

What's in the box:

- 1 Rocketfish RF-EX7 Bluetooth headset
- 1 charger
- 1 USB charging cable
- 1 *Quick Setup Guide* (what you're looking at)
- 4 round earbuds
- 3 fitted earbuds (medium size is pre-attached)
- 1 ear loop

1 Power & Pair

- 1 Lift the charging port cover, then connect the charger. When, the indicator changes from red to green, and you can disconnect the charger. (See no.11 and no. 36)

What is PureSpeech®?
PureSpeech is a state-of-the-art noise cancelation and signal processing technology created by SRS Labs and CSR. Your EX7 headset incorporates PureSpeech so that you can hear your calls in amazing clarity, but also so you can be heard clearly by your callers. PureSpeech is always activated on the EX7 so you will "Hear and Be Heard Like Never Before."

- 2 Press and hold the power button for 3 seconds to turn on your headset. It will automatically enter pairing mode when you turn it on for the first time. When in pairing mode, the LED light will blink Green. (on confirmation)

- 3 Activate Bluetooth on your phone, then set your phone to search for nearby Bluetooth devices. For help with this step, see your cell phone's user guide.
- 4 When your phone detects the RF-EX7, select it on the list, then enter "0000" (zeros) for the PIN. The headset beeps and the indicator turns green.

To turn off the headset, press and hold the power button for about two seconds.

2 Get the perfect fit

Use one of the fitted earbuds for the most convenient and comfortable fit, or alternatively use a round earbud in combination with the ear loop.

To use a rounded earbud:

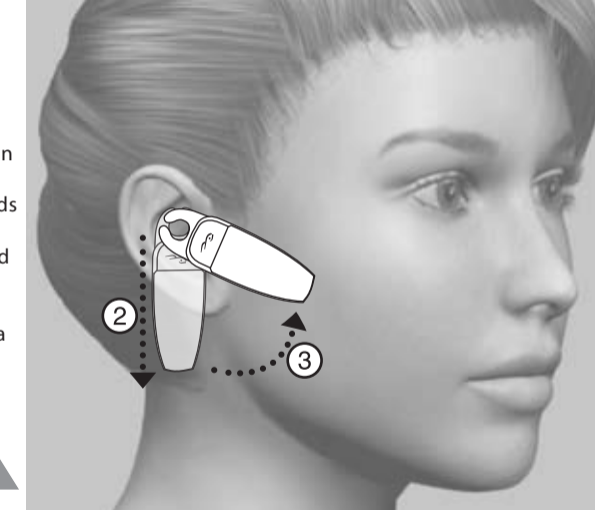

- 1 Remove the fitted earbud that's already attached, then press the round earbud onto the headset.
- 2 Attach the ear loop for a secure fit.

To use a fitted earbud:

- 1 Attach the appropriate size of fitted earbud onto the headset. The medium fitted earbud is already attached.
- 2 Insert the headset vertically in your ear (shown in step 2)
- 3 Rotate the headset up towards your mouth. The flexible portion of the ear bud should fit securely towards the back of your outer ear. You may need to guide it to a comfortable position with your finger.

3 To Call

To **dial** a number, make sure that your headset is turned on, then dial the number from your phone. Your headset will activate as soon as the number is dialed.

To **voice dial** a number (not supported on all phones), press send/end. A tone plays, which is your signal to speak the command or number.

To...	Do this...
End a call	Press send/end.
Answer a call	Press send/end.
Redial a number	Double-press send/end.
Reject a call	Double-press send/end.
Switch a call between the headset and the phone.	Press and hold the power button and send/end for about two seconds.
Mute a call	Double-press send/end.

To...	Do this...
Increase the volume	Swipe upward (toward the ear) on the touch pad. You will hear a different "beep" for each level change in volume. 
Decrease the volume	Swipe downward (away from the ear) on the outside of the headset. 

4 Maintaining

LEDs

Green	Power On
Green (fast flashing)	Pairing State
Red (flashing)	Low Battery

Know the facts

Recharge time: About two hours

Talk time: Up to eight hours

Standby time: Up to 300 hours

Phone pairing: Up to eight phones at the same time

To...	Do this...
Enable or disable the indicator	Press the power button and send/end together.
Check the battery level (method 1)	Turn the headset on, then press and release the power button. Green = Between 1/2 and full charge Green then red = Between 1 hour talk time remaining and 1/2 charge Red = Less than 1 hour talk time remaining.
Check the battery level (method 2)	Turn the headset on. If the indicator flashes red and green, or if it beeps every 300 seconds, the battery level is low.
Erase paired device information	Turn the headset off, then press and hold the power button and send/end together for about two seconds.
Multipoint pairing (pairing the headset to multiple phones)	Pair each phone with the headset. When you are in a call with one phone but the other phone rings, press send/end to switch to the second call.
Reset	Connect the charger to reset the headset, then user can power on headset after remove the charger.
Disconnect from the phone (un-pair)	Turn the headset off, then use the phone's Bluetooth menu to disconnect it. For help with this step, see your cell phone's user guide.
