard Cover with the in-box micro USB to USB cable when the power LED starts blinking.

Reconnecting to a paired tablet

Turn on your keyboard. It automatically pairs to the last connected tablet if that tablet is within 33 feet (10 meters) of your keyboard.

Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

Radiation Exposure Statement:

The product comply with the US/Canada portable RF exposure limit set forth for an uncontrolled environment and are safe for intended operation as described in this manual. The further RF exposure reduction can be achieved if the product can be kept as far as possible from the user body or set the device to lower output power if such function is available.

CAUTION: Any changes of modifications not expressly approved by the grantee of this device could void the user's authority to operate the equipment.

IC Statement

This device complies with RSS-210 of the Industry Canada Rules.

Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Son fonctionnement est sujet aux deux conditions suivantes: 1) le dispositif ne doit pas produire de brouillage préjudiciable, et 2) ce dispositif doit accepter tout brouillage reçu, y compris un brouillage susceptible de provoquer un fonctionnement indésirable

Radiation Exposure Statement:

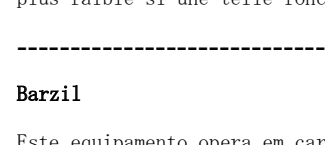

The product comply with the US/Canada portable RF exposure limit set forth for an uncontrolled environment and are safe for intended operation as described in this manual. The further RF exposure reduction can be achieved if the product can be kept as far as possible from the user body or set the device to lower output power if such function is available.

Déclaration d'exposition aux radiations:

Le produit est conforme aux limites d'exposition pour les appareils portables RF pour les Etats-Unis et le Canada établies pour un environnement non contrôlé. Le produit est sûr pour un fonctionnement tel que décrit dans ce manuel. La réduction aux expositions RF peut être augmentée si l'appareil peut être conservé aussi loin que possible du corps de l'utilisateur ou que le dispositif est réglé sur la puissance de sortie la plus faible si une telle fonction est disponible.
